

News in Brief

Quality for Golf

Tournament... Qualifying for the women's golf tournament at Twin Falls will be held Saturday, August 2nd at 11 o'clock. The field will consist of Ralph Gillie, Mrs. Charles Larson, son Miss Vera Miles, Miss Clara Kahl, Miss Weston Koehler, and Miss Virginia Roberts. Qualifying postponed until the second Sunday for the men's tournament in September.

Alexander, Charles L. Larson,

Walter, V. G. Gray, George

M. Paulson, Duncan Johnston,

W. H. Hunt, William H. Hunt,

Walter, F. Wheeler, Bob

D. Johnson, Bob H.

Worner, Charles D. Dietrich, Bob

Powell, Jim Hamaker, Ray Powell,

Lloyd Christensen, Gordon Linn, Goffette Athanore,

Art Siffer, Earl Corum, Isaac Whitney,

Donald Clark and Ross Ward.

Clouds Bring Weather

Relief from Heat

Clouds brought a welcome

relief to residents of southern

Idaho today, hiding the warm

sun which yesterday set records

in temperatures in Twin Falls,

to a maximum of 95°. The presence

of a larger amount of humidity

in the air than was ac-

counted for the fact that many

local residents believed Wednesday

they were to be one of the warmest

days of the year.

Temperature started at 90° at

6:30 a.m. and rose to 95° by

noon.

HERE WE HAVE IDAHO.

An Evening Times news story reveals the sort of questions Thomas Edison is asking young hopefuls in his annual contest at East Orange, New Jersey.

Some of us may shrug our shoulders and treat with disdain inquiries concerning Avagadro's hypothesis or the coefficient of a microfarad.

If such subjects are beyond us what then about something nearer home? How far is it from here to the Nevada line? What bounds Idaho on the north? What five counties touch Twin Falls county? Give the name of the county that not only contains Lake Altimas in the Sawtooth basin, but also touches Snake River between the towns of Rupert and American Falls.

In a recent thumbnail sketch in a series of articles treating on Idaho, State Treasurer Defenbach reveals figures which should go down in anyone's scrapbook. They may not answer the foregoing questions but a perusal of the following should renew your interest in the subject of Idaho. Says Defenbach:

"Idaho Territory was organized in March, 1863. Its northern, western and southern boundaries were about where they are now, but the eastern line was drawn along the continental divide, and so included much of Montana and Wyoming. The State was admitted in 1890, since which time our area has not changed."

"Our state contains 83,354 square miles or sections of land, over fifty-three million acres, constituting one thirty-sixth of the entire area of the United States. Only about 500 square miles of Idaho is covered by water."

"Of the forty-eight states in the Union, Idaho is twelfth in size. It is a little larger than either Kansas or Utah, a little smaller than either Oregon or Wyoming, which four states most nearly equal it in size."

"Idaho exceeds in area all the New England states combined. It is nearly 80 times as large as Rhode Island, nearly double the size of New York state, one-half as big as California, one-third as big as Texas. It is 500 miles long on its western line, 45 miles wide at the Canadian boundary and over 300 on the southern line."

The center of area of the United States is near Julesburg, Colorado; of Idaho, not far from the Henry Ford mine in Custer county, south and west of Challis.

From Bonners Ferry to Paris, Idaho, by the usual traveled routes is 986 miles. The cities of Chicago and New York combined contain practically 21 times as many people as our entire state.

The shape of Idaho has been compared to that of a high-backed chair, sometimes to that of a shoe. It is so long and narrow, its shape is so far from a square, that it has the longest "coast line" in proportion to its area of any state in the Union."

It is obvious that the features of the state above named have an important bearing upon the per capita cost of state government, a statement intended to provoke thought, but not to be argumentative.

"Only 7.1-2 per cent is under cultivation; only 20 per cent is on the tax rolls. Nineteen forest reserves make up 36 per cent of our entire area. The state itself owns 4.1-2 per cent, while federal and unappropriated lands make up the remaining 32 per cent."

HISTORY IN THE MAKING

The week's developments in politics nationally are significant.

Only recently news reports heralded the respectability which Morrow's nomination in New Jersey had lent the west side. Since then some more primary elections have taken place, notably in Montana, in Texas, in Oklahoma. Representative states, certainly. One a southwestern state, often called a Southern state—Texas; another, a typical western state, considered "moist"—Montana; and a third, a middlewestern, border state—Oklahoma.

In two of these candidates tagged "wet" have fallen by the wayside as they were rejected by the people.

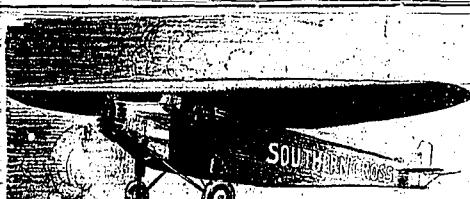

This is highly significant to those politicians who are keeping their ears to the ground.

There are many other lessons to be learned, or deductions to be made. Virginia, North Carolina and now Texas, have all spanked those "Hooverites" who strayed from the fold two years ago.

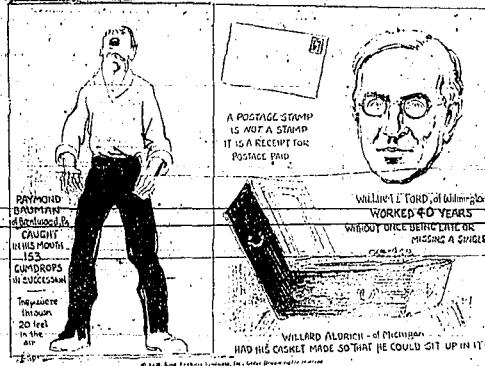

Alabama has yet to pass judgment on Heflin. A significant history is now in the making, you will note, as you settle down in the evening to read

Believe It or Not - By Ripley

Explanation of this cartoon will appear in tomorrow's Times. (Reg. U. S. Pat. off.)

The Southern Cross
THE MACHINE THAT FLEW AROUND THE WORLD.
WAS BUILT FROM 2 OLD, WORN OUT PLANES

WILLARD ALDRICH of Minot, N.D., WORKED 40 YEARS WITHOUT EVER DIRECTLY MISSING A SINGLE DAY

EXPLANATION OF YESTERDAY'S CARTOON

The blind baseball fan, Morris Levin, attended every game at City Park in Chicago during 1929 and has not missed a game this season. He is totally blind, and can sit in his seat and identify all the players in the National League, all the way from their home town. The above is verified by Jack Sommerer, 4750 N. Kildare Ave., Chicago.

The explanation for the disappearance of the dot, as shown in the illustration, is that there is a spot in the back of the eye in which there are no nerve ends. When an image is focused against this spot, the message is not transmitted to the brain, because there are no nerves to transmit it.

The 1400 Pound Steer

At the City Park in Kokomo, Indiana, the first exhibition of a steer, now staffed, which was entered by Mike and Joe Murphy. At the age of 5 it weighed 150 pounds, at 18 weight it weighed 1400, and at 21 it weighed 1400 pounds. It is a short-horned, hereford steer.

Everybody is Partially Blind

The explanation for the disappearance of the dot, as shown in the illustration, is that there is a spot in the back of the eye in which there are no nerve ends. When an image is focused against this spot, the message is not transmitted to the brain, because there are no nerves to transmit it.

HOOVER CHANGES FROM PACIFIST TO A 'PUGILIST'

President Becomes a Fighter
After Failing to Get Satisfactory Results by Using Milder Measures.

WASHINGON, Aug. 1 (UPI)—A marked change has been made in the tactics adopted by President Hoover during the recent weeks.

After trying,徒然, to get the right influences during the first 30 months of his administration, the president now, showing a decided tendency toward political *bluffing*.

The change was first manifested when he forced congress to submit to him wishes on the world war veterans pension bill, and has, he claims, been continued ever since.

Sticks at Cracks

Within the past few days, Mr. Hoover has seen fit to attack those who have been criticizing his frequent appointment of commissioners, has secured the appointment of his choice to a committee of the Republican national committee—he has, indeed, roughed up the opposition. Nicholas Longworth, an vice governor of the Philippines, has been appointed to the naval treaty commission.

Then, too, the president has decided, from his usual policy in going to the defense of Rep. Read, a member of the fine texture.

This, however, seems to be the only example of a strong, determined stand against the opposition.

There was a time when some leaders of his own party, well as those of the Democrats believed Mr. Hoover's refusal to yield the "stick" which permitted Congress to re-elect him.

Handicap Tourney Won By G. Wile

Last year in the eight-day handicapped tournament, which ended Sunday at the Twin Falls Country club, links was made by George Wile, the tournament committee unopposed today. Wile, who had been a member of the club for a good many years, had a net score of 81, and won the trophy.

Other winners were, as follows: H. C. Herd, 12-78; Sweety, 56; Herd, 12-78; Hartman, 117, hcp. 45; Colwell, 90, hcp. 18-72; McAllister, 102; Hartman, 117; Herd, 101; Goss, 101, hcp. 16-73; McAllister, 101; White, 11, hcp. 15-73; Chos, 111, hcp. 18-82.

A 52-man team triangular tournament will be played on the Twin Falls links Sunday, August 10. Between the two tournaments, the eight other tournaments will be announced. Members of the Twin Falls team will be named from players holding position checks next week.

There is still a possibility for play-off tournaments, but if no one can be found to hold a "get-together" tournament, the committee appointed out.

U. S. PROTESTS

(Continued from Page 1) surprised recent news here, were before the president today with reports that Chinese communists and bandits were resuming their northward march toward Hankow. Strenuous protest was declared, however, when the law was declared.

VARNEY'S

Cor. 3rd and 6th Streets

Drive-In

Sister Mary's Kitchen

The home baker—who must, of course, be a cook—has had not a better and better source of vitamins and mineral content than apples. Cooked or raw, they are a delicious and valuable fruit, and almost any meal or pay course can be the place for them.

After being peeled, apples are one of the best raw foods and can be served without eating a breakfast fruit. Washing is necessary for many reasons and should be well done when the fruit is to be served uncooked, or when it is to be used in salads. After the washing, however, the freedom of rough twigs and berries—*we love them*!

Joyous, carefree days—free from dusting and mending and clearing up. Mrs. Housewife sighs as she thinks... But again, the "daily chores." The housewife, however, need not be afraid of the "household chores." Yesterdays' work is still there, but it was pursued by a busy housewife and cheese sandwich which threatened to engulf her between chewing halves. Could she? John lets eat at the "Fly-Trap" today.

Camp Picnic

Everyone loves a campfire. What can be more delicious than bacon hung on a forked stick or juicy broiled steaks or pork chops browned over glowing coals? Link sausages, broiled like frankfurters and dipped exquisitely between the gaucho knives of a picnic meal, are deliciously grained fruits ripe to split apart while baking and delicious for snacking.

Fruit wanted for baking should be tart, and well-flavored. This fruit is a smooth, fine texture. Grown-ups eat the best part of apples with the best part of it. Serve plain with sugar and cream, a perfectly baked apple pie is always popular.

Apples wanted for baking should be soft, juicy, and ripe. If you want a good pie, do not be of too fine a texture, for definitely-grained fruits split apart while baking and become unattractive for snacking.

Then, too, the president has de-

cided, from his usual policy in

going to the defense of Rep. Read,

a member of the fine texture.

This, however, seems to be the only example of a strong, determined stand against the opposition.

FISHERMEN TELL TRAGIC TALE OF HUNGRY FAMILY

Claim-Jumping Blighted by Boys - Anger Lingers Upon Region From the Place Where People Are Starving

TWIN FALLS, Aug. 1 (UPI)—Blitz of contemplated claim-jumping added little interest to the stories concerning local life in the silver mining family camp in a small tent on the barren shore of the Boise river about 50 miles from here.

Ed Harris and Ed Show, Boise, returned Wednesday night from a fishing trip into the section where William Long, his wife and four children, and another "work-on-a-claim" family, had been starving in a small tent on the barren shore of the Boise river about 50 miles from here.

Mr. Harris and Ed Show, Boise,

returning Wednesday night, from a fishing trip into the section where

William Long, his wife and four

children, and another "work-on-a-

claim" family, Harris believes that

persons who have taken the lead

in attempt to "drive the family

out of the hills" are motivated by

a desire to jump the claim that

Long has staked out.

Harris learned from local serv-

ants that the claim-jumper, in

the opinion that Long and his fam-

ily had walked nearly 40 miles

across the middle fork of the Boise

river, relaying their meager

supplies and scanty supplies.

The mother-in-law, suffering from

asthma and unable to live in

the barren mountains where

she attempted to "live off the

country," Harris reported the fam-

ily to be in dire straits—and that

the small game traps which

had given the family some food

for several weeks had been

trapped out.

Reports reaching Boise state-

that the children pounced on crusts

and bits of food thrown away by

travelers, like "little starving ani-

mals."

UNIVERSITY OF IDAHO, MOS-

COW.—University authorities re-

quested from Mr. Oscar Mor-

ris, secretary of the Idaho state

legislature—whether committee

concerning the appointment of a suc-

cessor to George L. Ulmer, Kel-

logg, Idaho's Rhodes appointee,

who died of heart disease

while swimming at Haynes lake

National given the right to not

appear on Idaho prison records,

but "what is in a name?" say Idi-

oan officials. In the event the three

men escape from Idaho, And-

aho officials, probably prostrate

themselves before the law and

ask for leniency.

EDOME, Aug. 1 (Special)—

A never announcement partly was

given at the home of Mr. and Mrs.

Frank Thomas, Wednesday even-

ing, when their daughter, Helen,

announced she was engaged to

John C. Williams, a teacher of

bridge who played bridge.

Mildred Algren

son received high score, and Mrs.

Dale Thomas low. After the games

the guests were seated at one

large table, when was beautifully

arranged with flowers, and

most beautiful summer flow-

ers were used thru the house.

Flower favors were passed at the

table which concealed cards bear-

ing the names of Helen Thomas

and Clarence Williams.

The annual meeting of the Ju-

nior Class Association was held at the

newly-constructed Main Auditorium

of schools, outlined his

summer work in Idaho, and spoke

on conditions, problems, Dr. J. Kard

and other matters.

Mr. John C. Williams, a teacher of

bridge, and just married, is spend-

ing a winter club in Jerome.

Boys Shoot Calf; Think It's Coyote

Minotaur, a calf, including its horns, was shot by three boys, admitted to sheriff's office here yesterday afternoon that they had shot the animal. The boys, near Martindale, were camping near the road and fired at it.

Officers questioned the boys,

whose ages ranged from 15 to 17,

in an effort to connect them with the killing of a coyote, or of the animal, which was shot near Martindale. The boys steadfastly denied any part in the robbery of the calves.

CRASH KILLS ASHVILLE, N. C., July 31 (UPI)—Four persons were killed and five injured when a solid-seating automobile collided head-on with a small motor truck near Weaverville, N.C., Tuesday night. Cecil Anderson, 14; Mrs. Cindy White, 70, and John White, 20, all of Dar-

nelville, were killed. The two drivers, a man and a woman, were uninjured.
