# COMPROMISE RELIEF FUND EXPECTED IN PRESIDENT'S BUDGET

## \$1,200,000,000 MAY BE AMOUNT NAMED BY FDR

### Figure Would Be Under That Formerly Set to Balance With Receipts

By LYLE C. WILSON  
 WASHINGTON, April 7 (U.P.)—Senatorial sources predicted today that President Roosevelt would ask congress next week to appropriate \$1,200,000,000 for recovery and relief in the next fiscal year.

The figure represents a compromise between two bitterly divided wings of the Democratic party. The so-called spending Democrats are organized behind Federal Emergency Relief Director Harry L. Hopkins plan for a permanent annual federal works program appropriation of \$2,400,000,000.

Sentiment for the Hopkins plan is strongest in the house. Rep. Maury Maverick, D. Tex., and five other Democrats announced yesterday formation of a bloc of 100 representatives to support a \$2,400,000,000 annual recovery and relief appropriation.

It is understood also, that there has been some administration consideration of another relief appropriation for this fiscal year although no decision has been made.

Want Curtailment  
 Influential senate Democrats want quick curtailment of recovery and relief expenditures. They have passed to the administration an ultimatum that there shall be no new tax bill at this session.

The United Press was informed that the treasury had made informal proposals to raise new taxes and was told that congress would balk at anything beyond a resolution extending for one or more years the so-called nuisance taxes which expire this year.

The President will make his recommendation one week from today. If it is for \$1,000,000,000 or more he will have further alarmed some of the Democratic congressional leaders who have been most closely associated with New Deal legislation in the past four years.

Under Limit  
 The \$1,200,000,000 now suggested is \$337,000,000 under the outside limit placed by Mr. Roosevelt last January on next year's expenditures if he were to accomplish his hoped for balance of the budget.

But since last January the treasury has discovered tax revenue falling below estimates by approximately \$400,000,000 for this fiscal year with every prospect that the deficiency will carry over in larger amount in the next fiscal year.

## Television Lines

The cables which will carry coronation scenes to television receivers were being laid when the above picture was taken in London. Notice the great facade of Buckingham palace in the background.

## TRIBUTE PAID TO ELMER INGRAHAM

Friends and relatives attended services at the Twin Falls mortuary chapel yesterday afternoon paying last tribute to Elmer Ingraham, longtime resident of the Salmon tract. Rev. E. L. White, Methodist minister, officiated at the rites.

Music included two numbers by a male quartet composed of F. L. Rudolph, C. E. Allen, Charles Seiber and John Seiber, accompanied by Mrs. U. N. Terry.

Palbearers were A. T. Near, L. M. Jain, Robert Ray, William Thietten, F. L. Cogswell and O. C. Paulson. Interment was in Twin Falls cemetery.

## Los Angeles Paper Wins Ayer Award

Times Takes Prize for 1937 Typographical Style

PHILADELPHIA, April 7 (Special)—The Los Angeles Times today had been awarded the Francis Wayland Ayer cup offered by Mr. W. Ayer & Son, Inc., in the seventh annual exhibition of newspaper typography to the daily newspaper, which in the opinion of the judges, is most outstanding for typographical excellence. There were 1,501 newspapers entered in the exhibition.

The Los Angeles Times also received first award among the 130 newspapers with circulations of more than 50,000.

Second award among newspapers of more than 50,000 circulation went to the New York Herald Tribune and third to the Des Moines Tribune.

Among the 365 papers of 10,000 to 50,000 circulation, first place went to The Miami Herald, Miami, Fla. In the less than 10,000 circulation division, in which 1,000 papers were entered, first place was given The Evening Tribune, Hornell, N. Y.

## TRADE PROGRAM NOT HINDRANCE

### Secretary of State Points Out New Law Is Not Affecting Dairy Industry

By RALPH W. OLNSTEAD  
 WASHINGTON (Special)—Replying to charges that the reciprocal trade program is damaging the dairy industry, Secretary of State Hull has this to say:

"Beyond a duty reduction on a very small quantity of cream and moderate reductions in the tariffs on national cheese specialties of the Netherlands, France, Finland, and Switzerland, the only reduction of significance to the U. S. dairy industry has been the duty cut on cheddar cheese.

"Imports of cheddar cheese during 1936 were equal to 2.2 per cent of domestic production, and, although greater than 1935, were smaller than imports during 1926 and 1927.

"The increase in imports in 1936 over 1935 occurred partly because of improved economic conditions, brought with them relatively high prices and an increased demand for cheese.

"Domestic production of cheese reached its peak in 1936 with a point of 15.3 cents per pound as compared with 14.3 cents for 1935. The income of producers of cheddar cheese in the United States increased from \$97,100,000 in 1935 to \$75,600,000 in 1936.

"The secretary concludes that the dairy industry has not been adversely affected by imports during 1936; but that "the dairy industry is profiting substantially by the economic revival toward which the trade agreements program is contributing. Not only is the dairy industry benefiting by the increased domestic buying power for dairy products resulting from improved economic conditions, but as trade agreements restore foreign markets for agricultural exports, they will tend to check the diversion of land and labor from export crops to dairying and thus to relieve the pressure of internal competition upon the dairy price structure."

Idaho Is Tops  
 In the state of Idaho \$46,709,000 of private, non-bureau funds have been expended for reclamation developments as compared with \$37,790,986 of federal funds. The amount of money spent in Idaho by the bureau of reclamation is larger than in any other state. This year the interior appropriation bill will contain about \$2,200,000 for further work on the Black Canyon and Upper Snake river valley projects.

J. Edgar Hoover says that if any kidnapping case arises in Idaho he would be glad to have any Idaho citizen call him direct at National 3177, Washington, D. C. For other cases involving federal statutes the Federal Bureau of Investigation headquarters for Idaho is 302 Federal building, Butte, Mont.

To insure healthy flowers and shrubs, use Peat Moss, Dingle and Smith Seed Co.—Adv.

## Public Forum

Contributions from readers welcomed. Letters should deal with matters of general interest. Matter should not extend to more than 500 words, and preferably should be confined to 300. No contributions considered unless signed, but initials will be used if specifically requested. All contributions should be addressed to Editor Idaho Evening Times and submitted through the mails.

### ROADS OR SCHOOLS?

Editor, Evening Times:  
 There is much talk these days about roads. I am wondering which is the more important: Schools or roads? We know we have poor roads and poor school buildings. We could say they are equally important. Why not have equal appropriation? Personally I think schools more important.

What could be done about this situation? Taxes on gasoline is usually for roads, bond issues for schools. We are sure of some money for roads, but never sure of bond issues. Many people say "well, when I went to school we never had fancy this and that like today, you know that old old story, what was good enough for me is alright for Johnny and Mary. What good is algebra, latin, etc., reading, writing and arithmetic was all I had—and so the bond issue fails.

We should be sure of our school appropriations, a portion of gasoline tax, a sales tax would assure us of some provision for a safe and adequate school building program.

You will notice I stress school buildings. I didn't say poor schools, for the superior quality and untiring efforts of the teachers makes it possible for us to call them schools, otherwise we could not. We owe much to our teachers for the many hours spent in training, and educating our children, and many hours spent before and after school in preparation. We should give them more gratitude and cooperation.

May we soon have school buildings we can take pride in—not dingy over-crowded ones like we now have.

Sincerely,  
 MRS. L. O.  
 Twin Falls, Idaho.

## REA Announces New Allotments

WASHINGTON, April 7 (U.P.)—The rural electrification administration announced today that it has virtually completed the making of allotments for the present fiscal year with approximately \$42,000,000 designated for extension of electric service in rural areas.

Allotments for the fiscal year ending June 30 will reach about \$47,000,000 when allocations totaling \$5,000,000 are announced this week, officials said. That will leave about \$3,000,000 unallotted because the amount is set aside under the REA act for states which have not asked for loans.

RUPERT MAN FINED  
 RUPERT, April 7 (Special)—George Kenaston was fined \$25 and costs by Police Judge Paul French on Monday after pleading to a charge of reckless driving.

## L. D. S. FINISHES ANNUAL MEETING

### Members Urged to Obey Laws of Land and Church By Pres. Grant

SALT LAKE CITY, April 7 (U.P.)—Admonished by their leaders to obey the laws of the land and of the church, delegates to the 107th annual general conference of the Mormon Church of the Latter Day Saints returned to their homes today.

President Heber J. Grant closed the semi-annual gatherings late yesterday with a tribute to Alonzo A. Hinckley, member of the council of 12 apostles who died three months ago. President Grant had earlier in the day appointed A. E. Bowen, Salt Lake City, as Hinckley's successor.

Final Speakers  
 Final session speakers included Prof. Levi E. Young, University of Utah instructor; G. F. Richards, a member of the council of 12; and several mission presidents.

Young warned Mormons that the United States government faces "trouble from within" in minor attacks on its democracy.

"This great country of ours has opened its doors to men of all nations, offering them freedom and privileges such as they never enjoyed elsewhere," said Young. "Are these foreigners now to turn against the country which enabled them to live a fuller life, in an attempt to change it?"

Bowen Speaks  
 "A democracy can lose all its force, can become in fact a despotism without changing its outward aspect. A little change here, a little change there, can work great changes in total. We must maintain our national morale."

Bowen spoke briefly, assuring saints he would do all in his power to fulfill the trust placed in him.

In the closing few minutes, first and second counselors to the president, J. Reuben Clark, Jr., and David O. McKay, again spoke to the assemblage, pleading loyalty to the church and its leaders.

## No Employe Tax, Lyman Declares

No part of the contribution payable by employers under the Idaho unemployment compensation law is to be deducted from wages of employees, it was stressed today in word received here from Laurence B. Lyman, Boise, head of the division.

Lyman pointed out that the unemployment compensation law definitely provides:

"Such contributions required from an employer on his own behalf shall not be deducted, in whole or in part, from the wages of the individuals in his employ."

"This has no bearing on the employee contribution of nine-tenths of one per cent which the employer must deduct from the employees' wages for the period Jan. 1, 1937 to March 17, 1937, inclusive, Lyman said.

## Inventor's Trick

If you're confused, think how a fly or mosquito would feel at getting tangled up in these fringed veil sleeves, made to protect legs from insect bites. The sleeves were among the many more or less wondrous conceptions at the national inventors congress in Chicago. Perhaps they enhance the appearance—perhaps not.

## FOWL EATS COTTON SEED

MELBOURNE, Ark. (U.P.)—Cotton seed is the favorite diet of a hen owned by Mrs. W. E. Edwards. The chicken prefers it to corn, Mrs. Edwards said.

## BILL ASKS SALE OF DAM POWER

### Authority for Bonneville to Distribute Electricity Sought by Bone

WASHINGTON, April 7 (U.P.)—Sen. Homer T. Bone, D. Wash., has placed before the senate a bill authorizing army engineers to produce electric power at Bonneville dam and an administration to supervise sale and distribution of the power.

Bone introduced the measure on

behalf of himself and three other northwest senators—Sens. Charles L. McNary, R. Ore.; Lewis B. Schwellenbach, D. Wash.; and Frederick Steiwer, R. Ore.

The administrator, to be appointed by the president and confirmed by the senate, would have authority to sell the power, set rates—subject to check by federal power commission—find markets, and lay out transmission lines.

EDEN SLATES ELECTION  
 EDEN, April 7 (Special)—The village election will be held Tuesday, April 27. Nominations for new council members may be made at any time until April 20 and those wishing to vote who were not registered at the last village election must register. Three members will be elected. C. B. Averett, Van Myers and E. W. Little are the outgoing members.

## MURDER CHARGED CAUSE OF DEATH

GREAT FALLS, Mont., April 7 (U.P.)—A coroner's jury here last night found that J. S. Emery, 49, Great Northern railroad brakeman, was killed by a blow behind the left ear by "a blunt instrument, used by persons unknown."

A switch lock which was found by Sheriff Guy Palagi was believed by the jury to have been the murder weapon.

Emery was slain as he sat on a pile of bridge planks adjoining the railroad last Sunday afternoon. Though several men were questioned in connection with the killing, Sheriff Palagi said that no arrests had been made.

The victim was a disabled World War veteran and had been employed as a brakeman and conductor for the past 25 years.
