Asks Showdown

Sen. Arthur Vandenberg, R., Mich., today asks a showdown in the strike violence situation.

Federal Building

Five senators, including Sen. James P. Pope, today collaborated with Sen. Gerald P. Nye, R., N. D., above, in the planned introduction of a bill whereby the U. S. would manufacture all federal warships, munitions and other war materials.

"No Change"

"No change is contemplated in Great Britain's gold policy," said Sir John Simon, chancellor of the exchequer, in the Commons today. The statement had been awaited by financial authorities in the hope that it would clear up the nervousness that has prevailed in the gold market for a week.

DEAN VS. HUBBELL

NEW YORK, June 8 (UP)—Dizzy Dean and Earl Hubbell, the National League's two outstanding pitchers, will face each other, probably in the opening game of tomorrow's double-header between the St. Louis Cardinals and New York Giants, it was officially announced today.

STEEL PROTEST HITS U. S. POST OFFICE

COURT HEARINGS HEADLINE DAY'S STRIKE EVENTS

Republic Steel Will Attempt Opening of Subsidiary At Monroe, Mich.

70,000 WORKERS IDLE

Railroads Seek Injunction to Stop Unionists From Injuring Property

(By United Press)

Three court hearings and an expected attempt by Republic Steel corporation to reopen its strike-closed subsidiary plant at Monroe, Mich., today marked the strike against three large independent steel manufacturers. More than 70,000 workers are idle because of the walkout.

Republic announced its 48 percent of workers in its Monroe plant had voted to return to work. Mayor Dan Knaggs of Monroe promised "adequate protection" to men wishing to go back to their jobs.

3 Court Hearings

Three court hearings were scheduled in Cleveland. Railroads sought an injunction to restrain strikers from destroying rail property or interfering with service. Republic officials were scheduled to be heard in police court on a charge of operating an airfield without a permit. A Republic stockholder was to appear in court in his suit against the company illegally expended \$1,000,000 for munitions.

Continuing over refusal of the post office department to deliver food packages into picket-enclosed plants. Another blockade of mail occurred at Republic's Massillon plant yesterday. In Washington, sponsors of a resolution to investigate the postal situation in strike-enclosed plants voted to institute the inquiry.

"Labor Holiday" Over

The labor department in Washington sought to determine whether there was a possibility of settling the steel strike through federal intervention. There was a possibility Secretary of Labor Francis Perkins might invite leaders of both sides to a conference.

Lansing, capital of Michigan, returned to normal life after a one-day "labor holiday" which paralyzed business and transportation. The United Automobile Workers union called the holiday in protest against arrest of eight members who had been picketing the Capital Wrecking Co. An agreement was reached under which the company would not attempt to operate pending negotiations to settle the strike.

President Endorses Healy and Stephens

WASHINGTON, June 8 (UP)—President Roosevelt today nominated Albert Lee Stephens, Los Angeles, and William Healy, Idaho, to the two new judgeships created by congress in the ninth U. S. circuit court of appeals.

Congress recently increased the number of judgeships in the ninth circuit from five to seven.

Final Action Nears In Van Vlack Case

Twin Falls County makes ready for return of murderer for last sentence

Twin Falls county made ready this afternoon to take final action in sealing the doom of Douglas Van Vlack as far as the courts are concerned.

Issuance of a writ of remittitur by the Idaho supreme court at Lewiston today cleared the final barrier toward bringing the convicted slayer of Mildred Hawk back to Twin Falls district court for re-setting of the date for hanging.

County Attorney Edward Hubbeck said he will take immediate action to seal the writ of remittitur. He is ready to make application to District Judge T. Bailey Lee for an order directing that Van Vlack be brought before the court here, scene of his original murder trial a year ago last January.

The judge is expected to sign an order immediately to set the day on which the kidnap-slayer is to be transported to Twin Falls for the state penitentiary at Boise. He will then have a writ directing the warden to carry out the order.

As Searchers Viewed Bits of Missing Plane

Small bits of wreckage such as these searchers are viewing was all that was found when the Western Air Express plane, missing since December 15, was discovered near Salt Lake City. The craft carried seven persons to their deaths.

AMELIA FINISHES ATLANTIC FLIGHT

American Aviatrrix Lands in Africa After 1,900 Mile Journey

DAKAR, Senegal, June 8 (UP)—Amelia Earhart, American woman pilot, flew here today from St. Louis and started weather forecasts while mapping out her route across Africa on her round the world flight.

A severe heat wave that extended from north Africa to mid-Europe made flying conditions bad, especially over the eastern Sahara. Officials here believed she would wait a day or two before she decided whether to continue direct across Africa, via Port Natal, crossing the French Sahara and the Niger valley, to Khartoum in the Sudan, or follow the safer coastal route along the Mediterranean, using French landing fields as far as Algeria.

Mrs. Earhart landed at St. Louis at 11:30 on MIT yesterday afternoon. Her 11-hour flight across the Atlantic from Natal, Brazil, in 13 hours, 22 minutes, through air in the French Sahara and the Niger valley, is the first to fly the more difficult west-to-east course.

Finland Buys Up Notes to Save \$4,000 On Next Debt Installment

WASHINGTON, June 8 (UP)—Officials of Finland took advantage of the recent drop in the market quotation of United States treasury notes to get a bargain on their war debt payment due the United States next Tuesday, it was disclosed today.

The market quotation of the treasury 2 1/2 percent notes recently fell as low as 98 1/2 cents on the dollar, but Finland had the right under her debt contract to turn them in at the treasury for 100 cents on the dollar. So Finland bought up \$44,000 worth of the notes, which gave her enough to pay the greater part of the \$103,000 debt installment she will owe. The rest will be paid in cash. If she bought all the notes at an average of 97 cents on the dollar, she saved \$4,221.

Walk-Out Shuts Down Budd Wheel Factory

DETROIT, June 8 (UP)—A walk-out of 1,000 day shift employees today closed two plants of the Budd car equipment manufacturers of automobile wheels and tires. Company officials, with whom United Automobile workers negotiators have been negotiating an agreement for the past three weeks, said they did not know the cause of the trouble.

Oddities

PERPETUAL

NEW YORK, June 8 (UP)—A "perpetual motion" mouse, which catches rodents by the dozen, was displayed at the National Inventors congress today. The device lures the mouse through a door by the smell of cheese or bacon. When the door shuts behind it, the mouse, chained, runs through a corridor looking for a way to escape. That's where the "catch" comes in. The corridor is so wired that it catapults the mouse into an adjacent ante-chamber, throwing the entrance open once again for the next victim.

SPOOKS

BOSTON, June 8 (UP)—William Powers carefully locked all the doors of his automobile when he parked it at the curb. A half hour later he returned. The doors still were locked—but the steering wheel had been stolen.

REPENTANCE

AXTELL, Kan., June 8 (UP)—Two \$1 bills and 15 unopened letters were received by City Clerk William Berry, enclosed pieces and \$2 in payment for breakage of one of the city's street lamps. Such occurred several years ago from physical factors of boys trying to mark them with jacks and clubs and the result was a lit?

CLEVELAND, June 8 (UP)—Frightened by lightning, two horses pulling a plow for William Hartman on his suburban farm, dashed into a passing automobile, injured its driver, Herman Hines, of Sandusky, O., damaged his car.

Quest for Pencil Cap Crowned With Success

LOD ANKLEIGH, June 8 (UP)—A 3-day search for a pencil cap to match the one in Andrew Blakey's lung on that corpse could not be made until the cap was found. The right type of pencil was found yesterday by Jack V. Detar, a policeman in Pomona, Calif.

HARLOW'S BODY LIES IN STATE

Privacy Maintained as Star's Friends Denied Glimpse Of Dead Woman

HOLLYWOOD, Calif., June 8 (UP)—Movie fans in working clothes and stars who knew Jean Harlow on the Hollywood film lot, were turned away from Pierce Brothers mortuary today as they sought a glimpse of the glamorous star who died yesterday. A mortuary official said the funeral directors were under strict orders not to admit anyone to the bereavement room in which Miss Harlow's body awaits preparation for the funeral at 11 a. m. Wednesday.

"We have been given few final instructions as yet," the official said. "All we know is that Miss Harlow will be dressed in white. The casket has been picked out. It is a nice one, but not overly expensive. We have received orders not to allow anyone to see Miss Harlow's body at present."

Himble Rites

Mrs. Jean Helle, the star's mother, who collapsed after her daughter's death, was described by friends as clinging to her determination that Miss Harlow's last rites be as simple as possible.

The body will be taken from Pierce Brothers parlors to the chapel of the West Kirk of the Heather at Forest Lawn cemetery shortly before the funeral tomorrow. Only 200 of the star's nearest friends will be admitted to the tiny chapel. A group of 100, selected from the 100,000 fans at M. G. M., will form a cordon around the chapel to keep back sightseers, they will be aided by members of the Los Angeles police department.

Non-Delivery of Mail May Bring Legal Troubles

Republic Corp. Files Protest With Postal Department Head

WASHINGTON, June 8 (UP)—The Republic Steel corporation in a formal protest to Postmaster General James A. Farley today threatened legal action if the post office department continued to refuse to accept mail and other parcels for delivery to their plants in the Ohio strike zone.

The formal protest was made in a letter to Farley signed by John S. Brookes, jr., counsel for the corporation and member of the executive committee of Republic's board of directors.

"Compelled to Action" The protest declared that unless Farley ordered postmasters at Niles and Warren, O., to accept mail parcels for delivery to the Republic plants "we shall feel compelled to take such legal steps as may be available to us in the premises."

The corporation offered to have itself deputized to function for the post office department in making mail deliveries at the struck plants. The corporation took issue with postoffice department statements that food and other shipments for the struck plants had been refused in accord with long standing department regulations.

Regulations Slight "The postal laws and the regulations of your department," said the corporation, "are silent on the distinction which you appear to be making. We do not believe that any such practice, if it exists, is proper nor do we believe that any regulation embodying the same principles would be valid if adopted."

The Republic protest coincided with a drive by a group of Republican and Democratic senators to force congressional inquiry into the refusal by the postoffice to accept the strike shipments.

Senators Ask Federal Building of Warships

WASHINGTON, June 8 (UP)—Five senators announced they would introduce in the senate today a bill to provide for manufacture by the federal government of all warships, munitions and other war material. Senators collaborating in the measure are Homer T. Bonn, D., Wash.; Bennett C. Clark, D., Mo.; Gerald P. Nye, R., N. D.; Louis Frazier, R., N. D.; and James P. Pope, D., Idaho.

STREET PROGRAM NEARING REALITY

Council Passes Ordinance on Second Reading; Final Passage Seen

Twin Falls street widening program was a step nearer reality today after city council members in regular session last night waived second reading on the ordinance creating the special improvement district, leaving only one more reading necessary before final passage.

The program calls for widening of second avenue north and east between Fourth street east and Third street north and Second avenue south and west between Third street south and Third street west.

Originally it had been intended to widen the streets to 80-foot travel way but a petition of a group of 15 property owners on second avenue south and west presented to the council a week ago, the completed width was increased from that figure to 60 feet. As it now stands second avenue south and west will be widened to a 60-foot travel way and second avenue east and north to a 50-foot travel way.

Property owners will have the choice of paying for the improvement in a lump sum within 30 days of completion or on a 10-year bond basis. Labor will be furnished by the city and materials by the property owners, through the city.

DAND ENTINING Membership in the Kinship high school band increased this afternoon at 1:30 o'clock for Portland where it will participate in the annual Home festival at the coast city. The group met the Portland Home of the Union Pacific at Blain after a bus trip from Kimberly. They will travel to Portland in two private cars and a special driver.

# Congressmen Seek Administration Attitude on Strike Violence

## SONS REQUEST GROUP TO PROBE MAIL SITUATION

Battle Looms on Interference With Postal Deliveries To Factories

By C. L. SULZBERGER  
WASHINGTON, June 8 (AP)—Democratic congressmen, in congress joined today in an attempt to force the administration to declare its attitude toward strikes of violence.

The issue was raised by Sen. H. Styles Bridges, R., N. H., in introducing a resolution for the appointment of a 5-member committee to investigate alleged interference with U. S. mail by strikers at an Ohio steel mill.

The labor department, meanwhile, sought to convince whether there was any possibility of settling the two-week-old steel strike by compromise. James F. Dewey, chief postmaster, conciliator, planned to confer with John L. Lewis, chairman of the committee for industrial education which is sponsoring the walk-out.

His Assurance  
Bridges said he had been "practically assured" sufficient of settlement to order an inquiry to determine "the full facts" of the alleged interference.

There was a possibility that the inquiry, if held would seek to bring forward a resolution of the committee before a congressional committee.

"There has been a lot of dodging in regard to whether the government has interested itself on one side or another in strikes," Bridges said in an interview. "I am sure the issue involved. I want to see how the administration meets it."

Bridges quoted newspaper reports that strikers had impounded parcels delivered of food to workers at the Los Angeles plant of the Steel Corp. factories. He said it was incredible that the government would permit interference with the mail by private persons.

Jesse M. Donaldson, deputy assistant postmaster general, said today that the government had conducted an investigation which showed that the censorship is trying to "raise and arouse" charges to indicate that we ought to arm our trucks and drivers and force the carriers to take mail to the postoffice department is not a strike-breaking agency.

## ALLIANCE AWAITS RULE ON CANYON

Asks Taylor to Give Opinion On Shantytown; See Claim Of State Land

Claims made this afternoon by Perry Morris and Luke Francis, leaders in local Workers' Alliance No. 1, to the effect that the steel creek is classified as a "meandering stream, the canyon bottom is and always was state land." Further complicated matters as some residents hoped to move from the area which was recently purchased by William Hoopes and M. M. Daniels for development as pasture land. Others have already moved to new locations.

Morris and Francis explained they were waiting for an opinion on the matter from Taylor, chief attorney general of Idaho, and will "publish his opinion on the controversy when we receive it."

Deadline Extended for the real-estate to move had been set by the law as last Tuesday. Yesterday afternoon, however, it was announced the deadline had been extended "a few days" in order that those who had not moved might have additional time.

In a joint statement, Morris and Francis said they were waiting for an opinion on the matter from Taylor, chief attorney general of Idaho, and will "publish his opinion on the controversy when we receive it."

Originally deadline for the real-estate to move had been set by the law as last Tuesday. Yesterday afternoon, however, it was announced the deadline had been extended "a few days" in order that those who had not moved might have additional time.

"We base our case upon two points: We are waiting on an opinion of Atty. Gen. J. W. Taylor, who is looking up the original classification of the canyon bottom. If the stream is classified as a meandering stream, the canyon bottom is and always was state land."

## ATTEMPTS MADE TO CHART ROUTE

Barrie Leads Party on Trip To Discover Way to Remove Bodies

(Continued From Page One)  
The plan, which probably gave rise to the rumors, Wenger said.

The plane crashed on December 15, and the mail bags revealed a number of packages, dressed with Christmas seals, and looking far out of place on the barren side of Lake Harriet peak.

Included in the 578 pounds of airmail parcels by the plane were a number of pouches of registered mail. The fact that this mail may have contained money or other valuable property probably accounted for the means taken to prevent its theft.

The job of sorting the weather bureau mail and delivering it to the proper addresses was begun in Wenger's office in Salt Lake City today.

Difficult Job  
The postal inspector said it was a difficult job. Nearly every envelope was broken open by exposure to weather and many were separated, properly packed and accounted for the means taken to prevent its theft.

Persons having registered mail on the wrecked plane have already been notified. Wenger said.

Only about 200 pounds of mail were brought out by Wenger's party, which climbed to the crest of the peak yesterday. Another eight or ten pounds were found on the north side of the mountain.

Some of the mail never will be found, but Wenger expected that about 200 pounds will dig from the snow along with the bodies.

Winds blow quite constantly over the mountain. High winds are blowing some individual letters as far away as three miles.

The wreckage was located Sunday at 10:30 a. m. by a dog from a plane disappeared on an eastward flight from Los Angeles.

## COUNTY SET FOR VAN VLACK MOVE

In Boise, and E. Larson, Twin Falls, will determine briefly of the dramatic last-chapter proceedings in district court.

Van Vlack will be taken to the Twin Falls district where date of his execution will be set.

Unless he can obtain a commutation of sentence or a reprieve, he apparently is doomed to die on the gallows late this summer.

## Harry Detweiler Condition 'Same'

No Visitors For Two Weeks Or More, Says Hospital

Condition of Harry H. Detweiler, Twin Falls, critically injured in a fall from a hill Saturday night, remained unchanged today at Twin Falls county general hospital.

Detweiler, suffering from a fractured skull and head, has been conscious most of the time, raising his head and eyes, but still "flat" although his general condition was said to be still critical.

No visitors will be permitted to see the injured man for at least two or three weeks, it was ordered by the attending physician today. Friends were requested not to call at present.

Miss Dorothy Hardesty, who suffered minor injuries in the same accident, had been released from the hospital today. In a statement signed yesterday, Miss Hardesty said she was driving Detweiler's coupe at the time it dived over a cliff belonging to the McVey Investment company, Twin Falls, and driven by Leroy Gobie. Detweiler was asleep on the right-hand side of the coupe seat, she asserted. The crash threw him from the seat and wedged his head between the steering wheel column and the dashboard.

## \$1,000 Reward for Airplane Goes to Devey and Andrews

BALT LAKE CITY, Utah, June 8 (UP)—A \$1,000 reward offered for finding of the wrecked Western Express plane was divided between Melvin Devey and Emory Andrews of Alpine, Utah, who discovered it.

They said, however, that the decision was not final and the money would not be paid until all claims had been considered.

Devey and Andrews found the wrecked plane on December 15. They said they were willing to split the reward with Will Healey and Frank Bateman, who discovered letters a week ago which led to the new search.

Devey and Andrews had searched for 21 days prior to finding of the plane.

## VACATION CAMP WILL BE MAPPED

Home Demonstration Leaders Will Confer on Event For Rural Women

Final plans for a vacation camp in the south central area to be attended by rural women of this area in this sector for at least five years—will be formulated here this week when Miss Marion Hesperorth, state home demonstration leader, comes to Twin Falls to confer with Miss Margaret Hill, district leader.

Miss Hesperorth is to arrive Wednesday. The plans will be lined up during the following two days.

The camp probably will be held in the Sawtooth mountains, although definite selection has not yet been made. Miss Hill said today that the camp will be planned, probably in Shoshone.

Tasting of pressure cooker gauges in homes of rural club members is now being carried out by Miss Hill. About 25 have been checked for accuracy in the last few weeks.

## 600 Driver Licenses Sold Since June 1st

Approximately 600 driver's licenses have been issued at Twin Falls headquarters in the sheriff's office since June 1. E. Tomlinson, sheriff, said today.

Volume is picking up with approach of June 15, date originally announced for formal start of the license sale throughout the state, Tomlinson said. All drivers must have the new permits by July 1.

## FLAG DAY RITES SCHEDULED HERE

Boy Scouts Will Hold Own Ceremonies, Then Join In Elks' Event

Arrangements for local Scouts to participate in flag day exercises which will be held in Twin Falls Monday, June 14, were announced by Scout officials this afternoon.

The meeting was held in the county clerk's office with I. E. Judson, chairman of the district Scout committee in charge.

Present plans, according to Blanford's report, call for each Scout troop to have a flag raising ceremony at various flag poles throughout the city at 7 a. m. They will later assist in the annual exercises which will be held by the local Elks lodge in city park and which day older and Andrews had searched for 21 days prior to finding of the plane.

## Postmaster General Farley Defies Law, Issues 119-Page Stamp Book

By FREDERICK C. OTHMAN  
WASHINGTON, June 8 (Special)—Postmaster General James A. Farley, the philatelist's pal, defied the law of the land today and published pictures of every American postage stamp ever issued.

He did it on advice of counsel, though; counsel of the finest kind, so it looks like he won't have to be measured for a striped suit.

His stamp pictures, in a 119-page book, are handsome, even though they may be illegal, unlawful, and illegitimate. Nobody ever has seen the like before.

That's because the criminal code says reproduction of postage stamps, by any means whatsoever, is a serious crime. It might encourage counterfeiting.

The law says further that anybody caught printing such stamp pictures, or any hand-drawn or typed into the nearest federal clerk, there to report for 15 long years.

Nobody dared print pictures of U. S. postage stamps until Farley became postmaster general. Even he didn't doubt the law on his own responsibility. The postoffice department conferred with the secret service, whose job it is to catch counterfeiters.

Postoffice officials said the legal department of the treasury issued an informal dispensation, which ruled in effect: "Okay Mr. Farley, go ahead and break the law. We'll make a special exception for you."

Postage described  
His book, entitled "A description of United States postage stamps," thus went on sale at the general printing office for 25 cents a copy (75 cents for the deluxe edition). It has a graceful foreword by the P. M. G., in which he says he hopes the stamp collectors will like his little book.

The first American postage stamp, it developed, was issued in 1847. It was a ten cent, with a picture of George Washington on it. Thereafter the postoffice department began engraving postage stamps in varieties enough to fill a picture gallery.

Honors 17 Presidents  
It honored 17 Presidents with stamps bearing their likenesses. It commemorated the lives of 41 other prominent people, including Christopher Columbus, Queen Isabella of Spain, Ponce de Leon and Melville Fisher. It honored centennials and battles and world's fairs and Zeppelin flights.

The only stamp which Farley's book didn't include was the most valuable ever printed—the inverted airmail, which brings \$15,000 per copy in philatelic circles. This stamp was a mistake. That's why it isn't in the book; why it's worth so much.

Somebody at the bureau of printing and engraving turned the picture of the airplane upside down and a few of these stamps reached the market before horrified experts could stop the presses.

# NEW LABOR PACT RETURNS FORD WORKERS TO JOBS

## BOTH SIDES SEE VICTORY AS LONG SIEGE IS ENDED

Unionists Say They Have Won Recognition; Car Officials Claim They Have Not

RICHMOND, Calif., June 8 (UP)—A new kind of labor pact, which settled the argument of union recognition and permitted both sides to boast of victory, was in force at the Ford assembly plant today as workers returned after a 19-day strike.

The result was a matter of interpretation. The Ford plant management recognized a 12-man committee as bargaining agency for all the workers. These 12 men are members of the United Automobile Workers of America, which called the strike and demanded recognition.

But while the U. A. W. claimed it was a union committee because all were union members, Ford officials said it was just a workers' committee, because all the men were workers.

Frank Slaby, president of the U. A. W. local, was satisfied. He said he wanted to U. A. W. recognition, achieved all the purposes, and was a fact whether Ford officials admitted it or not.

But Slaby, Ford representative from Detroit, also was content. He said nobody had been recognized "in fact or by inference."

## VETS' INSURANCE POLICY EXTENDED

Former Soldiers Can Renew Convertible Type For Five More Years

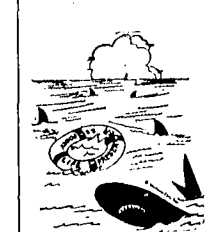

BOISE (Special)—Congress has recently passed a law permitting the renewal for another five-year period of policies known as five-year convertible term insurance carried by veterans of the world war.

Under the provisions of this law if the insured has not exercised his optional right to change to another form of policy and has paid all premiums due for the second five-year period and such insurance has expired after Jan. 4, 1937, and prior to the passage of the bill, or June 1, 1937, he may renew such policy for another five-year period by payment of all premiums due from date of issue and including the month in which premiums and application are submitted, based upon his attained age at time of expiration of the policy.

Under the law the insured has five months from June 1, 1937, in which to renew the policy. However, to obtain protection, application form together with necessary premiums should be sent immediately to the Veterans' administration.

Application blanks for renewing these policies may be secured from the Veterans' administration, Boise.

## SETTLEMENT SET IN SLANDER CASE

Suit of Ernest Simpson to Be Listed For Hearing at This Court Session

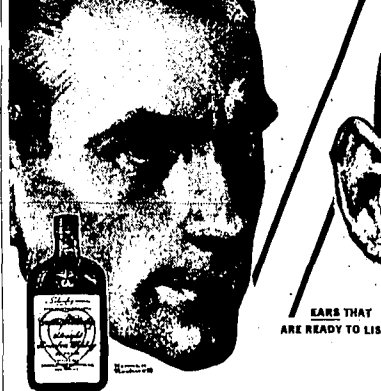

LONDON, June 8 (UP)—A settlement has been agreed upon in the slander suit which Ernest A. Simpson, divorced husband of the duchess of Windsor, brought to protect himself from gossip. It was understood today.

Simpson's suit, against Mrs. Jean Sutherland, a society woman, is listed for hearing at this session of the court.

Until today it was expected that the suit would not be reached for weeks. Now information is that it will be up this week—probably Thursday—and that there would be a brief hearing, ending in the issuance of an agreed statement.

It was taken for granted that this statement would constitute a complete vindication for Simpson, who secretly charged that Mrs. Sutherland remarked at a luncheon that he was "well paid" for permitting the duchess to divorce him.

## MANY ENROLLED IN SCOUT MOVE

Report Shows Nearly 900 Boys Active in Troops of Snake River Area

At the end of May, 898 Scouts were registered as members of various troops in the Snake river area council, officials announced this afternoon upon completion of a report of progress from Jan. 1 to May 31.

During the same period a total number of 1,200 boys have come in contact with Scouting, the difference between this figure and the total number active at the end of May being those who have left the council, dropped Scouting or grown over the age limit.

In the period 19 troops have shown advancement, inasmuch as their members have received merit badges or advances. The number of troops in the council number 54, many of them being recently formed and members, not yet having advancement chances.

As part of the summer program, an appendage to the report shows, many troops are planning camping trips to numerous points of interest. Included among camping spots are Camp Independence, south of Burley; Camp Sawtooth in the Sawtooth mountains; Germania basin camp, located over Pole creek summit through Stanley basin; the north fork of Lost river; the lake region above Pettit lake in the Stanley basin; the mountains west of Oakley and also Yellowstone park. Some of the summer features have already been completed including district Jamborees at Twin Falls, Kimberly and Burley.

The report stressed the value of a trip to the national jamboree from the standpoint of educational value and training.

## JAMBOREE UNIT NOW TOTALS 35

Troop Prepares For Pageant At Lincoln Field June 19; Registration Closes

Bob Zeller of Jerome, member of Boy Scout troop 40, this afternoon became the 25th youth to register for the Jamboree at Washington, D. C., and brought to 35 the total Scouts and Scouters who have already signed to make the trip as members of the Snake River Area council unit.

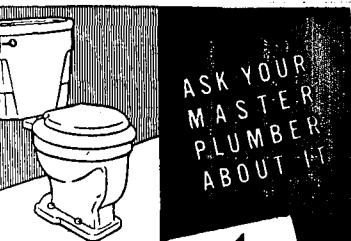

This afternoon officials set tomorrow as noon as the deadline for making application for the trip. After that hour the registrations will be closed.

Indications are, officials said, that at least three more youths will register before that time, bringing the grand total to within one of the Scout quota and making the entire unit consists of 38 Scouts and Scouters.

The unit will attend a pre-jamboree training camp which will be held at Piler on June 14, 15 and 16. Here they will work out details of a pageant dealing with the formation of Idaho and how Scouts have taken an active part in its formation. The pageant will be given the second day of the three-day area-wide Jamboree which gets underway in Twin Falls at Lincoln field on June 18. The unit leaves for Washington on June 20.

**Without Organization, Powers Face Anarchy**

If Europe does not finally manage to blunder into a war, it certainly won't be because the necessary amount of ill will is lacking. The combined Deutschland-Almeria incident is ample proof that to speak of the Spanish situation as a powder magazine is to state the case mildly.

It is proof of another thing, too, when you stop to think about it; that however imperfect the League of Nations may be, it is nevertheless an institution which, in the present state of civilization, the world cannot well get along without.

For what we are seeing in Spain is the sort of dangerous anarchy which comes when all pretense of disinterested international action is abandoned.

If this revolt could have begun four years ago, when the league was still a respected institution, and if the nations who have most to gain from the league's continued existence had found the courage to insist that its covenant be respected, we would not have had the ominous crisis that now exists.

A league patrol, in place of the sketchy and imperfect patrol that was called into being last winter, might have had some chance of isolating the trouble. It might have enabled Europe to go about its business in security, leaving the Spaniards to fight one another, if that seemed good to them, to determine who should rule them.

In that case, we would be having none of these frenzied complaints about Italian, Russian and German aid to one or the other of the contending parties. We would not have a German cruiser anchored in a rebel port to be bombed by a government plane. We would not have a German squadron bombarding a government seaport.

Instead—assuming that league supervision of the patrol had been whole-hearted—we would have a revolution which, sealed off from the rest of Europe, would be no more threatening to Europe's peace than one of the perennial clashes of outlaws in Central America.

The point is that we do not have such a desirable state of affairs because the powers which would benefit most from it—England and France—permitted the league to fall into decay long before the Spanish revolt began. When Japan, Italy and Germany moved individually that a determined and ruthless government could flout the league with impunity, the stage was set for the war-breeding chaos we now have in Spain.

It may be impossible to revive the league. But the things that are happening in Spain—things which may so easily plunge all Europe into war—would seem to prove beyond a doubt that some sort of international organization, supported fearlessly by the great powers, must be established if Europe is not to stumble into absolute disaster.

**SO I** said excitedly, "Get ready for a thrill, darling," and Pat's eyes widened, aperted. "I've got a job—a real job with a salary."

"Not really," gasped Pat. "Tell me."

"Well, this morning on the subway I overheard two girls talking about Don Monteray. It seems he fired his secretary again last week."

"Not Don Monteray, the movie star—"

"Yes, he's in New York for a few weeks. Lives at the Avator on Park avenue. One of the girls on the subway had applied for the position without any luck. She said applicant had been 'kicked out' by the dozen, but by last night no one had been engaged."

"And so," Pat's was childishly eager.

"So I joined the throng. Waited until this afternoon before getting an interview."

"With Don Monteray?" breathlessly "I'm going to try."

"Glad to see. I saw an agent or somebody. Well, he hired me," she ended on a deep sigh of relief. "Now you can get me engaged in the stage. It will take time, of course, but—"

"I'm no actress, Trissy," Pat broke in. "Only think I am."

"You're an outcast, why do you simply haven't had the breaks."

Pat's leered forward and kissed the older girl's cheek. "You're so good at this," she said with changing mood. "What did the man say? Oh, what wouldn't I give to spend my days with Don Monteray?"

"Wait until you see who's got the job," Trissy's laugh was so contagious that Pat joined her without knowing why. "Because I'm so homely. Isn't that a yell, Pat?"

"I don't think that's funny," said Pat, sobbing.

"It is though. The whole setup is funny. Let me tell you about this Monteray fellow. The agent frankly told me that my negative appearance is the thing he liked because Don Monteray is absolutely fed up with beautiful women. Negative appearance," she mused. "John used to say I was beautiful."

"You are beautiful inside, Trissy. I know and John knows. Abruptly she turned to the table. "There's a letter from John."

"Where? Oh Pat, let me have it." Trissy snatched the letter and tore at the envelope with trembling fingers. "I thought he'd written to me to marry me to go home. A slow flush spread over her pale face as she read the letter. Pat watched her anxiously. "He wants me to meet him in Minneapolis—in a very firm."

Trissy went on in a queer hushed tone. "His invalid mother died a month ago, his last sister is engaged and married. He's free of all, Pat, after all these years of waiting. Oh, John..."

She blinked her eyes as if they were full of tears.

"Pat put her arms around her, pressing the fragrant smoothness of her cheek against Trissy's. "I'm so glad, darling, and. When does he want you to come?"

**CONTRACT WIFE**

BY LOUISE HOLMES

CHAPTER I

"I MUSTN'T cry until I get home." The remark was not audibly spoken. It was simply a mental reminder that in spite of coldly disinterested theatrical and employment agencies, one did not want to leave a crowd of people on New York street. The girl's name was Patricia and it suited her. Topaz-colored hair, blue eyes, long curling lashes, skin of warm ivory and purple. Although close to tears her proud little head was high and her round little chin jutted stubbornly.

Climbing the stairs of a five-story walk-up she silently consulted with herself. "You've licked, Pat my girl. Just because the folks back home said you were an actress you spent your last cent to leave that you a flop. You can't even get a job in the back row of a chorus. So what's the next step, if any? And wistfully she thought, "I hope Trissy has been home."

Opening the door of a tiny apartment she called hopefully and was answered by a cheerful voice from the kitchen. "A girl appeared in the doorway. She bore a sharp resemblance to the colorful Pat; might have been her reflection in a mirror, straight and strangely enough they both bore the same name, Patricia Hunt Warren. They were cousins and each had been engaged to her paternal grandmother. Trissy's home was on a small prairie ranch in Oregon and Pat, eight years younger, had spent her life in a quiet Indiana city, raised by a grandmother for whom she was named.

"So I said excitedly, "Get ready for a thrill, darling," and Pat's eyes widened, aperted. "I've got a job—a real job with a salary."

"Not really," gasped Pat. "Tell me."

"Well, this morning on the subway I overheard two girls talking about Don Monteray. It seems he fired his secretary again last week."

# Chicago Baseball Clubs Threaten New York Supremacy

## White Sox Win 9th In Row; Yanks Lose

### Cubs Move Into Second Place While Idle as Pirates Drop 5th Straight

NEW YORK, June 8 (UP)—No longer does New York have an exclusive threat to a world series in one city. Chicago's two major league clubs have tossed their hats into the ring to take the 1937 world championship from New York to the windy city.

The slogan for an all-Chicago world series is "see the series on a dime." The elevated fare in Chicago is 10 cents compared with the five-cent subway fare in New York.

Thirty-one years ago Chicago held the first world series in the city, the White Sox upsetting the Cubs, four games to two. Another all-Chicago affair would make for the hottest series in history. Out in the Windy City you live and die a White Sox or Cub fan and nothing ever brings them together.

## AS WALLACE BEERY PREPARED TO "PLAY BALL" WITH IDAHO

One of the strong backers of the University of Idaho football team this fall will be Wallace Beery, the famed motion picture star, who has announced far and wide that he has "adopted" the Vandal team for the fall season. Beery is pictured here with Coach Ted Bank, left, and the Idaho mentor's friend, big Herman Weiker, center.

## McLemore Sees United States Team Winning Historic Davis Cup Title

By HENRY MCLEMORE

NEW YORK, June 8 (UP)—A gentleman of Minnesota (I do not dare divulge his name for fear the squirrels in that city would have him stored for the winter under an hour) has written in for my opinion on the 1937 Davis cup play.

He wants to know—honest, I'm telling you the truth—how I feel about the chances of the American squad which, as these lines are written, is bob-bobbing along on the high seas toward England.

The letter flattered me nearly to death, because it came at a time when I was almost convinced that the citizens of this country not only do not want my opinion, but were actually being incalculated so they wouldn't "catch it," so to speak, in crowds. I have even heard of instances where entire families were quarantined because a newspaper containing my opinions had gotten into the house.

U. S. to Win

My Davis cup opinion is that the United States team of Donald Budge, Blay Grant, and Gene Mack will return to these shores with the cup (France lifted in the 1920's, "Gries of 'heart'") the 1920's for such an opinion is this: Not for many years has international tennis had so few first class players, in all the world today, as of standing alongside the giants of the days gone by.

Today, in the world, Baron Gottfried von Cramm, and Adrian Quist of Australia, and Quist does not enter in the Davis cup picture this year because his side has already been eliminated. Eliminated, I might add, by a very ordinary, ordinary, nursing a larynx full of the germs.

## Prospects Bright for Good Team Next Fall as Season Ends

MOSCOW, June 8 (Special)—Belgium and Yugoslavia have little more than a will to win, six bottles of Imment, and a change of flannel pants for each of their heroes. The scheduled calls for Germany to reach Belgium and then follow through with a mop-up of the Czech-Yugoslav winner. And there last, even an outside chance that Germany won't follow scheduled.

Only Three Countries

So, the only three countries that matter are America, Germany, and England. All of the Grade A tennis minds agree that whoever gets to England in the challenge round will take the cup. The Britishers plan to use Bunny Austin and Charlie Hare in singles, and Pat Hughes and Tuckey in doubles. There is a youngster, and not a very capable one at that, and Hughes and Tuckey are strong.

Tuckey in doubles, there is a youngster, and not a very capable one at that, and Hughes and Tuckey are strong.

That leaves it up to Germany and our dear fellows. And my guess is that we'll lose but one match to the Nazis—the one in which von Cramm opposes the British.

## Four First-String Men Of Club on Injured List

(By United Press)

The San Francisco Seals, somewhat ailing pacemakers in the Pacific Coast league pennant chase, moved from one tough series right into another today as they invaded San Diego to play Frank Shellenback's Padres.

The Seals moved to the top white for the regulars—Outfielders Gill and Norner and infielders Rhyme and Hawkins—were out of action. Rookies Longacre, Holder and Jensen filled in nobly for the missing first stringers.

But during the last week, in which the Seals lost their second series of the year, the pitching staff began to wobble because of ailments and injuries. Wes Flowers, southpaw from Chicago, and Bill Stovess, veteran right-hander, San Francisco's pitching wings, Ed Stuts lost some of his early season drive; Will Salton, Ken Sheehan and Pete Deglin found it difficult to get the other side out.

Burden on Gibson, Lillard

That left the pitching burden on Sam Gibson and Lillard, who were first and tied for second respectively in the pitching averages released to the United Press today.

## Vows Exchanged by Pair in Home Bridal

In a setting of pink and white peonies and pink painted daisies, the marriage of Miss Sara Laubenheim, daughter of Mr. and Mrs. E. P. Laubenheim, and John C. Allen, son of Dr. and Mrs. C. S. Allen, Boise, was solemnized this morning at 9 o'clock at the Laubenheim home on Buchanan street. Rev. James S. Butler, rector of Ascension Episcopal church, read the impressive rite ceremony.

Before the ceremony Miss Lillian Laubenheim, sister of the bride, sang "I Love You Truly" and the bridal party entered to the strains of the wedding march from "Lohengrin," played by Mrs. J. R. McMillan, Miss Laubenheim, who was given in marriage by her father, wore a dainty afternoon frock of white net over white satin. Her flowers were ten roses and gardenias in a shower bouquet and she had a wreath of rosebuds in her hair.

Two attendants. Maid of honor was Miss Marian Caldwell, classmate and sorority sister of the bride at the College of Idaho. She was gowned in a floor-length dress of peach organdy and wore a corsage of yellow roses. Best man was John Zimmer, Boise.

The marriage ceremony was performed before the fireplace with white lapers burning in brass candelabra. On either side were banked bouquets of the blooms used through the rooms.

Following the rite a wedding breakfast was served for the bridal party and the intimate friends and members of the two families who witnessed the ceremony. Centering the table was a tiered wedding cake topped by a tiny bride and groom.

Out-of-town guests were Dr. and Mrs. Allen, Mrs. Marvin Casey, Boise, Mrs. Ewer, Caldwell, and Mr. Zimmer, Boise.

Mr. and Mrs. Allen have left for a 10-day wedding trip which will take them to Seattle, Mrs. Allen chose for her going-away outfit a smart set of suit of yellow palm beach and wore it with white accessories. Mr. Allen is a graduate of St. Theresa's academy in Twin Falls high school. Both were students at the College of Idaho where Mr. Allen was a member of Delta Kappa Epsilon fraternity and Mrs. Allen of Myra Tella sorority.

**CONVENTION REPORT PRESENTED**  
Members of the Twin Falls Business and Professional Women's club meeting last evening at the Park hotel heard delegates to the recent state convention at Pocatello present highlights of the session during the program hour.

A short business session was conducted by Mrs. Crystal Van Audel, president, and community studies was led by Mrs. Martina Potter, accompanied by Miss Ines Wheeler.

The address of Mrs. Elise Musser, Salt Lake City, was the main delegate from the United States to the Pan-American Peace conference held at Buenos Aires, was reviewed by Mrs. Genevieve Dwight, who stressed her point that one of the difficulties of the session was making it understood that the United States was not trying to direct South American policies but only trying to be helpful.

Mrs. Potter reviewed the talk by Mrs. Lucille Oliver, national field worker, one of the outstanding features of the convention. Her talk stressed necessity of leadership coming out of the west and the importance of leadership being developed by Business and Professional Women's clubs.

Summary of discussion of the women's charter and the state magazine was given by Miss Merle Newton, who also told of the visit of Mrs. Herbert Hoover to the session. Returns of the changes to be made in the constitution pending favorable vote at the national convention was given by Miss Bertina Tice and Mrs. Cora Stevens reviewed the social activities.

**CONVENTION PLANS DISCUSSED BY GROUP**  
Members of the Neighbors of Woodcraft were guests last evening of Mrs. Donna Sheehy at the Blue Lake boulevard. The business session, during which plans were made for the state convention to be held June 25 and 26 at Pocatello, was made, was conducted by Mrs. Sheehy, guardian neighbor.

During the social hour refreshments were served by the hostess.

**Eeden Couple Weds At Church Nuptial**  
EDEN, June 3 (Special)—Impressive services were held at the Presbyterian church Sunday morning, following the marriage of Miss Edna Eeden, daughter of Mr. and Mrs. E. P. Eeden, and Mr. Robert Swan, son of Mr. and Mrs. Minnie Leppanen, both of Eden. Following the regular morning services, the ceremony was performed by Rev. G. A. Hawley and Bishop Little of the D. C. church using the rite ceremony.

# PURCHASE OF SILVER LAGS BEHIND ACT REQUIREMENTS

## ONE-THIRD RATIO FALLS SHORT AS GOLD POURS IN

### Treasury Report Shows Metal On Hand Two Billion Dollars Short

By SANDOR K. KLEIN  
 WASHINGTON, June 8 (AP)—Treasury silver purchases to date lag some \$2,000,000,000 behind the amount necessary to achieve the objectives of the silver purchase act and the gap continues to widen, treasury sources revealed today.

The silver purchase act—passed in early New Deal days—was intended to give the nation a monetary stock made up of one-third silver and two-thirds gold. Under the act the treasury is directed to purchase silver until this goal is achieved or until the market price of silver equals its monetary value of \$1.29 an ounce.

The prospect of achieving either objective, monetary experts agreed, is dim.

**Treasury Pays 7c**  
 The present world market value of silver is about 45 cents an ounce. The treasury pays 77 cents an ounce for domestic mined silver. Against each ounce of silver acquired, the treasury may issue \$1.29 in currency. The law does not specify any time limit within which the government must bring its silver purchases up to the ratio of one-third silver to two-thirds gold. But because of the unprecedented heavy gold purchases in the last six months, the widening of the ratio has been accentuated.

Some non-government sources have suggested that one reason contributing to this lag is that treasury silver purchases are kept low in an effort to prevent silver from entering the nation's credit structure at a time when a "sterilization" policy is in effect to keep new gold out of the credit structure. Treasury officials, however, declined to discuss this possibility.

**Gold Stock Boosted**  
 The nation's gold stocks, boosted sharply in recent months by the unprecedented inflow of gold from abroad, now aggregate \$12,056,810,000. To meet objectives of the silver act, the nation's silver holdings should aggregate \$4,352,270,000. But according to the best available statistics, the actual monetary value of silver now held by the government is only \$2,442,000,000. Treasury officials would not reveal the exact amount of the monetary silver stocks.

The treasury daily statement for June 4, showed \$1,332,651,183 of silver has been acquired at prices ranging up to 77 cents an ounce.

The last official estimate by the treasury placed the total monetary silver holdings at \$2,422,000,000 Jan. 31. Approximately \$20,000,000 domestic silver was estimated to have been purchased between that date and May 21.

## CITY APPROVES SPRINKLING LAW

### Almost Every Street in City Included in Ordinance Passed By Council

Passage of an ordinance creating a special improvement district for purposes of summer sprinkling was completed last night by city council members when the ordinance was passed under suspension of rules.

The sprinkling ordinance includes almost every street and alley in the city, both paved and unpaved. Sprinkling is already underway, the expenses until the new ordinance goes into effect coming from a surplus left over from the last fiscal year.

The cost is taxed and assessed upon property benefited in accordance with the number of square feet of property facing the street. Intersections are paid for out of the general fund.

It will become effective 30 days after publication, which will probably be Wednesday.

Dr. Boyenger, Foot Specialist, Owner C. C. Anderson, Ph. 253-P.—Adv.

## COUNCIL PASSES 2 TRAFFIC LAWS

### City Harmonizes With State In Reckless Driving; Also Drivers' Permits

Two new traffic ordinances, which will tend to bring city laws in harmony with those of the state, were passed by the city council under suspension of rules last night and will become effective 10 days after publication, which will be Wednesday.

The ordinances deal with necessity of having a state driver's license while operating an automobile within the city of Twin Falls, and also with reckless driving. Both are new ordinances, not having been previously on the law books of the city.
