

# News in Brief

## Society

### State Chamber Comments

On Gooding College  
Gooding college at Gooding is the subject of an article in the State Chamber News, the official publication of the Idaho State Chamber of Commerce, just received. Both the chamber and the Idaho State Chamber of Commerce comments on the good work being done there. "Gradually Gooding college is attracting the attention of the public," the article states. "Each year sees a large addition to those citizens of nearly communities who become students and supporters of the institutions for they realize that the big and important thing is Gooding college is doing to take people from the various rural areas of southern Idaho high schools, the boys and girls who, when they have finished the four years of training, will go to work into the various communities to become leaders in youth while activities."

### Auto Association Plans School Boy Patrols

The Idaho state Automobile association will start the organization of school boy patrols throughout the schools of Idaho. Shortly after the opening of school for the year according to the news from the head office of the organization. The purpose of the patrols will be to direct and control members of the school student bodies in crossing streets in the city. The patrols will have no police power, and will not affect vehicular traffic. No definite plans for the patrols have been made in Twin Falls, but have been announced.

### Congressman Invited to Irrigation Meeting

Conrad Addison T. Smith has been invited to attend the ninth annual "convention" of the Columbia Basin Irrigation League which will be held at Yakima, Washington, September 27. Plans for the drive for federal aid for the irrigation project will be discussed. Among those who will be present are Dan L. Lyle, Director of the Bureau of the Interior; Elwood Mead, commissioner of reclamation; Senators W. L. Jones and C. C. Dill of Idaho; Washington Governor W. E. Ross and John W. Thomas of Idaho. Governor H. C. Baldwin and others joined in the all-day celebration at Durley.

### Sixty Substitutes

Advised by his physician to cur-

tail speaking engagements for the time being, Senator William F. Borah, scheduled to speak at the celebration at Durley today, No. 113, I. O. O. F., was obliged to cancel his engagement. In his place Addison T. Smith, member of the legislature, spoke. He accompanied T. J. Lloyd to Durley Monday morning. A number of Twin Falls Odd Fellows joined in the all-day celebration at Durley.

### Parks Auto Company

Reopened After Fire  
The Parks auto company here opened a Chrysler auto agency here this week in the E. T. Guttery garage on Second avenue north, according to the news from the company's office. The company formerly operated auto rooms here, but later withdrew to Boise. John B. White, who manages the Parks, offered to help him. Mr. White, formerly with the Magog Auto company, was formerly with the Magog Auto company.

### Girl Scouts Donate Library Books

Books of special interest to Girl Scouts will be added to the library of the Twin Falls public library, as the result of a collection by a committee of the girls. Money recently donated to the library by the Girl Scouts will be used to purchase the books. A group of several books has already been placed in the library from this fund.

## LABOR DAY

**THE NATION** today honors Labor throughout the land.

In practically every city and town, business will be at a standstill and the wheels of industry, which ordinarily turn as the result of Labor, are slackened to pay tribute to that indispensable force.

Unstintingly is all credit given that element which forms the bulwark of the country in times of peace as well as in the war and works with science, with commerce, with business, with agriculture, with the arts, with nature and with God in factory and shop, in mine and stream and forest to provide the millions with their necessities, their luxuries and life itself.

All honor, then, to labor and its boundless benefits to civilization.

## ROGERS ON BORAH

**WILL ROGERS** has given national publicity to a grievous error when he proclaims in his daily dispatch printed in hundreds of newspapers that the Democrats of Idaho did not nominate a candidate to oppose Borah. The Democrats want Will to know that Joseph Tyler of Emmett was nominated at St. Anthony for United States senator. The nomination was not handed out on a platter either, for Tyler had an opponent in the person of E. M. Holden, who lost by a vote of 65½ to Tyler's 68½, it requiring 68 votes to nominate. Now when Will reads this he will know that the report that Borah has no position is greatly exaggerated!

## THEY'LL CUT BOTH WAYS

**NATIONAL** air shows like the one held at Chicago provide material for both the optimist and the pessimist.

They lift up the optimist by demonstrating how mankind has conquered the air and by indicating a new method of escape, a new form of recreation more thrilling and uplifting than anything ever developed before.

At the same time they put another crease in the pessimist's brow by reminding him that these marvelous machines are, after all, largely designed for purpose of destruction. Those army planes that swoop along in such inspiring styles given the proper conditions they could be apparitions more dreadful than the pale horsemen that St. John saw from Patmos.

So it is that an air show of this kind gives you mixed emotions. You can see in it the incarnation of a race set free, or you can see in it a glittering new weapon with which humanity one day will blow its brains out. You're right, either way. The airplane, like most of the rest of our inventions, can cut both ways.

Indeed, it often seems as if that knack of inventing two-edged tools is the outstanding characteristic of the present age.

We devise marvelous machines, only to find out that we have, thereby, given ourselves enormous responsibilities. These intricate devices of ours may yet make it possible for us to lift ourselves by our own bootstraps; similarly, they may bring us to the point where we shall proceed to exterminate ourselves, calling back the Dark Ages for all the earth with all the unsuspecting innocence of an infant playing with a fulminate of mercury torpedoes.

All of which, perhaps, is just a sign that we are a little-bit more clever than is altogether good for us. One side of mankind's brain has developed amazingly. People can fly through the air, send their voices around the world and enslave mechanical slaves to do their drudgery; but one is permitted to wonder just how much good this is all going to do us if we do not have the intelligence to use these new devices properly.

At any rate, the combination of things ought to make the current era exciting. For better or for worse, we are going somewhere at a rapid clip. It may be that we are headed for an order of society, a way of life, more magnificent, free and inspiring than anything that was ever dreamed of before; on the other, we may be about to engage in self-destruction on a stupendous scale.

That is the cross-roads to which this age of inventions is bringing us. We are traveling fast. It depends on our collective common sense whether we shall go up or down.

## ANNUAL FINANCIAL STATEMENT

Independent School District Number 1  
Twin Falls County  
Idaho

For Fiscal Year Ending June 30, 1930
