## Clubs Swing at Cleveland Steel Disorders

This scene was repeated scores of times in Cleveland as 60 were injured in a series of running fights between CIO pickets and workers in Republic Steel plants. The man on the ground appears to be a plant worker, for the white armband was the insignia hastily adopted by them after attacks on workers entering the plant. One CIO picket, John O'reany, was killed when a non-union man lost control of his car under a barrage of stones. CIO headquarters was wrecked by workers making a sally from the plant.

## Pro-Nippon Man Seizes Reins in Former Capital

### Old Firearms, Swords Lose to Machine Guns, Tanks, Planes

PEIPING, July 29 (UP)—Thousands of ragged, disorganized Chinese troops abandoned their dead and more seriously wounded today on the battlefields around Peiping, former capital of China, and left for the south after a brief, hopeless stand against the Japanese war machine.

For two weeks they defied the Japanese threats, hoping that the national government would come to their aid. For one bloody day, with their nondescript firearms and their big swords, they stood against Japanese machine guns, tanks, airplanes.

Now they are broken. They left in charge of the city a pro-Japanese administration, their own leaders fleeing with them toward Pootung, 75 miles south along the Honanku railroad.

Revolt Threatened  
A high Chinese source told the United Press that defiance turned retreat when Gen. Chang Tze-Chung, mayor of Tientsin and commander of the 38th division, threatened revolt against loyal authorities and side with the Japanese.

It was reported that two divisions of militarized police or peace preservation troops, which were turned over to the Japanese, their positions outside and inside the city.

Chang remained here, assuming military and political command of the Peiping-Tientsin area as emergency chairman of the governing council.

Peiping is under a different regime today, announced a bitter Chinese news agency called, and shouting the slogans of Jeffersonian democracy, of setting up semi-military camps on Nantai island and carrying on secret and open propaganda against Naxian.

Japan tramped a big force of the 38th division as it retreated south of the city and killed nearly every man. Other units suffered heavily.

Relations between the government and church were strained over a proposed concordat with the Vatican. The Catholic church contends for concordat, already approved by the lower house of parliament, would grant exceptional privileges to Roman Catholics and undermine the Orthodox church.

The Greek in Belgrade appeared even greater than that of three years ago when the nation—a monarchy of 14,000,000 Greeks, Serbs and Slovaks—was ruled by King Alexander, assassinated in Marseille.

Church and state authorities took special precautions to prevent anti-government riots during the services.

## Boy Falls Asleep; Locked in Movie

If Mrs. Stechlin spanked her son William, age 13, for getting home quite late after attending a local theater last night she was all wrong.

Because William, who resides at 325 Monroe street, slept through the closing of that local theater and found himself securely locked in at midnight.

He promptly raised a din over his plight and attracted officer Ted Goekner who opened up the door and told the youth to go home.

## Maddened China Troopers Stage Hopeless Fight

### FOREIGN CONCESSION USED FOR AMERICANS' PROTECTION

TIENSIN, China, Friday, July 30 (UP)—Flames lighted the skies over Tientsin during a night of terror in which Americans and other foreigners huddled in the troop-guarded foreign concessions after maddened Chinese troops had started a hopeless fight against the Japanese war machine.

Eight fires, caused by bombs dropped by Japanese planes, blazed in the Chinese city. The two bridge entrances across the Hai Ho leading to the foreign concessions were held by foreign troops with bayonets and machine guns.

The concession end of the international bridge was fortified with sandbags and was held by French troops behind entanglements. A French tank was held ready for action. A French sergeant arrested two Chinese who tried to install a machine gun nest under the bridge.

During the early morning hours there was a lull in the fighting. There is no American concession and the United States missionaries and their families, and other American citizens, are in quarters guarded by other nationalities. Men of the 10th United States Infantry guarded American government buildings but American citizens complained bitterly that the army refused to aid them.

The Chinese, inflamed with hatred against the Japanese, attacked in all parts of the city except the guarded foreign concessions. They were stopped behind sandbagged barricades.

Japanese planes roared overhead, bombing the Chinese quarter, but their aim seemed gone too soon and it was feared the foreigners were in danger.

The Chinese fighters are northerners and the central government at Nanking has not sent its regulars into action. However, word came from Tokyo that War Minister Haima Sugiyama had expressed his hope that a clash might be impending.

At the same time, Chinese sources in Shanghai spoke of the danger of a break in diplomatic relations, leading to a formal state of war.

Otherwise, Tientsin was isolated in its diplomatic position unless the Chinese quit Peiping.

## BUS STRIKE TIES DETROIT TRAFFIC

### Police Commissioner Takes Charge as Men Smash Windows, Doors

DETROIT, July 29 (UP)—Police were ordered to bus terminals today as violence broke out in an unauthorized drivers' strike that crippled the city's transportation system.

Police Commissioner Heinrich A. Pickett took charge of the situation as buses, beginning their morning runs, were set upon by striking drivers. Windows were smashed and handles torn from doors.

There was no disposition to consider the Japanese-Chinese controversies settled. But the reported resignation of Gen. Sun Chieh-Yuan as commander of the 28th Chinese army and the reported collapse of Chinese resistance to Japanese forces in Peiping spelled the end of organized Chinese resistance in north China for the time being.

Spontaneous outbreaks were to be anticipated for some time to come, military observers said. These, however, are expected to be nothing more than collisions between comparatively small bodies of troops occupying Japanese "mopping up" activities.

The reported collapse of Chinese resistance at Peiping came as no surprise to either military or diplomatic officials. All official observers had agreed that the test of Chinese (Continued on Page 2, Column 4)

The "evidence" today included some 300 photographs of 11 Ducce, many of them autographed. The photograph, along with a diary which recounted love affairs with other prominent Europeans, were found in Mme. Fontages' apartment.

### NATIONALS START SANTANDER DRIVE

#### Offensive Against Madrid Bogs Down Northeast Of Brunete

By IRVING B. PFLAUM  
MADRID, July 29 (UP)—Insurgent Spanish forces began an intensive drive on Santander today as their drive against Madrid bogged down northeast of Brunete.

The offensive against the new seat of the Basque government on the Biscaya coast was prefaced by 12 hours of heavy bombardment and two air raids to cover up the concentration of Italian regulars behind the front line.

A reinforced Basque brigade withstood the long barrage, holding their line east and south of Santander. The rebel cruiser Balacera meanwhile maintained a steady bombardment of the government's coast positions while land batteries returned the fire.

Insurgent bombing planes flew over the government's lines seeking a war material factory and bombed a village near Santander, but loyalists and the factory was not damaged.

Government planes dropped bombs on the insurgent positions and strafed troops being gathered behind the lines.

Artillery duel  
On the Madrid front meanwhile the nationalists attempted to consolidate their positions beyond Brunete while both sides removed their dead. The fighting in this sector became an artillery duel with the infantry idle for the time being.

In the northern Asturian sector the loyalists retained the initiative. Strategically important Pico de Anillo after a partially successful nationalist attack. The insurgents made small advances in the Villa Haris sector near Cantano mountain.

S. signal corps here to the plane on the previous flight, but not arrived here yet.

## Crowds Riot After Services For Head of Orthodox Church

SARAJEVO, Yugoslavia, July 29 (UP)—More than 100 persons were injured today in savage riots after church services for the Greek Orthodox Patriarch Varnava.

Excited crowds leaving the church smashed all windows of the house of Dr. Kaludjeric, minister of posts, and almost destroyed the office of the editor of the pro-government newspaper, Vreme.

The crowd then demonstrated before the postoffice, stoning gendarmes who fired on them. It was reported 30 gendarmes and about 100 demonstrators were injured.

BELGRADE, Yugoslavia, July 29 (UP)—Yugoslavia was dangerously near a religious war today as mournful thousands participated in the funeral of the late Patriarch Varnava, head of the Greek Orthodox church.

Relations between the government and church were strained over a proposed concordat with the Vatican. The Catholic church contends for concordat, already approved by the lower house of parliament, would grant exceptional privileges to Roman Catholics and undermine the Orthodox church.

The grief in Belgrade appeared even greater than that of three years ago when the nation—a monarchy of 14,000,000 Greeks, Serbs and Slovaks—was ruled by King Alexander, assassinated in Marseille.

Church and state authorities took special precautions to prevent anti-government riots during the services.

The situation was extremely complex. (Continued on Page 2, Column 3)

## DAIRY LICENSE CHARGE DROPPED

### Oaso Against H. O. Dietrich Dismissed Following Law Compliance

Charges of operating a dairy without the proper city permit were dropped today against H. G. Dietrich of the Jersey dairy as police officials announced he had complied with the details regarding this phase of the city milk ordinance.

The charges were brought against Dietrich last Tuesday by Dr. E. R. Taylor, city meat and dairy inspector. Therefore, Dietrich is determined to fight to the last man.

"Present condition," he declared, "shows that the Japanese have completely ignored China's complete surrender. China is determined to fight to the last man."

## GENERAL CLAIMS 'CHINA TO FIGHT'

### Chiung Kai-Shok Says That Japanese Have Ignored All Wishes

NANKING, July 29 (UP)—Generalissimo Chiang Kai-Shok, head man of the central government, announced today that he had determined to fight until the last man.

The generalissimo issued a belated declaration while Chinese sources were excitedly discussing the possibility of the severance of diplomatic relations between China and Japan, leading probably to a formal state of war.

"Minor details do not mean eventual defeat," Chiang said. "The nation should not be discouraged by the latest setback."

"Present condition," he declared, "shows that the Japanese have completely ignored China's complete surrender. China is determined to fight to the last man."

## BRITAIN WARNS JAPAN INVADERS

LONDON, July 29 (UP)—Great Britain has warned Japan that British government does not approve any further attempt to detach Chinese provinces from the Nanking government. Foreign Secretary Anthony Eden revealed in a guarded disclosure today in the house of commons.

Wedgewood, Benn, liberal, asked bluntly during the question hour: "Has the foreign secretary made it clear to the Japanese government that we do not approve of any further attempts to detach provinces from the Nanking government?"

"Yes," Eden replied. "The foreign secretary added heavily: "From our various declarations, the honorable member will be able to see that we very much regret the situation, more so as we were hoping for improvement of relations in the far east generally, which we cannot hope for while present conditions persist."

The "evidence" today included some 300 photographs of 11 Ducce, many of them autographed. The photograph, along with a diary which recounted love affairs with other prominent Europeans, were found in Mme. Fontages' apartment.

# LEADERS SEEK TO HOLD OFF CONGRESS ADJOURNMENT

## PRESIDENT ASKS CROP INSURANCE, NEW SUGAR LAW

**F. D. R. Reported 'Insistent' in Demand For Passage Of Farm Aid Bills**

By JOE ALEX MORRIS

WASHINGTON, July 29 (UP)—Administration leaders with revised instructions from President Roosevelt sought today to hold off adjournment of congress for two weeks or more in an effort to enact a flexible but more comprehensive legislative program than previously advanced.

Sugar legislation and a crop insurance bill were added to the adjournment program calling for enactment of labor standards, housing, tax avoidance and lower cost of living measures as a result of a conference of house and senate leaders at the White House.

Possibility of congress returning to Washington in October to act on farm legislation also entered the legislative picture but it was understood that the legislators sought to discourage presidential consideration of such a move.

House Speaker "Insistent"

Mr. Roosevelt, reported as "insistent" that sugar legislation be enacted in this session, also was understood to have approved plans to complete action on the Miller-Tydings bill exempting from the anti-trust laws all state-approved contracts permitting price-fixing between wholesalers and retailers. The senate has passed the measure.

Assurances were said to have been given that the senate also would act on the house-approved municipal bankruptcy bill and that a crop insurance measure, already passed by the senate, would be enacted.

It was understood, however, that the program was flexible enough to permit abandonment of some of the proposed legislation if necessary. The leadership strategy appeared to be to advance a heavy program and pitch into it with the expressed hope of getting as much as possible into law.

Adjournment Fight Seen

The final outcome, they said, would depend on day-to-day developments in congress, where Senate Majority Leader Alben W. Barkley of Kentucky already has put his colleagues on a heavy schedule.

Sensations from a dozen sugar-raising states were ready to fight adjournment until action has been taken on their demand for sugar legislation at this session.

The determined stand by the sugar bloc in both houses, appeared likely to result in action on the bill coming an early date, with restrictions, leaving an ample time for providing benefit payments to growers.

## Detective Finds Husband Lost 33 Years Re-Married

PITTSBURGH, July 29 (UP)—The detective Mrs. Matilda McCandless hired to find her husband's tombstone found him re-married and the father of three married children, Mrs. McCandless, a great widow for 33 years, testified in divorce court today.

Mrs. McCandless, 54, said her husband, Hugh, was found last March in Chatham, N. J. She had given him up for dead after his long disappearance and she played the detective to search for his tombstone to fulfill legal requirements for her will.

Her divorce action, she told Judge Thomas M. Marshall, was not inspired by malice. "I harbor no ill feeling against him," she said. "But I never want to see him again."

The private detective, H. Q. Moore, finally traced a Hubert McCandless to Chatham, N. J. McCandless told McCandless and said: "He wants to see you in Pittsburgh."

Detective Moore said the man almost collapsed.

## FIVE MEN SEEK AIRLINE AWARD

\$1,000 Paid by WAE to Salt Lake County Clerk to Avoid Suit

SALT LAKE CITY, Utah, July 29.—Five men today sought a \$1,000 award offered by Western Air Express for finding of a plane that crashed near Alpine last December, was to be turned in the hands of the Salt Lake county clerk today while five men fought for its possession.

Four of them—Emery Andrews, Mel Devey, Frank Bateman and Will Healey—are dependants in a suit filed by Rex Moyle, who claims the reward. The third district court yesterday ordered payment of the reward money to the county clerk by Western Air Express to clear the way for court settlement of the suit.

Moyle found the plane's wreckage June 6 simultaneously with discoverer of other fragments of the wreck by Devey and Andrews. At the time of the discovery it was reported that Moyle, employed by Western Air Express in their search for the plane, was ineligible for the reward.

Devey and Andrews announced they would divide the money with Bateman and Healey who were the first to find the wreckage of the plane in the alpine region. Payment of the reward money to the county clerk will remove Western Air Express as a defendant in Moyle's suit.

More than 150 large prints were entered by 20 photographers in the statewide contest, sponsored by M. W. Melman, instructor in architecture at the university faculty, and an ardent camera hobbyist. An interesting feature of the campus showing, which was held open a week and a half longer than expected because of public interest, was the fact that visitors also were the judges.

LONDON, July 29.—King George VI and Queen Elizabeth returned to London today from Belfast, northern Ireland, where their coronation visit was marred by Irish terrorist demonstrations ranging from gun battles and clubbings to arson and bombings.

A land mine, operated by a time fuse, exploded in the streets of Belfast as the king and queen completed a triumphal procession to the city hall to be welcomed by government officials.

If the king was unharmed by the terrorism, he gave no indication of it in a brief speech of thanks.

The king today sent a radio message to the governor of Northern Ireland expressing "great happiness" over the "fraternal greetings" he had received.

## DOINGS AT IDAHO Rocky Mountain CLUB

IDAHO ROCKY MOUNTAIN CLUB, Stanley, July 29 (Special).—Tuesday morning a number of our guests went on a pack trip to Warm Springs Meadow to spend several days. These embers are the "Toughing It" expedition were Mrs. D. J. Mahoney and her boys Danny and Michael, Miss Beeth, Mrs. Miss Mildred Shea, Mrs. New York City, Misses Barbara and Anne Cox, Dayton, Ohio, and wranglers Bill Ketchum and Dick Coleman. Miss Janet Bonleitter, Hatley, has been added to the staff.

Those who returned early Monday night missed a beautiful and unusual sight. The aurora borealis was plainly visible from the club shortly after midnight. The distinctly bright rays of light shining above the dark silhouette of the jagged Sawtooth peaks, made an unforgettable picture, breathtaking in its loveliness.

Sunday night buffet suppers are again as popular a tradition at the club as they have been in past years. They are very informal, enjoyed by guests and staff alike. Although the tables are beautifully appointed, paper plates and paper napkins are a feature. Everyone serves himself and carries out his own plates after the meal is over. Afterwards the evening is spent socially, and occasionally impromptu entertainments are put on.

A feature of last Sunday's entertainment was a trick-roping exhibition put on by the cowboys.

## Leaving Sunday

Southern Stars orchestra will leave Twin Falls Sunday morning for a winner's engagement near Los Angeles. It was announced today by officials of Radiohall ballroom.

The cowboy musical artists will play their farewell dance here Friday night to climax three months in Twin Falls during which they drew the largest consistent Friday-night dance audience in the city's history. The group may return next summer, although arrangements are still tentative.

THIS CURIOUS WORLD By William Ferguson

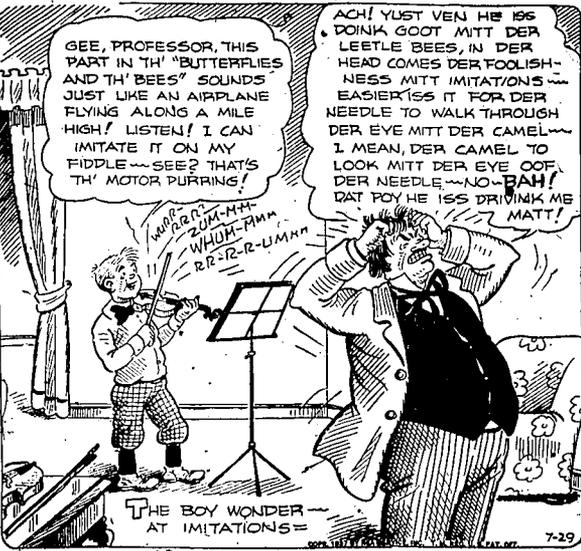

The PRONGHORN ANTELOPE, OF AMERICA, HAS NO AMERICAN RELATIVES, BUT POSSIBLE SHOW THAT AMERICA ONCE HAD MANY SPECIES SIMILAR TO THE ANTELOPE NOW LIVING IN AFRICA.

DISEASE SOMETIMES CAUSES ELEPHANTS TO GROW CURIOUS MALFORMED TUSKS.

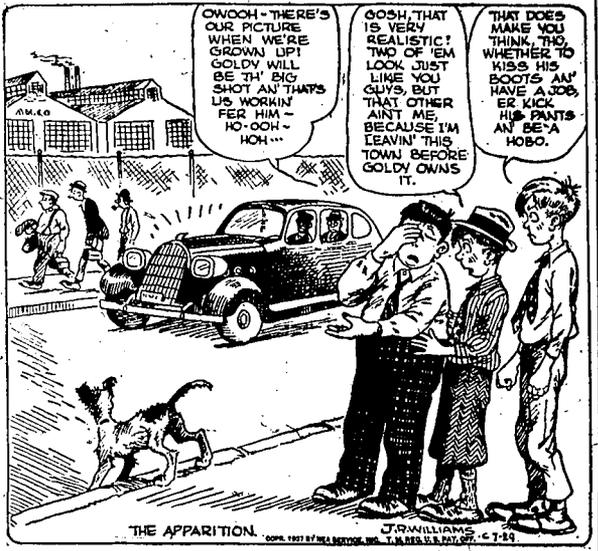

The pronghorn antelope is unusual in two respects. First, it differs greatly from the present-day antelopes of Africa. Second, it mounds its horns annually, a process common among antlered animals, but unheard of among those animals that bear horns.
