14-Year-Old Boy Tells of Serving in Chain Gang

LETTER SENT TO COAST GOVERNOR

California Judge Condemns State of Mississippi For "Brutal" Activity

LOS ANGELES, May 21 (UP)—A 14-year-old boy's story to his mother of serving time on a Tupelo, Miss., chain gang and sleeping in the refuse on the floor beside drunks, brought interstate action, seeking his release today.

The boy's letter was given to Gov. Frank P. Merriam by juvenile judge Robert T. Scott along with Scott's opinion of the case in a letter from Mayor F. Manning of Tupelo.

Scott asked that the governor "use your good offices so that this boy may be returned and so that such disgraceful incidents may not occur in the future."

Was Honor Student

The boy was Leon Bertrand, honor student at a Los Angeles high school and son of Mrs. Vera Bertrand, a beauty parlor operator. He ran away from home Feb. 15, he said, and wrote frequently. On April 28, he wrote that he was homesick and was coming back. The "real" letter was the one given to the governor.

The boy said he had been convicted of stealing articles of clothing—he was sentenced to 15 days on the chain gang and fined \$25 and \$100.

Then he added: "There is sewer water on the floor. There are 12 in a 5 by 8 bunk. . . . The chains on my legs hurt like the devil."

"Brutal, Uncivilized"

Judge Scott called the treatment "brutal and uncivilized."

"When children from Mississippi are in California," he wrote the governor, "we treat them as prodigals, sons and daughters of the prodigal, their parents without making criminals of them. When our prodigals sons go to Mississippi they are subjected to uncivilized treatment. The governor did not act immediately.

The boy wrote that he would work on the fine and on the chain gang. His mother sent the money for the fine and railroad fare home.

JAPANESE FEAR FACTORY SPYING

Nippon Believe Nations Are Attempting to Follow Their Style

TOKYO (UP)—Japan's concern over foreign spies has been extended to the field of industry, with the likelihood that the nation's factories will become almost as inaccessible as the fortified zones that are guarded so zealously against prying eyes.

Although most of Japan's machinery and equipment was obtained from abroad or adapted from foreign models, it is felt that other nations are now attempting to discover and copy Japanese manufacturing techniques, particularly in the munitions field.

The situation has been described in the trade publication Nihon Kogyo, which declares that "industrial spies" are actively at work in Japan and that governments are attempting to tap into them.

Charges are leveled.

The situation is noteworthy in that some of the same charges, that have been made against Japan are being used by Japan against other countries.

For instance, a zone case cited by the publication was that a Chinese had ordered a Japanese-made diesel engine and then used it as a model for manufacturing some of his own. It was asserted last year in American industrial circles that Japanese had done exactly the same thing with American textile machinery.

Military Secret.

The seriousness with which Japanese regard these things was shown when an American salesman sold the Japanese an American made plane. A day after he delivered it he thought of an additional detail, which he wished to demonstrate to the purchaser. But he was not permitted to go near the airplane because it had become overnight a "military secret."

The publication asserted that inquiries about Japan-made machinery and parts increased at the Osaka chamber of commerce from 194 in 1925 to 243 last year. Figures regarding metal products and chemicals jumped from 450 to 640.

The airplane smuggling outfit is a giant among fresh-water reptiles.

Distribution of Annual for 1937 Starting Friday

Seniors First to Get Copies Of "Coyote," Reviewing Year's Activity

The "Coyote," Twin Falls high school annual for 1937, will be ready for distribution to members of the graduating class on Friday and to the remainder of the student body the first of next week if plans now in progress are completed. It was announced today by J. E. Tomlin, adviser to the staff.

Time of the annual this year centers around the seasons. The cover of the book foretells of the general trend and is finished in soft green color with a mountain scene.

Dedicated to Tomlin

Mr. Tomlin, for his untiring effort on behalf of the "Coyote" for the past 10 years, is honored with the dedication.

The book is a fitting record of the past year's activity and carries a complete record of class histories, clubs and athletics, as well as a large collection of snapshots and jokes.

An innovation was made this year in the arrangement of the under-class pictures. Rather than the large groups usually employed in a high school annual, individual pictures were taken of all students with 64 pictures allotted to a page for freshmen and sophomores. The juniors and seniors had larger prints and the accomplishments and club memberships of all seniors were listed with their names opposite the pictures.

Staff members of the "Coyote" were: Marjorie Voorhees, editor; Kenneth Hodges, business manager; Ruth Schwendiman, assistant editor; Bert Tolbert, assistant business manager; Marjorie Kinsbury, photo editor; Leonard Salladay, advertising manager; Herbert Larson, snapshot editor; and Carl Dossell, art editor. Typists were Jean Olmstead and R. D. McKinstry; joke editor was Margaret Dougherty, and the athletic reporters were Eva Balmer and Frank Overton.

Class Reports

Reporting of each class' activities was done by the representatives: Margaret Voorhees, senior; Jean Jones, junior; Earline Maddy, sophomore; Bruce Evans, freshman.

The page of the annual was done during the Evening Times job printing department, the engraving was finished by Art Craft Engraving and Electrotype company, Seattle, Wash. Covers for the annual which was also done by the Times, were made by the S. K. Smith company of Chicago.

Entertain Guests

Mr. and Mrs. A. J. Roa entertained last evening at dinner at their home on Third avenue east, for Mrs. A. Manning, Mrs. H. S. Clark, of Twin Falls, and Miss Beulah Mounsee, Long Beach, Calif.

Graduating Pupils Hold Exercises

Rev. I. D. Smith, pastor of the Twin Falls Church of the Nazarene, presided over the ceremony.

Graduates were Betty Durling, Wayne Thietzen, Henry A. Gould and Wallace Siders, Mountain View; Orrin E. Hills and David Homan, Shamrock, and Keith Buchi and Elton Sliger, Alameda.

Diplomas were presented by Ted Smith, chairman of the Mountain View district board. The valedictory address was presented by Betty Durling and Wallace Siders gave the salutatory. Class roll was read by Wayne Thietzen.

Also on the program were vocal solos by Lois Williams and Richard Danner and numbers by a girls' chorus and a mixed chorus.

Attack on Cream-Puff Foods

A Michigan newspaper recently opened a prize contest for housewives, asking them to submit old-fashioned recipes for old-fashioned foods; and no mortal who has plodded gamely through the whipped cream-and-crinker-crumbs output of modern cookery can do less than hope that the ladies of Michigan rally 'round and make a great occasion out of it.

BALANCED BUDGET PROMISED BY NEXT FISCAL YEAR

TREASURY HEAD SEES NO CHANGE IN GOLD POLICY

U. S. Against Proposed Latin-American Conference to Discuss Money

By C. L. SULZBERGER
(Copyright 1937, United Press)
WASHINGTON, May 21 (UPI)—Secretary of the Treasury Henry Morgenthau, Jr., has been giving recent visitors the assurance that the national budget will be in full balance by the end of the next fiscal year, it was learned authoritatively today.

In addition, he has given strong intimations that the United States has no immediate contemplation of changing the current gold price of \$35 an ounce. There have been intermittent reports in various international financial centers that the treasury expects to reduce this price.

"Highly Satisfied"
The general impression received from those who have talked over the matter with Morgenthau is that no plan is now under consideration for such a change and that the treasury is "highly satisfied" with its present policies including that of sterilizing gold imports.

Simultaneously, it was learned that four Latin American nations have notified the Pan American union that they would be favorably inclined to the summoning of an international monetary conference of the 21 American republics.

This disclosure followed strong indications from the treasury that the United States is at present actively opposed to such a meeting. The present policies of the state and treasury departments call for face-to-face talks with individual nations concerning economic problems.

It was strongly indicated today that the United States has embarked upon a course of individual dealing, backed by such major agreements as the tri-partite "gentlemen's" understanding with France and Great Britain, during the present era of managed currencies.

191 UISB Students To Finish in June

POCATELLO, May 21 (Special)—One-hundred and ninety-one students will graduate from Idaho southern university in June, provided they successfully complete the work for which they are now registered, according to Miss Elaine Stone, registrar. This is an increase of 35 students over the 1936 graduating class.

THEATERS

Orpheum Drama

Handing as a magnificent motion picture, "Silent Barriers" opens today at the Orpheum theater, depicting with the majestic sweep of an epic the story of the building of a transcontinental railroad in the pioneering days of the 1850's.

Cop Picture

Coming Sunday to the Idaho theater is Pat O'Brien in "The Great O'Malley" with Humphrey Bogart, Ann Sheridan and Sybil Jason.

If adventure makes your pulse beat a little faster, it thrills still more vibrantly, if you like motion pictures swiftly paced, strongly dramatic and, just romantically enough, then you will experience excitement and pleasure when you see Buck Jones in "Hand-Flow," the Universal picture which opens at the Roxey theater today.

ARMY CALLS FOR YOUTH OF NATION

Local Recruiting Officer Tells Of Opportunities Offered Spring Graduates

Vast opportunities offered to high school students in the services of the United States Army were cited here this afternoon by Corp. J. P. Houston, in charge of the local recruiting station located in city hall. "Youths graduating from high schools at this time will find opportunities in the United States army which they will find nowhere else," Corp. Houston said. "This is especially so for those who know typing and shorthand. Numerous vacancies occur in the line of this work for service in the Philippine Islands. And after the enlistment is up there has been many occasions where these men have been absorbed by private employment and have gone on to fill executive positions. If the youth stays in the army the rate of advancement is rapid at the present time."

Philippine posts which are eligible to be filled from this district include duty in the quartermaster corps, the air corps, coast artillery, chemical warfare department, ordnance department and the medical corps. In addition to these openings, Houston said, vacancies also exist in the air corps at Hamilton Field, Calif.; 4th corps, March Field, Calif.; 5th coast artillery, Fort Winfield Scott, Calif.; 11th cavalry, Presidio of Monterey, Calif.; 7th infantry, Vancouver barracks, Wash.; 4th infantry, Fort Meade, Mont.; 30th infantry, Presidio of San Francisco; 38th infantry, Fort Douglas, Utah; medical department, Letterman general hospital, San Francisco.

Corp. Houston may be contacted at the city hall in Twin Falls.

\$10,000 Pledged For UISB Dorm

Pocatello Business Men Offer Aid in Financing New Cooperative Hall

POCATELLO, May 21 (Special)—Ten thousand dollars has been pledged by business men of Pocatello for the financing of a new cooperative dormitory to be built on the Idaho southern university campus, provided the project is approved by the state board of education.

The dormitory will be constructed on university ground at Terry street. E. S. Harper, president of the chamber of commerce, appointed E. A. Amos as chairman of the committee to raise the funds.

Dr. John R. Nichols, executive dean at the university, who explained plans of construction and the cost of financing at the chamber of commerce meeting, said that the bonds will be completely paid in six and a half years, paying four per cent interest. A ten per cent reduction for vacancy and \$500 for maintenance each year was counted out before bond payments were figured. The payment by students will be on a basis of \$8 a month for room rent and \$2 extra for the use of the kitchen.

Completely modern in every detail, the men's bathing dorm will be completed this summer and ready for occupancy by next semester.

Filer Club Women Entertain Seniors

FILER, May 21 (Special)—Filer Women's club gave its annual senior party on Monday evening in the lower auditorium of the Methodist church for high school seniors and their parents. The room was trimmed with a profusion of colorful spring flowers. Mrs. L. H. Brown presided. A musical program was presented by the Albion boys' glee club and included two numbers by a trio of trumpeters. Refreshments were served from a lace-covered table centered with a brass bowl of tulips. Mrs. Brown and Mrs. Ramsey presided at the services.

U. of I. Head to Present Address

POCATELLO, May 21 (Special)—Dr. Curtis Worth Chenoweth, head of the department of philosophy at the University of Idaho at Moscow, will be the speaker at the uncalculus services to be held in Franz hall on the Idaho southern campus, Sunday, June 6.

Dr. Chenoweth received his B. S. degree from Wesleyan college, West Virginia, in 1911 and his M.A. degree from Harvard university in 1913. Immediately afterwards he became a member of the faculty at Harvard and remained until 1918. He was also an instructor at the Northwestern Y. M. C. A. college from 1918 to 1919. Dr. Chenoweth also spent time in Oxford university in England doing graduate work. He came to Idaho in 1919.

Besides speaking here for the baccalaureate services, Dr. Chenoweth will speak at the commencement exercises at the Albion Normal school, June 10.

Cardinal Slumps After Havoc Left by Giants

Terrymen Cop Third Game as Bartell Hits Homer in Ninth

Pirates Increase National Loop Lead to 4 1/2 Games; Cleveland Tops American

By GEORGE KIRKSEY
NEW YORK, May 21 (UP)—The famed spirit of the gashouse gang sagged to new depths today after the havoc Bill Terry's usually docile Giants created at Sportsman's park the past two days.

"Dandy Dick" Bartell, bantam rooster shortstop of the Giants, struck the blow which broke the Cardinal's backs in yesterday's hammer and tongs battle. The 160-pound New York infielder blasted a home run off rookie pitcher Lon Warneke with the bases loaded and two out to give the Giants a ninth inning triumph, 7-4.

After Wednesday's free-for-all fight both clubs were out for blood in the deciding game of the three-game series. The storm gathered early when Umpire George Barr chased Frankie Frisco, Cards manager, out of the park. Once the Cards, led by Dizzy Dean, charged Umpire-in-Chief Dolly Stark, claiming Frisco's bat was jammed. The umpire's bat was jammed.

Riggert Hurls No-Hit, No-Run Game as Brunswick Triumphs

Wait Riggert, considered the ace pitcher in Twin Falls softball circles last summer, picked up where he left off as he hurled a perfect no-hit, no-run game last night against a pick-up Twin Falls class and paint crew.

In turning in the win, Riggert struck out 18 of the 21 men to face him, and not a man reached first.

The final score, which is incidental to the great pitching performance, was 21-0. The game, however, goes into the record books as a fore-fall, since Glass and Paint used players from other teams.

Not a ball was hit off the infield as the star Brunswick thrower had the batters fanning the air at one time mowing down nine batters in a row. Of the three batters that didn't fan, two hit to first base and the third retired to the picher.

 SEATTLE, Wash., May 21 (UP)—Qualifying events in the northern division coast conference track and field meet will hold today with final trials tomorrow.

The first game of the evening, Jerome Co-Op and National Guard battled through six innings to a 17-10 win for the Co-Op.

The Chicago White Sox triumphed over the New York Yankees behind the three-pitching of Lefty Thornton Lee.

Alaska Sportmen Ask Hunting Restrictions

SEWARD, Alaska (UP)—The Alaska Game and Fish Commission has recommended to the State game commission that shooting be prohibited on Kenai peninsula high-land areas and also restricted in an area 100 feet wide on either side.

The club said present leniency of the law does not give game protection. The club also recommended a bag limit of 20 pounds of trout and one fish in Russian River.

Ball Players Worst Fighters Of All Athletes, Claims Mac

By HENRY McLEMORE
NEW YORK, May 21 (UP)—Knighthood's flower has long since gone to seed, but a feature of medieval days might well be adopted by our major league baseball teams.

I refer to the tournament—that atlast in cast iron pants and waistcoat who assigned himself as protector of his lady fair, and when she was threatened rode out to joust with the enemy. I know it is a far cry from fair ladies to tobacco chewing, turkey-necked baseball players, and that they do not have very much in common. But they do have this in common—the ladies couldn't afford a lick and neither can the players.

Worst Fighters

As I have said before baseballers are the worst fighters of all athletes. The latest proof of this was offered in St. Louis two days ago when an acre of Giants and Cardinals fought for ten minutes and inflicted but one wound. This was a very inferior black eye to Don Gutteridge, who happened to be the smallest man on the field.

CIVIC LEADERS ADVOCATE SUPPORT OF SCHOOL BONDS

GROUP ENDORSES STEP TO REMOVE OVER-CROWDING

Mayor Quizzes Speakers and Presides at Radio Event Urging "Yes" Vote

Financial, business, city, church, club organizations and representative citizens from other walks of life today had expressed their opinions as to why voters of the city should exercise their prerogative and vote for a proposed \$350,000 bond issue to enlarge the city school system.

The group of leaders spoke last night during a special radio program over radio station KTRT at 8:30 p. m. Mayor Lem A. Chapin served as master of ceremonies during the program and introduced and questioned the speakers.

The special bond election will be held on Tuesday, May 25.

Cited Overcrowded Status

In backing the program calling for enlarged space in the city schools, community leaders called attention to the overcrowded conditions which exist in the present time. An "information committee" of local citizens, working in connection with the bond election, will issue in their next bulletin that since 1927 the population in the city schools has increased 845 students. In the same time, facilities for housing them have not been enlarged. Present school population is 3,761 compared with 2,918 in 1927.

One local citizen interested in the improvement, William Baker, said he was interested in the bond election because of the overcrowded status in which the plans have been made in connection with the improvements that will be made from this election.

"Not only has the school board given considerable time and thought to this matter," Mr. Baker said, "but they have secured and brought to Twin Falls an expert in the matter of school systems to make an impartial survey and recommendations to the school board."

Fine Cash Condition

Roy Painter, Fidelity National bank manager, called attention to the fine financial condition which is found in the school district today.

"In the present time our school district is in splendid financial condition and with the voting of this bond issue, in the amount of \$350,000, our taxes will not be increased by any appreciable amount. There seems to be no better time to vote bonds than now, probably from a financial standpoint. Interest rates on bonds of this nature are lower now than they have been in some time."

Emphasizing conditions in local schools, as regards adequate space to carry on scheduled work, Mrs. F. W. McRobert said:

"It has been my observation during the past few years that so many of our students finishing in our local schools today are not afforded the opportunity to attend institutions of higher learning and it is my desire to see that the students in our local schools have the best possible conditions and opportunities that can be afforded them. I believe that approval of these bonds will permit enlarged facilities and will better conditions found in our schools."

Population Increase

Claude H. Detweiler, local businessman, cited the permanent increase in population which Twin Falls is gaining.

"In the past," Mr. Detweiler said, "I did not think that we needed increased facilities, principally because I felt that probably our increased enrollment and population was of a transient nature and that probably our population would be on the decline within the very near future. However, this does not seem to be the case. With the continued growth conditions existing in the middle west, our community has shown a steady and permanent growth, making even greater demands on our over-burdened housing conditions."

Mrs. W. A. Van Engelen, Camp Fire Girl leader, joined those backing the bond election when she announced that it would permit the redistribution of students to the schools in which they rightfully belong.

Need Redistribution

"This redistribution is particularly true of the students in the sixth grade, who are now being housed in the Junior High school. To me this is one of the most important classes and serious consideration should be given to our students at this particular age."

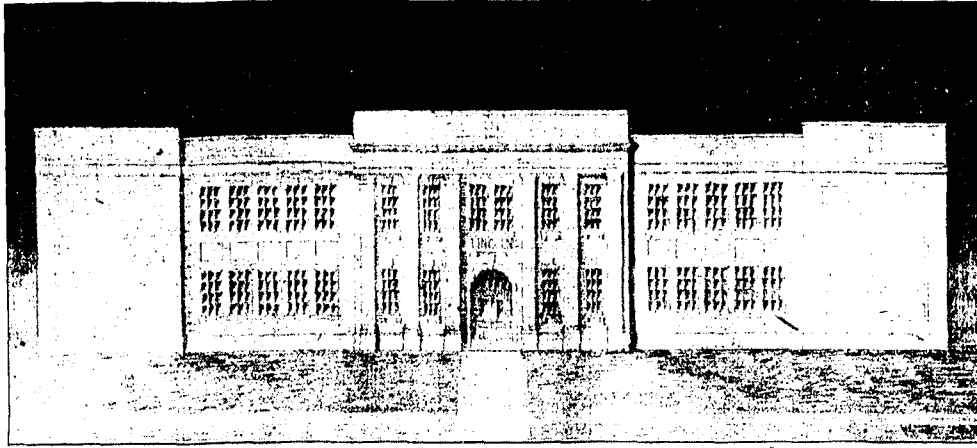

Harry Hall, past exalted ruler of the Elks lodge and local business man, joined the ranks of those backing the bond election when he called attention to the fact that the money derived would be spent to the best advantage.

"I am impressed by this bond election due to the fact that this is not an election that will benefit or affect any particular school. It is a broad program and will permit and allow improvement in all of the schools and buildings in our district. It is true that some schools will benefit more than others but in this connection I feel that our school board has given considerable thought and time to the matter of these improvements and will use the money to the best advantage."

A third radio broadcast is planned for Sunday at 8:30 p. m.

Seven thousand tons of water run over Niagara Falls every second.

Suggested New Unit for Lincoln School Under Bond Issue

Here is the proposed \$106,700 new unit planned for the Lincoln school under the \$350,000 bond issue which, if approved, will relieve overcrowding and insanitary conditions in the Twin Falls system. This structure, designed by Burton E. Morse and associates, would connect directly with the present Lincoln building. Modern heating system to supply both the new unit and the present building.

Job of Parenthood Termed No. 1 Task

Dr. Barker Bluntly Tells Duties of Father, Mother

"The most important job in the world is the job of being a father or a mother."

That was the message Dr. Charles E. Barker, nationally known lecturer and authority on youth, impressed on an audience that listened last night for an hour and 50 minutes with attention that was almost spell-bound.

And Dr. Barker emphasized by oratory, humor and anecdote that the most important duty of the most important job in the world is this: "Teach the child at home to mind when spoken to."

Traces After-Effects

He traced after-effects in the life of young people to the fact that parents too often do not enforce authority when children are young. John Dillinger's lurid career of crime, ending in death from bullets of G-men, was one possible result.

Dr. Barker addressed a general audience at the high school auditorium last night, after speaking to the most important duty of the most important job in the world is this: "Teach the child at home to mind when spoken to."

Dr. Barker addressed a general audience at the high school auditorium last night, after speaking to the most important duty of the most important job in the world is this: "Teach the child at home to mind when spoken to."

Rape Lack of Training

"No job in the world is more vital than being a parent," he told his hearers. "And you do so under any specific training to insure our young men and women being finer fathers and mothers?"

"Not," he shouted with a burst of vehemence that contrasted with other moments of softness, wit and pathos. "The state of Idaho has schools for vocational training, but it doesn't spend one cent in teaching the duties of parenthood. If that isn't a shame, what is? If that isn't a colossal mistake in our civilization, what is?"

Most important years in the life of boys and girls, he said, are those from 12 to 15. "They learn about life then," he declared. "They don't learn it in schools. They don't learn much of it at home. They get their lessons out of the playground, during vacation time, and on the streets."

Prates Youth Groups

Because of that fact, he pointed out, they found, Camp Fire Girls and similar organizations are highly needed and a supervised recreational program is an important need in any city.

He urged support for the Twin Falls recreational plans now underway, and veered from his topic momentarily to the bond issue being held for the coming election. "I haven't been in a young city for years with such fine prospects as Twin Falls. Your population will be 30,000 in 10 years. All right—get busy and rectify the matter of inadequate facilities for the young people who will be your city by the time those years have passed."

Dr. Barker vigorously warned parents to attend a church every Sunday.

Any denomination? "The denomination makes no difference," he said. "Go to church—any church—if only for the influence you wield on boys and girls who watch your example." He declared that "too many fathers and mothers go riding, golfing or fishing on Sunday," refusing to spend an hour "teaching their souls."

Offering anecdotes to prove that teaching young children to obey is a vital factor in upbringing, Dr. Barker quipped the father of John Dillinger.

"I don't blame my government for shooting John," he said. The aged father asserted, "I don't

3 of Babies Born To Oklahoma Woman Continue to Live

MUSKOGEE, Okla., May 21 (UP)—Three of the quadruplets born Wednesday to Mr. Mattie Mullins at a farm near Porter continued their struggle for life today in a hospital incubator.

They were taking water from a medicine dropper and doctors prepared to administer a formula containing milk. The latest weighed only two and a half pounds, the smallest a pound and a half, and although they were born a month prematurely, their chances of surviving were considered fair.

The father, a 52-year-old tenant farmer, requested the dispensation of a "port little ranch," but not much bigger than some of the spots on our farm.

Legumes are useful in crop rotation because of their nitrogen-fixing qualities.

Doctors Help in Children's Exams

Through an error the names of several physicians who aided in the recent pre-school physical roundup among children of ages four to six years were omitted when the story was published yesterday.

Those whose names were omitted include Dr. Dean Affleck, Dr. R. A. Drake, Dr. H. L. Stone and Dr. J. W. Creed. Dr. Creed handled the clinic held at Filer, the other doctors donating their services during the Twin Falls clinic Monday, Tuesday and Wednesday of this week.

Tax Men Search for Something Owned by Actor J. Barrymore

SACRAMENTO, Calif., May 21 (UP)—State tax collectors were out today looking for something owned by John Barrymore on which they could put a lien.

The movie star was reported to be delinquent in his 1936 income tax payment. Commissioner Charles J. McCoigan said he owed \$4,500.

"Apparently he didn't remit," the commissioner said. "The next step is to advise area supervisors to locate Barrymore's property. When it is found, we will have the sheriff move in and put on the lien."

DEATH REMOVES HAILEY VETERAN

HAILEY, May 21 (Special)—Newell Brown, resident of Hailey for a number of years and a World War veteran, died late last night at the home of his sister, Mrs. S. J. Benson, where he had made his home for some time.

Death followed a long illness. Pending funeral arrangements the body rests at the Hartis funeral home.

He was 62 years old and was born in Ohio. He served in the military during World War I.

GOODING, May 21 (Special)—Final plans for commencement week in honor of the 30 seniors, the largest class ever to be graduated from Gooding high school, have been made, announces M. W. Tate, superintendent. Baccalaureate services will be Sunday at 8 p. m. class day program Tuesday at 2 p. m. and commencement Thursday at 7:45 p. m. All three will be held in the Methodist church auditorium.

Baccalaureate services will be Sunday at 8 p. m. class day program Tuesday at 2 p. m. and commencement Thursday at 7:45 p. m. All three will be held in the Methodist church auditorium.

Rev. A. E. Beasley, pastor of the Gooding Baptist church, will be the speaker Sunday. Other numbers slated for the occasion are: Processional by Myrtle Palmer, invocation by Rev. Wilbur Coff, solo by Mrs. Eva Mitchell, two songs by the high school sextet, Mary Schmidt, Betty Russell, Orietta Luther, Owen Dixon, Alvin DeLong and Juanita Adams; a solo by B. E. Harris and the recessional by Marjorie Thompson.

Class Day Exercises

Class day program will consist of presentation of the awards earned in athletics and other activities during the year, a garden scene depicting the private life of the class of '37 and the class will and prophesy.

Principal feature of the commencement program will be the presentation of a pageant covering 30 years of the history of the city of Gooding, from 1907 to 1937, that will be put on by all the members of the class. The pageant will be the reader for the pageant.

City History

In the pageant Eugene Prather will speak on the subject "Immigration," Mary Cleveland, "Senator Gooding," Jean Harnett, "Education" and other members of the class will present scenes from the history of the city. Songs will be provided by the high school sextet and chorus and by a boys' quartet composed of Jess Howard, Harold Hutton, New Bowler, Dale Barnes.

Mrs. W. L. McCoy will present the class. William Fyfe will award the diplomas, and William O. Christensen will give the benediction. Processional will be played by the high school band and recessional by Maxine Adanson.

Dinner Meeting Set by Lawyers

A dinner meeting of the Twin Falls District Bar association will be held today at 7 p. m. at the Park hotel with attorneys of the Twin Falls district attending.

J. I. Eschery, member of the state bar commission, Sam Griffin, secretary of the State Bar association, and Cary Nixon, chairman of the state bar program committee, will be here from Boise to attend the meeting and discuss Idaho state bar matters.

MOTHERS ARE RESPONSIBLE

The family looks to you to aid your doctor in keeping them well. You can help prevent much illness and poor health by guarding them from common contamination.

Most contamination comes from faulty diet—meals low in "bulk." This condition can be corrected so easily and pleasantly.

Kellogg's ALL-BRAN provides the safe way to prevent constipation by putting "bulk" back in the diet. It's in the body. ALL-BRAN absorbs twice its weight in water, forming a soft mass which gently sponges out the system.

Kellogg's ALL-BRAN also furnishes Vitamin B and iron. It is so much better for your family than constant dosing with artificial pills and drugs.

Two tablespoons daily, or as a cereal with milk or cream, or in recipes, are enough for the average person. Three times daily in severe cases.

Sold at all grocers—and guaranteed by Kellogg in Battle Creek.

Society Church Bridal Unites Couple in Marriage

A charming country church wedding took place last evening at Knoll Baptist church when Miss Helen Doud, daughter of Mr. and Mrs. Glen Doud, became the bride of Kenneth Henderson, son of Mr. and Mrs. E. M. Henderson.

The bride was gowned in a long frock of white satin fashioned on princess lines with which she wore a long tulle veil and carried a bouquet of white rose buds and lilies of the valley.

The bride party consisted of the bride, her mother, Miss Helen Doud, her bridesmaids, Mrs. Ralph Beers, Pocatello; Mrs. Kenneth Norquist, Pocatello; Mrs. Merle Johnson, Pocatello; and Miss Mabel Salmon, Filer.

Best man was Gordon Scott, who attended the bride groom. Music was furnished by the Knoll Baptist church.

THIS CURIOUS WORLD

By William Ferguson

GIBBONS ARE THE ONLY ANIMALS OTHER THAN MAN THAT WALK NATURALLY IN AN UPRIGHT POSITION.

WINE-CORK MOTHS LAY THEIR EGGS ON THE CORKS OF WINE BOTTLES, AND THE CATERpillARS LIVE ON A DIET OF CORK.

U.S. ARMY WORLD WAR CARRIER PIGEONS, UNDER FIRE, DELIVERED NINETY PER CENT OF THEIR MESSAGES.

The gibbon is the most arboreal of the apes, but when he does come to the ground he walks erect without the aid of his fore limbs, using them only as balancers. The larger apes stand erect at times, but drop to all fours when in progress.

DOMINION HEADS WOULD OSTRACIZE DUKE OF WINDSOR

FIRM TONES SAY CABINET SHOULD BOYCOTT EDWARD

Mr. King Reported Furious But Helpless as Wedding List May Be Curtailed

By RICHARD D. McMILLAN
MONTPELIER, France, May 21 (U.P.)—British Dominion heads have brought the strongest pressure on the British government to ostracize the duke of Windsor politically and socially, it was understood today.

This, it is said, is the secret behind the excitement that has been caused over the question of royal permission for friends of the duke to participate in the grand temple convention to be held next month in Poastello when the local officers will supplement Poastello officers at illustrious ceremonies at that time.

Some Dominion governments are reported to have urged in the firmest tones that the British cabinet do all it can to boycott the duke.

World Show Edward
Their motive is represented to be a desire to show the Tory diehards throughout the empire that no king can ever be crowned without the consent of the people of the country in leaving his country and his people for a woman.

The duke is understood to be furious but helpless in a situation that threatens to curtail his wedding guests sharply. 50 buses are on telephone lines between the Chateau de Candé where he is staying and London that newspaper correspondents must wait at times for hours to effect contact with their offices.

In these conversations the duke anxiously discusses the situation with friends whom he is eager to have at his wedding.

Royal Family Absent
It is already established that members of the royal family will not attend, by "advice" of the cabinet. But unless the present thronging ban on officials is removed such men as Sir Walferd Selby, minister to Austria, and Hugh Lloyd Thomas, minister in the embassy at Paris, could not attend.

It was understood that the duke would start his honeymoon on the yacht Kutty Sark, belonging to the duke of Westminster. He removed Mrs. Warfield would board the yacht, lent to him, at Cannes and cruise to the Dalmatian coast. Then they would motor across Croatia and southern Austria to their leased castle at Wasserlooburg.

FILER
The garden department of the Filer Women's club met Tuesday at the country home of Mrs. O. W. Parsons with Mrs. A. E. Schellen, chairman, presiding. Officers elected were Mrs. Earl Ramsay, secretary-treasurer; Mrs. O. W. Potter, corresponding secretary. The group voted to have the tea in June and the next meeting on May 28 at the home of Mrs. T. E. Moore. Each member is to bring a leaf from her garden scrap book.

Colleagues Think Robinson Should Get U. S. Court Post

WASHINGTON, May 21 (U.P.)—Most senatorial colleagues of Joseph T. Robinson, 64-year-old elderly leader to whom President Roosevelt has entrusted the New Deal legislative program, believe his reward should be appointment to the supreme court.

The proximity of his age to the 70-year retirement for justices which he is attempting to hammer through the senate as a part of the President's judicial reorganization plan stands, however, as a possible bar to such a tribute.

"Feed the Line"
In view of arguments made in behalf of the court plan, it was believed presidential advisors have cautioned against fulfillment of a reported promise to Robinson that he would be appointed to the next vacancy of the supreme court bench.

The Arkansas general assembly for a two-year term in 1934. He was elected in the congress in 1902 and served until Jan. 4, 1913 when he became governor of Arkansas.

He resigned from the gubernatorial office Jan. 28, 1912 to become a United States senator, succeeding Jeff Davis, who died on Jan. 3. He has served in the senate since then.

POSITIONS FOUND BY JOB SERVICE

Better Business Conditions Reflected In Figures Of Local Offices

Evidence of better business conditions and more employment opportunities in this section of Idaho were noted here this afternoon as Ray Butler, local manager for the United States employment service, released data concerning placements made during April and also these made this month to date.

Records completed by Mr. Butler reveal that 153 placements in private employment have been secured to date through the service which is offered without cost either to the employer or the employee.

Wide Range
Private placements made so far this month saw jobs secured as far south as Eugene, Ore., 275 miles away; as far north as Kotzebuk, as far west as Hagerman and as far east as American Falls. Included in the workers placed were farm laborers, steam laborers, mechanics, electricians, planing mill workers, carpenters, plasterers, as well as 25 women who secured domestic positions.

Some men from the service rolls are now employed in excavation work in connection with the construction of the new addition to the New Robinson hotel in Twin Falls and additional men will probably be placed on the job as building construction gets underway.

Public Placements
Public placements to date this month, which include those hired by government agencies as well as on contract jobs, stood at 101 today.

In April 109 private placements were made of which 71 were men and 29 women; 105 public placements were made of which 103 were men and two women, Butler's records show.

Racketeers Prey On Travelers in Japan
TOKYO (U.P.)—A new field for racketeering has developed here with scoundrels purchasing railway sleeping-car accommodations and then selling them at a premium to travelers who had been told at the regular ticket windows that no berths were available.

The practice was an outgrowth of an increase in Japanese railway travel to a point where there were insufficient trains to accommodate the traveling public.

LIBRARIAN FINDS NEW ALERTNESS AMONG READERS

SHREVEPORT, La. (U.P.)—The reading public, as never before, Edmund L. McGivaren told the Louisiana Library association, shows details on everything from the Spanish rebellion to preparations for this life and the next.

"People want to know what's going on in a changing world," said McGivaren, New Orleans librarian. "The king and queen and little Princess Elizabeth, heir to the throne, stood on the bridge of the royal yacht Victoria and Albert as it steamed slowly down the line of 271 ships, covering an area of 24 square miles between Port-mouth and the Isle of Wight, and aggregating 52 miles in length.

Impressive Sight
It was an impressive sight. The flags of all nations fluttered in the breeze. The shores were black with cheering thousands, groups of whom burst spontaneously in song. "Rule Britannia—Britannia Rule the Waves."

The Victoria and Albert entered the lines, flags broke out on the hundreds of ships, including those of 10 British admirals and six foreign admirals. The Stars and Stripes, the French Tri-Color, the Black, White and Red German flag with Swastika, fluttered in the sunshine. It was a strange contrast of international amity and a display of armed might.

GEORGE REVIEWS BRITAIN'S FLEET

17 Foreign Ships Present as British King Receives Vessels' Salute

WITH THE KING'S FLEET PROCESSION, Spithead, May 21 (U.P.)—The grandest maritime fleet ever assembled in the history of the world huddled in salute yesterday as King George VI reviewed the might of Great Britain's sea power and the warships of 17 foreign nations at his Coronation review.

The king and queen and little Princess Elizabeth, heir to the throne, stood on the bridge of the royal yacht Victoria and Albert as it steamed slowly down the line of 271 ships, covering an area of 24 square miles between Port-mouth and the Isle of Wight, and aggregating 52 miles in length.

WHAT REFRIGERATOR HAS THE LOWEST 10-YEAR COST?
THE U. S. PUBLIC WORKS ADMINISTRATION WANTED TO KNOW and here's what they did about it
When PWA's Housing Division studied food-keeping economy for the future residents of their low-rent housing projects, they made a discovery. They found that electric refrigeration was the lowest cost food-keeping they could buy, in a majority of their projects.
To pick the most economical electric refrigerator, for 16,697 dwellings in 34 of these projects, they asked for bids from leading manufacturers—not on price alone, but initial price PLUS ten-year cost of electricity. Westinghouse won this contract, showed the lowest 10-year cost of them all. It's 10-year Economy that counts!
Special! MODEL FDH-40 ONLY \$144.50 THE SAME SIZE AND MODEL BOUGHT BY THE U. S. GOVERNMENT FOR 34 PWA PROJECTS.
