HOOVER REFUSES TO TAKE PART IN PROHIBITION ROW

President Maintains Neutrality, Declining to Make Any Statement; Recent Developments Influence Decision

WASHINGTON, Sept. 11 (UPI)—President Hoover has declined to keep clear of the Republican controversy over prohibition in Ohio and New York, it was learned today at the White House.

The Ohio Republican convention at Columbus today and the New York convention Sept. 25 will hear no word, public or private, from the President regarding the issue which is causing party difficulties in those two states, it was said.

He did not have been consulted by his party following these developments.

An announcement by Republican National Committeeman Maurice Macsack of Ohio that "a political upheaval" impends unless Congress finds some way to submit the prohibition issue to the states and settle the question.

Rep. John J. Shadwick, Murray, but president of Columbia University, to go into the New

York Republican convention directed for a final contest with Rep. publican prohibitionist even if it means a party split in the state.

The result of Tuesday's primaries in which such Rep. publican prohibitionists as Rep. Hudson, of Michigan, and Rep. Miller of Washington, were defeated for renomination.

More significant than the defeat of these two, however, is the apparent defeat of Rep. Cromwell

HARRIS WINS IN GEORGIA VOTING

Sister Triumphs by Landslide Over the Former Governor John M. Blanton

ATLANTA, Sept. 11 (UPI)—Senate candidate, Mrs. Lillian, general election, has won the "justiceship," bipartite election, today. She had won a sweeping victory over her opponent for the chairmanship: former Governor John M. Blanton, incomplete, returns from 147 of the 181 counties in the state gave Harris 383,000 votes while Blanton got 4,816, was leading in only two counties.

In the gubernatorial contest, incomplete returns, gave George H. Carwell, county unit votes; Hitchcock D. Russell, Jr., 125 county-unit votes; E. D. Rivers, 30 county-unit votes; John N. Holdren, the county-unit votes; A. H. Smith, 10 county-unit votes. Indications are that a run-off primary will be necessary to select Georgia's next governor.

BOISE, Sept. 1 (UPI)—Frank E. Jones, pres. of the Idaho Public Utilities Commission, is in Baker, Oregon, where he is meeting with the Interstate Commerce Commission to discuss the interstate commerce commission's opposition to petition of the Oregon, Washington Railroad and Navigation Company to abandon its line from Elkton Junction, Oregon to Homedale, Idaho.

The Idaho commission has filed a complaint against the interstate commerce commission opposing petition of the Oregon, Washington Railroad and Navigation Company to abandon its line from Elkton Junction, Oregon to Homedale, Idaho.

President Macdonald, witness, suffered from disease at the trial of Mooney and Billings.

SAF FRANCISCO, Sept. 11 (UPI)—A fight to prove that John McDonald, key witness, was a chronic invalid at the time he testified against Thomas J. Mooney and James C. Martin, was fought today. Dr. H. G. Naffziger, who Billings was convicted largely on the evidence submitted by McDonald, of the 1916 San Francisco Preparedness Day bombing in which 10 persons were killed.

The movement started yesterday when Dr. H. G. Naffziger, professor of surgery at the University of California and an eminent brain specialist, filed an affidavit with the state Supreme court, considering a request for a pardon made by Billings. The affidavit was signed by Dr. C. G. Young, who will issue a similar application of Mooney's.

Dr. Naffziger's report, made after a perusal of court records of the case and based, he said, on his own personal knowledge, indicated that Mooney, a "weak" man from mental and he was an invalid in whom opinion I would personally not lend any great weight."

Dr. Naffziger pointed out that he was called as a witness before the Senate committee, considering evidence of Mooney's application for a pardon, but was unable to attend because of the sudden closing of the hearing.

He diagnosed Macdonald as suffering from a form of blood disease, and a sick nervous system.

The affidavits of Mooney and Billings, in account of the San Francisco bombing, were made separately. Billings' account of the bombing, giving final details of commerce intends making the tour the most outstanding feature of the trip.

By United Press

Robert M. Greinke had a hand in the National League pennant today, but all but clinched major league pitching honor for the season. Groce, who won his 20th victory on Tuesday, was idle yesterday as Wesley Ferrell of the Cincinnati Reds, who had a 20th defeat, failed in an attempt to win his 25th game of the year. The New York Yankees were the victims of the big right-hander's failure, touching him for 11 hits and a 7-2 victory.

The Athletics, with 11 games to play, practically had clinched the American League pennant. They were blanched 2-0 by the Detroit Tigers yesterday but still lead by 6½ games as the second place Washington Senators were passed out 3-0 by the St. Louis Browns.

Danny MacFayden, limited the Boston Red Sox to a 6-2 win over the Chicago White Sox. MacFayden allowed the Sox only six hits.

In the National League, Tuesday saw the St. Louis Cards and the Brooklyn Robins clinch within 1½ games of the leading Chicago Cubs. The Cards, thanks to Jim Bottomley's eighth home run, beat the St. Louis Browns, 6-2, and New York Giants 5-3, while the Robins blanked the Cubs 6-0. Adolph Lopuck gave the Cards five hits.

Tom Zachary gave out four hits as the Boston Braves shut out Atlanta 4-0. The Atlanta Braves, however, had hit his 34th home run of the season in the first inning.

The Phillies made up for

the loss of the Chicanos

with a 10-2 win at Westbury,

winning 5 to 1.

FRENCH SURGEON HITS NAPOLEON EPILEPSY TALES

Controversy Grows Heated Over Peculiarities of Family Members; Old Legend Comes In For Attack

By HENRY CUMMING
United Press Staff Correspondent
PARIS, (UPI)—The persistent legends that the genius and success of Napoleon were due chiefly to a condition of epilepsy have been vigorously attacked in a lecture recently delivered by Dr. Raoul Haude, eminent French surgeon.

Reviewing the attempts of various physicians of the past to prove Bonaparte the victim of a malady that insured the unfitness of his uncanny energy, and at the same time made him frequently to adopt the antics of a demented fool, Dr. Haude scores the unscientific inaccuracy of these medical historians.

He dwells upon the remarks of two diagnosticians particularly: Jambon, celebrated Italian professor of criminal pathology at the University of Turin, who branded the French emperor as an epileptic and degenerate; and Dr. Coas' Coast, a more recent and determined exponent of Napoleon's epilepsy.

Replying to charges made by both physicians that Napoleon's affliction was the natural result of a diseased ancestry, Dr. Haude pointed out that no proof existed to support such a statement, as far as Napoleon's parents are concerned. He asserted that the evidence to effect that the emperor's father was a drunkard, his sister Pauline a chronic hysteretic, and his mother sorely avaricious, the French surgeon takes definite exception. The father, he affirms, was a singularly temperate man, and a stout one, too; the sister's afflictions may have greatly exaggerated, and the mother's form as she was to promote righteously, only normally eccentric.

Dr. Haude particularly scoffs at the paradox stated by Cesare Jannini that unless Napoleon had been an epileptic, he would have died unknown.

TWO PROMINENT CHINESE JAILED AS MURDERERS

PEKING, Sept. 10.—(UPI)—Two prominent Chinese men, accused of being the leaders of an assassination corps, which has already killed a number of leaders of the Left Wing of the Communists and according to the police had planned to murder many more.

The police allege that Huang Poyan, one of the men now in jail here, is employed directly by General Chiang Kai-shek, chief of the government at Nanking, and leader of the supporters of the Kuomintang. They declare they have evidence that Huang engineered assassinations in Shanghai and Canton.

Huang came to North China last May, the police claim. In order to secure the nomination of Wang Chingwei, leader of the Left Wing, who was expected to come to North China at that time, Wang Chingwei, however, remained in Hongkong, waiting for Right and Left Wing leaders to settle their disputes and agree upon the principles of a new working government.

Wang Chingwei, who has consistently been General Chiang Kai-shek's principal opponent inside the Kuomintang, has been in prison for years. When he came to Shanghai in 1927, he surrounded his house with four sets of guards, and did not venture into Chinese territory.

The Chinese press here declares that Wang Chingwei has been held in custody of his opponents by assassination, employing gunmen from Shanghai and Canton. This, of course, is the statement of newspapers operated by General Chiang's political opponents, and there is no independent evidence to substantiate these claims.
