PRESIDENT MAKES FIGHT FOR SHIP SUBSIDY BILL

SEPARATION OF SOUTHERN AND CENTRAL ROADS IS DISCUSSED

Southern Pacific Representative Shows That Great Loss Would Result in Separation of Central and Southern Pacific Railroads; the Two Are One System Says Spence.

WASHINGTON, Nov. 21—Dismemberment of the Southern Pacific-Central Pacific system would result in impoverishing the Central Pacific and at the same time work great harm to the public and transportation in general in the Pacific states, Lewis Spence, director of traffic for the Southern Pacific told the interstate commerce commission.

Spence said that withdrawal of the Southern Pacific support from the Central Pacific would cause a loss of more than 500,000 tons of transcontinental freight per year to the latter line.

The witness stated that the interstate commerce commission has repeatedly recognized the fact that two-line hauls justify a higher rate than one line haul and declared the tearing apart of the interwoven Central-Southern Pacific lines which have been under common control and operation as a single unit since 1870 would mean that "instead of having better service at lower cost, we will have poorer service at a higher cost."

"Southern Pacific System . . . . . .

Pointing out that the Central Pacific forms an integral part with the Southern Pacific for a transportation system extending 2,622 miles from Portland, Oregon, on the north, to Tepic, Mexico, on the south, linking the states of Oregon, California, Arizona, New Mexico, Texas, Nevada and Utah, Spence testified that 75 per cent of the tonnage and 80 per cent of the passengers of the Central Pacific lines are handled exclusively within the Pacific states west of Ogden, Utah and El Paso, Texas, and that of such traffic, 6,334,848 tons or 75 per cent was handled jointly by Central Pacific and other Southern Pacific lines.

U. P. and S. P. Animosity Shown Up

"The Southern Pacific would be in no way the beneficiary of conditions which under separation, would produce an impoverished Central Pacific," Spence said. Animosity between the Union Pacific and the Southern Pacific systems over the Central Pacific flared up at today's hearing.

Fred H. Wood, attorney for the Southern Pacific charged that shippers associations of the Pacific coast states were objecting to the merger, he asserted because they are merely subsidiaries of the Union Pacific.

The petition of the California shippers and producers' association to intervene in the hearing was attacked by Wood.

"We will move later to strike this portion from the records," said Wood. "We will show that this association is merely an alias under which the Union Pacific railroad is masquerading before this commission to oppose the tearing of this railroad by the Southern Pacific."

We will meet and refute that charge," replied Edward F. Treadwell, representing the association.

SARAH BERNHARDT HAS NARROW ESCAPE IN ACCIDENT

CARMET-LE DUC, France, Nov. 21—Sarah Bernhardt had a remarkable escape from death while motoring towards Italy yesterday. The auto in which the famous French actress was riding lost a rear wheel, but prompt action on the part of the chauffeur prevented a serious accident.

PASHA CANNOT PRESIDE AT MEET

LAUSANNE, Nov. 21—Ismet Pasha, Turkish representative at the Near Eastern conference, was told flatly today by the allies that he could not preside at any of the meetings.

The allies decided the presidency must alternate among the British, French and Italians, despite the Turkish claim that they are a victorious nation. The day's session was devoted to organizations.

America Makes Slow Progress on Refunding Of World War Debts

WASHINGTON, Nov. 21—America's chances for obtaining quick action this winter on refunding of the debts owed her by foreign countries, aggregating over eleven billion dollars have made any actual moves toward establishing contact with the debt refunding commission.

Of twenty nations, beneficiaries of the American treasury during the war years, only seven, according to the records of the commission have made overtures looking forward toward refunding negotiations. These are England, France, Belgium, Jugo-Slavia, Roumania, Italy and Poland.

The degree of their responses to American invitations to "come and talk it over" varies.

The belief is held that the procrastination of foreign countries is occasioned not only by their inability to see their way toward paying even if the debts are refunded, but because in 1919 they were all informed that this country was willing to declare a three year moratorium on payments pending refunding arrangements if the countries would immediately enter such negotiations.

The proposal was never acceded to, but the impression apparently prevailed that three year moratorium nevertheless remained valid.

This expired in April of this year.

England Favors Refunding Plan

England has tentatively named a commission to visit Washington and talk refunding and has recently paid the treasury $100,000,000 on account of interest.

France during the past summer named a delegate, Jean Parmentier, who conferred with the commission for a number of weeks. Parmentier was suddenly recalled to his home country, leaving behind him "unfinished business" and the debt refunding commission has no word of his return.

France Pays Interest to U. S.

France, which maintains that payment of her debt is out of the question, is nevertheless paying to this country approximately $21,000,000 annually in interest.

Belgium has named a delegate to appear before the commission—Baron de Cartier, *her ambassador to this country*. DeCartier, however, has as yet made no approach to the commission to set a date for commencing negotiations.

Jugo-Slavia has likewise appointed her diplomatic representative in Washington to negotiate refunding. Dr. Pavisch, however, has made no definite overtures for refunding the $25,000,000 indebtedness of his country to the United States.

Roumania has two delegates at present in Washington who are actively engaged in conversations with the debt refunding commission.

Italy inquired of this country last summer when she could send a refunding mission. Since that time no further word has been received.

Poland with a debt of $163,000,000 and a currency quoted at 15,000 marks to the dollar, has declared her willingness to enter negotiations for refunding her debt but has not followed the matter up pending final adjudication of the amount she owes.

Cuba occupies perhaps a unique position among the debtors in that she has not broached refunding to this country, but regularly pays interest on her $7,000,000 debt every six months.

STARTLING EVIDENCE DUG UP IN DAUGHERTY IMPEACHMENT CASE

WASHINGTON, Nov. 21—"Important new evidence" has been dug up by the American Federation of Labor in its efforts to impeach Attorney General Daugherty, it was stated today as the executive council of the organization met to complete the case against Daugherty.

Today's and tomorrow's sessions will be given over entirely to the Daugherty case, it was stated.

The nature of the "important new evidence" was not divulged, but it was said to be in the nature of a bombshell. The movement to throw Daugherty out of office developed after Daugherty secured his famous injunction against the 400,000 striking railroad shopmen last summer.

Hearings on the impeachment will *be held by the house judiciary committee* within a few days.

MAN REPLACES WOMAN.

RACINE, Wis., Nov. 21—Racine, one of the first Wisconsin cities to appoint a police woman, now leads in the opposite direction. At a meeting of aldermen the office of police woman in Racine was abolished and they voted unanimously to give Police Chief H. C. Baker an extra man to handle juvenile cases, dance halls and other other work formerly assigned to a woman officer.

WOMEN MINISTERS.

CLEVELAND, O., Nov. 21—Cleveland has two full-fledged women Methodist pastors. Miss Jeannette Whetro and Miss Della Howard are no more. They are now "the Rev. Whetro," and "the Rev. Howard." *They are ministers under authority* granted at the 1920 Methodist conference in Des Moines for women to take out licenses to preach.

TOBACCO AND MEMORY.

PARIS, Nov. 21.—Non-smokers, beware of smokers. Your memory may weaken if you inhale tobacco fumes. This is the conclusion drawn from a series of experiments carried on at the Academy of Medicine of Nancy by Drs. Mathieu and Mercklen. Their experiments were carried out on mice which were placed in a glass case. Smoke infiltrated and it was noticed that the mice then walked very hesitatingly and seemed to lose a notion of their whereabouts.

WILL TEST MOTORISTS.

LONDON, Nov. 21.—England's ministry of transport has declared war on speed merchants and road hogs, by the proposal of a presentation bill, to be laid before parliament to the effect that every motorist with a license shall undergo a physical fitness and brain test, which will decide whether he is to continue holding a license. As the law stands today, a license can be taken out by deaf, dumb, halt and blind.

Colorado River Waters Will Be Allocated to Seven States Concerned

SANTA FE, N. M., Nov. 21—A treaty allocating the waters of the Colorado river among the seven southwestern states has been signed at the Colorado river commission here was expected *to be submitted for final approval today*. Conferences were held last night by delegates from California, Arizona, Wyoming, and New Mexico. It was believed today that the fourth and fifth drafts of the treaty had been prepared and that signatures of interested parties was all that was necessary to make the pact effective.

HOUSE ADJOURNS OUT OF RESPECT FOR FORMER MEMBERS

WASHINGTON, Nov. 21—After adopting resolutions of respect to the memories of the late Representatives Connell, Pennsylvania, and Nolan, of California, the house as a further mark of respect, adjourned early this afternoon.

WOMEN INDICTED FOR POISONING THREE PERSONS

CHICAGO, Nov. 21—Mrs. Willie Klimek and her cousin, Mrs. Nellie Stermer, stood indicted today for the alleged poisoning of three men.

True bills returned by a grand jury charged the women jointly with murder and conspiracy to murder two of Mrs. Klimek's late husbands and one of Mrs. Stermer's.

Although the women are accused by investigators of *having poisoned* at least 17 others, including additional husbands, Assistant State's Attorney William McLaughlin said it would probably be unnecessary to vote any further indictments.

Play Writer Ends Life by Taking Gas

HOLLYWOOD, Calif., Nov. 21—Frederick Lewis, motion picture writer, explained in his note to his second wife had overwhelmed Gen. Brenson Howard, dean of playwriting, plays and novels who ended his life by turning on the gas in his room here yesterday.

The letter written not long before his death, declaimed, "If you worry me too much, I will give up in disgust."

The body was found in the closet of his room, a rubber tube from the gas jet having been brought under the door.

Howard once before attempted suicide it was said, at the time of his sensational divorce from his first wife, when he was said to have jumped into the Thames in London.

FIRST WOMAN SENATOR SINCE U. S. BECAME A NATION TAKES OATH

WASHINGTON, Nov. 21—Mrs. Rebecca Felton, the first woman senator in history, was sworn in as a member of the upper house of congress today.

After a lengthy argument made by Senator Walsh, Democrat, Montana, in which precedents in the senate were gone over, Mrs. Felton rose from her seat in the rear of the chamber, and accompanied by Senator Harris of Georgia, *walked up to the vice-president's desk*. She raised her right hand and the acting president of the senate administered the oath for the first time to a woman.

There was no objection raised to her admission, but Senator George, who could have claimed the seat by presenting his credentials, was absent.

EDUCATORS DENY THAT COLLEGE MEN DO NOT LIKE WORK

Edison's Statement That College Men Do Not Like Real Work is Strongly Refuted by Prominent College Presidents All Over U. S.

(Copyright by U. P.)

Educators all over the United States are taking issue with Thomas A. Edison, who in an *interview with the* Daily Princetonian said college men are afraid of work—especially dirty work. The celebrated inventor's criticism of collegians has stirred up almost as much excitement as his famous questionnaire. Mr. Edison, it was stated at his office, has no intention amplifying or explaining his remarks despite the counter attack from the colleges.

DALLAS, Texas—"The trouble with Mr. Edison is he's never been to college," said Dr. H. S. Hyer, president emeritus of Southern Methodist University. "There are of course losers in college as there are everywhere else. Perhaps we should ask them a little more and probably save a great many who, if they had not gone to college would not have been saved."

PALO ALTO, Calif.—Professor Lewis M. Terman, psychologist of Stanford University, inventor of the army alpha intelligence test, who probably has examined more college students than any other man, said:

"College students are not afraid of work any more than anybody else. At Stanford a majority work their way, or part of their way through. Our engineering students are not afraid of dirty work. Edison has made a *generalization* which sounds fine but is not borne out by facts."

KANSAS CITY—Professor L. N. Flint, Kansas University: "Eighty per cent of our men work their way through school, and they don't give a chance to get out of the habit."

ST. PAUL—"The pleasure loving, irresponsible boy, rich and poor, near rich seem to be the only class of students who shirk work and are humanitarian," said Father Thomas Mulleson, president of St. Thomas College.

ATLANTA—Edison's denunciation is evidently the result of observation of men who are not really representative. Approximately, nine-tenths of the responsible positions in the business world are being held by college graduates," Dr. M. L. Britton, president of Georgia Tech.

LEWISTON, Maine—"There are thousands of young men now in colleges who are practicing the gospel of hard work," Clifton Gray, president of Bates college, wrote to Edison.

PRINCETON, N. J.—Mr. Edison's experience with college men is very narrow due to the requisite of *technical knowledge*. In all, man he employs," said Jay Henry Van Dyke, of Princeton. "That the college man does work is shown by figures given out from the Bureau of student improvement."

Denver & Rio Grande to Spend $22,000,000

DENVER, Nov.—The Denver and Rio Grande Western railway will spend $22,000,000 on improvements within the next three years, it was announced here today. The statement was made in a report submitted by Special Master Cass Herrington to the United States district court, recommending the immediate expenditure of $7,000,000.

WOMAN IN GRAY MAY BE TURNING POINT IN MURDER

SOMERVILLE, N. J., Nov. 21.—The state is rolling up a tremendous accumulation of evidence against the "woman in gray" and the man whom it seeks to indict for the Hall-*Mills murder*.

Resumption of testimony before the grand jury today was spurred by discovery of a new witness, George Seiple, a farmer said to be able to identify the driver of the automobile whose headlights threw into relief the actual murder scene, and disclosed his participants in Mrs. Jane Gibson the production star witness.

Seiple was in the vicinity of Eastern avenue, on the murder night, and says he saw a Ford livery truck pulling into Deltussey's lane.

Kansas Will Attempt to Oust Ku Klux Klan

TOPEKA, Kan., Nov. 21.—Legal action to oust the Ku Klux Klan from Kansas was to be taken in the state supreme court today on orders of Governor Henry J. Allen.

The action will be on the grounds that the klan, a Georgia organization is operating in Kansas without a charter.

COTTON CROP IS HEAVIER THAN 1921, SAYS CENSUS

WASHINGTON, Nov. 21—Cotton ginned up to Nov. 14 from the crop of 1922 totaled 8,563,257 bales counting round as half bales, the census bureau announced today. This compared with 7,274,201 for the same period last year.

American-Egyptian 17,715 compared with 16,105 last year.

Sea Island 4,737, compared with 2,456 last year.

AIRPLANE FLIES FROM NEW YORK TO SO. AMERICA

GEORGETOWN, British Guiana, Nov. 21—The first airplane to reach this town from New York enroute to Rio de Janeiro by Lieutenant Walter Hinton and an American crew, reached the South American continent late yesterday.

The big plane which has been injured in the Orinoco river when the propeller was being fitted, landed at the mouth of the Eessquibo river.

NEW YORK—Olaf Jansen, a new arrival, bought a street car from two well dressed men for $200, Jansen told the police when the conductor threw him into the street.

SENATOR NEWBERRY'S RESIGNATION IS READ

WASHINGTON, D. C., Nov. 21—The resignation of Senator Truman H. Newberry, Michigan, was read in the senate today.

There was no demonstration from the galleries. Newberry was not present.

LONDON, Nov. 21—J. P. Morgan, who had been reported ill at Watford, was in London today in the best of health, according to announcement from the American financier's offices here.

HARDING'S MESSAGE HEARD BY CONGRESS

President Harding Dares the Enemies of the Ship Subsidy Measure to Take the Responsibility for Defeating It in His Bristling Message to Congress; Bill Will Save $50,000,000 a Year; Relief Offered for Agriculture.

WASHINGTON, D. C., Nov. 21.—In a fighting message, President Harding today dared the foes of the administration ship subsidy bill to assume the responsibility for defeating it.

Declaring that no proposition placed before congress ever met "a more resolute hostility," the president in a message delivered in person to the extra-ordinary session of congress, challenged his opponents to meet the issue fairly.

The president devoted practically all of his message to a vigorous advocacy of the subsidy, mentioning only one other national problem—additional relief for agriculture. This and other questions will be dealt with in his message to the regular session, which will meet on December 4.

"This problem can no longer be ignored," says Mr. Harding. "Its attempted solution cannot longer be postponed. The failure of congress to act decisively will be no less disastrous than adverse action."

Carrying the fight with agressiveness to the enemy's camp, Mr. Harding said he challenged "every insinuation of favored interests and the enrichment of the special few at the expense of the public treasury. I am, first of all, appealing to save the treasury."

Throughout his speech, the president argued that the subsidy would save money to the treasury because of the large losses still being piled up by the shipping board. These were estimated at $50,000,000 a year, while the president said the cost of the subsidy would be half that amount.

The executive made a fervent plea that America again be raised to a position of eminence among the maritime nations of the world."

Striking directly at the opposition to the measure, the president said one of three courses is open to congress.

Outlines Three Propositions

"The first is constructive—enact the pending bills under which I propose to foster an American merchant marine, initially owned and privately operated, but subsidized till the people are always available to the government in any emergency, may be established and subsidized," he said.

"The second is obstructive—Continue government operation and attending government losses and discourage private enterprise by government competition under which losses are met by the public treasury and attendant losses and deterioration until the colossal failure ends in sheer exhaustion.

"The third is destructive—Involving the sacrifice of our ships abroad to the scrapping of the mat home, the surrender of our aspirations and the confession of our impotence to the world in general and our humiliation before the competing world in particular.

America Will Not Surrender

"A choice between the three is inevitable. It is unbelievable that the American people or the congress, which represents their power, will consent to surrender and destruction. It is equally unbelievable that our people and the congress which translates their wishes into action will longer sustain a program of obstruction and attending losses to the country."

Mr. Harding said the bill was not a subsidy, but "government aid" in the same sense as the government provides aids in building inland waterways and improving roads to aid in the growth of commerce. The president emphatically declared that since the government aids industry by tariffs and reclamation water power development agriculture and marketing by other legislation, it should not hesitate to aid shipping.

Many Prefer Prudence to Facts

"But call it subsidy," he said, "since there are those who prefer to yield to mistaken prejudice rather than make frank and logical argument."

The president reviewed the situation briefly and graphically, painting what he called a "gloomy picture of losses." He told how the merchant marine was built in the war, with 2,000,000 how government operation when *he took office was entailing a loss of* $40,000,000 monthly, how the loss had been cut to $4,000,000 a month, just how it happened and why it has gone so long as the present method of operation has been in force.

Administration Will Not Ask to Sell

It is not therefore a question of adding new burdens to the taxpayers and to the people, the president solemnly asert, Mr. Harding declared.

"It is now the administration's purpose to lighten the burden already borne," he said. The administration would not, however, he said, "fail to do its share in the effort to save $50,000,000 in taxes and did not fight for such an economy."

He urged congress to forget "petty

(Continued on Page 2.)

Striking Points In President's Speech

WASHINGTON, Nov. 21.—Striking statement of President Harding in his vigorous advocacy of the ship subsidy included:

"If the legislation fails, then will come "the supreme humiliation," the admission that the United States—our American once eminent among the maritime nations of the world—is incapable of asserting itself in the peace triumphs on the seas of the world."

"The blunt indisputable fact of the loss of fifty millions a year under government operations remains."

"Thus far I have been urging government aid to American shipping having in mind every interest of our producing population, whether of mine, factory, or farm, because expanding commerce is the foremost though of every nation in the world today."

"There is no thought here, now to magnify the relations of a merchant marine to our national defense it is enough to recall that we entered the world war almost wholly dependent on our allies for transportation by sea."

"I am not asking your authorization of a new and added draft of the public treasury; I am appealing for a program to diminish the burden we are already bearing."

"The point is that our fleet, costing approximately three billion dollars is worth only a fraction of that cost today. Whatever that fraction may be, the truth remains that we have no market in which to sell the ships under our present policy and a program of surrender and sacrifice and liquidation which is inevitable unless the pending legislation is sanctioned, will cost scores of millions more."

"The maritime nations of the world are in complete accord with the opposition here to the pending measure."

Twin Falls Will Play Boise Here Thanksgiving

Bruins Will Be in Better Shape for State Championship Game on November 30 | Boise Will Play Walla Walla Next Saturday.

Arkwas visited in Twin Times yesterday the game between Boise and Twin Falls, could be postponed until Thanksgiving day under the contract, by both parties, agreeing to same. This was done late yesterday afternoon, Boise has had a two year contract with Walla Walla high school and did not wish to break this contract. This contract calls for a game at Boise next Saturday.

Out of the Twin Falls backs is in bad shape from the game last week in Idaho Falls and it is figured that he will be in shape again by the Thanksgiving day game, if we should play the game here next Friday he would possibly have to remain on the side lines.

The writer watched the Boise high school team play Weiser high school and after watching that game we must admit that the capital city bunch is a strong aggregation. They work the forward pass splendidly and have one or two very fast man behind the line.

Their back field is much lighter than the Bruins but their line is perhaps a little heavier, making the average of the two teams about equal. The game here Thanksgiving day *will be a real battle and the fact that* the game decided the Northwesters by the score of 24 to 0 should indicate to local players and fans that the "Warriors" are not slow on their feet.

WILLIE HOPPE ALMOST LOST BILLIARD GAME

NEW YORK, Nov. 21.—Willie Hoppe nearly stumbled last night on his path back to the world's 18.2 balkline billiard championship, but Erich Hagenlacher, German cut artist, refused to take advantage of the former title-holder's mistakes and Hoppe's road to victory appeared clear.

Hoppe had a narrow escape, playing his poorest game to date in the tournament, but finally ran out his fourth straight victory. The final score was 500 to 422. Hoppe averaging 22 16-22 and Hagenlacher 22.

Jake Schaefer, present title holder, won his game from Welker Cochran last night, 500 to 393, by playing very good billiards and as a result is in a position to tie Hoppe, providing he can win his game tonight. Schaefer displayed a steady stroke in yesterday's exhibition and finished the game with an average of 31 4-16.

JACK BRITTON OFFERS $10,000 FOR SLEEP

NEW YORK, Nov. 21.—Jack Britton will give $10,000 to anyone who will produce a remedy that will make him sleep.

Not only his future in the ring, but his health depends on getting rid of insomnia which has bothered him for over a year, the former world's welterweight champion declares.

After being knocked out in Mickey Walker, which deprived him of his title Britton went up into the Maine woods, but he found no relief.

He returned to the city for awhile and he is now back in the wilds again.

"It is nervous trouble and not due to any organic disorders," Britton said.

PADDOCK'S RECORD IS UP TO A.A.U.

PASADENA, Calif., Nov. 21.—Commenting on the athletic row which has been raised over his recent running achievements Chas. W. Paddock today wrote only say:

"The records have been submitted to the national committee. The time, the surveyor, the watch testers and the starter were all agreed. These same A. A. U. officials have proven their accuracy and reliability many times before. My part was to do the running.

"There is, however, one correction which I should like to make. It has been stated that all the records were established in one race, which would lead one to believe that there must have been at least 32 different times to clock the seven distances. The seven records were made in three different races and, with the single exception of the 100 yards, no record was broken by more than a fifth of a second."

PRESIDENT MAKES FIGHT FOR

(Continued from Page 1.)

political questions in dealing with this problem. He said some members of congress had expressed the fear that a vote for the subsidy would hurt them with their constituents. To them he appealed for "loftier statesmanship to support and commend a policy designed to effect the larger good to the nation," rather than to "record the too hasty impressions of constituency."

He said commercial supremacy for the United States is no less important to the people of Mississippi and the Missouri valley, the northwest and the rocky mountain region than to the seaboard states.

"People Will Not Live in Selfishness"

"When people fall in the national viewpoint, and live in the confines of community selfishness or narrowness, the sun of this republic will have passed its meridian and our larger aspirations will shrivel in the approaching twilight," Mr. Harding said.

"Whatever the view taken, one blunt, indisputable fact of the loss of fifty millions a year under government operation remains," the president added. In addition to wiping out this loss, the subsidy bill, Mr. Harding declared, would "offer the only dependable promise of making our wartime inheritance of ships the foundation of a great agency of commerce in peace, and added guaranty of service which it is necessary to our national defense."

Opposes LaFollette's Seaman Act.

"The president went on record as being opposed to the repeal of laws such as the LaFollette seaman's act, designed to raise the standard of living for American ships, saying "merest justice" demanded that continuance until all the world had been brought to the same level. These laws, some shipping interests contend make it impossible to compete with foreign marines.

The president started speaking at 12:35 p. m.

"Closing Plea of President."

"I have come to urge the consideration of this measure, to present an idea from a program upon which failure and hopeless and staggering losses are written for every page and at every chapter, a program of assured shipping to serve us in war and to give guaranty to our commercial independence in peace," said President Harding.

Flour Mills and Buildings Burn

WASHINGTON, D. C., Nov. 21.—Fire, fanned by a high wind, swept through the town of Front Royal, Va., today, destroying about twelve buildings, according to reports received here by long distance telephone.

Two flour mills, several business houses and two residences were caught in the path of the blaze which scores of volunteer firemen fought for nearly five hours before bringing it under control.

Sign of Health.

One of the best signs of good health in children is a steady gain in weight and height, and this in turn is the sign of a suitable diet. Another indication of good child health is plenty of deep sound sleep. Both of these are necessary to healthy, normal growth.

First English Military Bands.

The first military band ever made in England in 1785. The duke of York, son of George III, imported a band of twelve German musicians with three negroes, and established them in the band of the Coldstream guards. Other regiments then formed bands on similar lines. The negroes continued to form part of the bands until the year 1853.

Syrup Pepsin Helps Nature Give Relief

Try it when a Laxative is needed and see the wonderful results

If it is not necessary to take a violent purgative or a simple mineral to relieve constipation, what most troubles parents give mercury in the form of calomel.

Calomel is the best medicine for the treatment of fever when it is natural vegetable pepsin found like Dr. Caldwell's Syrup Pepsin will do the work quickly and without danger. Pepsin is a shield against that mercury may salivate and in certain conditions have in this bottle that phenolphthalein, by whatever name known, is now *very dangerous* in its effect, may cause disappointment and vomiting; that calomel and powders may cause the bowels, dry up the skin and cause lassitude.

You can take Dr. Caldwell's Syrup Pepsin yourself or give it to an infant without the fear that your nerves will be upset and sleep normally. Bring a bottle of Dr. Caldwell's Syrup Pepsin home today, give some and let the family use it for constipation, biliousness, wind, gas, headaches, sour stomach, and to break up fevers and colds.

ANY FAMILY MAY TRY IT FREE

Write Dr. W. B. Caldwell, 452 Washington St., Monticello, Ill., for a generous trial bottle of Dr. Caldwell's Syrup Pepsin. Mention your name and address in full and a trial bottle will be sent you by return mail. Dr. Caldwell's Syrup Pepsin is compounded of Egyptian senna and pepsin with pleasant-tasting aromatics, and does not gripe or cause pain. Every dropful is full of relief, and leaves no grounds that the first amounts to only about a mouthful. You buy it with the understanding that if it does not do as claimed your money will be refunded. The names of all the ingredients are on the package.

Mrs. A. Anderson of Orange, Texas, suffered from constipation for six years and found no relief until she took Dr. Caldwell's Syrup Pepsin; and Mrs. Ora Anderson of Hall, Iowa, corrected her bowel troubles, that she now eats and sleeps normally. Bring a bottle of Dr. Caldwell's Syrup Pepsin home today, give some and let the family use it for constipation, biliousness, wind, gas, headaches, sour stomach, and to break up fevers and colds.

GIRL NOW WELL AND STRONG

Daughter Took Lydia E. Pinkham's Vegetable Compound as Mother Advised

Wauseon, Ohio.—"My daughter always had backache and legache at certain periods and could not be on her feet at all times. I read an advertisement about Lydia E. Pinkham's Vegetable Compound doing girls so much good so she began to take it. That is two years ago and she is a different girl since then. I told to do any work she wants to do although she is still careful not to do heavy work—and so is well and strong.—We recommend Lydia E. Pinkham's Vegetable Compound to all mothers with ailing daughters, and I give my permission to publish this letter as a testimonial."—Mrs. A. M. Hunsholder, Route No. 2, Box 1, Wauseon, Ohio.

Something out of balance will affect the finest clock, causing it to gain or lose. The proper adjustment made, all is well. So it is with women. Some trouble may upset you completely.

Lydia E. Pinkham's Vegetable Compound will restore the balance of the complete and disagreeable symptoms will disappear as they did in the case of Mrs. Hunsholder's daughter.

Mortuaries—it is worthy of your confidence.

Did you know that 30 per cent of all flowers are white.

It has been stated by an old sage that a man's hair turns gray five years earlier than a woman's but we think that depends on the health and general surroundings of each.

In recent years the average yield of wheat throughout the United States has been about 15 bushels per acre. Some places have reached the twenty mark. But the average yield on the Twin Falls tract for 1922 would run much nearer 30 or even 35 bushels.

Having a plentiful harvest after four years of small crops, the farmers of New England, N. D., this week gave public thanks to God for blessings received. Clergymen of various denominations led the prayers of gratitude. It is an ancient custom to implore heaven for bountiful fields and pastures, and then to offer thanks after the harvest. And it is a beautiful custom. We cannot deride the most evident fact that life and health are gifts.

The residents of the Twin Falls tract might secure a larger number of tourists to pass through this tract by a little closer cooperation with the Utah Automobile association. We should let this body and the Chamber of Commerce of Salt Lake City know that we are working in harmony with them rather than against them. *Some of the cities in Idaho have been very antagonistic to* these organizations because they have refused to route all the tourists through these respective Idaho towns.

Nearly everybody gets a touch of the blues now and then we presume, but this is no crime just so long as we do not allow our "Blue Days" to exceed the number of bright days. The other day the writer received a letter from a New York representative stating that some one had circulated the story clear back there that Idaho folks had no money to buy with even if they did, wish to make purchases. We would like to twist the fellow's tail who *circulated this story back in Gotham.* It is all right and perfectly proper to talk over our shortcomings among ourselves but we hope that no man will ever be mean enough to go outside the borders of this state and talk in a deplorable manner of this wonderful commonwealth and its great possibilities.

TURKS ENFORCE PROHIBITION

You can call the Turks all manner of names, but on one point you have to take off your hat to them, that is to say if you are a believer in prohibition. Moreover, the Turk knows how to enforce prohibition.

News comes from the Near East that the total prohibition of alcoholic drinks will be applied throughout eastern Thrace as soon as the Kemalist authorities take charge. The same rule will be applied to Constantinople immediately after the Kemalist occupation. Those violating the prohibition law will be liable to punishment consisting of 40 lashes, three months in prison and a fine of from 60 to 300 Turkish pounds.—Idaho Farmer.

The followers of Islam are all opposed in theory at least and quite generally in practice to the use of intoxicants, which shows that all people's have redeeming features.

...AT THE... THEATRES

ORPHEUM VAUDEVILLE AS POPULAR AS EVER

The verdict of the people who witness vaudeville at the Orpheum theatre tomorrow. More stellar attractions booked at this favorite amusement temple. Engagement extraordinary of *Latham & Bohrs, that great in the air,* vaudeville's choicest and best cradle gymnasts, introducing during and seemingly impossible stunts in midair. The female in this offering does all the heavy lifting and handles the male member with grace and ease. They close with the human elevator, something new and novel. Jimmie, Mary and Ray, the three aces of vaudeville, cute, talented and versatile, in a repertoire of harmony singing numbers with bits of comedy flashes and situations. Murray & Dayton—something to laugh about and remember in their character impersonations which they call "Black and Tan," a dark colored gent and a light complected wench. Negro eccentricities, imitations and wooden shoe dancing. Tom Davies, the novelty cartoonist, paints life-like pictures of famous men both past and present with lightning-like rapidity, so have him make a sketch of your favorite hero which he will do most obligingly.

The feature picture, a powerful drama of the northwest entitled "The Barricade," starring Kenneth Harlan and Katherine Spencer.

"THE GHOST BREAKER" COMING

"The Ghost Breaker" is coming to Twin Falls next Thursday. He is Wallace Reid, Paramount star, and his new vehicle bears that title. It is said to be a remarkable photoplay. Lila Lee is his leading woman, and Walter Hiers, famous comedian, has a negro role. Don't miss it.

HIGH SCHOOL

Yesterday evening the Junior play cast held a short meeting in the high school.

This morning there was a short meeting of the student council to nominate members for the "Coyote" board, the elections on the nominations will take place tomorrow during the period designated as time for club and social work. Elections for class representatives were held this morning in the three classes. Work will be under way shortly now as the staff will soon be organized sufficiently to begin to plan for the coming year book.

NEW TICKET FOR HIGHWAYBOARD IS IN THE FIELD

Gathering in Office of Local Attorney Places Three Names in Nomination for Commissionership; These With A. E. Pettygrove of Hansen, J. R. Langford and R. Hayl Mentioned.

With the highway district election coming up Saturday, there was little interest in the contest, until last evening when a meeting held in the office of Homer C. Mills of this city nominated what was classed as the Farmers' ticket for highway commissioners. These consist of J. H. Dunaway, who lives two miles west; Hen Carter, who lives at Berger on the Salmon tract and J. S. Wiesman, who lives north of Kimberly. Cards bearing the names of the candidates with instructions that all electors are entitled to vote, whether registered or owner of property or not.

Leaves Pettygrove Off

A. E. Pettygrove was not on the list of those endorsed, although unanimously endorsed by the Hansen electors at a mass meeting at his native town of Hansen. Mr. Mills said that such section was represented and picked its own man. Twin Falls is not represented on the board.

McAuley Will Not Run

"While I greatly appreciate the fact that I have been mentioned for the position of highway commissioner, I feel that under the circumstances I cannot do justice to those who elected me to my present position and accept" said S. G. McAuley. "I accepted the place on the city commission after giving definite assurance that I would carry out certain things and should I take any other position, I feel that it might interfere with my work and would be unfair to those who elected me."

Langford Will Run.

It was learned this afternoon that J. B. Langford of Rogerson, a member of the present board, "would reconsider his determination not to run under any circumstance and that he would serve if re-elected. Rupert Hayl of Hollister is also mentioned. Arthur L. Swim was discussed as a possible candidate but positively declined.

Revival at Christian Church Has Fine Interest—Pastor

The meetings at the Christian church are being well attended and this week bids fair to surpass the first week in interest and attendance says Rev. W. W. Burks. The evangelist preached an interesting sermon last evening on "The Baptism of the Holy Spirit." He said, "The baptism of the Spirit was the fulfillment of the promise of the Christ. He was to be the administrator and the blessing was to come upon His disciples in the beginning of the church to establish His word and to qualify these believers to witness for him before the world. This supernatural manifestation of the Spirit was not primarily, to convert sinners, since the preaching of the gospel was to do this, but rather to empower believers to do this preaching in a convincing way. We call attention to the record and find that there are two accounts in the Acts of Apostles that may be called "baptisms of the Spirit," the day of Pentecost as recorded in the second chapter, and the conversion of Cornelius, as it is recorded in the tenth, eleventh and fifteenth chapters. These accounts identify these spiritual phenomena as 'like gifts (in the language of Peter.) The context clearly shows that Cornelius was a believer as the result of Peter's sermon, before he received this 'outpouring' of the Spirit and it was given to confirm to the Jewish mind of Peter that the Gentiles were heirs of the Kingdom of Christ."

LEGION APPOINTS A COMMITTEE TO HELP SALVATION ARMY

Following the outline of plans by Major Morton for the Salvation Army drive, before the American Legion today at the luncheon at the Rogerson, a committee consisting of Ralph Pink, Sydney Gray, A. J. Myers, A. Wilton Peck and Harry J. Benoit, was appointed to co-operated with other similar committees. The total sum sought for the county will be $4000 of which $3000 will be expected from this city.

Postoffice Is Robbed of $20,000 in Cash

BIG RAPIDS, Mich., Nov. 21.—Bandits broke into and entered the Big Rapids postoffice early today burn through four steele doors, and escaped with more than $20,000 in cash and stamps.

Acetylene torches were used in Registered mail and government funds were left untouched.

Little teasing troubles,
Small and wee, but sure,
Like little bits of bubbles,
Comes knocking at the door.

Perhaps at love, at daily life—
These little problems strike,
Confronting now the busy wife
Or maid, or mother, all alike.

It is to help along these lines,
This column has been made,
So send your worries to The Times,
Immediately, you'll see them fade.

So if there is a doubt in your mind,
Just drop a line to me,
Your answer, you will surely find—
Promptly printed correctly.

BOOK WEEK PRIZE WINNERS ARE GIVEN TO PUBLIC

Barbara Jane Provost Gets First Place Among the Older Contenders, and Blanche Jewell in the Younger Class; Others Received Honorable Mention.

Great interest has been shown in the prize essay contest, conducted by the Twin Falls public library during "Children's Book Week." The subject for the essay in the junior high was "My Book Party." Barbara Jane Provost, a seventh grade pupil, was given first place; while the essays written by Margaret Johnson, Mary Provost Ella Kroeger, Marjorie Woods and Forest Young were given honorable mention. The judges in this contest were Mrs. C. H. Krenzel, Mrs. I. E. Joslyn and Mrs. Zenas Smith.

"The books I like best," was the subject of the essays in the fifth and sixth grades. Blanche Jewell, a sixth grade pupil was given first place. The essays written by Leola Hobson, Edna Wyland, Marcella Lauhenheim and Miriam Ballantyne were given special mention. The judges were Junior Fitzgerald, Mrs. C. R. Scott and Dr. W. V. Passer.

The prize in each contest is to be a book, given by the Twin Falls public library.

UNPATENTED LANDS ON SALMON TRACT HELD AS UNTAXABLE

Taxes levied between the years of 1918 and 1921, inclusive, on the land inside the irrigated segregation on the Salmon, were illegally levied because the title for the same was vested in the government of the United States, is the opinion handed down by Judge T. Bailey Lee in a joint action involving about 2,000 acres on the Salmon, and received today by Attorney D. Davis who represented the 70 persons involved in the action.

The persons who owned land and entered court to prevent its final sale were E. H. Lewis, A. E. Caldwell, G. A. Sallee, J. R. Dibell, Stephen Ross, James Ross, Ed Pasbert, C. L. McFarlin, J. A. Palmer, Peter Christensen, Dorothy Holderman, Thomas G. O'Brien, P. G. Voight, D. W. Pratt, J. A. Gertler and J. E. Poldman.

The case is apt to be of far-reaching important. Some years ago a similar case was heard and decided in the same way by Judge H. P. Enslen. It was not appealed. (Recently an appeal was taken from a similar decision for land outside the irrigated segregation and this has been appealed to the supreme court. The issues are somewhat different, since the other case involved lands outside the irrigated tract, and therefore, less important than those now involved.

MANY CALLED TO TESTIFY IN THE RUSSELL KILLING

Fifty-two Subpoenas Issued for Witnesses in the Matter of the Shooting of Murlaugh Man by Brother-in-law Set for Monday.

Fifty-two subpoenas were issued today for witnesses in the case of the state against H. J. Dunlap for the killing of G. A. Russell six months ago at their home near Murtaugh. Russell and Dunlap were brothers-in-law living near one another. They had had trouble. Russell's cows got out and went to the Dunlap place. Russell sent his little girl after the cows and she returned and told her father that Dunlap would not let the animals go. Russell then rode over and in a dispute that followed Dunlap shot him with a gun he had borrowed that morning from a neighbor. Russell was taken to the hospital where he died. Details of the affair were rather meagre, since only witnesses for the state testified at the preliminary.

Bothwell & Chapman represent the defendant. The case is set for Monday.

TWIN FALLS KU KLUX KLAN IS OPPOSED TO ORCHARD'S PARDON

The following resolutions were passed by the Twin Falls Klan and mailed to this office with an enclosed letter from a responsible citizen of Twin Falls. The Times presents same to their readers without malice or comment.

To—
Hon. D. W. Davis, Governor of Idaho, and the Hon. Board of Pardons, Boise, Idaho.

WHEREAS, the Knights of the Ku Klux Klan are believers in the enforcement and upholding of law and order, and

WHEREAS, one Harry Orchard has violated the laws of God and man by wilful and malicious murders of the most devious types, and has been justly convicted of such murders, and

WHEREAS, a movement is now under way to obtain a pardon for him. Now, Therefore, be it resolved by us, The Twin Falls County Klan, Realms of Idaho, Knights of the Ku Klux Klan in Konklave assembled do hereby vehemently and earnestly protest against any such pardon being granted said Harry Orchard; and that a copy of this resolution be spread upon the minutes of this Klan, also a copy be furnished each Klan in the Realms of Idaho, and to the Hon. Governor of the State of Idaho, and to the State Board of Pardons.

THEREFORE, the Klan in Konklave assembled instruct Kleagle Bender to respectfully forward these copies to the respective Klans, and the Hon. Governor, and State Board of Pardons.

Done this 18th day of November, A. D. 1922.

MISS HERRINGTON HAS MOVED OFFICE IN CHICAGO WILL HAVE LARGER FIELD

Mrs. Helen Harrington Dowling has resigned as director of the department of food economics of Armour & Co., Chicago, however, has not lost Mrs. Downing who is nationally known as one of the leading domestic science experts of the country. She has resigned from the big Armour establishment to take charge of the home economics department of the Calumet Baking Powder Co.

Mrs. Downing's new position will afford her a broader field as the Calumet company has initiated a domestic science campaign, for the benefit of American housewives, that practically will touch every home in the United States.

As a lecturer on dietetics, cooking and domestic science, Mrs. Dowling has appeared before many important women's clubs in the United States. She brings a prestige and wide experience to her new duties.

Episcopal Church Vestrymen Chosen

The Ascension Episcopal church congregation met last night and selected vestrymen for the coming year. An excellent luncheon was served by the men following a business session at which conditions of the church were entered into at some length. Steps are being taken toward the supplying of the vacancy in the pastorate.

The following are the newly elected vestrymen: E. J. Ostrander, John W. Graham, D. B. Alvord, Donald McLean, F. W. Meech, E. Hollingsworth, George F. Sprague and A. Dorman Johnson.
