OPERATORS TURN DOWN PRESIDENT

Bituminous Men Refuse Harding's Invitation to Submit List of Men from Which to Select Committee to Probe the Coal Industry.

CLEVELAND, O., Oct. 3.—Bituminous coal operators attending the "strike prevention" conference here are said to have definitely decided to refuse President Harding's invitation to submit a list of men from which he could select a goverment committee to probe the coal industry.

Although presidents attending the conferences decline to affirm or deny that it had been agreed to decline the president's request, it was said that this decision was reached at the operators caucus today.

Differences Exist.

Marked differences among coal operators meeting with union leaders here thus far has prevented any agreement between the two factions regarding a 1923 wage scale.

Suggestions were before the operators caucus today that a national association of union bituminous miners be formed.

Phil N. Penna, secretary of the Indiana coal operators' association and chairman of the operators caucus, said it was unlikely that such a body would be organized, however.

The operators were to meet with the general policy committee of the miners late today.

Two Die When Man Loses Control of Auto Near Bank

GRAND JUNCTION, Colo., Oct. 3.—Two persons were instantly killed and two others slightly wounded when a public chauffeur overran a steep embankment. Leonard H. Biggle, 25, of Denver, and Miss Dell Deakin, 18, of Grand Junction, were killed when Dinda lost control of the car and it fell over the embankment, pinning Biggle and Miss Deakin. The other occupants of the car were injured.

Isadora Duncan Is Out with Husband; Are Not Bolsheviki

NEW YORK, Oct. 3.—Miss Isadora Duncan, classic dancer, and her new Russian husband, Sergei Essenine, demonstrated to the satisfaction of immigration authorities that they hadn't married "red" while mingling with the Bolsheviki and were admitted to the country.

REICHSTAG IN SESSION FACES DEEP PROBLEM

German Parliament Must Meet Issue Arising from Increased Living Cost; Rise in Prices More Rapid Than in Wages; Trouble Brewing.

BERLIN, Oct. 3.—Germany's external battle with fantastically mounting costs of living will occupy a generous portion of the time of the reichstag fall session, starting today.

Coupled with the cost of living problem will be spirited discussion of the government's foreign policy and consideration of the reparations question.

These two problems have touched the daily life of every man, woman and child in the most vital spots—the pocketbook and the stomach.

In the first place, a series of laws affecting the food supply of the nation are likely to be brought forth. The labor unions, long seeking to have a powerful voice in direction of the nation's affairs, are not satisfied with measures already undertaken by the government to alleviate the lot of the poor.

As a result, it is expected that the unionists will make their demands felt through the reichstag, especially with the aid of the new united social democratic party of Germany, a combination of the old social democrats and independent socialists.

More moderate laws being sought. This applies particularly to the so-called key industries, such as coal mining.

As the second great point of interest in the nation's life today stands the reparations problem. There is a great difference of opinion as to the Wirth governmental policy. Wirth has been the apostle of the so-called "Erfuellungspolitik" (fulfillment policy).

HUGHES REPLY IS DEFENSE OF U.S. ATTITUDE

Secretary of State Declares in Effect That America Has Done Full Duty Regarding Protection of Interests in the Asia Minor Imbroglio.

WASHINGTON, D. C., Oct. 3.—The United States will not be stampeded into any warlike action or action in the Near East situation, it was stated emphatically by high authority at the White House today.

This government, in doing everything in its power to assist the sufferers throughout Smyrna and surrounding territory involved in the trouble between Turkey, Greece and England, it was stated.

The United States stands accused in some quarters of responsibility for the present troubles in the Near East situation because of its aloofness, this authority stated, and these quarters have developed a demand that the administration dispatch agencies of war to the Dardanelles.

Any action along this line would "be only in the nature of a threatening gesture" this authority stated, and this government does not intend to make any gestures it cannot not does not want carried out. Every effort will be made on this side to ameliorate the condition of the sufferers and that is as far as this government intends to participate in the present situation.

A committee to co-operate with the Near East relief organization will shortly be appointed, by President Harding. Will Hays, postmaster general, will be its chairman.

WASHINGTON, D. C., Oct. 3.—The United States government has expressed the sentiment of the American people regarding the Near East situation and will continue to express by appropriate action, but will not be drawn into a Near East war.

This is the clearly defined position of this government, as set forth by Secretary of State Hughes in a reply to a cablegram sent with Bishop James Cannon who on reaching Paris from Constantinople cabled the state department urging that the United States use force if need be to prevent the killing of Near East christians.

Secretary Hughes reply to Bishop Cannon contained a clear notice that this government will refuse to be embroiled in a European quarrel, but will at the same time perform its humanitarian duty as always.

Says Well Will Be Punished.

Bishop Cannon in his cable declared he believed "Almighty God will hold the United States responsible for inaction while thousands were murdered and deported and defaiting only protest them against the defiant, heartless and brutal Kemalist announcement that all refugees not away earlier Saturday, October 30 would be deported, which deportation means thousands more will be added to the dead."

The bishop said he had been misquoted in regard to an earlier statement which gave the impression that he "blamed the incredulity of the United States." He did not expect such action, Bishop Cannon said.

In reply to the bishop's criticism, Secretary Hughes last night sent this cablegram: "Present situation which has resulted from the clash of arms, the defeat of the Greek forces, the incidents of the retreat and the reprisals effected not only have we done all that is possible for relief and aid of the refugees, but we have exerted in appropriate manner

Fierce Forest Fire Sweeps Through the Minnesota Forest

DULUTH, Minn., Oct. 3.—A 35-mile wind today fanned forest fires in a dozen sections north and west of here.

Fires that have been burning in the White Face district for a week were uncontrollable. Rangers reported sparks leaping half a mile ahead of the flames. Nine families were forced to flee from the White Face district ahead of the flames.

Dry Navy Fails to Stop Rum Runner New York Narrows

NEW YORK, Oct. 3.—Shots from the rum chaser Newberry of the federal dry navy failed to stop a liquor smuggling ship in the narrows, officials reported here today.

Five rum runner escaped in the fog after ten gun-pound shots were fired. This is the second time in two weeks that whiskey smugglers have failed to heed the commands of the dry navy.

McADOO OPENS THE CAMPAIGN IN THE CENTENNIAL STATE

DENVER, Colo., Oct. 3.—William G. McAdoo, former secretary of the treasury, will be the principal speaker at a Democratic rally here Saturday, October 16, according to an announcement today by state Democratic headquarters.

FRENCH FIRE ON TROOPS OF KEMAL IN SMYRNA PORT

Efforts of Turks to Stop Refugees from Departing Cannot Active Intervention by the French Forces in Harbor.

ATHENS, Oct. 3.—French troops opened fire with machine guns on Turks who attempted to hold the departure of refugees from Smyrna, according to word received here from that city today.

Details were lacking.

Mustapha Kemal, leader of the Turkish Nationalists, gave the 200,000 christian refugees in Asia Minor until last Saturday to be evacuated.

Allied commanders, who with the aid of the United States are assisting in the evacuation requested Kemal for an extension of time but received no answer from him.

Only this order that the refugees must be evacuated by last Saturday, Kemal stated that he would not be responsible for their safety after that date.

The above dispatch is the first reported disorder in connection with the evacuation.

MANY MOURN MILDRED'S MONTHLY MISFORTUNES

LOS ANGELES, Calif., Oct. 3.—Tearfeeh concerns, florists, department stores and fancy chefs are among the officially listed mourners to the bankruptcy petition of Mildred Harris, ex-wife of Charlie Chaplin, which on file here today. The petition declares that the actress owes $20,000 and has no money to meet the debts. The petition was forwarded from the United States district court in Duluth, Minn., where it was filed Sept. 26.

OPEN SHOP SCHOOLS ORDERED IN CONVENTION

COLORADO SPRINGS, Colo., Oct. 3.—Formation of industrial schools to train young men for positions with members of open shop associations was taken up by delegates to the meeting of open shop bodies here today. Seven states, Texas, California, Florida, Colorado, Michigan, Oklahoma and Arizona are represented. The session ends tonight.

GEORGIA HAS FIRST WOMAN U.S. SENATOR

Governor Hardwicke Appoints Noted Scholar for Place Made Vacant by Death of Tom Watson; Will Not Sit in Upper House; Holds Only One Month After Appointment.

ATLANTA, Ga., Oct. 3.—For the first time in the nation's history, a woman has been appointed to sit in the United States senate, through appointment by Governor Hardwick today of Mrs. W. H. Felton, Cartersville, Ga., to the place made vacant by the death of the late Senator Thomas E. Watson.

Mrs. Felton, however, probably will never actually occupy a seat in the senate chamber, as a senator to succeed Watson will be chosen at a democratic convention that convenes in Macon tomorrow. Before congress reassembles this candidate will have been elected. The appointment of Mrs. Felton is therefore entirely honorary.

Mrs. Felton is a woman of address and ability and is known as the "grand old lady of Georgia" and her selection by Governor Hardwick was in the nature of a compliment to her efforts in behalf of the women of her state.

Former Senator Hoke Smith is "forced to decline" to allow his name to be presented as a candidate for the senate to succeed Watson, Smith announced today.

Press of business involves him in "obligations to clients which will require several months longer of performance", was given by Smith as his reason.

Mrs. Felton who is nearly 80, has been for years recognized as one of Georgia's leading women in literary affairs.

Graduating from college at 16 years of age, she went immediately to literary work, and while her work was largely for her own enjoyment for many years, she has since published several books and has gained recognition for her throughout the south.

When the Metropolitan Grand Opera company was in Atlanta last spring Mrs. Felton recalled that more than 50 years ago on graduating from college she had sung with an opera company.

Her studies of the life of the Scottish poet, Robert Burns, gained for her the honor of being the first woman to address the Burns club of Atlanta, when on "Jogwood day" in the spring, she was scheduled the day with Governor Hardwick introducing her.

Much Cotton Ginning Mark's Present Year

WASHINGTON, D. C., Oct. 3.—Cotton ginned in crop of 1922, up to September 25, totaled 8,883,008 running bales (counting round as half bales), compared to 5,930,592 for 1921.

Round bales included were 76,183 against 70,848 for 1921.

Americans Egyptian 1660 against 2276 in 1921.

Sea Island 968 against 331 for 1921.

JAIL SENTENCES FOR AUTO LAW VIOLATORS

SALT LAKE CITY, Oct. 3.—Jail sentences were announced here today for all automobile drivers who violate the ordinances requiring all lights to be lit on car automobile. Three violations within a few weeks and in increasing number of accidents led to Judge N. H. Tanner's decision. The new rule goes into effect Monday.

REPUBLICANS ARE OPENING CAMPAIGN FOR MIDDLE WEST

Leaders of Organization Start Out to Hold Advantage Gained in 1920 Elections; Farm Relief Is Agricultural Issue of Union.

WASHINGTON, D. C., Oct. 3.—The republican party this week begins the battle of the middle west.

In an effort to insure republican control of the nine middle western agricultural states from Ohio westward, a political effort of more than ordinary magnitude is being undertaken. It gets under way in Ohio today.

The principal weapon of the republican political leaders in their campaign to insure the middle west will be the Fordney-McCumber tariff bill.

They will claim for it that it insures prosperity to the farmer and the manufacturer alike, and that it insures the working man of protection against cheap European labor.

LAMONT ASKS REDUCTION OF FOREIGN DEBT

Famous New York Financier Suggests That United States Forgive Five Billions Loaned Before We Put Troops Into Trenches After We Entered War.

NEW YORK, Oct. 3.—Reduction or readjustment of the $11,000,000,000 billed debt to the United States on the grounds that such action is required to permanent American prosperity, today became the foremost topic of discussion at the American Bankers' association convention here.

In an address in the convention, Thomas W. Lamont, of the powerful banking house of J. P. Morgan and Co., and Thomas H. McAdams of Richmond, Va., retiring president of the organization strongly urged that the United States immediately exert its great influence toward the reconstruction of the western financial and economic structure of Europe.

Both intimated that a reduction of the huge debt was necessary to prevent an economic collapse in the old world.

State Banks Elect.

Election of officers of the state bank division of the convention resulted in the following choices:

President—H. A. McAuley, Sapulpa, Okla.

Vice president—J. D. Phillips, Green Valley, Ill.

Chairman of the executive committee—W. C. Gordon, Marshall, Mo.

To fill the vacancy for a term of one year caused by the elevation of Phillips to the vice presidency, Guy E. Bowerman of St. Anthony, Idaho, was chosen.

NEW YORK, Oct. 3.—America has come to the portion of the ways and should decide now whether it will be "the mother country in the old world" or "stand ready to add to our national stores of gold," Thomas W. Lamont of J. P. Morgan and Co., declared in an address to the American Bankers' convention here today.

The United States he declared is

CHARLOTTE MILLS MAKES APPEAL TO GET DETECTIVES

Daughter of Murdered New Jersey Woman Demands Light on Situation Surrounding Murder of Her Mother; Searching Probe to Start at Once.

NEW BRUNSWICK, N. J., Oct. 3.—Charlotte Mills, 15 year old daughter of Mrs. James Mills, who was found shot to death with her pastor, the Rev. Edward W. Hall today appealed to Governor Edwards, New Jersey's best detective, to aid in the mystery probe.

The girl, shortly after she had been taken to her home by local authorities for appealing to Governor Edwards for state aid, addressed a letter to Governor Edwards in which she pleaded for the state to "find out who killed my mother."

"More than two weeks have expired since the crime was discovered and yet, so far, nothing has been done to apprehend the guilty parties. I know you will not stand idle time in clearing up the mystery surrounding the murder of mother."

Send Out Letter.

A copy of the letter was sent to Prosecutor Strickler, one of those who questioned Miss Mills after she appeared in Governor Edwards' office.

John Hart, sheriff, detective of South River, N. J., was summoned here today to search the designs of the murder of Mrs. Mills and the Phillips farm in his effort to find the pistol with which the Rev. Hall and Mrs. Mills were shot to death.

Searching probe of a grand jury into the mysterious murder was planned today.

Prosecutor Strickler stated he plans to have the jury summon every person who could possibly throw any light on the mystery.

Members of the immediate families of the Rev. Hall and Mrs. Mills are to be summoned as well as other members of the church of St. John the Evangelist.

Gossip that Mrs. Mills and Minister were intimates will be followed to its source. That it is to be used in an effort to determine what person or persons would gain by the jealousy of the Rev. Hall's wife.

LEAGUE OF NATIONS WORKING WELL SAYS SENATOR AFTER VISIT

WASHINGTON, Oct. 3.—European nations are consumed with jealousy and hatred of another, but the United States is the special target of their animosity, Senator Caraway, Arkansas democrat, declared today on his return from a six weeks' tour of the continent.

"There is one grand chorus—a regular anvil chorus—against the United States over there," said Caraway.

"They quit knocking each other and unite on us whenever the United States is mentioned.

Caraway, who with Senators McKinley, Illinois; Spenser, of Missouri and Ladd, North Dakota, visited the league of nations meeting at Geneva, said they were all favorably impressed with the way the league functioned.

"McKinley," said Caraway, "always joined it at once. And that's going some for a republican."

EMINENT MEN TALK BEFORE THE TEACHERS

Week Is Crammed Full of Events; Teachers Are Still Arriving; Music and Lectures Comprise Programs; Special Meetings Scheduled; Banquet Tonight.

Addresses by Dr. Enoch A. Bryan, President O. H. Frasier and Dr. Byron W. King opened the second day of the district teachers institute now being held at the high school building. Dr. Bryan, who chose as his subject, "Nation, State and Community Responsibility for Education," emphasized the necessity of education in America and the duty of parents in giving their children a good education.

"Parents owe their children an education," Dr. Bryan declared. "Time was when the community was compelled to provide instruction and schools but now it is the solemn duty of the nation to offer these privileges."

Dr. Bryan also outlined the Towner-Sterling bill which regulates immigration and gave a vast amount of general information along lines of immigration.

"If you would cut the state of Idaho into strips three miles wide," asserted President Frasier of the Idaho Technical Institute in the course of his address on "Idaho; Her Possibilities," the total would reach three and one-third miles around the world. Idaho also has greater possibilities as a corn state than Iowa and it exceeds other states in different ways."

Special Programs Given

Two violin solos, "Melody in G flat" by Cadman and "Homesteed Melodies" by Becker.

Dr. Byron W. King, president of King's College of Oratory of Pittsburgh, substituted for his lecture, "The Beginnings of Language," on general topics, which was very inclusive and thoroughly appreciated.

Special Conferences

Special conferences and department meetings were held at 9:30 o'clock this morning. This afternoon Mrs. O. P. Duvall pleased with a group of songs following which Dr. Byron Smith's, Massachusetts Commissioner of Education, gave his address, "Current Problems in Public Education." This evening the annual Teachers dinner given for the institute faculty and the visiting county and city superintendents will be held at the Kenwood at six o'clock. Following this feature the teacher guests will be treated to a band concert and window display.

King Lectures

Last night Dr. King, lectured on "All the World's a Stage," which held the audience spellbound throughout his address as surmised from the title, the discourse was Shakespearean. Mrs. I. H. Masters also favored with a group of well selected songs and responded in encores.

More to Arrive

Approximately seven hundred teachers are in the city at this time and there are arriving on today's trains. Every incoming guest has been cared for at a hotel or private home and there are still a number of teachers who are ready and willing to do their share in housing and boarding the teachers.

Tuesday's program follows:

8:15—Special morning Sessions. Physical Training—Games and Plays in the Gym.

9:30—Music, Mrs. Bryan Harris and Miss Lillian Brown, Victrola.

10—Morning Assembly. Auditorium.

AMERICANS IN CUSTODY IN MEXICO

Effort to Kidnap Former Prize Fighter Who Is Wanted for Murder of Officer Causes Battle in Which Americans Are Taken Prisoner.

EL PASO, Texas, Oct. 3.—Two American, Chief of El Paso Detectives Smith and Sam Dreben, "soldier of fortune," were held in jail at Juarez, Mexico, across the Rio Grande from here today following an attempt to smuggle an American alleged murderer across the border. "Arizona Phil" Alquin, wanted in Los Angeles for the murder of Detective Sergeant John J. Pinserelli, is at a Juarez hospital in a serious condition from wounds received last night during the kidnaping.

Mexican officials, American officials fled for the safety of Smith and Dreben when were arrested by Mexican soldiers following the attempted kidnaping.

Every effort was being made late today to get American Consul Harper to get the Americans across the border and out of the reach of mobs who may become menacing in case Alquin dies.

American troops may be sent across the Rio Grande after Smith and Dreben one report said. General Hown, commander of Fort Bliss, here refused to make a statement concerning the affair, but according to an unconfirmed report he held soldiers in readiness to cross the river pending orders from Washington.

Attempt to Kidnap

Chief Smith, Chief Oaks, Captain William Simpson and others of the El Paso department and Sam Dreben, "Soldier of Fortune," who figured in the suppression of the Villa-Orpin revolt Saturday, made the attempt to kidnap Alquin.

The officers seized Alquin in his Juarez hiding place and got as far as the international bridge across the Rio Grande, authorities here said, when Arizona Phil began crying, "The Americans are killing me."

A Mexican mob gathered and chased Oaks, Simpson and the other officers to the river where they escaped in a hail of shots, cording the breast high water to El Paso.

Soldiers Guard Bridge

Mexican officials on guard at the federal bridge arrested Chief Smith, Dreben and a "chauffeur" and hustled them through the mob, to the city jail under 100 soldiers stood guard during the night.

Alquin was shot in the scuffle and is in the Liberty hospital in Juarez. If he dies, Mexican officials fear that they will not be able to hold down the wrath of the town. Consul American Consul Harper is endeavoring to get Smith, across the line. There is said to be little hope that he will succeed until Arizona

Military Training Urged by Pershing

WASHINGTON, D. C., Oct. 3.—"The world war brought home to the United States in a very striking manner the desirability of reasonable precaution, completely vindicated the advocation of military training and preliminary organization and demonstration beyond question the fallacy of pacifists' theories," General Pershing declared today in an address here to the first convention of the Reserve Officers' association.

"These results were forced upon us," Pershing said, "at the unnecessary cost of valuable human life and the lesson has sunk deep in the breasts of all save those few who, having eyes, see not, and having ears, hear not."

Phil's condition improves.

Last night's attempt was the second to kidnap Alquin. In a previous try Mexican officials co-operated, but a turn in Juarez politics had thrown their influence to the alleged murderer.

Alquin is an American citizen.

WASHINGTON, Oct. 3—War department officials late today said they would not give permission to send American soldiers across the Rio Grande into Mexico to rescue two American citizens held in jail in Juarez.

No request had been received from General Howze, commander at Fort Bliss, for permission to use troops, it was stated.

Phil Charges Chloroform

JUAREZ, Oct. 3—In a deposition made before Judge Philips Rodriguez here today, Benito Baca, alias "Arizona Phil" Alquin wanted in Los Angeles for the murder of a detective sergeant, charged he was chloroformed by American officers who attempted to smuggle him across the international boundary.

The man, who goes by the name of Baca here, has the words "Arizona Phil" tatooed on his arm. It was learned.

"The men representing themselves as doctors, came to me last night and said they would remove the tatoo marks from my arm, but would have a chloroform me." Baca told Judge Rodriguez. "I have been hounded in two countries because of these marks, he said. When I came to, the doctors and me in an automobile headed toward the international bridge.

"I fought. Assistance came and I escaped.

"I recognized Chief Oaks, of Los Angeles and Detective Smith."

Baca, a former lightweight professional prizefighter, is said to have put up a stiff battle.

RECUPERATION IN RUSSIAN

(Continued from Page 1.)

cy), but has shown in the past few months that this is a "bankrupt policy," and even he has abandoned or modified the fulfillment idea.

But he has satisfied the Russian business men's party—the "Deutsche Volkspartei—in which Stresse and Stresemann and the big industrials are active. There is discontent in the workers' ranks, not alone at the reparations policy, but also at the "good business men" Stresemann, Von Loberzer, the Frenchman, after the government had tried vainly for nearly four years to get a rapprochement with France.

All these factors taken together have resulted in dissatisfaction with the government, which is destined to show itself in the debate this fall and winter.

Whether the Wirth regime winters the winter is a question. Finance Minister Hermes is waiting to step into Wirth's shoes.

The Workers' Problem.

On top of all this and with a big bearing on parliament, the German worker peers into the coming winter with a deal of misgiving and alarm.

Though, according to the present state of industry, he will be able to live a job all winter, but will nevertheless be confronted with:

1. Shortened rations of bread and meat.

2. Virtually no coal for heating.

Hence, while his wages are mounting as the mark drops, the prices of food and coal are always several steps ahead of him.

Already, sporadic local food riots have occurred—largely communist fomented. And, on every hand one hears that there will be more this winter.

LAMONT ASKS REDUCTION OF

(Continued from Page 1.)

entering a new business cycle with "vicearing skies and fair weather." The nation has gained great power, he said, and "with it goes a lofty responsibility." During the world war this responsibility was discarded "a thousand fold" but since the armistice there is doubt about it.

"Now we have, if world affairs come to the parting of the ways," he said. "Shall we meet the responsibility that has come to us with power or shall we fail?"

Lamont's speech was heard by a huge gathering of delegates representing the nation's banking machinery assembled for the first session of the convention at which they plan to formulate policies on what action American should take with regard to forgiving Europe's debts, taking a hand in the European financial tangle, and other grave problems.

Points made by Lamont in his speech included:

1—America has passed through a cycle of flattening of prices "with business on its back" and now business "has bound up its bruises and is slowly moving on to a new goal."

2—Business still has some hurdles to jump, including low prices prevailing for farm products, but it never knew any country to go broke because of its abundant crops, so even though our farmers suffer disappointment, I think the low price hurdle is the easiest one to jump."

3—With regard to labor employers have a responsibility to "study more fully than we do today the conditions of labor and be sure that, by and large, every competent worker has an interval in the drudgery of work for enjoyment of life."

4—Concerning the tariff bill "we shall be fortunate indeed if we do not find that in practice it protects a lot of industries that do not need protection and cuts off from our farmers and manufacturers a lot of foreign markets. Europe is ready to buy our commodities.

"Europe although politically 'in the doldrums' for worse," economically is on the mend. "The people of Europe are saving money."

The inter-allied debt problem, Lamont said, is of paramount importance. "Europe owes America $10,116,154,188." The first half of this debt was contracted between the time the United States declared war and the time American soldiers first entered the trenches.

"Right, therefore, any part of this first half of the debt to be cancelled by American taxpayers?" he asked.

"One thing is certain, if some one on April 6, 1917, had been able to give us our choice as to whether we should rather give up freely and for all time five billion dollars in money or give up the lives of several hundred thousand of our sons, there would have been no hesitation as to our choice. For was the one that determined that choice. It determined that Great Britain and France should give up the lives during that first year and that we should furnish, not our blood, but our money, taking in place of it the promises to pay of our allies.

"That was the only thing to do during the war," he pointed out, but now he asked, "is it generous to make some composition of this matter? What is your opinion?"

"European nations face great dangers, he said, and America also is facing a crisis.

"We have gained great power. With the power goes weighty responsibility. Have we discharged it? For the period of the world war, my answer is yes, a thousand fold yes. For the period since the armistice, can any one of us search his heart and answer yes?"

America, he declared, has been "timid and fearful of petty entanglements." But now, he said, it is for the parting of the ways.

...AT THE... THEATRES

THE MARRIED FLAPPER

"For Today the Idaho theatre is showing the Married Flapper," with Marie Provost in the title role, in this picture Miss Provost scores for the bobbed hair flapper and proves flappers are of some value. There is a dandy two-reel comedy and with the International News maker of Wallaby's experiences.

VALENTINO IN 'TWIN FALLS'!!

Contrary to the usual rule of releasing a picture only two or three days the Idaho theatre will play "Blood and Sand" for four days. They have secured the newest picture in which Valentino has appeared in show during the Teachers' Institute. Filmed and "Sand" is not a costume or historical picture. It is a story of modern Spain. You see the colorful costumes of the bull fighters of the rural dwellers of the poorer classes—but the ideas and theme of the tale is strictly modern.

Rudolph Valentino as a flaming toreador and the most romantic lover in Spain—that's his role at the Idaho theatre this week.

Special music that will lend atmosphere to the picture has been arranged by Mr. Dunkley.

WORKS FOR CHILD MUST KEEP WELL

Mothers in a Like Situation Should Read This Letter from Mrs. Kinney

Chicago, Illinois.—"I was troubled with a female disease for a long time. I was very weak and had all and the operation. But I only felt little better after the operation. I felt so very slack this year and I was afraid of the time. I do not like to take any chances, so I consulted my friends, and one lady said, 'Take Lydia Pinkham's medicine,' so I did. I have felt better right along and am in good enough health to go to work. I recommend your Vegetable Compound and Sanative Wash to all."—Mrs. MARY KINNEY, 459 N. Carpenter St., Chicago, Illinois.

Often the mother is obliged to support her children and good health is necessary. Lydia E. Pinkham's Vegetable Compound is just the medicine you can depend upon. It is a medicine for women's ailments and the relief it brought Mrs. Kinney may bring you good as well by taking Lydia E. Pinkham's Vegetable Compound.

DAVE BANCROFT

The New York Giants won the National League pennant in the world championship in 1921.

No planet stood out more prominently in the great showing made by the Giants that year, than Dave Bancroft, shortstop extraordinary.

The individuality of Bancroft lies in something not yet discovered in other shortstops in the majors. He is the key for McGraw's great infield.

Hughey Jennings knows a ball player when he sees one. Jennings is now acting as assistant to McGraw at New York. In his day, Jennings was a great shortstop. Here is what he thinks of Bancroft:

"Bancroft is one of the greatest shortstops in the history of the game. He can go equally well to his right or left, but against him and is good hitter. In addition he is pretty fast on his feet.

"The best thing about Bancroft is, he can think. He uses his brain. He is a great shortstop, a great mechanical player, a player like Jenny at short made everybody in a ball club right.

FRANK FRISCH

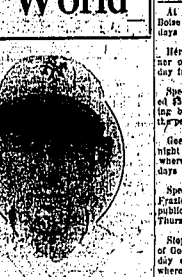
In Frank Frisch, the "Fordham Flash," McGraw picked up one of the greatest stars that has come to the National League in years.

Frisch came direct, to the Giants from Fordham and made good from his very first appearance.

Frisch bats left-handed. He is a crack batsman. He is one of the fastest players in the majors. He has a great arm. He doesn't need to field balls cleanly to be certain of getting his man. His great arm carries him over many a bobble.

Last year Frisch starred in third base. When McGraw secured Groh from Cincinnati Frisch was shifted to second.

An injury to his leg in the spring series, retarded Frisch and got him off to a late start but he has about hit his stride and will be a great man for the Giants the rest of the way.



ARTHUR NEHF

In Art Nehf the New York Giants have one of the greatest southpaw pitchers in the game.

It is almost impossible to estimate what a crack left-handed pitcher meant to a ball club that is fighting for the pennant.

Nehf is just such a pitcher. Against clubs weak against southpaw pitching the very presence of Nehf on the rubber almost insures victory.

In addition he is of great value as a relief pitcher, when some right-handed twirler is laboring and a bunch of hard-hitting left-handers are coming up.

Nehf has better than the average speed, a fine hook, and a nice change of pace. Better yet, he pitches intelligently. He does more than merely throw the ball, he tries to work on the batter's weakness whatever it may be.

TURKS PARLEY IN CONFERENCE WITH ALLIED DELEGATES

Reports that Turkey is preparing to call Parliament to meet at Angora, the capital of the Turkish nationalists, have given a "bullish" tone to the world's peace situation.

LONDON, Oct. 3.—Outside the Kemal in conciliatory mood shows signs of reasonableness in the way authoritatively stated today by a Turkish source. A hopeful start in temporary peace negotiations has reached at the Mudania conference between Gen. Ismet Ismet Pasha, Turkish nationalist, and the allied representatives, it is stated.

No agreement has been concluded, yet, it is stated, since the peace parley started, but the Turkish delegates stripped for work, made a big concession to the British by agreeing to the British "Peace Plan" as a basis for the discussion.

Reports that Premier Poincare of France, Premier Mussolini of Italy and other European powers, notably Premier Lloyd George of Britain, are planning a new peace conference. They discussed an armistice to prevent the threatened clash between British and Turkish forces, the occupation of the neutral zone of the Dardanelles.

The Mudania conference will deal only with military questions, which will be held about the middle of the month if an agreement is reached at Mudania.

The Turkish delegates are expected to formulate the basis of peace at the Near East Sir Charles Harington, British commander-in-chief; General Charpy, France; Ismet Pasha, Turkey; General Mombelli, Italy and General Mazzastis and Col. Harigian, Greece.

All but the Greek representatives had arrived at Mudania. It was learned that the conference might be delayed because of the failure of the Greeks to reach there at the appointed time.

Troops Withdraw

Turkish troops have withdrawn from the Dardanelles zone, trending towards Constantinople.

Nine British first line battleships are now pointed to the north, ready for quick movement, reportedly to join with Admiral Hallifax, commanding on Turkish waters. Twelve British cruisers, five flotilla leaders, 45 destroyers, six submarines, three French cruisers, one French battleship, with numerous auxiliary vessels swarmed about the big gray boat of war.

The British were not the only warships in Kemalistic waters. The Italian ships were anchored off the Bosporus. Others of the allies had destroyer anchorages.

The military leaders of the powers arrived at Mudania on Saturday. Marshals Kemal, who landed the fall for his party, and Constantine Franklin-Bouillon, French delegate, or not to be present when the Eastern-Mediterranean question comes up for final day, according to reports.

It is said anticipated that the preliminary Mudania parley would last at least three days.

The world is interested in the accomplishment of "the earlier" by communication which are to be issued by Mudania and sent to Constantinople.

Sir Rennell Rodd, British ambassador to Italy, and Sir Horace Rumbold, British ambassador to Berlin, are the newspaper correspondents to go to Mudania for the conference. A protest of American correspondents against the exclusion of American correspondents from the conference, has resulted in an effort to correct the situation.

The terms laid down by Kemal for the withdrawal of Turkish cavalry, if the allies, it is believed, has will form the basis of discussion.

These are the two most important questions to be discussed at the peace conference.

The evacuation of the neutral zone by Turkish troops, near the Dardanelles, and Jamid, near the straits of the Bosphorus.

The evacuation of Thrace.

It was believed that General Harington will attempt to induce the Turks to move back into the Chanak area in a great zone, in the hope that the Turkish Kemal called the conference.

This would, pending the permanent peace negotiations, obviate the possibility of a clash between the British and Kemalists.

Thrace is a vital difficult issue. Turkey is not in the conference.

In his demands Kemal stated that it was necessary for the Turks to occupy that territory as far as the Maritza river to prevent massacres by the Greeks.

The British, however, are expected to insist on the grounds that in the allied note Thrace was promised to Turkey after and not before the permanent peace conference had been held.

Football at Albion Normal School Has Promising Outlook

The Albion State Normal school has entered the football field this year with a fairly husky team and expects to develop there within the next few years one of the strongest teams in the secondary school class in the state of Idaho. They have a good strong bunch of men there this year and while they started rather late they will have a pretty good lineup before the season closes.

On October 20th they will play Gooding college at Albion. On November 11 they will play Ricks Normal college at Rexburg and several other games will be arranged at a later date. Coach Elmer Wilson is here attending the district teachers' institute and comes from Nebraska to Idaho.

The outlook for basket ball is very promising, states Mr. Wilson and Albion expects to have a winning team.

Enrollment Larger

The enrollment this year is 78 per cent larger than it was last year at the State Normal school, according to one of the instructors who is here.

Phone Cost 10c

It costs $10 a month to have a telephone in a Japanese dwelling.

Cotton Crop Below the Average Now

WASHINGTON, Oct. 3—The condition of the cotton crop on September 25 was 59 per cent normal, as compared with 67 per cent on August 25, 62.2 on September 25, 1921, 61.1 on September 25, 1920 and 69.5, the average of September 25, for the past ten years, the department of agriculture reported today.

A condition of 59 per cent on September 25 forecasts a yield per acre of about 139.2 pounds and a total production of about 10,135,000 bales of 500 pounds gross, the report said.

The final outturn may be larger or smaller than this amount, according as conditions developing the remainder of the season prove more or less favorable to the crop than average.

Last year the production was 7,953,641 bales, two years ago 13,439,402, three years ago 11,420,763, four years ago 12,040,522 and five years ago 11,592,375 bales.

BRITON FIGURES ON JOKE

Six years ago in a speech here Moses Alexander said jocularly, when ridiculing the propensity of the legislature to pass all sorts of elaborate bills without digesting their contents: "When the legislature adjourned I found a whole table full of bills, which I did not have time to read in the period allotted for signing or vetoing them, so I laid the thin ones on one table and signed such of them as I favored and threw the thick ones in the waste basket." Everybody present save Ray A. Read, knew this was a joke and laughed at it. Read, ran true to form. For the past six years he has been figuring on that thing and Sunday morning in an editorial revealed the fact that he finally concluded that Governor Alexander was in earnest and that his conduct was quite reprehensible. Alexander will have to bring down a diagram for Read when he speaks here this time. It gives the latter the brain fag to worry so long over one joke and then get it wrong.—I. D. W.

PECULIAR MOODS

Do you ever, in walking along a street, try to step on every crack in the sidewalk, or change the length of your strides to avoid stepping on cracks altogether?

In going upstairs, do you have impulses to take certain steps "two at a time," or count the number of steps?

Famous old Dr. Samuel Johnson had a similar habit. In taking a walk he could not resist hitting each picket of a fence with his cane. Sometimes, he wrote, it became an obsession with him that he had missed a picket. Then he would walk back several blocks and hit the annoying picket with great satisfaction.

Every one, at some time or other, has peculiar impulses of this sort. Few stop to analyze them.

These absurd impulses or habits are mild symptoms of psychasthenia, according to Dr. Abraham Myerson, who teaches neurology in Tufts Medical school.

Psychasthenia, says Dr. Myerson, is a disease—one of the forms of nervous and mental disorders which the public calls "nervousness" and the scientist calls "psychoneurosis."

Generally these peculiar impulses can be eliminated by will power. Every one has them at times, so no use worrying about them. We all have "crazy moments."

Psychasthenia, however, can develop into a decidedly diseased condition that interferes with happiness and efficiency.

In the background is the Disease of Fear.

In advanced cases, fear becomes an extreme dread "of closed places, of being alone, of dirt, of disease, of all kinds and manners of situations."

In extreme psychathenia, says Dr. Myerson, the difficulty of making up the mind—of deciding—becomes so great that a person may suffer an agony of internal debate about crossing the street, putting on the clothing, eating the meals—in fact, about every detail of acting and thinking.

The scientist who specializes on abnormalities of the body's endocrine glands steps in and says that fear is the result of imperfect functioning of the adrenal glands, attached to the kidneys.

Opposed to him is the mental scientist who claims that it's the other way around, that mental disorders cause the glandular "acting up."

Regardless of which is right, it is a good thing that attention is finally being paid to mental health as well as bodily health. We live in a highly nervous age, with many times more insane people outside asylum walls than within.

"On September 8, before the burning of Smyrna, the American high commissioner at Constantinople had voiced this solemn feeling in earnestly impressing upon the Turkish nationalists authorities the importance of taking the most energetic steps to insure the population of the occupied territories against reprisals. This Will Ward Off And Break Up Colds

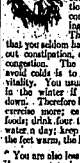
Just a teaspoonful of Dr. Caldwell's Syrup Pepsin removes the congestion

THE two ailments that people generally regard as of the least importance are in reality the cause of most serious illnesses and of the greatest proportion of deaths.



They are constipation and common colds. Many doctors now believe that colds, tonsilitis, a touch of malaria will cause constipation. Instead of constipation being their cause. The fact remains that you seldom have a cold without constipation, due to general congestion. The only way to avoid colds is to keep up your vitality. You usually catch cold in the winter if you are run down. Therefore in cold weather exercise more; eat more fatty foods; drink four to six glasses of water a day; keep the head cool, the feet warm, the bowels open.

You are also less liable to colds if your system is free from the intestinal poisons of constipation, so empty the bowels regularly with a mild vegetable laxative like Dr. Caldwell's Syrup Pepsin that you seldom have a cold without constipation, due to general congestion. ANY FAMILY MAY TRY IT FREE

Thousands of parents are willing themselves, "If we can I feel a fresh, sweetly humidor that anyone in the family may use when medicine is needed. I want you to try Syrup Pepsin. I will place the bottle in your home, sample bottle, sufficient for an adequate test. Just write me a postal card. Address Dr. W. B. Caldwell, 514 Caldwell St., Monticello, Illinois. Do it now.

At the first sign of a cold, at the first few warning sneezes, take a teaspoonful of Syrup Pepsin and the congestion will be gone in a few hours. Don't wait until the cold has a grip on you. Mr. Henry Dean, Jr., of Rochester, N. Y., cured a stubborn cold in just that way, and Mrs. Alice Corbiney of Haskell, Okla., uses it effectively for all the small ills of her family, such as constipation, biliousness, headaches, dizziness, and to break up fevers and colds.

Dr. Caldwell's Syrup Pepsin is a scientifically-balanced compound of Egyptian senna with pleasant-tasting aromatics. It's safe to give to infants, and all children like it. Before you again resort to cold remedies containing narcotics try a teaspoonful of Syrup Pepsin. Any druggist will supply you, and the cost is less than a cent a dose.

When the English Secret Service sent the brilliant detective, who prefered to be known as, ANDRE DUCHEMIN, to the south of France to avoid harm from the vengeful Baranski, they unwittingly opened the way to more interesting adventure.

First he had rescued from robbery by Apaches of MME. DE SEVENNE and her guests, among whom was the beautiful EVE DE MONTALAIS, American wife of a French officer and possessor of a magnificent collection of jewels.

While Duchemin was dining at the chateau, a strange automobile party met with failure from a storm. It consists of WHITAKER MONK; his secretary, PHINUIT; his latter's brother, JULES, who acts as chauffeur; and the COUNT and COUNTESS DE LONGNES.

Duchemin's suspicions are aroused when they cleverly inquire of Eve de Montalais' jewels and learn that they are in the chateau. Above all, Duchemin is alarmed when they speak of the "Lone Wolf," the famous master cracksman of earlier days. Did they know his secret? Duchemin is attacked again by the same Apache and severely wounded before being rescued by Eve de Montalais.

GO ON WITH THE STORY

CHAPTER VIII

Speaking of Love

IN the course of two weeks or so Duchemin was able to navigate a wheeled chair, took on the little balcony outside his bedchamber window in the Chateau de Montalais, and even—strictly against orders—take experimental strolls.

The wound in his side still hurt like the very deuce at every ill-considered movement; and this constant reminder of outlaws and violence prompted Duchemin to urge Eve de Montalais to place her jewels in safekeeping.

Eve de Montalais laughed the charming, low-keyed laugh of a happily diverted woman.

"I surrender at discretion! I will do as you wish. I will leave Louise to take care of madame ma mere for a few days while I journey to Paris—"

"Alone?"

"Mur-naturally."

"You, a woman! travel alone to Paris with a treasure in jewels! Ah, no! I would rather steal the jewels myself, convey them to Paris, put them in safe keeping, and send you the receipt."

"What a lot of trouble monsieur would save me, if he would only be so kind as to do as he threatens."

"And how amusing it he were arrested en route." Duchemin supplemented with a wry smile.

"I am quite confident of your ability to elude the police, monsieur."

"Madame is too flattering; one is sure she is too wise to put so great a temptation in the way of any man."

"Listen, my friend." Eve de Montalais flicked away her cigarot and sat forward, elbows on knees, hands laced, her level gaze holding his. "It is true, our acquaintance is barely three weeks old; but the mask you hold between yourself and the world, lest it pry into what does not concern it, has been lowered when you have talked with me; and I have had eyes to see what was revealed—"

"Ah, madame!"

"Assuredly, madame. For years he was the nightmare and the scourge of people of wealth in every capital of Europe."

"Why did they call him the Lone Wolf, do you know?"

"I believe some imaginative Parisian journalist fixed this sobriquet on him, in recognition of the theory upon which, apparently, he operated."

"And that was—?"

"That a criminal, at least a thief, to be successful must be absolutely anonymous and friendless; in which case nobody can betray him. As madame probably understands, criminals above a certain level of intelligence are seldom caught by the police except through the treachery of accomplices."

"Still, in the end—"

"Oh, no, madame. The Lone Wolf was never caught. He simply ceased to thieve."

"I wonder why . . ."

"I believe because he fell in love and considered good faith with the object of his affections incompatible with a career of crime."

"So he gave up crime. How romantic! And the woman: did she appreciate the sacrifice?"

"Who knows? Perhaps she was not worth it; perhaps she was too proud to accept it; perhaps she was too jealous of her own liberty to be willing to make the sacrifice; perhaps she was too jealous of her own liberty to be willing to live up to your faith."

"You will not fail, I hope, madame, to tell me what you are, you were before my faith was, and will be afterward, when . . ."

She did not finish, but of a sudden recollected herself, lounged back in her chair, and laughed quietly, with humorous appeal to his sympathy.

"No, that is settled! I am not to be permitted to take my jewels to Paris alone. What then, monsieur?"

"I would suggest you write your bankers," said Duchemin seriously, "and request them to send you some trusted man—to guard you on the way."

"But why? You have been so persistent about this matter, monsieur. Ever since that night when those curious people stopped here in the rain . . . Can it be that you suspect them of evil designs upon my trinkets?"

Duchemin shrugged. "Who knows. Or so they say. Unfortunately, she died."

"And then—?"

"So far as is known the converted enemy to Society did not backslide; the Lone Wolf never prowled again."

"An extraordinary story."

"But is not every story that has to do with the workings of the human soul? Even you—. A woman of your sort waiting herself up in a wilderness, renouncing the world, renouncing life itself in its very heyday—"

"I will explain." The sleekly coiffured brown head bent low over hands that played absently with their jewels. "To a woman of my sort, monsieur, life is not life without love. I lived once for a little time, then love was taken out of my life. When my sorrow had spent itself, I knew that I must find love again if I were to go on living. What was I to do? I knew that love is not found through seeking. So I waited . . ."

"But this is not writing to my bankers, monsieur," she said in a cool and steady voice. "I must do that at once if I am to get the letter in today's post."

CHAPTER IX

The Blow From the Dark

IN short, Monsieur Duchemin considered convalescence at the Chateau de Montalais one of the most agreeable of human estates.

But now an end. Tomorrow the detectives commissioned by Madame de Montalais's bankers would arrive. Tomorrow Eve would set out on her journey to Paris. Tomorrow Andre Duchemin must walk forth from the chateau de Montalais with turn his back on all that was most dear to him in life.

On that last night, Eve smoked only one cigaret with Duchemin in the drawing room after dinner, then excused herself to wait on Madame de Sevenis and finish her packing. "I shall miss you, monsieur. The chateau will seem lonely when I return . . ."

"And the world, madame," said Duchemin—"the world into which I must go, too, will seem a lonely place—a desert, haunted . . ."

"You will soon forget . . . Chateau de Montalais."

"Forget when all I shall have will be my memories—"

"Yes," she said, "we shall both have memories . . ." And suddenly the rich, deep voice quoted in English: "Memories like almighty wine."

She offered to disengage her hand, but Duchemin tightened gently the pressure of his fingers, bowing over it. His lips touched her hand for a moment; then he released it. She stood swiftly to the door, faltered, turned.

"We shall see each other in the morning—to say au revoir. With us, monsieur, it must never be adieu."

She was gone; but she had left Duchemin with a singing heart that would not let him sleep when he had gone to bed.

Till long after midnight he tossed restlessly, bedeviled alternately by melancholy and exhilaration.

He heard the clock strike two, and shortly after, in a fit of exasperation, lighted the candle, found his book, and fumbled vainly for a cigaret.

What greater folly could there be than to want a cigaret and do without one when there were plenty in the drawing room, to be had for the taking! He rose and left his chamber.

Shielding the candle flame with his hand, he gained the drawing room as noiselessly as any ghost.

The fire had died down till only embers glowed, faint under films of ash.

The cigarets were not where he had expected to find them, near one end of a certain table. Duchemin put down the candlestick and moved toward the other end, discovering the box he sought as soon as the back was turned to the light. In the same breath this fact went out.

He stood for a moment transfixed in astonishment. There were no windows open, no draughts. An insane thing to happen to one, at such an hour, in such a place . . .

He turned back to relight the candle. It was gone.

"YES," SHE SAID, "WE SHALL BOTH HAVE MEMORIES."

madame, what they were?"

"They were clever people, far more clever than poor provincials like us." She took a moment for thought. "That I am puzzled by their barging on the subject of—I think they called him the Lone Wolf. Now why should they do that?"

Duchemin was constrained to take refuge in another shrug. "Who knows? he hesitated. "If they were as clever as we assume, doubtless they were clever enough to have a motive even for that."

"Is really satisfied, this Lone Wolf?"

"Assuredly, madame. For years he was the nightmare and the scourge of people of wealth in every capital of Europe."

"Why did they call him the Lone Wolf, do you know?"

"I believe some imaginative Parisian journalist fixed this sobriquet on him, in recognition of the theory upon which, apparently, he operated."

MARKETS

Liverpool Demand Is Cause of Grain Rise

CHICAGO, Oct. 3.—Grain prices closed higher on the Chicago board of trade today. Advance in the Liverpool market and lighter receipts in the northwestern markets were prominent factors in the advance. Despite reports indicating an early settlement of the Turkish dispute, local traders were inclined to believe continental Europe would be importing American grains heavily within a month.

Provisions closed irregular.

JOINT CONFERENCE BEING HELD TODAY ON SPUD OUTLOOK

Leonard Way Meets With Senator Gooding to Take Up Matter of Produce Shipments; Spuds Marketed at Slight Loss.

Leonard Way, manager of the Southern Idaho Traffic association, is at Gooding today conferring with Senator Frank Gooding relative to alleviating the rate situation dealing with potatoes and other produce. Although joint meetings have been held from time to time in an effort to aid the growers of produce now ready for shipment nothing of an important nature has resulted and hope was expressed that something would develop from today's conference.

Way declares there is still an appalling scarcity of refrigerator cars for the transportation of produce. The shipment of soft fruit, plums, peaches, etc. will be completed this week, it is believed, and then the apples will be sent to market, necessitating a large number of iced cars.

The traffic association manager stated this morning that spuds are shipped to the Chicago market at a loss of about 7c a hundred. A slight profit is gained in shipments to Fort Worth, Texas.

DRIVER OF WAGON IS STILL MISSING

Authorities Working to Find Fred Carson but Have Failed Thus Far; Had Little Money With Him.

Efforts to locate Fred Carson, Buhl laundry wagon driver, who has been mysteriously missing since last Saturday, were being made today by Deputy Sheriff P. G. Harriman, according to word given out at the sheriff's office.

According to reliable information furnished the Times today Carson had very little money in his possession at the time of his disappearance, this statement being made as a refutation to the belief expressed in a morning paper, that some of the funds collected by Carson while at work had been taken by him prior to his disappearance.

Carson was tried here some time ago on an embezzlement charge preferred by E. O. Murray of the Twin Falls Steam laundry, where he was formerly employed. He was released after a short hearing and since that time has been driving a wagon in the western city. Manager Sandholts of the Troy laundry, who also operates the Buhl laundry, where Carson was employed, could throw no light on the mystery today, although the belief was expressed that he would be located before many days.

New York Rivals French Capital in Its Murder Mystery

NEW YORK, Oct. 3—Paris' most gruesome murder mystery, that of the unidentified girl whose body, piece by piece, was found scattered up and down the banks of the Seine, was recalled today as police searched Bronx Park here for parts of a body of a murdered man, after discovery of a head in a meadow yesterday.

The head, tied in a bundle, was picked up by boys at play. It had been expertly severed from the torso within 24 hours of its being found, surgeons said.

Apparently it was that of an Italian, with two old scars and firm, shining white teeth as the only distinctive features.

Search for the torso and limbs was on today. In the Paris mystery, a girl going to the river to bathe shrank back in terror from a human arm, severed, which reached up at her from the water. A day later a fisherman near the Pont Neuf pulled from the water a sack with gruesome contents, human female legs.

The torso was found miles away up the river, and eventually the other arm but the head was never discovered nor was the mystery solved.

Circulation Figures Talk

Glittering generalities do not state facts, but circulation figures do. When a great auditing bureau like the ABC sends an auditor to Twin Falls each year and this auditor makes an audit of The Times circulation and also makes an audit of The News it means something. The Times is proud of this report and has from time to time published the result of this audit which does not depend upon press runs but is a strict recapitulation of every subscription in the office.

THE TIMES' CIRCULATION according to the ABC is 3544

WHAT DOES THE ABC GIVE THE NEWS?

In order to give a second proof that we have the largest circulation we will cite the sworn statements of the two newspapers as submitted to the postoffice department and as published under the signature and oath of a representative of each paper:

The Evening paper (Times) 3707
The other newspaper (News) 2621
Difference 1086

The above figures do not show the new subscribers taken for The Times in July and August of 1922. If you add these you would have a much larger circulation. If The News has the largest circulation why not have the figures to show this fact.

Ninety-eight per cent of the above circulation is within the territory bounded by Castleford at the west, Contact at the south, Jerome at the north and Rupert at the east. If The News is not content with the audit of the ABC let's have the independent audit we referred to yesterday.

The above figures are proof that the foriegn offered by The News is due and should be paid if the offer is bonafide. If the above figures are not satisfactory then let's have the audit.

STARR SUIT WILL BE IN HANDS OF TALESMEN TODAY

Court proceedings seeking to break the will of Estelle Starr, deceased, continued today. Testimony was introduced in an effort to prove that Mrs. Starr, who ended her life some time ago at the grave of her son, who was accidentally killed, was unbalanced at the time of making the will, the provisions of which allow the husband, Asiah Starr, and a son, Dale, to receive the income from the estate during the duration of Dale's life, after which the property is to go to the Methodist church.

This case, which has been attracting much attention during the past few days, is expected to go to the jury tonight.

Witnesses introduced today were E. L. Ashton, local attorney; Mrs. Ella Stiffler, who knew Mrs. Starr intimately; and A. Wilton York, an employe of the Twin Falls Bank and Trust company.

The jury is composed of the following men: A. J. Fix, J. T. Anderson, W. O. Linsey, L. O. Benoit, James Fitzgerald, S. P. Yantis, Henry Olsen, J. W. Leedom, Ernest Prichard, H. H. Schlihman, J. M. Robinson, J. F. Daymiller.

Judge James R. Bothwell, wife and daughter are home after a trip to Utah and Boise. While in the capital city Judge Bothwell attended a democratic meeting in the Hinkle, Saturday night which was crowded by an enthusiastic audience to listen to Messrs. Watters and Thompson, candidates for the positions of congressman and lieutenant governor, respectively.

In Ogden, Utah, Judge Bothwell represented the plaintiff in the case of the Idaho State bank against the Hooper Sugar company, et al, in which case the court ordered the attorneys in the briefs setting forth their views of the law involved.

Auto Hangs High Over South Bridge After Big Bumping

Stephan Bos of this city is nursing started feelings today following a collision with the rock crusher bridge. He was out in the country with a Dodge car and was returning, bringing a bottle of milk with him. When near the bridge the bottle fell over and he leaned to right it. The car took the bit in its teeth and started for the side of the bridge. The flange caught the bridge and the auto swung out over 50 feet of space but the flange held. Bos got out unhurt and later had the car brought to town for repairs.

Osteopathic Meetings Were of Great Value

"The sessions of the Idaho State Osteopathic association at Boise last week were full of interest and profit," declared Dr. Emma Crossland upon her return to Twin Falls.
