GEM STATE SHIPS 526 CARLOADS OF SPUDS LAST WEEK

Potato Movement From the Late Producing Regions Heavy, According to Reports From Idaho Falls

During the last week, Idaho contributed 526 loads of potatoes to the national supply, according to the weekly potato market report issued by the United States department of agriculture at Idaho Falls. Harvest this potato movement from the late producing areas was the heaviest of the report states. Total Idaho shipments averaging 1210 cars.

Washington shipped 250 cars, California 176, Colorado 108, Nebraska 556, New York 10, North Dakota 877 and Wisconsin 272. Michigan had not yet become a factor. Long Island, New York and Wyoming made up most of the balance.

Digging was reported last week at its peak with fifty more acres being hauled to local storage and shipments well into the potato harvest last week. While North Dakota, Nebraska and Wyoming were moving their crop, the Nebraska harvest was reported to have just started in the big dry land section around Hastings. The potato crop in Nebraska.

Several of the largest shipping centers were in direct competition with Idaho potatoes during this time, namely Colorado, Nebraska, Washington, Wyoming and Oregon. The advantage of cheaper freight rates, the Colorado and Nebraska crops were moving freely into the southwestern and southern states and cutting down the demand for Idaho potatoes.

Highway Crash Kills 4 People

MUNICH, Ind. Oct. 9 (UP)—Four persons were crushed to death today when their automobiles collided with a truck from Chicago on a highway six miles east of here.

CONGRESS TACKLE LABOR PROBLEM SOON

Hoover's Commission Planning to Let Legislators Work Out Solution at the Coming Session in November

WASHINGTON, Oct. 9 (UP)—President Hoover's law enforcement commission plan to let congress, for solution, early in November.

From an internal source, the United Press learned today this was considered likely to quiet the commission's congressional critics.

Cougars Prepare For Trojan Mix

PULLMAN, Wash., Oct. 9 (UP)—With the opportunity to come before them, the doubling Washington State college allowed to snuff through another interview to have felt the commission was capitulating to political pressure.

Young Lindy Will Choose His Career When He is of Age

NEW YORK, Oct. 9 (UP)—Charles Augustus Lindbergh, Jr., will choose his own career when he is of age, his father said in an interview with the father in the November issue of the Pictorial.

Mr. Lindbergh laughed when the interviewer asked him about his present plans for his son's future.

Quake Is Recorded

STRASBURG, France, Oct. 9 (UP)—A violent earth tremor was felt throughout Alsace at 11:30 p. m. Wednesday.

WINE SUSPENDED

NEW YORK, Oct. 9 (UP)—Prigo and Widely, one of the largest stock exchange houses, were suspended from the stock exchange today for insolvency.

OIL CHARGES OF RALPH S. KELLEY ARE UNDER FIRE

John M. Lovejoy Attacks Allegations of Suspended Land Official During Address at Petroleum Meet

TULSA, Okla., Oct. 9 (UP)—Charges that "western oil shale lands are being disposed by the interior department need not wait for any one," the opinion of John M. Lovejoy, New York, who addressed the seventh annual international petroleum exposition and congress.

Speaking before a mid-continent oil and gas meeting, Lovejoy attacked charges of Ralph S. Kelley, Tulsa, Okla., who had been suspended from his position as land official, who declared that the interior department has allowed new large fields.

"I have just finished a two-month study of the situation in Gettysburg Hill, Calif., and find that the oil industry there, as elsewhere in Colorado, is producing in its raw market.

TYPHOID FEVER WARNING GIVEN

With four cases of typhoid fever reported in Twin Falls county, one of which is thought to have been caused by the water in two cases from other counties being treated here, a warning that care should be taken in drinking water is given.

Jesse James' Granddaughter

The health department has received information from the laboratory reports of domestic water supply examination, that in many of the rural schools the water is contaminated.

Miss Clara Belle Kline, from the noted outlaw, has gone into the highway business herself—but she and her sister have opened near Culver City, Calif. The establishment has a display of a number of Jesse James' personal effects, including the bandit's spurs and a Winchester rifle that he carried for eight years, with which Miss James is shown above.

It is believed that the typhoid fever is being spread by the use of typhoid-paratyphoid serum in three successive doses, one week apart, and the use of the vaccine, which is prepared to the highest standard for use in the laboratory.

Miss Clara Belle Kline, from the noted outlaw, has gone into the highway business herself—but she and her sister have opened near Culver City, Calif. The establishment has a display of a number of Jesse James' personal effects, including the bandit's spurs and a Winchester rifle that he carried for eight years, with which Miss James is shown above.

Bean Threshing Again Resumed

Bean threshing was resumed Monday afternoon following a week of intermittent rainfall which dampened the bean crop. It is believed to have damaged the crop in any way. The threshing is somewhat below last year's.

Miss Clara Belle Kline, from the noted outlaw, has gone into the highway business herself—but she and her sister have opened near Culver City, Calif. The establishment has a display of a number of Jesse James' personal effects, including the bandit's spurs and a Winchester rifle that he carried for eight years, with which Miss James is shown above.

THE WHY OF BRUTALITY
A COMMITTEE of the American Bar Association, appointed to study lawless methods of law enforcement, recently made this report concerning police brutality:

"We can only say that the 'third degree' in the sense of rigid and severe examination of men under arrest by police officers or prosecuting attorneys or both is in use almost everywhere, if not everywhere, in the United States."

There is nothing in that remark that has not been suspected by most people who devote any thought to such things; but the statement is disturbing enough, in all conscience, and it probably will be the jumping-off place for a new campaign against third degree methods everywhere.

Now the third degree is a disgrace to civilization, and deserves no defense. But while we are campaigning against it, we might as well look a little farther and figure out just what it is that causes the third degree to be so generally used.

Policemen and prosecutors, to begin with, are no more brutal than the rest of us. Some of them are hard-boiled and a very few are downright cruel but in the main they are pretty representative citizens, as decent and kind-hearted as their jobs will let them be. Why then, does the ordinary man who is arrested as a suspect in a crime take it for granted that he will be kicked and cuffed and bruised and whipped when he reaches the station house?

The real reason probably lies, not in the police station, but in the courts of justice.

The average policeman is pretty cynical about the courts. He sees notorious rogues go into court and come off scot-free because of the machinations of clever lawyers, the intimidation delays of legal procedure, the favoritism of judges, the intimidation of juries or the connivance of unscrupulous court attendants. He knows that arresting a criminal is much easier than convicting him. He knows that there are often wheels within wheels in legal machinery.

So it becomes a police axiom that the case against a suspect is hardly complete without a signed, sworn confession, and it is the eagerness to get this confession—born of the sad knowledge that without it the best case in the world may fall through—that causes the third degree.

All of this, of course, does not form an excuse. No language is strong enough to condemn the practice of torturing prisoners into making confessions. But understanding this background may help us in the task of eliminating the third degree. Concentrating our energies on the courts might do more good than simply calling policemen names.

HAVE YOU REGISTERED?

THOSE who are not registered and who intend to vote at the general election November 4, should bear in mind that only fifteen days remain in which to register; this excludes Sundays. The closing date of registration books is positively Saturday, October 25.

The books of registrars in each precinct are now open for the recording of the names of those who have not yet registered and for taking transfers. Those who registered for the primary will not have to re-register, but registration of two years does not count. Register today!

PHYSICIAN FOR CORONER

A NEW THEORY has come to pass regarding the qualifications of a coroner. In this county the position has always been filled by a licensed undertaker, apparently just because it was custom.

In many sections it is recognized that the most competent occupant of this office is a physician. There are several reasons for this, chief among which is the fact that the real problems of coroner consist in determining causes of deaths, and that nearly always the opinions of doctors must finally be relied upon in such matters.

Then again, there is always the possibility that a coroner who is also undertaker, might commercialize his trust to the detriment of his fellow practitioners, much more readily than would perhaps be the case if a disinterested person were in charge of cases, permitting the undertaking and funeral details to be separate and distinct matters.

A few elections ago, the voters of this county came within 26 votes of naming a physician as coroner. This year a similar opportunity is again presented to the electorate. Dr. H. N. Leete, Twin Falls physician, being a candidate for the office of county coroner on the Democratic ticket.

The idea has seeming merit and might well have been a trial. It is up to the voters in November.

M., which said mortgage is alleged to have been fraudulently described and delivered to plaintiff and which still remains unperfected of record, and you are notified that you are to quiet title in plaintiff and against you, in and to the East 1/2 of the Southeast Quarter (SE 1/4) of Section 20, Township 30, Range 10, E. B. M., in

IDAHO BOWS TO FORWARD PASS

UNIVERSITY OF IDAHO, Moscow, Oct. 9.—Two early non-conference games against Montana State college and the College of Idaho have proved two things to Idaho football followers. One is that the way to score on Idaho by passing, and the other is that the way for Idaho to score is not by passing.

The Vandals lost the first game of the season by a one-point margin to the Montana State footballers through their inability to solve the passing attack of the invaders. But was the second contest from College of Idaho in spite of a passing game which bewildered Callahan's men whenever the Coyotes got the ball.

Statistics of the two games played so far reveal that Idaho far outclassed both her opponents on defense and offense in straight scrimmages failed utterly to solve the aerial games of the Bobcats and Coyotes and put up a weak sort of passing attack whenever the Vandal field generals decided to deviate from the power line through and the sweeping and run characteristic of Callahan's style of football.

The Vandals have made 37 first downs, to 14 for their opponents and 600 yards from scrimmage compared with 128 chucked up by the two other teams. The Idaho team has thrown 19 passes, five of which were completed, compared to 25 passes, 14 of which

were completed by opponents. While the Vandals were realizing 32 yards from the five passes which were complete, opponents advanced the ball 20 yards, 70 by the Bobcats and 15 by the College of Idaho eleven.

CARS ON WAY TO SCHOOL COLLIDE

CLIVER, October 9 (Special).—The children of Henry Scheifer sustained cuts and bruises when the car in which they were traveling to school, driven by their father, collided with a monster truck driven by Woodrow Robertson, enroute to Filor rural high school. The accident occurred at the R. C. See corner.

The Scheifer car was thrown clear of the road. Albert Scheifer was the most seriously hurt, being unscathed all day. Scheifer's car was badly damaged. The Robertson car was only slightly damaged, the fenders being bent the two other teams. The Idaho team has thrown 19 passes, five of which were completed, compared to 25 passes, 14 of which

"I ADMIRE"

Says
GEN. OTTO H. FALK
 One of America's Leading Industrialists:
 President, Allis Chalmers Mfg. Company

Vice-President and Director, The Falk Corp. (manufacturer of steel castings, etc.) Director First Wisconsin National Bank First Wisconsin Trust Company, Wisconsin Telephone Company, Milwaukee Mechanics Insurance Company, National Enameling and Stamping Company, Granite City Steel Co., the Falk Investment Company.
 President, Public Safety Commission of Milwaukee; Regent of Marquette University Director, Merchants and Manufacturers Assn. of Milwaukee.

"The days are gone when a manufacturer can achieve national acceptance for his product merely through a vast advertising expenditure. Today's intense competition demands that a product be identified with a quality distinctly its own. And so I, as a fellow manufacturer, admire your enterprising use of the Ultra Violet Ray in the 'Toasting' of the LUCKY STRIKE tobacco."

LUCKY STRIKE—the finest cigarette you ever smoked; made of the finest tobaccos—the Cream of the Crop—THEN—IT'S TOASTED. Everyone knows that heat purifies and so TOASTING removes harmful irritants that cause throat irritation and coughing. No wonder 20,679 physicians have stated LUCKIES to be less irritating! Everyone knows that sunshine mellows—that's why TOASTING includes the use of the Ultra Violet Ray.

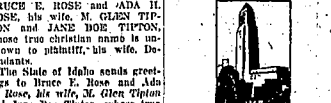

"It's toasted"

Your Throat Protection—against Irritation—against cough
 Consistent with the policy of laying the facts before the public, The American Tobacco Company has invited General Falk to review the reports of the distinguished men who have witnessed LUCKY STRIKE'S famous Toasting Process. The statement of General Falk appears on this page.

RADIO BEACON TO BE ERECTED SOON

BURLEY, October 9 (Special)—Completion of two government buildings to house the \$25,000 radio beacon and sending station will be made very soon, according to contractors who will be in charge of the work. One of the structures houses the radio beacon, while the other is a modern home for the person in charge of the radio station here.

The radio beacon is to be situated between one in Boise and the other in Salt Lake and is for the purpose of routing air traffic in case of low visibility. About the middle of November the beacon is expected to be in operation. Each of these beacons has a maximum range of 500 miles, sending V-shaped beams having a width of 10 miles at their widest part, most distant from the station. Pilots maintain their course either through the steel or vibrating rod systems. In the case of the latter car distinguishes a distinct change in sound when the plane leaves its course. In the case of the latter which is common more especially in fog, the radio keeps his course by observing the "beat" in the combination of two white lines. In a conference on the instrument board, Capt. Schindler of Army Air Corps, has arrived to take charge of the new radio station. He states that the radio beacon will give a continuous wave of approximately 1,000 meters.

The latest type of vacuum tube transmitter will be made use of, thereby insuring no interference whatever with the unobstructed reception of local radio instruments. For the present, the apparatus for this station will consist of four poles, some 60 feet in height, and set at a distance of about 100 feet. The entire cost of the installation it is believed will be between \$25,000 and \$30,000.

Gooding Service Is Impressive

GOODING, Oct. 9 (Special)—The annual "candle lighting recognition service" of the Gooding College, was held last evening at the presence of the old members of the organization and the students. It was the 15th anniversary of the organization and the program of the Young Women's Christian Association, each new member being given a candle from the "candle of life" which is symbolic of all that was worth while and wonderful in life and also representative of the leadership of Christ.

Officers of the 1930-31 organization at Gooding college are: President, Dorothy Houston; Director, Margaret; Editor, Elizabeth Johnson, Eureka, Utah; Treasurer, Emma Silvers, Minneapolis, Minn.; Secretary, Ruth Randall, Kuna; Religious secretary, Alma Mae Groves, Kimberly; Social secretary, Mrs. Lowry Gooding; World fellowship secretary, Georgia Dean; Gooding publicity secretary, Marie Huxon; Twin Falls; undergraduate representative, Ruth Street, Portland; Freshman representative, Dorothy Dwight, Piler.

Glover Residents Attend Celebration

GLOVER, October 9 (Special)—Mrs. William H. Glover, formerly of Glover, now living near Hanson, went pleasantly surprised Sunday evening by the members of the Twin Falls Manual Laborers' Ladies' Aid society, at the occasion of the twenty-fifth wedding anniversary. Guests from Glover were Arthur Werner and family and Oscar Walters and family.

Mrs. and Mrs. Armin List were hosts of dinner Sunday for Mrs. and Mrs. Jess Lawson and children, Mr. and Mrs. Herbert Larson and children, Mr. and Mrs. Ed Oppiger and children, Mr. and Mrs. Theo Ohlberg and sons and Grandmother Bachman.

Trinity Lutheran congregation had a quarterly meeting Sunday afternoon and Carl Matson and family were taken into membership.

Mrs. Henry Jaeger, of Pomeroy, is celebrating the 15th anniversary of her marriage at dinner Sunday evening in her home. Guests were Mr. and Mrs. Albert Lerman, Sr. and brother, Carl Lerman, who left Monday for Orange California after visiting here the past three months.

Mrs. Theo Ohlberg, Mr. and Mrs. G. C. Wosterkann attended the United States Marine band concert at Twin Falls Sunday evening.

Victim of Motor Accident Rallies

ROBERTSON, October 9 (Special)—Holbert Miller, who was struck down by an automobile last week in Twin Falls, came generally hospitalized from severe injuries. He is improving satisfactorily.

Robert Thompson, former drugist of Robertson, now residing in Rupert, was a dinner guest at the home of Mrs. C. A. Ross and family Saturday.

Mr. and Mrs. Harry Kluter, LeRoy, Mass., and Mrs. Ethel Kluter, Boise, and Mrs. Mary Currier were in Twin Falls Thursday.

Calamity

It is feared I should be informed of the bankruptcy of my principal debtors, the loss of my property would be a great inconvenience to me, perhaps for many years, but it would be worse for me if I were a debtor. My principal debtors are not worse. So it is with calamity; it does not hurt me unless I have a debt. I have a debt. I have a debt. I have a debt.

OVERCOAT SPECIAL

\$13.95

YOU SAVE ABOUT \$8.55 ON EVERY COAT

A Special Planned, Purchased, and Packed Away Last Spring When Overcoat Factories Needed Money Badly.

Mt. Rock Type Big Fleece Overcoats—Blues—Oxfords—Browns
 Tans—Double—Breasted—Half—Beats—Quarter Lining—
 —Finest Workmanship—

PLEASE NOTE—

The manufacturer assured us that these were genuine Mt. Rock fleeces made from piece goods he had picked up at a sacrifice sale. This fabric is extra thick and warm but surprisingly light in weight. It has a heavy fleecy surface which should never wear off. The appearance of style is unmistakable. While to be conservative we said the regular price was \$22.50 on these overcoats, actually we believe it to be more, based upon what we saw in regular overcoat lines for Fall 1930.

Friday and Saturday
 Our Great Silk Special

508 YARDS SILK

\$1.49 to \$1.98 yard value.

The silk events held by us during the past few months have met with such enthusiasm from our customers that we gave instructions to our buyers in New York to be on the look out for silks that could be bought at a price that would save the Twin Falls public money. We will not try to describe the many fine patterns at all of our stock. We think you will appreciate the value. But we will state that these are strictly first and every piece is guaranteed to be at least a regular \$1.49 value—and lots of them are of the \$1.98 quality, 40 inches wide.

No Telephone orders accepted. Pieces 5 yards or under will not be cut.

MAIN FLOOR DRY GOODS DEPARTMENT

SINGING CANARIES

HARRY, MT. WARBLERS & STANDBY ROLLERS

A Most Sensational Event \$3.79 About 100 Birds to Select From

The Economy Basement offers a most unusual opportunity to secure a genuine Hart Mountain Warbler and St. Andrew's Roller-Tired Canaries at the extremely low price of \$2.75. Birds of this type usually sell at two or three times this price at all stores. Every bird is guaranteed to sing.
