INQUIRY BOARD HEARS TALE OF BIG EXPLOSION

Widow of Lieutenant Schrader, Killed in Arsenal Blast, Tells Investigating Court How It All Started.

(By The Associated Press)

NEW YORK, July 22. (AP)—A pathetic little widow, who 12 days ago saw her husband dash from her side to his duty and his death, today told the court *of inquiry investigating the Lake Denmark* naval arsenal disaster where the lightning, that caused 21 deaths and $90,000,000 damage, first struck.

The widow was Mrs. Schrader, whose husband, Lieutenant Herman C. Schrader, U. S. N., was killed. Her testimony established for the first time that lightning which struck temporary magazine No. 8, which was filled with TNT, caused the catastrophe.

Mrs. Schrader, the first woman to appear before the court, said;

"We were all in our residence, which was just behind temporary magazine No. 8. My husband, my brother, my sister-in-law and my little girl, Frances were there. The storm was going on. Then came one terrible flash of lightning. I said something. I don't remember what I said, but my husband said: 'Don't mind it. It's nothing.'

Didn't Realize Danger.

"He didn't realize the danger. We all went out on the porch. He hadn't got seated when I saw black smoke pouring out of that magazine. It was very black smoke, little flames. I shall never forget the look on Mr. Schrader's face.

"He immediately went to the telephone, callig to us to take the car and go out the gate. Bu I didn't get the car. We just ran. As I ran I recalled that my husband had told me that TNT was stored in that magazine. I didn't hear the fire alarm. We ran as fast as we could. I called to Mrs. Gately (wife of Chief Gunner Joseph Gately who was killed) to come along with us. We got to the gate, I told the marine sentry there that there was a fire. He ran up he lawn to look. The last I saw of him he was at the telephone."

Continues Her Story

(Here Mrs. Schrader paused and touched her eyes with her handkerchief. Then she continued!

"The last I saw of my husband he was going to the Marine barracks, to get marines to fight the fire.

"Just outside the gate we heard the first explosion, a terrible blast. A car came along. There were four men in it, I called to them and asked them to take Mrs. Feeney and her baby. (Mrs. Frances-Feeney, of Brooklyn, and her infant, Jane Feeney.) They stopped and Mrs. Feeney got into their car with her baby.

"Then came the second blast. It was much worse than the first. I was knocked to the ground, and so was my little girl, Frances. When I got up I saw Mrs. Gately holding Mrs. Feene's baby:"

Mrs. Schrader then described one of the strange tragedies of the disaster. Mrs. Feeney was fatally injured by flying debris while in the car they had just entered, but the four men in the car and Mrs. Schrader and her daughter and the others with her escaped with shocks.

McNARY ON WAY HOME

CHICAGO, July 22. (AP)—Senator McNary, republican, Oregon, a member of the senate committee meeting here next week, passed through Chicago on his way home from Washington today. He said he did not expect to be here for the opening of the Illinois inquiry into primary campaign expenditures and might not be able to attend any sessions of the committee in Chicago.

Borah Makes New Request for Data Regarding Seizure

Addresses Second Letter to Alien Property Custodian Sutherland in Matter of British War-Time Transaction.

WASHINGTON, July 22. (AP)—Upon receipt of a reply today from Howard Sutherland, alien property custodian, to his request for information concerning alien property transactions with the British government, Senator Borah, republican, Idaho, immediately addressed a second letter to the custodian on the subject.

"In view of the detailed statements which have been furnished me," the senator wrote, "I feel there must be a misunderstanding somewhere. What I desire is all the information available concerning the entire subject of seizure of stock of American corporations by the British public trustee."

No Property Delivered

Mr. Sutherland in replying to the senator's first request said there had been "no delivery of property by the custodian to the British trustee. On the contrary the trustee has returned to the alien property custodian certificates of American corporations of the approximate value of $125,000,000 where the custodian had seized the right, title and interest in the same."

Meanwhile, Thomas W. Miller, former custodian, in whose administration Senator Borah said, the transaction took place declined through his attorneys a request from the senator to appear before senate investigating committee.

Ten Persons Die in Motor Bus Mishap in New York Mountains

Score of Others Injured When Big Car Turns Turtle; Two More Reported Dying.

NYACK, N. Y., July 22. (AP)—Ten persons were killed and more than a score injured when a bus, returning from Bear mountain with a party of Brooklyn excursionists overturned at the Erie railroad crossing near Sparkill, tonight.

The bus left Brooklyn this morning with a neighborhood party of 43 persons. Nine of the dead were woman and the tenth a six-year old child.

The injured were taken to Nyack hospital.

Coroner and police investigation into the cause of the accident were begun at once. At Nyack hospital it was reported that two more of the *injured were dying, and that all* of the 43 passengers had been either killed or injured.

TEXAS CONVICTS LIBERATE PALS

Two Escaped Men Return to Prison Farm, Shoot Guard and Set Prisoners Free.

HUNTSVILLE, Texas, July 22. (AP)—Two convicts who escaped recently from the Ferguson prison farm near Midway in Madison county, returned shortly before midnight Wednesday and shot and killed Will Rader, 0 year old guard, shot at two other guards, liberated six of their friends from the prison cell house and escaped with them in an automobile headed for Crockett.

This was the theory of Warden N. L. Speer of the state penitentiary here after his investigation of the murder and break for liberty at the farm 21 miles from here.

Prisoners who remained on the farm after the raid told the first complete story of the night's events to Warden Speer in person Thursday afternoon.

Use Shotgun

The prison camp had settled down for the night by 11 p. m. and the first inkling of the raid came when three shots from an automatic shotgun were fired point-blank into the body of the guard, Rader, the prisoners said.

Just as the shooting began the building tender, Pat McCoy, a trusty, switched off all the lights in the prisoners' quarters. The man who did the shooting called out the names of six prisoners and told them to strike matches and get ready to leave. He went directly to the keys to the inner compartment and opened the door to the prisoners' lockup.

The convicts and the liberators hastened to the parked touring car in the Midway road, fired two more shots and departed.

Warden Speer's investigation revealed that two men in a touring car crossed Blatts ferry, between midway and Crockett on the Trinity river early Wednesday afternoon. He believed the men hid themselves near the prison farm until near midnight.

The party of prisoners and their liberators crossed the ferry again shortly after the raid, Warden Speer learned, but the trail ended. They were going in the direction of Crockett and Waco.

ANACONDA COMPANY BUYS ZINC MINES IN SILESIA

NEW YORK, July 22 (AP)—Purchase of the Silesian zinc mines of the George Von Giesche's heirs mining company by the Anaconda company was announced tonight by W. A. Harriman and Company, and Lee Higginson and Company, heading a syndicate to finance the acquisition.

The Silesian-American corporation has been formed to take over and operate the mines.

Cornelius F. Kelly, president of th Anaconda Copper Mining company, will head the new company which will acquire all the capital stock of the Giesche company together with $6,000,000 of the German company's sinking fund mortgage bonds.

INDIANS OF NORTHWEST HOLD SECOND CONGRESS

SPOKANE, Wash., July 22. (AP)—The past and present of the American Indian met here Thursday to voice his aspirations.

Representatives of the younger generation, product of American schools and customs—and tailors—talked of emulation of the white man and responsibilities of citizenship.

Stolid patriarchs, gay in fur and feather and resplendant buckskins, throug interpreters, spoke of treaties and hunting and fishing rights.

Members of many tribes of the Pacific northwest met in the second Indian congress and discussed the problems of their race.

DENIES SALE OF SCHOOLS

MEXICO CITY, July 22 (AP)—The most Rev. Jose Mora y Del Rio, archbishop of Mexico, today denied the report that the Catholic schools in Mexico had been sold. The archbishop did not care to add anything to his denial, but his secretary explained that it was necessary to turn over such schools to Catholic laymen, in whom the present church and school authorities, had absolute confidence.

AFFAIRS OF DRY ADMINISTRATOR WILL BE AIRED

Federal Grand Jury to Hear Evidence in Connection With Investigation of California Prohibition Enforcement Head

(By The Associated Press.)

SAN FRANCISCO, July 22.—Hotel managers, detectives and employes, under-cover agents, automobile drivers and a wealthy and attractive woman *today were the component factors in* an investigation which has been started by United States Attorney George Hatfield into the manner in which federal federal prohibition administrator Colonel Ned M. Green, has conducted his office.

Hatfield announced the matter will be submitted to a federal grand jury next Monday and he put down the foundation of what he said will be a thorough airing of Green's administration of office by issuing more than 21 subpoenas.

Serve Subpoenas

United States deputy marshalls began the service of these subpoenas at once. The list of those to be served included:

"Jane Doe, Lady Bob Montgomery." She is listed as a permanent resident in a prominent downtown hotel where Green has been residing. It was said she would be asked to describe parties which Green is said to have held in his room. The government will seek to prove that liquor confiscated by prohibition agents was used freely at these parties.

H. S. Parker, caretaker of the "Lady Lou," former rum runner which has been converted into a rum chaser and which is stationed at Goat Island in San Francisco bay.

L. B. McMurtry, Carl Ahlin, George Neary and Harry Brickell, prohibition agents, operating out of Green's office.

Hatfield's announcement that he will submit the entire issue to the federal grand jury which is to be impanelled Monday caused a marked sensation in governmental official circles. He refused to make any extended statement aside from admitting he would seek an indictment against Green and that he hoped to prove that Green had been guilty of negligence and official misconduct.

DEFENDANT IN SUIT

MANHATTAN, Kansas, July 22. (AP)—Ned M. Green, now federal prohibition administrator for northern California and Nevada was the defendant in a divorce action brought by his wife, Alice Agnes Green in November 1914. The plaintiff said the defendant's home was here, he having lived throughout his boyhood at the home of his father, former Lieut. Gov. Green.

BRITAIN TAKES OPPOSING VIEW

Treasury Department of England Makes Elaborate Rejoinder to Mellon Comments.

LONDON, July 22. (AP)—The British treasury department has taken issue with the statements recently made by Andrew W. Mellon, secretary of the United States treasury, and Acting Secretary Winston of the treasury, in which the contention was set forth that Great Britain had negotiated a large part of her loan from the United States for "purely commercian, as distinguished from war, purposes."

An elaborate rejoinder was made public today by the British treasury department which concludes as follows:

"Great Britain provided sterling and neutral currencies to meet all her own requirements throughout the war, and, in addition, bore the burden of covering the sterling requirements of her continental allies.

Resources Plentiful

"But for the fact that the United States did not feel able on entering the war to relieve her of this additional burden, Great Britain would have been able to meet from the resources she placed at the disposal of her allies, her expenditures in America, and in all human probability, the British debt to the United States would never have been incurred.

"The British treasury feels it necessary to set forth the foregoing facts because they seem to show that no case for discriminating against Great Britain can be founded upon her use of money borrowed from the United States for the prosecution of the war. No complaint has been made by Great Britain against the adverse discrimination with which she has been treated.

"It is recognized that the creditor is entitled to discriminate between debtors and that the debtor is bound to comply with the demands of the creditor up to the full limit of the obligations. It is only when reasons are assigned for such discrimination which clearly arise from a misconception of the facts that necessary corrections of fact must be made."

THAWING WEATHER

OLEAN, N. Y.—The pavement buckled, tossing bricks in the air, endangering passers.

LOWELL, Mass.—Members of of a newspaper staff fried eggs to a turn on the roof of their building, temperature 119.

KEARNEY, N. J.—Expansion of the draw over the Hackensack river prevented its closing until the steel members had been cooled.

PASSAIC, N. J.—Hens laid eggs in watering troughs to prevent unseemly haste in hatching.

ST. ALBANS, Vt.—S. R. O. Signs in a cross-the-line beer garden.

U. S. BUSINESS GETS ATTENTION

President Coolidge Puts in Day at Desk Attending to Affairs of Government.

PAUL SMITH'S, N. Y., July 22. (AP)—Turning from the diversions of life in the Adirondacks, President Coolidge today observed the business program which he follows daily in Washington. He spent practically the entire morning at the executive offices, arriving at 9 o'clock and remaining until noon. Again in the afternoon, after resting at White Pine camp, he went to the office and gave his attention to government business.

Mr. Coolidge has been kept informed through the newspapers of the situation in France with the change of cabinets and the fluctuation of the franc, but he has let it be known that he does not care to comment on that subject, as involving the affairs of another country.

In Excellent Health

With the eastern part of the country sweltering in a heat wave, the weather has been unusually warm for two days, but at no time uncomfortable to those accustomed to the heat of Washington. The president came to the executive offices in blue suit and panama and seemed not to notice the weather. He appeared in excellent health.

Secretary Wilbur of the navy department will arrive Saturday to spend the week-end with the president. As was the case with Secretary Dwight Davis, of the war department, who was here early this week, Mr. Wilbur will be in a position to give his views of the recent arsenal explosion near Dover, N. J.

The two cabinet officers will not be the only ones received here, as it is expected all members of the president's immediate official family will visit him during the summer. Secretary Kellogg of the state department, is expected when he speaks at the unveiling of the MacDonough monument at Pittsburgh, late next month, if not earlier.

BORAH ASKED TO AID IN STRIKE SETTLEMENT

WASHINGTON, July 22 (AP)—Senator Borah, republican, Idaho, announced today he had been asked to take a hand in the settlement of the strike of woolen mills workers at Passaic, N. J. He also made public a telegram from Albert Weisbord, one of the strike leaders, offering to assist in an attempt to obtain a settlement and promising to "completely step aside" if that would help negotiations.

Senator Borah said the request that he participate in settlement efforts was tendered by a group of Passaic citizens. He has advised them of Weisbord's offer, and is awaiting their reply.

NUNS CROSS BORDER

LAREDO, Texas, July 22 (AP)—Thirty-five nuns of the Roman Catholic faith from various parts of Mexico crossed the border at Laredo today. They declared many more sisters will follow them in a few days, although they understand some who were born in Mexico were planning to remain in that country.

Grange Is Named In Divorce Case Of Coast People

LOS ANGELES, July 22 (AP)—Mrs. Charles A. Taylor, whose wealthy oil supply dealer-husband yesterday charged her with tackling Harold "Red" Grange in a kissing scene, and otherwise being more than ordinarily familiar with the football-playing, ice-peddling, screen-acting star today, through her attorneys, categorically denied all the charges in her spouse's divorce cross complaint.

Mrs. Taylor went considerably further and promised "real fireworks" in an answer to her husband's bill which her attorneys now are busy preparing.

Does Not Blame "Red."

Taylor, although he charged that his wife used one of Grange's knees instead of an adjacent chair, rumpled the hair, patted the checks and kissed the lips of the line busting footballer, made it plain that he did not blame "Red."

Said the husband: "I am extremely sorry that this occurred. Charles Pyle, Grange's manager, is my cousin, and through him I have come to be on very friendly terms with "Red."

"He is too much of a gentleman to do anything wrong, and he was named only to show how my wife acted."

In her husband's estimate of Grange, Mrs. Taylor concurred, according to the cross-complaint;

"Red is a wonderful boy," she is quoted as having said.

RAGING FLAMES IN NORTH AREA UNDER CONTROL

Fighters Successful in Efforts to Halt Fires That Have Destroyed Great Stands of Timber and Many Ranches.

MISSOULA, Mont., July 22. (AP)—Flames which have eaten their way across thousands of acres, destroying rich timber stands and consuming ranch houses in the forests of western *Montana, northern Idaho and eastern Washington*, have been brought under control, District Forester Fred Morrell announced today. While no further call has been made for additional fighters, the hundreds of men on the front have not relaxed their vigil and are alert to check any new outbreaks.

An airplane flight over the Hay creek fire on the Blackfeet forest indicated that the flames were not spreading Morrel said. Eleven miles of trenches surround this fire. The Kaniksu conflagration also is reported to be well within control lines.

Four and a half miles of line are being held about the Independence fire on the Coeur d'Alene forest. Whi 55 men were added to the fire fighters in the Pend Oreille forest today, to help extend the lines, the fire is reported well under control.

Eleven fires burning on the Kootenai also are in hand.

The sweep of fires in California which caused considerable destruction during the past week had narrowed down to two uncontrolled and a few minor conflagrations today.

The Bocca creek fire in the Tahoe national forest, which was reported controlled yesterday, broke out anew last night, and at the last reports had swept over 6000 acres. The plant of the Crown Willamette Paper company at Bocca has closed down to permit its employes to fight the fire, but it is not believed that the plan was in any danger. There were 150 men on his fire.

The Canyon creek fire in the same district, which theatened considerable destruction, has been controlled, but a new fire has broken out near Graniteville. This is a small one, however, and it was expected that it would be checked quickly.

The second big fire was along Bogus creek in the Klamath national forest. This was also controlled last night but broke out later and had made a new run of seven miles at the last reports today. This fire had swept a total of 20 square miles and an eight mile backfire was being constructed to keep it out of the live timber. There were 400 men fighting this blaze.

In The California national forest a fire broke out near Yolla-Bolla last night, but was being gradually checked.

(Continued on Page Two)

JURY MEMBERS ARE ATTACKED

Publicity Director for Texas Pastor's Church Flays Personnel of Probe Body.

FORT WORTH, Texas, July 22. (AP)—The personnel of the grand jury investigating the killing of D. E. Chipps by Dr. J. Frank Norris, was attacked here today by J. J. Mickle, publicity director for Norris' church, as the jury recessed until Tuesday.

In a statement which is to be published Saturday in the "Searchlight," Norris' weekly paper, Mickle charges that some of Norris' bitterest enemies are members of the jury, that it contains Roman Catholics, and that one of the main purposes in the formation of the jury was to indict Norris for criminal libel for his attack on Mayor H. C. Meacham and others.

The statement declares that one member of the jury attempted an assault on Dr. Norris' life ten years ago, and reiterated charges of a conspiracy against Norris, declaring that "the conspirators" met on a certain night this week and raised a large fund to hire a well known criminal lawyer to prosecute Norris.

High Class Jury.

Frank Anderson, a prominent Fort Worth business man, who is a member of the jury, stated that the jury is of a very high class, being composed of business men and farmers.

"It is one of the best juries ever assembled here," he said, "and it was formed long before the killing at the church and long before anyone knew it would be investigating any acts of Dr. Norris.

"There are two Catholics on the jury, one of whom I believe is not a regular church member. The other members are Baptists, Methodists, Episcopalians or do not belong to any church."

Anderson's statement was concurred in by other jurymen who declined to be quoted.

The jury, after working three days on the case, recessed to give time to transcribe the testimony, and to permit development of additional evidence.

Clerk of Shanghai Court Arrested as Boat Nears Landing

United States Marshals Board Vessel Outside of Seattle to Place Man in Custody.

SEATTLE, July 22. (AP)—William Alden Chapman, for five years clerk of the United States district court of Shanghai, was taken from the steamer President Jefferson on its arrival here today from the Far East, charged with having "feloniously received and concealed money, bank notes and securities" belonging to the United States.

He was arrested yesterday on board the vessel as it entered American waters from Victoria, B. C., where deputy United States marshals had boarded the ship.

Chapman was charged with concealing on the high seas on an American boat, $30,000 of government funds. When apprehended he had $1600 cash. A warrant for his arrest was issued in Shanghai, July 17, and is expected to reach Seattle in three weeks.

POINCARE TRYS FOR MINISTRY

Result of Ex-President's Efforts to be Reported to French Chief Executive.

PARIS, July 22. (AP)—Results of M. Poincare's day-long effort to constitute a national ministry will be reported tomorrow to President Doumergue.

While no official statement was forthcoming tonight as to progress made, the bare fact that Poincare, last of the French stalwarts to tackle the financial problem, was at work was sufficient to cause an appreciable upward reaction in exchange.

Former Premiers Briand and Herriot and former Foreign Minister, de Selves were among the leaders consulted today, after which Poincare told correspondents things were "going well." This evening he elaborated to the extent of saying his "consultations" were completed and there remained only a few "conferences" before he would go to the Elysee tomorrow with his final answer.

Talks to Correspondents

The ex-president smilingly told the newspaper correspondents that he did not have time to explain the distinction in his mind between consultation and conferences. He accepted the undertaking only in principle, which is taken to mean that his final answer will be in the affirmative only if he is successful in organizing the kind of ministry he wants and can come to agreement with certain powerful influences to support him.

It is deducted from the circumstances that M. Poincare already has recruited his ministry and will have no further consultations on this subject, but that a conference will be necessary with Albert Sarraut the new senator from Carcassonne and part owner of the radical organ, La Depeche de Toulouse, which this morning declared that the radicals could not accept M. Poincare as head of the government.

M. Sarraut will confer with M. Poincare in the presence of Louis Barthou, and the developments tomorrow may depend perhaps on the outcome of that interview. It is therefore possible that if the paper does not indicate a change in policy in its next issue, M. Poincare may say to President Doumergue that he cannot form a ministry.

HURRICANE IN SERBIA CLAIMS HUNDRED LIVES

VIENNA, July 22. (AP)—One hundred persons are reported to have been killed at Rugovo, Serbia, when a hurricane, accompanied by a cloudburst, struck the town, says a dispatch received here from Belgrade. Forty bodies have been recovered.

The river rose suddenly, inundating the town. Several houses collapsed upon people who had taken shelter in them.

A similar cloudburst has done enormous damage at Krusevca, near Belgrade. The soap works there was destroyed, together with its stock of ten carloads of soap.

BIG TIME CRIMINALS LAND IN POLICE NET

NEW YORK, July 22. (AP)—The police net here holds securely three alleged "big time" criminals from the middle west whose combined depradations were said to approximate $1,000,000.

Two of the men were said to have operated a gigantic system whereby loot from banks and brokerage houses was palmed off on country banks as collateral for loans. They were held for Milwaukee police, where it was said they had robbed a bank of $300,000.

TO FILL VACANCY

SALT LAKE CITY, July 22. (AP)—At a meeting of the city commission today Charles N. Fehr, well known business man of this city was elected a member of the commission to fill the unexpired term of Herman H. Green, deceased. The selection was made after many meetings at which, it is said, more than one hundred candidates were considered. He will have direct charge of the department of finance and public affairs, as held by his predecessor.

EAST SUFFERS UNDER WAVE OF INTENSE HEAT

Mercury Reaches Century Mark in Many Sections; Promise of Cooling Showers Still Only a Hope.

(By The Associated Press.)

The hottest July 22 ever recorded in most sections of the east passed along with long promised cooling showers still only a hope.

As the trend of summer's most intense heat wave drew to a close, it left in its wake a record of offices and industrial plants closed, of men and women prostrated at their work and on the streets, or drownings among crowds that surged to seaside and lake front, of both animals and humans demented by the scorching weather.

Although suffering was intense Wednesday, temperatures were generally several points higher Thursday. Records of 100 were unusual and scattered before, but on Thursday such temperatures became the rule rather than the exception.

Accurate Death List Impossible

From all the reports of prostrations, drownings, suicides, deaths of persons already ill, all to some extent attributed to the weather, it was impossible to compile any accurate list of deaths for which the heat could be held directly and solely responsible.

In various places in New York, New England and Pennsylvania, stores and industrial plants closed their doors so that employes might seek what relief was possible.

New York City experienced its hottes July 22 since the weather bureau has been in operation. After a rushing start with a ten degree rise in three hours in the morning, the mercury had reached 97 degrees at 3 o'clock. An hour later it had dropped one degree and some hope was held out for relief.

Remove Shirts

Formality went by the board and in many courts officers and visitors were permitted to remove their coats. Business was stopped in one New York court when a courtroom crowd, taking too literally the judge's permission to make themselves comfortable, removed their shirts as well as their coats and drew a sharp reprimand.

The record of the heat wave was one of mingled tragedy and humor. In Binghamton, N. Y., four persons became temporarily deranged and had to be restrained by police; and in Lowell, Mass., an egg was fried on a brick roof. In Jersey City three heat-crazed dogs attacked two young boys; and in St. Armande, Quebec, the nearest Canadian point for Vermoners, an American invasion was reported to the beer tables. And so through the whole record, tragedy walked hand-in-hand with farce and the sufferers found time to laugh at their plight as well as moan.

The weather bureau still spoke brightly of showers, but the heat-parched easterners were in a mood to be shown. Promises and predictions had ceased to satisfy.

103 IN BOSTON

BOSTON, July 22. (AP)—Thunder storms and gales, general throughout New England tonight, brought to a close a three-day heat spell which set new temperature records, and caused many deaths and prostrations, the storms breaking suddenly at the close of the hottest day in 15 years, caused widespread damage.

The maximum temperature for the day in Boston was 103 degrees, reported at 4 o'clock, one degree lower than the highest point on record here. On July 4, 1911, a temperature of 104 degrees was attained.

The deaths, four of them in Boston, and many heat prostrations marked the closing day of the heat wave in New England.

Four Lives Taken By Lightning and Heat in New York

Albany and Vicinity Visited by Terrific Wind and Electrical Storm; Score Injured; Some May Die.

ALBANY, N. Y., July 22. (AP)—Four deaths and a score of persons hurt, two critically, was the toll taken in Albany and vicinity today by the record heat wave and the terrific lightning and wind storm which brought it to an end today. Heat prostrations, lightning and falling trees and structures caused the injuries.

James M. Droogan, 30, succumbed to the heat.

Pearl Muskat, 14, an inmate of the House of the Good Shepherd, Troy, was pinned under a tree felled by the wind. She and other children on a picnic were fleeing for shelter from the storm. The girl suffered a compound fracture of the skull.

Laborer Killed

An unidentified laborer also was fleeing for shelter and was killed when about to enter a shack. Wind bowled the shack over, scattering the boards. At the same moment, a bolt of lightning struck the spot. The laborer was killed either by the lightning or the debris from the shack. A companion was struck by lightning and seriously hurt.

Daniel Horn, 55 of Binghamton, was electrocuted when chopping away a tree that had fallen across a highway and carried with it a high tension wire.

ORDERS RECOUNT OF CHICAGO VOTE

Charges of Wholesale Fraud in Cook County Primary Take on National Aspect.

CHICAGO, July 22. (AP)—Charges of wholesale fraud in connection with the April primaries in Cook county took on a national aspect today when County Judge Edmund Jurecki ordered a recount of all votes cast in the county for both republican and democratic candidates for the United States senate.

At the same time a second special grand jury investigating election frauds returned indictments against 54 election officials, charging they conspired to make false returns. The indictments returned today increased the number of election officials thus far charged with making false returns to 109, including several women.

Many False Ballots.

Officials engaged in the recount of the votes cast for county candidates, both democrat and republican, thus far have uncovered upward of 200,000 false ballots, and have estimated that nearly 1,000,000 individual votes will have to be thrown out or otherwise changed when the recount is completed. In many instances it has been charged that the election officials did not even bother to make a count but gave the various candidates an agreed number of ballots.

The recount of the senatorial votes in the county was ordered at the request of Senator James A. Reed, head of the senate committee investigating campaign expenditures which next Monday will open an inquiry here into expenditures of both major party candidates in the Illinois senatorial primary race following charges that more than $3,000,000 had been spent.

RAGING FOREST FIRES IN NORTH CONTROLLED

(Continued From Page One.)

The fires near Grass Valley were also being controlled.

A new fire at Orchard Point, eight miles from the Puget Sound navy yard was fought today by a detachment of 20 sailors from naval vessels at the yard.

Reports from Vancouver were that conditions in British Columbia, particularly Vancouver Island, are greatly improved. A large force that has been fighting fires on the island for twelve days, will be maintained until all danger is past.

Calgary reported that all fires in Alberta and eastern British Columbia except one in the Revelstoke, B. C., timber area, have been controlled.

A tenth of an inch of rain falling at Aberdeen, Wash., relieved the fire hazard in that area.

STIFF BREEZE FANS BLAZE NEAR BOISE

BOISE, July 22. (AP)—Fanned by a stiff breeze the fire on Shafer butte, northwest of here, has broken across the head of Daggett creek and was burning briskly, the lookout at the Butte reported by telephone this afternoon. He added that he believed the new outbreak had been controlled, but voiced fear that a strong wind might carry the flames across the new control ditches which had been dug.

Definite reports as to conditions along the front of Daggett creek, 15 miles northwest of here were lacking late this afternoon. Harry Shellsworth, secretary of the Southern Idaho Timber Protective association was hopeful of the outlook, he said. He added that had the situation continued alarming Arthur Goodrod, state fire warden in charge of the fire fighters at this fire, would have called for more help.

A small blaze, discovered Wednesday in the Horse mountain section, in the southeast corner of the Boise national forest, today was still burning, said word received at the Boise forestry office. Conditions in that section are keeping officials worried, since the fire hazard is increasing daily.

Antarctic Land Part of America's Domain

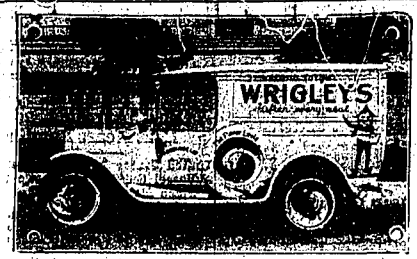
The United States has an Antarctic domain as great as the holdings in the Arctic region of Alaska. Indeed, if we were to deem it advisable, we could register a sound title to a vast area near the South pole discovered by Commander Charles Wilkes, of the United States navy, in 1840. This region, known as Wilkes Land, has an area equal to almost half that of continental United States.

The national congress was so impressed and elated by reason of this discovery that it authorized the publication, in 22 volumes, of the expedition's complete report with all charts and surveys. But, although so many years have intervened since Wilkes discovered the territory which now bears his name on all the standard charts, no effort has been made firmly to nail down the heritage. So far as we have been able to learn, no American flag has ever been planted there. Certainly we know that no colony ever has been established in that dreary domain, nor has any hardy exploring party followed in Wilkes' footsteps to make a detailed examination of this snowy region and its possible opportunities.—Fort Wayne News-Sentinel.

No Set Rule to Follow

Some editors and other authorities make no distinction between the two words "O" and "Oh." The commonly followed rules, however, for the use of "O" is directly addressing a person or a personified object, in uttering a wish, and to express surprise, indignation or regret; and for the use of "Oh" is an interjection and as the colloquial introduction to a sentence.

SPEARMINT EAR HERE



R. J. JOHNSON of the Wm. Wrigley company is in Twin Falls looking after the distribution of Wrigley's PK Fours. A period of a week will be used in covering the city with display materials and distribution of samples. A large truck is used in transporting the merchandise featuring this product which the company is giving publicity at the present time. Several dances have been covered and attendants at local show houses have been treated to the confection. Many window displays have been arranged and the general public invited to sample the chewing sweet.

REFUSES TO UNIONIZE CAMERAMEN OF MOVIES

LOS ANGELES, July 22. (AP)—Flat *refusal to sanction any movement to* unionize motion picture cameramen was voiced today in a statement made public by Daniel B. Clark, president of the American society of cinematographers.

In opposing efforts to induce the photographers to join unions, Mr. Clark said:

"The society does not oppose unions as a matter of policy or principle. They are very necessary factors in some industries. In the motion picture industry, itself, I don't suppose that there is any question they have proved the salvation of the calling of the projectionists.

"However, the union has no place among the cinematographers at the present time. Cinematography is essentially an art and the cameraman an artist. We regard his work as individual and distinctive to such a degree that it cannot be stereotyped into a set basis for a wage scale, nor do we think it will permit of even an "equitable" arrangement in the form of a sliding scale or the like."

Delivering Goods

The man who brings home the bacon doesn't often wait to have it wrapped up in waxed paper.—Los Angeles Times.

NEW FAST TRAIN TO BE PLACED IN OPERATION

LOS ANGELES, July 22.—The Union Pacific system has announced a new *fast* train service to be inaugurated November 14 both ways between Los Angeles and Chicago, which will be operated on a 43-hour schedule and virtually save an entire business day to travelers in both directions on this route.

The new train will be the former Los Angeles Limited, fitted with new equipment. A new train, Gold Coast Limited, will be put on the route on a 48 hour running seedule, while the Continental Limited also will make the trip in the same time.

MUCH PRODUCE SHIPPED

BOISE, July 22. (AP)—Fifteen refrigerator cars of produce left southern Idaho today for market, said a telegraphic report received by the public utilities commission. Of this total nine were potatoes, three cheese and three butter.

All, save the cars of cheese, came from the fourth district of the Union Pacific, which includes the territory from Glenns Ferry to Huntington. The other three cars came from southeast Idaho.

The Ladies Community council of Hansen will give the annual chicken dinner Friday evening, July 23, on the lawn of the Hansen Community church. —Adv.

SWEDISH PRINCE ADDRESSES BODY

Discusses International Relations at Banquet Tendered by Commerce Chamber.

LOS ANGELES, July 22. (AP)—Crown Prince Gustaf Adolf of Sweden, speaking here tonight at a banquet tendered him by the Los Angeles Chamber of Commerce, put aside the social and sightseeing aspects of his visit and turned to a serious discussion of international commercial relations. In contrast to the informality which has marked the recent stages of his American tour the crown prince appeared in evening attire, wearing the decorations of the order of the Seraphim and the Order of Vasa.

"I need not point out to you, who know the ways of business much better than I do, how interdependent we all are, all countries alike, of the best possibly organized interchange of goods within as well as between nations. We lately have had a terrible demonstration of what it means when that financial and commercial machinery, of which our civilization is justly so proud is violently interrupted all the world over and how long a time is wanted to set it right again. We still suffer from that catastrophe and we will, I am sure, all of us do all that is in our power to prevent its repetition," the heir to the Swedish throne declared.

Visit Cousin

The crown prince and his consort had a taste of life on a California chicken ranch this afternoon when they visited with Prince Erik and Princess Louise of Denmark. The meeting of the former royal neighbors was staged on Prince Erik's ranch at Arcadia near here where the Swedish visitors motored for luncheon.

"A wonderful place," the future King of Sweden observed. "I cannot think of what else a man might desire."

Prince Erik and the crown prince are first cousins and have been warm friends for many years. The two princes of the blood walked about the eight acre ranch and inspected the royal rancher's flocks of White Leghorns. The visit lasted over two hours.

WASHINGTON AND IDAHO GROWERS TO COOPERATE

BOISE, July 22. (AP)—Boise-Payette and Walla Walla prune growers may cooperate to effect wider distribution of their crop, and thus avoid glutted markets, announced Will H. Gibson, Idaho chairman of the central western regional advisory board, today. Boise growers will meet Friday or Saturday in the rooms of the public utilities commission, to consider overtures from Walla Walla, said Mr. Gibson. A committee probably will be appointed to negotiate with the Washington growers, going to Walla Walla the first of next week.

The Boise-Payette section and the Walla Walla district produce virtually all of the fresh prunes marketed in the country, those raised in other districts being dried. Ordinarily the Walla Walla district ships two weeks earlier than Boise, but this year crop conditions are such that the two districts will begin to roll their cars about the same time.

COLUMN COMMEMORATES ENTRY OF CIVILIZATION

ASTORIA, Ore., July 22. (AP)—The coming of civilization to the Pacific coast in the early part of the nineteenth century, was commemorated here today in the dedication of the Astoria column. This monument, which crowns a hill in Astor park, is entwined by sculptured pictures of the discovery of the Columbia river by Captain Robert Gray, scenes depicting the adventures of Lewis and Clark and the advent of the fur traders who founded Astoria.

Members of the Columbia River Historical exposition, which left Chicago July 17, took prominent part in the exercises of dedication, which marked the climax of their trip. Later today they started on their return and are due in Chicago July 29.

The Astoria column was designed by Electus D. Litchfield, of New York. It was erected at a cost of $150,000 contributed by Vincent Astor and the Great Northern Railway.

Hairless Mice

A number of hairless mice were exhibited before the Zoological society at London. They were caught in North Longoni. The mice are of pink fleshy color and except for whiskers are utterly devoid of hair.

"After All The Best Place to Trade"

TAX REDUCTION OUTSTANDING IN SESSION'S ACTS

Congressman Addison T. Smith Comments on Achievements of Last Congress; Expenditures Get Cut.

Income tax reduction legislation passed by the last session of congress is rated by Congressman Addison T. Smith among the most important achievements of the session.

In regard to the record of the congress Congressman Smith, who returned to Twin Falls last Tuesday to spend the summer and fall in Idaho, made the following statement:

Yields Unexpected Surplus

"The session of congress which closed recently was fruitful of a number of very important laws of far reaching benefit to the people of the country, the most important of which was probably the new revenue law reducing the annual taxes of the people over $300,000,000, and relieving nearly 3,000,000 persons who had formerly paid an income tax from paying such tax. Notwithstanding these reductions the new law has brought into the treasury a surplus over the amount anticipated of over $300,000,000.

"Governmental expenditures have been greatly reduced and further reductions will be made in the approaching session, based upon the estimates to be submitted to the president by the director of the budget, when congress reconvenes in December.

Extends Road Aid

"Another measure, enacted last session of great importance to the country is the law extending for two years the policy of federal aid in the construction of roads in the various states under which Idaho will be able to make great progress in developing her system of good roads.

"While legislation for the relief of agriculture failed of enactment because of the differences of opinion in regard to the particular character of legislation which would be helpful, the bill I introduced for the adjustment of water charges on government reclamation projects, passed both the house and senate and received the president's approval shortly before congress adjourned. Under the provisions of this bill the farmers on the reclamation projects will be relieved of charges amounting to nearly $28,000,000 dollars. The settlers on the Minidoka, King Hill and Boise projects in our state will receive the proportion of this charge off as recommended by the fact finding commission.

"Legislation was enacted liberalizing the pension laws under which the Civil war veterans and their widows, and the Spanish American war veterans and their widows and orphans will receive substantial increases of pensions automatically, while the World war veterans, their widows and orphans were granted nearly all the legislative relief urged by the American legion in their last annual convention.

Farm Situation Considered.

"It is confidently believed that the next session of congress will be able to agree upon legislation which will stabilize agriculture by extending our home and foreign markets for the products of the farm, which in addition to the co-operative marketing law enacted in the closing days of the session will bring prosperity to the farmers of the country.

Cross Country By Auto

"We are certainly glad to return to Twin Falls, although Washington D. C. is a very delightful place to live from October until May, the remainder of the year being generally quite warm and sultry," Congressman Smith remarked. "We left Washington soon after the adjournment of congress and made the trip across the country by auto, which we found a very comfortable and enjoyable method of travel this time of the year; although we encountered hot weather through Western Nebraska and Wyoming. The roads were mostly paved until we reached Iowa where because of construction of new roads it was necessary to detour considerably; but during the entire trip of 2500 miles we were delayed but little on account of poor roads. The Idaho road from the Wyoming boundary was in prime condition, excepting a detour around Bancroft, where the road is being graded and surfaced.

Twin Falls Best

"In all of our travels we found no country which looked more prosperous or where the crops were as good as in this section, and we passed no city as attractive as the Magic City of Twin Falls. It is most gratifying to observe the evidences of renewed activity *here since our departure last October* and the old time enthusiasm regarding the growth and development of the Twin Falls tract and surrounding country; largely due, no doubt to the construction of the American Falls dam, the completion of the railroad to the south and the prospective construction of the rim to rim bridge across Snake river north of the city. We were glad to find at the Savery hotel in Des Moines, where the Business and Professional Women were holding their national convention a splendid exhibit of Idaho products in charge of the delegates from Idaho, eleven in number, where literature advertising the Twin Falls country was being distributed, and where the Idaho ladies were active in explaining the resources and opportunities of our wonderful state."

MANY MARRIAGES

MEXICO CITY, July 22 (AP)—There has been a large increase in the number of marriage ceremonies in the Catholic churches, in addition to an unprecedented number of confirmations. Long lines waited for hours today outside the cathedral, and all the churches are becoming more and more crowded each day in apprehension of their closure on August 1.

Famed in Legend

Merlin was a famous British prophet and enchanter supposed to have flourished during the time of King Arthur, about 450 A. D. He was said to have been the son of a Welsh princess and a demon, and early displayed the gifts of prophecy and divination. He is said to have made King Arthur's round table with seats for 150 knights, and to have brought from Ireland the stones found at Stonehenge. Spenser refers to him in the "Faerie Queene," and Tennyson relates some of his adventures in the "Idylls of the King." The manner of his death is variously given, and his grave is shown at Drummelzier on the Tweed.—Kansas City Star.

First Accordion

The accordion, a small free-reed wind-instrument, was invented in Vienna, the capital of Austria, about the year 1829, by a musician named Damian. It was soon after introduced into England.

Circus Children Taught 'Three R's' In Little Red School House on Wheels

"The little red schoolhouse—on wheels."

That's where the children of Al G. *Barnes big four-ring circus, coming* to Twin Falls, Saturday, July 24, are taught "readin', writin' an' 'rithmetic" the same as other youngsters.

The little sons and daughters of the big show receive all the care and and schooling and the influences that mark the youngsters of the great "outside" and are as well bred. Their education is directed with painstaking care, while the health of the youngsters is carefully looked after by a school physician and trained nurse.

The "rolling schoolhouse" has an able principal and a strong faculty of experienced college graduates who provide the children with thorough courses in language, science, history, mathematics and practical subjects.

When the circus returns to its winter quarters at Culver City, the children are transferred to a little "red school house—only it's painted green and white—on the big eighty acre park just outside of Los Angeles. Here the children of the staff are given splendid instruction by graduates of several famous educational institutions of France, England and America.

Singing, drawing, modern writing and physical training are stressed in all grades. Manual training, domestic science and commercial courses are provided for students of higher grade. These volunteer instructors are employes of the show, traveling with it, and so the school bell rings on the road.

You'll see how happy these youngsters are when the big show opens here with the sensational feature, "Pocahontas in the Cour of Queens Anne," the gorgeous extravaganza that opens the big program. The cast includes a bevy of beautiful maidens, all former motion picture actresses, and three tribes of Indians.

Then there is the greatest movie star of them all—Joe Martin, himself.

DAN BANKS CANDIDATE AGAIN FOR TREASURER

Dan P. Banks of Caldwell, has announced his candidacy for re-election as Idaho state treasurer, subject to will of the delegates to the republican state convention.

In support of Mr. Banks' candidacy the Caldwell Tribune refers to statistics showing decrease in cost of operation of the state treasurer's office from $32,959 for the biennium before Mr. Banks assumed office in 1921 to $27,965 for the present biennium, while earnings of the office have been constantly increasing.

GRAIN PIT TO OPEN

NEW YORK, July 22. (AP)—Trading in grain futures on the New York produce exchange will begin Monday, August 2, B. H. Wunder, president of the exchange announced today. The wheat pit is now being constructed on the floor of the exchange, and will be completed before the middle of next week.

CELLO BEATS MORAN

NEW YORK, July 22. (AP)—Tommy Cello, of San Francisco, was awarded a judge's decision over Pal Moran, New Orleans light weight, in a 10 round bout at Madison Square Garden tonight. Cello was the aggressor throughout.

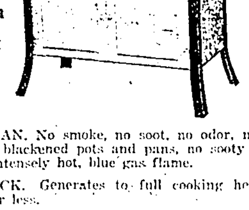
Why You Will Like The AIR-O-GAS Safety Pressure Stove

A Coleman Product



A Coleman Product

IT'S CLEAN. No smoke, no soot, no odor, no wicks, no cones, no blackened pots and pans, no sooty walls. Just a clean, intensely hot, blue gas flame.

IT'S QUICK. Generates to full cooking heat in three minutes or less.

IT'S SAFE. Tank can't be filled while stove is in use. Has positive double valve control over fuel at all times.

IT'S CONVENIENT. Makes and burns its own gas from the best grade of gasoline. Only one generation necessary. Master burner supplies gas for all other burners which light instantly with matches after master burner is generated. Gives real city gas service to any home.

IT'S EASY TO OPERATE. The Air-O-Gas Stove is simple in construction and simple in operation. Has only one working part, the generator, which is long lived and which can be easily removed to clean or replace.

ALL STYLES IN STOCK.

TWIN FALLS WEEKLY NEWS
Established 1904

Twin Falls News Publishing Company, Ltd., Publishers

Issued on Thursday of Every Week

Entered as second class matter, december 12, 1904, at the Postoffice at Twin Falls, Idaho, under the Act of Congress of March 3, 1879.

LIGHTNING RODS

The vast series of explosions and fires that destroyed the navy arsenal at Lake Denmark, New Jersey, was caused by a stroke of lightning. Charge $100,000,000 loss to that bolt.

There do not seem to have been any lightning rods on the buildings containing those perilous explosives.

A few weeks ago there was $10,000,000 worth of petroleum burned up at Los Angeles, set on fire likewise by lightning. There were no lightning rods on those tanks.

These two conflagrations, coming in quick succession, with several minor ones between, call attention to the strange neglect of simple, old-fashioned precautions against lightning.

Was Benjamin Franklin wrong about *it? Will the lightning rod not protect* a building, as it has been supposed to do for a century and a half, by conducting electric energy harmlessly from the air to the ground instead of letting it jump the gap from cloud to building in a big, devastating spark?

If there is any scientific argument against the lightning rod on principle, the public is not aware of it. The device has been discredited to some extent by the fake "lightning rod agents" of the last generation; but presumably a good lightning rod, while not a sure protection against electric storms, is the best protection yet known. If so, why not use them more generally on structures particularly exposed or containing particularly inflammable or explosive stuff?

FEWER DETOURS

Good news for the motor tourist! A number of middle western states are adopting a definite policy of preventing detours. Engineers and contractors are finding that it is by no means so inevitable as they used to think, that traffic should be sent the long way around every time a piece of construction or repair work is going on.

One state highway director issues explicit orders that where new bridges are being constructed, temporary bridges shall be built or the new bridges so located that traffic may continue crossing the old structures while the new ones are going up. Likewise in working on highways, half of the paving strip is to be built or repaired at one time, leaving the other side open for a single line of traffic.

"It costs the traveling public much more to go around a detour than the extra expense to the state to carry on the work and maintain traffic over the road at the same time," says the director. Doubtless this is true in a majority of cases. The policy might well be adopted in all local as well as state work.

Amsterdam School Teachers Selected

AMSTERDAM, July 22.—The teachers employed for the coming school term are Miss Helen Hilficker of Clover, for the higher grade work, and Miss Helen Waite of Twin Falls, for the lower grades.

Bob Caldwell with his family moved to Filer last week. Mr. Caldwell had been working for Kunkel brothers the past two or three years, but owing to the scarcity of water there was not work enough to keep him busy.

The El Pastoor family of this place and Mrs. Pastoor's father and mother, Mr. and Mrs. Bos of Twin Falls, left on Tuesday for a tour of the Yellowstone park. They also will visit friends in Bozeman, Montana.

Leonard, Margaret and Jeanette Peters were Sunday evening visitors with friends in Filer.

Mrs. Jake Meier, who has infection in her hand, caused from tearing the nail loose on her thumb, is reported improving.

Mr. and Mrs. Wes Markt and son Max, were visitors Friday with friends near Jerome.

Glenn Kunkel and Albert Pohlman returned on Friday from the Presbyterian young people's conference held at Bellevue last week.

Mr. and Mrs. Roscoe Walker and children of Filer were visitors Sunday with Mrs. Walker's parents, the A. E. Caldwell family.

Mrs. James Silence and children from Rogerson were Amsterdam shoppers on Thursday.

Mrs. Emma Kuhns is visiting her daughter, Mrs. John Farmer.

C. L. Kunkel and W. R. Skinner were Rogerson business visitors on Saturday morning.

The little son of Mr. and Mrs. J. V. Dean, who was quite ill last week, is much improved.

Our Observation

Notwithstanding that the main interest of many women is clothes, few, nowadays, are ever completely wrapped up in them.—Arkansas Gazette.

RAM SALE FOR IDAHO BREEDER

Wool Growers Association Executive Committee Approves Ruling to Limit Entries.

The annual ram sale conducted under auspices of the Idaho Wool Growers' association must be maintained as an institution primarily for the benefit of Idaho breeders, the association's executive committee in session here Monday decided by unanimous vote in endorsement of a ruling made by the association's officers and sales manager.

Under this ruling Idaho breeders who have participated in the sale in former years will be permitted to make a greater number of entries at the sale this year than will any other class of entrymen.

Total number of entries is limited to 1500. Applications exceeded this figure by about 25 per cent. In order to meet this situation the association's officers and sales manager divided entrymen into four classifications and made an arbitrary reduction in entries for each classification. Idaho breeders who have participated in the sale in former years were reduced 10 per cent; breeders of other states who have participated in the sale in former years were reduced 20 per cent; Idaho breeders entering the sale this year for the first time were reduced 35 per cent; breeders of other states entering the sale for the first time this year were reduced 40 per cent.

Entries from Canada and foreign countries were barred and applications for entries by persons other than breeders were promised scant consideration.

It was this ruling which the associations executive committee endorsed on Monday. The meeting was attended by all members of the committee, including Clyde Bacon, president; Ben Darrah, Shoshone, vice president; Roscoe Rich, Burley; James Farmer, Bliss, J. L. Driscoll, Boise and Robert Blastock, Filer, sales manager.

Thrown From Horse, Girl Hurt on Fence

HOLLISTER, July 22.—Miss Thelma Gertlar was thrown from a horse she was riding Sunday afternoon into a barbed wire fence, and her right hand was so badly cut that it required fifteen stitches.

Mrs. George Sallee is visiting relatives in Ottawa, Kansas.

Mr. and Mrs. A. S. MacCampbell and family left Friday for Berkeley, California, where they will join their three sons who have been there for some time. They intend to make their home there.

At the home of Mrs. R. E. Morehouse Monday evening, Miss Esther Kuhle, state university extension worker, organized two clubs. One, the Health club for children between the ages of eight and 13 years inclusive, with Miss Martha Fullmer, president; Arthur Knudsen, vice president, and Rhoda Pohlman, secretary. For the older girls the Economic club was formed with Miss Virginia Morehouse, president; Miss Helen Strickling, secretary. All girls over 13 years old are invited. The Health club meets once a week; the Economics club will meet the last Monday in July.

Mrs. W. P. Klusmeyer and Mrs. Casper Nygord left Thursday for Magic hot springs. They will be gone a week.

The Swastika campfire girls leave Sunday for a three days' camping trip in the mountains.

Mrs. J. H. Troendly, Sr. and Mrs. J. H. Troendly, Jr. will entertain the Hollister Star Social club at the home of the former Friday afternoon, July 23.

Miss Helen Strickling has returned from a two weeks' visit with relatives in Vancouver, Washington.

Albert Pohlman and Mr. and Mrs. John Farmer have returned from the Presbyterian Sunday school conference in Bellevue, Idaho.

Mrs. Marshall Barnhouse and Miss Arline Barnhouse called on friends in Kimberly Tuesday.

Henry Jones was in from his ranch at Goat springs Monday.

Rev. and Mrs. Ennis of Rogerson spent Wednesday in Hollister.

Maurice Guheen is under the doctors' care in Twin Falls.

Miss Vesta Wray has returned from a month's visit with friends and relatives in Ogden.

This is a busy week, especially considering it is summer time and warm weather. Monday the Health club met at the home of Mrs. Morehouse; Tuesday the Ladies' Aid society met in the Presbyterian church; Wednesday evening the Royal Neighbors met in regular session; Thursday afternoon is Campfire girls' meeting; Thursday evening grange meeting, and Friday afternoon Star Social club meeting with Mrs. J. H. Troendly, Sr. at her home.

Mr. and Mrs. A. J. Dunn, Robert Dunn, Miss Elizabeth Dunn and Mrs. H. E. Howes, all of Wallace, Idaho, called on friends in Hollister Friday. They looked after their property interests in this locality, and were on their way to Yellowstone national park.

POINTS WAY TO BIG SAVING ON FREIGHT RATES

Sherman Coffin of Boise, Idaho Rate Association President, Addresses Twin Falls Business Men.

Idaho's shippers and consumers, through a state-wide organization that "knows what it wants and does not want unreasonable things," can negotiate with the railroads adjustments and concessions that will mean a saving of many thousands of dollars annually to the state, Sherman Coffin of Boise, speaking in the interests of the Idaho Rate association of which he is president, told an audience of about 60 Twin Falls business men at a dinner meeting held Tuesday evening at the Rogerson hotel under auspices of Twin Falls Chamber of Commerce.

A state-wide rate association, the speaker indicated, would obtain for the state advantages similar to those obtained for Boise by the Boise Traffic bureau during the past 14 years. The Boise Traffic bureau, Mr. Coffin declared, secured for Boise the main line railroad completed by the Oregon Short Line about two years ago. About 10 years ago it secured adoption by the Short Line of a schedule of class rates which was presented by Leonard Way, former rate expert for the state public utilities commission and now a member of the staff of the interstate commerce commission. This schedule gave to Boise benefits which have not yet been extended to other Idaho centers, but which, the speaker stated, would be made applicable through the state if insisted upon by a state-wide rate organization.

Expensive Lack

Indicating disadvantages resulting from lack of a state wide rate organization, Mr. Coffin referred to the action of the interstate commerce commission recorded some two years ago which removed a surcharge of $11 a car on shipments of perishable products in iced refrigerator cars. Removal of the surcharge was petitioned for about four years ago by all of the states in the western region. Idaho and Arizona were not represented at the hearing on the petition, and the commission's order removed the surcharge in all states except Idaho and Arizona. This surcharge last year, Mr. Coffin said, cost $14,000 to the territory between American Falls and Wolser.

Referring to the "long and short haul" bill sponsored by Senator Gooding, Mr. Coffin stated that "in the form in which it was presented at the last session and in which it will be re-introduced at the next session of congress," it would make no charges in any freight rates, but that it would provide for equitable adjustments of freight rates to be made by the interstate commerce commission.

The Idaho Rate association, Mr. Coffin stated, was brought into being last fall at a meeting of Idaho shippers held in Boise on invitation of the state public utilities commission.

The association's program, Mr. Coffin stated, calls for an expenditure of $15,000 a year. Of this sum, shippers of Twin Falls will be invited to contribute $1200.

Guests Meet With Filer Kiwanians

FILER, July 22.—The Filer Kiwanis club met Tuesday for a regular meeting in the M. E. church basement with Dr. A. A. Newberry presiding in the absence of W. C. Nuxman, who is camping in the Sawtooth mountains. Guests of the club included John A. Barrett and John W. Graham of Twin Falls, E. R. Brooks of Buhl and Bert Cochran of Boise. E. R. Byrne was in charge of the music. Mrs. Claire Gillilan gave a piano solo, "The March From Tanhauser," followed by an encore. Juncan H. Shinn, secretary, announced that the district Kiwanis convention would be held in Logan, Utah, about August 22. Jesse Hainline suggested that a railing be built on culvert on state highway at southeast corner of Filer which suggestion was given to committee on public affairs.

Mrs. H. A. Gray and family of Roy, New Mexico, arrived Tuesday for a visit at the Scott McCleary home.

The families of A. O. Mailand and J. B. Brennan spent the week end at the Pines.

A party composed of Mr. and Mrs. J. A. Dement and family, James Tomlin and Miss Edna Allen motored to the Bruneau tract and return Sunday.

Lee Snelson, for several years postmaster at Filer, but for the past 10 years a resident of Klamath Falls, Oregon, is visiting relatives and friends here.

W. C. Nuxman and family are camping in the Sawtooth mountains.

CASPER BUSINESS MAN NOW SPEAKS FOR KARNAK

"Didn't Think There Was Such A Remarkable Medicine Made," Declares H. P. Bubb, After His Troubles Are Overcome By This Great Health Builder.

H. P. Bubb, of 840 Walcott St., Casper, Wyo., owner of the Casper Ice & Cold Storage Co., is still another prominent business man to come forward with his unqualified indorsement of Karnak after experiencing the beneficial results of this remarkable medicine in his own case.

"I tried for a long time to find such a medicine as Karnak, but didn't think it was made," declares Mr. Bubb.

"I had a chronic and long standing case of indigestion and heartburn from which I could get no relief. Why, after meals gas would form on my stomach in such quantities it would press around my heart till I thought maybe I had heart trouble.

"I also suffered with biliousness and constipation and would get so dizzy that I would see little black spots before my eyes. My tongue was always coated, I had a disagreeable taste in my mouth, and even at night I would wake up from the gas pains in my stomach. My nerves were on edge all the time, and I was so weak and rundown I could hardly put in a day's work.

"The hearty recommendations I kept seeing for Karnak led me to try this medicine, and I tell you it's done me a world of good. I have taken six bottles of this medicine now and can eat anything I want and never have a touch of indigestion, gas bloating or heartburn afterward.

"I am not troubled with constipation and more, that nervous feeling has disappeared, and that tired, worn-out feeling is all gone. I just feel like a new man in every respect, and I am glad to pass the good word about Karnak along to everybody I can. There's nothing else like this medicine."

Karnak is sold in Twin Falls by the Schramm-Johnson Drug Co., and all leading druggists.—Adv.

ATTENTION POULTRY RAISERS.

BRUINS SWEEP 3-GAME SERIES WITH BEELETS

Twin Falls Takes Last Contest of Set, 9 to 7; Zamloch and Rosenberg Hit for the Circuit; Bowers Good.

The Bruins made it three straight from Salt Lake yesterday, taking the final game of the series 9 to 7. Oscar Bowers pitched a nice brand of ball and had but one bad inning. In the seventh Zienke beat out a bunt. Bowers walked O'Shea and Read brought them both across with a single to right. Malloy got a homer that made it four runs. Dwyer got Gardner at first for the first out. Molle caught the Bruins flat-footed and beat out a bunt. Chadbourne singled and Molle went to third on it. Chadbourne stole second and Rosy threw out Molle at the plate on Crowley's grounder. Chadbourne scored on Nielsen's single. Zienke up for the second time ended the inning by grounding to Rosy.

Consistent Scoring.

The Bruins started the fireworks in the first inning, pushing three across and after failing to score in *the second gathered one in each of* the next four innings. The Bruins gathered two more in the eighth when Zamloch poled one over the fence after Thompson had singled for his tenth straight hit of the series.

The Bruins go to Salt Lake for a five-game series in three days, Saturday being Pioneer day, with a double header, and Sunday is also a double header day in the Zion city. Leonard Backer has been placed on the suspended list and will not make the trip. The second sacker has not recovered from his injury at Idaho Falls and will take a week's rest.

First Inning.

Salt Lake—Gardner walked; Molle hit into a double play, Maloney to Rosy to Fitz; Chadbourne flied out to Zam. No runs, no hits, no errors.

Twin Falls—Gorman beat out a bunt and went to second when Nielsen threw wild to first; Apperson sacrificed; Gorman scored on Thompson's single; Thompson scored and Zam went to third when Zam's single went through Gardner; Zamloch scored on Rosy's long fly to Chadbourne; Chad made a pretty leaping catch; Maloney singled; Dwyer walked; Fitzgerald grounded to Nielsen, who got Maloney at third. Three runs, four hits, two errors.

Second Inning.

Salt Lake—Crowley singled; Nielsen popped to Rosy; Zienke fanned; O'Shea fanned. No runs, one hit, no errors.

Twin Falls—Bowers grounded to Nielsen; Gorman flied to Chadbourne; Apperson grounded to Nielsen. No runs, no hits, no errors.

Third Inning.

Salt Lake—Read singled; Malloy singled and overran second and was caught, Zam to Rosy, and Rosy caught Read between home and third; Gardner lined to Rosy. No runs, two hits, no errors.

Twin Falls—Thompson got a two-bagger; Zam flied to Malloy; Rosenberg walked; Maloney hit by Malloy, *filling the bases; Thompson was out* at the plate and Rosy scored on Dwyer's grounder to Nielsen; Read overthrew first; Fitzgerald grounded to Molle. One run, one hit, one error.

Fourth Inning.

Salt Lake—Molle hit by Bowers; Chadbourne popped to Dwyer; Molle was out at second and Crowley was safe at first when Fitz dropped the ball; Zimmerman didn't see the play; Nielsen fanned. No runs, no hits, one error.

Twin Falls—Bowers grounded to Crowley; Gorman got a two-bagger; Apperson fanned; Gorman scored on Thompson's two-bagger; Zamloch popped to Crowley. One run, two hits, no errors.

Fifth Inning.

Salt Lake—Zienke grounded to Rosy; O'Shea flied out to Gorman; Read walked; Malloy walked; Read was out going to third when Thompson dropped the ball. No runs, no hits, no errors.

Twin Falls—Rosenberg got a homer; Maloney grounded to Nielsen; Dwyer walked; Fitzgerald fanned; Bowers grounded to Malloy. One run, one hit, no errors.

Sixth Inning.

Salt Lake—Gardner safe on Fitz's error; Molle grounded to Rosy; Chadbourne grounded to Maloney; Gardner scored when both Bowers and Rosy bobbled Crowley's hot grounder; Nielsen grounded to Maloney. One run, one hit, one error.

Twin Falls—Gorman got a triple against the center field boards; Gorman scored on Apperson's fly to Zienke; Thompson safe on one that O'Shea couldn't handle; Thompson was out at second and Zam went to second when O'Shea threw low to first; Rosenberg grounded to Nielsen. One run, two hits, no errors.

Seventh Inning.

Salt Lake—Zienke beat out a bunt; O'Shea walked; Zienke and O'Shea scored on Read's single, Read went to second; *Malloy got a homer scoring* Read ahead of him; Gardner grounded to Dwyer; Molle beat out a bunt; Chadbourne singled and Molle went to third; Chadbourne stole second; Molle was out at home on Crowley's grounder to Rosy; Chadbourne scored on Nielsen's single; Crowley went to third and Nielsen to second on the throw in; Zienke grounded to Rosy. Five runs, six hits, no errors.

Twin Falls—Maloney grounded to Nielsen; Dwyer was safe when Malloy dropped Crowley's throw; Fitzgerald fouled to Zienke; Bowers walked; Gorman grounded to Crowley and Malloy covered the bag. No runs, one hit, no errors.

Eighth Inning.

Salt Lake—O'Shea flied to Apperson; Read got a single that Dwyer knocked down over the bag; Malloy hit into a double, Dwyer to Maloney to Fitz. No runs, one hit, no errors.

Twin Falls—Apperson flied out to Zienke; Thompson singled; Zamloch got a homer scoring Thompson ahead of him; Rosenberg lined to Crowley; Maloney got a two-bagger; Dwyer grounded to Nielsen. Two runs, three hits, no errors.

Ninth Inning.

Salt Lake—Gardner got a two-bagger; Molle grounded to Maloney; Gardner scored on Chadbourne's single; Crowley flied out to Apperson; Nielsen popped to Maloney. One run, two hits, no errors. The box score:

Salt Lake.

Boston	4	11	0

Batteries: Wingard, Davis and Schang; Harris, Ruffing and Gaston.

BRUIN BACKSTOP HITS TEN TIMES IN A ROW

Peter Thompson, Twin Falls backstop, hit for the tenth consecutive time in the game yesterday with the Salt Lake Bees. This equals the record made by Hazen Cuyler of the Pittsburgh Pirates in 1925, and is within one hit of the world's record made by Tris Speaker in 1920, when the Cleveland chief rapped out 11 consecutive hits.

Ed Konetchy twice poled out 10 straight safe ones while playing for the Brooklyn Dodgers. If Thompson gets a safe one in the game today at Salt Lake he will have a chance to equal the world's record. In the last three days' play Thompson has poled out one home run, one triple, four two-baggers and four singles in ten official at bats.

MORE POWER, PETE!

PETER THOMPSON, Bruin catcher, who yesterday registered his third straight day with a perfect record at bat. Pete poled two doubles and three singles in five trips yesterday, bringing his total of consecutive hits up to 10, which is near the world's record.

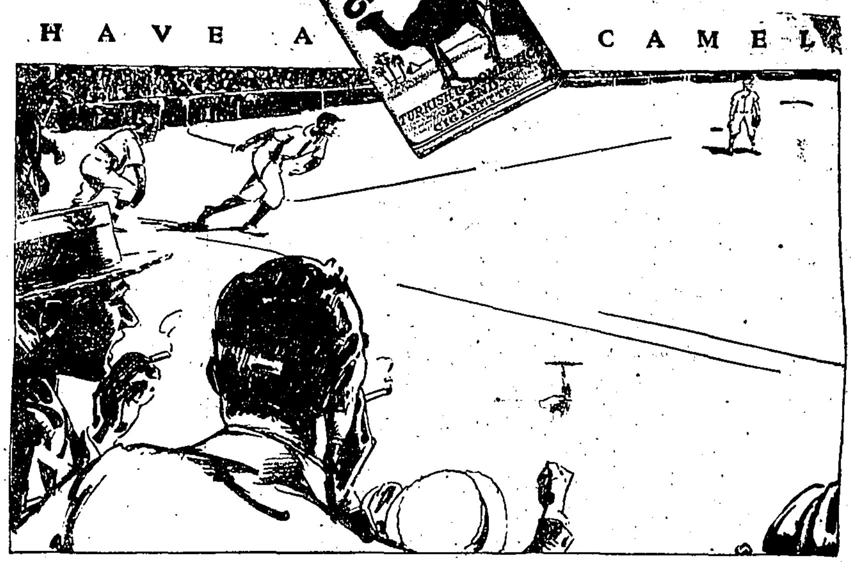
Idaho Department Store for Men



You can pay more—but there is no better

REGARDLESS of how much you pay, no other cigarette is so satisfying as a lighted Camel. No other is so good, so full of quality through and through.

No other cigarette ever made such a hit with the world as Camel. Millions cheered the arrival of this famous cigarette—because of its ever-dependable quality. Camel is overwhelmingly the world's favorite smoke.

Camel championship lasts through the years, because for satisfying pleasure, for downright enjoyment no other cigarette is within a mile of Camel. It's simply impossible to smoke enough Camels to tire the taste. They never leave a cigaretty after-taste.

And mere money has no voice in Camel preference. Millions who could easily afford to pay the highest price, buy and smoke only Camels. In all walks of life, "Have a Camel" is recognized as quality password to the utmost in cigarettes.

We invite you to try Camels. Into this one brand the world's largest tobacco organization puts the utmost that money can buy. If you want the tastiest smoke that ever came from a cigarette—

Have a Camel!

$10 BILL MAY HALT BOUT

CHICAGO, July 22. (AP)—A $10 bill binding a contract entered into by Jack Dempsey and Floyd Fitzsimmons with M. G. Clements, president of the Chicago Coliseum Athletic club, may block Tex Rickard's plans for staging a heavyweight fight between the title holder and Gene Tunney here in September.

Attorneys representing Rickard and Clements were in conference tonight to ascertain the validity of Clements' contract. Rickard said that in the event the contract was held valid by his attorneys he would stop negotiations for the bout, temporarily at least, and may decide to hold it in Jersey City after all.

FOUL BALLS
By Pudge.

That's making a clean sweep of the series. Glad to see Oscar Bowers get away with that one too. The big boy pitched a nice game of ball except for the seventh was not in much trouble.

Not so much of a crowd to send the Bruins away for a five-game series. Two double headers in Salt Lake this week end.

Chadbourne made a beautiful catch of Rosy's fly in the first inning. It was a long drive and Chad had to make a flying leap to spear it.

Zamloch, Malloy and Rosy all registered homers. Malloy and Zam drove in a man ahead of them but Rosy took all the glory himself.

The skipper made a find in Mike Maloney. Mike has handled 18 chances in the last three games without a bobble and some of 'em were hard to take care of. It looks as though Backer had lost a job.

Rosy is not doing so worse himself. John McCormack has been instilled with a lot of pep out there the last few days. His hitting has been mighty good also.

The Bruins got their usual brace of double plays again yesterday. It's a pretty fast infield at that if anyone should inquire. Yet some are yelling for the blood of an infielder.

Backer is left behind on this trip to get his sore knee back in shape. He may join the club at Pocatello the first of next week but it is not likely as Zam needs all the pitchers he can carry.

Five games in three days is a pretty tough bill to fill and the Bruins will come back to meet the Bannocks with a pretty well used bunch of chuckers.

Hultzinger, the new chucker that blew in from California, was not signed.

See you at the score board tomorrow. That's all.

Because a pipe bites that's no sign it's teething

DON'T GET THE IDEA old pipe's in his second childhood and cutting teeth just because he bites your tongue half off...

That "bite" means that there's something wrong with your tobacco: either, it isn't *mellowed* properly or it isn't *cut* properly... If it's the least bit raw or green it's naturally harsh and bitey... while *finely* cut or granulated tobacco burns too fast and smokes hot and raspy.

PIPE tobacco *must* be well-mellowed... it *must* be cut to burn slowly. And that's exactly why Doctors of Pipeology recommend Granger Rough Cut as a sure-cure for "pipe-bite."

For the famous old Wellman Recipe gives Granger a rich, spicy mellowness... a mellowness all its own. And being rough cut, its large flakes burn slowly and smoke cool... without the slightest trace of any bite... Granger is PIPE tobacco!

GRANGER
ROUGH CUT

The half-pound vacuum tin is forty-five cents, the foil-pouch package, sealed in an air-tight glassine wrapper, is ten cents

Granger Rough Cut is made by the Liggett & Myers Tobacco Company

VALUES DECLINE ON WHEAT MART

Larger Estimated Yield in Canada and Big Domestic Receipts Send Prices Down.

CHICAGO, July 22. (AP)—Big domestic receipts, together with enlarged estimates of the yield in Canada, did much today to accelerate wheat selling here, and to make values decline. Wheat closed unsettled 1 1-8 to 2 1-8c net lower, with corn 1 1-4 to 2 1-4c off, oats unchanged to 1-2 to 5-8c down and provisions varying from a set back of 17c to 5c upturn.

Increased arrivals of wheat southwest attracted special notice, and in particular a huge run of 977 carloads at Kansas City alone. In this connection it was pointed out that total receipts at primary domestic terminals today were 3,141,000 bushels, as against 2,173,000 bushels a week ago, and 1,782,000 bushels a year back. So far as Chicago territory is concerned, country sales of wheat were the largest so far this season, and there were indications that receipts here next week will be on a liberal scale.

Yields are Greater

All reports at hand poited to considerably greater yields than had recently been looked for. According to a Chicago trade authority, who is traveling extensively in the Canadian northwest, the three prairie provinces are now likely to harvest 23,000,000 to 48,000,000 bushels more than was suggested by te latest official forecast. Another private estimate, in this case from Kansa City experts, puts the Canadian prairie output far higher. Under such circumstances and with better weather conditions prevailing, wheat prices etumbled, influenced more or less too by declines in the stock market and uncertainty as to the financial situation in France. The break in wheat prices, however, brought in some export business, about 500,000 bushels, largely wheat at the Gulf of Mexico.

CHICAGO, July 22. (AP)—

CHICAGO, July 22. (AP)—Cattle—Receipts 14,000; weighty steers fully 25c lower; kinds scaling over 1,500 pounds without outlet; numerous loads unsold; some without bids; strictly choice heavies $10 sealing 1400 pounds; some 1616 pound averages $9.75; largely $9 to 9.75 trade on heavies; active trade in yearlings at $10.65; bulk vealers $12.50 to 13.50.

Hogs—Receipts 27,000; generally 25c lower; spots 40c off; shippers took 8000 and holdover estimated at 4500; top $13.75; bulk better grades 140 to 210 pound weights $13.25 to 13.75; bulk 240 to 310 pound butchers $12.25 to 12.90; bulk packings sows $10 to 10.50; majority desirabl eslaughter pigs $15.50 to 15.75.

Sheep—Receipts 8000; fat lambs strong to 25c higher; eight doubles 80 pound Washingtons $15; natives $14.50 eto outsders, bulk $14 to 14.25; some downward to $13.50 and below; culls stong at $11 to 11.50; sheep steady; ewes $5 to 6; top $7; two doubles yearlings $11.50; feeders steady; feeder yearlings, load lots $10.75 to 11.

LAMB SALES

DENVER, July 22. (AP)—(Special to The News)—Sheep—Receipts 900; few sales; native fat lambs steady at $12.50; range lambs of poor quality unsold; choice range lambs quoted $13.50.

STOCK PRICES DISPLAY ENTIRE FORM REVERSAL

NEW YORK, July 22. (AP)—Stock prices displayed another complete reversal of form in today's market, opening strong in apparent reflection of the more cheerful over-night news from France, and then breaking sharply in the afternoon on a revival of rumors, which again proved unfounded, that the New York federal reserve bank would increase its rediscount rate after the close. Closing quotations disclosed a long list of net declines ranging from one to six points.

A sharp rally in French francs, coincidental with a rise in French governmental and municipal bonds in the New York and foreign markets were construed as indications of returning confidence in the principal financial centers of the world in the ability of the new French government to save its currency from further depreciation and put through necessary fiscal reforms.

Selling of stocks, like much of the buying which had preceded it, was of a professional character, the leading commission and wire houses reporting relatively little speculative interest on the part of the outside public. One of the most important business developments of the day was the quarterly report of the Bethlehem Steel corporation, which showed total income in excess of the previous quarter but lower net income due to the fact that refunding expenses on a large note issue were charged off against second quarter earnings.

In view of the fact that net earnings for the quarter were equivalent to $2.01 a share on the common, some disappointment was expressed that no dividend action was taken on the common stock.

Wall street apparently is reconciled also to no special dividend action being taken by the United States Steel corporation directors at their meeing next Tuesday, alhough hope is still held out for some "mellon cutting" at the October meeting.

MONEY

NEW YORK, July 22. (AP)—Call money steady; all loans four; closing bid 4, time loans firm; mixed collateral 60 to 90 days 4 1-8 to 4 3-8; 4 to 6 months 4 1-2 prime mercantile paper 4.

LIBERTY BONDS

NEW YORK, July 22. (AP)—Liberty bonds closed

3 1-2s $101.

First 4 1-4s $102.

Second 4 1-4s $100.25.

Third 4 1-4s $101.3.

Fourth 4 1-4s $102.13.

U. S. Treasury 3 3-4s $101.19.

U. S. Treasury 4s $104.

U. S. Treasury 4 1-4s $107.

SUGAR

NEW YORK, July 22. (AP)—The raw sugar market was unchanged today, but the undertone was steadier, with a better inquiry. Sales were 50,000 bags of Cuban for prompt shipment, and 14,000 bags of Philippine afloat, to local refiners at 4.11 duty paid.

Covering by July shorts in the face of ten notices, and buying by trade interests, prmoted by the steadier tone in the spot market, accountaed for the strengh in raw sugar fuures, where final prices showed net advances of three to seven points. Trading was less active, with approximate sales of 29,000 tons. July closed 2.38; September 2.40; December 2.58; January 2.62 and March 2.61.

Continued good inquiry was noted in the refined sugar market stimulated by the warm weather, with prices unchanged at 5.50 to 5.70 for fine granulated.

BOSTON WOOL

BOSTON, July 22. (AP)—Transactions are extremely spotty. Concerns that have been having a steady business, although of moderate volume, on about all lines, are now getting demand for only limited quantities of relatively few grades. Many concerns have less business than last week. Indications from activities on the wool market do not point to any considerable volume of goods orders having been placed with manufacturers as a result of the light weight openings. Demand seems to be limited to current requirements of the mills.

English as Translated

In the American commerce reports some amusing examples of mistranslations are given. Thus in a Spanish speaking country "vacuum cleaners" was rendered "cleaners of emptiness," "iron washers" became "machines for washing iron" and "harness for a single-horse buggy" came out as "harness full of bugs for a bachelor horse."—American Mutual Magazine.

How True!

FATHER! HELP YOUR WEAK FRAIL CHILD

Easy To Gain 5 Pounds of Solid Flesh in 30 Days

He needs every bit of strength and energy to grow up and face the world and to combat the diseases that all children encounter.

McCoy's Cod Liver Oil Compound Tablets have helped thousands of the ones—many of them in worse shape than your little loved one.

Full of health giving vitimins and a combination of strength and flesh builders that do help the ailing child in just a few days.

They put on weight too. You can get 60 McCoy's Tablets for 60 cents at Schramm-Johnson's or any druggist anywhere. Try them for 30 days and if you are not joyfully satisfied with results get your money back. Ask for McCoy's—they are sugar coated and children love to take them.—Adv.

The GIRL IN THE MIRROR

by Elizabeth Jordan

The graceful writer, Elizabeth Jordan, who has utilized the experiences and observations of her long career as a newspaper woman in New York as a source for fiction plots, is never better than when dealing with romance and adventure in a setting of mystery. Here is one of her most pleasant and satisfactory stories. The characters are delightful, there is a thrill on almost every page and an absolutely unguessable mystery that is not cleared up until the very end.

WILL BE PRINTED SERIALLY IN

WAR MOTHERS CLOSE SESSION WITH ELECTION

Mrs. David Brown of Twin Falls Named New President of Idaho Organization; Idaho Falls Gets Next Meeting.

With election of officers and selection of Idaho Falls as the place for the next meeting in October, 1927, American War Mothers of Idaho closed two days' sessions of their fifth biennial convention here Thursday afternoon.

Mrs. David Brown of Twin Falls was elected state president to succeed Mrs. C. A. Woelflen of Lewiston, retiring president, and other officers were elected as follows: First vice president, Mrs. John Anderson, Pocatello; second vice president, Mrs. Irvin Fairweather, Wallace; third vice president, Mrs. Frances Hall, Salmon; fourth vice president, Mrs. Emma Sloan, Montpelier; recording secretary, Mrs. H. H. Eaton, Mountain Home; treasurer, Mrs. Mary F. Dawson, Idaho Falls; auditor, Mrs. [illegible]; custodian, Mrs. [illegible]; [illegible], Mrs. James Scott [illegible]; chaplain, Mrs. W. D. [illegible], Pocatello.

Sets New Mark.

The convention which was pronounced one of the most successful and the most largely attended in the history of the Idaho organization, was marked by two outstanding features—attendance of Mrs. H. H. McClure of Kansas City, national president, and 12 other officers of the national organization, and the dedication of the [illegible] in Twin Falls cemetery by War Mothers of Twin Falls county as a memorial to the county's sons who sacrificed their lives in the world war.

Date of the next state convention was advanced under provisions of amendments to the constitution and by-laws which were amended at this meeting to conform to recommendations of the national organization, so that the next meeting will be held 15 months hence and subsequent meetings will be held biennially thereafter.

Receives Reports.

During Thursday's sessions the convention received the annual reports of the officers of the state organization showing substantial progress toward the objectives for which the organization of mothers of world war veterans was founded. The reports of the 11 local chapters organized in the state were submitted to be made a part of the published proceedings of the convention.

Resolutions adopted by the convention expressed appreciation of the presence of national officers at the sessions and of entertainment and arrangements made by the Twin Falls chapter for the accommodation of delegates [illegible].

Closing [illegible] a [illegible] by Mrs. [illegible] to order by the state president, and invocation by Dr. H. [illegible] of the Methodist Episcopal church.

Selection of the next meeting place involved [illegible] invitations extended by Idaho Falls and by Lewiston.

EASTERN IDAHO FAIR BOASTS NEW FEATURES

The Eastern Idaho District fair, held at Blackfoot, this year is scheduled for Tuesday, Wednesday, Thursday and Friday, September 21, 22, 23 and 24.

BREVITIES

On Business Visit—H. C. McCleary of Pocatello, Idaho superintendent of Schramm-Johnson drug stores, spent yesterday afternoon in Twin Falls on a business visit.

Returns to California—Mrs. J. L. [illegible], who has been visiting her sister, Mrs. A. E. Elfer, for several weeks, left Wednesday evening for her home at Redding, California.

To Kansas City For Visit—Mrs. Oyna Buchanan and small daughter, Mary Alice, left Thursday evening for Kansas City, Missouri, where they will visit relatives and friends for several weeks.

Will Attend Reunion—Mrs. J. H. Fosbaugh will leave this morning for Portland for a family reunion there with her brothers from Los Angeles and Spokane. She expects to be away about three weeks.

Gone To Portland—Mr. and Mrs. "Chet" Fuller left last Tuesday for Portland where they expect to be for the next six weeks. In their absence Mr. and Mrs. John Updegraff are caring for their place.

Will Attend Convention—Mr. and Mrs. Willis J. Young expect to leave Saturday morning for Denver to attend a convention of the representatives of the insurance company with which he is connected.

Leave For Coast—Mrs. T. J. Woods, Miss Margery and Tom, Jr. left Wednesday for California with Mr. and Mrs. A. M. Gebelt, of Los Gatos. Mrs. Woods and Mrs. Gebelt are sisters. They expect to remain for some weeks.

Here To Form Partnership—Dr. H. E. Maxwell, chiropractor, with his family has arrived in Twin Falls to form a partnership with Dr. C. S. Wyatt, taking the place of Dr. Davis who has returned to his former home in Portland.

On Vacation—Dr. J. E. Langenwalter, Twin Falls county physician, with his family is spending a few days vacation in the Sawtooth mountains. During his absence Dr. C. A. Emer has been designated by the county commissioners to serve as county physician.

On Visit From Mexico—Lynn Beauchamp, cashier in Tampico, Mexico, for an industrial concern, has returned to spend a few weeks' vacation with his parents, Mr. and Mrs. J. C. Beauchamp, and to make an outing excursion with Rod Brigham of Moscow to Yellowstone park.

Here For Summer—Mr. and Mrs. Clarence Elliott have returned for the summer from the University of Southern California where Mr. Elliott has completed his second year's study in the college of dentistry. He will be employed during the summer by the Stepken Cylinder Grinding company.

Leaves Hospital—R. M. Murray, Spokane bridge engineer, who holds the franchise for construction of the Jerome-Twin Falls county bridge across Snake river, was discharged Thursday from the county general hospital where on July 6 he underwent an operation for sudden attack of appendicitis. He will remain for a few days at the home of Mr. and Mrs. Dan Cavanaugh.

C. WILKINS, a members of the law firm of Wolfe & Wilkins, I. D. Bldg., Twin Falls, hereby announces his candidacy for the Republican nomination for Prosecuting Attorney. —Adv.

GRANGERS WANT COAL RATE CUT

H. F. Samuels, Speaking Under Auspices of Farmers' Organization, to Come Here.

One of a series of public meetings arranged by the Idaho state grange in furtherance of a movement for modification of freight rates on Idaho coal will be held in Twin Falls on Thursday, July 29, at 2 p. m., according to advices received here last evening.

The state grange, it was announced, has selected H. F. Samuels, one of its members, to present the freight rate matter at these meetings.

In explanation, of the movement, the following statement was authorized by W. W. Deal, state grange master:

"The state grange of Idaho has decided to call public meetings to inform the people of Idaho of the farmers' movement for a fair and reasonable freight rate to the people of Idaho on Idaho coal. At each of these meetings, after a thorough discussion, we hope to pass a resolution asking the public utilities commission of Idaho to order and establish a reasonable, fair and just freight rate on Idaho coal as set forth in the resolution unanimously passed by the state grange of Idaho.

Other meetings of the scheduled series will be held in this region on Wednesday, July 28, at Jerome at 11 a. m.; Rupert at 3 p. m., and Burley at 8 p. m.

The first of the series of 25 meetings was held Thursday at Blackfoot and the last of the scheduled meetings will be held at Pocatello on August 4.

L. O. O. M. NOTICE

Picnic postponed to Sunday, August 1, at Filer Fair grounds. All Moose and friends invited. Roy Cubit, Secy.—Adv.

Twin Falls Region Enjoys Cool Spell

Weather forecast for today—Fair.

While eastern cities are in the grip of one of the worst heat waves in years, the Twin Falls region is enjoying cool weather—much cooler, in fact, than it was here when the Atlantic coast was only a little warm.

High for Thursday was 85 degrees, two points lower than the maximum for Wednesday. Night before last, while extremely cool, was five degrees higher than the preceding night. Minimum was 47 degrees.

When you have poultry or eggs for sale, call 175.—Adv.

WHY NEGLECT YOUR TEETH AT THESE PRICES.

Good teeth, whether natural or artificial, are essential to health and good appearance. The mouth is the gateway to good health. Good care of your teeth is important.

If you don't want to keep fighting off sick spells, then put your teeth in a healthful condition and keep them that way. You will then enjoy the comfort and satisfaction of confidence and good health.

When you consider the important part your teeth play in your every day life for health and happiness, it is just as important to use discretion, when they need attention, in placing their care in the hands of one whose knowledge and application of latest methods insures you absolute cleanliness and perfect preservation.

You are assured of every courtesy, consideration and care while receiving dental attention from me. You are assured of quality and service in my dentistry and you are assured of time-saving.

The healthful results, the beauty, the care and attention, and the price should be of interest.
