EXPLOSION OF MUNITIONS KILLS MANY

Royal Families of Rumania and Greece Have Narrow Escape When Munitions Magazines in Bucharest Explode; Spark from Engine Sets Off Powder.

BUCHAREST, May 29—Many persons were killed and injured and the royal families of Rumania and Greece barely escaped with their lives when munitions magazines and artillery dumps near Bucharest blew up in a series of deafening explosions that continued throughout Wednesday.

The capital was under fire of a rain of bursting shells which shattered windows in every part of the city and fell in the courtyard of the royal palace. One shell exploded with terrific effect on the exact spot where King Ferdinand had been standing a few seconds before.

Parliament adjourned as the intensity of the explosions increased. There was a panic in schools throughout the city and these were closed to permit the children to seek safety in their homes.

Sparks from Engine Started It.

Sparks from a switch engine apparently started the conflagration, igniting a small arms ammunition magazine about two miles from the city. The first explosion was at 10 a. m. Wednesday.

The first dump to let go was the center of a larger one and flames spread rapidly exploding a series of magazines. The blaze kept up irregularly until 4 p. m. when flames reached the artillery dumps.

Then began a series of deafening explosions and shells began to fall in every direction, some bursting near the royal palace. Parliament was in session but adjourned.

King Has Narrow Escape.

King Ferdinand and his war minister, General Madarescu, rushed to the roof of a building adjoining one of the detonating shells. The general snatched the king back from a particularly dangerous spot and a few seconds later a shell, landing just where Ferdinand had been standing, blew a large hole in the earth.

Meanwhile the inhabitants of Bucharest were in a panic. Those in the western part of the city, nearer the dumps, fled eastward, many believing the city was being bombarded. The shocks from the exploding dump caused windows to break throughout the city so that a constant tinkle of falling glass accompanied the detonations.

Marriage Regulation Defeated by Church

SPRINGFIELD, Mass., May 29.—A resolution calling for Methodist ministers to refuse to marry persons suffering from incurable and mental disorders was defeated today at the general conference of the church, 510 to 200.

It was the last minute effort to have a marriage rule enacted by the conference before the 1924 meeting ended.

Most of the delegates left for their homes after adjournment.

ONE FREED, TWO HELD AFTER RAID

N. L. Butcher, arrested on a charge of possession of a big still and of intoxicating liquor was bound over to the federal district court this afternoon by U. S. Commissioner H. P. Powers in the sum of $1000, while Frank Leonard, taken into custody at the same time and place, was released as there was no evidence appearing to connect him with either the still or liquor. Leonard, who is married and has two children lives a short distance from Butcher. The residence, which are the fifty foot Hole tenant, though not on it. L. F. Brickner, U. S. prohibition officer, said that he still had an odor of liquor, but had not been used in his opinion for a week or 10 days. Attorney F. E. Lamb, who represented defendants, stated that he would challenge the theory that the still was on the Butcher premises.

Frank Bainter, near whose place a gallon of liquor and a smaller still were found, denied distraction of the commissioner on the ground that he lived in Nevada. He will be taken to Nevada tomorrow by Mr. Brickner.

EDWARDS LEADS LYNCH.

NEW YORK, May 29.—Unofficial returns from sixty cities show Charles L. Howard of Detroit to be leading James M. Lynch of Syracuse, for president of the International Typographical union. Howard has a total of 6431 votes and Lynch 4[illegible].

CYANIDE DRUM EXPLODES AT CUDAHY PLANT

LOS ANGELES, May 29—One man was seriously injured and another painfully burned when a drum of cyanide at the plant of the California Cyanide company at Cudahy, exploded early today.

T. O. Vaughan, of Huntington Park, was rushed to the emergency hospital at Tweedy park, where it was reported he will recover.

About a dozen men were at the plant when the blast occurred. They were testing a sixty pound drum of cyanide, when it exploded with a terrific roar, that rocked the vicinity.

BOOTLEGGER TO PAY G.O.P. DEBT

WASHINGTON, May 29—Gaston B. Means, in his "farewell appearance" before the senate Daugherty investigating committee, today said Jess Smith gave him documents showing that Secretary Mellon had gone into an arrangement with Red Sheldon, a New York bootlegger, to give Sheldon liquor permits for which he was to pay a part of the republican national committee deficit.

Means said he heard that Fred Upham, treasurer of the republican national committee, and Senator Bursum, New Mexico, were parties to the "deal."

Mellon told Captain Scaife, justice department investigator, Means said, that Bursum was responsible for the arrangement with Sheldon but Bursum said he had merely sent Sheldon to Mellon with the offer, according to Means.

Means, who is going to New York to stand trial for conspiracy to defraud the payroll of the organization.

Following leads given him by Blair, Means said he located a trunk in a Washington hotel containing data showing a revolutionary movement in Mexico. He was suspended shortly after that but continued to be employed by the department of justice "just the same."

William J. Burns assigned him to keep in touch with the House impeachment proceedings.

"The night the impeachment charges were drawn up, I got a copy of the charges eight minutes after they had been typewritten and then turned over the department of justice and handed a copy of the impeachment proceedings to Paul Howland, Daugherty's attorney," Means said.

Bootleggers Are Backbone of U. S.

"The big bootleggers are the backbone of this country," said Means as he launched into a description of a plan to run rum running operations under government protection. The daddies of them all are the Mellon banks and the Chatham Phoenix bank of New York.

Means charged that "carloads" of whiskey permits had been stolen. He said that Oscar Crommelin, of Jackson, Miss., said that "Harry Smith, Secretary Mellon's right hand man" got them.

Big Interests Aid Smugglers

"If it were not for the interference of the big interests, prohibition enforcement would be child's play," Means said in describing the method used to smuggle liquor into this country.

LAFOLLETTE MAY RUN AS AN INDEPENDENT

Democratic Ranks Thrown Into Uproar by Possibility of This New Radical Candidate; Smith Supporters Encouraged and McAdoo Men Are Blue.

NEW YORK, May 29—The strong intimation of Senator Robert M. LaFollette that he will be an independent candidate for president already has started democratic organization leaders along a new line of thought with regard to their nominee—and has particularly affected the chances of Governor Al Smith.

With La Follette filing as an independent in a majority of the states there is certain to be a marked division of votes. Democratic leaders believe that with a third candidate of La Follette's vote netting strength in the field, their chances of victory at the polls will be measurably increased.

Heretofore organization spokesmen have openly declared and many of the McAdoo supporters have privately stated that Smith, with his strong eastern following, might make the best man-to-man race against Coolidge. Their reasoning was based on the belief that with taxes now an issue, with foreign policies awakening little vital interest and with the bonus bill passed, prohibition inevitably would become a strong factor in obtaining votes. No out-and-out dry candidate could carry New York and other moist states against Coolidge, they contended. But a progressive of Smith's type, particularly one whose record showed favor of modifying the Volstead law, would make a strong appeal in many states.

Smith supporters have been convinced, for example, that he would get an enormous German vote. This vote, it was recalled, was a tremendous factor in electing Cleveland and in returning Woodrow Wilson at a time when foreign vote always follows the German lead.

But with La Follette in the running, he might well cut heavily into the foreign vote Smith would expect in the larger cities. In addition however, because of his long activity in farm legislation he would get a heavy foreign vote in the rural sections which are dry and which Smith would not likely receive.

As a result there is much talk today of the advisability of nominating a strong conservative democratic ticket, counting on La Follette drawing not only republican prospectives but also the German farm and city vote, which usually is republican. This split, democrats believe, would insure the election of their nominee, exactly as Roosevelt's campaign in 1912 effected the election of Woodrow Wilson.

The new ticket widely discussed today among organization leaders is John D. Davis of West Virginia for president and Senator Thomas J. Walsh of Montana for vice president.

Davis, former solicitor general and ambassador to the Court of St. James is one of the foremost practicing lawyers in Wall street.

Capper of Kansas to Be Replaced by Coolidge Man

TOPEKA, Kan., May 29.—An organized effort to elect a "Coolidge republican" to the United States senate to succeed Arthur Capper was under way today.

Angered because Capper had not been with the administration on the bonus, taxes and other important measures, a mass meeting held here last night voted to place another candidate in the field against Capper at the August 5 primaries.

Missionary Rescue Party Reported in Hands of Bandits

PEKIN, May 29.—A relief party including Americans, proceeding from Wuchow to Kweilin to learn the fate of missionaries reported killed in recent fighting, fell into the hands of bandits and all the would-be rescuers were captured according to a report from the legation at Canton to the American legation here today.

The captives include Rev. P. Ray, a Baptist of Richmond, Va., and Dr. H. E. Miller, New York.

Vice Consul Chamberlain is proceeding from Canton to assist in obtaining their release. The capture occurred near Tai-Wang, in the Kwangsi district. Two unnamed Britishers also were captured.

TOMORROW WILL BE A DAY OF MEMORIES

FARM RELIEF BILL MUST PASS BEFORE CONGRESS ADJOURNS

WASHINGTON, May 29.—House progressives today served notice they would oppose adjournment of congress until an adequate farm relief bill and the Barkley bill modifying the railway labor board have been passed.

A petition was circulated among members favoring each of these measures urging them to oppose plans of administration leaders to stop work on June 7.

"We've got the votes to block adjournment," said Representative Lagaurdia, New York, who turned the petition "an ultimatum."

Representative Nelson, progressive leader, was less confident but declared his group proposed to exert all the influence it had to force consideration of these measures before adjournment.

A meeting of progressives of the senate and house was scheduled for later today to prepare for a united move in both houses against adjournment.

PRESBYTERIANS WILL NOT OUST FOSDICK IN N. Y.

GRAND RAPIDS, Mich., May 29.—The Presbyterian general assembly just before adjourning late Wednesday disposed of the "Fosdick case" although taking no definite action other than to invite Dr. Harry Emerson Fosdick, a Baptist, holding a Presbyterian church pulpit in New York, to become a member of the Presbyterian denomination.

Side-stepping of definite action in the Fosdick case was a defeat for the ultra-fundamentalist forces although, however, not being classed as a victory for the modernists. The victory theoretically belongs to the third faction of the church—those who have urged that a compromise be effected. Columbus was chosen for the 1925 meeting place.

Midshipman Drowned at Class Christening

ANNAPOLIS, Md., May 29.—A board of inquiry at the naval academy will investigate the drowning of Midshipman Leicester Richards Smith, 22, Kent, O.

His death yesterday was at the close of the annual frolic of christening the class rings, when second class men are tossed into the water.

Many of those who had been tossed in were on two small boats when the boats overturned. Smith was on one of the boats and was raised after the excitement had subsided.

METHODISTS AND PRESBYTERIANS PROTEST FIGHT

INDIANAPOLIS, Ind., May 29—Telegrams protesting against the Carpenter-Gibbons fight at Michigan City Saturday were received by Governor Branch from the Presbyterian assembly at Grand Rapids, Mich. and the Methodist conference at Springfield, Mass.

"Both messages declared the match will be an unlawful prize fight under the laws of Indiana.

Governor Branch, it was said, at the executive offices, has taken every precaution to see that the state laws are obeyed.

WOMEN PLAN NEW WAR ON BILLBOARDS

LOS ANGELES, Cal., May 29.—Plans for a national art gallery, such as countries in Europe have, to consist of great buildings to be erected in Washington, either as a national memorial, or a government project, will be presented by the fine arts department of the General Federation of Women's clubs for "Fine Arts" day, June 12, of the biennial convention of the General Federation of Women's clubs in session here June 2-13. The measure presented will be the same as that advocated by the Washington, D. C. fine arts commission which is urging projects designed to keep Washington the city beautiful.

The gallery proposed would supplement those of the Smithsonian institute which now has millions of dollars worth of paintings for which there is no building where these can be assembled or shown. These works of art are now badly housed in the Natural History building of the U. S. National museum, greatly to their own detriment and that of the natural history department. The government has granted a site for a building, but so far no provision for the building has been made.

"America is the only great nation of the world without an adequate art gallery," said Mrs. Berry in announcing her department's plans. "National pride should be deeply affected by this fact." The Smithsonian institute, each year must refuse marvelous works of art because it has no place to put them."

29 PICKPOCKETS ARRESTED

KANSAS CITY, Mo., May 29.—Ninety-nine pickpockets and other wrongdoers were rounded up by Kansas City police today in a drive to rid the city of undesirables for the Shriner convention starting Monday. Many crooks from other cities have been pouring into town for the meeting. All were met by a police reception committee promptly after the train pulled into the

AMERICAN GRAVES IN EUROPE WILL BE DECORATED

PARIS, May 29.—The graves of every American soldier and sailor buried in foreign soil will be decorated with a wreath on Memorial day, and a new flag will mark it. The arrangements are being made by the Overseas Memorial Day association, Dr. Edmund A. Gross, president, and financed by funds raised through the American Legion in the United States.

Large wreaths will be placed at the cenotaphs of all cemeteries and a special ceremony will be held at the tomb of the Unknown Soldier, under the Arc de Triomphe.

The Paris post of the American Legion will send delegates in uniform to all the ceremonies in France and the London post of the legion will have charge of decorating the graves in England and Ireland.

At Suresnes, the cemetery nearest Paris, the memorial service will be conducted by Ambassador Myron T. Herrick and prominent American and French speakers will pay tribute to the memory of the fallen heroes.

There are 20,508 American war graves in France, 364 in Belgium, 96 in Italy, three in Ireland and one lone grave in Gibraltar. Not even the isolated soil in Gibraltar will be missed.

The graves in France will be decorated with French as well as American flags and French cemeteries adjoining the American will be similarly distinguished.

The largest American cemetery in France is at Romagne, which has 13,263 graves. There are 5839 at Fere en Tardenois, 4121 at Thiaucourt, 3185 at Belleau Wood, 1730 at Bony, 1563 at Suresnes, and 89 scattered in the country. The American dead in Belgium are in the military cemetery at Waregheim.

The Dallas Wool association will this year take a part in the memorial services to be held at the celebrated battlefield which is now a national park.

The decorating committee expects many visitors at the various cemeteries this Memorial day, because of the large number of Americans now traveling in France and all have been invited to assist at the services. The grave registration workers have been busy with the lawns and flowers and the cemeteries are reported in excellent condition, under the spring sunshine.

CHICAGO—Mrs. Stella Gallagher received an impressive wedding gift—a black eye. Her husband, John, told Judge Sullivan that his mother-in-law had struck him a powerful blow on the eye with a parasol.

CYCLONE KILLS 12 IN OKLAHOMA

One Hundred Thousand Dollars Worth of Damage and Twelve Lives Lost When Twister Sweeps Oklahoma District Just Night.

WETUMKA, Okla., May 29.—Twelve known dead, more than fifty injured, several missing and property damage estimated at $100,000 was the toll of cyclones which scourged southeastern Oklahoma last night.

Wetumka was hardest hit. The twister spent a path a block wide and five blocks long through the residential district. Ten were killed outright and forty injured. Fourteen of the most seriously injured were taken to hospitals at Henryetta. Thirty were treated in the national guard armory as an improvised hospital, while the homeless and slightly injured were cared for by other residents.

The dead: J. L. Ramsey; W. R. Armstrong, wife and baby; H. A. Woodruff and wife; infant daughter of Edward Cole and three unidentified. Two persons were killed and two injured at Warner, Okla.

The dead: William Winkelpeck, 43; Madge Ward, 14. Wire communication throughout this section of the state were disrupted.

Red Cross representatives arrived today to help in caring for the injured and rebuilding the place of relief workers who labored through the night searching the debris for the victims.

The storm dropped into the better residence section traveling in an easterly direction. Little relief, abandoned the twister. Only a bellow, unusually clear, preceding it, is leisurely manner was noticed by residents. Witnesses in other sections of the town declared little rain fell, but its path was swept clean.

Physicians and volunteer workers, realizing the catastrophe wailed breathlessly for its passing and then started their search for the victims.

Rain and Hail Follows Storm.

STIGLER, Okla., May 29.—Torrential rains and hail driven before a 65-mile gale swept across this section of eastern county last night, with minimum damage. Trees were uprooted and several farm home lacerated by hail stones. No casualties were reported.

PROGRESSIVES IN CONGRESS TO FIGHT G. O. P.

WASHINGTON, May 29—Republican progressives in congress have declared a tacit boycott on the republican national convention at Cleveland.

Out of the progressive group in the senate which has brought about the downfall of virtually every piece of legislation sponsored by the President Coolidge, but two expect to attend the G. O. P. conclave.

One of these is Senator Norbeck of South Dakota, who goes as a delegate, to lead his South Dakota delegation forces. The other is Senator Howell, who is republican national committeeman from Nebraska.

Whether Senator Johnson, who is himself, or even Allen Bob Lafollette, presented formally to the convention is still undecided. Norbeck, however, declares the South Dakota delegation, pledged to Johnson, will be there with guns and vote for the California senator.

Although Senator La Follette with the Wisconsin delegation will be in the republican convention, he will go to Cleveland, according to his friends, not as a candidate for President Coolidge's party, but to be only one of the thousands of people who will be there to see the fun. La Follette supporters, however, are planning to present plans for the introduction of a nominating speech by Senator Borah, of Idaho, and to make a nominating speech for the man who will be the Wisconsin senator's nominee, if he is not himself. Johnson, Borah and Norbeck are expected to be the three western senators who will be in the convention.

Saturday's Times will contain a complete return of the Carpentier-Gibbons fight. If your paper is a little late it is because it is being held to give you the last minute's news.

Carpentier and Gibbons Are Evenly Matched

MICHIGAN CITY, Ind., May 29—Georges Carpentier and Tommy Gibbons have finished the hard grind and now are drifting along on light calisthenics to their ten round fight Saturday. They are on edge and fear overtraining.

Gibbons wound up with ten sizzling rounds while Georges bled around yesterday. It is almost the consensus of opinion that the fight is a toss up and the "experts" are advising against putting up bets.

"Almost anything may happen" is the more or less original way they sum it up.

Gibbons has been working out a defense for the Frenchman's "leaping fight" and has been doing a lot of close in work, recalling how vulnerable Carpentier was to Jack Dempsey's crushing body blows.

There will be little difference in weight when Georges and Tommy step into the ring. Gibbons weighs 178 pounds and expects to be at that *weight Saturday. Carpentier admits* weighing 175 pounds but indications *are he is somewhat heavier.*

AUTO RACES TO START TOMORROW

INDIANAPOLIS, Ind., May 29—Everybody except the weather man was ready today for the start of the 500-mile international auto race at the Indianapolis speedway tomorrow.

The most encouraging word, the weather bureau held out was "probably unsettled Friday."

Two more cars were qualified yesterday, bringing the number of certain starters up to 22.

L. L. Corum qualified the last of the Discenbergs at 93.7 miles an hour while Fred Harden put the third Barber-Wertenberg through an 92.77 miles an hour pace.

TWIN FALLS OBSERVES MEMORIAL

Officially and properly tomorrow is Memorial Day, a day when the graves of heroes as well as of friends and relatives are remembered and the good deeds of those commemorated are recalled. And this is proper. Unless some definite time is set for observance of worthy deeds, some period to freshen our recollections, we would too often forget those who have gone before.

Yet the older name should not entirely be lost. It carries with it something of brightness and implies the appropriateness of the practice of putting bright and fragrant flowers on the biers of those that we love. Officially and primarily it is Memorial Day, but let it also be Decoration Day as well in thought as on some occasions in speech.

Practically all business houses in Twin Falls will close for the day.

LAFOLLETTE MOVEMENT DRAWS MORE WATER TO M'ADOO WHEEL

(By JAMES D. WHELAN.)

The attitude of Robert M. LaFollette as defined in his letter of yesterday, will tend, like the veto of the bonus bill by President Coolidge, to carry more water to the McAdoo mill, whatever interpretation may be placed upon it. The most reasonable construction to be placed on the LaFollette letter is that he expects to be a candidate on the progressive ticket. In that case, he will draw to his support a very large wet element and will render the nomination of a moist candidate on the democratic ticket even more suicidal than would otherwise be the case. This does not mean LaFollette will not pledge himself to support the constitution and to enforce the law, or that he will not be honest in making such pledges; possibly he will give such pledges and mean them. But Wisconsin has been notoriously wet and LaFollette has been with his state. Should LaFollette run he would divide the wet vote with a wet democrat, should the party be unwise enough to nominate one. On the other hand, a dry democrat would be certain to carry the solid south, and if sufficiently progressive would carry the west. In other words, a progressive dry democrat can carry the south and west as Wilson did in 1916 and be elected.

McAdoo is today the one outstanding dry progressive democrat, who is in favor of the bonus. Nevada has followed Idaho this week and after endorsing McAdoo, sent an uninstructed delegate of McAdoo boosters to New York. Personally, the writer prefers instructions to endorsements, but with the drift the way it is, there is no real difference. Instructions are not new in the democratic party. More than any other great leader Stephen A. Douglas adhered to the practice of being governed by them, taking a position diametrically opposite to that of Borah in regard to the binding character of platforms and popular mandates.

The political "stars in their courses" are fighting for McAdoo. Should LaFollette carry enough states to throw the presidential election into congress, the democrat would win, for the permanence of democratic control by states was assured when the progressive republicans refused to vote with the "Old Guard" to oust a democrat in New York state.

Another stimulus will come to the city of Twin Falls the latter part of June when our chautauqua appears again. The people of Twin Falls are thoroughly sold on this educational idea and the program this season promises to bring some very excellent talent to this city. You will get a new inspiration from this program which will be worth while. You may not like all of the numbers which appear on the program but you will find that one or two will possess enough real meat to be worth the price of a season ticket.

JACKLEY IS 77, BUT IN EXCELLENT HEALTH

Kansas City Man Gives Tanlac Credit for Part It Has Played.

"When a man at seventy-seven can eat as I do, sleep as I do and feel as well as I do, he certainly has something to be thankful for and, as for me, I place the credit for my good health where it belongs, squarely on the Tanlac treatment," recently declared Phillip H. Jackley, a civil war veteran and former city passenger agent for the Chicago Northern Railway, residing at 2849 E. Seventh St., Kansas City, Missouri.

"Back in 1922, following an operation, my strength was absolutely gone; I had no appetite, and my stomach, which had troubled me for a long time, almost failed me completely.—I was in an awful condition—could scarcely eat 'or digest anything—and there's no doubt whatever but that Tanlac saved my life.

"In a few weeks, I was like a new man, eating everything, and never feeling a touch of stomach trouble. Since then, I have used Tanlac occasionally as a tonic and I don't feel my age by twenty years. I could never want a better medicine than Tanlac."

PHILIP H. JACKLEY

BURLEY, Idaho, May 29.—Irvin Melan, 18, met with a very painful accident Sunday morning at his father's home near Burley when he was thrown from a horse he was trying to break and as a consequence suffered a broken left arm. A doctor was called and dressed the injured arm.

Immediately after the wedding Mr. and Mrs. Terry left for a trip through the Grand Canyon of the Colorado after which they will return to Burley where they will in the future reside. Mr. Terry is a government potato inspector.

Kendall Preaches in Pocatello.

Hamilton is in Springfield, Mass., attending the general conference of the Methodist church which is in session every four years. Rev. Hamilton represents the Idaho conference of the Methodist church.

During Rev. Kendall's absence from Burley Sunday, the local pulpit was filled by Prof. F. E. Howard of the Albion State Normal school. Sunday evening the entertainment which consisted of many interesting readings was furnished by Mrs. Schurzer of Twin Falls, a reader of exceptional ability.

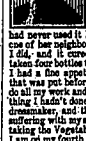
AFRAID SHE COULD NOT LIVE

Operation Advised, But Lydia E. Pinkham's Vegetable Compound Made It Unnecessary



Glasgow, Kentucky.—"I was run-down, nervous, with no appetite. My side had given me trouble for five or six years. At times it was all I could do to live, and the doctor said I couldn't live but a short time longer without an operation. That was two years ago. My sister-in-law recommended Lydia E. Pinkham's Vegetable Compound. She had never used it herself, but she said one of her neighbors suffered just like I did, and it cured her. After I had taken four bottles the pain left my side. I had a fine appetite to eat anything that was put before me, and I began to do all my work and my washing, something I hadn't done for years. I am a dressmaker, and this last fall I began suffering with my side again, so I began taking the Vegetable Compound again. I am on my fourth bottle, which makes eight in all I have taken. I feel so much better when I take it and everybody tells me I look better. My appetite improves and I feel stronger in every way. I am a very nervous woman and it seems to help my nerves so much."—Mrs. MAGGIE WALLER, Glasgow, Ky.

FISHING IN ROCK CREEK WILL OPEN BELOW THE SYPHON

Rules Governing Opening of Streams on Date of June First Are Given Out to Public; Other Streams Outside Forest Reserve Will Remain Closed.

Word has been received by W. R. Priebe, president of the Southern Idaho Fish and Game association, that Rock creek will be open for fishing below the siphon only June first. Request was made of the Idaho Fish and Game department by the local association for the opening of the whole stream, but only that part below the siphon was designated for fishing. There has been some misunderstanding regarding the order, and whether or not it included the tributaries of Rock creek, also. Priebe states that it definitely means that the tributaries are not open for fishing since first.

The association expects to stock the two tributaries, Deadman's Gulch and Slaughterhouse creek with native, rainbow and eastern brook trout.

In regard to fishing near fish ladders, Section 2741 of the Compiled Statutes says: "It shall be a misdemeanor to fish within three hundred feet of a fish ladder or dam in any stream."

There is a fish ladder at the siphon. All other streams, outside the Minidoka forest reserve, except as qualified above will be open June 1, but those in the forest reserve remain closed.

... AT THE ... THEATRES

AT THE ORPHEUM

Night and moonlight and cattle on a range out in Nevada, a cowboy and a girl, that are deeply in love, and an intriguing cattle baron whose jealousy knows no bounds; a little brother of the girl, whose love for his sister and whose deep regard for the cowboy prompts him to risk his life to save them—all this is graphically shown in the great western picture, "North of Nevada," with Fred Thomson as the cowboy, Hazel Keener as the girl and little Joe Butterworth as the boy brother, "North of Nevada" will be shown at the Orpheum theatre Saturday.

"Green Day With Jackie"

Jackie Coogan is the feature at the Orpheum tonight and Friday with a new show for Saturday.

It is making a great hit with local movie fans and is really a wonderful picture.

RAIN RELIEVES LONG DROUGHT IN TWIN FALLS

Showers Last Evening and Today Give Brighter Appearance to Fields of Peoples Barley and Rupert Get the Heaviest Precipitation.

With overcast skies, the faces of people brightened as showers came from time to time last night and this morning. The precipitation was not heavy in this city and vicinity, as it was at Burley, but the fact that the weather clerk defied the government prognosticator, who insisted that the weather would be fair and warmer, was not at all displeasing to the people.

Burley Has Heaviest Rain

The heaviest rain reported was at Burley, where there was a big downpour last night lasting several hours with frequent showers thereafter. Rupert also had several hours of good rain last night and morn today.

Buhl is Dry

Buhl had a very slight shower in the early morning hours of today with none last night. The people were none the less hopeful.

There was a nice rain during the night at Filer and it has been sprinkling from time to time all day.

In the eastern part of Twin Falls county conditions were much the same as in Twin Falls.

There was an hour's fair rain early last evening with intermittent showers and sprinkles since.

The rain on the Salmon was light but was general over the tract.

The canal company has been delivering 70 per cent of its flow for the past two days and expects to continue the same this week.

FEDERATION MEET IS IMPORTANT

Many Matters of Greatest Public Moment Will Be Presented to General National Organization of Women's Club Which Convenes Tuesday; Mrs. Sweeley to Attend.

That the forthcoming meeting of the National Federation of Women's clubs, with its immense membership which convenes in Los Angeles June 3, will be the most important from several points of view, ever held in the history of the organization, is the opinion of Mrs. M. J. Sweeley of this city, who is a director representing Idaho on the board of General Federation and also president of the Western Federation. Mrs. Sweeley leaves tomorrow evening for San Francisco.

Concerns Every Big...

The magnitude to which the organization has grown has made governmental bodies and incorporated concerns turn their attention toward it in order to secure the support of its powerful influence to further plans which they have in mind. This calls for the greatest care, according to Mrs. Sweeley, on the part of the federation in order that it may sift the wheat from the chaff and give proper support to good things and refrain from supporting plans that are either bad or unwise. "The power of this organization brings with it great responsibility," said Mrs. Sweeley today, speaking of this phase of the subject. Many prominent men and women will address the convention during its meetings. Among the subjects which will come up for consideration will be the question of taking the profit out of war, and the method, whereby this may be done, if such a feasible method may be found.

Issue of Donation,

Another question which will come from the General Federation will be whether it should accept a donation of $5,000,000, the interest on which shall be used to further the work of the organization. It is not as yet definitely known who the donors are, but assurance has been given that they will keep hands off the expenditure and not seek to influence the organization in the use to which such interest shall be put. There are some, however, who contend that the making of this amount available, will neutralize some of the energy heretofore exercised, which has been necessary in raising funds required for the conduct of the organization work.

Mrs. Sweeley is the only delegate going from this city. Several others have discussed attending as visitors but nothing definite is known as to whether they will go or not. So yet.

Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen, of Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and, finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called Allenrhu, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed druggists everywhere to dispense Allenrhu with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment. Schramm-Johnson Drug Store will supply you. Mail orders accepted.

MARKETS

CHICAGO, May 29.—Grains underwent a sharp rally at the close.

Wheat underwent numerous dips and rallies before a final spurt of buying brought a change for the better at the finish. It was purely a weather market, Crop news being the basis for buying strength.

Corn closed higher; the full gain of the day however, was not sustained. Crop and weather conditions remained unfavorable. Inquiry for a large scale in parts of the central and southwest was reported.

Oats made sympathetic gains.

Provisions were unchanged.
