'Calamity Jane's' Character Bared

Butte, Mont., Dec. 6. (UP)—The young officer had his first experience when "Calamity Jane" of the famous western character appeared in the play.

An authority in the person of James Woods was born in the town June 18 in the year 1840.

Woods was a true character of the west, a pipe-smoking, tobacco-chewing, swearing, swaggering, and just plain old-fashioned westerner.

Calamity Jane's real name was Jane Hudson, Woods said. He, her admirer, of character, father, Jack Hudson, was killed in the town of Laramie, Wyo., in 1861.

Attempt to Test Kellogg Treaty Against War Fails

RUSSIA OBJECTS TO ACTION TAKEN BY GREAT POWERS

Moscow surprised that U. S. should give advice to a nation it does not recognize.

NEW YORK, Dec. 5.—The first attempt to test the efficacy of the Kellogg-Briand treaty, Russia's answer is in the negative. It is the opinion of the Russian government that the treaty is not binding on Russia, and that it is not a part of the law of nations.

An attempt by Secretary of State Stimson, of the United States, to line up the opinion of the world against belligerency between China and Russia in their current dispute was blocked by this important factor.

The first was that Russia and Japan refused to cooperate. The

second was the fact that when Russia took the stand that the Kellogg-Briand treaty is not binding on her, she was not alone. She was joined by 22 other powers that have subscribed to the anti-war treaty.

Another important effect of the Kellogg-Briand treaty is that it has made it possible for the representatives of 16 nations in Paris to sign a peace treaty on August 27, 1928, which has been frustrated.

Stimson's move was made, however, with the hope of bringing about a peace treaty with Russia and Japan.

POTATO MARKET IS UNSETTLED

Trading was rather light at Idaho's shipping points during this time. In the Idaho Falls section, prices showed very little change, with track sales on a regular basis, ranging from \$2.00 to \$2.25 according to size.

Number two showed some fluctuation but on the whole remained steady at \$1.50. Bureals were very scarce and only one or two sales were reported with the best of the crop.

During the first part of this period and then rising up at the close, Wisconsin prices on number one Bureals in the Idaho Falls section showed a weakness at the opening of the period and then declined steadily for a few days but picked up again at the close.

It is noted that a great change was noted in the prices of the Idaho Falls section during the first part of this period, the Twin Falls section reported a fall in prices of 10 to 15 cents during the first part of the period, prices holding steady at \$2.00 to \$2.15, according to growers for loaded cars during the greater part of the time.

Trading on fancy potatoes and bakers was quite active in that section at the time and prices on bakers often ran considerably above the quotations.

The San Luis valley of Colorado reported a firm market for brown beauty and Red Meates at the close of the ten days, prices ranging from 5-10c higher than the opening day. Many growers on a stronger tendency with prices on "straw" green Mountain and a shade less on round whites also played considerable weakness during the middle of this period.

However, the Wisconsin market closed almost as firm with opening prices after a slight reaction in prices.

Chicago trading was very light during the last part of this period. Cold weather that ranged from a few to several inches of snow and activity and track loadings showed an increase in spite of light receipts. A few moments was reported to outside points, however.

Prices on Idaho Bureals showed practically no change, closing at \$2.25 to \$2.30, with a slight rise at \$2.35 to \$2.40. Kansas City firm up a shade while Portland reported an advance of 5c on Idaho Bureals and 5-10c on Columbia Beauty Beauty. Local trading was rather limited.

I wish I knew myself as well as some folks seem to know me.
