

GOODING SLATES ANNUAL CONTEST

High Schools Invited to Take Part in Sixth Yearly Scholastic Meet

GOODING, March 25 (Special)—Sixth annual scholastic meet will be held at Gooding college, April 9. It is open to high school students, and contests are held in academic subjects, declamation, music and commercial subjects with a trophy for the school winning the most contests and medals and ribbons for the individual winners.

Miss Henrietta Gunderson, head of the college English department, is in charge of the meet and has sent out invitations to a number of schools. Any school is invited to enter contestants, and those interested should write to her, she states.

Contestants are regularly enrolled under-graduate students in a high school or academy in Idaho, or adjoining states, under 21 years of age, and successfully pursuing three standard five-hour courses. Contestants in expression will be limited to one from each school, except in music, and to two in each of the other contests.

Registration Date
Entries must be in the hands of the high school day committee, at the college not later than 6 p. m., Wednesday, April 7.

Winners of first place in each of the events will receive a medal engraved for the occasion, second place a ribbon, and third place honorable mention. A trophy will be given to the school making the greatest number of points on the basis of five points for a first, three points for a second, and one point for a third.

Contests will be held in the following subjects: academic—American history, algebra, biology, civics problems, chemistry, English, French, German, Latin, mathematics, third year, physics, plane geometry and word history; declamation—oratory and expression; commercial—typing, stenography and bookkeeping.

Play Scheduled
The cups, medals and ribbons will be awarded at 7:30 p. m. in the college auditorium. Following that the college play production group will present a three act play, "Once in a Life Time."

Last year Gooding high school won the trophy with a total of 44 points.

SCHOOLS AID IN YOUTH PROGRAM

Local High School Joins in Statewide Plan to Provide Work

All high schools with the exception of two in Idaho are participating in the school aid program of the National Youth Administration, V. L. Hudelson, assistant state director, said here today. Mr. Hudelson is on a tour of the state contacting school officials in the various towns.

The influx of drought stricken families from the mid-western states, he indicated, has taxed the student aid program to the fullest extent. This is especially noticeable in the Snake river valley where most of the families settled, he said.

At the Twin Falls high school, Mr. Hudelson said, an average of 35 young people are able to continue their schooling through funds received here by the NYA and which is paid the students for part time work projects furnished by the school.

H. D. Hechtner, principal, and W. E. Smith, superintendent, have charge of projects in the local high school.

HAGERMAN

Mrs. Donald Stone, formerly Miss Dorothy Rider, was guest of honor at a party and wedding shower given by the ladies of the Methodist Episcopal Aid society at the church Friday. A program directed by Mrs. W. Tupper was given which consisted of piano solos by Miss Louise Whorton and Mrs. L. Hopkins, readings were given by Mrs. A. Jones, Mrs. W. Justice, Mrs. J. Townsend, Mrs. D. Morganroth and Billy Morganroth.

Honoring the birthday of Mrs. Ralph Barton, a group of relatives and friends gathered at the Barton home Friday for a surprise birthday shower party. In addition to the gifts brought by the guests present, Mrs. Barton received a surprise package, the same evening from Mrs. Ester Wilson, Washington, niece of Mr. Barton.

Refreshments were served by the hostesses for the afternoon Mrs. R. Kennicott, Mrs. John Hastings and Mrs. W. Tupper.

Following the regular Sunday school services at the Methodist church next Sunday a short Easter program will be given.

The Methodist Episcopal Aid society will hold a cooked food and apron sale at the Tingwall store, Saturday.

School was held here Saturday to help make up the days lost when the weather prevented the students from coming to school. Two more days are to be made up, which will also be made upon Saturday.

Mr. and Mrs. John Jensen have returned from a four month's visit in California, Oregon, Arizona and Nevada. In Oregon the Jensen's visited Mrs. E. M. Shirliff at Roseburg; Mr. and Mrs. A. Shirliff in Winchester Bay and Mr. and Mrs. H. Shirliff in Myrtle Creek.

Strikers Caught Napping

When stay-in strikers in another store curled up in the aisles like this they were arrested for conducting a lodging house without a license. But these clerks in the F. W. Woolworth 6-and-10 cent store in 14th street in New York City were unmolessted, awakened in the morning to carry on their tie-up of business.

INCOME RETURNS UNDER ESTIMATE

WASHINGTON, March 25 (U.P.)—Administration fiscal officials said today that March tax collections had fallen short of estimates—a shortage expected to increase the 1937 fiscal deficit by at least \$150,000,000 and threaten President Roosevelt's projected "technical balance" of the 1938 budget.

Despite admitted failure of tax receipts to meet expectations, President Roosevelt expressed hope at Warm Spring that there will be no new taxes at this session of congress. Now Deal congressional leaders said flatly they believed every effort would be made to avoid any new tax bill.

SERVICES AT HAGERMAN

HAGERMAN, March 25 (Special)—Holyweek candle light Communion services will be held this evening at the Methodist church with Rev. Carl Davidson, Wendell, officiating.

Traffic Violator Will Face Court

Local Contractor Bound Over On License Charge

Claude Grimes, Twin Falls contractor, today was free on his own recognizance to answer to district court on charges of operating a motor vehicle without a state drivers' license.

Grimes waived preliminary hearing as he appeared before Justice Guy T. Swope Tuesday afternoon and was bound over to the district court.

He was arrested Monday afternoon by local police officers after he is alleged to have run through a funeral procession. He was held in the county jail until he appeared before Justice Swope on a complaint signed by officers.

His drivers' permit, officers stated today, was revoked sometime ago when he was found guilty of operating a motor vehicle while under the influence of intoxicating liquor.

HOME UNIT OPEN TO ALL PERSONS

Only Requirement Necessary Is That Applicant Be U. S. Citizen

Because many residents of Twin Falls seem to be of the opinion that in order to join the American Citizens Protective association they must plan to build a home, Al Hacker, chief of research for Twin Falls county, said here today that this impression is mistaken.

"Any American citizen is welcome to join this home building association. It is not necessary that they join to build a home, they can also join to aid others in building their homes."

"Of course we are primarily organized to aid those of the low income brackets in securing a home of their own, to which they are entitled. These people do not want to have things given to them. They are willing to work for what they get and that is why the association was founded. They want to move out of the tents and shacks in which many of them are now living and it is the duty of each citizen to aid them. It will not only improve the conditions and outlook at life of these people but it will also greatly improve the community of Twin Falls," Hacker said.

An organization meeting for Jerome county is scheduled for Friday at 8 p. m. in the court house at Jerome.

Organization in Jerome will make the fourth county to come under the group's banner, Twin Falls, Bannock, and Bonneville already having active organizations.

Contest Slated by Hagerman School

HAGERMAN, March 25 (Special)—A spring concert will be presented at the Legion hall Friday evening, April 2, by the music department of the high school under the supervision of C. The contest numbers given will be presented later at the district music festival to be held in Burley April 9 and 10.

Selections will also be given from the school operetta to be presented at the same hall May 7.

Proceeds from the concert will be used to defray the expenses of the pupils entering the contest at Burley in April.

Boake Carter speaking:

"Luckies don't catch your throat—they're easy and smooth"

"The thing I prize most is my reputation for saying what I think. Here's what I sincerely think about smoking—it's one of the greatest pleasures in the world, but it can be utterly spoiled by throat irritation. My job's tough on the throat and I have to be careful to keep my voice clear. Long ago I found that Luckies are easy and smooth and don't catch your throat. That means everything in a job like mine. Next time you hear the usual 'Cheerio' at the end of my broadcast, you can picture me reaching for a Lucky an instant later."

Boake Carter

An independent survey was made recently among professional men and women—lawyers, doctors, lecturers, scientists, etc. Of those who said they smoke cigarettes, more than 87% stated they personally prefer a light smoke.

Mr. Carter verifies the wisdom of this preference, and so do other leading artists of the radio, stage, screen and opera. Their voices are their fortunes. That's why so many of them smoke Luckies. You, too, can have the throat protection of Luckies—a light smoke, free of certain harsh irritants removed by the exclusive process "It's Toasted". Luckies are gentle on the throat.

11 DAYS LEFT IN MISS IDAHO RACE

Girls Aiming at Free Trip To Frisco Must Send Pictures Soon

With only 11 days to go before the deadline arrives for the naming of "Miss Idaho" in a contest which will see the winner awarded a free trip to San Francisco with an opportunity to be selected as "Miss Western America" at the San Francisco exposition, those girls in this vicinity wishing to enter were urged today by the Junior Chamber of Commerce to do so at once.

All entries will have to be in the hands of the queen contest committee of the Boise Chamber of Commerce before midnight April 5, officials said today.

Personal appearances at Boise are not necessary. It was pointed out. To enter, each girl must send two unretouched glossy photographs, eight by ten inches, one full length and one portrait and a 300 word or less statement giving the age, weight, height and a description of the young lady's qualifications, as well as a list of the organizations to which she belongs, and her schooling. The one selected by this method will receive a free trip to San Francisco including a five day entertainment program at the Golden Gate exposition.

Further particulars regarding the contest can be obtained from the Chamber of Commerce offices in the community where the young lady resides, officials indicated.

Quick Action Stops Pocatello Jail Fire

POCATELLO, March 25 (UP)—Prompt action by Pocatello's fire department Wednesday prevented three prisoners in the city jail from being burned to death.

The fire started early Wednesday morning when a gasoline torch exploded while being repaired by

a patrolman. Flames ignited between 10,000 and 15,000 circulars hanging on the wall. Intense heat burned out telephone fuses, cutting off communication.

Firemen extinguished the blaze and within 15 minutes the three prisoners were released.

Michigan Town Wields Big Stick on Parking

JACKSON, Mich. (UP)—This city, site of the state prison for southern Michigan, enforces its parking ordinances with "a big stick."

Two patrolmen of the traffic division move through a business district route at hourly intervals, on

a custom-built motorcycle designed by Chief Edward C. Harris.

The machine has half the usual wheel gauge and a tractor seat instead of a sidecar. The "passenger" members of the teams carries a long pole with a chalk tip, which he drags against the wheels of parked cars.

On the return trip, an hour later, all cars still having chalk marks are

tagged. Tags may be set off at the traffic bureau for \$1.

BOOST SEEN FOR WHEAT, CATTLE

Government Experts Predict Higher Prices for Three Principal Foods

WASHINGTON, March 25—The butcher, the baker and the candlestick maker may soon raise their prices, government forecasts of higher prices for wheat, cattle, hogs and sheep indicated today.

Growers of the three principal foods on the American table—bread, meat and potatoes—probably will receive the highest prices since the start of the depression, the department of agriculture reported.

The department of labor index of retail food prices showed an increase of 5 per cent during the past year and an increase of about 30 per cent above the low point of the depression in 1933. Meat and bread prices led the advance.

Not Alarming
Government officials said the increase in food prices is not "alarming" and that the pay envelope of the average wage earner will now buy more food than a year ago. Workers on a fixed salary have been the principal losers, it was said.

The department of agriculture, in forecasting higher prices to producers this summer, gave little hope for a halt in the upward flight.

Wheat prices have risen 25 cents a bushel in recent weeks, but bread prices have not advanced generally, labor department statistics showed.

Cattle Higher
Despite indications of an 800,000-000 bushel American wheat crop this year, the bureau of agricultural economics said, prices probably will continue at the present high levels and may go higher next fall and winter. Wheat prices are now at the highest point in ten years, due to four short crops, increased world demand and depleted reserve stocks.

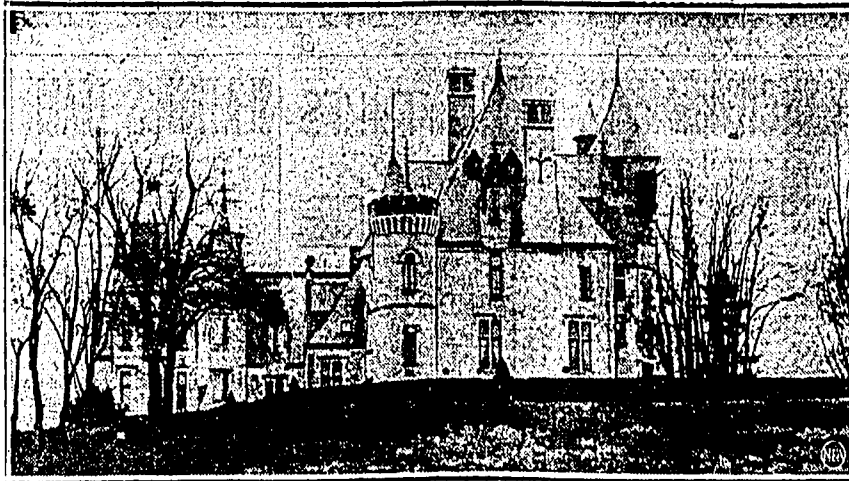

Prices of cattle are expected to average higher than last year and may go higher than in 1935, the bureau said.

Despite the large stock of hog products in storage, hog prices probably will be higher this summer, the bureau said. The early lamb crop is about 10 per cent smaller than a year and higher prices this summer are probable.

JOB SERVICE TO AID WAR "VETS"

Detailed Account of Veterans Registered Year or More Being Completed

In line with the movement over the United States to secure jobs for unemployed veterans, the local office of the United States employment service is preparing a detailed account of each veteran registered with the service one year or more. Ray Butler, acting supervisor, said today.

The comprehensive report will include age, education, disability (if any), length of experience in primary and secondary occupations, relief status and other data.

The aim of the office file survey, Butler said, is to discover jobs for veterans and find out exactly why those unable to secure work are in that classification.

Work on the projects must be completed before April 1, the material having to be in Boise that date for inclusion with other data from over Idaho for dispatch to Washington headquarters.

Starting April 1, Butler indicated, a complete inventory of the active file, totaling approximately 5,000 persons in the nine counties served by the local office, will be made. This report must be completed for state headquarters by April 6.

VALLEY ORCHARDS HURT

HAGERMAN, March 25 (Special)—The extended period of the extreme freezing weather of the past winter, according to report of valley fruit men, has resulted in serious damage to orchards here. Some fruit men have reported most of their peach and apricot crop gone. Red raspberries, dew berries and cherries are also considerably damaged, according to report.

NEW AERIAL JOB OPEN FOR IDAHO

Survey Engineer Under U. S. Government Will Be Named Soon

By RALPH W. OLMSTEAD
WASHINGTON (Special)—A new federal job is being created in Idaho. The post is aerial survey engineer for the state; the job, to make aerial surveys and correlate them with ground survey work. Aerial photos will be used as a basis of determining compliance with the soil conservation program. The appointment, paying \$2,000 per annum, will be made about May 1 for three months, but it may be extended to a year-round appointment.

The sudden rush of post office business at Ketchum resulting from Sun Valley has practically disrupted Mr. Farley's organization. What was once an obscure 4th class office is now a booming institution with lots of money and no sale, lots of business and no equipment. An effort is being made to get the department to rebuild the office this year.

The senate has passed Senator Bone's bill creating two new circuit judgeships on the Ninth United States circuit court of appeals at San Francisco, within the jurisdiction of which comes Idaho. In the present membership of the court California has two, Washington, Arizona and Oregon one each. If Bone's bill passes the house, Idaho might get a man on the court. It will not be an easy appointment to get, however, because neither Montana nor Nevada are represented on the court at present and both are expected to battle for a place in the judicial sun.

If sit-down strikes continue, congress will probably have to enact legislation to save from extreme embarrassment the country's thousands upon thousands of night-watchmen—"and government employees," says an onlooker.

The brain seldom exceeds an average weight of 1,280 to 1,460 grams in men, and 1,140 to 1,340 grams in women.

BEEF MEN BOOK JEROME SESSION

Three North Side Counties to Send 200 to Banquet Held Today

JEROME, March 25 (Special)—Two hundred beef producers and business men from Jerome, Gooding and Lincoln counties will be the guests of the Jerome, Gooding and Lincoln county Beef Growers' association and the Junior and Senior Chambers of Commerce of Jerome at a dinner meeting to be held in the banquet room of Wood's cafe today at 7:30 p. m. This meeting is being held for the purpose of outlining a procedure to increase the beef acreage in this area and to ultimately establish a sugar factory at Jerome to serve this district.

Men prominent in sugar production and processing throughout the northwest have been invited to speak. Among those expected to attend are Roy Cotzarel, Amalgamated Sugar Co., Ogden; R. H. Tallman, Idaho general manager of Amalgamated Sugar Co.; John Felhousen, director of Beet Growers' association; Carl DeLong, president of Idaho Potato Growers' association. Since the seating capacity of the banquet room limits invitations to 200, it is impossible to invite all who are interested, committee in charge states. Every spring, as soon as the icebergs break up in the north and begin their journey south, small cutters patrol the ice fields and keep tab on every berg.

EASTER STYLES GLOWING COLORS

"Be Surprising" Is Motto of Season at Florida Resort City

MIAMI, Fla. (U.P.)—Arbiters of fashion, who have had headquarters here for the winter, see in the Easter displays of feminine finery a spring and summer season cast in glowing colors and punctuated by amusing highlights.

Among the hibiscus bordered Biscayne Boulevard are seen fashions that will appear soon in the north. Two color suits, white lace linings for jackets of dark sheer ensembles, bread basket hats filled with fruit or vegetable, illusion sandals that put wings on the feet and white lingerie evening gowns reminiscent of Kate Greenaway are a few of the important highlights being disclosed in anticipation of Easter festivities.

It's a season when "be surprising" is fashion's bon mot. Buttons wear guises ranging from ram heads and open books to butterflies and mermaids. Laxest hats conform to any shape of head. Gay little gypsy suits, with skirts patterned after Joseph's coat-of-many-colors, swing jauntily along beside full-skirted frocks patterned in bees, roosters and other inhabitants of the farm yard. For suits, however, there is one rule that invariably applies—every jacket has its flare. Sometimes the flare merely is suggested by a belt draped snugly about an emphasized waistline. Again the jacket may be quite straight in front with the fullness concentrated at back. In a third instance the jacket achieves jauntiness with the peplum silhouette. Evening modes run the gamut from romantic robes to frocks of white lingerie that revive almost unchanged the mode of a bygone era. There are mummylike sheaths banded in hieroglyphics, printed bengalines with the quaint charm of a more formal age and brilliantly striped organzas and chiffons that evaluate the Roman mood of spring.

LICENSES ISSUED
JEROME, March 25 (Special)—Marriage licenses issued over the week-end by the county recorder went to Leo Rogantine of Eden and Mabel F. Graham of Eden, and to Louis Phillips, Ogden, and Phoebe Fulton, Salt Lake City, who were married by the probate judge.

The number of Americans killed in traffic accidents during the last 15 years is greater by far than the number killed in all the wars that the nation has ever been in.

Monarch of All He Surveys

He is neither a bird nor the daring young man on the flying trapeze. And yet he flies through the air with the greatest of ease. He is Alf Engen of Salt Lake City, Utah, who won the Canadian ski championship by leaping 194 and 208 feet at Banff. Having previously won the United States title, Engen is undisputed North American champion.

MURTAUGH

Members of the Pioneer bridge club met at Mrs. A. M. Hoover's home in Kimberly Saturday. Guests were Mrs. W. R. Sickafus of Murtaugh and Mrs. Harold Brodhead and Mrs. Henry G. Kimberly. Pleasant Valley

Visiting day was held at the school house Friday with a number of parents and those interested in the school attending. Among the guests was Mrs. Doris Stradley, county superintendent. Work of the year was posted and classes held.

Families recently moving to Pleasant Valley include A. M. Baxter and Homer Butler. The Junior girls of the Sunday school class are planning an Easter breakfast to be held early Easter morning. Pleasant Valley 4-H boys held a meeting Monday at the school. A social will be held at the school Friday with everyone interested urged to attend, it is announced.

MASCOT

Some one evidently thought that Twin Falls high school's debate team would need the aid of a mascot for the coming district and state tournaments. In his mail box yesterday morning Coach Gerald Wallace found a gaudy duck with a large yellow beak and a blue costume labeled, "Debate team mascot." But the joke bounced back—and the debaters fooled the prankster by naming the fowl Oscar and officially adopting it as mascot.

NORTH SIDE GROUP ATTENDS SESSION

Gooding-Jerome Organization Division Discussed at Annual Meeting

GOODING, March 25 (Special)—Annual meeting of the Gooding-Jerome Cow Testing association was held at Wendell Friday, announces C. L. Mink, county agent. Considerable discussion was held relative to the division of the association into two groups.

R. H. Kendall, Wendell, pointed out numerous advantages of such a division. W. D. Fyles of Gooding, president of the association, and Knight, two men from the Boise office, came Saturday morning to aid in the repairs and met Mr. Nelson and his companion west of town. When they arrived at the Nelson cottage it was found that Mr. Nelson was suffering from some badly frozen toes on both feet. He was immediately taken to Twin Falls for medical treatment and latest re-

distances, and yet covering a wider territory was to use a trailer to transport the bulls to the various farms.

A. V. Carter, Gooding, E. P. Johnson, Elils, and A. F. Smith were appointed to work with the county agents in organizing bull associations.

Officers Named
Mr. Fales was reelected president. C. L. Mink, secretary and treasurer, and L. J. Trenchard, vice president, were also elected. H. Lundberg, R. H. Kendall, and Harold Skeels were named on the board of directors.

Establishment of a bull association to provide high class bulls through such an association, was discussed at Wendell Friday and at Gooding Saturday in a meeting held in the county court house in the morning.

JARBIDGE

Mr. and Mrs. Elmo Hunter have left for Oakley where they will visit a short time before going to Halley to make their future home.

Mr. and Mrs. L. W. Shook and family, who came here from Grand Junction, Colo., about a year ago left Saturday for Halley where they will make their home. Mr. Shook will be employed by the Snyder Mines, Inc. with holdings near Halley.

Jarbridge was blanketed with about nine-inches of fresh snow last March 17 and a resultant cold wave the latter part of the week. Due to the severe storm there was a rift in the floor of electric power from the Thousand Springs plant that supplies this territory.

Alfred Nelson, patrolman between Jarbridge and Mountain City, Nev., was called out on patrol last week. He was accompanied by R. E. Knight. Two men from the Boise office came Friday morning to aid in the repairs and met Mr. Nelson and his companion west of town.

A. V. Carter, Gooding, E. P. Johnson, Elils, and A. F. Smith were appointed to work with the county agents in organizing bull associations.
