WHISKER MEDIATOR MEET
PITTSBURGH, June 24 (UP)—Union leaders met with federal and state mediators in the office of Mayor Cornelius D. Neely today in an effort to end a strike of 150 mill-iron room employees of Pittsburgh's three newspapers which have suspended publication pending settlement of the walkout.

Unionists Call off General Strike in Warren Factories

WARREN, O., June 24 (UP)—Committee for industrial organization leaders called a general industrial walkout in this steel center today but many union men found doors locked against their return to work.

"A contract with the C. I. O. isn't worth a thing," officials of the Brainard Steel Corp. declared as they barred 30 workmen from their jobs.

The three companies were affected by the labor fiasco called by the CIO leaders yesterday in a vain attempt to enforce a general industrial strike in protest against continued operation of the pickets and militancy of the Republic Steel Corp. mills.

Without Ended
The union officials announced this morning that the walkout movement was ended but that if necessary they would begin another stoppage of work on an even larger scale.

Guardmen's bayonets, backed by machine guns, protected the return of non-strikers to the Republic mill. A restricted number of pickets were allowed incoming automobiles to check whether the company was increasing the estimated 2,400 workmen who have kept the mill in partial operation during the 29-day steel strike.

In a new strike controversy workers at the Niles Steel Products plant which had a contract with employees.

Company Takes Holiday
About 500 workers at the plant joined in yesterday's demonstration. Today the company locked its doors and declared a three-day holiday of its own. Each side charged the other with violation of contract.

The plant and began picketing. The company announced that the men could return to work Monday—without a contract. About 25 mainly teenage men under an A. P. of L. contract continued work.

"We had a contract," a company official said. "The company was willing to sign a contract with the CIO."

The Van Huffel Tube Corp., closing was announced as for "an indefinite period." Eighty per cent of the employees had joined in the holiday. The rest were told to go home.

"We had a contract," a company official announced. "It was broken."

The Ohio national guard was enforcing modified martial law in the Columbus valley but only at the gates of the big Republic mill.

"Rule or Ruin" Policy Of CIO, Says Girdler

Contracts of Union Said to Be Valueless

By RUSSELL TURNER
WASHINGTON, June 24 (UP)—Tom Mercer Girdler, board chairman of Republic Steel corporation, charged before the senate post office committee today that the "apparatus policy" of the organization is to "rule or ruin American industry."

In a statement before he submitted to questioning by committee members, Girdler contended that a written contract with the CIO "is not worth a paper if it is written on."

He denied union charges that Republic violated the national firearms act by maintaining "arsenals" in its plants.

Referring to statements by Sen. Joseph Guffey, D. Pa., and Philip Murray of the workers' organization, Girdler said:

"I don't think it is disrespectful to say a senator or anyone else doesn't know what he is talking about."

Girdler demanded that labor unions be made "legally responsible" for their actions. He made three specific charges against the CIO:

1. "The CIO has failed to free American citizens who refuse to pay tribute to it the right to work.

2. "The CIO is associated with Communism; many of its leaders and organizers are avowed Communists."

Girdler contended that the fundamental issue in the strike "is not one involving wages, hours or work conditions, but one involving law."

"This," he said, "is not a strike in the sense that a large body of our employees quit work because of grievances against the company. What has happened is that an invading army descended on our plants and forced many of our employees to join them."

"The statement has been made," he said, "that the companies involved are being held in contempt of law. I am sure that the companies are being held in contempt of law."

MELDON LISTED AS TAX EVADER

Alfred P. Sloan and Others Named as Attempting To Avoid Levies

(Continued From Page One) the assets. Helvering said that the Robert F. Scripps company reported no income tax or surtax for 1934 on a net income of \$173,599.62.

The company, Helvering said, is the personal holding company of Robert F. Scripps.

Helvering had previously explained that some of the data regarding taxes in each individual case was based on various treasury "assumptions" as to the extent to which personal holding companies have been employed as tax avoidance instruments.

Lost \$59,840 - On the basis of these assumptions, Helvering said that his bureau estimated, after deducting dividends paid by the Robert F. Scripps Co. to its stockholders, that an additional surtax of \$59,840 would have been paid by Mr. Scripps if the personal holding company device had not been employed.

The second individual case submitted was that of Helvering's company which Helvering said was a "personal holding company of E. Scripps."

Helvering said that the bureau had computed the payment of surtax for 1934 in the amount of \$49,134, which was added to the "assumed" company, the net income of which he said was \$1,705,405. The company paid personal holding company surtax of \$976 and no ordinary corporate tax, Helvering said.

The Scripps are newspaper executives.

Carl C. Howard, assistant state supervisor of agriculture education, was in Twin Falls today and with the help of J. V. Briggs, Twin Falls high school agriculture instructor, was conducting examinations of candidates for State Farmer and American Farmer awards.

Out of four boys in the state of Idaho, Melvin Ehlers, Twin Falls, is a candidate for the American Farmer award which according to Mr. Briggs is a highly selected position and carries rigid requirements.

Future Farmers of America who are being examined for State Farmer awards are: Maurice Capps, Irvin Ehlers, Gordon Catrino and Cecil Boyer. In pointing out the difficulty with which this honor is earned, Mr. Briggs said that some of the requirements were that the individual have at least \$200 invested in a farming project and have a quality of leadership and other qualifications of the "ideal" farmer.

Mr. Howard, who has his headquarters at Boise and Moscow, has been in this vicinity for several days and has made tours in connection with Future Farmer and agriculture work of Buhl, Filer, Murtaugh and Kimberly.

WOMAN INJURED IN CRASH HERE

Mrs. E. J. Shanley Out as Car Steering Gear 'Loose' This Morning

Mrs. E. J. Shanley of Twin Falls was allegedly injured early this morning as the machine she was driving collided with a machine owned by C. L. Reynolds which was parked in front of 327 Seventh avenue east, a police report shows.

Mrs. Shanley told officers her steering gear apparently became "loose" and she was unable to control the car. It started toward the right hand side of the street, striking the Reynolds machine in the back end and forcing it over 20 feet down the curb.

Broken glass in the Shanley machine is believed to have struck the Reynolds machine in the back end and forcing it over 20 feet down the curb.

Injuries to the driver, which consisted of a cut on the bridge of the nose and a cut hand.

Police described the front end and frame of the Shanley car a "total loss," saying the Reynolds machine was badly damaged.

POISONED YOUTH IS TAKEN HOME

Robert Nelson Released From Hospital This Morning After "Experiment"

Robert Nelson, 19, returned to his home this morning after treatment at the county general hospital for potassium cyanide poison which he is reported to have taken as an "experiment" to ascertain its effects Tuesday evening.

The drink was taken in a local dental laboratory at the home of W. E. Orrell, laboratory manager, were consuming soft drinks. Nelson is reported to have carried a vial of the poison with him for over a week, during which time he conducted numerous experiments.

Today it was revealed the youth, who graduated from the Twin Falls high school in 1935, received technical training in a Spokane laboratory since that time.

VANDALS DAMAGE SOFTBALL LIGHTS

Local police today were on the lookout for a group of boys who are reported to have been shooting out lights maintained at Lincoln field for night softball games.

Paul Gilman, of the Junior Chamber of Commerce, asked police aid after several globes had been broken evidently by the use of "bees" guns.

Gilman told officers he believed the vandalism was being done in the early morning or afternoon as the field is occupied five evenings each week.

# HITLER AND MUSSOLINI PRESENT THREAT TO PEACE

## MOVING OF NAZI BATTLESHIPS IS CAUSE OF SCARE

Planning of Action By Two Fascist Nations Feared By Other Countries

By LOUIS F. KEEBLE United Press Cable Editor  
The dynamic underlying the Spanish situation appeared close to being exploded today.

The two dictators, Hitler and Mussolini, whether bluffing or not, presented a threat to the peace of Europe which belied their professions that they sought only an amicable solution of the conflict.

At the same time that a foreign office spokesman in Berlin announced that "Germany considers the Leipzig incident closed," a powerful German fleet was sailing from southern Portugal toward the Mediterranean coast of Spain.

Leipzig Incident  
The "Leipzig incident," meaning Germany's charges that a loyalist submarine had tried to torpedo the German cruiser Leipzig, caused Germany and Italy to withdraw from the international naval patrol of Spain.

As Germany concentrated the bulk of her fleet in the Mediterranean, Italy was reported to be acting in concert and planning to maintain a battle fleet in Spanish waters to protect Italian shipping.

Britain and France were alerted by the possibilities. They criticized Germany and Italy for their belated action against the Spanish loyalists which would be regarded with the greatest gravity.

Intervention Feared  
The British-French coalition feared that the two Fascist nations planned overt action on the slightest excuse, to move into Spain and ensure the victory of the Franco insurgents. With their great naval, military, aviation strength and sources of materials, they could win the war easily for Franco unless Britain, France and Russia plied their strength against them.

London and Paris were most concerned over the possibility of open German-Italian intervention, which would wreck the non-intervention agreement of 27 nations and permit any power to step into the Spanish conflict, with the consequent danger of a general European war.

Britain and France were determined to prevent such an outcome, however, if humanly possible. Informed sources in London said British officials believed the two dictators were bluffing and would avoid open conflict if given face-saving concessions which Britain and France were likely to make in the interests of peace.

## Oregon Governor Hits Unions for State Employees

SALEM, Ore., June 24 (U.P.)—Charging that recognition of unions of state employees could lead to strikes of prison guards, doctors and nurses and even the state militia, Gov. Charles H. Martin of Oregon, today defended his stand in opposing such organizations.

Martin said he never had opposed state employees joining any organization they cared to if they sought social or fraternal benefits, but it would be impossible for the state to recognize any union as a bargaining agent. He said: "The Boston police showed the kind of chaos that can lead to."

It has been announced that a free lecture on Christian Science will be given at the High School Auditorium, Buhl, Idaho, Friday evening, June 25th at 8:15 o'clock. The public is cordially invited.—Adv.

## POSSE CONTINUES CONVICT CAPTURE

Five Already Taken of 10 Who Escaped From Texas Prison

HUNTSVILLE, Tex., June 24 (U.P.)—Posses of Texas prison guards today continued an orderly and lei-

surely round-up of the 19 convicts who overpowered a guard and broke from the Eastham prison farm Tuesday evening.  
Five already were recaptured and the others were scattered in small groups, roaming the Trinity river bottoms and the roadsides trying to reach their favorite hide-outs. Their capture was imminent. Posse-men trailed them with bloodhounds.  
Originally the fugitives included four murderers, and several robbers and burglars. Three of them were picked up here last night. A posse locked them in the "big house" for the night. They were: Laurence Williams, Tom Corbett and Alvin Stockton.  
A few hours earlier, another posse

captured George Scott and Jack Forham, murderers, in a pasture near Groveton.  
The convicts were doomed by their own criminal psychology and lack of imagination, one deputy sheriff explained.  
"I can tell you right now where they'll find one of those 'punk.' He'll go straight as he can to a certain town. He'll lie low a while and then he'll get the idea he can rob the bank. But before he does it they'll pick him up. I don't know why he does it every time he gets in a jam, but he always does and always gets caught."

## Idaho Treasurer Deplores "Excess Number" of Fiscal Year Endings

BOISE, IDAHO, June 24 (U.P.)—Mrs. Myrtle Enking, Idaho state treasurer and only woman state treasurer in the United States, today deplored the "excess number" of fiscal years.  
"We have five distinct fiscal years in the nation," she said. "State and county fiscal years end Jan. 1. Cities and communities end their year May 1. Schools close their books July 1, and the bureau of highways shuts down accounts Dec. 1."  
The federal government tallies accounts on July 1.  
"This Mrs. Enking said, makes it difficult for interchange of accounts and records on an intelligent basis."  
She said the National Association of Auditors and Treasurers was pushing legislation to standardize fiscal year endings.

BEHIND THE SCENES in Washington By RODNEY DUTCHER Evening Times Washington Correspondent

Can't Hustle America One of the encouraging things about our republic is the way it has of smacking a man just when he begins to think he knows all the answers.

Mr. Wilson was probably the most powerful leader in all the world on Nov. 11, 1918. Indeed, he could be called one of the three or four most powerful leaders in all history.

On a smaller scale you could repeat the parallel with Franklin D. Roosevelt. Last fall Mr. Roosevelt won a landslide election as no president before had ever won one.

And so what? So the first major program he handed to the congress—the plan for revising the supreme court—was riddled with hostile bullets and finally was rejected by a senate committee in a report as biting and critical as any in the annals of that historic house.

You can add this sort of stuff up all day and you will get just one answer. The instinct for democracy as against personal rule is all-powerful in this country.

What's What in Russia? Any American who tried to keep track of the various "purges" by which the Russian government is trying to root out disaffected office-holders might well be partitioned if he threw up his hands in complete confusion.

Russia, Italy and Germany have been represented as "deploring" the war in Spain. Perhaps that is why they are furnishing war supplies and men—to get it all over with as soon as possible!

London scientists agog because the moon was reported off its course overlooked the possibility it went haywire trying to rhyme with "June."

Headline: "May Take Danzig." Phoo! But wait until you get over your cold.

"Russian Leader Takes Own Life." That's one way to escape being shot in Russia.

SHE'S NOT AFRAID—JUST DOESN'T LIKE 'EM! Pot Shotter: Of course, mice are very small creatures and wouldn't harm a bit man being, etc.

YEP, THOSE BLOOMER GIRLS WERE A FOXY BUNCH! Pot Shotter: So they are 'Goin' back to school this year in 'Twin Falls, eh? Well, the boys will be watching out for the girls because they'll be old tricks of the famous Bloomer Girls.

WHAT'S A BETTING TRAP? Pot Shotter: Larry Lawrence stepped neatly into a betting trap the other night while he and some more of the boys were in that big crowd watching the Times and News broadcast of the fourth-lunch affair.

ALL NECESSARY SYMBOLS! Pot Shotter: Big labor was brewing Or something. With the circus got to talking with a local businessman who was watching the circus.

THE GENTLEMAN IN THE THIRD ROW

THE GENTLEMAN IN THE THIRD ROW (Continued) CORAL CRANDALL, looking at her father's face, felt a sudden chill.

Without another word, she started the car and roared out of the driveway onto the main road. It was a 20-minute drive from the country club into Whelan and Coral's home.

Hoyt did not answer her, but he glanced back behind her, half hidden under drooping lids. His handsome but weak mouth was sulky, the muscles of his face lax.

Coral looked despondently at her father. There was no help for it. She picked up the phone. "Hello, Hoyt? Coral speaking."

Without another word, she started the car and roared out of the driveway onto the main road. It was a 20-minute drive from the country club into Whelan and Coral's home.

Hoyt did not answer her, but he glanced back behind her, half hidden under drooping lids. His handsome but weak mouth was sulky, the muscles of his face lax.

It down on the table beside him. Coral knew that the moment which she had been dreading all evening had arrived. He cleared his throat, looked at her benevolently out of his glasses. "Well, daughter, did you and Hoyt have a good time this afternoon?"

Her father interrupted her gaily. "How about Hoyt? You hadn't seen much of him for a long time, had you? Not even since you've been home."

CORAL forgot herself. "It's nothing of the kind!" Her father looked at her quizzically. "You ought to know, Coral. You and Hoyt, he might be a very serious matter for all of us if you changed your mind."

Friends and workers who had been largely due to the fact that he had been so conscientious and practical in his work.

### FIRST HAY CUT UNDERWAY HERE

#### Irrigation Demands Less as Farmers Are Busy With Initial Crop

Irrigation demands in this section are falling off at the present time because of the early starting operations during which the first cut is being made. John Iron, manager of the Twin Falls Canal company announced this afternoon...

At the same time Mr. Iron announced that the watering of beans was not generally underway as yet because of sufficient moisture being present in the ground and weather. Bean irrigating might not start extensively until after July 4, he said.

### Night Blindness Found Affecting Many Motorists

BOISE, June 24 (Special)—Possibly 10 per cent of the motorists suffer from "night blindness" due to an absence of a dark purple liquid, notwithstanding that their eyes are perfect in the daylight.

Flows From Nerve It flows from the nerve endings in the eye known as "rods." Only these rods can "see" in dim light.

Night blindness, until the new optical test was perfected a few weeks ago, was supposed to be confined to people on very poor diets, who ate almost no Vitamin A.

Medical men did not dream that the same blindness could affect large numbers of Americans who ate perfectly adequate food.

### DAY CHANGED ON POOL'S DRAINAGE

Structure at Harmon Will Be Cleaned Monday Instead Of Tuesday

Effective next Monday the city pool will be drained and cleaned that day instead of on Tuesday, as has been the practice during the past few weeks.

The change, Lundin said, was made to conform to the practice of irrigating the park lawn on that day, making it impossible for children to play in the large section of the park.

## Champion Asks Bout With German Fighter With German Fighter

### Negro Anxious for Return Match With Only Man Who Has Knocked Him Out

By STEVE SNIDER  
—CHICAGO, June 24 (UP)—Heavyweight Champion Joe Louis today began a game of hide-and-seek with a reluctant "white hope"—Max Schmeling of Germany.

Jolting Joe was so anxious to avenge his knockout by Schmeling that he reversed the usual procedure and challenged the challenger.

If Max finally accepts an offer for the return fight, they likely will meet at Coney Island park next September in the same ring in which the dusky champion crushed Jimmy Braddock Tuesday night.

Schmeling, however, appears content to fight Tommy Farr, English and billed champion, in a London bout empire "for the heavyweight championship of the world."

Even without a Schmeling match, Louis still can be the "lightest champion yet." Promoter Mike Jacobs extended his contract with the champion until 1942 and added an agreement guaranteeing him at least four fights a year if he can dig up four suitable foes.

The Bomber's co-managers, Julian Black and John Roxborough, tore up their old contract signed shortly after Louis won his big prize battle from massive Primo Camera.

Joe planned to leave for Detroit today after collecting his 75 per cent of the \$15,380.50 net receipts for fighting Braddock. His share will be approximately \$90,000 after salaries of ring officials for the bout are deducted.

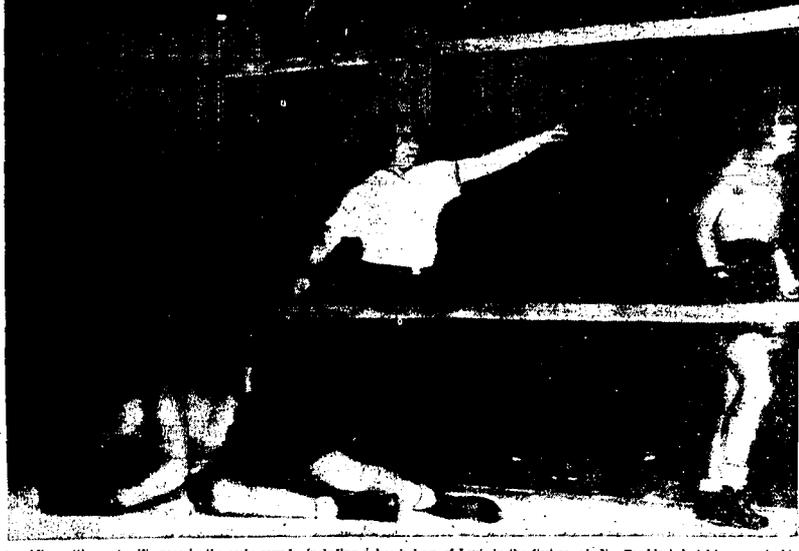

Braddock, who earned \$250,190.25 for his only title defense, refused to fight after his terrific beating and accepted a three-year contract with the Cardinals.

Plans Comeback  
Courageous Mike believes a few more bouts—possibly with Maxie Baer, Tommy Farr, or Bob Pastor—would bring back the youth in legs and give him a second title break with Louis in a second title fight.

The former champion received no serious injury from the Bomber's merciless battering but the left side of his face was a mass of hand-prints, and he had a bruise on his chest and above the left eye.

Louis was unmarked except for tiny cuts on each ear.

## AS A CHAMPION WAS KNOCKED OUT

After setting a terrific pace in the early rounds, including a knock down of Louis in the first round, Jim Braddock lost his crown in his first defense of the heavyweight championship, the title changing hands by a knockout. Here is the scene, shown by Acme Telephoto from Chicago, after a terrific fight laid Braddock cold for several minutes. Referee Thomas is seen waving Louis to a neutral corner before taking up the count; Louis walks away, and Braddock is completely out.

## Single Game Separates Cubs, Giants, Cards in National

### Hubbell Returns to Form to Defeat Chicago As Dean Wins Over Van Mungo

By GEORGE KIRKBY  
NEW YORK, June 24 (UP)—Baseball's big attraction today was the local "Madame" league between the Cubs and the Cardinals, but the game was only one big game separating the league-leading Chicago Cubs and their two bitter rivals, the Cincinnati Reds and Pittsburgh Pirates.

Pittsburgh, in fourth place was only three games off the pace. High spots in yesterday's games: 1. Carl Hubbell, after being knocked out of the box six straight times, regained the winning touch and pitched his first complete game since May 10 to beat the Cubs.

2. Dixie Dean, despite another display of temper, had luck on his side as the Cardinals beat the Dodgers on four hits.

3. The Chicago White Sox blanked the A's 3-0, on three hits, two of which were homers by Mike Kreevich and Luke Appling.

4. Detroit won and Philadelphia Athletics collapsed. The Bees lost their 11th straight game and the A's their ninth in a row.

5. Hank Greenberg hit a homer with the bases loaded in a losing cause, Paul Waner had a perfect day and Lou Gehrig pitched a no-hitter.

Hubbell pitched the Cubs to an 8-4 victory over the Cards. With an eight-run lead he reared up in the eighth and the Cubs pounded out four runs. Heager, Ott and Lester pitched homers for New York.

Hubbell's record is now nine wins and three lost. Dixie Dean pulled through his 11th straight win over the Cardinals, 3-2. Van Mungo held the Dodgers 3-0.

## CLAIM SICKNESS IS NOT POSSIBLE

### Illness Cannot Be Detected Under Nine Months, Say Wildlife Experts

Repetitions to the statement of Dr. Thomas Elliot, bureau of animal husbandry man, who yesterday charged that there was a "tubercular condition of birds at both state farms," today routed southern Idaho game quarters.

The statement was made by Dr. Elliot following a visit to the Jerome farm here last week. He said that, but not released until the doctor returned to Boise.

Most of the statements from this section were in refutation of the "tubercular condition" report. Both experts and amateurs in this territory claimed that if there was a tubercular condition, it could not possibly show until the chicks were at least nine months old, possibly a year. The birds are now six weeks of age.

"Not Possible"  
"Of course, everyone knows what the statement was made for," says Gus Marshall, former game farm superintendent.

It is impossible for any tubercular condition to show in young birds when I left the farm two weeks ago, when there was absolutely no sign of the disease in the older birds, Dr. F. M. Giddow, University of Idaho veterinary specialist, will testify to that. He has made regular tests of the birds during all the time I have been on the Jerome farm.

"The statement was made to be little the work I have been doing here," said Marshall.

Jim Wallington, president of the Jerome Rod and Gun club, said there was no way for him to check up on the present conditions at the farm, "but were sticking with Jim (Marshall). We know that he knew what he was doing while out there."

Asked Statement  
W. R. Priebe, veteran propagator of wild life in Idaho and vice president of the Idaho Wildlife Federation, said: "The statement is utterly absurd. Any doctor will tell you that tuberculosis is not hereditary. It is not in the chicks when they are born. And it can't possibly show until the birds are nine months or more old."

The complete statement of Elliot '36, more reason for some recent chick releases we have made. Half a dozen sportsmen lashed Elliot's statement as self-explanatory, and charged it as revealing the "motive behind the latest" move.

In a letter to Game Warden McIntyre, Elliot said that tuberculosis, parasites, and dietary troubles had run unchecked among birds for months at the two farms. He said there was a possibility that birds would carry the disease to wild birds when released, and that they would also infect domestic poultry.

McIntyre announced he had asked for the report because the game department was considering release of 200 birds from both farms.

Chief blast of criticism in game circles revolved today over the game warden's statement that "conditions claimed by Elliot are just one more reason for some recent chick releases we have made."

## Mac Thinks Phrenology is a Fake

### After Heavyweight Battle Results

By HENRY McLEMORE  
CHICAGO, June 24 (UP)—Phrenology is a fake. It is a snare and a delusion, and an unscientific and a fraudulent game of a snake on a rock.

As a science it is about as exact as a rocket schedule to the moon.

I know, because I depended on phrenology to give me the winners of the heavyweight bout between Louis and Schmeling.

Phrenology had predicted that Louis would win, but he was knocked out by Schmeling.

Phrenology had predicted that Louis would win, but he was knocked out by Schmeling.

## It's got what it takes AND SO HAVE YOU!

You've got hold of a thrilling machine of get-up-and-travel when you lay hands on the wheel of this sleek, swift, solid car.

You've got the power to do what you will when you press the treadle that bosses this Buick's silk-smooth valve-in-head straight-eight engine.

You've a car that sheds punishment like a millard sheds rain, so sound and stout and luskily in this sturdy traveler from its rugged backbone up.

You've certain-are brakes to keep you out of trouble—lullaby springs and cushions to cradle you in comfort—a body that's steel fused with steel for safe security—yes, you've all a man can ask in a car and more.

But you make a sad and sorry error if you hold back because this brilliant Buick looks too rich for your budget.

The fact is, this green-powered eight, smooth and steady and ready to thrill, actually costs less than some cars with two fewer cylinders!

So before you sign on any dotted line—get the same facts about Buick! You've got what it takes to own one—why be satisfied with less?

# Mattern, U. S. Flier, Plans Hop to Moscow Over North Pole Route

## PLANS REVERSE OF ROUTE USED BY SOVIET TRIO

**Buy \$100,000 Ship to Fly In Projected Solo Trip To Russian Capital**

LOS ANGELES, June 24 (U.P.)—James Mattern look delivery of a new \$100,000 speed plane today for a projected non-stop flight to Moscow over the North pole route three Russian times.

The American flying explorer said he plans to take off "about Aug. 15" from Oakland and refuel in the air over Fairbanks, Alaska.

Mattern planned to fly alone, using a robot pilot to relieve him at the controls, if necessary, he said, he would take a navigator.

The plans were announced at a luncheon for the three Soviet fliers, Valer Chkalov, Alexander Belyakov and Colonel Baidukov, who flew from Moscow to Vancouver, Wash., last week.

**Invited by Russians**

Mattern said the three Russian airmen and Soviet ambassador to the United States, Alexander Troyanovsky, had invited him to make the trip, and that he would undertake it as a show of American appreciation for the Russian flight.

Mattern's plane is a Lockheed, 15-1 type, with a cruising speed of 215 mile per hour and a top speed of 240 miles, nearly twice the speed of the Russian plane, which can do only 125 miles an hour. The plane was ordered by Mattern for use in the New York-to-Paris air race which the French government has scheduled for Aug. 20. Mattern would fly from Moscow to Marseilles for the race.

**Russians to Tour**

The Russian fliers were en route to Washington, D. C., today to begin a tour of eastern cities. Their plane is expected to arrive in Washington on Monday.

Stanislav Shumovskiy, Soviet aeronautical engineer, in discussing some of the features of the water-cooled, single motor of the Russian type plane, said it was built especially for long range flying and travels with a "hot" load.

"Its wings are built like those of a glider," he said. "The wings are much longer, narrower and have a different tilt than those of American planes. This enables the plane to rise with a great load and fly with a much less gasoline than American planes. As the load decreases, the plane goes slower because with less of a load it keeps aloft, it can conserve more gasoline for a longer flight by reducing the speed."

The Russians required 63 hours on the 5,000-mile flight across the pole.

Her two-week stay at the White House ended, dancer Roberta (the Jony on guest billings), returns to more private quarters. While Mrs. Roosevelt's visit, the White House car took her to work daily at the Washington hotel where she was dancing, and the White House staff looked after her every want. It appears above that she is having to serve herself during a visit to New York.

## Older Men Eye Younger Brides, Statistics Show

NEW YORK, N. Y., June 24 (Special)—The older a man grows, the younger he wants his bride to be in comparison with his own age, according to the statisticians of the Metropolitan Life Insurance company, who base their statement on statistics of first marriages in New York state, exclusive of New York City.

Young brides choose their partners over a wider range of ages than young men do. In the case of a 21-year-old bride, the average age of the groom is 23.7 years, a difference of 2.7 years, while the average choice of a young man of 21 is a bride only 1.1 years younger, or 19.9 years of age.

Nearly Same

The later a girl marries, the more nearly like her own, on an average, will be the age of her groom. For women who marry at age 25, the groom's age on an average is 26.8 years, or less than two years in excess of the bride's.

At age 30 a woman chooses for her husband on an average a man about one year older than herself; and for ages of the bride above 30, there is little difference on an average between the age of bride and groom.

Different With Men

The situation is quite different with men. The older a man is at his first marriage, the greater is the disparity of ages between bride and groom likely to be. A man who marries for the first time at age 25 chooses, on an average, a bride 2.3 years old; at age 30, his bride

## JURY CONVICTS PARKER AND SON

**Famed Country Sleuth Found Guilty of Kidnaping in Lindbergh Case**

NEWARK, N. J., June 24 (U.P.)—The most bizarre of afterthoughts of the Lindbergh baby kidnaping case ended today with the conviction of a country detective and his 25-year-old son for conspiring to violate the federal kidnaping law. All that remained was the imposition of sentence upon Ellis H. Parker, whose homely slouching mien had been responsible for the conviction of hundreds of criminals, and Ellis H. Parker, Jr.

A federal court jury found them guilty last night of conspiring to kidnap the elder Parker's lifelong friend, Paul H. Wendel, and force him, by torturous methods, to "confess" the Lindbergh crime.

The jury recommended leniency. The possible penalty ranged from suspended sentence to life imprisonment.

Wendel was taken to a dungeon-like basement in Brooklyn, strapped on a medieval press-gauging machine and tortured for ten days until he signed a "confession" of the Lindbergh kidnaping. Then his abductors delivered him to Parker, Sr., at the Parkers' home about 100 miles N. J. Parker transferred him to a state institution for the feeble-minded. Wendel was kept there 34 days—until the eve of Hauptmann's execution—and then dramatically turned over to county authorities.

The execution of Hauptmann was postponed three days.

## Swindler of Idaho Jurist is Captured

HARTFORD, Conn., June 24 (U.P.)—Thomas J. O'Dell, 38, New Britain and Dayton, Pa., was returned to New York City to face arraignment today on a charge of defrauding Judge Judson P. Elston of Idaho in a confidence game at Reno, Nev., in 1930.

Alleged to be a member of a swindling combine which has taken \$2,500,000 from resort dwellers in the United States and Canada, O'Dell was charged with swindling the 85-year-old Idaho jurist of \$23,630.

## CAREY

Reports of the recent L. D. S. conference in Salt Lake City will be given here Sunday evening. Special musical numbers will be presented.

Wallace Meacham conducted the program Sunday evening for the Genealogical society. Speakers were Mrs. Laura J. Adamson and Mrs. Mary Ethel Patterson. Albert A. Park was chosen first counselor and Oscar Olsen second counselor to Mr. Meacham.

Miss Catherine Meacham is at Prescott where she underwent an operation for appendicitis last week.

Mr. and Mrs. Alfred McGregor, Agnew, Calif., are expected to arrive this week-end to visit relatives with Mrs. Nancy Thorpe and Ruby Outches.

A water system is being installed from the Almond Phippen well to accommodate Hyrum Patterson, Monroe Phippen, Henry Farnworth, Harold Whitley and Almond Phippen.

The farewell social and dance for Claude Kirkland was held Friday evening with the following numbers: Accordion duet, Miss Margaret Barton, Carey, and Miss Juanita Coparrusa, Bellevue; talk Mrs. Nealard, F. C. Stangford; tap dance, Betty Patterson and Donnie Furworth; vocal solo, Burlie Cas, talk Mrs. W. L. Adamson; male quartet selection by the Carey ward bishopric, Eldon Adamson, W. O. Patterson, Olive Cooper and Dyrle Case for Milford Swartz. Dancing was enjoyed.

Mrs. G. A. Condie has moved to Halley to join her husband.

Mr. and Mrs. Ray Irvie and daughter, Mrs. Kermit Perrin, have left for Yellowstone Park.

Mevin Olsen has left for Moscow to attend summer school. Mrs. Olsen will visit here with her parents.

Mr. and Mrs. Bill Rokes, Boise, will accompany their daughter, Betty, here from Halley hospital this week. She was operated on for appendicitis. Previously she had been staying with her grandparents, Mr. and Mrs. Albert Park.

Eleanor Whitney and Johnny Downs, romantic film players pictured here, are still finding their destiny in books. Reading the script for a recent film, they objected to a scene in which his fiancée was to punch Johnny's jaw. But that was forgotten as they went over their newest roles, which called for their first official screen kiss. Their studio expected little delay in rehearsal.

Giving you tops in Mileage

I know the trouble. So many oil ads yell mileage, that you can't tell one way or another. I don't want my own ads to be in that class, so I'd like you to know all I'm staking, when I personally recommend Conoco Germ Processed oil to you. In my case, you see, I'm the owner of my business. And there's nothing makes repeat customers for me like my Germ Processed oil . . . or I ought to say, the long mileage it gives you. The patent Germ Process makes this oil get fastened right firm to the bearings and cylinders and other parts—as if they'd been built with an actual plating of oil that can't separate . . . can't thin out and burn right up. Neither is it going to run down every time you stop. Then you can't make any "dry starts" with Oil-Plating, and right there is where engineers say you will end a good half of all the wear you used to get in Summer. The less wear, the less oil your engine eats. You'll get on to this yourself, from your cool quiet Oil-Plated engine. And that's how I make another good friend for Conoco Germ Processed oil.

Week At The Capitol

BOISE, Idaho, June 24 (UP) - Freeman Smith, imported from Coeur d'Alene to replace Mrs. Bailey as chief clerk of the state government, learned this week that he was still being "broken in."

Week At The Capitol

Mrs. Bailey was notified by William McIntyre, chief warden, that she would be expected to teach Mrs. Smith the duties of her office. She agreed, but understood that her tenure of office would end July 1 in a lesser capacity.

Week At The Capitol

The game department has a revolving fund for the settlement of smaller items in routine affairs which annually require quick settlement. Mrs. Bailey was a flock of checks on the fund and signed them when so notified when Mrs. Bailey said it couldn't be done.

Week At The Capitol

Therefore, until July 1, Mr. Smith is earning his salary as a student of the game department and Mrs. Bailey has the reins as tightly as she ever did. Just what will happen to her tenure of office is not known but a cannon ball would be as useful as a crystal in the matter of telling her future.

Week At The Capitol

She may be fired, but not until the professional women of the state have had their say-so in the deal. She usually has no say-so in the deal. It is presumed they do not want to have a rose on Mr. Smith's helmet, more or less the amount of her salary.

Week At The Capitol

But whoever came into the department, ostensibly to replace Mrs. Bailey, was doomed before she had a chance to get started. Mrs. Bailey was notified that she was to be removed from her position as chief clerk, but chief deputy warden H. E. **CHICAGO**, June 24 (U.P.)—Wheat prices were irregular on the Chicago board of trade today. Early gains ranged from 1/2 cent to 3/4 cent, but were nearly lost by the previous close. December futures held firm.

All the close wheat was 1/2 to 3/4 cent lower, new corn 1/2 cent lower to 3/4 cent lower, old corn 2 cents higher and oats unchanged to 1/2 cent lower.

Reports of dust storm damage in Saskatchewan and Manitoba and high winds in the domestic northwest, encouraged early buying. Strength in the September and December futures helped mid-section wheat to advance.

Late profit taking weakened all futures below the opening levels, although fractional gains were noted above the previous close throughout.

Corn, particularly the July and September options, developed strength in the final hour despite a lag in December prices. The buying was induced by stronger tendencies in wheat.

# HAILEY EXTENDS BID FOR JULY 4

### Wood River Section Urges Children of This Area to March in Parade

Twin Falls — and especially the youngsters of the city—received an official invitation today to take part in the Hailey July 4th celebration scheduled for July 3, 4 and 5.

The bid was extended by H. H. Neal, Jr., acting secretary of the Hailey Chamber of Commerce, who informed the local C. of C. that "this will no doubt be one of the largest celebrations we have ever had here in Hailey."

During the annual parade for youngsters, Neal said:

"One of the features of this celebration is a children's parade. We have put up \$100 in prizes for the funniest or most unique ideas, and we want children from all over this part of the country to enter the parade."

### Services Conducted For Jerome Child

**JEROME, June 24 (Special)**—Funeral services for Charles Melton, one-year-old son of Mr. and Mrs. George Melton, of Jerome, were held Wednesday at the Wiley funeral home with Rev. W. F. Willis officiating.

Miss Faye Overfield sang "Asleep in the Arms of Jesus" and "Does Your Care?" The casket bearers were Irene Olsen, Velma Hammonds, Maryleta Locklear and Verma Locklear. Interment was in the Jerome cemetery.

The Christian Science Church of Buhl, Idaho, is giving a free lecture, Subject: "Christian Science: The Science of Divine Power," Friday evening, June 25 at 8:15 o'clock, High School Auditorium, Buhl. They invite the public to attend.—Adv.

# Here's How Workers View Steel Walkout

(Editor's note:—The steel strike was one month old today, and in the following dispatches a striker and a non-striker explain how the industrial conflict has affected them.)

**By A. G. JAMES**  
Non-Striking Employee of the Republic Steel Corporation  
Written for the United Press  
YOUNGSTOWN, O., June 24 (UP)—It was just four weeks ago that I got tossed out of a job. I can tell you this thing won't be settled by signing any contract. The American people are going to become aroused and find out what they're up against.

We're still eating regularly at home, but there are a lot of things we had to cut down on. I've missed two pay days and there's no more coming in. It means something when you lost that. I was inside the mill during the big strike in 1919. It wasn't like it is now. We came and went through the picket lines for about three months. That was the difference. I walked right through the picket line.

These mills here will be opened. The men won't be satisfied until they are. Why, there aren't 10 per cent of the 800 fellows in our department that wanted to go on strike when they called them out.

**By EDWARD STURM**  
Employee of Republic Steel Corporation, on Strike  
Written for the United Press  
YOUNGSTOWN, O., June 24 (UP)—We won't go back until we get a contract.

That's the only way we can get a fair deal from those guys. We're having to pinch a little at home, of course, but we'll get more later. Why, if we went back to work now we might be working for 20 or 30 cents an hour this time next year (Sturm was getting 88 cents an hour when he went on strike).

At home we're trying to make things go as far as we can. The union is helping some of the boys and their families, but I haven't asked for help yet.

I've been on the picket line every day since this strike started. I joined the union last July.

We're getting more strength every day. Thirty guys signed up right here yesterday (union headquarters near a picket post).

My family feels the same way I do about it. It may hurt us a little now, but we're going to get more out of it in the long run.

### Filer Council Votes Street Improvements

**FILER, June 24 (Special)**—At a special meeting last evening the Filer councilmen voted to gravel and oil North street, Fifth street, and Sixth street. All three streets merit the improvement due to the usage they receive.

While there is no definite date as to when the work on these streets will begin it will be in the near future.

## Dr. M. W. Locke Shoe Institute

Will be here personally to direct and suggest proper lasts for those suffering with foot troubles.

When You Buy a Pair of M. W. Locke's Shoes It's Like Buying a New Pair of Feet

Since introducing these famous shoes to people of southern Idaho we have had a remarkable number, who obtained such wonderful results that they returned for the second and third pairs. We shall endeavor to help

the hundreds of other people in this vicinity, who have not yet worn Dr. Locke's Shoes. If you have foot trouble, you owe it to yourself to investigate Dr. M. W. Locke's Shoes. . . . If you do not have foot trouble, you should at least be interested in securing correct shoes, properly fitted to prevent foot trouble.

We do not give medical advice. If you have serious foot trouble, see your doctor first. But, if you want correctly built and correctly fitted shoes, see one of our registered, certified fitters, who is thoroughly trained in the Locke technique of shoe-fitting.
