COLORADO QUITS AMELIA SEARCH

Expected Arrival of Lexington Aircraft Carrier Causes Withdrawal

HONOLULU, T.H., July 12 (U.P.)—The impending arrival of the airplane carrier Lexington today caused the withdrawal of the U. S. S. Colorado from the search for Amelia Earhart and her navigator, missing since July 2 on a flight from Lae, New Guinea, to Howland Island. The Colorado, whose three seaplanes searched the Phoenix islands and other areas in that section of mid-Pacific, was ordered to proceed north, refuel three destroyers accompanying the Lexington, and then go to San Francisco by way of Honolulu.

State Removal Of Bridge Toll Forecast Soon

Acquisition Before End of Condemnation Action Likely

BOISE, July 12 (U.P.)—Ira Taylor, commissioner of public works, and Jack Stout, highway department attorney, are scheduled to arrive in Twin Falls Tuesday to begin condemnation surveys of the Jerome-Twin Falls bridge.

Taylor said condemnation surveys would definitely establish the price of the bridge.

Taylor said the state would cooperate with Twin Falls citizens in every way possible, probably purchasing the structure on a long-term payment plan.

Indications that the state of Idaho will be able to remove toll from the rim-to-rim bridge before completion of condemnation litigation came here today as complaint papers, application for appointment of three appraisers, and application for notice of hearing were prepared for serving Tuesday.

Condemnation proceedings were filed in district court here late Saturday afternoon, and summons was issued in the case.

Defendants are the Twin Falls-Jerome Inter-County Bridge company, Seattle, and the Seattle National bank, holder of the company's (Continued on Page 5, Column 7)

Death Takes Famed Composer of Jazz

George Gershwin, Writer of "Rhapsody in Blue," Dies in Hollywood

HOLLYWOOD, July 12 (U.P.)—Friends of George Gershwin today announced that a brilliant pianist and noted horn player, "Rhapsody in Blue" over the body of the dead musician—a requiem to his creator, a genius who with little training and technical knowledge, composed music so great that it made jazz respectable throughout the world.

He died yesterday of a brain tumor which had been detected last week. There was an emergency operation Saturday night. He was only 38 years old.

Messages of condolence came to the brother and to the mother and sister in New York from the amused great and music lovers in all parts of the world. Paul Whiteman, the jazz band conductor who rode to fame with Gershwin and the "Rhapsody in Blue," joined with the conductors of symphony orchestras, classical companies, tin-pan alley tunesmiths, operatic singers and blue crooners in mourning the man who was considered one of the great composers of the generation.

SECOND RUSSIAN SHIP HEADS FOR U. S. OVER POLE

Plane, With Three Aviators, Hopes to Break Long Distance Mark

San Francisco or Los Angeles Are Goal of Trio in Red-Winged Craft

WEATHER REPORTS POOR

MOSCOW, July 12 (U.P.)—Three Russian aviators sped out over the Arctic toward Franz Josef land and the north pole today, en route to the United States on a flight in which they hope to break the world distance record of 8,657 miles.

At 2:17 p. m. Moscow time (4 a. m. MST) they were position 77 latitude 51 longitude and were 1,000 miles above 200 miles northwest of Nova Zembla.

Their destination is San Francisco or Los Angeles, and they are expected to land near Vancouver three weeks ago.

They started from Schekovo airport, 20 miles from Moscow, at 3:24 a. m. (8:24 p. m. Sunday MST), intending to fly over the north pole and down through Canada as did their three fellow aviators who landed near Vancouver three weeks ago.

Sister Ship
The plane, red winged with silver fuselage, is an ANT-25, a sister ship to that which made the previous flight. They hoped to land in California Wednesday, and thus set a new world distance record to supplement that made by Maurice Rose and Paul Odoor de Franco from New York to Berlin in 1931.

There was little ceremony at the starting table. A few newspaper photographers and other onlookers were there. There was a light ground fog. Chief Pilot Gromov said to the group of people who gathered to see the plane that he hoped to reach San Francisco but that he would continue as far down the coast as he could. He did not know whether he would be understood that he hoped to get there.

Est Lunch
The efficiency on which the new Russia prides herself was evident in the preparation of the lunch served from their beds at 2:30 a. m. They lunched on caviar, crackers, stewed chicken cutlets, fruit and coffee. The plane had not yet started when the British aviators, Gromov was advised that weather over the north pole—reported by the Russian mission camped on the ice (Continued on Page 2, Column 1)

FRENCH PLAN TO STOP PATROLING

Withdrawal of Facilities on Spanish Border Planned For Tomorrow

PARIS, July 12 (U.P.)—Andre Charles Corbin, French minister at London, today announced that France will withdraw tomorrow the facilities accorded neutral observers on the French-Spanish frontier.

The control, which has been exercised by 185 neutral agents since April 19 will end tomorrow, Corbin advised the British government.

France's own border patrol men, who have ordered the Spanish militia and other contraband from Spain, will remain on duty pending further instructions as to whether the powers arrange effective control of the Spanish coast and the Spanish-Portuguese frontier.

When the government's intention to suspend its control plan was announced in London, it was intimated that the suspension might be revoked if a compromise was agreed on before tomorrow. Today, however, the announcement of suspension was not qualified.

Buhl Asks Water From Clear Lakes

BOHE, Idaho, July 12 (U.P.)—A. De Neau, bluff city agent, today filed a request for a 1000 second-foot appropriation of water from Clear Lake for municipal power purposes.

Objections from Idaho Power company and Oils E. Byler were noted. A hearing will be held July 13 at which the state bureau of reclamation here.

Idaho Power contested the filing on basis of ownership in the Clear Lake region.

Trainroads From Manchukuo Set For Peiping Trip

RAILWAY YARDS TAKEN OVER BY SOLDIERS FROM NIPPON

TIENTSIN, China, July 12 (U.P.)—Japanese troop reinforcements began pouring into northern China from Manchukuo today, ready for a war.

The first train, bringing men from the Kwantung army—the Japanese army in Asia—arrived this afternoon on the way to Peiping, 60 miles inland, where Chinese and Japanese troops have been fighting sporadically for days.

Some more trains crossed the frontier on their way to Tientian.

Japanese soldiers occupied the railroad yards at Shan-haikwan. More troops were sent to occupy stations between Shan-haikwan and Tientian.

Japanese army authorities ordered Japanese crews to man trains on the Peiping-Manchukuo railroad which runs into Manchukuo. All trucks were requisitioned in the Japanese area of Tientian, to take troops, food, medical supplies and munitions to the "border" frontiers of the Japanese concession were struck with barbed wire entanglements.

The situation which started with a clash of Chinese and Japanese troops southwest of Peiping was becoming serious. There was heavy fighting intermittently Sunday.

Chinese sources asserted that a Japanese detachment tried to cross the railroad bridge over the Whangting river. Chinese held their ground.

Major Gen. Sun Hsiangshou, acting commander-in-chief of the Japanese Northern China army, expressed optimism as to the possibility of a possible settlement. He was advised that the central Chinese government was ready to resist, and asked for troops of his own from Manchukuo. He said that Japan would demand punishment of Chinese involved in the original clash, adequate control of anti-Japanese activities and suppression of Communism.

NEGROES CHOSEN FOR JURY DUTY

Dyer Pleads "Not Guilty"

Three Named in 6-Year-Old Scottsboro Case in Alabama Court

DECATUR, Ala., July 12 (U.P.)—Three Negroes were included in a venire of 100 prospective jurors sworn in today in the trial of Clarence Norris, one of nine Negroes accused of assaulting two white women in the Scottsboro case.

The United States supreme court once reversed a death sentence in the Scottsboro case on the grounds that Negroes had been excluded from jury service in Alabama.

Judge W. G. Callahan of Morgan district court has announced that the eight defendants in the six-year-old case will be tried at the rate of two a week.

Action Looms on Modern Airport for Twin Falls

Possibility that Twin Falls will also be submitted to the government, and I am informed by the local WPA engineer that no work of any kind can be started and no funds expended until approval has been given.

"This administration wants a municipal airport and will, I am sure, do all in their power to obtain it. It is highly probable that if the \$500 necessary for the plans is obtained and the plans are approved, the lease will be included in the contemplated bond election.

"Aviation is progressing by leaps and bounds and it is up to Twin Falls to keep up with it, or they will be left out of the picture," Waber said.

The council tonight will be asked by Waber to ascertain if the necessary \$1,500 for the plans can be provided under the present act. If the funds are obtainable, application on a revised scale will be made to the WPA and then property owners will have the opportunity of voting on the lease of the site.

LOYALISTS CUT 10-MILE PATH IN REBEL POSITIONS

TROOPS' MORALE HIGH AS TOWNS ARE RECOVERED

Gen. Miaja Plans to Cut Off Insurgent Besiegers in Madrid Area

By HENRY T. CORRELL
MADRID, July 12 (AP)—Loyalist troops have cut a path 10 miles wide and 10 miles long into the Nationalist positions west of Madrid, the general staff announced today.

The strategy of the loyalist offensive, their biggest in a war that will reach its first anniversary Sunday, was disclosed today after six days of fighting.

Gen. Jose Miaja, commander-in-chief on the central front, is trying by his drive southward from the Escorial-Madrid road to reach the main Estremadura road about eight miles ahead of his present lines.

World Cut Communication
If he succeeds in doing so many thousands of nationalists who have been besieging Madrid since early last November will have to retreat precipitately or be cut off from all bases of communication.

Loyalists already have cut the main south road, to Toledo, just below Madrid, it is asserted, and the Estremadura road running to the southwest is the last great arterial highway for nationalist communication.

Morale of the loyalist army, and of the people of Madrid, was at its highest pitch. Six days of slugging at the nationalists, with the gain of six towns—the last Villanueva de Pardillo, taken yesterday—have brought a complete change in the situation here.

Planes, Tanks, Cannon
Only today have general staff officers permitted any discussion of the offensive aside from plain communications. But now it is possible to say that hundreds of airplanes, tanks, cannon, have been pouring the nationalist rear guard mercilessly. At least the rebel army is under a single, unified command under the agency of the army is coordinated and working together smoothly under the direction of Gen. Miaja and that every objective set by the general staff has been taken on schedule.

Most neutral observers here predict that on the present basis of operations, the loyalists will attain their objective and free Madrid from its siege unless Italy and Germany send additional troops.

The 200 national prisoners taken at Villanueva de Pardillo yesterday were quoted in an official communique as saying that they had begged vainly for reinforcements.

Incidentally this communique noted that a loyalist battalion of the Garibaldi brigade of Italian anti-fascists "cooperated efficiently."

FILIBUSTER IN SENATE SNAGGED

New Ruling Limits Speaking On Court Bill to Twice In Legislative Day

By RALPH W. OLNSTEAD
WASHINGTON (Special)—A supreme court debate has certainly put life into the senate. The president, Sen. Pittman, has ruled that no senator can speak more than twice on the court bill during one day. "Day" has been interpreted to mean legislative day.

A legislative day does not end until an adjournment is taken, and consequently some bills come over several weeks or months. If the chair's ruling is upheld, there will not be any filibuster on the court bill. Apparently not having enough votes to override the chair, the opposition did not appeal from the ruling.

Instead, several usually dignified senators nearly lost their heads. Pittman and suggested they were taken to the cloak room by their colleagues to cool off. Irrespective of how the court bill ends, the day of filibustering in the senate is generally conceded to be past. The rules, invoked by Vice President Cather to quiet the late Huey Long, are now serving a much more effective purpose.

Mr. and Mrs. Joe Koehler of Twin Falls, are visiting in Washington. We inquired about opinions on the current debate on the supreme court in the senate, but Joe K. says he is not in politics. Judge and Mrs. W. F. McNaughton of Coeur d'Alene are also here.

Services Honor Jerome Woman

JEROME, July 12 (Special)—Funeral services for Mrs. Ruth Scott, 63, for 24 years a resident of Jerome, who died at her home at 1:30 p. m. Tuesday, were held Thursday in the Jerome funeral chapel, with Rev. Albert E. Martin, pastor of the Methodist church, officiating.

Music was furnished by a quartet; Mrs. Beverly Hale, Mrs. L. E. McWay, Edith Hale, and Harold Roberts, who sang: "Beautiful Isle of Somewhere" and "The Old Huguenot Cross." They were accompanied at the piano by Mrs. A. E. Pyle.

The pallbearers were: Henry Andrews, N. D. Bahbitz, Carl Achenbach, G. Vanduser, H. L. Handy, and Frank Ippinger.

Interment was in the Jerome cemetery.

Scarcely 8 months old, he is Vittorio Emanuele, son of Crown Prince Humbert and his wife, who was Princess Marie Jose of Belgium.

SUN VALLEY HAS 16 PACK CAMPS

Outlying Stations Set Up For Guests Making Trips Into Sawtooth Mountains

SUN VALLEY, July 12 (Special)—Sixteen outlying camps have been established by Sun Valley lodge so far for the accommodations of guests going on pack trips.

These camps are placed at various points of vantage in remote and picturesque corners of the Sawtooths.

Riding Academy
The Sun Valley riding academy, under the personal direction of R. J. Miles, is now operating and welcomes public patronage. Expert instruction is available and also either the English or western riding styles. There are 44 horses to choose from. Polo will be a feature of the academy's curriculum at a later date.

Mrs. Katherine Lewis is permitting the use of her well-preserved and unique collection of early stage car and wagons for the Sun Valley rodeo, parade and pageant. This rare collection could not be duplicated anywhere, and includes the biggest surviving wagon.

A rifle range, near the stages, has been under construction and is now finished.

Many visitors to Sun Valley during the last few days have been disappointed to find the road to the newly created "bow-wave" lake blocked. A huge steam shovel has been busy gouging out mountains of dirt and dumping a considerable quantity of it across the road leading to the lake. The shovel is digging the trench for the sewer system of the Challenger Inn.

Fishing in Sun Valley does not provide much sport for the veteran fisherman and no real thrill. For the uninitiated dupe, however, fishing in the lake will provide a great adventure, as they will not be able to tell about the fish they caught. People seldom believe the fish stories they hear, anyway, and Sun Valley will become famous for its tall fish tales.

Rites Pay Honor To V. Humphreys

HAGERMAN, July 12 (Special)—Funeral services for the late V. I. Humphreys were conducted Friday at the L. D. Church here. Bishop McKay, Dumire, Fossella, and Joseph E. Payne, Hurley, officiated. Remarks were offered by Bishop Emerson, Pamplin, Hagerman.

Two vocal quartets were given by Mrs. G. Palmer, Mrs. T. Thompson, R. Chatterton and G. Shiffer and a vocal duet by Mrs. and Mrs. Payne. Pallbearers were J. B. Geber, Twin Falls; John Thomas, Grange; Melvin Whitehead, Grange; Stanley Lindsay, Grange, Nev.; Bob Anderson, Hagerman; and Phillip Hundall.

The funeral was in the I. O. O. F. cemetery.

SEN. POPE SEES FARMING PERIL

Declares Enactment of New Agriculture Program Is Essential

WASHINGTON, July 12 (AP)—Sen. James P. Pope, D. Ida., declared here that American farmers face "a new and crucial chapter in agriculture's long struggle for equality" in the anticipated battle for enactment of a new agricultural adjustment program.

In an address over a National Broadcasting company network under auspices of the American Farm Bureau Federation, Pope said that enactment of such a program was vital "to undo the damage wrought here in the supreme court" when the tribunal invalidated the original AAA.

Bill Blocked
Pope made the speech less than an hour after he had made a second unsuccessful attempt to introduce a bill embodying the new comprehensive farm program proposed by the Farm Bureau Federation, embracing crop production control, parity price returns to farmers, and the "ever-normal granary" plan.

Introduction of the bill was blocked at that time because of the parliamentary tangle enveloping debate on the court bill.

"There is an acute need for a permanent farm program cannot be denied," Pope said. "Those who are profoundly interested in the legislative welfare of the American farmer are genuinely concerned over the future."

"Ominous Cloud"
"The same ominous economic clouds which overshadowed the farm population between 1929 and 1933 again are gathering on the horizon."

He pointed to department of agriculture crop production estimates as indicating huge surpluses at conclusion of the current crop year and added "there is no way of knowing what will happen to the farmer's market next year unless something is done" despite current high prices for farm products.

"Whether you call it overproduction or underconsumption," he said, "makes little difference. Regardless of the economic phaseology in which a surplus is pressed it inevitably means low prices for the farmer."

COUNTY BUYS TRACTORS
JEROME, July 12 (Special)—According to a report from the county assessor's office 110 new farm tractors have been sold in Jerome county this year, bringing the total number of tractors now in use in this county to 238. The new tractors, costing an average of \$1,200 each, have an assessed valuation of \$35,000.

CHAPTER IV
The highest peak in Superstition Mountain towers slightly more than 5000 feet. This is not a stereotyped mountain with one central point. It is more of a table when viewed from Phoenix. Close up, the canyons are yawning, toothed in alibustre; between points is a dangerous junctured. Wildflowers here often must crawl through thick tunnels that the wind animals have made. Over it lurks a constant eerie haze which adds credence to the mystery legends.

They turned in their saddles to study the wild panorama. It was, somehow, strange. "I'm not—not just sure where we are," Carol said.

RIDING IN STOMACH OF A WHALE!

Dear Pot Shots: When but a babe of a lad, I remember granddaddy telling me of the regular whale service that there was between the seaports of Greenland in the days of old.

As best I can remember it, I am setting it down herewith. One Captain Stalgot, on returning from a whaling voyage presented a baby-whale to his son as a gift. This boy and the whale grew up to be great friends. As the whale developed in size and strength, it became customary for the boy to take long trips seated in the mouth of the whale. In this way he became famous as an explorer.

One day as he was seated in the whale's mouth, the animal was forced to cough a little, and in the consequent splash, from this it got the idea of inaugurating a regular whale service between all the seaports of Greenland. Following a fast glow in the distance, he at length made his way out of the whale's belly and back into his mouth.

When they got into port an opening was cut into the side of the whale; and carpenters planted his whole with boards. Portholes were made, furniture moved in; and people soon came to prefer this mode of traveling in preference to the sailing boats, for it was quicker, more comfortable, and regular.

But alas! tragedy stalked into the story, for on one of these trips with 20 passengers on board, the whale never returned. Whether the whale drowned or was bestruck, no one could say but nothing was heard concerning these poor victims.

A HARMONY BUNCH—OR ARE THEY?

Dear Pot Shots: It's funny how music gets under some people's hides. For instance, I heard that the Twin Falls Lions Club are planning a song book. In fact all they do is sing and eat; what more, they like it so well, they want to sing at every gathering. In fact, it is rumored they are already talking about giving the singing in the Chamber of Commerce some training in vocal gymnastics.

Yours,
—Dix Cord

THE GOAT

I must be a trusting kind of a guy.

With an open heart and face,
For every waitress in every cafe,
Can peg me in my place.

When I eat with a group as big
As a troop,
I find—and it hurts me cruelly—
They deposit the check you
Can be your neck.
By the plate of yours very truly!

—Huspecked

AN OUT-OF-BOUNDER!

Pot Shots: Local newspaper headline says a man was "struck by Bounder".

What other kind of guy goes around striking people except a bounder?

—The Merry Make

IF YOU FIND THE METHOD, LET US KNOW!

Pot Shots: After trying to negotiate the Saturday night sidewalk traffic in Twin Falls (as far as it goes) in other towns around here, I went home and started practicing acrobatics.

I figure if I can learn to bend myself like a contortionist, I can walk from the Fenney corner down to the postoffice in a couple of seconds less than half an hour through Saturday crowds.

—Ellery King

FRANK FOR FIBBERETTE

Pot Shots: Just a note from an invariable reader of Pot Shots who usually just reads and chuckles at the column but doesn't write any contributions.

You said you were going to take the best of the Pot Shots liar contest, and submit them to the national contest held by the Burlington Lions Club.

In my opinion, you'd better plan now on something that will be "Fibberette" and printed Saturday. All about the man drowning because he was not on upside down after being chopped off.

Step Toward 'Big News'

One of the most important events of 1937, from the standpoint of the well-being of the masses, may have been recorded modestly the other day when Dr. Edward Carl Rosenow of the Mayo Clinic announced that he had isolated the germ which causes infantile paralysis.

In itself, that may not mean much. Its significance lies in the fact that it paves the way for the development of a serum to cure or prevent this dreaded malady. It is the first step—and a long, promising one—toward conquest of one of the scourges of the human race.

It is sometimes hard to tell what the really "big news" of the day is. Our attention is engrossed with wars and rumors of wars, with strikes and statistics of recovery, and with similar momentous matters. But from the viewpoint of history, the biggest news of 1937 may well be the work of this unassuming western scientist.

"Right here—see, on Chieftain. Look, I waved his tail!"

"Yes, I know, but where are you living?"

Carol didn't answer for a moment, and her smile was gone now. She looked far down the trail, and patted her horse, before she spoke.

"I had orders not to tell. But I can't see that it matters, myself. I don't like trying to 'hide'."

"Orders, Miss Collier?"

"—well, yes. From Father. Mr. Blake, you have never lived around our kind of people, have you?"

She turned Chieftain to the left and the other girl followed. The going wasn't easy but the horses were used to mountain slopes. They had left the trail entirely. The riders didn't speak for a time, so engrossed were they in the scenery. One turn revealed a gap through laurel and scrub oak. The riders didn't speak for a time, so engrossed were they in the scenery. One turn revealed a gap through laurel and scrub oak. The riders didn't speak for a time, so engrossed were they in the scenery.

"That there, old thing. I'm not blind. Or as dumb as some of the family. How do you do, Miss Collier? Father mentioned you. And Stuart pointed out a week or more. He didn't, however, mention before that you had saved his life. Have I misread something? I ordinarily don't."

"Carol blushed.

"No! No, Miss Blake. There was a little—trouble; a misunderstanding in a store. Nothing—"

"I'm hum, I get it. You're both secretive about it! But I warn you, young lady, I always learn the details of Slew's low affairs in the end—always. Go ahead and pretend I'm going home, anyway." She laughed in a friendly manner and turned her horse back.

Stuart was suddenly serious.

"No, Nina! He commanded. 'Stop! We are going riding!'"

"I had been riding for an hour, old buckskin. My legs are jittery with stiffness. I shall be able to walk for a week. If you want the cold truth, I was looking for a chance to be rid of you so I could return to my hometown, Miss Collier, you're the victim. Tooodle-oo!"

What was she before anybody could protest against. Stuart laughed aloud and Carole smiled. They rode on together.

"You mustn't pay any attention to Nina," he begged, "she's really a great kid."

"I have brothers," Carole answered.

"But say!" he jabbed the words at her. "It's great to find you here, no fooling! I've been looking and looking. You don't mind?"

"No, of course I don't. I wanted a chance to thank you for the candy, anyway. Should you should not have sent it?"

"You're swell! But say, you haven't told me where to find you!"

HISTORY of Twin Falls City & County

As Gleaned from Files of The Times

16 YEARS AGO
JULY 13, 1921
State Treasurer D. F. Banks spoke before the Legion luncheon at the Elks club. He discussed the state throughout the state this country looked better to him than any other he had passed through. That crops were better and the soil brighter. He also stated that he always liked the Twin Falls valley, "its progressiveness and enthusiasm."

Carl DeLong spoke on the convention plans that are maturing at Nampa and also on other convention matters.

Mrs. M. G. Batley played a march which was written by an ex-serviceman and which several poets throughout the country have listed as original. Miss Teresa Pfaffst, accompanied by E. A. Ahern, gave two violin selections.

27 YEARS AGO
JULY 13, 1914
While fishing on the river near Murtaugh on the Fourth of July, James and Wilder Gow, of Murtaugh, discovered some of the largest animal supports to have been in existence during the mastodon period. The bones were found in a next day for other bones but with little success so far. One bone, which was about 10 feet long and 2 inches thick. The tusk and horn are the possession of the discoverers.

LAW ENFORCEMENT

by the Chief of Police

This department does not find it wise to use the old fashioned slogan, "No more specks." Better results can be had by trying to deserve the confidence of the public and thereby gaining their cooperation. The principle of prohibition was morally right. There is not one small argument in favor of intoxicating liquor, but the policy of enforcement and the old fashioned slogan followed. We are now in mind since the public attitude has changed to the great advantage of law enforcement.

The Family Doctor

By DR. MORRIS FISHER

Editor, Journal of the American Medical Association, and of Hygiene, the Health Magazine

When you eat lamb kidneys you get portions of beef or lamb kidneys which may give you some idea of their construction. Lamb kidneys may be broiled for breakfast, cut in half.

If you will study these halves, you will have a much more definite idea of the way in which your kidneys are formed.

Each human kidney is about 4 1/2 inches in length, 2 1/2 inches wide and about 1 1/2 inches thick. Human kidneys weigh on the average about one-third of a pound. The kidney bean is of the same shape as the human kidney.

The tube is made up of three main portions of collecting tubes and small filters which empty into a central area, this in turn, passing into a tube known as the ureter, down which the urine flows to the bladder. These ureters are 10 to 12 inches long.

Each of the kidneys contains anywhere from a million to four million tiny chambers, each of which is associated with two inches of tubing—all of which is so tiny as to be distinguishable to the unaided eye.

The complete length of tubing makes about 140 miles. Yes this is all contained in the space of about 2 1/2 cubic inches.

It has been estimated that for the filtration of 1 1/2 quarts of fluid by the kidneys, more than 90 quarts of fluid pass through them. The kidneys get rid of 40 to 60 percent of all the water that passes out of the body. This water contains of course, waste materials which are the result of the using up of protein by the body.

In the kidneys much of the action takes place that keeps the body in a normal chemical reaction. The human body is never solid in health because of the use of water. It is necessary to maintain an alkaline reaction in order for the body to function.

The kidneys also eliminate proper amounts of salt and water from time to time so as to keep the body in a proper equilibrium in relationship to fluid.

If the fluid is not satisfactorily eliminated, the tissue becomes watery, and the development of dropsy and swelling of the legs due to the fluid that they contain.

If, on the other hand, too much water is eliminated, the body dries up and the condition of dehydration is incompatible with life.

BEHIND THE SCENES

in Washington
By RODNEY DUTCHER

Evening Times Washington Correspondent

WASHINGTON, June 13.—The war between the young New Dealers and the old is not confined to the onslaught against the conservative superintendents on the supreme court.

Week by week the tension has grown between the Boss Young New Dealer in the White House—meaning Mr. Roosevelt, who is only 55 and feels much younger—and the elderly gentlemen who make up the so-called Democratic leadership in congress—men of whom also feel younger than they are.

Roosevelt said, in effect, that the elderly conservative leadership was too old for their job. They had been on the job too long and that they were out of touch with the needs and desires of the people. More or less secretly, that's the way he is known to feel about most of the party leadership in congress. He is cautious about bringing the point up publicly, partly because there is plenty of fight in the ranks of the conservatives, but also because the course of wisdom—of the party because the Capitol Hill leadership hasn't given him as much trouble as congress—most of whom also feel younger than they are.

BATHER GO HOME

The leadership—usually called the southern leadership—has worried and sore. The leaders are in the session counseled Roosevelt to cut the spending program drastically. Roosevelt has not paid enough heed to this conservative advice. Most of them have been apathetic or antagonistic ever since. They are now trying to bring about the Roosevelt program and go home.

"What worries them is the inactivity of the young leadership in the house and senate which will well up the old leadership and take control of congress if Roosevelt is not re-elected," said Maura Maverick of Texas, Jerry Voorhis of California, and other first-class southern members of a nucleus of the insurgent New Dealers in the house, and Senators Barkley, Black, Pepper, Minton, La Follette, McNamara and Clegg. They are in revolt against the senate's Democratic Old Guard. The 49 senators who beat the re-election of Roosevelt in the other day included 30 first term members.

The leadership is predominantly southern and conservative because the one-party south is given to rejecting its entrenched favorites. The many southerners flying a 100 per cent Roosevelt banner may rise up to rob them of what otherwise might be lifetime jobs.

LONG YEARS OF SERVICE

It was the 50th anniversary of the principal congressional leaders, with their ages and the years in which they began to serve in congress. Many of these men had reached the age of 70, and some had reached the age of 80. The list of names in the Congressional Directory, First, consider the senate:

Vice President John N. Garner, 67, Texas; MORRIS CANNON, 77, Michigan; Hiram Bingham, 77, Utah; Robinson, 64, Arkansas, 1913; Chairman Pat Harrison of the Finance Committee, 70, Mississippi; Chairman Elison D. Smith of the Agriculture Committee, 73, South Carolina, 1910; Chairman Carter Glass, 70, Virginia, 1912; Chairman Roy Copeland of the Commerce Committee, 70, West Virginia, 1911; Chairman Key Pittman of the Foreign Relations Committee, 64, Nevada, 1913; Chairman Henry F. Ashurst, 64, Arizona, 1913; Chairman Charles McNamara of the Education Committee, 62, Arizona, 1912; Chairman Morris Sheppard of the Military Affairs Committee, 64, Texas, 1917; Chairman Charles McNamara of the Interstate Commerce Committee, 65, Montana, 1923.

In the house, Speaker William B. Hays of Alabama is 68 and came here in 1917. Majority Leader Charles McNamara of Texas is 68 and reached the house in 1919. The chief committee chairman are: Agriculture, Marvin Jones, age unavailable, Texas, 1917; Appropriations, Frank B. Rowland, 70, Colorado, 1910; Banking and Currency, H. B. Steagall, 64, Alabama, 1918; Foreign Affairs, Sam Houston, 70, Texas, 1917; Interstate Commerce, Clarence Lee, 63, California, 1917; Judiciary, Hiram Bingham, 77, Utah, 1913; War and Navy, Robert Doughton, 74, North Carolina, 1911.

Not all these men are still on the Roosevelt program. But most of them are. And most of the younger, newer men are for it.

Yankees Increase American League Lead by Two Victories Over Washington

By GEORGE KIRKSEY
NEW YORK, July 12 (AP)—Bob Feller, farm boy strike out king of the American League, was back in the harness today, but his lack of control had his Cleveland bosses guessing as to how much he could help the Indians in this year's pennant race.

After amazing the baseball world by fanning 17 men in a game last year, Feller pulled a muscle in the sixth inning of his first start this year and, after fanning 11 men, lost, 4-3, to the Browns.

Bases on Balls Hurt
Bases on balls hurt in every Detroit run. While walked in the fourth, went to second on an infield out and scored on Greenberg's single.

The victory moved the Tigers back into second place above the Chicago White Sox who divided a doubleheader with the St. Louis Browns.

The New York Yankees increased their league lead to six games, leading over the Washington Senators 4-3 after batting to a 5-5 deadlock, called at the end of the ninth because of darkness.

SUNDAY GAMES

Table listing Sunday games for National League (Chicago 2, Pittsburgh 3) and American League (New York 4, Washington 3-3).

Saturday's Results

Table listing results of Saturday games for National League (New York 4, Brooklyn 0) and American League (Boston 5, Philadelphia 2-2).

The National League lead of the Chicago Cubs was trimmed to a half game by the New York Giants when they were defeated, 2-2, by the Pittsburgh Pirates as Bill Swift turned the Braves back with a shutout. The Giants took both ends of the twin mattress bill from Brooklyn, 10-0 and 5-1.

A feature of the senior circuit was the double triumph of Cincinnati over St. Louis, but the Reds applied the double-breasted punch yesterday, 6-0, behind the nine hit pitching of Peebles Davis, and 7-0 behind four hit pitching of Al Huggins.

Great Body of Water Is Called "Germ-Proof" Swimming Hole by Doctors

LA JOLLA, Cal. (UP)—Scientists laid today the Great Salt Lake in Utah is virtually a "germ-proof" swimming hole

It was found that the lake water was not only highly bactericidal or "killing," but was also bacteriostatic or "retarding"

Some types of microbes are living in the lake, said the scientists, but they differ from those of other habitats

CHICAGO, July 12 (U.P.)—Wheat futures advanced on the board of trade today after over-riding early profit-taking. Eastern long started prices on the upgrade and reports detailing further damage to the crop from blight but increased bullish sentiment.

WHEAT ADVANCES ON TRADE BOARD

At the close wheat was 1/4 to 1/2 cent lower, old corn 1/4 cent lower, and oats 1/4 to 1 cent lower.

Hedging and selling brought out by rain in the north and Canada, was partially checked by firmness at Winnipeg.

Fears for an exceptionally heavy movement winter wheat exerted a certain influence.

Corn dipped and recovered with wheat but failed to hold advances. Sellers over the corn belt and the forecast for further rains inspired selling of December. Spreaders expect average yields of this contract for September.

STEEL LEADS IN STOCKS' ADVANCE

NEW YORK, July 12 (U.P.)—Steel shares responded today to a 22 1/2 percent jump in operations for the industry and led the stock market higher on light trading.

U. S. Steel, which is expected to show earnings for the second quarter of 1937 ranging between \$3 and \$3.50 a share, gained more than 4 points. American Iron and Steel Institute placed the operating rate for the industry at 82.1 percent of capacity, a gain of 15.4 points or 22.9 per cent as compared with the previous week, which fell back because of the holiday.

High gasoline consumption was reflected in higher prices for steel stocks, estimates that farm income would rise a billion dollars this year continued beneficial to farm implementation shares and mail order shares.

Car loadings reported by roads for the week ended Saturday showed a less than seasonal decline. Buying interest was good in rail stocks, ranging from more than a point were recorded in active issues and to more than 2-1/2 in some issues.

THIS CURIOUS WORLD By William Ferguson

The SPOONBILL
GETS ITS FOOD BY WADING, AND SWINGING ITS HUGE SPOON-SHAPED BILL FROM SIDE TO SIDE, THROUGH THE MUD AND WATER, AS IT ADVANCES.

THE WORLD'S MONKEY COMES FROM MONKIN, THE DIMINUTIVE OF MOVA, AN ANIMAL OF THIS GROUP FROM WEST AFRICA

BEFORE THE DAYS OF TELEGRAPHS AND CHRONOMETERS, ASTRONOMERS GOT THEIR GREENWICH TIME FROM THE MOON.

THE SPOONBILL IS CLOSELY RELATED TO THE IBIS, AND DIFFERS FROM THEM ONLY IN ITS PECULIAR BEAK. THIS BILL IS A SPECIAL ADAPTATION, DESIGNED FOR THE CAPTURE OF FROG, WHICH CONSISTS OF FROGS, AQUATIC INSECTS, MOLLUSKS, SHELLFISH, AND FISHES.

335 DEAD IN MIDDLE WEST AND EASTERN HEAT WAVE

17 DIE IN NEW YORK IN SINGLE DAY; 10 DROWN

Wheeling, W. Va., Cloudburst Does \$500,000 Damage; Temperature Over 90

(By United Press)

Scattered showers brought slight relief today for the "oven area" of America where more than 300 persons have died since July 7 of heat prostration, drowning, lightning and heart disease caused by excessive temperatures.

Temperatures above 90 were forecast for most of the region between the Rockies and the Atlantic. Forecasters said a mass of cool air was moving slowly from the west, but that it would be long in coming.

The death toll shot up over the week-end in metropolitan New York. The toll was heaviest, mounting to 17 in 24 hours. In Ohio, ten persons drowned, eight died of heat and two were killed by lightning. Five youths drowned at an outing at Santa Fe lake, near Augusta, Kan.

\$500,000 Damage

A cloudburst caused \$500,000 damage at Wheeling, W. Va., Saturday, washing houses from their foundations and overturning automobiles. While the eastern part of the Ohio watershed, thunderstorms and rain kept them from coming down over the Rocky mountain area.

Heavy rain was reported from Rock Springs and Cheyenne, Wyo., with cooling rains and cloudiness expected over Utah.

Thunderstorms were encountered as far west as the Sierra Nevada mountains on the Nevada-California border, but in general Nevada temperatures were several degrees higher than those of the Rocky mountain area.

Utah Cloudbursts

In mountainous sections of Utah cloudbursts blew down trees and buried automobiles in salt. U. S. highways 89 and 90 were blocked. Spanish Fork canyon late yesterday by salt that marooned 200 automobiles. State highway crews were working today to clear the route.

Denver and Rio Grande Railroad Tracks

near the blocked highways were covered by mud slides earlier in the day.

UNION THREATENS GUILD MEMBERS

Teamsters Tell Strikers They Will "Kick Teeth Down Their Throats"

SEATTLE, July 18 (U.P.)—Members of the newspaper Guild of the teamsters union were made today as members of the Seattle Star unit of the American Newspaper Guild prepared to resume picketing of the newspaper plant.

H. Richard Sells, president of the local Guild unit, said teamsters violated their strike agreement and threatened to "kick their teeth down their throats." Sells did not say why the Seattle Star was not in the strike.

A jurisdictional dispute between teamsters and the Guild over the right to organize circulation employees of the Star precipitated the strike.

The picket line will remain 100 feet from the newspaper building, Sells said action of the pickets will depend upon developments.

The newspaper operated with a skeleton staff in the editorial and business departments Friday and Saturday. E. W. Scripps, chairman of the Scripps Corp. of newspapers, said no new men have been hired and reiterated his offer to rehire Guildmen without prejudice.

Mennonites Open Revival in Filer

FILER, July 18 (Special)—Revival services in tent meetings at Filer of the Mennonites was opened Sunday by Rev. M. J. Carmichael who used as his theme, "The Living God."

A delegation from Twin Falls attended the meetings last evening and Rev. Mackey J. Brown and Rev. O. E. Griseor led in prayer.

Services will continue every evening at 8 p. m. except Sunday and two services on Sunday, according to an announcement by the local pastor Rev. Sidney Olson, who invites the public to attend.

ROME 8-PAGE LIMIT

ROME, July 12 (U.P.)—Newspapers were limited to six pages, effective July 15, by a government decree issued today. Cited as the reason was "world shortage and high prices of news print."

President Arthur Cleveland, and Wilson were the sons of preachers.

Scout Jamboree Wasn't All Play

A heap big Indian Scout emulates the artistic qualities of the aboriginal American race (left) as he prepares to take down his troop tents at the National Jamboree at Washington ended Friday. On the right, this isn't mamma's little angel sprouting wings. It's a Boy Scout from Nassau, Bahamas, getting ready for the long trip home. The Snake River area contingent is expected to arrive in Twin Falls Tuesday by Union Pacific train.

DEATH REMOVES CASSIA PIONEER

Mrs. Matilda Danner Dies At California Home; Rites in Albion

ALBION, July 12 (Special)—Services for Mrs. Matilda Danner, 88, pioneer of this district, will be held here tomorrow at the Masonic hall and burial will be in the Masonic cemetery under the direction of the Payne mortuary.

She died Wednesday at her home in San Gabriel, Calif., after being a semi-invalid for several years following a paralytic stroke. She was the wife of Fred Danner, Cassia county sheriff over 40 years ago. For the past 10 years her home had been in California.

Survivors include her husband and the following sons and daughters, Mrs. Harriet Chapman and Mrs. Olive Matson, Santa Monica; John Marshall, Frank Lee and Dave Danner, Los Angeles; Sam Danner, Blackfoot; and Heber Danner, Albion; three sisters, Mrs. Abby O'Leary, Malta; Mrs. Rosella Perry, Ontario; and Mrs. Berilla Martindale, San Francisco, and one brother, David Lewis, Blackfoot.

DOINGS AT IDAHO Rocky Mountain CLUB

By WILMA KELL

IDAHO ROCKY MOUNTAIN CLUB, Stanley, July 12 (Special)—Winston Paul, New York executive, and owner of the club, accompanied by Mrs. Paul, and his mother, Mrs. Nellie Paul, arrived from New York City to spend the summer. En route here they stopped for a couple of days at Sun Valley lodge. They are very happy to be back at their summer playground, and wasted no time in getting into the saddle to ride around over familiar trails.

Wills Haviland, San Francisco, western division sales manager of Fleischmann Distilling Corp., and Ted W. Turner, of Boise, representative of the corporation in Idaho, stopped overnight. They are en route from Boise to Salt Lake City, via the scenic route of Lowman Stanley and Galena. Mr. Haviland had the interesting experience of having his fortune told and lifted at the same time. Cyparis performed the two operations simultaneously, relieving Carmela of \$240.

JAMBOREE TROOP ARRIVES TUESDAY

Local Unit Returning at Conclusion of National Scout Gathering

Boy Scouts and Scouters of the Snake river area council, members of the Jamboree Troop, were en route home this afternoon following conclusion of the Jamboree, described as "successful from all angles."

The Jamboree was officially ended Friday of last week, the boys en route for home Saturday. Traveling a different way than they did in going to Washington, the group is expected to reach Twin Falls tomorrow by train.

They left Twin Falls June 20 at the conclusion of the statewide Jamboree which was held here June 18, 19 and 20. The group numbers 38 with E. M. Dosssett as scoutmaster.

4,000 VISIT AT FOREST GROUNDS

It was a busy week-end for the Minidoka national forest over the July 4th double holiday.

More than 4,000 persons visited the forest, according to Elmer C. Ross, chief ranger. He said that a traffic check at the Shoshone ranger station showed 418 cars entered the forest at that point, with an estimated average of five persons per auto, or a total of 2,090. In addition, more than 2,000 entered the Cassia West division.

Camping and picnicking, especially at the Petite and Pentstemon areas on the Fourth rock of Rock creek, occupied the crowds, Ross said.

During January and February of 1937, there was a total of 2,759,000 gallons of gasoline consumed. This was an increase of 102 per cent over the same months in 1936.

STRIKE TACTICS HIT BY CHAMBER

WASHINGTON, July 12 (U.P.)—The United States Chamber of Commerce asserts that public opinion has "turned sharply against violent and coercive strike tactics."

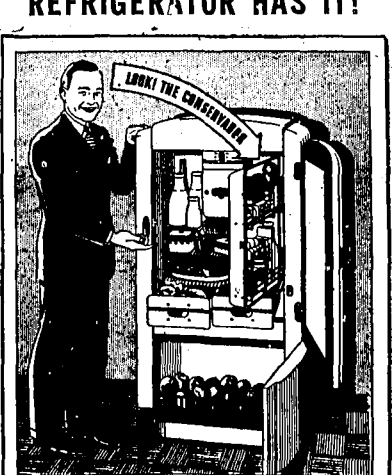

In a review of business, the chamber contended that changing public sentiment has been "reflected in firmer steps" by some states and local officials to enforce the law.

"Unlawful tactics of irresponsible labor extremists, contract breaking, jurisdictional disputes between unions, and intimidation of non-strikers in the exercise of their right to work have obviously exhausted public patience," the report stated.

The chamber described the Wagner labor relations law as "propaganda" and contended it "must eventually be amended to give proper protection to non-union workers and employers and to make unions more responsible for their acts."

LOOK BEHIND THE NAMEPLATE

Only One REFRIGERATOR HAS IT!

Of all the busy human beings that you ever have seen in your life, Claude Pratt is all of them. Three and tubes go out—click! click! click! Pratt is actually selling a 250 10-p. heavy duty Badger truck tire for \$20.94. How in the world does he do it? Well sir, Pratt is after volume and he's getting volume. Every day brings just a little more rushing business. People are heard to say this is the busiest place in the State of Idaho. Right while I am talking this ad off, sweat is running off my brow. It makes me sweat from head to foot just to see my clerks jerking adding machine levers. We have three adding machines now. One is an electric machine, and they are all kept busy. We sell strictly for cash. Now, since Pratt's improved Arkansas Motor Oil line arrived, his oil trade has actually jumped out of its skin. We want to have a bushel of fun next Wednesday and you know Claude Pratt don't spare the dollars when he wants to see 50 gallon barrel of his people. Excitement is about half of Claude's living. Year this ad out and bring it with you Wednesday and get a five quart off on this wonderful improved Arkansas Motor Oil for only 68c. Remember this is for Wednesday only. The regular price is going to be 82c. I just want to introduce you folks to this wonderfully improved Arkansas Motor Oil. It comes from the same crude that our other oil came from and over \$1,000,000 has been spent to build a plant to make this oil what it is today. This is the oil that is so clear that Claude Pratt can stand in 50 gallon barrel of it and actually look-down and see his loonies. People are absolutely going wild over it. Right while I am talking this ad off, my clerks are filling can after can myself while my clerks are all busy.

Ad taker's note: Mr. Pratt is just kidding you. I just want to think he wanted to add some fun but he is too busy to bother.

HERE'S WHY YOU CAN'T BUY A STALE OLD GOLD

OLD GOLD offers you a NEW quality in cigarettes: prime freshness in any climate under all weather conditions.

Even when "dog-day" humidity is at its worst you can't buy a soggy Old Gold. Not an Old Gold staled by parching, blazing heat.

As soon as they are made, Double-Mellow Old Golds are sealed fresh in a package wrapped with an extra jacket of Cellophane. A scientific pack, absolutely weather-tight. The only pack of its kind in the world.

Two jackets of Cellophane seal the Old Gold pack both top and bottom. Seal it against dampness, dryness and dust. These Old Golds are sealed fresh and sold fresh.

Sold fresh! That's what brings a NEW quality to Old Golds. For a stale cigarette is only half a cigarette—and who wants to pay full price for only half a smoke?

Double-Mellow! Prize Crop Tobacco! Freshness! Smoke FRESH Old Golds and get a FRESH experience!
