Although present prediction is that the Cardinals will open the season with the same team that finished the fourth last year, several youngsters have promised to make serious bids for regular berths.

NEEDED-INGREDIENTS A SPECIAL session of the Idaho legislature is to be called soon, we are informed by the governor.

Whether the outcome of the movement will add permanently to the colors of the vista from a republican point of view remains to be seen. The six year program received a very positive spanking on the referendum taken by the state chamber of commerce.

If we are committed to an expansion of our highway program by reason of political expediency, right now is the proper time to mix constructiveness with politics.

At the same time our plan of highway administration is changed the law should also be modified to provide for an appreciable rebate of gasoline taxes back to the counties in proportion to payments made.

In his venture into business as a shop keeper Jake Hoople will have even more advice than is available to the majority of us—and there is no dearth of advice.

Best Editorial of the Day AWAY FROM HIS PURPOSE Origin Journal The purpose of the London naval conference is to reduce the fighting fleets of the five great powers and thus to reduce the cost of building, maintaining and operating the ships.

The present batch of dough that is being baked needs some more ingredients. A change from one man control of highway building to a commission plan to remove the highway program from politics.

National pride, not naval tonnage is the real issue before the five powers in the London conference, according to the observations of that sharp tongued American known as Will Rogers.

With February half gone motorists are beginning to find out in the courts that 1936 automobile licenses are bast duet.

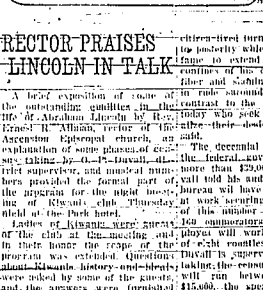

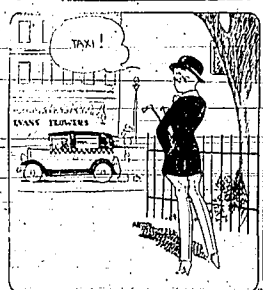

It is getting a long way from the purpose of the London conference. It was called to bring about a reduction in ships. If its purpose is to be fully accomplished the way to reach parity in battleships and still possess fleets is for the British navy to reduce its fleet.

Now comes a proposal—and from the American delegation—that the United States be permitted to build another battleship equal in tonnage and armament to British battleships.

Jerome County Sets Fair Date

JEROME, Feb. 11 (Special)—The Jerome County Fair board met in the office of the county treasurer, Earl E. Kennedy, Monday evening and organized plans for the 1930 fair. The date was definitely set for September 11, 12 and 13 which is immediately following the Casita County fair at "Turkey" Idaho.

The board did not go on record at this time as making definite plans for the proposed Sunday fair, but they may extend the fair another day to include Sunday if proper arrangements can be made for a program which will be in harmony with the Sabbath day. The request for the Sunday fair has come from workmen who are tied to their work during the week days and from farmers who are unusually busy having their crops getting in the month of September.

The board contemplates setting aside one day for children's practice of issuing tickets to the school children of the town.

Plans were being formulated for having the fireworks program for afternoon and evening and also the fire art program.

The members of the fair board expressed a willingness to report having the South-Central Idaho Club contest at the Jerome county fair again this year, as was held at the last fair.

An account of E. E. Hyde, who has been manager of the Jerome County Fair for the last two years, not being available for the 1930 fair, it was decided to divide the work up among the officers of the fair and discuss with a manager.

The fair board is recommending that arrangements be made for a race show in conjunction with the fair. They are planning to have adequate prizes offered for a horse pulling contest, and they contemplate arranging for a machine that is manufactured to register the exact pulling ability of the horses. Although this is a new feature in this part of Idaho, it has been found to be very popular throughout the state of Utah.

Mr. and Mrs. T. D. Vick, all the school children of the town, Monday for Jerome County.
