Violence Marks Pennant Battle

The Eight, Empire Balling and Hot Arguments Common in National Ball Circuit

By GEORGE KINSEY
 United Press Staff Correspondent
 NEW YORK, July 11 (UP)—Violence, brawling, the "spike" and other "rough" acts were common in the past in baseball but are today happening around the National League ball parks today.

Three National league managers have been punished in the past week, three players and two Cincinnati players and frequent word hits between rival players are costing managers of real old-fashioned baseball.

Billy Southworth, youngest National league leader and known as "the boss" in the league when he was with the Giants a few years ago, was put out of the Cardinals-Robins game at St. Louis for hitting a manager.

Plans for protecting the umpire's decision on batters and strikes.

On Tuesday, Jack Hendricks, manager of the Reds, was chased from the Polo grounds by Empire Balling. Later, McLaughlin cleared the entire Cincinnati bench.

A few days ago, Empire Balling manager, John J. McGraw of the Giants, bench for the first time in years.

McGraw refused to leave the bench and kicked, Magerkurth until he was injured.

GOVERNORS WILL STUDY PROBLEMS OF RECLAMATION

HOUSTON, July 11 (UP)—State officials of the eleven western states will convene in Salt Lake City on August 26 and 27, to form an association to consider mutual problems such as reclamation, national and state legislative matters and forest conservation.

The new director of a national governors and other representatives of western states attending the conference.

Following the session, western Governors H. C. Baldrige of Idaho, H. P. Patton of Oregon, George H. Dern of Utah, and Frank C. Emerson of Wyoming.

The west has benefited by legislation for some time, Governor Baldrige said in addressing the conference. "But consolidation of unsatisfactory laws has been insufficient heretofore because a representative body of state officials has never assembled as they have here for the aeronautics conference."

Invitations are being wired to governors of other states to attend the conference. "But consolidation of unsatisfactory laws has been insufficient heretofore because a representative body of state officials has never assembled as they have here for the aeronautics conference."

Salt Lakers Attend Oakley Conference

OAKLEY, July 11 (Special)—State quarterly conference was held Sunday, July 7 in the state lock-up. Visitors from Salt Lake were Apostle Owen S. Watt and Winslow Smith, president of the Eastern States. The conference was well-attended and was very much enjoyed by all present.

Mr. Watt, his wife and Mr. Whitney and his wife were on their way to Battleground, Washington, to attend the conference. Their vacation will be the latter's daughter, the small son of his, and Mrs. Kenneth War died Saturday, July 6, of pneumonia. The baby has been temporarily left for the national funeral services were held Sunday, July 7 in the Marion Ward.

Mr. and Mrs. C. E. Davis, Mrs. Myers and Elizabeth, Ann, all of Burley, called on friends in Oakley Saturday.

Booths for Rent... TELEPHONE 38... Published every evening except Sunday... IDAHO TIMES PUBLISHING CO.

WHY DAWES SWORE... GENERAL CHARLES G. DAWES... American ambassador to England... Hell in Maria' episode, when he swore at a congressional committee...

In an interview with a writer for the North American Review, Ambassador Dawes explains that he swore deliberately and with precaution... Had I uttered platitudes they would have been interred in the ensuing oratory...

Dawes' theory was quite right... His outburst fairly blew the congressional investigation out of the water... It languished and died after he blasted it.

ADVERTISING IDAHO

The announcement by the chamber of commerce of American Falls of the water carnival that is to be held there next Sunday shows enterprise that is commendable... In the first place, water sports offer thrills in plenty...

Idaho needs to devote a little more thought to community affairs of the kind being promoted at America Falls... We have been so busy in the past that we had little time to play...

LINDBERGH TO PULASKI... Lindbergh is a fleeing commodity... Today's hero is apt to be forgotten tomorrow... Not even the most daring exploits are proof against eventual obscurity.

All of which is odd by preparing you for a paltry old little news item... In Milwaukee there was, four years ago, a park called Pulaski Park... Two years ago, when Lindbergh flew the Atlantic the name of this park was changed, by unanimous consent, to Lindbergh Park...

Now, a petition of hundreds of Milwaukee citizens, it has dropped its new name and has become, once more, Pulaski Park.

The news story that told of the illness of 87 wedding guests from eating poisoned cake may be accepted as proof that it is sometimes better to have one's cake than to eat it.

Best Editorial of the Day

PRISON BOARDS VS. JURISTS... When Gov. H. C. Balchide Friday stated the purpose of the courts merely was to set the terms of a sentence on a convict... Of course we must always recognize the exceptional case which will require action before the expiration of the minimum sentence... During the trial the minimum sentence has expired, yet the convict will go to the legislature and have the sentence changed.

In his consideration, Governor Balchide pointed out that under the present method of fixing sentences the courts merely set the terms of a sentence for fourteen years, and it then becomes the task of the board to determine when the term of justice has expired... District Judge Miles E. Johnson recently sentenced four men 'marred' criminals to the penitentiary for ten years... Johnson's action on this very bad element of the minimum of the legislature to permit the sentence to be changed... Such reasoning is basic and it parades before the eyes of the public a method of establishing the penalties of original decisions by tried jurists whose judgments are proven by years of service to grant the state the power of setting up its own arbitrary.

Daily Poem

A SMILE... By Charles A. Heath in The Glasgow Post... The only thing to do with a smile is to wear it on your face... Three shovels for without digging... Then dig as if well sated... Just like a sunbeam multiple... Upon a baby's face.

THE SWEETEST THING TO DO WITH A SMILE IS TO KEEP IT ON THE FACE... A smile can keep the day above... A smile can keep the night below... A smile can keep the world at bay... A smile can keep the devil from coming.

A LITTLE RIDDLE OUT OF AMERICAN HISTORY

FIGURING out the rights and wrongs of historic events is sometimes a fairly tough job... A brief news item in the daily papers the other day brings up one of the most perplexing riddles of that kind in American history.

This item told of the death of William Buckner, who died in Missouri at the age of 101 and who was one of the two remaining survivors of the war with Mexico.

It calls to mind an episode out of a past that seems incredibly remote... The men who fought in the Mexican War were gray-bearded veterans when the Civil War came around... Grant, Lee, McClellan, Jackson—they were strapping lieutenants in '48; like the rest of the army, they wore the queer, romantic-looking uniforms that the West Point cadets wear today, and used wheezy old muzzle-loading muskets and endured a campaign in the tropics swathed in stiff collars and high leather helmets, unbearably hot.

It is perplexing enough, ordinarily, to figure out the rights or wrongs of any war; but this war with Mexico is the toughest problem of the lot.

On the face of it, it was a supremely unjust and wicked war.

A relatively large and strong nation—the United States—attacked a small and weak nation, Mexico, after trumping up a very thin excuse for the avowed purpose of grabbing some territory... Might made right; Mexico ceded California, New Mexico and Arizona, and abandoned its tenuous claim to Texas.

On the face of it, was a piece of villainy; and the history books that tell us we ought to be ashamed of our record are, doubtless, correct.

And yet, would any man undo it, and put California, Texas, New Mexico and Arizona back under the Mexican flag? Millions of progressive, educated and prosperous men and women live in those states today; does anyone dream of suggesting that the name would be true if those states had always remained in Mexico?

So there you have your problem. The war was wrong; by every standard you can apply—and yet it worked out as if it had been right. Surely it is not going too far to say that all of North America is better off today than it would be if the war had not been fought... History is full of incidents like that; Justice, in some strange way, does seem, at times, to grow out of injustice; and it is almost beyond our power to figure it out.
