Before You Buy Any Tire - See These Tests!

AT
LIND AUTOMOBILE Co.
Special Prices on Tires All This Week

There are two main parts to any tire. (1) THE TREAD. (2) THE CARCASS.
In both Tread and Carcass, the superiority of Goodyear Tires can be demonstrated—by these two tests—so simple a child can understand.

Test No. 1—

Press down your palm on the tread of a Goodyear Tire. Feel how the deep, thick, sharp-edged diamond-shaped blocks of the famous All-Weather-Tread pinch, grip, and hang on. That is the way the Goodyear All-Weather-Tread grips and holds the road. SAFETY! in all weather—full center tread traction with every turn of the wheels. LONGER, SLOWER TREAD WEAR! Easy steering and quiet running.

IT DOES NOT COST
MORE TO BUY
A GOODYEAR TIRE

The complete Goodyear line provides the right Goodyear Tire for every car, for every purpose, and for every purse. We carry the complete Goodyear line, and give standard Goodyear Service.

Test No. 2—

This machine will show you why Goodyear Tires—made with SUPERTWIST—are stronger, longer-lived, and more elastic. Right before your eyes it will prove that SUPERTWIST Cord stretches 60% farther, recovers surer, and resists breaking more stubbornly than any other cord.

The PROOF

of these
demonstrated superiorities
of the Goodyear Tire is:

The proved superiorities of Goodyear Tires enable Goodyear to offer you the broadest possible guarantee. This guarantee is based on the miles built into Goodyear Tires, miles that cannot be written into any tire. "There are no miles in a bottle of ink."
