Well Claud Pratt wants to give you a little oil-talk. I believe he has the greatest place in the state of Idaho, and I am sure we have the oiliest oil. A business man from Emmett, Idaho, drove into our open space and he said, "I am having some trouble with my motor" he said he believed he had a "stuck" valve and the way his rubber mounted motor was bouncing around and the noise it was making you couldn't doubt his word. I finally located the position of the stuck valve and advised the gentleman to drive his car on our pit and drain his oil out and refill it with our processed 100% distilled oil from Arkansas and we told him we believed that his troubles would soon be over. We explained to him that our oil did not form carbon and that it had wonderful penetrating ability and so we drained and refilled his 1926 Oldsmobile within three minutes his car was purring as soft and easy as our old fluffy cat (we brought the cat from Kansas). He spoke about the oil that he had been using was unprocessed. I guess he found a better oil and if you doubt my story just clip this ad out and mail it down to Dr. Carver at Emmett, Idaho, as this man is a personal friend of Dr. Carver. We are selling tons and tons of tires and tubes below mail order prices and the quality is right in line with any of the major company's first line tires. We just buy them in carloads and turn them loose like a hot biscuit. I hope you are the same.

THIS CURIOUS WORLD By William Ferguson

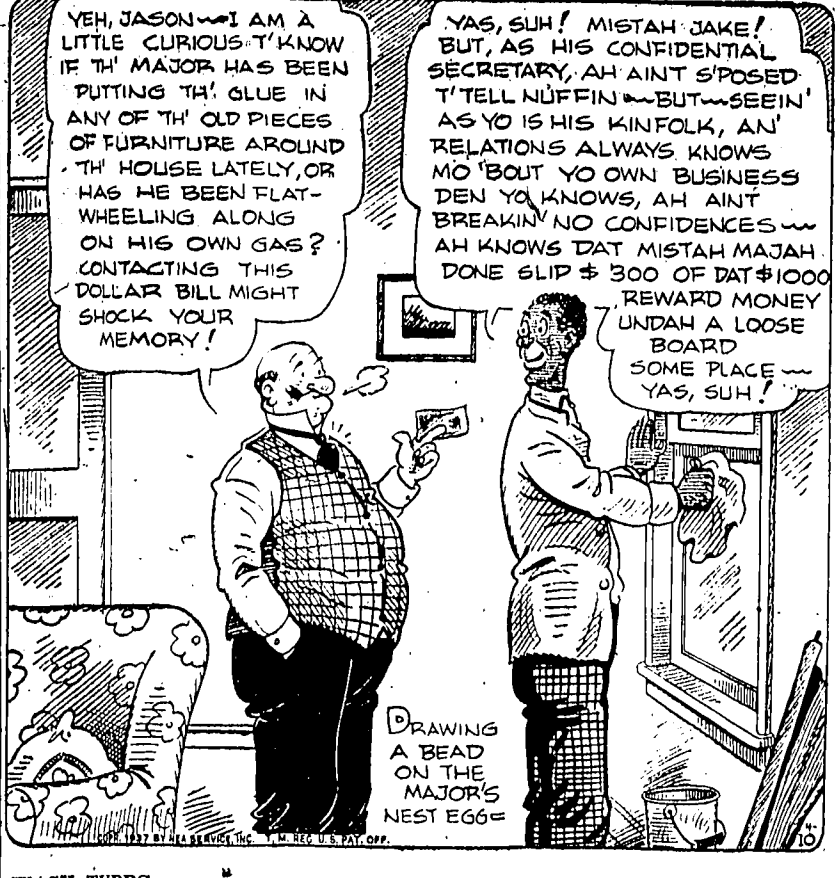

IT TOOK HOLLAND FIFTY YEARS TO RECOVER COMPLETELY FROM "THE GREAT TULIP MANIA," OF THE SEVENTEENTH CENTURY, DURING WHICH SPECULATORS PAID AS HIGH AS \$2,500 FOR A SINGLE TULIP BULB.

THE SKUNK PRODUCES THE "FOULEST ODOR" OF ANY KNOWN ANIMAL! OTHERS OF THE WEASEL TRIBE, TO WHICH THE SKUNK BELONGS, GIVE OFF LESS CONCENTRATED ODORS.

THE PREHISTORIC "WINGED LIZARD" HAD A KITE-SHAPED SKIN AT THE END OF ITS LONG TAIL, WHICH ACTED AS A RUDDER.

ABOUT 300 YEARS AGO, AMSTERDAM BECAME THE CENTER OF A WILD ORGY OF TRADING IN TULIP BULBS. TULIPS CHANGED HANDS AT FABULOUS PRICES. PEOPLE SPENT ALL THEIR SAVINGS FOR FANCY BULBS AND SHARES IN TULIP COMPANIES. BUT IN THE LAST TWO CENTURIES, THE TULIP HAS MADE UP TO THE NETHERLANDS ALL THAT IT COST THEM WHEN THE CRASH CAME.

BILLION DOLLAR WHEAT CROP IS FORECAST FOR 1937

STOCK ON FARMS IS SMALLEST IN 12 YEAR RECORD

Northwest Winter Prospects Reported to Be Poorest in Nation

(Continued From Page One)
All conditions on April 1, however, were reported only 73.8 per cent of normal.
Department of agriculture economists said an 800,000,000-bushel wheat crop this year would return the United States to the world export market after five years of lean production during which the nation produced less wheat than it consumed.

Smallest Farm Stocks

The crop reporting board of the department said April 1 stocks of wheat—71,732,000 bushels—and corn—411,980,000 bushels—on farms were the smallest for that date in the 12 years for which records have been kept. Oats stocks of 287,745,000 bushels were well below average, but greater than in either 1934 or 1935.

The board reported condition of rice on April 1 at 71.4 per cent of normal. Production was not estimated. Condition of pastures was reported a 66 per cent of normal.

Below Average

Yields of wheat will be below average quite generally except in the far southwest, the board predicted, due to effects of the drought last summer and fall which left the subsoil dry.

Winter wheat prospects are the poorest in the Pacific northwest and in the northern great plains. Yields considerably below normal also were indicated for the northern tier of corn belt states, and in Texas, Oklahoma and New York.

Although winter wheat conditions were more favorable than usual in most areas, the board said, there still is a deficiency of sub-soil moisture which would make a dry spring and summer especially harmful to the crop.

MAYOR AND MAN WHO TAKES PLACE GRIN AT MEETING

Mayor Duncan McD. Johnston Glanced Up From the Council Table Last Night as Lem A. Chaplin, His Successor, Walked into the Door of the City Hall

"Hello, Lem," said Mr. Johnston. "Low are you, Dunc?" asked Mr. Chaplin. Johnston was smiling—and so was Chaplin. "How do you feel, Lem?" Mr. Johnston asked. "Oh—not so good," Mr. Chaplin answered. Johnston arrived at the city hall at 7:22 p. m., and Chaplin at 7:35 p. m. The meeting was under way at 7:42 p. m., and over at 7:55 p. m. And no one said a word as City Clerk W. H. Eldridge read the results of the election last Tuesday which showed Mr. Chaplin will succeed Mr. Johnston, and Leonard F. Avant and Paul R. Taber take the places of O. H. Coleman and Milton L. Powell on the council.
