MAN OF PICTURESQUE CAREER DIES AT 69

ROCKLAND, (Me.)—An adventurous career was ended with the death of Charles A. Harriman, aged 69 years. He ran away from home when a youth to enlist in the navy, in which he served nine years. His activities included service as a Texas Ranger, as a member of the mounted police in Montana, and as a deputy United States marshal in Kansas. He fought against the Indians and was wounded in the fight in which Sitting Bull was killed.

In 1881 Harriman won the national championship as a long distance pedestrian, walking 520 miles and 440 yards in a six day race in Chicago.

Returning to Maine he took up evangelical work and also was active in the leadership of several industrial strikes.

PREPARED FOR LONG SIEGE

PORTLAND, Maine.—The liquor deputies recently seized a package at the express office containing 12 quarts of whisky. The claimant for the liquor produced a doctor's prescription for the contents. The doctor who issued the prescription declared that it was for two quarts. The deputies started figuring. The prescription called for one teaspoonful of whisky before each meal, "to cure a cold." Further figuring showed that there are approximately 320 teaspoonfuls in a quart, and three meals a day allows one quart for 107 days. And then, 12 quarts, at this rate, would presumably take care of the cold for 1284 days.

SEASONABLE BUILDING CHATS

"Good morning, Mr. Updegraff. Why "Mrs. Smith and I are figuring folks?" "Fine" Mr. Updegraff, fine."

"Mrs. Smith and I are figuring somewhat upon building a new house in the spring and we thought we'd be sure and stop at your place and get a plan book." "Have you and Mrs. Smith any idea as to what you want in the way of a house?" "Oh, yes. We have been making rough sketches for our idea of a home for some time." "Well in that case, Mr. Smith, we'll go you one better than a plan book, we will send your sketches to our architectural department at Boise, and have our expert architects draw you a floor plan to scale, embodying your own ideas, and also a color sketch of a suitable elevation showing just how your house will look when completed." "But that will take too long and cost too much Mr. Updegraff." "That's just where we will surprise you both ways with our service plan: we will have your sketch here in three days and the cost will be exactly NOTHING." "Well, Mr. Updegraff, that is certainly quick work, and a most generous offer." "I will bring those sketches tomorrow without fail." "Good bye Mr. Updegraff. Good bye, Mr. Smith."

BUILDING WORKERS DWELLINGS

GALT, Ontario.—As many workers in this city are compelled, owing to the dearth of houses, to have their homes in surrounding towns and villages, the city council is applying to the government for a loan of $250,000 under the conditions named in the provincial housing act. The appropriation will be used to build a hundred dwellings.

The pageant will form at the depot on the arrival of the war trophy train coming from Filer, where it will be exhibited at 6:30.

The plans for the parade have not yet been completed, but it will be led by the high school band, which will be just behind the French tank, following which will come the contingent of war veterans, which will accompany the train. Next in line will be the G. A. R. veterans (the last of whom will be in line), the Spanish American War veterans and the Great War veterans.

It is the desire of the committee to have as large a representation of veterans out as possible," declared Lieutenant Epler, chairman of the Liberty loan committee. "We are trying to have a full showing of the Spanish-American veterans, to the youngsters, who in the big conflict, have the snap of it. There should be at least a dozen sailors and marines of the World war on hand. We want to see the navy and marines fully represented as the army crowd. Backed by the Board.

Recounting the history of the negotiations, Mr. Hines stated that his counsellors, John Skelton Williams, Robert S. Lovett and Henry Walters, members of the railroad administrations' advisory committee on purchases, Mr. Powell, Henry B. Spencer, director of the railroad administrations division of prices and Interstate Commerce Commissioner McCord had agreed unanimously that the industrial boards figures were high. All of these advisers, except Commissioner McCord, consulted at one time with Chairman Colver of the federal trade commission, and subsequently expressed the opinion that the prices were too high. The attitude of Mr. Colver was not disclosed. The Hines' opinion was again reiterated after conferences yesterday in New York with representatives of the steel industry, Mr. Hines said.

WANTS LEAGUE OF WORLD BUT HIS KIND

Opponent of Senator Hitchcock in Joint Debate Suggests Court As Part of Covenant.

By the Associated Press.

PHILADELPHIA, Pa., April 10.—United States Senator Hitchcock of Nebraska, and George Wharton Pepper of Philadelphia, executive manager of the league for preservation of American independence, tonight debated the constitution of the league of nations as made public in the Paris peace conference before an audience that jammed the Metropolitan opera house.

Senator Hitchcock's speech was along the general lines of his former addresses there and other parts of the country. He said the present is the last time to take steps to prevent war; that the proposed league of nations is the best instrument that has yet been devised to prevent war; that the constitution of the league is a compromise that you can not get anything better and that you must accept it or there will be no league. It is a contract, a covenant, a treaty and not a super nation and not a super government, as some critics have declared. It is nonsense to say, Mr. Hitchcock added, that it takes away sovereignty.

Mr. Pepper suggested that the league should contain for the establishment of a high court of justice. The jurisdiction of the court should be carefully designed, he suggested, and that the questions arising between nations that are within its jurisdiction should be submitted to it as a matter of compulsion. Among those questions would be interpretation of a treaty, application of any rule of international or any fact necessary to be known before it can be decided whether the position of a nation is to be known before it can be decided whether the position of a nation is to be known before it can be decided whether the position of a nation is right or wrong and, where there is an admitted wrong the damages to be assessed.

SOLDIERS TRY NEXT WEEK TO LAND MEETING

Captain Sweely to Issue Call *to Take First Steps for* State Organization.

TWIN FALLS LOGICAL PLACE TO CONVENE

September or October is Suggested as Time for the Gathering.

At a meeting to be called next week by Captain E. M. Sweeley, one of the officers of the organization of enlisted men already formed in Twin Falls, the matter of issuing an invitation for the first state reunion of soldiers to Twin Falls will be decided.

Plans for participation in the Memorial day program of the G. A. R. will also be made.

At the meeting other organizations formed throughout the state will be asked to suggest a time for the meeting and if desirable to send delegates here for a preliminaryy caucus so that there will be cohesion between the various plans to be advanced.

Soldiers, sailors and marines of Twin Falls were greatly enthused yesterday when they read in The Chronicle of the proposed national and state organization.

"I believe that the plan for the convention as proposed in The Chronicle should be pushed immediately," declared Captain Sweeley at the time of his decision to call the meeting of veterans already returned to consider the plan. "Twin Falls is the logical place for the meeting and the fact of the first to the field to issue an invitation should result in our securing the meeting.

"If the meeting is held in late September or early October it is certain that the major portion of Idaho's veterans will have returned from overseas there." If the national convention is held, as proposed, on November 11, a state meeting in October would insure strong representation for Idaho at the national meeting.

Lieutenant W. L. Epler, chairman of the liberty loan committee for Twin Falls county, is another who approved the plan.

"Certainly I believe that Twin Falls should be the meeting place of the first state reunion," he declared. "But I do not believe it advisable to have the meeting until after it is certain that the boys in France are to be here. The convention should be held at the time of the dedication of the Shoshone Falls Park memorial. By combining the two it is a certainty that both will be a success. The convention should not be held unless it is certain that it will be a success."

Dave Gardner is another returned soldier who approves of the plan. "I am for it and will back the proposition with all possible effort."

TO INCREASE WAGES OF TELEGRAPHERS

By the Associated Press.

WASHINGTON, April 10.—Postmaster General Burleson declared today that increases in telephone and telegraph rates under government supervision of the wire systems provide only for advances in the wages of employes granted or contemplated and for greater cost of material and supplies and that no part of the increases benefit the owners of the systems. Officers of the Commercial Telegraphers Union of America, which is now conducting a strike vote, have charged that employes have failed to receive advances in wages commensurate with the increased wages in other lines.

"The owners of the systems," said a statement issued by the postmaster general) do not benefit in any way from the increased rates collected for either telegraph or telephone service.

"The increase of wages allowed employes of the wire systems under government control aggregate for telegraph and telephone combined $34,000,000 per annum, while the total increases made or contemplated amount to less than $40,000,000. It is necessary to provide for increased cost of apparatus, material and supplies as well as for the wage increase and the increase of rates is not as great as applied to either service, as would have been unavoidable under private control."

WOMAN PLAYS "JOKE" ON OFFICERS AND HUSBAND

"I was just playing a joke on Mr. Thompson because he will not rent a home for us to live in," explained Mrs. Thompson.

Thompson had called the officers at about 7:30 in the evening saying that his wife had asked him to give her some money so that she could kill herself. On failing to find her at her usual place of abode the man had firm in the belief that his wife had carried out her threat. He had the officers search the Rock creek section and make a visit to all coming houses, expecting to find her body at every stop.
