Coolidge Announces His Political Retirement

LIKES QUIET OF PRIVATE LIFE HE SAYS IN ARTICLE

Pacific Office Losses Appeal For Ex-President, Has No Intention of Returning to the Excitement of Politics

NEW YORK, April 10. (UP)—Calvin Coolidge, ex-president of the United States, today in a "columnar" article in the *Washington Post*, said he has no intention of returning to politics, and has no intention of returning to it.

The former president, who spent most of his years in public service, made his retirement today in the May issue of the *Washington Post*, "an article frankly discussing his thoughts on political life, a Senate term or a third term in the presidency, playing the market and making one's own business. Mr. Coolidge made a pronouncement which may have made notable his new found black Illinois statement, "I do not choose to run."

"When I left Washington," he wrote, "I left public office. I was an incomprehensible relief, and I had no intention of returning to it."

Elaborating this statement in his new *Washington Post* column, the president is now living in a quiet life in Northampton, Mass., in the house that he bought in 1925. He is now a member of the United States Golf Club in Massachusetts.

Mr. Coolidge's political career, which began in 1906, was marked by a quietness and a calmness that were unusual in a public man. He was a member of the United States Golf Club in Massachusetts.

QUAINI CEREMONY RECALLS DAYS OF WAGON CARAVANS

Oregon Trail Centennial Begins Today When Orics of 'Westward Ho' Split the Air; Forgotten Tunes Played

ST. LOUIS, April 10. (UP)—The cracking of great wagon wheels—the crack—of—wheels—the rattling of hoofs, and the cry "westward ho!" will reawaken old echoes here today.

A covered wagon train, two wagons and two hogs with a hand of eighty-one clad in leather jackets and cowboy hats and carrying long-barreled rifles, will leave St. Louis today. The celebration commemorates the one-hundredth anniversary of the launching of the first train to traverse the "Oregon Trail."

As to horses, mules and oxen, they will be forgotten, and the path, leading west. It was one hundred years ago today that a single horse and mule set out from St. Louis, then a small far-flung post, to blaze the trail that has become famous in fact and fiction.

St. Louis, the leader of the Oregon Trail, is being honored by Governor Henry B. Cautledge, Governor A. W. Norblad of Oregon, and a letter would have been yellow with age before reaching its destination in 1810. This one will be returned to the post office following the parade and dispatched by plane. Within a few hours it will have traversed the route which the pioneers crawled along at a snail's pace for a hundred years ago.

The inaugural here marks the beginning of similar "covered wagon centennial" celebrations which will be observed throughout the country and particularly in the eight states along the Oregon Trail.

The military here will not be concluded with the dramatic departure of the wagon train. The night the pioneers will pitch camp in the comfortable lobby of a hotel, and spend on wooden benches they will eat heartily of roast venison, beans and potatoes served in pewter bowls.

Towns in Nevada Feel Earthquake

RENO, Nev., April 10. (UP)—Citizens of Reno, Genoa, and Minden, Nevada, today were discussing the earth tremor which shook Idaho in their hours and set chandeliers to swaying yesterday.

The center of the disturbance was within 50 miles of Reno, Nevada, but no damage was reported.

Professor Claude Jones of the University of Nevada said the quake was caused by slipping of the famous fault. Deep cracks in the rock formations of the earth in that vicinity.

The tremor lasted for seven minutes and railroad dispatchers reported that it apparently covered an area from Las Vegas to Portland, from Lake Tahoe to the mountains near Reno, and left the shock as felt Sacramento, California.

CAMPAIGN OF MRS. RUTH MCCORMICK WILL BE PROBED

WASHINGTON, April 10. (UP)—The little girl who learned her politics at the feet of her father's senator friends 30 years ago was re-creating her today, with late reports of Senator Deneen's charges of a political campaign for the election of 1928.

Mrs. Ruth Hanna McCormick, daughter of the venerable ex-senator, Mrs. Hanna, who with her husband, Charles Deneen, was a Republican, is now a Democrat. Her husband is now a Democrat.

Senator Deneen, defeated candidate for nomination, alleged that large sums were spent by her daughter in 1928 to secure his election.

HOOKS and SLIDES

"This Young Man, Healey
John Joseph McGraw is not a person to be fooled, sliding out on the tip of a limb. For that reason, the prediction he broke out with down in San Antonio the other day about young Francis Healey, his 18-year-old catcher, was definitely in the nature of a joke."
"This boy is going to be one of the greatest catchers in the big leagues," said John to your correspondent, "and you can put me down for that, too."
George Burns, McGraw's former outfielder, now manager of the San Antonio team, quipped in this vein:
"I've been watching Healey for two weeks, and I don't see him making a wrong move yet."
Thus begins the big league career of Francis Healey, young Francis catcher from Shelbyville, Ky., who never having changed clothes is a minor league box office draw. He will reveal whether or not McGraw was right. If he was the story of Healey will read much the same as that of Melvin Bell and McGraw was right. If he was not McGraw was right.
Handies Healey Like Oil—McGraw is following the same system with Healey he used so successfully with the little boy from Louisiana. Healey is being kept with him in court of the pitchers and sitting on the bench, watching and studying.

Costume Ball At Rupert Colorful

RUPERT, April 10 (Special)—The fancy costume ball sponsored by the "A" club of the high school held in the gymnasium was a successful event. There were many girls and women of the faculty present, with beautiful as well as novel costumes in evidence. The girls of the Argyle club, with Miss Ruth Phillips as faculty adviser, conveyed a center of the gymnasium into a cozy spot with davenport, rug and lamp and prepared an enjoyable program, consisting of vocal solos by Helga Wooten and Zola Borup, musical readings by Margaret's Orchestra, and a clever stunt by 15 of the freshman girls. This was a pantomime of the story of Pinocchio and John Smith, the story being read by Marion LaRue and acted by other girls. The greater part of the evening was spent dancing to music furnished by Mrs. R. D. Anderson.

TO MAINTAIN CORDIALITY

THE fact that United States capitalists have invested more than three billion dollars in Canadian enterprises has not, perhaps, drawn the attention one might expect. The sanest bit of comment on it we have seen comes from E. W. Beatty, president of the Canadian Pacific railway. He says:

"It is not a penetration to which Canadians object, because it only helps to accomplish that which they all desire to see accomplished, namely, safe, sound and orderly development of its resources and expansion of its industries. We can not very well object if you share our opinion of Canada's future, and as we ourselves contribute to it in larger measure year to year, we may, I think, properly regard ourselves as partners in a very sound Canadian enterprise."
 The two nations are yearly discovering that they have more and more aims in common. The important thing is to insist on continuing the cordial relations of the past so that these aims may be realized.

THIS LOTTERY BUSINESS

IT WAS interesting news to read that two Massachusetts girls who went to New York and got jobs as coffee shop waitresses are \$12,000 richer because they bought tickets in the English Grand National steeplechase lotteries. Interesting—but it was not the type of news to do any particular good. Indeed, that news item may result in considerable harm, in one way and another, during the next year. Hundreds of people, reading it, will be inspired to go and do likewise, and will spend money they can not afford to lose on lottery-tickets that will bring them nothing whatever. If the news excited you, you might remember that for every story like that gets printed, there are several thousand that do not get printed—the stories of those who bought lottery tickets and got nothing. Buying lottery tickets is foolish business, even if one person in 10,000 does get rich out of it.

THE FIRST REALLY NEW OIL IN 25 YEARS

THIS is the simple story of the new oil that is now enjoying such remarkable acceptance: Conoco Germ-Processed . . . In the first place, this new oil is an extraordinarily fine paraffin-base lubricant. And then . . . under exclusive Conoco patents, this oil is endowed with the unusual faculty of penetrating and combining with metal surfaces. This faculty, we call "Penetrative Lubricity." The Germ Process, by adding a precious oily-essence lacking in all other oils, does this. . . And so provides constant, un-failing lubrication for your motor under any conceivable strenuousness of motor operation. Germ Process is the first fundamental improvement in refining methods in the last quarter century.

So, won't you come into the next station you see bearing the Red Triangle and join the thousands of other motorists who have changed to Conoco Germ-Processed Oil in the last few weeks?

MORMON CHURCH PRESTIGE GAINS LEADER CLAIMS

SALT LAKE CITY, April 10.—A marked change in the attitude of the world toward Mormonism has occurred during the past few years, and unprecedented toward the church is rapidly taking place, reports of Latter Day Saint missionary presidents, delivered at the continental conference, a session here.

Nine presidents of missions in the United States and Mexico addressed thousands in the tabernacle during the afternoon sessions yesterday, stressed the work of L. D. S. missionaries and its effect upon the people and their attitude toward Mormonism. Interest in the church is steadily increasing and there is an unusual demand for the Bible of Mormonism, written by Joseph Smith, according to the speakers. The book of Mormon includes a description of the type of people who were supposed to have inhabited America some ages ago.

The religious interest in Mexico came in for considerable discussion by Rev. L. Pratt, president of the Mexico mission, who declared that Protestants in the southern republic have asked Mormons in Mexico why they did not cooperate in forming a national Protestant church, voicing their opposition to religious influence from outside America.

Many prominent people in the United States and Mexico, surprising to the mission presidents, have expressed their belief in the teachings of the L. D. S. church but are unable to break away from their life habits and associations to accept membership.
