America Welcomes 1937 With Wildest Spending in Years

NEW YORK SETS PACE FOR NATION

Setting the pace for the nation, New York City greeted 1937 today with the wildest orgy of spending since 1929 and the most hilarious New Year's celebration in its history. The hysterical merry-making continued through the night and night clubs, saloons, hotels and dance halls—all of whom reaped handsomely from the \$100,000,000 that metropolitan dwellers threw to the winds—still were jammed at daybreak with horn-toting, paper-hatted, celebrants.

Women Offer Illinois Clue

SPRINGFIELD, Ill., Jan. 1 (AP)—Illinois state police today sought two machine-gun armed bandits who they said might be the kidnapers of 10-year-old Charles Mattson of Tacoma, Wash. The bandit pair held up two women near here last night and stole their automobile. The women said the men were accompanied by a passenger, who was either a child or a woman they believed it was a child. The bandit's remarks and actions in hurriedly transferring their companion to the car they took from the women prompted suspicion they might have been the kidnapers of young Mattson.

Plans Joint Use Of One Building As Headquarters

Combination Will Offer South Idaho Readers Better Papers

Purchase of the Twin Falls Daily News, one of the outstanding newspapers of Idaho, by the Idaho Times Publishing company was announced today, the sale becoming effective immediately.

R. S. Tofflemire, publisher of the Idaho Evening Times, made it known that both newspapers will be continued along the same lines as in the past, the News continuing as the morning paper, the Times as the afternoon publication.

Temporarily both newspapers will be published in their respective buildings, until such time as the combined equipment of both plants can be installed in the News building which is to become the future home of the two publications. Installation of the combined equipment will require several weeks.

Roy A. Reed, publisher of the News for more than 20 years, is severing all connection with the newspaper business in Twin Falls. The commercial printing departments of both newspapers likewise will be concentrated in the one building.

Serve Readers Better With the combined facilities of both plants at their disposal, the Evening Times and News will be better equipped than ever before to serve the south central Idaho territory. Combined circulation of the two publications will be in excess of 17,000.

With but few exceptions the personnel of the two newspapers will remain the same. R. S. Tofflemire will serve as publisher of both publications and will share an equal interest in the company with Emil Hordwick of Buhl with whom he has been associated in the Idaho Times Publishing company.

Janeau H. Shinn, former editor of the Times and a stockholder in the company, recently resigned to become personal secretary to Gov. Fuzellin Clark, selling his interest in the company to his associates.

ACCUSED WOMAN IS FOUND GUILTY

Jury Convicts Mrs. Yates of Involuntary Manslaughter In Jerome Shooting

JEROME, Jan. 1 (Special)—Found guilty of involuntary manslaughter, Mrs. Lucila Yates, 50-year-old farm wife of Charles Yates, is lodged again in the Twin Falls county jail awaiting sentence by District Judge T. Bailey Lee for her part in the death from infection on Nov. 18 of Leland Draper whom she shot in the leg with a 12-gauge shotgun.

The verdict, which carries a maximum penalty of 10 years in the state penitentiary, was returned by the jury at 5:30 a. m. today. It is expected that the sentence will not be pronounced for several days.

The state had sought conviction on first degree murder charges.

Jury Views Scene

During the final day of the woman's trial the jury was taken to the scene of the shooting at the Yates home. Her husband was called to the stand and brought to admit that he had not been particularly alarmed by the approach of Draper on his ranch home property as he was reshingling his roof. Mrs. Yates had previously testified that Draper's threatening conduct had caused her to shoot in self-defense.

Others called to the stand were character witnesses for Yates.

Buhl Couple Marry At Church Rites

BUHL, Jan. 1 (Special) One of the most charming weddings of the holiday season was solemnized at the Buhl Presbyterian church Thursday evening when Miss Jeanie Mercer, daughter of Mr. and Mrs. J. L. Mercer, and Ed Macy, son of Mr. and Mrs. L. G. Macy, were united in marriage. Rev. M. M. Vahpala read the single-line service. The bride, given in marriage by her father, was attractively decorated with flowers and fern. The bride was lovely in her wedding gown of white satin combined with rose point lace. Her veil and cap were also of lace and satin, and she carried a bouquet of tallinn roses.

Miss Maehela Mercer, sister of the bride, was maid of honor; she wore a gown of pink tulle. The bridesmaids were Helen Hambury, Minnie Eiel and Ann Mohler, Idaho Falls. They wore gowns of peach,

pink and blue taffeta. Little Miss Mary Jane Mercer, pastor of the church, was the flower girl. She was lovely in pink and blue taffeta dress. Ralph Macy, brother of the groom was best man.

Reception Held

The ceremony was followed with a reception at the home of the bride's parents.

Miss Macy graduated from the Buhl high school in the class of 1931. She attended business school in Salt Lake City one year and has been employed for some time at the Aurback store there.

The groom also graduated from the Buhl high school. He graduated from the University of Idaho with the class of 1933. There he was a member of the Kappa Sigma fraternity. For the past two years he has been athletic coach at the Rupert high school.

The couple left for Portland where they will spend a week. All persons grow for a shorter period than short persons.

The Newest Books

Idaho in Word and Picture—Probably the first published volume of the American Guide series will be "Idaho: A Guide in Word and Picture," which the Caxton Printers, Ltd., will issue Jan. 15. Avowed purpose of the vast federal writers' project of WPA is to stimulate the interest of American people in the physical and cultural resources of their states. The Idaho volume was prepared by the Idaho Writers' Project under the direction of Vardis Fisher, nationally known Caxton author, and is described by the publishers as a successful attempt to give the dignity and beauty of living literature to a factual characterization of the state. Brilliant essays on Idaho's resources, physical characteristics, recreational areas, buried treasures, and tall tales— to mention only a few—are supplemented by eleven tours detailing what to see in Idaho and how to see it. 431 pages, 6vo, 128 pages of photographs, 15 maps. Price \$3.00.

End of Track—The story of the empire builders—the Huntington Villards, Hills—is told in official biographies, and the official record is buried in old ledger books. The story of the old builders, the contractors is found only in the lives of such articulate men as the late James H. Kyner. "End of Track," published Jan. 15 by the Caxton Printers, Ltd., Hawthorne Daniel has written the powerful story as Kyner told it to him. Kyner, who lost a leg in the battle of Shiloh, did not live to see finished copies of the beautiful volume which contains the story of the 124 he spent pouring his views along and fighting railroads through against heat and lava rock and the tough characters of the west. 277 pages, 8vo, 56 pages of photographs. Price \$3.00.

Hidden Island—Anworth Bathurst's "Hidden Island," scheduled for Jan. 25 publication by the Caxton Printers, Ltd., is described by the publishers as a red hot best-seller story for boys. Demand for a reprint of "Hidden Island" first published in 1927, is occasioned by the enthusiastic reception of further works "Sandlappers" (Caxton, 1935), "Of Sandlappers" (The Brooklyn Times Union wrote: "A sparkling story... a good book for younger readers.") 241 pages large 12mo. Price \$2.00.

NICKEL THEATER PROVES SUCCESS

Showhouse Makes Money In Spite of Untrained Play-Casts

BLUE MOUND, Ill. (Sp.)—Blue Mound's Prairie theater, with its home-spun actors and its 5-cent admissions, has become a money-making proposition. The enterprise is a WPA experiment in rural recreation. Twenty thousand persons attended this season's 11 performances. Proceeds paid all current expenses. According to officials, it will take only another year to repay the village of 600 inhabitants for its share in the original cost. The theater was started in 1934 with an outlay of \$16,000—ten per cent of which was furnished by Blue Mound citizens. Materials were donated and the work was done by men of the community. The actors and musicians were chosen from surrounding farms. More than 400 farm girls, boys, men, women and even babies took part in this year's program, acting, singing and dancing while their neighbors sat out front. Each night a capacity crowd filled the rough-hewn tiers of seats. And the nickels have clinked in so regularly that officials plan to open the show next spring and continue until cold weather prevents further meetings.

From 1493 to 1933, the western hemisphere mined silver to an estimated value of more than \$5,300,000,000.

ASSETS BOOSTED BY SAVINGS-LOAN

Increase of \$200,000 Reported For Year; Grant Predicts Bright Prospects

Increase of \$200,000 in assets and prospect of a million dollar association within a year stood out as highlights today in the annual statement of the First Federal Savings and Loan association.

The report, announced by H. R. Grant, manager, was termed by him the "best statement" since the company's organization in 1916 as the Mutual Building and Loan association.

"The association's assets now total more than \$800,000," Mr. Grant pointed out. "With continuance of excellent cooperation and good will, we anticipate a \$1,000,000 association by Jan. 1 a year from now."

Reserve Built

Added funds were also placed in the reserve last year, and this now totals \$50,000, the statement showed.

Declaration of a 2 1/2 per cent dividend for the last six months of the year was voted by the directors of the association. The payment will total \$16,920.81 and will be distributed to the group's saving members. The added payment made dividends of \$31,941.22 for the year, or a total of five per cent.

Some 260 new loans with a total value of \$370,000 were completed during the year, according to the statement.

The association had only one piece of real estate on its hands as 1936 closed.

Bright Prospects

Mr. Grant looked ahead to "exceptionally promising" prospects for the year starting today and said the association has "a considerable number" of prospective loan applicants planning on new and remodelled homes.

Trio Blaze Rio-U.S. Motor Trail In Eight Years Of Toil And Peril

Immediately after near-tragedy: The car at the right had just done an over-and-over roll down the hill at the left, with Mechanic Fava at the wheel, before this picture was taken. Local residents have come to the aid of the party. Nobody was hurt, but it didn't do the Model-T's headlamps and radiator any good, as you can see. Despite scores of small mishaps, not a single serious accident marred the 11,000-mile jungle tour.

By JACK PARK NEA Service Special Correspondent

DALLAS, Tex. — Way back in 1928 B. C. (Before the Crash), three men started on a motor trip. They are just finishing it. For the first time they have succeeded in uniting Rio de Janeiro, Brazil, with the United States, by a continuous auto journey.

The 14,000 miles they traveled, nearly 6000 of it over mere cattle, pack, and foot trails across mountains and through jungles, will some day be traveled by means of a continuous improved auto road, the Pan-American highway.

Eventually it will run from Alaska down through Canada, Mexico, Central and South America.

But today only 7845 miles are approved road, with 5000 more under construction, in the section from the United States southward. So Commander Leonidas Borges de Oliveira, Observer Francisco Lopez de la Cruz, and Mechanic Mario Fava had to hack, blast, push, ferry, and fight their way to make the trip in the eight years and eight months which ended with their arrival at Laredo, Tex.

They mapped and charted the entire route as far north as Mexico City. It is practically complete from there to Laredo.

They had a hundred narrow escapes from death.

They killed wild hogs and ven-

dered their fat for motor lubricant when stalled in the jungle with no oil available.

They caulked kerosene and alcohol from natives when the gasoline ran out, and made their cars run with this fuel.

They hooked their way through jungles and blasted their way through mountain passes with dynamite.

They rafted their two Model-T Fords over rivers, and fought death in the form of dysentery, yellow fever, malaria, and wild animals.

Their pet dogs all died of snake-bite or disease.

They learned Spanish to supplement their native Portuguese and Oliveira proudly acquired a wife in Mexico City.

Scott at Obislales.

Starting with government sponsorship, that backing was withdrawn when revolution swept their native Sao Paulo, and they had to push on with their own resources, together with such backing as was given by the countries through which they passed.

Yet these three intrepid Brazilians accomplished their mission without a major accident or illness, and contributed a splendid step forward in the uniting of the Americas.

Oliveira is a reserve officer in the Brazilian army, a military college graduate and engineer. Cruz is a skilled topographer, and Fava an expert mechanic.

During the entire trip they made

three general highway maps. In addition, they made maps of each region, on which they recorded rainfall, altitude, angle of ascent or descent, crops, topographic records, and other information that will be vital to road-building engineers when they get around to constructing the highway.

Started in 1928.

Their invaluable data will be turned over to the Pan American Union in Washington, which will use it to help further actual construction of the road.

The three men started from Rio de Janeiro on April 16, 1928. Their job was to work northward along projected routes of the Pan American highway through Brazil, Paraguay, Argentina, Bolivia, Peru, Ecuador, Colombia, Panama, Costa Rica, Nicaragua, Honduras, El Salvador, Guatemala, and Mexico.

Actual roads soon gave out, and the three men found themselves hacking their way through jungles, and driving their cars over crumbly mountain ledges where death on jagged rocks thousands of feet below was only inches away from their wheels.

The body rests at the Wiley mortuary.

Teacher, Finding 'Backward' Pupil, Flooded By Mail

MOUNDSVILLE, W. Va. (AP) — Eleanor Mengert, teacher, has received scores of fan letters since she discovered that one of her pupils "sees backward."

Miss Mengert brought to the attention of newspapers the case of 11-year-old Harold Elliott, victim of an ailment which causes his eyes to convey all objects as if they were reflected in a mirror.

Since then she has received letters from all parts of the country, suggesting methods of treatment for the boy or asking for further details of the case. One—from a Texas farmer—proposed marriage.

Pigeons Stop Clock

CARTHAGE, Mo. (AP) — Pigeons roosting in the tower of the Jasper county courthouse here stopped the clock twice in two days.

Scott Field, near Belleville, Ill., has installed a new 40-foot long, visible at a distance of five miles, which shows pilots the direction of the wind. Red and green electric lights outline the pointer at night.

County Officers Have 'Inaugural' Here on Jan. 11

Although the new state regime takes office Jan. 4, Twin Falls county officers won't stage their own private "inaugural" until Jan. 11, the second Monday in January as specified by law.

There isn't much to the inaugural ceremony, says Frank J. Smith, auditor, recorder and clerk. Smith, incidentally, holds a four-year office and as such wasn't concerned in the last election. As a result, he won't be "inaugurated" Jan. 11. All others are two-year offices except Commissioner George B. Hart, re-elected to a term which became four years under statute last year.

Very Simple

"All there is to it," Smith said, "is for the officers to go down to the commissioners' headquarters, get sworn in, and then go right back to work."

As recorder, Smith will swear in the re-elected commissioners, who then turn about and administer the oath of office to the elective officials.

Thereafter, everyone proceeds to his own headquarters and settles down on the job for two years.

Only two new county officers will be taking the oath. They are Mrs. Doris Stradley, elected county superintendent of schools, and Dr. George C. Haley, who won the coroner's post.

These Stay in Office

Inaugurated, in addition to Mrs. Stradley and Dr. Haley, will be these re-elected officials: Commissioners James L. Barnes, George R. Hart and Robert Ray; Sheriff E. F. Prater; Treasurer Cora E. Stevens; Assessor J. D. Harnhart; Prosecutor Edward Babcock; Probate Judge Guy L. Kinney, and Surveyor W. A. Minnick.

As for order of precedence at the "inaugural" after the commissioners are sworn in, there isn't any. Whoever is nearest, takes the oath. And that's that.

5 Federal Prisoners

Five federal prisoners are now included among the inmates of the Twin Falls county jail, Sheriff E. F. Prater reported today.

Mother of Pair Requests Divorce

Because she claimed her husband absented himself frequently, Mrs. Ethel C. Doty had suit for divorce on file in district court today against Tom C. Doty on

charge of non-support and cruelty. She is the mother of two children, 7 and 4 years of age. The pair married at Woodward, Okla., Nov. 15, 1914, according to the divorce petition. Mrs. Doty seeks custody of the children. Her attorney is O. W. Witham, Twin Falls.

DIG YOUR WAY THROUGH

WITH THIS *New Tire*

HERE is the tire you need to drive over the muddy, icy, slippery roads this winter. Built especially for these driving conditions to eliminate the necessity of chains.

Look at these advantages:

1. Tread bites deeply when traveling in mud, snow, sand and gumbo.
2. Tread is self-cleaning.
3. Tread wears slowly and evenly, rides smoothly on hard surface roads.
4. Easy to steer.
5. This thick, powerful, long-wearing tread is built on a body of high stretch Gum-Dipped cords, giving maximum protection against blowouts.

Equip your car today—prices are low—we have a Firestone Mud and Snow type for most popular size cars.

'Dead End' Roads Shield Duke

Visitors lacking the proper attire are finding that all routes to Kinnelburg castle, Austria, refuge of the Duke of Windsor, are "dead end" roads, with armed soldiers and police to emphasize the fact. This was done, presumably, in accord with the former King of England's desire for privacy. Above, a group of newspaper men from Vienna have come to the "dead end," where guards block the way.

PASTOR ASSUMES CHURCH'S PULPIT

Rev. Mark Cronenberger Will Preach Sunday at Local Christian Church

Rev. Mark C. Cronenberger, new pastor of the Twin Falls Christian church, will preach his first sermon here this Sunday. Mr. Cronenberger, classed as a minister in the United States, served as a missionary pastor under the direction of the United States Christian Missionary Society.

During his stay in Poetello of 25 months he had led the church in a successful program, under which more than 100 members were added to the congregation and a 100 per cent increase in finances was realized.

Has Been Evangelist The new pastor has served as an evangelist and since his coming to Idaho five years ago has conducted evangelistic campaigns in many of the churches of his community and others and hundreds have been added to these churches. He carries with him experience as a minister but he is also a conductor and director of music and uses his trombone to direct evangelistic services, bands and orchestras and carries his part of a baritone in choral organization work.

Takes Pulpit Here

Rev. Mark C. Cronenberger, formerly in charge of the Christian church at Poetello, will open his pastorate here on Sunday. He succeeds Rev. Walter E. Jarnman.

BUSINESS GAINED STEADILY IN 1936

New York Bank Finds Year Most Encouraging Since Pre-Slump Days

NEW YORK (Special) Considered as a whole, the year 1936 has been the most encouraging to business since the advent of the depression and it closes with the general prospect more favorable than it has been at the end of any other recent year, states the Guaranty Trust company of New York in the current issue of The Liberty Survey, its monthly review of business and finance in the country and abroad, which has just been published.

The principal economic problem that faces the country as it enters 1937 is that of possible over-expansion in the field of money and credit. The survey companies believe the public finances can be properly placed on a sound basis if the problem of credit control can be satisfactorily solved, and a effective cooperation can be maintained between government and business, there is ground for the confidence with which business in general apparently views the outlook for a continued recovery.

Not only has the general level of activity during 1936 been the highest in six years, but for the first time since the beginning of the depression, the trend has been strongly upward throughout the year, with only minor interruptions. Although 1935 marked a substantial net gain toward recovery, the advance to a place almost entirely during the last quarter in the year now closing, the upward trend has been both steady and more rapid.

POLICE BAN HITS SLOT MACHINES

Strict "cracking down" on slot machines by Twin Falls police has brought elimination of the devices in Twin Falls "business" houses, Chief of Police Howard Gillette reported. Merchants cooperated fully in the move, Gillette said. Many places had kept the machines in back rooms for the last several months, but virtually all of these were reported today to have been taken out in compliance with the police edict. The chief had ordered "every slot machine must go." Burglaries of the machines brought the gambling devices into prominence in the past few weeks.

TIMES COMPANY BUYS OUT NEWS

Both Papers Will Carry On Under New Set-Up; Few Personnel Changes

(Continued from Page One) He is in charge of the circulation departments.

Ed Brinegar will be mechanical superintendent of the two publications and Lee Stiles will retain his position as composing room foreman of the News.

Emmett Asbury, long identified as foreman of the News commercial printing department, will serve in a similar capacity for the combined departments.

Two Outstanding Papers

"The combined facilities of the News and Times should give Twin Falls two outstanding papers," Tofflemire said today in commenting on the transaction. "Every effort will be made to maintain and improve their already high standards. Their chief aim will be to further the best interests of Twin Falls and south central Idaho at all times.

"The news columns of both publications will remain impartial as in the past to better achieve this common goal. In our efforts to give Twin Falls still better news papers we shall naturally welcome criticism and suggestion."

Tofflemire added that the two newspapers will retain the combined facilities of the Associated Press and United Press, which he described as the world's greatest news gathering agencies. Practically all of the other features also will be continued.

'DATE BUREAU' NOT POPULAR

Carnegie Tech May Freeze Out Unique College Institution

PITTSBURGH (U.P.)—Two Carnegie Tech students hopefully anticipated a revival of the collegiate "date bureau" this year—but their campus mates weren't interested. And now the bureau may be closed.

Cloy Yurdin and Leonard Feinblatt established the bureau in the hope it would be an improvement on the "blind date" idea. Two weeks passed and only one student—a shy, 6-footer from the engineering school—applied for a date.

One of the accoutrements of the bureau was an application blank on which students could list the type of companions they desired. It listed the usual questions of name, address, phone number and led into interrogations like these:

"Have you an icebox in your home—with food?"
"Do you smoke—drink?"
"Have you read any good books lately?"

"Do you wear glasses?"
Yurdin and Feinblatt hoped the bureau would bring about a better social life on the campus.

"We thought they would appreciate a campus bureau of this kind," they said.
But most students passed it by, obviously satisfied with the status quo.

WOMAN ACCUSED OF KILLING MATE

Mrs. Helen Love, 31, Attempts Suicide After Fatal Shooting

SANTA MONICA, Calif., Jan. 1 (U.P.)—Mrs. Helen Love, 31, accused of murdering her husband during a New Year's eve celebration at the fashionable El Mar club in Santa Monica, was watched closely in her jail cell today to prevent another suicide attempt.

Police reported the Los Angeles socialist tried to hang herself after being booked on suspicion of homicide.

Screaming that she was a victim of "mother-in-law trouble," Mrs. Love broke into the dining room of the exclusive club and shot her husband, Harry A. Love, 46, after a violent quarrel, police reported.

Club attendants said the enraged wife fired three shots in her husband's back as he tried to flee. He collapsed upon a divan and was dead when detectives arrived.

Love, a wealthy retired broker, married Mrs. Love secretly 10 months ago in Mexico. When confronted by his wife in the dining room of the club, he was in the company of his mother, Mrs. Charles F. Love, police reported.

Winter Safety Tips Offered Motorists

TOLEDO (U.P.)—Jay E. Thompson, secretary of the Toledo Safety Council, offers these tips to motorists for safe driving in winter weather:

You can see better with dim headlights than with bright ones in fog, rain or snow.

You can clear an ice-coated windshield by holding up the hood on the driver's side with two small plugs of paper so that warm air from the motor can blow against the windshield.

You can decrease slipping on icy pavements by letting five pounds of air out of each rear tire and by setting the hand brake slightly to apply friction to the rear wheels.

SQUIRRELS SHORT CIRCUIT WOODBURY, Conn. (U.P.)—Squirrels, sharpening their teeth on the antimony alloy covering of a telephone cable, caused disruption of service between Woodbury and Bethelham for two days. Five holes were chewed in the cable covering, allowing moisture to seep in and short circuit the wires.

1937 BOOM SEEN FOR IRON MINES

Optimistic Forecast Made by Head of Large Company in Minnesota

CROSBY, Minn. (U.P.)—The iron mining industry faces the prospect of a bumper year in 1937, according to F. A. Kelly, superintendent of the Pickands-Mather company, operating extensive interests on the Cuyuna and Mesabi ranges.

Kelly detailed the outlook as "definitely optimistic" in view of the upward curve in production the last several years.

Worry Over Taxes
"The one factor, however, causing an uneasy feeling among mining interests," he said, "is taxes. Thirty-one per cent of the operating revenue of mines goes for taxes."

"But the upward trend of production has been general over the Lake Superior district, which em-

braces both Mesabi and Cuyuna ranges. Production this year will approximate 45,000,000 tons as against 55,000,000 a year for the 10-year average up to 1930."

PACIFIC AIRLINE TO SERVE MORE

Officials Planning Greater Capacity for Freight And Passengers

SAN FRANCISCO (U.P.)—With completion of its first year of trans-Pacific service, Pan American Airways today is weighing basic economics of the project on which \$5,200,000 has been expended, and for which pilots and ground crews have risked their lives and undergone hardships since 1931.

The record is being written in red ink at present but airline officials are far from being disheartened. Heavy losses at first were foreseen. Returns thus far have fallen short of paying operating expenses, not to mention returns on capital invested, although passenger and freight traffic have been at virtually full capacity since inception of each.

To Pare Expenses
This P.A.A. officials today are trimming expenses, planning increases in carrying capacity for passengers and freight as indicated by orders for 40-seat flying

boats under construction in Seattle.

At present clipper ships carry only six passengers on the 2,400-mile hop between Alameda and Honolulu, and 12 from Honolulu to Manila. Demonstrating the thoroughness with which Pan-American has gone over its plans, airline officials point out a 10-mile headwind (which clipper ships often encounter) although without danger cost P.A.A. an extra \$9 gallons of gasoline and six hours of flying time.

The three clippers in service, China, Philippine and Hawaiian, have in P.A.A.'s first year of operation, flown 541,200 miles in actual trans-oceanic crossings, far above the entire total of individual ocean-spanning fliers during the past decade.

Costly Bases Built

Sixty-one one-way crossings had been completed at the end of the first year's operations. Five complete crews trained and in service, approximately 250 pounds of air freight carried on each trip from Alameda terminal and \$2,000,000 expended in establishment of island bases.

Many times the number of passengers would have flown had P.A.A. been able to take care of all applicants and it is this fact that had led the airline to place orders for a half-dozen flying boats half again as large as the clippers in use and several times the "payload" capacity.

"Jack Moss Idaho Maid Bread"

MEAT AND HOT SLAW TRIPLE DECKER

- 1 large loaf of bread
- 3 cups hot beef, chopped
- 1 cup gravy
- 2 cups coarsely chopped cabbage
- 3 eggs
- 1/2 cup hot vinegar
- 1/2 cup water
- 1 teaspoon salt
- 1/2 cup cottage cheese
- well-seasoned
- 8 canned apricot halves
- 2 tablespoons melted butter

Cut bread in 24 slices, 1/2 inch thick; trim off crusts. Butter 16 slices on one side, 8 slices on both sides. Heat meat in gravy. Separate eggs, mix yolks with vinegar, water and salt; cook over hot water until thick. Add cabbage and heat thoroughly. Beat egg whites stiff, add to cottage cheese. Slice 8 of the slices of bread buttered on one side on a baking pan; spread with meat mixture. Cover with bread buttered on both sides; spread with cabbage mixture. Cover with cheese mixture on top; arrange half apricot on cheese. Pour a little melted butter on top and brown in hot oven at 350° F., or under broiler. Makes 8.

ONE PRICE... A SQUARE DEAL

AN IDAHO PIONEER

Thirty-five years ago the first of the Sampson Music Stores was established by Chas. B. Sampson. Not only are the Sampson Music Stores pioneers in point of time but also in plan and principle... the underlying idea being...

"One Price--- A Square Deal"

This may seem a simple idea in itself, but it is one demanding great labor and executive ability...

In following this idea all the markets of the entire country must be known as thoroughly as the alphabet, and one must ever be alert, active and vigilant, and absolutely self reliant, quick of judgment and ready to act.

Pioneers of Better Service

In all our years of business we have always striven to build an organization capable of rendering our customers a higher degree of service and value.

OUR ORGANIZATION

Joins in wishing the entire population of southern Idaho a very successful and prosperous New Year... May all good things be yours.
