ARGENTINE BABY HEIR FOUND DEAD AFTER KIDNAPING

Nude Body Discovered Near Home With Injury On One Leg

RANCH FOREMAN HELD

Case Is Called Parallel to Lindbergh and Mattson Deaths in U. S.

Buenos Aires, Feb. 27 (U.P.)—Two-year-old Eugenio Pereyra Larola, heir to a great cattle fortune, reported kidnaped Wednesday, was found dead today in a cornfield near his father's famous ranch, La Sorpresa.

The boy's body was nude and there was a wound on one leg similar to the bite of an animal, provincial police reported.

Jose Gancedo, former foreman of the ranch, who left a short time before the child disappeared was detained by police for questioning.

He had gone to nearby Del Plata where he had shaved off his beard, police said.

Biggest Search

Discovery of the body ended the biggest search in the country's history as thousands of ranchers, society folk, police and cowboys hunted the pampas for clues in Argentina's "Lindbergh case."

Police, who originally announced the boy had been "kidnaped" refused to comment on reports a ransom note had been left or that the child's parents had been in contact with the boy's abductors.

Public interest, because of the prominence of the child's wealthy parents in Argentine social and political circles—his grandfather is Sen. Antonio Santa Marina—was great.

Comparisons were made between the Traola case and that of the arch baby kidnaping in the United States—they were about the same age and disappeared under similar circumstances—and the case of Charles Mattson, whose nude body was found in the woods after he had been kidnaped in Tacoma, Wash.

Search for Gangster

Verification of the child's death spurred police in their search for a hoodlum capitol gangster with a long police record whom they wished to question.

Caprioli, who became leader of the so-called "Baby Face" Gordillo gang early this month, after Gordillo's death, was a member of the "Continued on Page 2, Column 11."

CLERK INHERITS GREAT FORTUNE

Assistant in Army and Navy Store Gets Legacy of \$40,000,000

WASHINGTON, Feb. 27 (U.P.)—John Thomas Auld, 33, clerk in an army-navy store, and Margaret Ester Dawson, state department employee, were honeymooning today with the prospect of receiving soon a \$40,000,000 inheritance which has gone begging for years.

Auld revealed after the wedding that he is heir to a vast fortune left by his great grandfather, who died in Ashire, Scotland, many years ago and left \$12,000,000 to be handed down to the first son of the first son, and so on.

John Thomas Auld's grandfather, son of the millionaire, went to British Columbia without knowing of the will his son, John H. Auld, came to the United States, still without knowing of the inheritance, and settled in Richmond, Va. His first son the present John Thomas Auld, has been working for several years as clerk in an army-navy store here.

Trustees of the estate, which since has increased in value to \$40,000,000, finally located John H. Auld in Richmond, it was said. He renounced the fortune. The trustees then offered it to John Thomas Auld, who accepted it and got married.

Rome, Feb. 27 (U.P.)—The fascist grand council, the highest advisory body, is to start work at a meeting Monday on a program to combat the steady decline in the birth rate—and the number of babies for a future army—it was understood today.

Suggestions for stimulating the birth rate include a proposal that bachelors and childless married men be excluded from any knighthood or other decorations. It was reported.

Report Says Duke To Receive Pay of \$100,000 Per Year

LONDON, Feb. 27 (U.P.)—King George is expected to give his decision within a few days on a financial settlement for his brother the duke of Windsor, the Daily Mail reported today, adding that as soon as he reached a decision the king would ask parliament for a review of the civil list.

The civil list provides for all members of the royal family. The Daily Express said the duke is to receive £125,000 (\$625,000) in cash and £20,000 (\$100,000) a year.

If the king approved this figure, it was said, he probably would make himself responsible for payment of the annual allowance while other members of the royal family asked the civil list.

GREEN CHARGES LAY-OFFS BIGGER

Leader of Labor Federation Says 1,000,000 Added To Unemployed

WASHINGTON, Feb. 27 (U.P.)—President William Green of the American Federation of Labor today charged industry with failure to aid in relieving unemployment and said 1937 "opened with layoffs which added 1,001,000 to the unemployed."

Green estimated 10,041,000 were unemployed in January of this year, compared with 8,990,000 in December, 1936, and 11,666,000 in January of last year.

He conceded January and February usually are the "low-ebb" months of the year, but said "a number of developments in the employment situation call for special attention."

LOYALISTS GAIN IN OVIEDO FIGHT

Week's Bloody Battling Ends With Militiamen Making Two Advances

GIJON, Spain, Feb. 27 (U.P.)—The battle for Oviedo reached a critical stage today, after a week's bloody fighting. Loyalist militiamen advanced farther into the Asturian capital from the northeast and southwest.

The small arms factory, chief nationalist stronghold scene of a bitter struggle for 24 hours was reported to have fallen.

On the opposite western side of the city, the loyalists advanced to within a few yards of the open ground around Manicomio hospital for the insane which they prepared to storm.

The nationalist artillery on Mount Naranco, dominating the northeast quarter of the city, was silenced by loyalist batteries at Buena Vista.

Nationalists counter-attacked in suburban Pando only to lose an estimated 200 killed when the difficult terrain prevented their withdrawal and the men were wiped out by machine gun and howitzer fire.

PAY ASKED FROM SOCIAL SECURITY

40 Present Claims as First Payroll Deadline Is Reached March 1

WASHINGTON, Feb. 27 (U.P.)—The social security board today had received 40 claims for benefits with the deadline for payment of first payroll taxes by employers two days away.

The deadline for payment of January tax is March 1, but Monday will be the first business day on which the bureau of internal revenue can begin to close its books for the initial month of social security.

The board announced 26 claims had been filed with it by having seeking lump-sum death payments for workers who have died since the law became operative Jan. 1. Twenty-three employees have reached the age of 65 and demanded their lump-sum retirement payments.

First payments will be only a few dollars, or even a few cents. The law provides for lump-sum payments to estates or upon retirement at 65 of three and a half per cent of an employee's earnings from the inception of social security.

ECONOMY BATTLE IS POSTPONED IN IDAHO'S SENATE

Ten Measures Held Over After Day's Session In Legislature

By NEWTON STEARNS

BOISE, Ida., Feb. 27 (U.P.)—As the Idaho senate today deferred action on ten appropriation bills for the second successive day, a special session of the legislature following next Thursday was freely predicted.

Action to hold the disputed bill until tomorrow was by unanimous consent, but a back-curtain battle raged over demand of the so-called "economy bloc" for elimination or reduction of budget increases for state departments, asked by the measure.

Only four business days remain of the session. In addition to the appropriations, during that short time Governor Clark's power program and the question of new taxation must be disposed of.

Complications Set In

Also remaining to complete the session is the question of settling the question of funds for state educational institutions, principally the University of Idaho appropriation bill for which was killed in the house last night.

Senator R. S. Erb, Nez Perce chairman of the finance committee, which with the house appropriations committee recommended the budget boosts, however angrily declared there would be no special session.

"If necessary we'll stop the clock and cover it up," he said.

Attempt to Ease Revolt

Democratic leaders were said to be attempting to ease the revolt by offering to cut in half proposed budget increases.

While the economy question was kept under cover, the governor's power program was put on trial on the senate floor.

First of two bills to be considered was proposal to restrict holding of power sites in the state to Idaho residents and corporations, a majority of whose stockholders are Idahoans. Provision for creation of public power districts was asked in the other.

Denman, Bonneville, explained the bill was designed to give the state absolute control over power sites and their assignment. "Some sites have been privately held as long as 30 years, undeveloped, for speculative purposes," he charged.

GARCIA TO ASK FOR ANNULMENT

Blond New Yorker to Seek Freedom From Second Husband

NEW YORK, Feb. 27 (U.P.)—Peggy Garcia, whose \$50,000 breach of promise suit against fiddling Dave Rubinoff resulted in an indictment for bigamy, decided in her jail cell today to sue for annulment of her second marriage "as soon as I get out of this."

But when that will be woeful Peggy had no idea. The blond night club check-girl said she hoped the case owner who hired her at \$400 a week for four weeks would put up bond today. She was believed to learn the bail was \$2,500 and not \$25,000 as she had thought.

She spent most of her time today criticizing a pearl system which produces "vile coffee," does not choose its guests with more care and refuses pretty women minutes the right to use make-up.

The subject of Michael la Rocca, her second husband who also is under indictment for bigamy, depressed her still further.

"I don't know what to think of him," she said.

She added she hasn't even seen a newspaper one was produced. Peggy turned to the story of her indictment.

"Well," she sighed, "I see I'm on page one."

BEATS STRIKE

OAKLAND, Calif., Feb. 27 (U.P.)—L. A. Johnson, vice-president and general manager of the million-dollar National Motor Bearing company plant, ordered the factory closed today to forestall what he said was threat of a sit-down strike.

Johnson said an employee of the company told him that an organizer of the United Auto Workers union and officers of the local union were contemplating such a strike.

Frank Slavery, president of the local, denied the union had discussed a strike but said one would be called if the local learned any workers had been dismissed for union activities.

One hundred and fifty employees were affected by the closing order today.

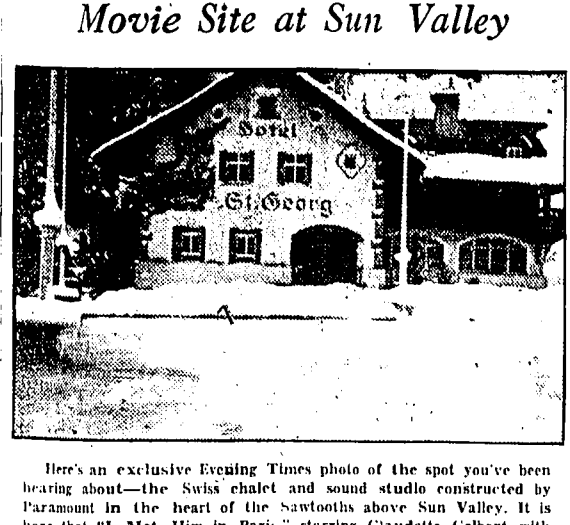

Drive Seeks Shoes for Needy School Children

Representatives of the Associated Charities today were arranging for a concentrated drive to start Monday morning in Twin Falls to raise at least \$200 to purchase shoes for more than 60 children in the city and surrounding rural territory who are unable to attend school because of lack of adequate footwear.

The drive was decided upon at a meeting of the group held last evening in the probate court rooms of the county court house, when it was determined "at least" this number of children were being deprived of an education because they had no shoes to wear to classes.

General Appeal Voted

During the drive churches, civic organizations and other agencies within Twin Falls will be contacted and asked to donate. In addition, an appeal to the general public was voiced today for donations toward the footwear purchases. The public also was asked to donate wearable shoes, if funds are not available, that can be worn by children from the age of 6 to 18 years.

PRISON SEEN FOR COAST STRIKERS

Sentences Threatened For Leaders of Sit-Down In Douglas Plant

(By United Press)

Two-year prison terms for leaders of the sit-down strike in the Douglas Aircraft corporation plant at Los Angeles were threatened today by the district attorney's office.

Count action was prepared by the Federal Metallurgical corporation at Waukegan, Ill., against the committee for industrial organization and the sit-down strikers who had held its plant since Feb. 17. The strikers were driven out by sheriff's deputies yesterday.

The United Automobile Workers union was reported to be ready to drop its demand for a 30-hour week in General Motors plants while a union and corporation conference watched progress of a strike and shutdown which threw 2,700 out of work in two General Motors subsidiaries in Jamesville, Wis.

In Grand Haven, Mich. 300 members of a union affiliated with the American Federation of Labor returned to work after sitting down in a demonstration designed to balk reported attempts by the C. I. O. to start a strike. The management announced the volunteers sit-downers would hold the plant every night until the strike threat had passed.

DRIVE SEEKS SHOES FOR NEEDY SCHOOL CHILDREN

Representatives of the Associated Charities today were arranging for a concentrated drive to start Monday morning in Twin Falls to raise at least \$200 to purchase shoes for more than 60 children in the city and surrounding rural territory who are unable to attend school because of lack of adequate footwear.

Bankers Assist

Wilton Peck, of the Twin Falls Bank and Trust company, and Loyd Perry of the Fidelity National bank of Twin Falls, were named as trustees of "those persons wishing to make their donations in person. Each will be available during banking hours at their respective institutions."

"We are calling on organizations and individuals to aid us in this cause," Rev. Andrew Warner said today. "The fact that these children cannot attend school because they have no shoes will be a fact beyond a doubt, and it is a condition which we must meet and correct at the earliest possible moment."

NEW INCOME TAX BILL GIVEN AID IN IDAHO HOUSE

Measure Granted Precedence Over Proposed Sales Levy Measure

BOISE, Ida., Feb. 27 (U.P.)—Impetus was given a newly-introduced gross income tax bill in Idaho's house of representatives today when the powerful sitting committee recommended that the bill pass.

The measure was believed to indicate an attempt to give the income measure precedence in house action over the bill to tax only sales. Introduced yesterday, the measure proposed collecting one-half to three per cent on total incomes of persons and corporations.

Thornton, Gooding, served notice on the sitting committee that he would throw a monkey wrench into the delicate final week legislative machinery unless two bills to reduce automobile license fees to 45 and increase the gasoline tax one cent a gallon appeared on Monday's calendar.

"If the committee doesn't bring up those two bills by Monday, I'm going to start a filibuster that will last until the last day," he said, enraged because his pet legislative proposals were apparently being sidetracked.

A filibuster in the house is impossible. It was pointed out, because of a rule limiting debate on any measure to 40 minutes, but the ex-ecutable Gooding representative could do much to cripple the legislative mill by demanding roll calls, refusing unanimous consent to dispense with reading of long bills and in other ways.

Construction of a \$50,000 museum building in Boise to house relics and exhibits now in custody of the Idaho Historical society in the capitol building was asked in a new house bill.

The building would be constructed as a PWA project with the federal government paying 45 per cent of the cost. Site would be donated by the city of Boise. Asked in the bill for the state's share of cost of the structure was \$50,000.

A second proposal to create a department of labor also was introduced. Previously defeated was a labor department bill which proposed taking over the duties of the state mine inspector, state reemployment service and administration of the state's unemployment compensation law.

A bill asking provision for refunds of "money erroneously or illegally collected" under the outlawed two per cent sales tax made its appearance, also a substitute for an earlier defeated bill.

A substitute appropriation bill for state institutions included provision for \$134,650 for the Nampa state school and colony.

Says Air Commerce Bureau Should Concentrate On Ground Assistance

WASHINGTON, Feb. 27 (U.P.)—Sen. Royal S. Copeland, D. New York, chairman of the senate commerce committee, demanded today that the bureau of air commerce immediately begin expediting and approving its ground navigational aids and "worry later" about improvements aboard airplanes.

He said the new regulations promulgated by the bureau requiring local anti-state loop antennas and radio-directional finding equipment on passenger carriers were "in the right direction."

Bureau of air commerce officials were drafting another new regulation which would require airports to maintain radio equipment of certain specific standards.

New regulations which were promulgated this week require:

- Installation by Jan. 1, 1938, of commercial air transports of a directional finding device which will enable pilots to find their position by tuning in any type of federal radio station and fly to their destination either by triangulating their position or direct to the transmitter to which they are tuned.
- Installation by Nov. 1, 1937, of an anti-static shielded loop antenna on all airplanes. This is designed to enable pilots to receive radio directional signals and voice from the ground under rain and snow static conditions so severe that the present type antennae and receiving sets fail.

"I have been informed of several instances where the stores are making Sunday sales and have even been told other stores intend to remain open Sundays in the future."

"The Sunday closing regulations are provided for in section 17-2503, Idaho code annotated, and the exceptions where certain establishments are permitted to stay open Sunday are listed," he said.

Mr. Babcock indicated the cooperation of local merchants in observing the Sunday closing law was asked today by Edward Babcock, county prosecuting attorney, after he was informed by individuals that several local stores, especially those dealing in groceries, were ignoring the closing requirements.

"Information has reached me," Mr. Babcock said this afternoon, "to the effect several local groceries are ignoring the Idaho law governing Sunday closing."

"I have been informed of several instances where the stores are making Sunday sales and have even been told other stores intend to remain open Sundays in the future."

"The Sunday closing regulations are provided for in section 17-2503, Idaho code annotated, and the exceptions where certain establishments are permitted to stay open Sunday are listed," he said.

Mr. Babcock indicated the cooperation of local merchants in observing the law regarding Sunday business would be appreciated by members of the law enforcement department. He said a warning to merchants violating the law was made some time ago.

Roosevelt Asks Governors' Help In Soil Program

Sends Personal Letter To Heads of 48 States

By RICHARD L. HARKNESS

WASHINGTON, Feb. 27 (U.P.)—President Roosevelt, in a personal message to all 48 governors, asked every state today to join the federal fight to guard land resources from ruin by dust storms and floods.

"The nation that destroys its soil destroys itself," Mr. Roosevelt warned in requesting that each state executive sponsor adoption of local soil conservation laws similar to a department of agriculture model bill.

"The dust storms and floods of the last few years," he wrote in 48 identical letters, "have underscored the importance of programs to control soil erosion."

"I need not emphasize to you the seriousness of the problem and the desirability of our taking effective action, as a nation and in the several states, to conserve the soil as our basic asset."

The President said the government is sponsoring demonstration erosion control projects but "such work can only point the way."

"To supplement the federal programs and safeguard their results," he wrote, "state legislation is needed."

Sends Model Law

With each letter Mr. Roosevelt sent several copies of the model law drawn by the soil conservation service. It provides:

1. Creation of state committees with authority to form conservation districts within the states to administer erosion-control projects and preventative measures.
2. Delegation of power to the district committees to prescribe land-use regulations for the prevention and control of erosion, each regulation to be submitted to local referendum before becoming effective.

State committees, according to the law, could have from three to five members, including: the state extension director; state experiment station director; state conservation commissioner or commissioner of agriculture.

Form Districts

Each state committee would be "authorized to invite" the federal secretary of agriculture to appoint one member of the local board. The

In a statement November 9 Zetlitz confessed to shooting his three children, Donald, 2; Gertrude, 4; Ruby, 5, and then turning his home into funeral pyre while his wife was in a hospital here.

This story at the time was "My wife is sick and she couldn't take care of the children. I was farming two farms. I couldn't get nobody. We had a few acres and the kids seemed to be in the road." He killed the three babies, then got some gasoline, poured it on the floor and set fire to it.

A direct connection between the Gordillo gang and the Iraola family was reported by police who recalled that only a few weeks ago Senora Iraola was held up and robbed on a highway near the ranch from which the child disappeared.

Search parties were organized immediately and the fields and grazing ground near the ranch home were inspected minutely by lantern light far into the night. No trace of the boy or his abductor was found.

Cowboys armed with rifles and knives rode the flat prairie back from the Atlantic coast line searching every possible hiding place in the province. Many of the searching parties, including millionaire ranch owners and Buenos Aires society youths, had been in the saddle for 24 hours when word was flashed that the boy's body was found.

"If he were kidnapped for ransom, we would pay without advising the police," Senator Marina told newspaper men just before the body was found.

Weight Lifting Champion Will Show Prowess

World's Best Makes Surprise Appearance Tonight on Legion Program

The world's champion weight lifter breezed into Twin Falls today, and will show his wares as a special added feature at the American Legion wrestling program tonight. He is Arthur Saxon and he will give four demonstrations of his prowess between the semi-final and main events of the Legion card.

Saxon, who informed J. Edward Warner, member of the Legion building committee, that he won the weight lifting championship from Eugene Sandow at London in 1907, said he expects to do these tonight: Lift a 250 pound weight off the floor without harness. Lift a 400-pound weight above his head. Lift 371 pounds by "best press" from the shoulder above his head, with one arm.

Lift two men with one arm, above his head. Saxon, a United States World war veteran, said he was formerly the European heavyweight wrestling champion.

He shook hands with a reporter, and squeezed so hard the reporter offered to concede both the weight lifting and wrestling ability.

state committee, in turn, would direct conservation districts. Districts could be formed by any 25 land occupants. The question of establishment would be decided by a majority vote in a referendum.

Each district would be governed by a board of five supervisors, including two state committee appointees and three members elected by land occupants themselves. They would serve without pay.

In addition to developing a local erosion-control program, district supervisors could "formulate an ordinance prescribing land-use regulations."

Law Carries Fine
The law carries a "fine as a misdemeanor for persons refusing to observe adopted control practices. In addition, district supervisors could seek a local court order giving them the right if the occupant still declined, to do the work and collect the costs."

"I hope that you will see fit to make the adoption of legislation along the lines of the standard act part of the agricultural program for four states," the President said.

RANGERS TO AID LOCAL SKI UNIT

Forest Officials to Survey Rock Creek Area With Club Members

Members of the U. S. forest service today announced through local ski enthusiasts that the service would aid in a survey of the Rock Creek section to ascertain favorable areas for ski runs to be enjoyed by residents of Twin Falls and surrounding territory.

Accompanied by Elmer C. Ross, forest ranger, and forest officials from Oakley and Burley, members of the newly organized Twin Falls Ski club will survey the area Sunday, March 7. Those who will accompany the forest officials include G. D. Van Tilburg, Roy Painter, Jack Gray and several others.

The group will meet the forest officials at the Rock Creek CCC camp March 7 at 10 a. m., and the survey will start from that point. It was pointed out the forest men are interested in the activity and will probably be able to keep the Rock Creek road open its entire distance should adequate skiing possibilities be found.

Rock Creek CCC

Twenty-eight enrollees of Camp Rock Creek were entertained at a theater party and chicken dinner Monday evening in Twin Falls. Captain Alva H. Wilson, Commanding Officer, was host at the elaborate entertainment. Mr. Appleby, educational adviser, was guest of the occasion. The CCC men attending were chosen on merits of having the best bunk during the month of January.

Rev. W. H. Jordan, pastor of Seventh-day Adventist church, Twin Falls, gave an interesting talk to the CCC members, Tuesday evening. At the close of the service, Mr. and Mrs. Jordan sang two duets. They were accompanied by Mr. McNeil at the piano.

Work has been resumed on the Cassia drift fence. Even though the weather has moderated, the drifts are still plenty deep up on those mountain tops. The north boundary of the fence will be completed and ready for use by spring. This fence is being constructed to meet all legal fence requirements.

Mr. Love, superintendent mechanic, arrived in camp Tuesday to make a complete inspection of all trucks and equipment. During his stay he held a class which was attended by truck drivers and mechanics, giving instructions on the qualities and lubricating values of different grades of oil.

A considerable sum of money has been allotted the camp for use in repairing all the trucks and heavy equipment. Mr. Brown has been hired to help the mechanics make the extensive repairs on this equipment.

The road construction crews are working to the limit during these first warm spring days. The cat operators have been working double shift in order to keep ahead of the road crews.

The other day Mr. Barnard, assistant project superintendent saw a bull elk about three miles up a canyon above camp. Many of the fellows were able to get a glimpse of it before he went on up the canyon. He was standing about 100 feet from the road when first seen. Mr. Barnard stated that it had an eight foot spread and appeared to be from 12 to 15 years old, and was probably the largest one seen in this vicinity for several years. He has also seen several hundred deer from time to time and they were all in good condition.

THEATERS

"On the Avenue" at Orpheum Tomorrow

Swinging merrily along to the tune of the best songs ever written by the greatest writer of songs in the world, "On the Avenue," opening tomorrow at the Orpheum theater, represents Irving Berlin at his melodious best.

With Dick Powell and Madeleine Carroll making a new and romantic twosome of musical comedy, the lively Twentieth Century-Fox musical presents a real-life romance of New York, in a show that's as big as the town. Alice Faye, the Ritz Brothers and George Barbier add both melody and mirth to the production.

Madeleine Carroll, noted hitherto for straight dramatic roles, makes a charming sweetheart for Dick Powell. The beginning of "On the Avenue" finds her, as a wealthy debutante, entering a theater with her father, George Barbier, and an explorer, Alan Mowbray, at the moment that Dick Powell, Alice Faye and the Ritz Brothers are engaged in a hilarious take-off on the home life of "the richest girl in the world."

"I hope that you will see fit to make the adoption of legislation along the lines of the standard act part of the agricultural program for four states," the President said.

BIDS CALLED FOR NEW IDAHO DAM

Construction on Grassy Lake Project Expected To Start Soon

WASHINGTON, (Special)—On March 8, 1937, the Denver, Colo. office of the bureau of reclamation will accept bids for the construction of the Grassy Lake dam on the Upper Snake river project in Idaho. An invitation for bids with accompanying schedule, specifications, and drawings has been released by the bureau of reclamation it is a public works project.

Ralph H. Ormsby, onetime resident of Twin Falls, and student at the University of Idaho, is in Washington representing the Paul Hawkins ("Freshway") company of Los Angeles.

When the independent offices appropriation bill was before the senate, we reported the possibility of consolidation of the Idaho Federal housing office with Utah. The plan was to service all Idaho loans by the FHA office at Salt Lake. Senators Foe, McCarran, Truman, Robinson, Harrison, and others found themselves sharing the danger of losing FHA offices due to cut in the budget. They ganged up to increase the appropriation from \$8,500,000 recommended by the budget bureau to \$10,000,000.

The housing administrator assured them that with such an increase no consolidations would be necessary, so we are safe for another year.

Concerning the CCC
Reductions of all sizes and kinds have been rumored for the C.C.C. Robert Fehner, the capable director of that organization told us recently that he intends to retain 2,000 camps. About 80 camps will be discontinued April 1 because their work is all done. The enrollees will be transferred to other camps increasing the average enrollment by about seven.

The Idaho Congressional delegation has not been able to obtain the plans for the ninth corps area in which Idaho is located, but they intend to object vigorously to any substantial reduction in the number of camps allotted to Idaho. The Gen. State now has a total of 82 camps distributed as follows: 35 forest service, one state park, five soil conservation service, six state, three bureau of reclamation and two grazing. Most of them are safe.

Ex-Ku Kluxer
We have been endeavoring to find out who is supplying the little green, yellow and red slips to people all over the country which say, "Hands Off the Supreme Court." Today a gentleman high in official circles, in a position to know but who says, "Don't quote me," advised us they are being sent out by none other than Gerald B. Winrod of Wichita, Kansas, a Ku Klux Klan organizer in that organization's heyday. Hm!

Senator's offices generally leave no stone unturned to comply with a constituent's request for information, but here is one that stumped Senator Pope. A lady inquires as to whether a marriage license has been issued to a certain man and woman in whom she is interested. She says the license was issued "probably either in Iowa, Nebraska, Wyoming, Colorado, Utah, Idaho, or California, but could have been in one of the bordering states. Please find out and let me know."

It looks like a job for Pinkerton.

Session Attended By Lodge Members

Pythian Sisters met Thursday evening at Legion hall for their regular temple meeting. During the business session the group discussed the grand lodge to be held in June at Pocatello.

A social meeting was held later at the home of Mrs. Nina Laird. Refreshments were served by Mrs. Laird and Mrs. Angie Iron. Decorations were in a patriotic theme.

LAND SALE SETS 12-YEAR RECORD

Purchase of 566-Acre Ranch Made by Twin Falls and Kimberly Trio

Completion was announced today of the most extensive single land transaction in Twin Falls county during the last 12 years, with the purchase by B. F. Magel and Glen Magel of Twin Falls, and W. B. Savage of Kimberly, of the 566-acre irrigated ranch south of Kimberly which formerly belonged to the Utah Construction company.

The purchase was made at the rate of \$185 an acre and involved an expenditure of approximately \$104,000. B. F. Magel, who announced the transaction, said today.

The land purchase was the largest since Mitchell W. Hunt paid over \$100,000 for 640 acres four miles east of Buhl in March 1925. The purchase at that time was made from the estate of John E. White of Wallace.

It is understood the Utah company will purchase winter feeding land in California to replace the Idaho ranch.

MINOR EPIDEMIC LISTED AT BUHL

Health Report Shows 29 New Cases of Chicken Pox In West End

A minor epidemic of chicken pox was noted in Buhl today with the release of the weekly report of communicable diseases by the Twin Falls county health unit, and compiled by Dr. J. W. Hawkins, director, from reports submitted to him by private physicians.

New cases of the disease during the week ending this morning total 29 in the Buhl area, the report shows. Buhl is the only town or city in the county reporting any new cases of chicken pox this week.

The report also shows two new cases of scarlet fever were reported in Twin Falls during the week, as were nine new cases of mumps. One case of measles is reported at Hansen while a single case of epidemic meningitis is listed at Buhl. Three cases of trench mouth were reported in the city of Twin Falls. No cases of flu were reported.

ARGENTINE BABY HEIR FOUND DEAD

Nude Body Discovered Near Home With Injury On One Leg

(Continued From Page One)
was killed in a pistol battle with police, was suspected of possible implication in the Iraola case. His gang had planned several kidnappings before Gordillo's death. The gang's plans, police said, included several abductions in Buenos Aires province where wealthy families have estates.

Direct Connection Between the Gordillo gang and the Iraola family was reported by police who recalled that only a few weeks ago Senora Iraola was held up and robbed on a highway near the ranch from which the child disappeared.

Sees Kidnaping

The boy's older brother, Simon, told of seeing a man emerge from the trees and seize the child as he was playing on the lawn in front of the manor house of the ranch late Wednesday.

Search parties were organized immediately and the fields and grazing ground near the ranch home were inspected minutely by lantern light far into the night. No trace of the boy or his abductor was found.

Cowboys armed with rifles and knives rode the flat pastures back from the Atlantic coast line searching every possible hiding place in the province. Many of the searching parties, including millionaire ranch owners and Buenos Aires society youths, had been in the saddle for 24 hours when word was flashed that the boy's body was found.

The baby's disappearance was the first important kidnaping in Argentina.

The family stood ready to pay heavily for the child's return.

"If he were kidnaped for ransom, we would pay without advising the police," Senator Marina told newspaper men just before the body was found.

Lift a 235 pound weight off the floor without harness.

Lift a 440-pound weight above his head.

Lift 371 pounds by "bent press" from the shoulder above his head, with one arm.

Lift two men with one arm, above his head.

state committee, in turn, would direct conservation districts.

Districts could be formed by any 25 land occupants. The question of establishment would be decided by a majority vote in a referendum.

Each district would be governed by a board of five supervisors, including two state committee appointed and three members elected by land occupants themselves. They would serve without pay.

In addition to developing a local erosion-control program, district supervisors could "formulate an ordinance prescribing land-use regulations."

Law Carries Fine

The law carries a "fine as a misdemeanor for persons refusing to observe adopted control practices. In addition, district supervisors could seek a local court order giving them the right if the occupant still declined, to do the work and collect the costs."

The question of continuing or discontinuing the plan would be put at the end of five years. Funds to finance the districts would come from two sources, direct appropriation by states and grants-in-aid from the government.

"I hope that you will see fit to make the adoption of legislation along the lines of the standard set part of the agricultural program for four states," the President said.

RANGERS TO AID LOCAL SKI UNIT

Forest Officials to Survey Rock Creek Area With Club Members

Members of the U S forest service today announced through local ski enthusiasts that the service would aid in a survey of the Rock Creek section to ascertain favorable areas for ski runs to be enjoyed by residents of Twin Falls and surrounding territory.

Accompanied by Elmer C. Ross, forest ranger, and forest officials from Oakley and Burley, members of the newly organized Twin Falls Ski club will survey the area Sunday, March 7. Those who will accompany the forest officials include C. D. Van Tilburg, Roy Painter, Jack Gray and several others.

The group will meet the forest officials at the Rock Creek CCC camp March 7 at 10 a. m., and the survey will start from that point.

It was pointed out the forest men are interested in the activity and will probably be able to keep the Rock Creek road open its entire distance should adequate skiing possibilities be found.

Rock Creek CCC

Twenty-eight enrollees of Camp Rock Creek were entertained at a theater party and chicken dinner Monday evening in Twin Falls. Captain Alva H. Wilson, Commanding Officer, was host at the elaborate entertainment. Mr. Appleby, educational adviser, was guest of the occasion. The CCC men attending were chosen on merits of having the best bunk during the month of January.

Rev. W. H. Jordan, pastor of Seventh-day Adventist church, Twin Falls, gave an interesting talk to the CCC members. Tuesday evening. At the close of the service, Mr. and Mrs. Jordan sang two duets. They were accompanied by Mr. McNeil at the piano.

Work has been resumed on the Cassia drift fence. Even though the weather has moderated, the drifts are still plenty deep up on those mountain tops. The north boundary of the fence will be completed and ready for use by spring. This fence is being constructed to meet all legal fence requirements.

Mr. Love, superintendent mechanic, arrived in camp Tuesday to make a complete inspection of all trucks and equipment. During his stay he held a class which was attended by truck drivers and mechanics, giving instructions on the qualities and lubricating values of different grades of oil.

A considerable sum of money has been allotted the camp for use in repairing all the trucks and heavy equipment. Mr. Brown has been hired to help the mechanics make the extensive repairs on this equipment.

The road construction crews are working to the limit during these first warm spring days. The cat operators have been working double shift in order to keep ahead of the road crews.

The other day Mr. Barnard, assistant project superintendent saw a bull elk about three miles up the canyon above camp.

Many of the fellows were able to get a glimpse of it before he went on up the canyon. He was standing about 100 feet from the road when first seen. Mr. Barnard stated that it had an eight foot spread and appeared to be from 12 to 15 years old, and was probably the largest one seen in this vicinity for several years. He also has seen several hundred deer from time to time and they were all in good condition.

Session Attended By Lodge Members

THEATERS

"On the Avenue" at Orpheum Tomorrow

Swinging merrily along to the tune of the best songs ever written by the greatest writer of songs in the world, "On the Avenue," opening tomorrow at the Orpheum theater, represents Irving Berlin at his melodious best.

With Dick Powell and Madeleine Carroll making a new and romantic twosome of musical comedy, the lively Twentieth Century-Fox musical presents a real-life romance of New York in a show that's as big as the town. Alice Faye, the Ritz Brothers and George Barbier add both melody and mirth to the production.

Madeleine Carroll, noted hitherto for straight dramatic roles, makes a charming sweetheart for Dick Powell. The beginning of "On the Avenue" finds her, as a wealthy debutante, entering a theater with her father, George Barbier, and an explorer, Alan Mowbray, at the moment that Dick Powell, Alice Faye and the Ritz Brothers are engaged in a hilarious take-off on the home life of the richest girl in the world.

"Inflated," Madeleine stalks from the theater, threatens the manager with suit and brushes past a stage doorman to snatch Alice's wig from her head and break the dinow of Dick Powell's dressing room before she is forcibly ejected. From there on, the picture is entertainment plus.

NO Consolidation

When the independent offices appropriation bill was before the senate, we reported the possibility of consolidation of the Idaho Federal housing office with Utah. The plan was to service all Idaho loans by FHA offices at Salt Lake. Senators Pope, McCarran, Truman, Robinson, Harrison, and others found themselves sharing the danger of losing FHA offices due to cuts in the budget. They ganged up, increased the appropriation from \$8,500,000 recommended by the budget bureau to \$10,000,000.

The housing administrator assured them that with such an increase no consolidations would be necessary, so we are safe for another year.

LAND SALE SETS 12-YEAR RECORD

Purchase of 666-Acre Ranch Made by Twin Falls and Kimberly Trio

Completion was announced today of the most extensive single land transaction in Twin Falls county during the last 12 years, with the purchase by B. F. Magel and Glen Savage of Kimberly of the 666-acre irrigated ranch south of Kimberly which formerly belonged to the Utah Construction company.

The purchase was made at the rate of \$185 an acre and involved an expenditure of approximately \$124,000. B. F. Magel, who announced the transaction, said today.

The land purchase was the largest since Mitchell W. Hunt paid over \$100,000 for 640 acres four miles east of Buhl in March 1925. The purchase at that time was made from the estate of John E. White of Wallace.

It is understood the Utah company will purchase winter feeding land in California to replace the Idaho ranch.

DRAW A PICTURE OF SNIFF? IT'S NEW SUN VALLEY GAG

SUN VALLEY, Feb. 27 (Special)—Billy Edwards, brash but likable publicity dispenser of the Paramount amalgamation, has a new question with which he pesters all the poor unfortunates who cross his path of late, to wit, "Can you draw a picture of a snuff?"

The members of the board of the Sun Valley Ski club have been having long meetings every night for the last several discussing amendments and plans for the ski races scheduled for the middle of March.

George Davis, Paramount's top character actor, is something of a clown, and this morning while the troupe was waiting in the lobby for the departure of cars to location, he had the idea of Fred Astaire in the midst of one of his more abandoned pre-theatrical interludes.

CONFIDENTIAL REPORT

CRIME FILE ON BOLITHO BLANE

BEGIN HERE TODAY

Investigating the murder of BOLITHO BLANE, British passenger aboard CARLTON (ROCK-SAVAGE) yacht, Detective Officer KETTERING runs into a maze of conflicting clues.

Each of the ship's passengers appear involved in some manner. These include LADY WELTER, his daughter and son-in-law, REGINALD and MRS. JOCELYN (COUNT POSODINI), the BISHOP (BOB) and INOSUKE HAYASHI. Only NICHOLAS STODART, Blane's secretary, appears above suspicion since he was in the yacht's lounge all during the period in which the crime was obviously committed.

As the investigation progresses, Kettering learns that Stodart, who Rock-Savage possessed the best motive for the crime—financial gain. Moreover, he learned that Stodart was able to dress for dinner in four minutes, a feat conceivably enabling him to commit a murder and return to the ship's lounge without creating suspicion.

Confronted with this revelation, Rock-Savage countered that Stodart, too, had a real motive—money. Furthermore, that Stodart stood to lose a million dollars if Blane had lived long enough to conclude a merger with Rock-Savage, thereby killing the soap monopoly deal Hayashi sought.

Later, Lady Welter questioned again as to her whereabouts at the time of the crime, testified she was knitting a jumper in her maid's presence.

CHAPTER XIX

DETECTIVE OFFICER NEAMES'S SHORTHAND NOTES OF DETECTIVE OFFICER KETTERING'S EXAMINATION OF LADY WELTER'S MAID, MILDRED SHORT.

K: Come in, Mildred. Just a few questions I want to ask you about what happened on the night Mr. Blane met his death.

M: Yes, sir.

K: What time did Lady Welter ring for you to come along and help her dress that night?

M: I think it was about ten past seven, sir, that is when I got to her ladyship's cabin.

K: How long were you with her?

M: Just under half an hour, sir. I was back in the service room down below by twenty-five to eight.

K: Lady Welter was busy knitting a jumper that day, wasn't she?

M: Yes, sir.

K: Do you remember how far she had got with it before she sent for you to help her to dress?

M: She only had one sleeve left to do, sir.

K: How long would that take her?

M: About half an hour, sir. It was only a short sleeve, you see.

K: When you came back to her cabin, after she had gone up, did you notice if the jumper was just the same, or had she done anything to it?

M: I didn't see it then, sir. In fact, I was wondering yesterday what had happened to it because

A HUMAN DOCUMENT

If we Americans could get over our national habit of speaking only in reverent whispers whenever the constitution is mentioned, we might be able to approach our political problems more realistically and sensibly.

We have been discussing the constitution lately, and we have been calling on the shades of the great presidents in our history to witness that this document is a sacred thing not to be spoken of lightly or approached without the most profound awe.

It might therefore be good to have a look at the way some of the great presidents behaved when circumstances compelled them to walk up and lay hands on the constitution.

Henry W. Lawrence, professor of history and political science at Connecticut College, recently wrote a summary of the way Abraham Lincoln got the 13th amendment into the constitution.

This was the amendment that forever outlawed chattel slavery. Lincoln started it through during the Civil war. There were at the time 35 states in the American Union, including those which were then enrolled in the Southern Confederacy. Approval of 27 states was necessary if the amendment were to be approved.

How did Lincoln accomplish his end? By laying aside all his reverence for the sacred document, taking off his gloves, and playing the ancient game of politics for all it was worth.

The simple fact was that there were not, at that moment, 27 states which could be counted on to approve the amendment. So the military governors of those seceding states which had been occupied by federal armies were put to work. They applied pressure at points of their soldiers' bayonets, and from these still unreconstructed states came the ratifications Lincoln needed.

Lincoln had another trick in his wallet. He had the territory of Nevada admitted as a state so that it could vote for ratification. Nevada had an absurdly small population, and getting congress to approve its admission was a tough job—so tough that Lincoln, needing every vote he could get, finally authorized the assistant secretary of war, Charles A. Dana, to go to three Democratic congressmen and promise them anything they wanted if they would vote for the measure.

As Professor Lawrence points out, this stratagem worked. The three congressmen named the appointments they wanted, Lincoln okayed them—and Nevada was admitted to the union. Before Lincoln's death, the new state had ratified the pending 13th amendment.

This sort of thing is worth bearing in mind. If we can just realize that the constitution as it stands is only another law—and as such is a product of human errors, political deals, and plain, every-day expediency—we may be able to discuss it intelligently instead of emotionally.

UNFAIR INDICTMENT

Edmund Burke once reminded the British parliament that you cannot indict an entire nation. Critics of the social order might profitably bear his remark in mind.

Currently we find a widely known New York clergyman declaring that the Hollywood movie folk are "selfish, sensual, and self-indulgent," addicted to "taking wives in tandem," and given to a form of marriage which is no better than "progressive adultery."

Now there undeniably are movie people of whom this comment is true—just as there are lawyers, steel-puddlers, novelists, and itinerant brush salesmen of whom it is equally true. But to denounce the group as a whole in those terms is to commit a manifest absurdity. The high-steppers of Hollywood make the headlines; the people who stay at home and behave themselves don't make the headlines. Why judge the entire colony by the antics of the former alone?

It is questionable which is the more piteous spectacle; sitdown strikers after a tear gas barrage, or an audience during "Camille."

A midwesterner died of drinking a half-gallon of whiskey on a bet, which he won.

A New York professor says the brain has attained only a quarter of its growth. Or, in a reckless driver, a tenth.

The Terre Haute, Ind., policemen demoted to "maintain harmony in the department" probably sang off key in the station quartet.

It used to be "Here comes a collector; pull down the shades!" In this trailer era, it's " . . . stop on the gas!"

THE GENTLEMAN IN THE THIRD ROW

I haven't seen it since.

K: Is that so? All right. You can go; Mildred.

DETECTIVE OFFICER NEAMES'S SHORTHAND NOTES OF DETECTIVE OFFICER KETTERING'S SECOND EXAMINATION OF MR. INOSUKE HAYASHI.

K: Good morning, Mr. Hayashi. Good morning, Officer.

K: I don't think you were quite frank with me yesterday.

H: Oh, but I am always frank. I answer everything you ask—yes?

K: Maybe, but you didn't go out of your way to give me any extra information, did you? For instance, you didn't tell me that you had written a note to Blane asking him either to come to your cabin or give you a meeting in his before dinner.

H: I did not think that had any bearing on the case.

K: It has a bearing which may make things look very nasty for you, Mr. Hayashi. What time did Blane come to your cabin?

H: He did not come to my cabin.

K: Then what time did you go to his?

H: I did not go to his cabin. Poor man, he ignored my note, perhaps because he had no opinion.

K: What time did you send that postcard along to him?

H: About ten past seven, soon after Mr. Blane came on board. I wrote it in a small writing-room here and sent it down at once.

K: What were you so anxious to see him about?

H: It is quite simple. I have the disposal of the soap monopoly of my country in my hands. I must get the best price for my country that I can. I have been negotiating for its sale by correspondence with both Mr. Rock-Savage and Mr. Blane, but neither would make me a definite offer.

I knew that if these two once got together the chances were that they would arrange an amalgamation. That would have put an end to their competition and my government would have had to accept a much lesser price in consequence. It was my business, therefore, to try and arrange a deal with one of these two gentlemen before they met.

I SPOKE to Mr. Rock-Savage soon after I came on board in the afternoon, and he was unwilling to deal with me until he had seen Mr. Blane. His position was, of course, then far stronger than Mr. Blane's, because the shares of the Blane companies had been falling so heavily during the past few weeks. In consequence, I de-

termined to see Mr. Blane, if I could, and try to persuade him to make a firm deal with me. If he had done so it would have strengthened his position in dealing with Mr. Rock-Savage tremendously.

K: And what did you hope to gain for yourself, if you could have pulled the deal off?

H: For myself, nothing. I am only the employe of the Shikoku Products Company.

K: So you say, but what were you standing in to make on the side?

H: This suggestion you make is one which I resent most strongly.

K: Now you can cut out that high moral stuff right away, and I'm warning you that you had best come clean. Mr. Rock-Savage has given me the lowdown on the situation. You'd have us believe that you're trying to get the highest price you can for the Shikoku people, who are acting for your government, but that is not the case. The thing you're interested in is the highest bribe you can get to split with the Totomi Soap-people, in order to stall them off from wrecking the deal.

H: That I deny.

K: Deny it if you like, but it's the truth and we can prove it. In consequence it becomes quite plain now that you had the strongest possible motives for getting rid of Blane. If he and Rock-Savage had ever got together it looked as if you were going to lose your share of a million dollars.

Save this installment as evidence to help you solve the crime.

By DR. MORRIS FISHEIN, Editor, Journal of the American Medical Association, and of Hygeia, the Health Magazine.

Besides food, human beings frequently are poisoned by various types of drugs. These may get into the body in various ways, sometimes through taking an over-dose of a medicine, either purposely or by accident.

There are cases on record of children who died from strychnine poisoning because they ate large amounts of candied cathartic tablets distributed as samples. Sometimes people take over-doses of medicines for sleeping or for relieving pain.

Occasionally food may be contaminated by poisonous substances, such as: antiseptics or insect powders. People have been poisoned by nicotine sprays used on plants and by arsenic and lead used in insect sprays.

In any case of poisoning, certain steps should be taken at once. First, try to find out the nature of the poison that has been taken.

An empty bottle or package on the table, or the presence of some of the poison on the tablecloth, the floor, or the clothing may indicate

DOUBTS

WASHINGTON, Feb. 23.—Peculiar criss-cross currents of religious interest in President Roosevelt's court repacking program are noticeable deep within congress.

A Texas representative who fought the Ku Klux Klan has been receiving letters from constituents whom he recognizes as former Ku Klux leaders, advising him to oppose the program. They give no reasons, and he says, this means they have some fear of the arrangement of constitutional religious guarantees. In addition, he has received many opposition letters from leading protestant ministers.

Editorials from the catholic press are being circulated privately among the legislators who will vote on the plan. These express apprehension more directly. A typical example is that of the Catholic Register of Lincoln, Neb., which says: "Catholics had better study well any proposed changes or 'reforms' in the United States Supreme Court. Catholics in this nation owe a debt of gratitude to the judiciary of the country. Do you remember the Oregon school bill?"

To make the circle complete, some Jewish members of congress are reminding their colleagues of what happened in Germany when the constitution was superseded by a central authority.

NECESSITY

With Jews, catholics, protestants and ku klux expressing doubts or open opposition, it will probably be necessary for Mr. Roosevelt to make some guarantees, not for himself, of course, but for his successors in the presidential office against any possible future short-cut alteration of the religious guarantee section of the constitution, such as is now being proposed for the interstate commerce and general welfare sections.

While such matters are rarely debated publicly in congress, they have an influence privately on the legislators.

STYMIED

Despite all this flurry of activity recently, there will not be a vote upon Mr. Roosevelt's original plan next week or next month and possibly not next year.

The technical situation is this: The opposition now has 33 senate votes. This is one vote more than one third of the senate, which means no limitation of debate can be voted a two-thirds majority is required for cloture. It also means that 33 senators, deeply embittered against the proposal, can prevent a vote by talking until doomsday. Obviously Mr. R. will not let his plan go to that kind of a death.

It will be necessary, therefore, for him to accomplish his objective in some other related way, either by a simultaneous constitutional amendment, or rebissions which will win more senate votes.

As things stand now, Mr. Roosevelt should be able to get control of the court within the coming year by one means or another. Thus, there seems to be a similarly strong probability of new NRA legislation, new AAA legislation, etc. In other words, the controlled Democracy still seems to be around the next corner.

HOT BRICKS

Lack of enthusiasm for Mr. Roosevelt's project among his own loyal leaders in the house was illustrated again when they showed the fight off upon the senate.

Good excuses now are being offered by Speaker Bankhead and others, but the truth is they wanted none of it. Many have been grumbling for days that they have been forced to carry the hot for all Mr. R's hot legislative bricks from the be-

AMPLEY PROVIDED FOR

Editor Evening Times:
I am writing you in regard to a clipping from your paper recently sent to us by the Twin Falls Idaho Cooperative Relief Agency. We were informed that the article was written by a Shoshone mother whose name was obtained through you by the Twin Falls agency.

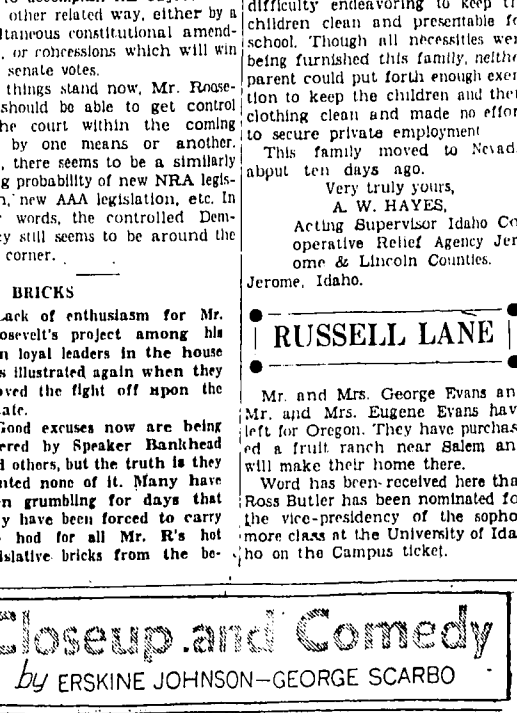

It may be interesting to you to know that the family involved has been amply provided for during the past winter by the Lincoln county officials. They have not lacked in food, clothing, bedding or medical attention as the records on file in Lincoln county will attest. At the time the family was being cared for, as above stated, the health officials of Lincoln were having difficulty endeavoring to keep the children clean and presentable for school. Though all necessities were being furnished this family, neither parent could put forth enough exertion to keep the children and their clothing clean and made no effort to secure private employment.

This family moved to Nevada about ten days ago.

Very truly yours,
A. W. HAYES,
Acting Supervisor Idaho Cooperative Relief Agency Jerome & Lincoln Counties, Jerome, Idaho.

Scoring a wind of almost gale velocity that swept the rolling, sea-side links, Miss Miley shot the first nine in one over men's par, despite a seven on her card.

Crack Thoroughbreds Battle For World's Largest Purse Today

ARCADIA, Calif., Feb. 27 (U.P.)—Eighteen of the nation's best thoroughbreds run this afternoon in the world's richest race—the \$100,000 Santa Anita handicap.

Clear weather and a fast track were predicted for post time, (4:15 p. m., P. S. T., 6:15 p. m., C. S. T.) despite a week of rain that had threatened to make the race a chinch for mudders. But with a drying track the veteran Time Supply, owned by Mrs. Frank Carraud, was the likely favorite.

About 50,000 fans—including hundreds of movie colony celebrities—will jam the stands of the colorful Santa Anita track. The estimated crowd would shatter the previous attendance record of 46,000 on closing day last year.

A last minute poll of 30 turf writers gave Time Supply the nod with eight votes. Rosemont, owned by the Foxcatcher Farms, and Star Shadow, the chief hope of A. A. Barron (the "Baron of Reno"), were second and third choices.

EDUCATION BILLS HOLD SPOT-LIGHT

Both House and Senate Will Receive Measures for Junior Colleges

BOISE, Feb. 27 (AP)—Calendars of both the Idaho senate and house of representatives today contained a liberal supply of educational bills for the legislative mill.

Facing the senate are bills asking the state to take over plants of Coeur d'Alene college and Ricks college, Rexburg, and operate them as state junior colleges.

Asked for the Coeur d'Alene school is \$20,000 for operating expenses during 1937-38; for the one at Rexburg, \$60,000.

The upper house late yesterday defeated a measure to permit establishment of certain three and four-year colleges at the present two year branch of the University of Idaho at Pocatello.

Previously Defeated The Ricks bill also was previously defeated at the present 24th session. The Coeur d'Alene proposal is on its first run.

In the house the educational institutions appropriation bill was up for final action. The measure was reported out of committee of the whole Tuesday with a \$1,500,000 University of Idaho appropriation undisturbed despite attempts to reduce the amount by a quarter million dollars.

Opposition forces, including economy boosters and disgruntled advocates of defeated educational measures, have had two days in which to work after their efforts to amend the bill failed, and hope to defeat the measure or send it once again to committee of the whole when it appears for consideration.

The senate served notice it thought women as yet unprepared to serve as jurors by defeating a bill to give them that right. Vote was 17 to 24.

Will Win Eventually Objections found to the measure included "unrelenting logic of the feminine mind," opposition to saddling women with another burden; lack of conveniences in present court-houses. Unavailing were equal rights arguments and statements that persistence of woman demand for the bill would surely win out eventually.

Reconsidered and indefinitely postponed as attempting to "set up a tariff wall around the state" was a measure proposing to levy an additional tax of \$3.10 a barrel on beer shipped into the state.

The house of representatives refused to establish a new department of labor, to which present duties of the state mine inspector, re-employment service and unemployment compensation administration would be transferred.

Leavitt offered the bill as a chance to help the laboring man. Last summer's trouble in the north Idaho lumber belt would never have happened if we had had a labor commissioner," he declared.

"We look after everybody except the ones who pay the bill," observed Powers, Twin Falls, Hussman, Idaho, declared the bill gave more power to the proposed labor commissioner than is possessed by the governor. Vote to kill was 25 to 31.

Among ten measures passed during the house afternoon session were proposals to allow municipalities to purchase land outside the city limits for protection of the water supply, allow leasing of public land for airports to the extent of 1200 acres instead of 640; permit hiring of additional election officials instead of splitting precincts.

A new bill introduced in the house proposed to appropriate \$1,500,000 to the public school income fund for school equalization purposes. A similar bill asking twice the amount met earlier senate defeat.

Another proposal asked appropriation of \$865 for expenses of a representative of the veterans of foreign wars to France to attend ceremonies dedicating American world war battle monuments this coming summer. A proposed joint memorial asked congress to approve construction of a \$44,000 irrigation canal near Challis in Custer county.

SENATE SUSTAINS NEW CLARK VETO

Two Thirds Majority Missed By One Vote on Pin Ball Measure

BOISE, Feb. 26 (AP)—Authority of Governor Barzilla W. Clark's veto today for the second successive day had been upheld by Idaho's senate—but this time by a margin of only one vote.

Fourteen senators voting "no" late yesterday prevented passage of a motion to override the governor's veto of a bill to classify as gambling devices pin-ball machines and similar mechanical devices. Voting for the motion were 27, with 25 necessary for a two-thirds majority.

Argument in favor of reversing the governor's stand was led by Bruce Blake, Clearwater, sponsor of the bill, and Republican Floor Leader R. E. Whitten, Boise county. Center of yesterday's debate was the question of public policy rather than constitutional issues which obscured a similar attempt to override Clark's veto the previous day of a bill to place responsibility for enforcement of the state's liquor laws in the department of law enforcement.

Two Vetoes Sustained By having his two vetoes sustained, the governor at least prevented lightening up of regulations pertaining to liquor and gambling. However, no bills have yet gone through the legislative machinery to carry out his views on liberalization of those restrictions. Criticizing the legislature for passing poor laws, Gillette, Teton, said, "If I ran my private business the way business is run here, I'd be broke in six months." Anderson, Elmore Republican,

voted against the bill when it was originally passed in the senate 34 to 10, but campaigned to reverse the governor. He criticized senate Democratic leaders for not "standing shoulder to shoulder with the governor," on Wednesday's liquor bill.

Governor Deserter J. B. Newport, Canyon, president pro tem, and Democratic Floor Leader J. H. Nell, Benewah, deserted the governor on his liquor control veto, but returned to the fold on the gambling question. Nell later explained that although he also favored overriding the lat-

NEEDY FAMILIES GIVEN CLOTHING

More Than 5,000 Garments Distributed To Over 500 Local Families

Since the re-establishment of the Associated Charities in Twin Falls, over 5,000 garments have been distributed to 500 families in this area. O. D. Lyda, in charge of the distribution center in the old offices of Idaho Evening Times, told representatives of various groups attending a meeting of the organization last night at the county court house.

At the present time Mr. Lyda said, shoes and children's overalls and dresses are needed most for distribution. He said local citizens and those living adjacent to the city, including many farm families, have been generous in their response to the call for clothes made by the organization.

Those receiving the donations, he pointed out, have cooperated with the agency to such an extent that if some garment they receive does not fit they have returned it so that it might be given to someone else.

Other Officers Named

Organization of the association was completed with the unanimous election of Harold A. Salisbury, area NYA supervisor and secretary, and Loyal Ferry, local banker, as treasurer.

It was disclosed that approximately \$700 was spent last year for purchase of shoes for unfortunate families, but at that time the group was operating with the Community Chest, while at the present time there are no funds in the treasury. A drive was outlined to start Monday to secure funds for the purchase of shoes.

During the meeting last evening Mayor Duncan, J. O. Johnston, Rev. Andrew Warner, Harold Salisbury, Mr. and Mrs. Roy Painter and others spoke on various subjects. Attending were representatives of the P-T-A, Methodist church, Catholic Women's league, city of Twin Falls, American Legion, Workers' Alliance No. 39, National Youth administration and the Chamber of Commerce.

Explains Agencies

During the meeting Salisbury, aided with technical explanations of the work of the various government agencies, and it was pointed out that clothing, repaired by the WPA sewing project, could only be distributed to those certified to either relief or to WPA.

It was also explained complete lists are being kept at the distributing office both by Mr. Lyda and Ed. Hampton, who is also stationed at headquarters.

Presiding at the meeting was Rev. Charles W. Ronk, with Mayor Johnston serving as temporary secretary.

EASTER BARGAINS BRING SALE RISE

Dun and Bradstreet Report Shows Big Increase Over Year Ago

NEW YORK, Feb. 27 (AP)—Pre-Easter promotion sales gave added impetus to a further rise in retail trade this week, Dun & Bradstreet, Inc. said today in a weekly trade review.

Retail sales for the country as a whole proceeded at a rate 14 to 22 per cent above that of a year ago, and wholesale volume was 18 to 22 per cent larger.

Spring merchandise moved rapidly, particularly in clothing lines. Most cities reported successful furniture clearance sales. Staple lines of home articles, dry goods and groceries were in demand. Weather in most areas was favorable to distribution.

In the midwest emergency buying for flood sufferers carried retail volume 30 to 50 per cent higher than the 1936 comparative in some cities, with the average increase 15 to 25 per cent.

Preparations for Easter trade also pushed wholesale volume to higher levels. Replenishing buying by retailers in the flood regions gathered momentum. Interest on the part of retailers broadened in Easter gift lines, drugs, pharmaceuticals, clothing and household dry goods. Distribution of the latter was hampered by soant wholesale stocks.

CHARITIES PLANS SURVEY OF CITY

Complete Listing of Persons Receiving Aid Is Goal of Organization

A complete survey of Twin Falls, to ascertain those persons who are not receiving aid from any of the established relief agencies, but who nevertheless are in need of relief, was being planned today following a meeting of representatives of the Associated Charities last night.

With the assistance of National Youth administration clerical help, complete lists will be completed, and these will be checked against lists of other persons receiving aid in this section, through various agencies.

Committee Named

A board composed of Roy Painter, Rev. Charles W. Ronk, Rev. Andrew Warner and Mayor Duncan. Mr. D. Johnston was appointed at the meeting to name a committee which will have charge of the survey.

The survey will be put in operation as soon as possible and Harold A. Salisbury, area NYA supervisor, will prepare a list of operating units dealing with various forms of relief, the head official in each case, and other data and will have it ready for the nominating committee's use Tuesday afternoon.

The survey was urged by Roy Painter, local banker, and Rev. Andrew Warner, district superintendent of the Methodist churches, for the purpose of disclosing the need of each individual family so that their wants might be better cared for, and also to eliminate the cases where the same form of assistance is received by the family from more than one agency.

Will End Overlapping

The sponsors of the movement called attention to the fact this will do away with the overlapping of the organizations and will enable the heads of each to see what the officials of the other group are doing.

The canvass is expected to get underway the middle of next week, and to take from a week to 10 days to complete.

GIRLS' SCHOOL ENTRIES CLIMB

A substantial increase in the number of applicants for the Federal Resident school for girls at Weiser, as announced by Harold A. Salisbury, supervisor of the National Youth Administration, here today.

Response of qualified girls from state resident relief families indicates "a full roster" of young women will attend second term classes at the Weiser school starting March 15, Salisbury said.

The school is sponsored by the NYA for the benefit of underprivileged girls of the state between the ages of 18 and 25.
