Daily Poem

PERVANT THANKS
I may not see the heavenly gates of pearl
The trees of life, the flowing streams of love
The great white throne of holiness there
But while my heart aspires toward these
I can thank God for spreading trees
That yield of shade and fruits and loveliness
For fragrant lakes, for waterfalls that swirl
And I can give Him fervent thanks for grass
Down steep declines
Today I saw a dove
And thanked Him for the birds that sing and pass
In happy upward flight!

Nellie B. Mace

TOLL THE BEAN PAYS

IDAHO beans pay a tremendous toll in railroad freight to get themselves to market under the rates that prevail. Some there are who think the rates satisfactory, including the railroads, but if growers have ever gone into the matter very thoroughly and compared the rates paid on beans with the rates paid on potatoes, for instance, we fail to see how they can regard the charges as anything except high. Beans are as little trouble to haul as any commodity one could very well imagine. They are shipped in sacks and do not require expensive cars. They do not have to be fed. They are not perishable and so do not require the fast freight service that must be given in the case of perishables.

One of the surest things railroads do is to seek through newspaper reports to inform the public at tax paying time just how large their taxes are. They want the public to know without fail just how much taxes they have to pay. It is smart practice on the part of the railroads to see that this information is published. The railroads derive their money with which to pay taxes from the public. The "taxes" the Idaho bean grower pays to the railroad in freight rates are also pertinent facts that the public can well afford to ponder.

What is the per car cost of freight on beans by growers? The question can not be answered definitely, of course, but out of several answers some light may become available.

It costs \$120 to haul 60,000 pounds of beans from Twin Falls to Portland. In 1927 carloads of 11 carloads of Idaho beans went to Oregon and Washington points, due to the tight rate situation, but the haul is comparatively short, so the rate will serve. Now 60,000 pounds equal 1,000 bushels, and with beans yielding at the rate of 30 bushels per acre the car hauls the produce of a little less than 31 acres. The freight then costs per acre more than \$12.35.

If the haul is to Galveston in 60,000 pound cars at a rate of \$1.05, the per acre freight charge is more than \$18.50. We can begin to understand where the railroad gets this tax money about which it talks so much.

Because beans are shipped under a blanket rate the point is sometimes raised that any readjustment of rates might increase the rate to distant points if rates to intermediate points were reduced. Why should a rate of \$1.05 on a 60,000 car be \$680. Do the railroads need \$1,000 per car? A tax of a little more than \$18.50 per acre on beans should be sufficient to ship to Europe, it would seem. Intermediate distance rates should be lower. Just because Idaho beans are of such quality as to command strong demand is no reason why the rates charged against them for freight hauls should be exorbitant.

SEE AMERICA FIRST

To travel to foreign countries has increased during recent years, as we are informed it has, the natural wonder of our own country are also being traveled in increasing numbers of America by travelers attracted to the annual

report of the secretary of the interior, just recently released.

In the fiscal year that ended June 30, 1929, visitors to the national parks numbered 2,489,597 persons, and to the national monuments 667,067. This is an increase of 7 per cent over the preceding record year, 1928.

The national park system now includes 21 parks, and national monuments within the jurisdiction of the national park system number 93. Appropriations for the national parks and monuments for the fiscal year amounted to \$4,754,015, with additional authority to enter into contractual obligations for road work up to 4,000,000.

Revenues for the fiscal year to \$849,372.95, an increase of \$1,017,114 over the 1928 revenues.

CRITICIZING THE COLLEGE

THE average college graduate of today is an "inferior product" as compared with the college graduate of a generation ago, according to Dr. G. J. Laing, dean of the graduate school of art and literature of the University of Chicago. Dr. Laing argues that the college curriculum has radically revised to put an end to the "softness, sloppiness, and flabbiness" of the mental processes of the students. Latin, Greek and mathematics he believes to be essential college subjects; for while they are not "practical," value, they discipline the mind and train it for hard work. "Very often," he adds, "the educated man is not a college man at all, but some person of native intelligence who has educated himself."

Concentration on football and other non-essential activities has undoubtedly had its effect on the spirit of the college. Sooner or later the nation's educators will be echoing Dr. Laing's plaint loudly.

SOOT IN BIG CITIES

IF YOU ever wonder why the atmosphere of big American cities is contaminated, consider these figures: Every ton of soft coal contains nearly 180 pounds of soot, which is distributed throughout the surrounding air when the coal is burned. In a great industrial center such as the Chicago area, nearly 30,000,000 tons of soft coal are burned yearly. If you take the trouble to figure that out, you'll find that every inhabitant of that district gets about 100 pounds of soot each month.

The situation is much the same in every large city. Small wonder that the housewife in a big city finds it almost impossible to keep her curtains, drapes and linens from getting soiled.

Best Editorial of the Day

A NATIONAL SHAME

Oregon Journal
They say the Varg senate seat will be declared vacant at the coming session of co-legislature. And they say the resolution to that effect will come from the Republican side. The Republicans will take a step, according to the publican Floor Leader Watson, in order to hear off the Norris resolution to declare Varg unfit for a senate seat.

The so-called election of Varg to the senate was a disgrace to the state of Pennsylvania. The election was little better than a farce. Many of the registered names on the poll books were fraudulent. Ballots were placed in the box for all absentees and their names were checked as having voted. This occurred in numerous cases for more than 100 votes in a precinct—all fraudulent ballots were placed in the box before the polls opened and afterwards names were written in to correspond with the bogus tickets. It was proven that none of the 200 had voted. The names were of New York citizens, of people who had died or removed from the district.

In one instance the election officer admitted that the ballots in his voting precinct had not even been counted, that the vote had been thrown to the organization candidate. In hundreds of precincts in Philadelphia nearly all of the ballots were marked by one or two representatives of the Varg organization. This was done under pretense of giving so that the vote would be in accordance with assistance to the voter. In reality it was done in order that had been given. The voters, often ignorant foreigners, were either intimidated or bribed to permit this to be done.

Instances for more checking and corrupt practices above were mentioned in the report of a committee's investigation. In one case a woman was tried and convicted of frauds and sentenced to a prison term. The Varg gang made the election a sham, at once and a national scandal. It was a shame upon the citizenship of Pennsylvania that permitted a proceeding so appalling. If there were no other proof, guilt is on the part of the senate on moving to declare vacant the seat of the Varg senator. The vote that members of his district threw to the Varg ticket, through the governor, on the bogus election returns, gave Varg a fraudulent title.

Burley Woman Visits Friends In Twin Falls

BURLEY, Dec. 4. (Special)—Mrs. H. H. Wilson spent the week-end in Twin Falls visiting relatives and friends. She was accompanied by her husband and two children. They will be in Twin Falls again next week-end.

Mrs. J. H. H. Wilson, of Burley, is a frequent visitor to Twin Falls. She was in Twin Falls last week-end, and will be here again next week-end. She is a member of the Twin Falls church and is a very popular person.

Glover Church Group Play Is Well Attended

GLOVER, Dec. 4. (Special)—A group play was given at the Glover church last night. The play was "The Boy Who Sailed Away." It was a very well attended affair and the proceeds were for the benefit of the church. The play was given by the Glover church group and was very well received.

Mrs. E. H. H. Wilson, of Burley, is a frequent visitor to Twin Falls. She was in Twin Falls last week-end, and will be here again next week-end. She is a member of the Twin Falls church and is a very popular person.

MANY SCIENTISTS

(Continued from Page One)
line manager and doctor of philosophy degrees. His first work was in the field of entomology. He has since turned to the study of waste lands and abandoned plots around the tract, to determine the success of plants and how long it will take to grow a sugarbeet back on the plot. Sugarbeet is not a hard plant to grow on waste land but the wild grass that covers the clearing is the most difficult to get out. He has been successful in the elimination of the weed hopper. He is now working on direct control methods in the fight against the weed hopper.

Dr. J. C. Chandlerlain is assistant entomologist. He obtained his doctor of philosophy degree from the University of California. He is now working on direct control methods in the fight against the weed hopper. He has been successful in the elimination of the weed hopper. He is now working on direct control methods in the fight against the weed hopper.

Charles E. Henderson, who received a master's degree from the University of California, hopes to obtain a doctor of philosophy degree from the University of California. He is now working on direct control methods in the fight against the weed hopper.

# Beware of this endless chain selling scheme

It is being worked with all kinds of merchandise especially hosiery and underwear.

## WHO WILL HOLD THE SACK?

The Latest in bargain appeals, as offered by these Hy-Jack Peddlers are the new Chain-Selling Schemes by which merchandise is promised to coupon purchasers for a small cash consideration and a little work.

## DO YOU WANT TO BECOME A PEDDLER

and prey upon your friends--if you do try this one-- here is a typical promise--made to you by the real slick peddler--

# \$10 WORTH OF HOSE FOR \$1

Looks Good on the face of it--What?

**TRY** and figure this--The Slick Peddler offers you a contract with three coupons for \$4.00. Here is where YOU WORK your friends. You are to sell these coupons to three friends at \$1.00 each and WHEN each of these friends send in \$3.00 for similar coupon outfits or a total of \$9.00 you are supposed to get \$10.00 worth of some kind of hose.

NOW you have made PEDDLERS out of three friends--and before they can realize anything for their cash they have that "little bit of work" to do--that is "create more Peddlers among their friends"--so on--so on-- indefinitely.

**IF** you do complete this very simple contract--and your hose are delivered you are out \$1.00 net, your three friends are out \$3.00 each--or \$12.00--and this firm has collected \$13.00. WHO really pays for your hose? The firm or your friends?

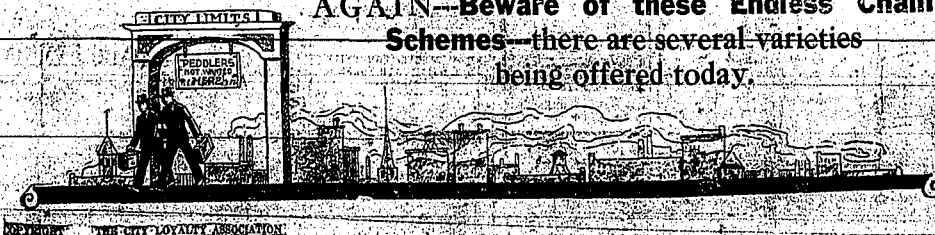

**SUPPOSE** the firm fails--after having paid for your \$10.00 worth of hose out of \$13.00 collected? How could this firm refund the \$12.00 invested by your friends? What the running expenses of an office and salaries of this firm--

### Who Would Hold The Sack?

**IF** the practice and policy of the Government in barring these Schemes from the profits made by the courts, what might happen to the firm should it be denied the use of the mails? If the firm should quit voluntarily, What Then?

**IT IS NOT BUSINESS SENSE** to expect a firm of this kind to give each of its customers \$10.00 worth of hose for \$1.00--You can NOT take out of any business more than is put into it.

**AGAIN--Beware of these Endless Chain Schemes--there are several varieties being offered today.**

THE CITY CLOAKING ASSOCIATION

# Leaders Pledge Their Support to President Hoover

## CLEAR SAILING PROMISED FOR TAX PROGRAM

already has been started and a clear road ahead for enactment into law before Christmas. The tariff is to be passed with renewed vigor in the Senate immediately and promises were offered by the leaders that it, too, would be a law before the winter opens, at the earliest.

Lucy Document

The president's 12,000 word document on the state of the union, stressing these two major problems was read by the clerks of both houses soon after they convened at noon for the second day of the regular session. The galleries were full and the floors were well represented with senators and representatives as the clerk expounded the legislative recommendations of Mr. Hoover upon all the subjects confronting the government, foreign relations, waterways, reorganization, miscelanea, water power development, trade, railroads and prohibition.

The understanding tone of the houses caught the fancy of the Senate where there has been considerable strife over the tariff bill.

## HURLEY MAY GET GOD'S POST

Patrick J. Hurley, above, of an assistant secretary of war, Tulsa, Okla., World War hero, seen as a possible successor to the late Secretary (post). Hurley's appointment would give the cabinet a place on the Cabinet. It failed to obtain when Hoover named his 10 placed Hurley in temporary charge of the War Department. He is 46, and where the recommendations

## A FLIGHTY PAIR OF TWINS

It's probably the winter of 1917. Anyhow, the two curly aviators, pictured above are 17-year-old Alvin, Fla., high school twins, Huhli and Huby Solan. Yes, these young sults are their regular flying costume—fascinating a new mode for feminizing boys in the balmy southern air.

## OFFICE CAT

CHRISTMAS COMES BUT ONCE A YEAR, WHICH IS ONE THING IN ITS FAVOR.

A man may become a hero in an instant, but the exact opposite very few are not.

FIN FEATHERS DON'T MAKE PINK BIRDS—indeed, nothing makes anything else of a woman who is a goose, or man who is a jay.

## MIRTH

Mirth is the flowering extract of the workday world. Mirth exhilarates pessimists, banishes worry; stimulates courage, enhances pleasure, softens pain, and decorates success. It is the surgeon of sorrow and disaster. Mirth is the attainment of existence. Nothing is more aesthetic than mirth. It is the most beautiful part of a woman's intellect. Tragedy, the powerful, is stultified by mirth. Mirth is music. From soft smiles, over a melody, his is breathed upon the air of the world.

THE ONLY THING AN AROMATIZED EVER SHITTING IS THE ONE IS A POOL FOR TAKING PART IN IT.

THE DUCK: "I take my hat off to our rooster. He's crowed about himself until they've put his statue upon the barn. It pays to advertise."

## THAT MISSING HOSIERY

Beautiful, exquisite arm; but her legs below the knees—have you time to spare? Lovely dimples on her cheeks. Voice so charming when she speaks. Plays golf like a Jones or Vardon. But her legs—her legs—her legs! Give me a sock that's new. Always a joke that's new. But those legs, now freely wearing—Goshdarn, dear girl, I must be joking!

## THE CHIEF OBJECTION TO PLAIN PEOPLE IS THAT SOME OF THEM ARE SO BARNED PLAIN

Nurse: "Dobby, I have a surprise for you."  
Dobby: "I know all about it! I even know their names."  
Nurse: "Why, Dobby?"  
Dobby: "Because the doctor told 'em he sold Twelze hell and blazes!"

One Ingenuus Eastern shoe dealer bought 1-1/2 ton an unshippable so that he could make the girls' walk home.

The larger her ebrystantism, the less interest she takes in the foot ball game.

## of the chief executive year

referred during special session frequently, particularly with reference to the debt-reduction plan, the action revealing the flexible provision of the tariff act.

—Smoot's Statement—

The immediate reaction, however, was a statement from Chairman Smoot of the senate finance committee that the tax reduction would have the right of way in the senate and that the tariff bill might be taken up again before night, at the point where the senate left off when the special session adjourned.

Smoot intends to demand that daily sessions begin at 10:30 a. m. and continue until 5:00 p. m., so that the tariff can be finished, he said. If it is not enacted before Christmas, it will be done early in January, he added. A promise of speed also was offered by the coalition leader, Senator Borah of Idaho.

In view of the fact the president did not seek to blame congress for anything and sympathized with the tariff, the comment of the opposition was usually temperate. Democrats complained generally that the chief executive had failed to make clear exactly what industrial tariff rates he wanted revised.

## FISH DRIVEN SHOREWARD

PAUL HONKAWAY, N. Y., Dec. 4, (UP)—Cold weather has driven thousands of fish toward shore and the beaches in this section of Long Island are covered with non-fish women who have been "beached" during the winter. In sizes up to two pounds, from the water with their bare hands.

## FARE ENOUGH

FARE: How much to make the journey to Versailles?  
TAXY DRIVER: Three dollars.  
FARE: That is for too much. Get in the cab and I will drive you there myself for half that.  
—Farine Blum.

Several airplanes have been struck by lightning while in flight.

## ERRORGRAMS

**That's Scrambled**

**EUFERRP**  
Some scents to write

There are at least four mistakes in the above picture. They may pertain to grammar, idiom, drawing or whitening. See if you can find them. Then look at the scrambled word below and unscramble it by switching the letters around. Grade yourself 20 for each of the mistakes you find, and 25 for the word if you unscramble it. Tomorrow we'll explain the mistakes and tell you the word. Then you can see how many you beat.

## Answers to Yesterday's Errorgram

(1) The clerk established that they are 350 million from New York and within that radius, line is eastern and central standard as the clock is labeled. (2) The clerk is wrong in saying an upper berth costs more than a lower. (3) "Almonds" on the wall sign, should be almonds. (4) There is no place to stand on the scale. (5) The scrambled word is NARROW.

## A TRUE STATEMENT BY MAJESTIC

Model 92

There has never been nor ever will be a statement put in print by the Grigsby-Graham Company unless it can be substantiated by proof. Facts so demonstrable that even the lay mind may comprehend. Whether you own a Majestic or are merely thinking of owning one, you have a right to know that Majestic is still far and away the leader in sales, in popularity and in sales of purpose—to give the greatest value for your money and investment. Production facilities may offer, for the least money.

In the language of the Better Business Bureau:

**BEFORE YOU INVEST INVESTIGATE**

Ethics of some manufacturers in making wild statements and wild claims about sales of radios are deplorable. It is up to the public—it is up to you to test their truthfulness. Just ask for the facts and figures. Don't be misled by word pictures. Before you buy a radio assure yourself that the brand you are buying will be on the market not merely for another week or month, but that you will be proud of its purchase in years to come.

Majestic challenges any radio manufacturer in the world to disprove the slogan,

**"YOU CANNOT BUY A BETTER RADIO SET THAN MAJESTIC AT ANY PRICE"**
