Watching The Scoreboard

(By United Press)

Yesterday's hero, Ed Walsh, who was masterful pitching enabled the Philadelphia Athletics to beat the New York Yankees, 5 to 4, at Philadelphia. Allen allowed 10 hits, two of them home runs, but kept them in the park, well scattered, so he was effective. The Detroit Tigers won the game in the third inning in the American League.

Alphonse Thomas, after holding the St. Louis Browns to four hits in eight innings at Chicago, blew up in the ninth, allowed four men to score and the White Sox were beaten, 4 to 1. The Browns advanced to second place in the league standing.

Ed Morrill held the Washington Senators to five hits at Boston and also did. Sox scored their 20th victory of the year, 4 to 1.

Pete Runnels in the second inning paved the way for Dorsett's 2 to 1 victory over Cleveland at Detroit.

Hoppers Horsey clouted a home run in the eighth inning at St. Louis yesterday and "Red" Evers, Cubs cut out of the line a victory, 5 to 4, over the Cardinals.

After spotting Boston a three run lead at Brooklyn, the Indians rallied late to win, 3 to 2.

Alone left Cincinnati to face hits at Pittsburgh and the Pirates maintained their league leadership with a 6 to 3 victory over the Reds.

BUFF FIGHTERS READY TO SWAT

Contestants Completing Training for Events July 3; Buckaroo Is Head Line Man

Buff, June 23 (Special)—Contestants for the American Legion boxing contest to be held in this building opening July 3 at the Holesy grounds are rapidly rounding up in shape. Considerable interest is being shown by the fans and according to Dr. J. G. Vetter, matchmaker, this promises to be the best card ever in this city.

Bill Travis, Spokane, Washington, weight 147, and Ray Condon, "Batter" "Batter" "Batter" weight 134, in a 10 round bout will constitute the main event. Both boys are in the condition and each one is confident that he will stop the other before the tenth round.

The semi-final, a six-round event will be between Kid Kelly of Boise, weight 141 and Bert Hansen of Hazelton, weight 132. These boys come highly recommended and from the best information will almost equal the main event. The Capital City has had a long string of victories to "be credited" and has a reputation for being a "buckaroo" or. Hansen, the river boy will give a mighty good account of himself, having won most of his battles by the K. O. method.

The first preliminary will be a six round match, that promises to be a real battle between Ed Terrell of Rupert and George Hernandez, Shoshone's fighting Mexican. These boys are both in the "fight" and are "licensed" fighters, and will furnish plenty of action in this go. Ed Terrell will weigh in at 127 and the Mexican Assassin will weigh in at 125.

The curtain raiser will be a four round event between Johnny Brown of Thul and Rusty Lyons of Molen Valley and will furnish plenty of fun for the crowd. These boys are very evenly matched and it is reported that this event is staged primarily to settle an old score between these boys.

THAT'S A CALAMITY

Smith: Have you ever been in a railway accident?
Jones: Yes; once I was in a train and we went through a tunnel and I kissed the father instead of the daughter.—Anawer

Local News in Brief

Play Stock Reservoir

A committee of Southern Idaho Fish and Game Association met under the chairmanship of W. H. Feltz, will Sunday visit Salmon Reservoir to study local conditions and the possibilities of stocking the reservoir with Mackinack trout, to be received from the government through Congressman Addison T. Brown upon his return to his home. It is conditional warrants, to be returned to the reservoir in August when they are about 1 1/2 inches in length. These trout will be kept here until they are about 2 1/2 inches in length and then released in the reservoir.

Fish Are All Hatched

Practically all of the fish eggs

at the hatchery of the Southern Idaho Fish and Game Association, are now hatched out. There are about 300,000 in the rearing ponds outside and the balance of the half-million are in the rearing tanks. Sunday will be paid day at the hatchery when volunteers are asked to help paint brushes and complete the painting of the hatchery buildings. Feltz will be engaged every day to guest day at the hatchery. But Mr. Ishiguro, who in a sharp voice he would rather have the people come on Sundays to visit as the fish are then in "dress parade".

Parallels Fisherman Trypt

Let D. Mead of Pocatello, who is licensed in the fish hatching business for commercial purposes there, visited in Twin Falls today to study operation of the local hatchery. He will visit other hatcheries here in his series. Mr. Mead started the hatchery business on Blaine creek as a sturgeon, he stated but now has moved to his own hatchery. He has a lot of 20,000 each this year. The fish reach commercial size within 10 months, he said.

Johnny O'Brien Arrives

Johnny O'Brien, the prize fighter, will arrive in Twin Falls tonight. He is a former champion in the American Legion card here July Fourth. He arrived in Twin Falls last year by automobile. O'Brien worked at briefly before the fans last night. He is a former champion in the American Legion card here July Fourth. He arrived in Twin Falls last year by automobile. Warning Issued Against Worms in Local Fruit

Growers of apples and pears over the fruit are urged to make every effort to keep the worms from their fruit by the use of some of the best material available. It is stated that the worms are very common and are found in the fruit of all varieties of apples and pears. The worms are very destructive and cause a great deal of loss to the grower. It is advised that the fruit be sprayed with some of the best material available to keep the worms from getting into the fruit.

Daily Poem

THE SEA
 By Ethel Kelley
 It ain't the sight of it I miss, I land know!
 It's not the kind to drop my work and sigh,
 And fly a dash for water by!
 To say "How pretty" to a cliffside rose,
 Or "How the light beyond the meadow glows!"
 Day out and in I didn't even try
 To get down to the shore. I wonder why,
 I thought 'twould always be there, I suppose.
 Now that I've moved into a house in town
 Who thinks I mean to take up my old
 And all conveniences right at the door.
 You wouldn't think my appetite would go down
 AS if it was a man of left behind.
 And him and I weren't married any more.

PROGRESS HELPS

IT IS worthy of more than passing notice that four cherries grown in this district are to be processed locally this year on a commercial basis for the first time. Two local plants have announced that they are prepared to start their first operations when the cherries are expected to be under way in real earnest during the coming week.

A year's operations should give us a better appreciation of the worth to the community of these new ventures in our midst than we have now. On the face of things the advantages now apparent are worthwhile.

For one thing growers large and small will not have to fret about railroad shipments and the attendant worries. For another, pickings of fruit will not have to be arranged to make exact carloads. Many small producers who heretofore have not been able to avail themselves of the outside markets because of the smallness of their volume can have the same chance to sell as the carload producers.

Several persons will have employment in the local plants during the period of processing. The assurance of a local market probably will also result in more work for pickers.

This community has had dreams of processing fruit on a commercial scale for many years. The ice has been broken, and we have a right to expect further developments along the same line as time passes.

A SMITH SHOWS THE WAY

MUCH has been said and written about the indifference of the public to law enforcement, but it took Phillip Smith of Burley to point out a solution to the problem. Mr. Smith is a private citizen, but when he saw a law broken he exercised his rights, arrested the violator and saw that justice was served.

Last week Mr. Smith was going along a street at Burley and saw a man driving a car while under the influence of intoxicating liquor. The drunken man was handling the car in a reckless manner, endangering the lives and property of Burley citizens. Realizing that the situation demanded prompt action, Mr. Smith took it upon himself to place the offender under arrest and led him to the police station. The offender was found guilty and was fined \$100 and costs of \$15.50. The court then commended Mr. Smith for performing an act of good citizenship.

Few people realize that as private citizens they have just as much power to place a law violator under arrest as does a duly hired and bonded policeman. Anyone seeing a crime committed is qualified, under the law, to make an arrest and swear out a warrant. Too many people are laboring under the belief that only officers can perform acts of enforcing the law when in reality these officers are only the "Georges" hired by taxpayers who wish to "let George do it."

If more people will follow the example of Phillip Smith and perform their duty when they see the laws of the nation broken there will be fewer crimes, less property carelessly damaged, fewer automobile accidents, less taxes needed for law enforcement, and less said and written about the public's indifference to the problem. Mr. Smith is indeed to be commended.

GOLDENROD IS ABSOLVED

The goldenrod is one of the most attractive features of the summer landscape in the American middle west. Yet, to many people, it is not a beauty at all, but a blight and a curse—because of hay fever.

Recently a number of physicians have suggested that the goldenrod may not be as culpable as we have supposed, and now comes O. C. Durham, botanist, with an article in the current issue of The American Druggist, to say that goldenrod is almost entirely blameless.

Extended tests, he says, have proved to him that 90 per cent of all hay fever is caused by the ripened pollen of the common ragweed, which incidentally, is grown on practically every square mile of land east of the Mississippi.

Goldenrod's pollen, says Mr. Durham, is too heavy and resinous to be carried on the wind. Consequently, it cannot be blamed by the hay fever sufferer for his troubles.

THE GAS TAX GOES UP

THE motorists of the United States are paying heavier taxes now than ever before—and there isn't any reason for believing that their taxes will not go still higher in the near future.

In 1928, according to figures compiled by the Central National Bank of Cleveland, the gasoline tax cost American motorists \$305,234,000—18 per cent more than it had cost the year before, and something like 700 per cent more than was collected as recently as 1923.

It is only fair, of course that the man who drives a car should contribute to the maintenance of the roads he uses. Yet in some states the legislators have shown a tendency to look to the gasoline tax as an always available means of increasing the state's revenues. Right now, it would seem, the motorist is paying just about enough.

There are differences and differences: One that has a timely interest right now is that individuals at Buhl have subscribed in excess of \$6,000 for a War Memorial building and armory, and while the people in the west end city have been doing that there is street talk of an injunction against the local American Legion post, or the carnival company that will show here next week for the Legion, to prevent operation of the carnival under a state law passed about 11 years ago and never enforced once. The Twin Falls Legion post has been working for several years to get a Memorial building here without going out and asking the public for direct donations, and the rumors that an injunction may be sought against the carnival and thus cripple them in their efforts have had the effect of making Twin Falls Legionnaires very ruffled in temper, to put it mildly. There are differences and differences.

FORESTALLING UNEMPLOYMENT BY ANTICIPATING IT

(Spokane-Review)
 William T. Foster, a recent Spokane visitor and speaker at general important educational and commencement in the northwest, is the author with Wendell Gatchings of an article in the July Century in which they analyze President Hoover's suggestion that public expenditures for building be increased in full years for the purpose of sustaining business and preventing unemployment. They give the proposal complete endorsement and dispose of some of the criticisms directed against the idea.

The plan does not contemplate any unnecessary building merely to furnish jobs to men out of work. It calls for long-range planning of public works with blueprints, specifications and contracts ready for the time when the emergency arises. It contemplates a revolving credit to be ready when needed and a better system of measuring economic trends through the extended use of index numbers.

The time for public building would be determined by these measurements and not by politics. Facilities would be substituted for option, release for guesswork and a better political expedient. Today the 1920 census is to keep this in mind. For the first time, the census will include statistics on unemployment.

Ten states already have taken steps to fall in line with the Hoover suggestion made at the conference of governors in New Orleans last November. Many unemployed are not the type of labor to be neglected and it is pointed out that such works will attract those fitted to them and will keep them out of fields already crowded. Their wages in public work will be distributed in many ways. Industries and retail shops, theaters and other business lines that immediately feel the effect of unemployment.

CHURCH SPEAKER STRESSES UNITY

Buhl, June 23 (Special)—The interest in the South Idaho Christian Missionary convention still grows. The Buhl morning session was given to the program. Those participating were Roy W. Thue recording secretary, Roy W. Thue, secretary, Mrs. J. E. Lohdell, the wife of the president of the convention, Miss Grace Gonic, missionary from The P. L. Cook and Charles Helen Boyle of Chicago.

The afternoon session was put by the women's department, Mrs. E. M. Staley, presiding, Mrs. J. E. Lohdell of Twin Falls, Mrs. E. K. Jensen and Miss Grace Young, missionary to Thule, each had part in this interesting session. The evening session was as the other evening sessions, devotional, special music and an address, Thursday evening Mortimer Lawick led the devotional fifteen minutes, a Bible quartette "Our God is Near or My Home" and Erwin Tomlinson with Mrs. G. L. Lohdell sang a duet "Come Into Me and Rest." The address was given by Charles Helen Boyle of Chicago. He stressed the need of unity, using the words, "They were all with one accord in one place, as a foundation for his lecture. This lecture reached the high standard maintained so far by this renowned evangelist in the lectures delivered in Buhl.

Prepare Your Child Now for a Healthful School Year

UNWISE TO NEGLECT TONSILS OR ADENOIDS

Tonsillitis and Enlarged Adenoids the Most Common Cause for School Absence and Backwardness, So Correct Them During Vacation.

By ROYAL S. COPELAND, M. D., United States Senator from New York, Former Commissioner of Health, New York City.

THE school year is at a close. Many children were not promoted because of ill-health during the past term. The sad thing is that in most cases the illness could have been prevented, or the defect, whatever it might have been corrected.

One of the most common causes of school absence is tonsillitis. There is hardly a day that my mail does not include letters from parents about the way their children breathe. They mention that the youngsters snore or fail to hear properly. This is not surprising.

Most children have very sensitive tonsillar tissue. With some of the little patients the tonsils are so large that the child is unable to breathe through the mouth.

The tonsils in a normal throat are not large. They are found on each side of the throat, one on each side of the uvula. In the middle, if enlarged, the tonsils are enlarged, perhaps to the size of walnuts.

Between the nose and the above parts of the throat, they may be found open, in the location where adenoids develop. These are called adenoid vegetations.

DR. COPELAND, masses of flesh in appearance like the tonsils, shape the upper part of the throat.

As the adenoids grow they fill up the pharynx just as a tonus would. This makes the breathing through the nose very difficult and causes the child to breathe through the mouth.

Tonsils appear to be removed if they are diseased, but in fact they are not. Adenoids are situated in the upper part of the throat, and are not removed.

The Slipper Mystery

By Truda Dahl

"N"ot what in the world is this thing that I see? I'm quite sure I've never seen anything like it in all my life!" And the poor little mermaid looks bewildered and perplexed over her find. And no wonder, for whereas the world in her palace shells would there be any need for the dainty little slipper that had floated away down through the green depths of the water?

Camping in Comfort Requires a Little Forethought

By ELEANOR ROSS

CAMPING is the staple life, not the uncomfortable life. And yet so many amateur campers think they've captured the secret of free, outdoor life when they discard all conveniences. A little experience, and one soon learns that the best way to make camping for a few days or a few weeks really free and comfortable is to include some of the conveniences of the equipment.

Helpful Advice to Girls

By ANNIE LAURIE

DEAR ANNIE LAURIE: I had been going with a boy about six months when he asked me to marry him. I was very seriously of it because I really liked him and he was a very nice boy. But I had a very bad feeling about it. I had a very bad feeling about it. I had a very bad feeling about it.

The Stars Say—

By GENEVIEVE KEABLE

BEAUTIFUL ARMS AND SLEEVELESS FROCKS

Discolored, Wrinkled Elbows Detract from One's Ensemble of Beauty, Says Miss Huddleston, Suggesting a Bleaching and Massage Treatment.

By JOSEPHINE HUDDLESTON

WITH sleeveless frocks being worn at all hours of the day, it has become absolutely necessary to cultivate a bit of arm beauty. If we are to look our best, over-fat and over-thin arms need special care and attention, as well as the elbows which will certainly appear discolored and wrinkled.

Elbow massage and bleaching takes but ten minutes time each day for one week. Whether the elbows appear too scrawny, or whether they appear too heavy, a nourishing cream should be massaged over them each night. First, because it keeps out the sun, and second, because it keeps the skin soft and pliable.

See on Fifth Ave. By Florence Ross

A spray of red roses falling over the left shoulder, distributed at the waist, the dress is a lovely affair. The dress is a lovely affair. The dress is a lovely affair. The dress is a lovely affair.

Words of the Wise

"Beware, beware for yourself if you are a man of words. Beware, beware for yourself if you are a man of words. Beware, beware for yourself if you are a man of words. Beware, beware for yourself if you are a man of words."

A Fashion Model's Diary

By GRACE THORNLIFFE

She Talks About a Summer Jacket Costume.

THIS boy friend and I have been going around with a couple of friends and Tom Smith—who lives in the suburbs. We have been invited out for the weekend. They have planned a Saturday night celebration, which will consist of a party and a dance. I am going to wear a new dress that I bought last week. It is a very nice dress, and I think I will like it.

Musicians Triumph In Artistic Recital

Performances of artistic interpretation and marked talent were given by Miss Charlotte Vogel, pianist, and Miss Helen Parrott, violinist, when they appeared in joint recital Thursday evening at the Business and Professional Women's club rooms. Miss Vogel, in the rendition of her selected number, "Lullaby," showed perfect technique, and her husband, Carl Claus at the University of Idaho, also has two hundred friends of the club rooms assembled for the past two years. Miss Vogel, the daughter of Mr. and Mrs. H. E. Vogel, has been a student of Missa Bogdanowicz at Chicago Musical college. Miss Parrott, the daughter of Mr. and Mrs. R. A. Parrott, is a pupil of the Carl Claus at the University of Idaho.

Arthur Henderson, of Willows, California, is spending the summer with his grandparents, Mr. and Mrs. L. N. Henderson.

CONCLUDES VISIT

Mrs. Edward Elliott returned last evening to her home in Los Angeles following a visit with her parents, Mr. and Mrs. A. J. Bradford.

LIMITATION OF SUGAR IMPORTS IS REQUESTED

WASHINGTON, June 28 (UP)—Limitation of Philippine sugar imports into this country to 700,000 tons a year with a preferential tariff rate of 50 per cent on imports above that amount was urged before the senate finance committee today by David A. Ripps, president of the American Sugar Cane League.

WASHINGTON, June 28 (UP)—A sliding sugar tariff rate based upon the principle of the proposed increased rate to the home bill and being prepared as a substitute for the provision by Chairman Smoot of the senate finance committee, whose suggestions are usually adopted in the tariff bills he handles.

The new scale would be designed to raise the tariff when wholesale sugar prices are low and to lower the levy when prices are high. Generally, it is expected to keep the world rate around 3 cents a pound and the Cuban rate at about 21 cents. It is being written as a compromise to be offered by advocates of high sugar duties to those complaining that the flat rate in the home bill will increase the cost of sugar in the American consumer anywhere from \$20,000,000 to \$144,000,000 a year, the great variation resulting from the fluctuating viewpoints as to how much of the bill the congressman will sign.

BABY SHOULD BE SELDOM KISSED EXPERT CLAIMS

EVANSVILLE, Ind., June 23 (UP)—There is no such thing in medicine as the "harmless" mouthed kisses often infrequently according to Dr. Caroline Hodder of a series of lectures at the Foundation. Dr. Hodger is delivering a series of lectures on child health in a room here.

Rainstorm Forces Plane to Descend

CLEVELAND AIRPORT, Cleveland, June 28 (UP)—The end-of-the-end flight plane City of Cleveland, which took off at 7:16 p. m. last night, in an attempt to establish a new retiring record, was forced down by a blinding rainstorm at 11:40 a. m. after the plane had flown 1,000 miles.

Making "Whoopee"

We are hearing a lot about different types of "whoopee" and it seems that some business concerns as well as individuals, indulge in the habit of making "whoopee." Some of our chain store competitors conduct their business along such lines. Instead of having conservatively low prices from day to day, such chain food stores "whoop it up" by offering big specials for Saturdays, hoping thereby to get the food buyer excited and causing him or her to rush to their stores while under the "whoopee" influence.

A Solid Foundation

The O. P. Skaggs System Stores are conducted on altogether different policies. We have from day to day established a good dependable, solid reputation. People of our communities have learned that they can depend upon getting conservative, low fair prices every day in the week at any O. P. Skaggs System Store. Our volume of business is regular and steady, whereas the "whoopee" type of merchant is compelled to rebuild his volume every week end. We know you can readily realize that the O. P. Skaggs System policies are fair and just to all concerned.

WASH TUBS

Another run in your nose, dearie? Well, my officers, we're going to get you out of there, Charlie.

Where in the world are you going, you going to put them there?

Oh, I'll put them all right!

Just want you to know, your nose is getting a little red, and you're looking a little green.

Who's der funny old fossil in der red? It's me, Charlie!

Wash is there, too... I pressed it to kill, and holding his nose as high as anyone.

Here'll be a hot time in the old town this evening, everyone is having, and the whoopee shops won't close.

FUNERAL SERVICES
Held for McMillan

SHOSHONE, June 25 (Special)—The funeral services for the late John McMillan, who died from inhaling carbon monoxide gas near his home in Oregon were held this morning at 10 o'clock at the First Church here. Burial was in the Shoshone cemetery.

The two dancing students of Mrs. Marie Finch insured in Jerome Tuesday night where they gave a splendid performance at the hotel here.

Ruth Christian, Edith Clifton, Gladys Goodrich, Pril Hayden, Ted Hays, Fred Miller, La Vera Burnett, were in Jefferies Tuesday night.

Miss Helen Newman of Twin Falls, held in Shoshone Tuesday and Wednesday of this week.

A child was born to Mr. and Mrs. W. A. Jones on July 18 and died the same day. Burial took place on Friday with Rev. R. W. Hansen officiating the services.

Richard Boyler, former Shoshone resident and now of New York City, arrived in Shoshone Tuesday. He is visiting at the R. J. McMahon home.

The Shoshone lodge gave a dinner Tuesday evening to the McMillans and their husbands.

Miss Lillian Black, Dorothy Whitman, and Edith Christian are visiting in Jerome at the S. J. McMahon home.

School Tax Carries

At the regular school directors' meeting held last Tuesday evening seven bills were for the maintenance of the school and one bill for the care of the gymnasium and grounds. 24 votes were cast, 15 being in favor of the special levy and two against.

Miss Lillian Black has returned from the Southern Branch of the Y. W. C. A. in Idaho and will spend the vacation with her parents. Mr. and Mrs. Frank Hinrichsen have left for the 21st.
