Daily Poem

"AND GALAHAD SWORE

THE VOW"

Dorothy Tracy

"One rides down the high and holy road,"

"There is the High gate of the world,

"There is the Galahad—there the moraine—in his eyes."

With meekness like a peacock spares his breast,

He faces forth, a knight at heaven's behalf,

Far-famed and fair neither in whiskers skin,

The towered heights of Camelot he climbs,

But Christian virtue, and himself desired,

Well-pleased with travel and well pleased with song:

Upon his face all innocent of wrong;

THE Arthur ride in his saddle comes with pride

And carries with him the Galahad's pride.

"Young Galahad with the moraine in his eyes."

POULTRY THIEVES.

EFFORTS of officers of Jerome county, assisted by the chief of police of Twin Falls, to break up a ring of poultry thieves that has been operating on both the North and South side tracks during the past few months, deserve to succeed.

To the normal person a thief of any sort is repugnant in the extreme, but the thief who turns his hand to robbing farmers of their flocks is mightily down, even as thieves go.

Thievery is thievery, no-matter what commodity is stolen—but the poultry thief lets himself in for even more than ordinary censure because in a majority of cases the losses he causes are inflicted at the expense of women and boys and girls.

Turkeys have proved all too attractive to bands of thieves, and the turkey business, while it has grown to such proportions that both men and women are devoting their entire time to it, still enlists the interest and effort of more women than men. To have the fruits of long months of patient hard work come to naught because of the activity of a ring of thieves can lead to nothing except the hottest kind of resentment on the part of the loser.

In some states poultry growers have been compelled to protect themselves by reverting to the practice of branding as followed by cattle men from early days. A tattoo mark is applied on the wing-web of fowls. The brand makes it possible to trace stolen fowls to the marketing centers and offers a safe guard to producers that makes the business of stealing more risky.

These in the turkey and chicken business should overlook no feasible plans of protecting themselves against thieves and should exercise such precautions as will make thievery unprofitable.

TAXATION

THE subject of taxation has this in common with boils, it claims a lot of attention.

In New York state, according to information sent out by the national association of real estate boards, the state property tax levy has been eliminated.

From the American Falls Press we reproduce the following:

"According to C. E. Arney, tax expert for the Northern Pacific, all the big taxpayers in the state are in favor of reducing the number of counties in Idaho from forty-four to six. He figures that it would save a million or more useless and unnecessary salaries. We are in favor of almost anything that will save a million, but why confine all the economy to Idaho? Why not divide the United States into three states—two republican states in the north, and one democratic state in the south?"

A part of the statement of the national association of real estate boards is as follows:

"An estimated 95% of property owners of approximately \$16,000,000 which will be felt by the farmer and the city dweller alike, results from the abolition by the state of New York of the direct state tax, a measure enacted by the 1929 state legislature. This is the first time since 1916 that New York state has been free from the direct tax levied for emergency to make up deficits in the state finance budget, and may be regarded in large measure as an accomplishment of the New York state as

sociation of real estate boards.

In 1924 and again in 1925 and in 1928 legislative action reduced the New York State real estate property tax. The 1924 reduction was a 25 per cent one, and in 1925 a further 25 per cent reduction was granted. Property owners were given a 50 per cent reduction on their direct tax in the 1928 measure."

New York state has an income tax which is the source of a part of its tax receipts. Most states still cling to the old theory of taxation that puts the burden on real property, even in face of the fact that real property is not the most profitable form of investment.

## A CONTRAST

NEWS ITEM from Hull, Quebec, telling of the impending execution of a mother of eight children and her lover, 10 years her junior, for the murder of the woman's husband brings out sharply a contrast of affairs as they are in Canada and England and as they are in the United States.

As to the merits of the case, we at this distance know nothing, but it is interesting to note that the woman's attorney stated that he had done everything possible to save the life of the woman. He failed.

It is impossible to say how the case would have terminated in the United States because there are exceptions to all rules, but the layman may be pardoned if he expresses an opinion that the most capable prosecutor in this country would have a job just about impossible to try to convict a defendant who was the mother of eight children, if conviction carried a death penalty.

We are too sentimental in our appraisal of criminals in this country. We can forget the crime of violating the law. We quickly lose sight of the wrongs done to victims. We are downright silly in the extorts to which we go in extending sympathy to defendants.

Where is the seasoned newspaper man who has not been appealed to to suppress a news item of prosecution against some citizen. "I'll lose my job if this matter gets out to the public," is one plaint that every newspaper man has heard more than once. Another one is, "Think of the disgrace this will be to my wife and children."

Newspapers much prefer constructive news, the record of successful achievement, rather than the depressing record of mistakes. But if a citizen is made defendant in a serious case that affects the welfare of society, he can not fairly seek special favor. The Canadian mother of eight children had her children before she committed murder. If their welfare did not act as a preventive of crime, then their presence should not be a reason for leniency in judging her. So it should be in such cases, but we are too mushy in our appraisals of crime and criminals.

## NAVAL AGREEMENT

(Chicago Tribune)

Whaton Churchill's recent naval parity agreement will be welcomed by any American who has taken the trouble to inform himself and to think practically upon the problem of naval adjustment. Since the Washington conference we in America have been awaiting the day when we realized that naval parity is not to be reached by what Mr. Churchill calls a plain rule of numerical equality. That is easy on paper and wholly delusive, for it would mean about parity, but inequality in actual naval efficiency.

Our difference with the representatives of the government of Mr. Churchill was a very important member arose from his proposal that there should be a rigid limit to the type of cruiser built by a party with Great Britain and a pleasant elasticity—in so far, no limitation at all upon the types of little value to us and of great value to the British empire. The effort of the Conservative party, and of the Conservative representatives at the naval conference of 1927 in London, based on the formula of heads we win, tails you lose was plausible enough in view of the insufficiency of our diplomacy in recent years, but it brought about a diplomatic imbroglio, which, in turn, led to a naval race, of course, among the strongest Americans, and we are confident, our trustee. Representatives are as little likely to sacrifice our American interests as our able representative of 1927.

The naval situation today must be very clearly construed and no substantial agreement can be reached unless there is on the part of both governments a sincere and friendly recognition of the different conditions which control our defense needs. We must realize that our naval power, though it is a factor in economics, an naval and military expenditures, but Great Britain cannot afford to reduce her naval power without regard to the possibility of European war, and we shall be compelled to do so.

We fail to maintain a naval strength capable of protecting and enforcing our expanding interests upon the high seas.

Within these bounds there is room for adjustment with the respective welfare and security of both countries, and the rest must be confined to our general policy toward each other, which we on our part sincerely hope will be formed upon the foundations of mutual trust and good will. Our own situation, after all, the whole matter is the reality and strength of the disposition of both peoples to maintain peace between us. Our interest in certain probable events will, however, demand constant vigilance before the day of trial. We must, in certain circumstances, be prepared to compromise. It is essential to friendly relations that such compromises be equitable and not as one-sided as in the past, and to that end it is desirable that the naval power of each shall be adequate and adjusted to its situation and its responsibilities.

## CASSIA COUNTY

Former Residents  
Return for VisitBurley News, Palisade, Idaho Extra  
in Times.  
Phone 191-American Hotel.BURLEY, Aug. 24. (Special)  
Mr. and Mrs. T. N. Houser, well known here, arrived in Burley Wednesday of this week for a several weeks' visit with relatives and old friends. Mr. and Mrs. Houser have come to stay for a year, but still hold valuable properties in Burley, and still have a large circle of friends, whom they give a hearty welcome to their home. Like more older citizens, they are now living in Iowa.

Lloyd Hawks, young rancher near Burley, returned Thursday evening for a week, with which he will visit with friends a while, and maybe spend some time at work.

Mrs. G. O. Long, of Long Beach, California, visited the Housers this week, and Mr. and Mrs. Grobbeck of South Miller Avenue, several days ago, and departed Wednesday for Omaha, where she will spend several days before returning to her coast.

Mrs. G. F. Fitz is the guest of Mrs. J. B. Arthur this week.

Mrs. M. Sharp, who has been visiting Wallace, Idaho, for a week, and Wallace Shear, departed for Salt Lake City Wednesday afternoon.

Where she resides.

Mrs. C. A. Nelson who has been visiting her son, Mr. and Mrs. George Stoen, left for her home in Portland on Wednesday morning.

Mrs. O. Weeding, pioneer of the Park neighborhood, left for her son's home, after a few days visit with her daughter, Mrs. Jack Bailey, of New York. Visiting has been suspended 42 years, and this is the second time in all those years that she has been away from her home and husband, even for a day.

Miss Maile McBride of Rigby is visiting Miss Maurine Bulkeley this week. Miss McBride was formerly a teacher.

Mr. and Mrs. George Card of Jerome spent last Sunday with Dr. and Mrs. C. W. Karr.

Capt. E. D. Darlington, of the U. S. Fish Commission, U. S. Office of Fisheries, spent Wednesday night in the local office.

Col. C. Davidson went to Missoula, Montana—Wednesday, to recover a new Ford which he had abandoned in that faraway country.

Miss Lillian Sarai departed for Buhl Wednesday morning after a few days visit with her son, Mr. and Mrs. John Weaver, and will return to her home in Boise after a few days visit with friends in Idaho.

A very popular bridge player, Miss Mary McCall, of Meridian, was in Burley Wednesday of this week, to a number of friends. Beautiful floral decorations made a happy setting for the event.

Idaho Experiment Station to Exhibit at Utah Ram Sale

BALT-LARE CITY, Utah, Aug. 24 (UPI)—The Idaho Experiment Station at Idaho Falls, Idaho, have been entered in the fourteenth national ram sale to be held Sept. 26-29. F. H. Marshall, secretary of the National Woolgrowers association, announced today. The sale is sponsored by the association.

The college entering Ramblondes includes the Utah Branch agricultural experiment station, the University of California, the University of Illinois, the Utah Agricultural College, the experiment station and the University of Wyoming, who have entries in other breeds.

Colonel Arthur W. Thompson of Gooding, Nebr., a noted authority on the raising of sheep and lambs of the country, will be the chief auctioneer. He will be assisted by W. C. McClure of Boise, Idaho, and F. G. Walker of Pocatello, Idaho.

CAR AND BEAR TANGLE—PICTURE  
BLUMBLANDER, Wyo.—Picture  
depicts a bear and a picture of a bear,  
Crandon attorney, who drew the  
carpeted around "it" bed in the  
room and ran into a huge, black  
bear. The impact, almost wrecked  
the car, but the bear, however,  
and companion, was not injured.

## BRIDE OF EARLY FALL HONORED

Mrs Ruth Hawes, who is to be married early in September, was the inspiration for a charmingly arranged miscellaneous shower at the home of Mrs. Cleone Gandy Friday evening. The evening was a success, the bride-to-be being the center of attention throughout the evening. After presentation of the many lovely gifts, refreshments were served, followed by the menu being individual little cakes topped with frosting.

The guests included the honoree, Mrs. David Dresbach, Doctor H. Miller, Miss Dorothy Headstrom, Mrs. Helen Clegg, Mrs. Anna Clegg, Mrs. Marion Headstrom, Mrs. Ruth Hawes, Mrs. Marcelle Wynn, Miss Marion Baird, Mrs. Dorothy Estelle, Miss Eliza Beth McCall and Mrs. Lucille Louie.

**FORMER MEMBER OF BRIDGE CLUB RETIRED**

Mrs. Roy Gardner, who was a member of the Twin Falls bridge club, recently retired from the game. She has been playing bridge for many years.

**BIRTHDAY PARTY**

The 10th members of the Baptist Church of Twin Falls, the Twin Falls Baptist church, and the Methodist church, all of whom are with the United States navy, Mr. Sears' birthday in Twin Falls until Friday evening. The evening was a success, the men being the center of attention throughout the evening.

After presentation of the many lovely gifts, refreshments were served, followed by the menu being individual little cakes topped with frosting.

**MEMPHIS FAMILEY**

Ralph H. Munsen left today on a brief business trip to Hurley and Cheyenne. From there he will go to Missoula, Montana, who will meet Mrs. Munsen and children, who spent the summer visiting in Kansas.

**BIRTHDAY HIGHLIGHTS**

Mrs. A. H. Wilkins and daughter, Ruth, were visiting in Twin Falls yesterday. Ruth has an aeronautical degree.

**CLOVER VISITORS**

Mr. and Mrs. J. D. Ahrens, Clay-ton, Friday in Twin Falls.

## LOCAL STUDENTS AVERAGE HIGH AT UNIVERSITY

Twin Falls--Pupils At State University Make Grades Higher Than The Average

Twin Falls students, 19 in number, at the state university during the past year made excellent average, according to Dr. George L. Gardner, president of the Twin Falls high school. In her average, Gardner was the only one to exceed the average.

Twelve students, 12 in number, at the state university during the past year made excellent average, according to Dr. George L. Gardner, president of the Twin Falls high school. In her average, Gardner was the only one to exceed the average.

**WISCONSIN VISITOR**

Mr. and Mrs. George and Mrs. Mabel Neumiller, of Milwaukee, Wisconsin, are the guests of Mr. and Mrs. Vernon Scribner at the Scribner home. They are enroute home after a trip to the state.

**PLEASANT APPAIR**

Mrs. L. C. Creas and Mrs. J. S. Kline entertained Thursday evening at their home, Mrs. Kline, a graduate of the University of California, at the former home on Eighth Avenue east. Phillips was the evening's diversion. Dignity for high school girls to Mrs. Alpha De Armond, who registered at the hotel.

Mr. and Mrs. Nare received a guest, Father Gordon Powers in a profusion of colors, decorated the home. A luncheon was served at the flats of the evening.

**MISSING PERSON**

Mr. and Mrs. George and Mrs. Mabel Neumiller, of Milwaukee, Wisconsin, are the guests of Mr. and Mrs. Vernon Scribner at the Scribner home. They are enroute home after a trip to the state.
