Reno police officers who arrested the pair as they left the home of a minister who performed the ceremony said the marriage was financed by funds allegedly stolen from a Truckee garage yesterday and that the bride trip was made in a stolen car.

Bombings Greet King, Queen in Ireland

Explosion Blasts Building Quarter Mile From Couple

Customs Houses, Railway Bridges Are Burned During Coronation Visit

BELFAST, July 28 (UP)—An explosion in the streets of Belfast and the bombing and burning of customs houses and railway bridges along the Irish Free State border greeted King George VI and Queen Elizabeth today upon their arrival on a coronation visit to northern Ireland.

Their majesties arrived in Belfast at 11:15 a. m. (3:15 p. m. MST), escorted by three cruisers and six destroyers, and motored from Donegal quay to the city hall where a municipal welcoming ceremony awaited them.

The royal procession had reached the city hall and the customary loyal address of welcome was being read when a terrific explosion occurred a quarter of a mile away. Glass within a 200-yard radius was shattered. The explosion occurred in a bonded warehouse, apparently from gas. The sidewalk in front of the warehouse was torn up. No one was injured.

Police speed to scene — Police sped to the scene and cordoned off the warehouse pending an inspection.

Police armored cars patrolled the streets and many homes were searched for arms after the appearance of announcements that the Irish Republican army planned to hold a meeting to protest the visit of the king and queen.

Four thousand special police were mobilized, and many were stationed on rooftops to prevent the Irish Republican army from attacking the king and queen.

Police cordoned the countryside in an attempt to round up armed groups which had wrecked customs houses on both sides of the border.

The Mount Pleasant railway bridge near Dundalk was mined and partly wrecked, delaying thousands of visitors from the Free State en route to Belfast to see the royal visitors.

The railway bridge at Fairgairn on the Dublin-Belfast main line also was mined, but passenger and mail trains were allowed to proceed after a three-hour delay.

Officials believed the demonstrations had been planned carefully by Free State extremists. Republicans in an attempt to prevent Free State officials from receiving the king and queen.

Both Free State and Northern Ireland customs posts were destroyed at Tullymore near Crossmaglen, at Kiltoran on the south Antrim border, at Paughart bridge on the Monaghan border and at Middletown near Keady.

The customs house at Carricknash, seven miles from Newry, was blown up. A large detachment of police rushed to Newry under orders to remain throughout the day.

PRESIDENT CALLS LEADER MEETING

Barkley, Bankhead, Rayburn To Attend White House Conference Today

WASHINGTON, July 28 (UP)—President Roosevelt today summoned his congressional leaders to a 5 p. m. (7 p. m. MST) White House conference to discuss what legislation the administration would seek before adjournment.

The conference, announced by the White House included: Senate Majority Leader Alben W. Barkley, D., Ky.; House Speaker Charles McNary, D., Ind.; and House Majority Leader Sam Rayburn, D., Tex.

Observers believed that part of the session would come the administration's decision on what pieces of legislation are to be advanced before the final adjournment rush. One important decision to be made, it was believed, concerns the final tax legislation. The firm has apparently in mind for the session but pressure for action now—or at special October congressional session—has continued.

American Marine Injured by Stray Bullet in Fight

250 U. S. Citizens Crowd Into Embassy; Swords Battle Guns

PEIPING, July 28 (UP)—War between Japan and China raged ferociously in the Peiping area tonight while foreigners gathered in legation quarters for protection behind sandbags and the guns of their national troops.

An American marine, Julius Flizsar, of Easton, Pa., was shot by mistake by the Chinese as he herded American refugees into the United States embassy compound where 200 Americans are being protected.

Similar foreign defense precautions were taken in Tientsin as Japanese troops from the homeland streamed in through Taku the river port. The precautions recalled vividly the defense of foreigners during the Boxer rebellion of 1900.

Major betting was in progress in a wide area south of the ancient Chinese capital. The Chinese dragon, its patience exhausted, lashed back at last against the invaders from the north and held a showdown fight for possession of north China appeared in prospect.

China's pride and fighting spirit was aroused and the Chinese jubilantly announced important victories outside Peiping. The Japanese, on the other hand, insisted that their modernized war machine was prevailing against the Chinese defenders, some of them fighting with the ancient two-handed swords used in 1937 Chinese gun and artillery.

All reports indicated great slaughter. The Japanese announced that they had captured the ancient city of Tientsin, which is just outside the Peiping walls. Several hundred Japanese and a dozen points outside the city's ancient walls.

Japan opened a general attack at dawn and fighting persisted throughout the day.

War flames leave 30 Chinese war planes had left Peiping for Peking. This development meant that the Chinese government was getting into a fight that had been localized between the Japanese and the 20th army stationed in the Peiping area.

According to American consular sources, the Chinese fired on a party of Japanese who were escorting American citizens toward the legation quarter. Gen. Sung Chuan-Yun, Chinese commander, and the Chinese troops (Continued on Page 2, Column 3)

Roosevelt Eyes Far East Crisis

President Listens to Reports Of Japan-China Conflict From State Department

WASHINGTON, July 28 (UP)—President Roosevelt is "keeping close watch" on the Chinese-Japanese situation with special interest on safety of Americans marooned in Peiping, the White House said today.

Second in the President's interest, it was learned, was the possibility of developments in the fight between the Chinese and Japanese involving the U. S. neutrality act.

Mr. Roosevelt received telephone reports on the Chinese-Japanese fight from the State department last night and today.

There was a possibility, aides said, that the President would cancel plans for his usual week-end cruise aboard the presidential yacht, to maintain his watch on developments in the far east.

President Roosevelt was known to consider that safety of some 1,300 Americans in Peiping was the United States government's first immediate interest in the situation. That being regarded as a federal responsibility.

War Department Okehs \$5,000 For Snake River

WASHINGTON, July 28 (UP)—The war department today approved \$5,000 for maintenance work on rivers and harbors throughout the country during the 1938 fiscal year.

The allocations were allocated from the non-military section of the war department appropriation for the 1938 fiscal year.

The allocations included: Snake River, Ore., Wash., and other rivers, \$4,000.

CHINESE CITIES CELEBRATE REPULSING OF JAPAN ATTACKS

29TH ARMY DOES FIGHTING AGAINST NIPPONS' TROOPS

Leaders Issue Ultimatum to Invaders With 'Blast Out' Threat

By JOHN H. MORRIS

SHANGHAI, July 26 (AP)—China's great cities went wild with rejoicing today on receipt of reports that Chinese troops were hitting back Japanese attackers in the Peiping area.

The shame and hopeless rage that China has endured for years under the persistent pressure of ambitious Japan were succeeded by jubilation today when reports came from the streets of such cities as Shanghai and Nanking, exploding fireworks and shouting praises of the 29th Chinese army.

The 29th is doing the fighting at Peiping against the trained masses of the Japanese.

Sends Ultimatum

It looked as if the 29th would take its place along with the historic 19th route army which to the astonishment of the world gave courageous resistance to the Japanese at Shanghai in 1927.

The China Evening News here has sensational headlines that the 29th had sent its own ultimatum to the ultimatum-sending Japanese and had ordered them to evacuate North China within 48 hours or the 29th would "blast them out."

A military spokesman at Nanking asserted that Chinese troops captured 300 crates Japanese war planes at Peiping, and that Chinese forces captured the town of Yangtzu, 15 miles north of Tientsin, where Japanese troops had been garrisoned.

"The 29th is doing the fighting at Peiping against the trained masses of the Japanese."

WATER DEMANDS INCREASE HERE

Two of Three Reservoirs in Territory Show Decrease in Storage Readings

Indications of heavy use of water for irrigation purposes in this section was found this afternoon after a comparison of the storage reports of the three main reservoirs serving this territory.

The reports, compiled daily by Lynn Crandall, watermaster for the Snake river watershed, show stored water in American Falls reservoir and Jackson lake has declined steadily during the past week. Storage in Lake Walcott is remaining almost steady.

Yesterday afternoon American Falls reservoir was storing 1,119,710 acre feet of water against 1,244,240 a week ago. Jackson lake storage a week ago was 742,890 acre feet against 683,180 yesterday. Remaining almost constant, Lake Walcott showed 95,180 acre feet a week ago against 95,070 yesterday.

For the most part crops are reported in excellent condition.

WRECK VICTIM IS PAID LAST HONOR

Final tribute was paid to Frank Forest, Twin Falls resident killed early Sunday in an automobile crash north of Shoshone, at impressive rites held this morning at the Wendell Catholic church.

Rev. Michael Aroz, Wendell, officiated at the services which were attended by a number of members of the Knights of Columbus order in charge of arrangements for the service. Ernest Forest, Seattle, brother of the wreck victim, arrived here yesterday for the services.

Loss of all farm buildings except the dwelling on the farm owned by Dr. Charles E. Scott and rented by Mrs. G. Black was caused by a fire yesterday. Cause of the blaze was unknown.

Damage was covered by insurance, but its amount had not been determined today.

Vandalism at Paul Methodist Building Thought Work of Children

PAUL, July 28 (Special)—Some unknown party broke into the Paul Methodist church on Monday by breaking the glass window and reaching in and turning the night lock.

All electric light bulbs were broken, chairs were turned upside down, hymn books were destroyed. A door was also torn from the bookcase and all lessons and papers were destroyed. The piano key board had been painted black and the rest of the paint spilled on the floor. Class division cardinals has also been torn down.

The vandals had thought to be the work of children, church officials said.

NEW JUDICIARY BILL HEADS FOR DEBATE IN SENATE

PROMPT PASSAGE FOR MEASURE IS SEEN BY SOLONS

Act Gets Favorable Report From Committee; Contains Special Memorial

WASHINGTON, July 28 (UP)—The senate judiciary committee's three-point lower court reform bill today was headed toward debate on the senate floor, probably later this week, with probability of prompt passage.

The bill, drafted by opponents of President Roosevelt's shied supreme court reorganization proposal and containing no reference to enlargement of the high tribunal, was reported favorably yesterday. It was expected to be called up for senate consideration as soon as action is completed on the stage hour bill.

The new bill, accompanied by a special memorial signed Attorney General Homer S. Cummings to report next session as to the need for additional changes in federal district courts, provided:

1. Intervention by the government in cases involving constitutionality of federal laws.
2. Appeal in constitutionally cases directly from district courts to the supreme court.
3. Three-judge courts to hear applications for injunctions against enforcement of federal statutes. One of the judges would be a member of a circuit court of appeals.

DRIVERS BLAMED FOR DEATH TOLL

Seven Killed, 17 Injured on Idaho Roads During First Half of July

Careless drivers were responsible for the major portion of the Idaho highway accidents during the first half of July, the Evening Times was informed today by J. L. Balderston, commissioner of the department of law enforcement with headquarters at Boise.

In the 30 accidents reported during that period, the commissioner points out, seven persons were killed and 17 injured, an average of almost one person killed every two days and more than one person injured each day.

Eighteen of the accidents occurred when the cars were going straight through along the highways at excessive speed on clear days with dry roads. Ten of the accidents happened on curves. The remainder of the accidents were caused by drivers turning left, driving off the road, driving on the wrong side of the road, not having the right-of-way, slowing down, parking, falling to stop before crossing or driving upon an arterial highway. The major portion of the mishaps happened in the daytime, Balderston said.

Among arrests made by state traffic officers in June were 18 for improper licenses, 15 for drunken driving, 10 for speeding and 10 for reckless driving. Fines varied from \$25 to \$100 in each case. Establishment of the traffic lanes over the entire state for the purpose of checking on lights and brakes, as well as drivers' licenses, will begin Aug. 1, Commissioner Balderston announced.

Picnic Arranged by Veterans' Auxiliary

BURLEY, July 28. (Special)—The auxiliary of the Veterans of Foreign Wars gave a picnic Friday evening in the East park in honor of the boys and girls who sold poppies on Poppy day last May. Mrs. Ernest Pyle was chairman for the affair. Henry Brubaker, who has just returned from France, told the group of French remembrances and of the memorials erected there for American soldier dead. Games were played and a plumb supper served.

Four Sideline Thrills at Hollywood Polo Match

Kentucky's claim to fast horses and beautiful women is slightly dented by this evidence from the Will Rogers Memorial field at Hollywood, where these four film actresses had seats at the rail for a polo game. From left, at left, is trying to keep her eye on the field while she listens to a remark from pretty Gloria Stuart, in the second row. Next is Anne Shirley, who, with Ginger Rogers, right, is intent on the action of the players.

Freddie Bartholomew's Guardian Asks \$2,500 Weekly for Boy Star

HOLLYWOOD, July 28 (UP)—Freddie Bartholomew's movie studio has offered to raise his salary \$2,000 a week but the 13-year-old star's aunt and guardian retorted that he could not meet his obligations and save anything for his future with less than a \$2,500 wage.

The aunt, Miss Millicent Bartholomew, said she would return the boy to school in England and end his movie career unless the demand was met, "because everybody is after his money." She has taken him away on his first vacation in 10 months and her last words were, "that the vacation would be permanent, so far as Hollywood was concerned, unless Metro-Goldwyn-Mayer studio raised its offer \$500.

Little to Show Freddie has been earning \$1,100 weekly for two years and has very little to show for his work, Miss Bartholomew said. Income taxes, lawyers' and agents' fees, the support of his parents and sisters and his own maintenance have reduced his net income to \$12,000 a year, and \$25,000, representing two years' savings, went in one sum to lawyers who handled his guardianship suit, in which the aunt became his custodian.

"The whole argument," Miss Bartholomew said, "is over \$500 a week. That seems a pitiful sum to quibble over when Freddie's drawing power as a star is considered.

Two Years Left "We are taking \$2,500 a week as the least on which we can meet expenses. The studio has offered \$2,000. We haven't heard

from them further. I can't understand it. "Remember that Freddie is 13 now. He has only 18 months or two years at the most as a juvenile star. And this is the first time in two years we have asked any increase in salary."

Salmon Places Close After Yeaman's Visit

SALMON, Ida., July 28 (UP)—Eleven restaurants and beer parlors in this vicinity have been effected by recent enforcement of the state liquor laws by Liquor Commission Chairman M. E. Yeaman. Some have closed since Yeaman's visit here it was reported.

The commission form of government originated in Galveston, Tex., in 1901, as an emergency measure following the big flood.

POISON TAKEN BY VALLEY RESIDENT

BURLEY, July 28 (Special)—Treatment is being given John Medved, 75, Hagerman, at a Burley hospital for the effects of Paris green which officers report he had taken in an unsuccessful suicide attempt. The aged man was found unconscious at the Burley fairgrounds by Irel Gudmundson and was rushed to the hospital for treatment. He was given a good chance to recover. Dependancy was given as the cause for the attempt. Medved's relatives at Hagerman were notified of the occurrence.

Baked and served with fresh butter... A GRAND FOOD!

Science has discovered that potatoes provide extra Vitamin C, readily available calcium and phosphorus, and a high content of iron and Vitamin B—all important elements to good health.

Interesting information, but not nearly so impressive as a great, big baked potato—nice and meaty—its succulent jacket bursting—steaming hot—with a couple of pairs of fresh butter, some salt and pepper... that's really something to eat. Yet, this is only one of a hundred ways of preparing and serving this marvelous food.

Nowhere are such excellent potatoes grown as in the higher altitudes, the mountain valleys, the great plains of the West, and the Pacific Coast slopes. All of these regions are served by the Union Pacific Railroad.

Efficient, rapid railroad service—specialized cars for safe shipment—brings potatoes to your table from this area every month of the year. Among the nation's railroads Union Pacific is in the front rank as a transporter of potatoes. Last year Union Pacific moved 41,422 cars of the world's staple vegetable—the nutritious, economical potato.

FEATURE SHOWS SET FOR HARMON

Marionette Play Thursday at 8:30 P. M.; Drury Group To Participate

Featuring Twin Falls' first amateur marionette show, children of the city's two main playgrounds, Harmon and Drury parks, Thursday evening will join in a full program at Harmon park which will be open to the public. Starting promptly at 8 p. m., the children from Drury park will present a program of songs and dances.

Rehearsals are underway at the present time. At 8:30 p. m., under the direction of I. C. Main, adult education leader, Harmon park's marionette crew will present "Jack and the Bean Stalk" on a specially constructed stage which is equipped with a string of Christmas tree lights for footlights.

For the past several weeks the Harmon children have been preparing the marionettes and learning the difficult task of manipulating them. All characters in the play are made by hand at the park. Children will read the lines and work the characters. Mr. Main said this afternoon rehearsal was being held.

Don Spakuy, assistant state recreation director who arranged the twopark program, this afternoon urged everyone attending tomorrow night's performance to bring blankets as a better view of the activities can be gained from a ground level seat.

PRICE OF MEAT REMAINS AT TOP

Consumer Can Live For Less On Vegetables, Survey Reveals

WASHINGTON, July 28 (UP)—Vegetarians will pay less and meat eaters more for their dinners this fall, government food experts said today.

Whether it will cost the housewife more or less this fall to fill the family market basket depends upon the proportion of meats bought. Donald Montgomery, consumers' council head, said: "Meat supplies still are scarce and prices high as a result of the 1936 drought and high feed prices. Montgomery said. A bumper crop of fruit and vegetables appears probable, however. He expected that dairy and poultry products prices will show less than the seasonal increase, partly because of large storage supplies, and that bread prices will show advance despite higher wheat prices. Bakers already have discounted the wheat price increase by an average increase of one-half cent a loaf, and bread prices, averaging 8.7 cents a pound loaf, are the highest since 1930, Montgomery said. Potato prices now are about 40 per cent below those of a year ago and may go lower if prospects of a bumper late crop materialize. Department of agriculture economists said.

Jackson Defends Mrs. Roosevelt on Tax-Avoiding Charge

TREASURY ADVICE ASKED BY FIRST LADY, SAYS HEAD

Charitable Endeavors Would Be Deterred, It Levis Assesses, Is Warning

WASHINGTON, July 28 (Special)—Assistant Attorney General Robert H. Jackson, today defended before the congressional tax-avoidance committee, the arrangement whereby Mrs. Franklin D. Roosevelt turned over to charity without paying income tax, \$50,000 in radio fees.

Jackson appeared in refutation of charges by Rep. Hamilton Fish, Jr., R., N. Y., that Mrs. Roosevelt had used tax loopholes in her charity donations.

Was General Counsel Jackson, who was general counsel of the Internal Revenue bureau in 1924 when the radio contract was executed, explained that Mrs. Roosevelt's act of transferring the radio fees, defended her method as legal, applicable in his opinion to taxpayers generally and as having no serious effect on government revenues.

"Mrs. Roosevelt received no income for herself and was no richer directly or indirectly for her labors," Jackson said.

Based on Receipts Jackson asserted that the income tax is primarily based not on what a person's services are worth, but upon the amount that a taxpayer receives.

"Mrs. Roosevelt declined to work for money," he said, "and was only willing to serve for charity's sake. It was and is my opinion that such benefit broadcasts do not result in taxable income."

Jackson warned that charitable endeavors would be deterred if persons who render services to charity pay a tax on them.

Service Honors Heyburn Woman

BURLEY, June 28 (Special)—Final services for Mrs. Levi McDevitt of Heyburn, postmistress there since 1914 who died last Wednesday morning, were held at the Heyburn L. D. S. chapel Sunday with Bishop Elmer Heinzer in charge. The funeral opened with a prelude played by Josephina Russell, followed by a solo by Mrs. Sarah Wilcox, who sang "Abide with Me." Clyde B. Crandall offered the invocation, and speakers included Anthony Heinzer, Frank Morgan, and Bishop Heinzer.

Charles Whitaker sang "O Dry Thine Tears," and J. J. Peterson gave the benediction.

Interment was in the family plot of the Heyburn cemetery with the Johnson mortuary in charge of arrangements. George W. Etherington dedicated the grave.

Service Planned For Declo Child

BURLEY, July 28 (Special)—Funeral services for John Frederick Lott, eight-year-old son of Mr. and Mrs. Grant Lott, Declo, whose body was found yesterday in the canal near Declo after a four-day search, will be held Thursday at 2 p. m. at the Declo L. D. S. church. Bishop Winfield Hurst will officiate.

Interment will be in the family plot at the cemetery here under the direction of the Johnson mortuary. The child was born at Declo and is survived by his parents, one sister, Donna Jean, and two brothers, Monty and Richard Nell.

STATE TAX FORM MAN CALLS HERE

J. J. Chandler, Unemployment Compensation Agent, Will Remain For Week

J. J. Chandler, representative of the state unemployment compensation division under social security, today had set up offices in the Park hotel to aid south central Idaho employers in the filing out of their unemployment tax blanks.

Here to advise on the proper return of reports, Mr. Chandler will remain a week and requests that all merchants having any trouble call on him.

"I am a state employe, here solely to assist in the filing of returns, and there is absolutely no charge for the aid," Mr. Chandler stated. "The work is just a part of the services offered by the state in the filing of the lengthy forms and is for employers only."

"The service department for the state unemployment division was set up the first of July and this is the first trip of a field service man into this territory," Mr. Chandler stated.

Timmen wrote "Grabbing the Bar" when he was 80 years old.

FIND OF RADIUM ORE IS REPORTED

California Mine Believed to Show Assay-Report of \$5,200 Per Ton

BAKERSFIELD, Calif., July 28 (Special)—Owners and mining engineers at the Red Rock mine near Randersburg today checked an assay sheet report showing radium ore worth \$500 per ton was discovered there. Samples today had been sent to the Mme. Curie Institute in Paris for verification of the claim.

The radium find was reported on claims owned by Mrs. Jessie Bishop. The strike may open a new source which will give the United States its first major production of the most expensive mineral in existence, it was declared. Canada now is supplying most of the world's stock, although small deposits have been located in Arizona, Colorado and Utah.

Follower of Father Divine Repents And Sends Idaho Fish License Money

BOISE, Ida., July 28 (Special)—State Game Warden William McIntyre today pondered whether he should issue a game license for Miss E. Smith, follower of colored Father Divine and one-time visitor to Idaho who sent \$10 to the warden with the following letter:

"Dear Sir: During the summers of 1927 and 1928 while vacationing in Pierce, Idaho, I fished in surrounding streams—without a license. If I remember correctly at that time the out-of-state license for fishing were \$5 per season.

Returns Money "At this late date, I desire to return the money which is justly belonging to the state of Idaho, in accordance with the life and teachings of Father Divine, God Almighty. He is daily streaming righteousness, truth and justice. By doing in on his characteristics we may be partakers of his nature, that all mankind may dwell together in harmony, having the abundance of the spirit, body and mind, and even in this earth, as we have long

prayed for Thy kingdom come and Thy will be done on earth, etc. Instead of looking to a heaven, as we were erroneously led to believe was "beyond the twin plumbline stars." I thank father for causing me to desire to pay this debt, as I know if he had not put his spirit in me and caused me to walk in his statutes I would have continued to believe as millions did—that an evasion of the law if it were not detected, was justifiable.

Blessed Mankind "Truly he had blessed mankind with his coming. Here at his 20 W. 21th street headquarters daily we see the dumb, the lame, the deaf and the blind, made whole and setting out with determination to cast out of their mind the corruption that brought about their physical infirmities, that they may go in peace and sin no more."

"Thanking father that as you harmonize with him, he will bless you to be even as he is, healthy, joyful, peaceful, lively, loving, successful, prosperous and happy in spirit, body and mind, and even in every organ, joint, muscle, sinew,

'FIRE BUG' PAYS FINE AND COSTS

FAIRFIELD, July 28 (Special)—Local fire fighters with aid from COO boys from the Hallyay camp succeeded in extinguishing a small fire at Three Mile creek on Tuesday.

The fire was allegedly started by a lighted match dropped in dry grass by a sheepherder employed by Alex Gardner. The man was fined \$10 and costs for the offense, at court proceedings held yesterday.

As a result of this fire outbreak Forest Ranger Selig again urged everyone to employ the utmost caution during this season of extreme fire hazard.

Clark Endorses Central Highway

Governor to Work For Oil On Fairfield Route

FAIRFIELD, July 28 (Special)—Gov. Barzilla W. Clark visited Fairfield recently and with his visit brought hope to the residents of an oiling program on at least ten miles of the Fairfield-Gooding highway.

The governor listened to the arguments and then declared after getting over the highway, that he would start working on the proposition. He seemed interested in the Idaho Central highway project across the valley and expressed the opinion that he believed it to be a feasible route from east to west.

GRAIN IRREGULAR IN PROFIT TAKING

CHICAGO, July 28 (AP)—Wheat futures turned on the board of trade today after a brisk early profit taking. Traders were unable to decide whether the undertone was uncertain or indicated an essentially strong condition. At 14 cents wheat was unchanged to a 1/4 cent higher, new corn 1/4 to 1/2 cent lower and oats 1/4 to 1/2 cent lower. Commission houses and local buyers freely under the spur of firmness at Liverpool and Winnipeg. Resting orders to sell September, at \$1.18 were uncovered on the board and allowed the advance. Today is the final day for trade in the July contract.

THIS CURIOUS WORLD By William Ferguson

BEES HAVE A TENDENCY TO BECOME EXCITED IN THE PRESENCE OF PERSONS WEARING BLACK CLOTHES. GIANT BEANS HAVE BEEN KNOWN TO GROW 6 FEET LONG IN NEW ZEALAND. A CATERPILLAR IN THE GUIANA FORESTS CUTS FLOWER BUDS FROM PLANTS, STRINGS THEM TOGETHER WITH SILK, AND ATTACHES THEM TO ITS OWN BODY SPINES.

Insects of the tropics have many curious ways of making themselves inconspicuous. The caterpillar holds flower buds in its front legs while covering them with silk, then twists its head around and attaches them to its body.
