DISTRICT FIGHTS TO OPEN TRAFFIC ON ALL HIGHWAYS

Every Effort Being Made to Formalize and to Proceed on Main Road

SNOW AND WIND BLOCKS MOVEMENT EFFECTIVELY

Snow Fighting Equipment Is Ordered Concentrated Near Shoshone

Snow and wind during the past 24 hours have effectively blocked all travel in the south-central portion of Idaho and other traffic in a stand-still, according to reports received in Twin Falls today.

Every effort will be made by the state highway department and highway districts to open snow-blocked highways in this district today, Newell H. Walsh, secretary of the Twin Falls Chamber of Commerce, has been advised by A. N. Ashline, district highway engineer.

State snow fighting equipment now concentrated at Shoshone has been ordered to proceed west over the north-south highway to Blaine from Bliss the snow plows will be directed on the Blaine-Twin Falls highway east to Burley. Mr. Ashline declared that the equipment would advance against the drifts with all possible speed, possibly reaching Twin Falls early this morning.

The Oregon Short-Line tracks west to Minidoka retained normal traffic and were operating on schedule. The Wells-Twin Falls line yesterday afternoon was closed on account of the aid of a large rotary snow plow from Pocatello. The Twin Falls-Sandwich line was closed. Wells due to the drifts and both trains will return here today. One train will return to Wells immediately so that the western schedule will prevail.

The snow from behind the clouds earlier today and cleared much of the snow to reveal, giving visibility to the west, but drifting in about seven.

American Patrolmen on Mexican Border Struck By Shots of Smugglers

MEXICAN FEDERAL TROOPS ADVANCE AGAINST REBELS

American Troops Ordered Sent to Bisbee, Arizona

WASHINGTON, March 12 (UP)—Troops from Fort Huachuca were ordered today to protect the Mexican border to prevent the town and the water supply of Bisbee, the war department announced today.

The department said Maj. Gen. William Lashley, commanding the eighth corps area, with headquarters at San Antonio, ordered the troops to move in response to requests from the population of Bisbee, which is a group of cavalry and one company of infantry to be used to protect the area. The war department stated this was the only troop movement in connection with the Mexican disturbance of which it had been informed.

Troops of Huachuca are the 10th cavalry and the third battalion of the 25th infantry. The troops were commanded by Col. Isaac Lee McCawker.

BROWNS LEAVE TO PLAY IN TOURNEY

Eight Men and Coach Enroute to Moscow to Fight for State Basketball Championship

The Twin Falls basketball team left for Moscow last night to enter the state basketball tournament to be held there this week. Coach A. V. Brown took with him several players, among them several players who were selected by the team.

The players among early Monday morning with the expectation of leaving early by motor car. The sudden blizzard which came up during the night prevented the team from leaving and were made late in the day for the team to leave on the train.

The team has had a record of victories against and a slight defeat, but of having made more than four points in every point made by opposing teams. They have won easily from the Pocatello team, although that game was played in a very storming trip, and are expected to be one of the strongest teams at the tournament.

"Reach for a Lucky and not for a sweet"

Fannie Ward Famous for Her Ever-Youthful Appearance.

"Reach for a Lucky and not for a sweet! That's been my policy ever since Luckies started—my way of retaining the figure I need to be known as the ever-youthful Fannie Ward. So I say to you women who want to cheat time as I have done, 'Reach for a Lucky and not for a sweet!'"

FANNIE WARD

THE modern common sense way—reach for a Lucky instead of a fattening sweet. Everyone is doing it—men keep healthy and fit women remain a trim figure. Lucky Strike, the finest tobacco, skillfully blended, then toasted to develop a flavor which is a delightful alternative for that craving for fattening sweets.

Toasting frees Lucky Strike from impurities. 20,679 physicians recognize this when they say Luckies are less irritating than other cigarettes. That's why folks say, "It's good to smoke Luckies!"

Note: Authorities attribute the enormous increase in cigarette smoking to the improvement in the process of cigarette manufacture by the application of heat. It is true that during the year 1928, Lucky Strike Cigarettes showed a greater increase than all other cigarettes combined. This confirms in no uncertain terms the public's confidence in the superiority of Lucky Strike.

Buddy Washington Fights Draw With Battler of Omaha

SALT LAKE CITY, Utah, March 12 (UP)—Buddy Washington, local catfish negro, and Edwin Jule of Omaha, battled a smashing eight round last night. The pair fought an even term for the first two rounds, the Nebraska landing heavily on his rival's midsection. The local catfish countered smartly, however, with stinging left blows.

Jule gained a shade in the third round forcing Washington to cover with a terrific volley of lefts and rights to the head. In the fourth Washington retained, winning the round by a good margin, keeping Jule against the ropes with a series of lefts.

Daily Poem

PALANQUIN BEARERS
 Sarah, O. lightly, we bear her along,
 She sways like a flower in the wind of our song,
 She swings like a bird on the beam of a dream,
 She floats like a cloud on the wings of a dream,
 O, pally we glide and we sing,
 We bear her along like a pearl on a string.

Softly, O softly we bear her along,
 She hangs like a star in the dew of our song,
 She springs like a beam on the brow of the tide,
 She floats like a cloud on the wings of a dream,
 O, pally we glide and we sing,
 We bear her along like a pearl on a string.

FARM LEGISLATION

SENATOR McNary of Oregon is preparing to start writing new farm legislation that will be introduced in the senate when congress convenes in the special session April 10. We are informed by the United Press that he visited President Hoover Saturday to confer with the chief executive on his ideas as to what should be done in the way of legislation on the widely discussed subject of farm relief.

The public is interested in farm relief legislation. Even if agriculture were not our greatest single industry, interest in the matter would be high as a matter of course, due to the fact that farm relief proposals have been before congress now for the greater part of a decade. How to help the farmer by legislative means has been more persistent with us than any other one subject.

Just how much real assistance can be made possible for agriculture through federal legislation is a question that has puzzled public men a great deal during these past few years. The question of securing greater profits, and that in the final analysis is what agriculture wants—is an economic matter and not primarily a matter of politics or legislation, many real friends of agriculture insist. The farmer individually, or all farmers in organizations, must work together to improve their condition, we are told. Keep the tariff barriers up to protect the American farm, and then pass to the farmers themselves the working out of solutions to problems of distribution and merchandising, the free advice goes. Count the government out of this matter, some suggest.

Whenever production drops so that demand overtakes supply to make a seller's market, agriculture will come back to its rightful share of profits, and not before, other students of the subject declare. This country's surplus of foodstuffs is not very great now, and as population continues to increase, the correction will be automatically evolved, we are informed. In the meantime, are those to be found with the courage to discourage production until it drops through unseasonable weather or other factors until we are on a food importing basis? Danger lies in that direction.

Farm relief is a big complex matter of almost unending ramifications. Volumes have been printed about the subject during these strenuous years since the war, and farmers themselves are not able to unite with any degree of solidarity on any one proposal that might be expected to solve their problems. It is extremely doubtful whether really satisfactory legislation can be evolved to provide relief for agriculture. If it is possible to realize such an end, hasten the day!

If we find that no legislative cure-all can be found, the efforts to secure legislation may not have been vain, after all, and the dragging of agriculture's problems into the open for discussion and scrutiny may result in such gradual changes in the practices of the different industries that go to compose agriculture as to make the farm dollar worth 100 cents.

In the meantime, it will be interesting to find what the new measure proposes to offer as a solution of one of our oldest, present day problems.

There are no newspapers in Tibet, according to a dispatch from India. Why doesn't Gene Tunney buy a home there?

A CHANCE FOR CHICAGO

OF COURSE, it's Chicago's own business. Maybe Chicago has already thought of it, and maybe the idea does not appeal to it at all; but anyhow, we think it's a hunch.

An extremely distinguished, capable and energetic citizen of Chicago has just returned to private life. After years in government service, he is, so to speak, out of a job again.

Chicago, as it happens, has an extremely perplexing and pressing problem on its hands—a problem that has to do with gangs and crime and racketeers and crooked politicians and all such like phenomena. It needs a big man to give it a lift out of its present slough; a man who can't be scared, a man who knows about government and about business, a man in whom the public has confidence.

So, we repeat, Chicago might ponder on the fact that just such a citizen of Chicago, is returning to private life and might be pressed into service.

His name? Charles Gates Dawes, until recently vice president of the United States.

A BAD BET IF YOU WIN

WHEN you make a bet, be careful whom you make it with.

A Detroit man not long ago bet \$10 on a prize fight—but it with a bartender in a speakeasy. His fighter won and he went to the speakeasy to collect. The bartender was prepared to pay—but he insisted that the winner take it out in trade.

Manfully the lucky bettor struggled to consume \$10 worth of drink. He succeeded, but the effort left him woozy and awry-eyed, and when he left the place he staggered into the arms of a policeman and was taken to the station-house to sober up.

And next day he had to appear in court and pay a fine.

Sometimes the winner of a bet is worse off than the loser.

SOME FIGURES ON AVIATION

IF YOU doubt that the aviation industry is rapidly on the way to a position among the nation's industrial giants, harken to these figures just made public by the Aeronautical Chamber of Commerce.

During 1928 American aircraft manufacturers built airplanes to the value of over \$75,000,000—140 per cent greater than in 1927.

To be sure, as American businesses go, a gross production of only \$75,000,000 is not large. But it is the rate of growth which this figure indicates that is important. The aircraft industry is just beginning to hit its stride.

The people who have been worrying about what to do with old razor blades can turn their attention to a new and pressing problem—what will Coolidge do with that silk hat in Northampton?

THE TWENTIETH SESSION

(Dawson Treharne)

The twentieth session of the Idaho legislature, which passed into history the week-end of a year ago, is credited with being one of the best in recent years. It is true there was nothing of a very controversial nature about the proceedings and the session was not marked by the usual fire and energy of most legislative organizations, nevertheless, it will go down in history as a session which has passed but little new legislation and repealed a vast quantity of deadwood, obsolete laws never used.

With one or two notable exceptions, departing of course on the point of view, there was no freak legislation passed. Attempts along this line ran into a barren, but it certainly was not the worst. In the first place this session gave the public something for which it has been clamoring for a season which passed but little new legislation and repealed a vast quantity of deadwood, obsolete laws never used.

Yet to the spectator on the sidelines it would seem that in many respects the twentieth session is outstanding among legislatures. It might not be the best, but it certainly was far from the worst.

In the first place this session gave the public something for which it has been clamoring for a season which passed but little new legislation and repealed a vast quantity of deadwood, obsolete laws never used.

There was much talk about a big tax program at the start, and much disappointment was expressed at the close because the big experimental measure were defeated. Yet the state, in the words of one legislator, has not lost anything. The session of the program—it merely called it out—some things simultaneously experiments.

The important branch which opened between the governor and the leaders of the legislature, particularly of the senate, probably was unavoidable under the condition of affairs. The experimental program was somewhat daringly experimental, while the senate is traditionally, and deservedly, conservative by nature. The final conclusion. This reporter is happy to relate that the breach is apparently healed and the relations now are of the best.

Maberly Named to Teach at Rupert

Mr. Maberly will succeed Daniel J. Warren, who resigned to become district judge for the south central Idaho district. Mr. Warren is also a graduate of the University of Idaho, holding a B.S. degree in agriculture in 1927. Mr. Maberly attended the university for one year, being enrolled in the college of agriculture in 1918. His record as a teacher shows him to be a successful one. Mr. Warren's appointment as district judge became effective Monday and during the two months before Mr. Maberly assumes his duties at Rupert the school will be handled by two private teachers from the college of agriculture, Dean H. Dixon, teacher, Cyril Allen of agriculture, and George Allen of agriculture, in doing the work at Rupert during March. No one has been named to handle the teaching during April.

Personal Service for Particular People

When you are suffering from an ailment that requires expert attention from the doctor, of your choice you expect his personal attention and expert skill in handling your case.

In this office you can expect just that; we do not employ assistants nor do we turn you over to anyone who is not licensed and schooled in a suitable manner to treat you. You are assured of personal service from a Graduate and Licensed Doctor, during your treatment, at all times.

It is not our intent in advertising to portray a vivid picture of a "Get Well Quick" or "Cure-all Factory," nor to entice you to our office through "cut rate" medicine. We are of the opinion that the public gets just what they pay for and nothing more.

This office has stood the test for fourteen years, hundreds will testify to the benefits received, and instead of cutting the price for professional service, we have increased the efficiency and equipment to give the public a better health service for their money.

If you are ailing, it will save you to investigate our methods. Consultation and examination is free.

To relieve the suffering is our ambition.

WANTED FOR PCASII 10,000 ACRES

Of Sugar Beets at \$7.50 per ton, guaranteed minimum, with the straight 50-50 profit-sharing provisions in the contract. It only requires a seventy-five per cent harvested stand of two pound Beets to make twenty tons per acre. \$85.50 per acre pays for seed, ALL hand labor, including the topping and LOADING of a twenty-ton crop. 1929 is sure to be a good Beet year. Can you afford to miss an opportunity for REAL PROFIT in a CASH CROP? It is NOT necessary to plant Beets on alfalfa or one year from alfalfa land. All of Southern Idaho's fertile lands respond very readily to intensive farming methods, which invariably proves to be an economic essential. Any REASONABLY GOOD land, properly prepared, will produce, with average care, a PROFITABLE crop of Beets, with a substantial and timely return on your investment. The fundamental necessity to our success is your prosperity. If you succeed, We succeed. If The Amalgamated Sugar Company remains in the territory with its enormous investment and payroll, your financial burdens are greatly relieved. It cannot remain without your support. With a keen interest in your success we are offering a very attractive contract with a maximum guarantee and the best service an efficient organization can render, supported by a scientific, conservative and favorable prediction by The United States Department of Agriculture. Not a lottery—Not a gamble—Sugar Beets for a sure thing. The frosts and hail may come, you know, BUT the Sugar Beets just continue to grow.

DIVERSIFY

We earnestly solicit the support and co-operation of the Twin-Falls County FARMERS, LAND OWNERS and CITIZENS in making this the BANNER BEET YEAR and securing for the territory a two and one-half million dollar beet and labor payroll coincident with a factory operation. NOT ALL BEETS: All we ask is a chance at a conservative part of your business. Call your fieldman or Phone No. 4. We will gladly look over your land and will NOT advise you wrong.
