TAYLOR HOLDS JUST ONE VOTE LEAD ON MYERS

Buhl Man Steps Ahead by Narrowest of Margins in Race for Republican Nomination for County Attorney

With J. W. Taylor, Buhl, holding, on the basis of complete unofficial returns, a lead of one single, solitary vote over A. J. Myers, Twin Falls, for the republican nomination for prosecuting attorney, it became evident Wednesday that the official canvass and perhaps a recount of the ballots, would be required to determine the actual result in this, the closest contest developed in the primary elections in Twin Falls county Tuesday.

The situation is hardly less involved on the democratic side where Guy L. Kinney, Twin Falls; A. W. Ostrom, Buhl and O. W. Witham, Twin Falls, are running a neck and neck race for the democratic nomination for prosecuting attorney. With returns missing only from Roseworth and Shoshone Basin precincts, the vote stood: Kinney, 321; Ostrom, 307; Witham, 304.

Returns May Be Complete.

It was considered highly problematical whether a primary election was held by democrats at Roseworth and the consensus of opinion was that Shoshone, as in former years, had neglected the primary altogether.

Returns coming in Wednesday from precincts that had not reported Tuesday night, and revisions of previous returns, did not change the status of the personnel of candidates announced Wednesday morning, except in the case of the republican candidates for prosecuting attorney, in which Taylor took his one vote lead over Myers.

Both Taylor and Myers indicated Wednesday that they would abide by the result of the official canvass and would not ask for a recount of the ballots.

Three Thousand Votes Cast.

It was estimated that approximately 3000 votes were cast in the primary elections Tuesday, the apportionment giving the republicans 1500; democrats 1000 and progressives 500.

THRONG GATHERS AT CHAUTAUQUA

Big Top Inadequate to Accommodate First Night Attendance at Course Here

THURSDAY.

Afternoon.

2:30 p. m.—Artists' Prelude, Stearns-Hellekson Trio.

3:00 p. m.—Lecture-Demonstration, "Danger Signals on the Road to Health." Edna Eugenia Lowe, Junior Chautauqua.

Evening.

8:00 p. m.—Special Feature, Artists' Recital, Frances Ingram, assisted by Misses Vere and Ethel Stearns and Mina Hellekson.

Accommodations under the big brown top at the corner of Fifth avenue and Second street east were wholly inadequate for hundreds of persons attending the opening number of Twin Falls Chautauqua Wednesday evening. An evening of "mirth, magic and mystery" presented by the Paul Fleming company held the rapt attention of the audience for two hours.

Cyril Mee, director of Twin Falls Chautauqua, was introduced by Dr. W. F. Pike, who announced that ticket sales had not yet reached Twin Falls' Chautauqua of $1900 and that Jerome Tuesday night went over the top for $1700.

Mr. Mee mentioned briefly the several attractions promised for Twin Falls Chautauqua, and referred to the Ellison-White association's methods of providing this institution and improvements to be made next season, including division with local guarantors of profits in excess of the cost of producing the course and elimination of Sunday programs.

WALK WHEN CAR IS TAKEN

Machine Disappears While Suburban Family Attends Theatre

Mr. and Mrs. O. F. Miller and their two little children residing one and three-quarters miles northeast of town, were confronted with the necessity of walking home Wednesday evening when they discovered the loss of their car which they had left standing on the street here while they attended a theater. According to the description given the police, the car, a Ford touring model, bore license No. 4477, and all three windows at the rear were broken out.

Returns are lacking only from Shoshone Basin precinct where, it is considered unlikely that an election was held. Partial returns from Roseworth, giving the complete vote of the precinct for candidates for the nomination for prosecuting attorney, gave Myers 2; Taylor 4. These figures added to the previously reported total vote for these candidates, gives complete votes as follows: Myers 712; Taylor 713.

Precincts from which no returns or reports have been received are Roseworth and Shoshone Basin. It is considered probable that no democratic primary election was held in either. Partial returns from Lucerne gave returns on candidates for prosecuting attorney as follows: Kinney 1; Ostrom 9; Witham 3; making the totals for these candidates so far as accounted for: Kinney 321; Ostrom 307; Witham 304.

TRAFFIC JAM IS FEATURE OF FIRE

Motorists Flounder About on Water-Soaked Blind Lane at Scene of Blaze

Fire at about 10 o'clock Wednesday night that destroyed an unoccupied two-story dwelling on the Idaho Development company acreage property just outside Twin Falls east boundary line, attracted to the scene hundreds of automobilists who floundered through a narrow water-soaked road north of the Kimberly Road, backing up helter skelter and causing a traffic jam of about an hour's duration when it was discovered that the outlet to the north was blocked by washout of a bridge over a lateral.

Patience and skill both were called in play by motorists in extricating themselves from the situation, and several cars bogged down hopelessly in ditches at either side of the narrow lane.

Firemen responded to an alarm turned in by F. W. Mackey, 1237 Fifth avenue east, who was awakened by light of the flames and smell of burning timber. He thought at first he said, it was the house f a neighbor. The fire fighters remained on the scene until the last timber had fallen in a shower of sparks. Nothing could be done to quell the blaze.

No explanation has been given as to the cause of the fire.

The destroyed house was one of the first built on the Twin Falls project. It was a three-room, two-story structure. It had been untenanted for about two years.

TABER TAKES NEW POST

Leaves Highway District Offices to Work With Lettuce Company

Paul E. Taber former city clerk, has resigned as office manager for the Twin Falls highway district to enter the employ of the Idaho Lettuce company, with headquarters here.

OX CART PIONEER IS ROTARY CLUB'S GUEST

Ezra Meeker Tells of Former Visits to Site of Twin Falls

Ezra Meeker of Seattle, one of the first few hundred and actually the last man to cross the American continent by ox team, was a guest of the Rotary club at its luncheon meeting Wednesday.

Mr. Meeker, who is now on his way to Washington in the interests of legislative recognition of the Old Oregon Trail, told the Rotarians of his former visits to the site of Twin Falls, first as a young man 70 years ago when he was prompted by necessity and love of adventure to cross the continent over the Oregon trail, and again in 1910, at the age of 80 years, when he retraced his course in an effort to perpetuate the history of the early migrations and to suitably mark the course of the once-famous Oregon trail.

Mr. Meeker is the author of several books of pioneer life. His career in Oregon and Washington has been notable for its many activities ranging from participation in Indian wars to spending four years in London as an agent of the hop growers of the Northwest.

Captain James W. Porter also was a guest of the Club and was called upon to discuss some of the proceedings of the Idaho department American Legion convention recently closed at Nampa, which he attended as a delegate from Twin Falls.

Cyril Mee, director of Twin Falls Chautauqua, as a guest fo the Rotarians, gave several vocal numbers.

CHECK WRITER IS HELD

Hearing before Kennedy Packard, justice of the peace, in the case of Howard Harnish, charged with issuing fictitious checks, has been set for Saturday, August 5. Harnish was arraigned Monday, following his arrest Saturday night by the police, and pleaded not guilty to the charge. Police hold a $10 check bearing the signature of E. H. Koch, which Harnish is alleged to have cashed at the Three Rules store. C. S. Boyd is the complaining witness.

PERKINS GIVEN LIBERTY AGAIN

Roseworth Project Settler Leaves Jail on Promise to Quit Country

Fred Perkins, Roseworth project settler who had been held in jail here for about two weeks because of threats made by him against the life of P. C. Meredith, president of the Indho Farm Development company, was Tuesday released from confinement when he agreed to accept the settlement offer of the Development company amounting to $1500, and leave the country within eight days.

Perkins had been held since his trial and conviction because of his failure to provide $1000 bond to keep the peace.

He is a former resident of Oregon who arrived on the Roseworth project at about the time of the advent of the caravan settlers from Brooklyn.

He claimed grievances against the development company which reclaimed and sold under the project, and his threats against Meredith were inspired by brooding over these grievances.

Perkins is 65 years of age.

GAME AT JEROME ON 13TH

Locals to Journey to North Side Town for Clash with All Star Team

Word was received Tuesday evening that Jerome has an open date on August 13th, and immediately Manager Alworth of the Twin Falls team got busy with the result that the local aggregation will wend their way across the canyon a week from Sunday to do battle with the fast ball tossers from the north side. Jerome has a good bunch of players and has made a real record so far this season.

The locals will start practicing for the Jerome game this week, and by the time the 13th rolls around the fans can rest assured that Twin Falls will give a good account of themselves.

AMAN LEADS THOMAS FOR PLACE ON THIRD TICKET

Progressives in 16 Precincts Cast 236 Votes at Primary Elections

On a basis of primary election returns from 10 out of 28 precincts, Elmer Aman, Filer, is leading G. F. Thomas, Castleford, for the nomination as the fourth candidate of the progressive ticket for representative in the state legislature. These returns give Aman 58; Thomas 35.

Both Aman and Thomas were recommended as candidates at a meeting here of precinct committeemen of the party, neither name being formally filed or appearing on the printed ballots.

The vote of the 10 precincts for the three regularly nominated candidates for representative is as follows: H. Murphy, 101; Willis Hibner, 102; E. S. Wood 98.

Returns have been received from Twin Falls precincts Nos. 3, 4, 5 and 6; Filer, Marcn, Lucerne, Murtaugh, Hansen and Kimberly.

The total vote cast by the progressives at primary elections in 16 precincts was 236, distributed as follows: Twin Falls 1, 4; Twin Falls 3, 15; Twin Falls 4, 3; Twin Falls 5, 8; Twin Falls 6, 7; Filer, 19; Marcn, 8; Buhl, 75; Deep Creek 33; Lucerne, 5; Murtaugh, 17; Hansen, 8; Kimberly, 29.

MORE LAMBS TO MARKET

Rogerson District Sheepmen Consign 14 Carloads of Woolies to Chicago

Fourteen carloads of lambs were shipped Monday from Rogerson to the Chicago market, and statement was made Wednesday at Oregon Short Line offices here that 16 carloads of the woolies would be loaded next Tuesday at the same point destined for the eastern markets.

The shippers this week were Arthur Pence and Grover Pence, 9 cars; John Atkins, 2 cars; E. L. Green, 3 cars.

HICKS CHOSEN WITH BABCOCK FOR THE BENCH

Asher B. Wilson is Eliminated from Race for District Judgeship; Hodgin to be Running Mate for T. Bailey Lee

William A. Babcock and A. R. Hicks, both of Twin Falls, are the candidates for the Eleventh judicial district bench, chosen by democratic voters of the district at the primary election Tuesday, at which Asher B. Wilson, Twin Falls, was eliminated from the race.

Judge Babcock and Mr. Hicks will be opposed in the November election by Judge T. Bailey Lee, Burley, who was unopposed in the republican primaries, and by Shad L. Hodgin, Twin Falls, whose name was written in on the ballot by *scores of republican voters.*

The progressive party nominated W. W. Mattison, Rupert, as candidate for district judge, and members of the party in this county had previously endorsed the candidacy of Judge Babcock.

Seventeen precincts out of 28 in Twin Falls county gave Babcock 724; Hicks 535; Wilson 229.

Democratic primary elections were held in only five precincts in Cassia county, returns from two of them giving Babcock 24; Hicks 11, and Wilson 13.

Six out of eight precincts in Minidoka county gave Babcock 83; Hicks 2; Wilson 40.

Jerome gave Babcock 24; Hicks 18; Wilson 9.

BOURBONS WAGE SPIRITED FIGHT FOR DELEGATES

Stevenson's Victory Over Dr. Pike One of Features of Election; No Contests Among Republican Delegates

One of the outstanding features of the democratic battle was the fight made against R. H. Stevenson in the Seventh precinct in Twin Falls. There were six candidates for delegate, five to be elected, and Dr. Pike, acting for the Alexander forces, sought to center the votes against Stevenson. When the count was made it was found that Stevenson led the ticket with 64 votes, while Dr. Pike was himself low man with 46. Thomas M. Robertson was elected committeeman over Dr. Sayyer, 40 to 26.

Delegates to the democratic county convention selected in the several Twin Falls precincts were as follows: First precinct, J. M. Diamond, William F. Donnelly, George O. Taylor, Dr. C. D. Weaver and Dr. Charles Weatherby.

Second precinct, W. Orr Chapman, F. W. Bronaugh, E. R. Dooley, Frank Kleffner, J. E. Roberts. The sixth delegate is to be chosen as between M. W. Denoyer and Dr. Leet, who ran a dead heat to a tie vote.

Third precinct, Edgar J. Davies, J. H. Dunnaway, George E. Edinger, I. E. Finney, E. J. Finch and Guy L. Kinney.

Fourth precinct, J. F. Arrington, E. J. Fix, J. H. McNichols, R. M. Sparger and J. F. Windle.

Fifth precinct, Earl G. Alworth, J. F. Denney, P. E. Dean and J. W. Porter.

Sixth precinct, John B. White, T. J. Lloyd and S. H. Kaylor.

Seventh precinct, R. H. Stevenson, Donald McLean, Dr. H. W. Sawyer, George H. Smith and T. E. Hunter.

There were no contests among republican candidates for delegates to the republican county convention.

AVERAGE TEMPERATURE IN JULY PITCHED HIGH

Weather Observer's Report Shows Mean Temperature at 69.6 Degrees

Average temperature in the Twin Falls district during the month of July was 69.6 degrees above zero, according to a summary compiled by Marion Hammons, government weather observer here. Mean maximum for the month is given at 88.5 and mean minimum at 50.7.

July 13 was the warmest day, the maximum for that day being recorded at 101 above. The warmest day followed the coolest night, July 12, when the mercury receded to 43 above. The greatest daily range of temperature was 55 degrees, recorded July 13.

All of the precipitation for the month, forty-two one-hundredths of an inch, fell in two days, July 21 and 22.

Seventeen days were listed as being clear; 13 as partly cloudy and one day as cloudy.

LENROOT BLOCKS PLAN FOR VOTE ON TARIFF BILL

Refuses to Consent to Final Action Pending Debate on Various Schedules — Gooding Offers His Resolution

WASHINGTON, Aug. 3 (AP)—Upsetting plans of republicans and democratic leaders for a final vote on the administration tariff bill on August 17, Senator Lenroot, republican, Wisconsin, gave notice today in the senate that there would be no unanimous consent agreement for a final vote, at least until all important committee amendments to the measure had been discussed and acted upon.

Plan Is Frustrated

The Wisconsin senator said he was anxious to limit debate and proposed an arrangement under which, beginning today, discussion would have been confined exclusively to the tariff with each senator limited to ten minutes talk on amendments on the bill after August 11. Senator Lodge, the republican leader, objected to this, however, and the effort to come to an understanding in the open senate ended.

Subsequently private negotiations looking to at least a curtailment of discussion were reopened and some republicans were of the opinion that these might lead to results. Certain democratic senators, however, were represented as objecting to limitation of debate until after votes on the sections dealing with duties on sugar and hides.

The democratic proposal for a final vote on August 10, and the republican counter proposition for a vote on August 17, led to a long discussion.

Gooding Submits Resolution

Senator Gooding of Idaho, chairman of the republican-agricultural-tariff bloc, introduced his resolution directing a special committee of five senators to inquire into and report to the senate on:

"The financial interests of senators in the wool and sheep industries;

"The financial interests of Mr. Frank A. Munsey in European industries which compete with American industries; the amount and percentage of his income derived from advertisements placed in the newspapers by the importing department stores which have financed a campaign of defamation against the pending tariff bill and which will profit by the defeat of the bill;

"The number of senators owning or controlling or financially interested in newspapers, the amount of revenue obtained by these newspapers from importing department stores, which will benefit financially by the defeat of the pending tariff bill.

"The financial interests of all members of the senate or their immediate relatives in any American industry or in any property in any community in the United States which may be affected directly or indirectly either by the passage or defeat of any proposed schedule in the pending tariff bill."

Prods Newspaper Publisher

The preamble of the resolution recited that charges had been made by the New York Herald, owned by Mr. Munsey, "that members of the senate, engaged in the sheep industry, had thereby been financially interested in the wool schedule of the tariff bill."

It referred also to the resolution offered last Saturday by Senator Caraway, democrat, Arkansas, proposing an investigation of the financial interest, if any, of all senators in tariff schedules.

Senator Gooding's resolution was referred to the committee on contingent expenditures, which, on motion of Senator Harrison, democrat, Mississippi, was directed to report on it "immediately." Members of the committee said a report would be made tomorrow, but indicated that the resolution would be modified.

Harrison Asks Enlargement

Senator Harrison and Senator Simmons, democrat, North Carolina, contended that the Gooding resolution seemed to propose an investigation of no publications other than the Munsey newspapers and suggested that the inquiry be extended to all republican dailies attacking the tariff. Mr. Gooding replied that it was intended to apply to all newspapers.

Senator Harrison introduced a resolution declaring that Senators interested personally in tariff and other legislation should not participate in senate proceedings on such legislation. He asked for its immediate consideration, but at the request of Senator McCumber, republican, North Dakota, it went over and the senate returned to discussion of the unanimous consent arrangement.

Objection by Senator Lenroot to the fixing of a date for a final vote was made after Senator Simmons, for the minority, had agreed to accept the republican substitute date of August 17. Mr. Lenroot explained that while he was anxious to see an end to the consideration of the tariff bill, he could not consent to any arrangement under which important amendments might be acted upon without any discussion at all.

Cause of Appendicitis

When the bowels are constipated, the lower bowels or large intestines become packed with refuse matter, that is made up largely of germs. These germs enter the vermiform appendix and set up inflammation which is commonly known as appendicitis. Take Chamberlain's Tablets when needed and keep your bowels regular and you have little to fear from appendicitis.—adv.

New Picture of Dancer Who Sues Whitney

This is a newly posed photograph of Evan Buddows Fontaine, noted New York Oriental dancer, who is reported preparing to file suit in Saratoga Springs, N. Y., to prove that Cornelius Vanderbilt Whitney, son of the multi-millionaire, Harry Payne Whitney, is the father of her eighteen-months-old baby. Her mother, Mrs. Florence E. Fontaine, declares the daughter does not seek money from the famous young Yale oarsman.

CROPS FAVORED BY THE WEATHER

Corn, Potatoes and Truck Crops Make Advances Under Conditions

BOISE, Aug. 3—Generally favorable conditions for growing crops obtained during the week ending Tuesday, according to a weekly summary of weather and crop conditions in Idaho, issued by Clinton E. Norquest, meteorologist, for the federal department of agriculture. The summary follows:

North Idaho: Moderate temperatures; cool nights with plenty of dew, good for standing grain at higher levels; ideal weather for harvest and threshing; thunderstorms, mild and covering small areas and with but light precipitation, occurred on Wednesday in the southern portion of this district; no break in drought in northern counties; pasture and lower range continue poor, but stock are still in good condition; corn and irrigated crops good; dry land crops poor; all fruits plentiful and of excellent quality; early apples, peaches and apricots being harvested; highest temperature 98, on Saturday.

Southwestern Idaho: Temperatures were moderate at the beginning of the week but gradualy increased until the week closed hot. No rain of consequence occurred. Conditions were favorable for irrigated crops which are rapidly maturing. It was exceptionally favorable for corn. Potatoes and all truck crops did well. Apples and prunes are growing fast but there is still some dropping. Apricots and early apples are being marketed. Pastures are growing well. There is slight improvement in range conditions, due to the rains of two weeks ago, but more rain is needed to secure abundant fall feed. Some range cattle and lambs are being marketed in excellent condition. Farmers are generally busy with the second cutting of alfalfa and the weather was very favorable for this work.

Southeastern Idaho: Moderate to high temperatures prevailed during the week. A few scattered showers occurred in the higher regions. The weather was favorable for the growth of irrigated crops and the ripening of grain. Potatoes and beets are doing well; other crops are fair to excellent. The range is improving slowly in the southern and central parts; elsewhere it is still dry, but stock are still in good condition. Harvesting of winter wheat and second cutting of alfalfa are just beginning. Grasshoppers are causing considerable damage in the central part.

Notes from the Field

Richfield, Lincoln county: Hot and dry; second crop alfalfa growing fast; all crops in good condition.

American Falls, Power county: Hot and dry; meadows and crops made good growth; spring wheat beginning to show effects of hot dry weather; harvest of winter wheat has begun.

Garden Valley, Boise county: Hot and dry; pastures and range drying fast.

Burley, Cassia county: Clear, hot week; grain harvest and second cutting of alfalfa begun.

Murtaugh, Twin Falls county: Good growing week; plenty of water for irrigation; some barley and wheat cut; raspberries at their best.

Boise, Ada county: Crops maturing rapidly; much of second crop alfalfa cut, fair crop; grasshoppers doing some damage; apples and prunes growing fast, but still dropping some.

Weiser, Washington county: Unusually hot week; highest temperature, 107, on Saturday; dry land grain being harvested; irrigated grain ripening fast; lettuce all planted, some coming up.

Malad, Oneida county: Temperatures high and precipitation lacking; week favorable for the ripening of winter wheat; meadows and crops made good growth; harvest of winter wheat has started.

Pocatello, Bannock county: Week dry and hot with abundant sunshine; irrigated crops made good growth; potatoes in bloom and barley and oats heading rapidly; second cutting of alfalfa is under way.

Soda Springs, Caribou county: Weather favorable for rapid growth all crops; meadows good and ranges recovering slowly; spring wheat good; winter wheat growing nicely but a poor stand due to winter killing.

New Meadows, Adams county: Farmers devoting practically entire time to putting up hay; grain, where not irrigated, badly in need of rain; pastures and range drying; cattle and lambs going to market in good condition.

Tetonia, Teton county: Temperatures moderate and light showers fell one day; meadows looking good and making favorable growth; range still good but dry; oats and spring wheat only fair, but other crops looking good.

Twin Falls, Twin Falls county: Ideal farming weather; cutting alsike for seed, barley harvest, and second alfalfa harvest are well under way; quite an acreage of head lettuce being sown; potatoes and beans doing well; wheat about ready for harvest.

Springfield, Bingham county: Temperatures were high and precipitation lacking; seed alfalfa maturing rapidly; potatoes and other crops in good condition; range only fair; grasshoppers moving out of hay fields into grain; farmers combatting them with poison.

Everything for QUALITY —*nothing for show*

THAT'S OUR IDEA in making CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigaretty aftertaste.

Camels are made for men who think for themselves.

JEWISH RULE IS CHAFING ARABS

British Plan is Separate Governing Units; Self Government for Natives

LONDON, Aug. 3 (AP)—The government is unremitting in its efforts to find a solution of the Palestine problem. To this end it has, among other things, recently published the official correspondence that has passed between the government, the Palestine Arab delegation now in London, and the Zionist organization since last February.

Included is an official statement of British policy, as given out July 1, to the effect that a Jewish national home will be founded in Palestine, and Jewish people will be in Palestine as of right and not sufferance. The disappearance or subordination of the Arab population, language or culture is not contemplated, and the establishment of a full measure of self-government in Palestine will be fostered. The special position of the Zionist executive does not entitle it to a share in the government of the country.

The Arab delegation has replied to this statement of policy as follows:

"Since its establishment in Palestine the Zionist commission has very much interofered with the administration of Palestine under one pretext or another, all of which were based on solicitude for Jewish interests.

"One military administrator after another, and one British official after another, had to go because they could not and would not govern the country on lines laid down by the Zionist commission.

"We see division and tension between Arab and Zionist increasing day by day and resulting in general retrogression, because the immigrants dumped upon the country from different parts of the world are ignorant of the language, customs and character of the Arabs, and enter Palestine by the might of England and against the will of the people, who are convinced that these people have come to strangle them. Nature does not allow the creation of a spirit of co-operation between two peoples so different.

"The fact is that His Majesty's government has placed itself in the position of a partisan in Palestine of a certain policy which the Arab cannot accept because sooner or later it means his extinction."

Commenting on this official correspondence, a diplomatic correspondent writes in the Sunday Times:

"Briefly put, the British government finds itself uncomfortably sandwiched in between two sets of promises. Driven by the exigencies of the great war to demand on behalf of the allies the co-operation of the Arabs against the Turks, Britain agreed to recognize their independence within a territory which included Palestine and Syria. That was on October 24, 1915.

"On November 2, 1917, possibly with a view to obtaining other and equally necessary support, the Earl of Balfour made his famous declaration in favor of the establishment of a Jewish home in Palestine."

The passage by the House of Lords the latter part of June of the Islington motion, disapproving the Balfour declaration, was immensely popular in Palestine, where this incident is regarded as a notable Arab victory.

REED'S VICTORY SEEMS ASSURED

Nearly Complete Returns Show 6,879 Majority Over Wilson's Friend

ST. LOUIS, Mo., Aug. 3, (AP)—Every factor that political experts base their opinions on indicates tonight that Senator James A. Reed has been nominated by the democrats of Missouri to be their standard-bearer in November to succeed himself.

Maintains His Lead.

With 222 precincts missing out of the 3848 in the state, Senator Reed was leading Breckinridge Long of St. Louis, former third assistant secretary of state in the Wilson administration, by6879 votes. The vote in 3626 precincts stood: Reed, 189,321; Long 182,442.

R. W. Brewster of Kansas City, supported by the regular republican organization, has won the republican nomination for the United States senate. With more than three-fourths of the state in, including the complete complete vote of the city of St. Louis, where William Sacks polled an enormous vote, Mr. Brewster is leading by more than 10,000. The vote in 2826 precincts gives: Brewster, 74,695, Sacks 64,104.

Sitting Congressmen Win.

Thirteen sitting congressmen were nominated in Tuesday's primary, two are apparently defeated, while Samuel W. Shelton, in the Sixteenth district, did not run for re-nomination.

Of four women seeking congressional nominations, Mrs. St. Clair Moss, president-emeritus of Christian college, Columbia, was the only victor. She defeated two male opponents for the democratic nomination in the Eighth district. She will be opposed by Representative Sid C. Roach.

KANSAS RETURNS SLOW.

TOPEKA, Kans., Aug. 3, (AP)—With more than 500 precincts yet to be heard from, a number of state-wide contests in the Tuesday primary election tonight were still close enough to warrant hope for the runner-up. It is probable that not until the official count is announced will the results of several contests be determined.

This particularly applies to all the democratic nomination races, because democratic returns were meagre. As to the gubernatorial race it appears to be all over but the shouting—in fact the shouting has commenced.

W. Y. Morgan, candidate for republican nomination, continues to gain with western Kansas counties, usually the last heard from, rallying strongly to his support. His plurality over W. R. Stubbs, his nearest opponent, was estimated to be about 15,000.

FITZHUGH CONCEDES DEFEAT

MEMPHIS, Tenn., Aug. 3, (AP)—Captain G. T. Fitzhugh, at midnight, issued a statement conceding the nomination of Senator Kenneth D. McKellar in the state primary contest today for the democratic senatorial nomination, congratulating Mr. McKellar and assuring him that "as the nominee of the party he will have my support."

WALTON NOMINATION ASSURED

OKLAHOMA CITY, Okla., Aug. 3, (AP)—Victory by a decisive plurality for Mayor J. C. Walton of Oklahoma City, anti-Ku Klux Klan and Farmer-Labor candidate in the three-cornered race for the democratic nomination for governor in Oklahoma, was assured tonight on unofficial returns from Tuesday's state-wide primary.

PIONEER NEWSPAPER MAN OF NORTHWEST IS DEAD

WALLA WALLA, Wash., Aug. 3, (AP)—E. D. Laman, pioneer newspaper man of the northwest, died here tonight. He founded the Juneau Dispatch of Juneau, Alaska, and was also prominent in newspaper work in Weiser, Idaho, and Anacortes, Wash., and on the Portland Oregonian. He was born in Olympia, Wash., in 1863, and came to Walla Walla two months ago in search of health.

PRICE OF HAM DROPS FROM FIFTEEN TO TWENTY PER CENT

CHICAGO, Aug. 3, (AP) — Wholesale prices for ham have gone down fifteen to twenty per cent in the last thirty days, and hams are relatively cheap, compared to other foods, according to Edward Morris, president of Morris and Company. He said today that consumers so far have failed to take advantage of the decrease in cost.

LAST ELECTION RETURNS CHANGE NONE OF RESULTS

Candidates in Close Contests Retain Relative Positions with Votes All In

Complete returns from the democratic primary elections in Roseworth and Lucerne and from the republican primary election in Roseworth received here Thursday, do not change the position of the candidates involved in contests for nominations. Guy L. Kinney, democrat, Twin Falls, has, on the basis of complete returns, a lead of 12 votes over A. W. Ostrom, Buhl, and 22 over O. W. Witham, Twin Falls, for the democratic nomination for prosecuting attorney.

The status of the contest on the republican side for the nomination for prosecuting attorney is unchanged, with J. W. Taylor, Buhl, holding a one vote lead over A. J. Myers, Twin Falls.

Possibility that primary elections were held in Shoshone Basin, that might change results in these contests, was considered remote when no word was received Thursday from that precinct, and it was recalled that Shoshone Basin in the past has never held a primary election.

Complete Returns.

Following are the results in contests for nominations on both republican and democratic tickets, as shown by complete unofficial returns from all precincts except Shoshone Basin.

Senator—Hardin 765; Miller 678.

Representatives — Buffington 864; Gillis 965; Hines 996; Sampson 946; Sweeley 988.

PEACE OFFERS FAIL TO END CHICAGO'S TRACTION STRIKE

CHICAGO, Aug. 3, (AP)—With all the peace efforts apparently at a standstill, the third day of the street car strike found Chicago's erstwhile straphangers still good-naturedly perched on packing boxes in motor trucks, crowded into "jitneys," or walking long distances to steam trains or whatever mode of transportation offered.

LOCUSTS LUBRICATE RAILWAY TRACKS, STOPPING TRAINS

MANILA, P. I., Aug. 3, (AP)—Locusts have become so numerous in Luzon that their bodies covered the railway tracks, causing the driving wheels of the locomotives to slip, and today prevented the movement of a passenger train from Manila to Calamba, 25 miles from Manila. An extra engine was called before the train could be moved.

Dogs Foretell the Weather.

Prairie dogs seem to have some kind of knowledge of the weather, if observers at the New York zoological park are right. Now and then the large members of the colony loosen the earth round their mounds with their forefeet, then shovel the soil upward with their hind feet. Other members work inside the borrow, throwing out earth to aid in the building. When a dyke has been built, the animals stamp the earth down with their heads—an amusing sight. As these operations invariably take place before a storm, the obvious purpose is to build a dam that will keep the water from running into the burrow.

BORAH DECLARES EUROPE SHALL PAY OR DISARM

(Continued from Page One)

Paris, where the attitude of the United States government had been anticipated since the note was published.

Further, it has been learned that Lord Balfour's communication probably will have no effect on the detailed reparations plan which Premier Poincare has drawn up for the London meeting next week, the French cabinet today having unanimously approved the premier's proposals and his decision to present it to the British government.

This plan, it is generally agreed, is to include a reduction in the total German indemnity in return for a proportionate cancellation of French debts to Great Britain, priority to France on account of the devastated regions, and the proposition of the stricted financial control upon Germany in order to insure payment of the reduced reparations bill and prevent the flight of capital from that country.

COMMONS NOT AROUSED

LONDON, Aug. 3, (AP)—Today's debate in the house of commons on interallied debts and German reparations proved disappointing. It had been expected the debate would bring out further interesting facts respecting the recent note of the Earl of Balfour on the subject and regarding Great Britain's future policy on the whole subject of international obligations.

Sir Robert S. Horne, the chancellor of the exchequer, said Great Britain had no intention of suggesting any alternation of her financial obligations to the United States; that the government recognized to the full Great Britain's obligations to pay the debt "and we do not mean in any shape or form to evade that obligation."

Mr. Lloyd George declared there was an absence of any concrete suggestions or better formula than already had been adopted, for a solution of the debts and reparations questions, the premier called attention to Mr. Asquith's desire for a clean slate. He said that was exactly what Lord Balfour's note had advocated.

"But it is not a clean slate," he added, "when you wipe off every debt due us and when you engrave more deeply upon the slate the debt which is due by us to other people. That isn't a clean slate. It neither cleans it, nor adorns it, nor makes it more useful for further use."

Shedding Weight by Work.

On the track, a loss of eight pounds in an hour is very common, even when men are in the pink of condition. So in the sea, where the best trained swimmers lose weight rapidly. One of them, in attempting to swim the Channel, is reported to have left the water ten pounds lighter than when he entered it, notwithstanding that he took a good deal of food, liquid and other, meanwhile. It is really absurd, therefore, to become apprehensive because of a slight loss of bodily weight. Of course, a continuous loss over a reasonable period should be attended to. But small variations, being natural and consistent with perfect health, need not worry anybody.

Almost All.

A little girl had spent the whole morning at the zoo with her father and read all the notices and placards very carefully. As they passed the turnstile to return home the father said: "Well, I think we have seen everything, don't you, dear?" "Everything but the pickpockets they talk about," she replied.

GHANDI PLAN IS LLANES PURPOSE

Would Refuse All Co-operation with U. S. to Awaken Demand for Independence

MANILA, Aug. 3, (AP)—Resistance to America by non-co-operation, along the lines of the revolutionary movement led by Ghandi in India, as a means of gaining Philippine independence is advocated in a published statement by Representative Vincente Llanes of the Philippine legislature.

Returns from America.

Llanes was a member of the Philippine independence mission which returned from the United States yesterday. He is a representative of the First district in the insular house of representatives.

Llanes suggested that the way to "awaken the American nation to the situation here," was non-co-operation by resignation of all Filipinos now holding positions in the insular government and the refusal of others to accept the positions left vacant.

His statement, published in the Manila Daily Bulletin, read in part:

"The Philippine legislature should call on every Filipino, through the adoption of a resolution, to abstain from giving co-operation to all branches of the Philippine government, emulating the example of Ghandi.

Would Organize Party.

"Should the legislature adopt such a policy, a party should be organized with non-co-operation as its principal plank. The adoption of such a resolution or the creation of such a political party would awaken the American people to the situation here and the American nation which is just and square will grant us independence.

"America is so large that to awaken its interests something extraordinary must be done. It has so many problems that it forgets ours."

Llanes lauded the treatment of the Philippine independence mission in the United States.

TWIN FALLS WEEKLY NEWS

Established 1904

Twin Falls News Publishing Company, Ltd., Publishers

WHAT NEXT?

On Monday night the City Council, or to give Twin Falls' reform administration its proper name, the City Commission, voted four to one to settle the damage bill of E. F. Walton against the City, for nine hundred fifty dollars. One phase of the case is still pending in the court of Judge T. Bailey Lee but apparently the need for action was imperative and so the Commission decided that the processes of the court were too slow and the bill was settled by prompt business-like action, notwithstanding the earnest efforts of Commissioner All to prevent any such use being made of the taxpayers' money and to delay any and all action until such time as the final phase of the matter, involving a possible reduction in the bill of costs, could be passed upon in a *legal and* orderly way.

His efforts were futile. He stood alone; the vote was four to one.

Commissioner All, for the benefit of his brother members of the City Commission, endeavored to check up on the expenditures covered through the difference in the price of the fire hose between that paid and that offered by C. O. Meigs, and (item two) the difference between the amount authorized to be paid in settlement of Walton's damage claim and the amount which might have been fixed upon as proper payment in the event it were deemed wise to wait for Judge Lee's decision. He might have added (item three) the difference in the amount which will be paid to John Wolfenden, whose estimate of the cost of his audit of city books was three thousand dollars, and the guaranteed price of an audit by the Vanduesen agency, which was placed by Vanduesen himself at not to exceed two thousand dollars and whose estimate for the work was eighteen hundred dollars.

There isn't a thing in the world to get excited about, it is all working out just exactly as might have been expected.

Twin Falls wanted a reform administration—asked for it in fact, and Mr. Walton kindly obliged.

AS OTHERS SEE US

There have visited this country since the close of the World War the commanding generals of the armies of the allies, and many citizens of Great Britain and France. There are in prospect visitors from other countries, announcements to this effect having been made by foreign newspapers. All these visitors have been and will be treated as "distinguished" citizens of their respective countries, no matter what the purpose of their coming.

No doubt the attitude of our guests is "friendly," but there is assumption of superiority by many of them that grates on American nerves a little. These would-be superior beings are extremely critical of our institutions and customs, especially when they get back home. They are quoted by home newspapers as criticising almost everything American, even to our peculiar house furnishings, dress, and conversation. Some of this criticism may be justified, but much of it is far-fetched to say the least.

The fact of the matter is visitors from foreign countries seldom come into touch with real Americans. They are entertained by persons and families of wealth and social position—wealth *that is inherited and social position that* is too frequently superficial; they judge the American people as a whole by the few unrepresentative citizens with whom they come in contact. No better proof of this fact is needed than their observations here and after returning home, and the books they publish recording their impressions, mainly for American consumption.

Should Americans visit Europe and indulge in similar criticism they would thereafter be unwelcome guests. But, thank goodness, real Americans assume no superiority that they do not actually possess—they have no desire to criticize when criticism is not actually necessary to bring about mutual understanding. Americans visit Europe to profit from what they see and hear, not to inflict Europeans with their presence and then attempt to charge their hosts for the "honor conferred" in a manner most condescending.

Of course, it is distasteful for many Europeans to admit that America and the American people have progressed faster than some nations and peoples of the continent have. The German idea of "supermen" was not wholly Germany's; the same idea has been entertained to some extent by Englishmen—especially by Englishmen who flaunt titles. To understand these critics of superior station and nationalism one must try to place one self in their place. This is rather difficult and cannot always be done. Approximation gives a glimpse, however, and what little is seen is pathetic. We have our faults, but they are not those of presumption or assumption in criticism of *those whom we may have surpassed in* any respect. We have our peculiarities, and so do those who so gratuitously note them. Yet, with faults and peculiarities, we Americans are getting along quite satisfactorily to ourselves, if not to those who judge the whole by only a very small part, and that a part which is by no means representative of the whole.

The Reverend Mr. Burket and wife of Filer passed through Amsterdam Monday en route to Shoshone Basin, where they are going for camping trip.

Miss Lena Hildebrand returned to her home in Twin Falls Saturday after spending two weeks with relatives near Amsterdam.

Mr. and Mrs. Bud Frazier and daughter attended a dance in Berger Saturday evening.

Timber Preservative.

In some of the Western mines the water that is pumped from the mine contains a considerable amount of copper sulphate, and experiments have shown that this acts as a preserva*tive in protecting the mine timbers* against decay. Timbers which have been allowed to soak in this mine water for two or three weeks, sometimes outlast three sets of untreated timbers.—Popular Mechanics Magazine.

A FAIR EXCHANGE

A New Back for an Old One. How It Can Be Done in Twin Falls.

The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame that to stoop is agony. No use to rub or apply a plaster to the back if the kidneys are weak. You cannot reach the cause. Twin Falls residents would do well to profit by the following example.

Mrs. W. A. McBride, R. F. D. No. 2, Burley, Idaho, says: "Several times my kidneys have been out of order and caused a lot of trouble. My back has been weak and ached and my kidneys have acted irregularly. Doan's Kidney Pills have always completely relieved me. Others in my family have been helped by Doan's Kidney Pills and I recommend them, especially for children."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McBride had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

BERGER

BERGER.—Mr. and Mrs. C. E. Hudelson of Filer visited at the home of Mr. and Mrs. Leonard Hudelson Sunday.

Mr. and Mrs. George Parrott and family paid a visit to Filer Saturday.

Mr. and Mrs. T. J. Douglas and sons attended church at Pleasant View Sunday.

Mr. and Mrs. Will Martell have gone to Shoshone Basin for a week's outing.

BOARD MAKES RULE FOR HOSPITAL COLLECTIONS

Requires Payment in Advance Except Where Guarantee is Furnished

All patients entering the Twin Falls county general hospital from other counties must pay for their hospital care weekly in advance, unless responsible persons guarantee full payment, according to provisions of a resolution adopted Tuesday by the board of county commissioners.

The action of the commissioners in this regard was taken after the receipt from Gooding county commissioners of a communication which was interpreted as a repudiation of an agreement previously existing under which other counties were to reimburse Twin Falls county for the care of their charges received as patients at the hospital here.

Statement was made unofficially that the provisions of the resolution would apply in all except emergency cases.

The text of the resolution follows:

Inasmuch as Twin Falls county is maintaining and operating a general hospital supported entirely by the tax payers of said county, and feeling that the institution has been imposed upon in the past by the admittance of patients from other counties who are unable to pay for their care, the board of county commissioners do, by this resolution duly passed and entered in the minutes of the commissioners' journal require all patients entering the hospital from other counties to pay for their hospital care weekly in advance, unless responsible parties guarantee the full payment of same when the patient leaves the hospital, or is authorized by the board of county commissioners of their respective counties.

Engagement Ring Shifted.

In olden times if a girl were willing to marry, and not engaged, it was the custom for her to wear a ring on the first finger of the left hand. If she wanted to remain single, then she wore the ring on the little finger.

RECALLS STORY OF EARLY DAYS IN TWIN FALLS

Boise Newspaper Man Describes Twin Falls Tract and Its Magic Growth From Sagebrush

(By J. N. FLOYD)

From the Oregon border line on the west to Utah on the east there is not an agricultural section in Idaho, where the crop conditions are as good or farms as well kept up as in the Twin Falls district.

While there will be exceptional crops throughout Idaho this year, when the hay is stacked, the grain threshed, the potatoes dug and the sugar beets harvested, the Twin Falls county will add another year to its record as the greatest producing territory of the state. Not only does the Twin Falls tract enjoy this distinction, but its fame goes even farther, for government statistics show that in grain and hay there is not another like area in the United States which will produce as much per acre.

A Talked-of County.

Sixteen years ago Twin Falls was only a talked-of territory. Work had been in progress for several years to reclaim the great vast sage brush tract of the southeast, it was being advertised in the east and people of Boise and vicinity were making a few filings realizing the *possibilities* and the values that would come from irrigation.

The Perrine hotel was then a small structure, one or two dusty streets formed the business district and occasional stakes could be seen above the dust marking the proposed townsite. Travel through the country in any direction was difficult. Attempts had been made in cutting a few roads through the sage brush and many easterners who were driven out to see land returned dusty, tired and discouraged and left for their homes. But men of vision saw the opportunities and laid plans to attend the land openings.

Recalls Old Pioneers.

"Cyclone Bob" McCollum and Major Fred R. Reed were the most popular men in the Twin Falls territory in those days. People who wanted land sought them; people who wanted information sought them, and those who wanted to be "put next" to other possible townsites singled them out and in every instance these genial, far-sighted pioneers of the Twin Falls district pointed the way to prosperity.

In June, 1906, when one of the land drawings was held here, the present beautiful city of the Snake had all the appearance of a new mining camp.

Tents were pitched about in the sage brush. The Perrine hotel was filled with men and an occasional woman sleeping in chairs. One or two half-finished sleeping houses were filled. One of these had procured a big canvas and stretched it over the roof to keep out the rain and the other was boarded over the top but not shingled. Men slept in these on cots and on the floor.

Drawing in Downpour.

After several days the drawing was held and on that morning more than 200 men and women lined in front of the drawing pavilion. They were in line at 4 o'clock in the morning in order to get their numbers first and secure choice locations. It was raining hard, the mud was ankle deep and the stickiest mud imaginable, but there did not appear to be a pessimist in the long line. Occasionally a man not in line, would step in to hold a woman's place while she went to breakfast. It was a crowd of earnest men and women, seeking a new home in the west and it has been with the same earnest endeavor that they displayed on that wet morning that they have since shown in building the "Magic City," the fourth largest in Idaho, although but 16 years old, and which in the next few years will probably climb to second, if not first in population because of the great empire surrounding it.

Farms Well Kept.

There is not a section of the state where the farms are as well kept up. Here they are places of beauty. The homes are attractive; beautiful lawns front most every farm house; flowers are grown in profusion: the fences are models of perfection, and the ditches comparatively clean and free from weeds. These attractions as well as the wonderful crops are calling attention to Twin Falls. People seeking a new locality see here a city more modern than many places of 20,000 or 25,000 in the east, surounded by the best roads in the state and a farming community which bespeaks progress and prosperity. Today the Twin Falls section is in a better position that any part of the state to bid for the highest class of settlers who are now looking over the west. They may go through Twin Falls to the coast and even into California, but they often return this way and in the tourist camping grounds along the line it is not uncommon to hear tourists say: "The Twin Falls section of Idaho is the finest territory I have seen anywhere on my trip."

Buildings Are Modern.

In its building, Twin Falls has kept pace with the rapid improvement of the surrounding country. There are no better schoolhouses to be found in the state than the Twin Falls high school, and the Washington school, the latter being the last word in school architecture. The Twin Falls courthouse, postoffice building, Lincoln school and the isolation hospital, the Methodist and Presbyterian churches are models in architecture and beauty which would do credit to a much larger city.

Another point in which Twin Falls excels is that of a city of homes. They are mostly of the bungalow type, attractively designed, are kept up in fine shape as is shown by the fact that but few houses in the "Magic City" need painting and there are practically no shacks to be found. A city where its citizens show such pride is bound to go forward and with prosperity rapidly coming back the Twin Falls district will be the first to reap results in increased population because it is the most talked-of section among automobile tourists and prospective investors on the road today.

EASTERN TRADE HEALTHY

Thomas Horn of the Idaho department store returned Tuesday from an extended eastern business trip during which he visited the buying centers, spending some days in New York.

There is little talk of the railroad strike in New York, Mr. Horn says and passenger traffic moves for the most part on or very close to schedule. The main subject of conversation in the wholesale districts is the collapse of the German mark with speculation as to the outcome of financial conditions in that country.

PLANE CARRIES AIRMAN HERE TO BROTHER'S SIDE

Lieutenant J. M. Barnes Makes Aerial Flight from Fort Douglas in Response to Word of Illness at Home

Two hours and ten minutes after leaving Fort Douglas, Salt Lake, Utah, Thursday afternoon, Lieutenant John Maurice Barnes, son of Dr. and Mrs. S. M. Barnes, 443 Third avenue north, in an army airplane, arrived here where his younger brother, James Barnes, a patient at the county general hospital for a week past, was lying at the point of death.

One hour and 35 minutes after arrival here, was spent by the aviators in looking for a suitable landing field, and a successful landing eventually was made in a pasture on the Ted Smith ranch, nine miles southwest of Twin Falls.

The flight was made with Lieutenant E. L. Williams as pilot, under direction of Captain R. H. George, air service officer of the 104th division, at Fort Douglas where both of the flyers who made the trip are on duty with the citizens' military training camp.

Travel 180 Miles.

The start was made shortly after Lieutenant Barnes received a telegram telling of the critical condition of his brother, an d the plane appeared over Twin Falls at about 5 o'clock.

With an aviators' map of the 180-mile route to be traversed and a compass, the airmen steered their course over the intervening mountain ranges, coming into view of the Snake river valley at ap oint above the hills between Oakley and Artesian City.

Encounters Storms.

DENIES NEW TRIALS IN THREE RECENT LAWSUITS

District Judge W. A. Babcock Declines to Review Cases Decided by Juries

Motions for new trials in three suits recently tried in district court here were Thursday denied by District Judge W. A. Babcock.

In the case of W. E. Eckley against Calvin Owens, J. W. Laubenheim, appearing as an intervenor, asked for the new trial. A jury has awarded judgment to Eckley against Owens on a note for about $2000 in which Laubenheim claimed an interest.

In the case of A. J. Milner, Buhl, against the Earl Fruit Company of the Northwest, the new trial was sought by the company against which a jury returned a verdict for about $7000 under provisions of a fruit marketing contract in controversy.

In the case of Carl J. Miller against Ed. S. Couse and others, involving a contract for purchase of land, the new trial was sought by defendant Couse.

FORESTRY SCHOOL DEAN ORGES TREE PLANTING

Dean Miller of State University Pays Visit to Twin Falls Country

With a view to interesting landholders of the Twin Falls country in the desirability of planting and cultivating trees for windbreaks and wood lots, Dean Miller of the University of Idaho school of forestry was here the first of the week. In company with R. E. Brossard, county agricultural agent, he visited a number of black locust groves that were set out here in the early days of this region.

TRAFFIC REGULATIONS ENFORCEMENT PROMISED

Chief Says Motorists Without Tail Lights and Those Lacking License Plates will be Interviewed

Relatively minor offenders against municipal traffic regulations are in for a course of instruction that may lead them through the police court, according to announcement made Thursday at the police station by Chief of Police J. E. Crest.

Motorists who drive their cars after nightfall without any lights at all, and those who habitually exceed the speed limit may, of course, expect arrest and prosecution as their portion at any time, and stiffening up of traffic regulations enforcement means that drivers of cars without tail lights, or with only one license plate, or of cars bearing license plates of other states remaining here in excess of the statutory period, may expect to be apprised by the authorities of their shortcomings.

BELGIAN COMES HERE TO INSPECT FARM METHODS

European Agricultural Student Puts Twin Falls on His Itinerary

One day spent in the Twin Falls country proved a revelation to J. M. Leken, a Belgian student who has just completed a year's study at the Bussey Institution at Harvard University in plant breeding and associated subjects, and who is now visiting various agricultural sections in the United tates before his return to Belgium in September.

Mr. Leken arrived here Tuesday, bringing a letter of introduction to R. E. Brossard, county agricultural agent from F. D. Farrell, dean and director of the Kansas State Agricultural college at Manhattan.

The Twin Falls country, the letter said, was one that the Belgian had chosen to visit to acquaint himself with agriculture under irrigation.

Mr. Leken accompanied the county agent on a trip Tuesday to a number of potato and wheat fields in the county being grown with a view to securing certification, and also visited a number of dairy farms. He went from here to Boise and will continue his trip into the state of Washington.

PROPERTY VALUE SHOWS DECLINE

Records for Tax Assessment Give Falling Off at Over Two Million

Twin Falls county's real property tax assessment roll, completed Thursday at the county auditor's office, show a reduction of almost $2,200,000 in the valuation of property listed as compared with valuation of last year. Total valuation for 1922 is $25,895,220, as against $28,078,350 last year.

Decreases in valuation are noted in the cases of merchandise stocks, lands and improvements.

Valuation of livestock shows an increase, but not sufficient to offset the decline in the other classes.

The abstract completed by the auditor's office Thursday has been submitted to the state board of equalization, and is subject to alteration at the hands of that body.

The real property rolls constitute only a part of the property in the county against which taxes are levied, valuations being placed upon utilities such as railroads, by the state board, and the personal property rolls being made up in December.

The real property roll completed Thursday comprises the following items:

RUBBISH CLOGS COURSE OF UNDERGROUND STREAM

Street Department Finds Screen at the Syphon's Entrance Gone and Work to Do When Rains Come

Interference with the flow of water through an underground conduit, or syphon traversing south and west quarters of town occasioned considerable difficulty for the municipal street department following showers Thursday afternoon, which increased the normal flow of the stream.

Investigation disclosed the fact that a screen at the entrance of the syphon had been removed, permitting various obstructions to enter and cause trouble further down. Excavations were made in three or four places and obstructions removed. In one place a wooden chair rocker was removed.

Here Is the Famous $3,500,000 Waif

Anna Louise Beers, three-year-old heiress to the $3,500,000 estate of Captain Edward Morrison, of Chicago, is in a charity ward in Cook county (Ill.) Hospital. Police are endeavoring to find the mother, who is said to be touring the country, stopping at the best hotels and watering places, dressed in the finest of gowns. The neglect of the mother is alleged to have extended over more than a year, and the Juvinile Court has fed, clothed and housed the child for fifteen months. She was snapped as she played with her battered, borrowed doll. "Her hasn't got any shoes either," said the child, "but her's got a mama!"

SINGER SCORES AT CHAUTAUQUA

Frances Ingram Captivates Twin Falls Music Lovers in Artists Recital

FRIDAY

Afternoon

2:30 p. m.—Musical entertainment, Patton Brothers Trio. Junior Chautauqua.

Evening

8:00 p. m.—Prelude, Patton Brothers Trio.

8:15 p. m.—Lecture, "Working Together for Billions," Norman Allan Irmie.

Despite showers Thursday evening, Twin Falls music lovers and Chautauqua goers, availing themselves of their first opportunity in years to hear a singer of the first rank here, filled the big brown Chautauqua top to its capacity to greet Miss Frances Ingram, famous contralto of the Metropolitan opera and Chicago Opera association, whose appearance in Chautauqua was heralded as an epoch making incident in the history of the institution.

Captivates Audience

Miss Ingram captivated her audience with her talent which has been given highest praise by foremost critics, and by her engaging personality. She was assisted by three young women composing the Stearns-Helloksen trio, Ethel Stearns, violincellist; Vere Stearns, violinist, and Minn Helloksen, pianist, with numbers presented individually and in ensemble.

Twin Falls Chautauqua goers Thursday afternoon attended a health clinic, conducted by Edna Eugenia Lowe, instructor in physical culture in two leading universities and author of a book on "Prevention of Disease." In an entirely practical and entertaining discourse the speaker discussed nervousness, colds, sleep and kindred topics, with suggestions for proper wearing apparel and hygiene, and demonstrated exercises with the promise that if they were persisted in by individual members of her audience, they would keep themselves "fit as a fiddle."

Re-Arrange Program

Announcement was made that, in response to the request of local Chautauqua guarantors, the program had been rearranged to provide for presentation Monday evening instead of Sunday evening of the play "Cappy Ricks," and that J. C. Herbaman would deliver his lecture, "Life's Balance Sheet," Sunday evening.

Norman Allan Irmie, professor of modern history at Culver Military academy and during the world war an officer of the Canadian forces, will lecture Friday evening on "Working Together for Billions," his idea being that friendships are better than battleships.

The Patton Brothers—Lowell, tenor and accompanist; Donald, bass, and Gault, baritone, featuring banjo and ukulele accompaniments, original dances and pianologues in a musical program of six episodes, will provide entertainment Friday afternoon and will furnish the prelude that evening.

Decedent leaves his widow and four children, two sons and two daughters.

WALTON CASE IS TAKEN FROM COURT'S PROVINCE

Attorneys for City and Claimant for Damages Advise Court of Settlement

Claim of E. F. Walton against the city of Twin Falls for damage resulting to property when a water main bursted in June, 1920, has been removed from the jurisdiction of the district court as a result of the dismissal of motions for new trial filed by Walton and providing for the court to determine reasonable amount of costs incurred by Walton in two trials in the case.

The order for dismissal was signed by Judge Babcock when counsel for Walton and S. D. Davis, city attorney, presented representations to the effect that the questions involved would be settled out of court.

This step followed the four to one vote of the city commission Monday to accept Walton's terms of settlement involving payment by the city to Walton of $950.

RECEPTION PLANNED FOR LEADERS IN DAIRY WORLD

Federal Division Chief to Meet Visiting Party of Dairymen at Pocatello

Leading dairy experts of the United States coming to Idaho upon the invitation of Governor D. W. Davis will be met and joined when they enter the state's borders Sunday at Pocatello, by J. E. Dorman of Salt Lake, chief of the western dairy division, federal department of agriculture, who was here Wednesday on an inspection trip to southern Idaho dairy districts.

The visitors will go directly to Boise, according to word received by R. E. Brossard, county agricultural agent, from F. R. Cammack, field dairyman of the University of Idaho extension division, and will arrive in Twin Falls Thursday evening.

Arrangements are being made for meetings for the visitors with business men and bankers as well as dairymen at the several places to be visited.
