BELL RINGERS TO GIVE SELECTIONS

Los Angeles Trio Now on Third Tour of Nation in Sixth Season

Twin Falls is to have the opportunity of hearing the Mason Bell Ringers and Triple Chimes Players of Los Angeles, Rev. and Mrs. Bernard Mason and Frank Watkins in a program at the Christian church on Friday at 8 p. m. It is announced by Rev. Mark C. Croninger.

The trio is on its third tour of the United States and is in its sixth concert season.

This group is nationally famous for its interpretation of sacred music on many instruments rarely heard on the entertainment platform. The program will consist of selections played on the following instruments: Swiss horn bells; musical glasses, singing saw, musical vic, golden vibratory, two special numbers will be playing of the world's largest set of triple octave chimes (also known as "organ pipes") and the world's most mysterious instrument, "the Victor Theremin." The latter instrument has no keyboard, strings, reeds or pipes and is played without the performer touching it, simply waving his hands in the air.

There will be no admission charge to this concert, but a free-will offering will be received.

FLEET RESERVES TO MEET SEPT. 4

Ex-Sailors Will Take Over San Diego For Annual Gathering

SAN DIEGO, Calif. (AP)—The decks of scores of long "dead" warships of the U. S. navy will resound to the echo of clanking feet—in memory at least—here next month.

Some of the "dead" ships have long since gone to the bottom of the ocean, others are lying in de-commissioned status in navy yards and awaiting reuse.

But for three days during September they will again be vibrant with the stirring life they once knew.

These ships will spring back into activity in the memories of hundreds of Fleet Reserveists who will flock here from all parts of the country for the annual convention of the Fleet Reserve association, Sept. 4, 5 and 6.

First Time West

The meeting here will mark the first time the 12-year-old organization has held a meeting west of the Mississippi river.

San Diego was selected for this year's convention, it was said because it is the nation's largest center of naval personnel, both active and retired, and because the San Diego branch of the Fleet Reserve association is the largest unit in the country.

H. L. Radcliffe, a retired pharmacist's mate, a survivor of the mining of the U. S. B. San Diego, 58 miles off New York, July 19, 1918, is in charge of arrangements for the convention. Six of the 1,150 men aboard the San Diego when it sank lost their lives.

Admiral to Speak

Rear Admiral Sinclair Cannon, commandant of the 11th naval district will be the principal speaker at the opening session of the convention the highlight of which—from an amusement standpoint—will be the mass initiation of hundreds of "polly-wogs" into the ranks of "shellbacks."

This ceremony will be like that undergone by sailors when a ship crosses the Equator.

Carl A. Viken, of Camden, N. J., is national president of the Fleet Reserve association, while Catherine H. Hibel of Philadelphia, is head of the Ladies Auxiliary which will conduct its meetings in connection with those of the association.

PRICES DROP AT CATTLE AUCTION

'Poorer Quality' Animals Listed as Cause By Manager Here

With nearly 450 animals changing hands, gross sale totals at the regular auction of the Twin Falls livestock commission company yesterday totaled approximately \$12,000, it was announced today by M. M. Daniels, manager.

A slight drop in prices was attributed to the fact the cattle offered were of a poorer quality than those offered in previous sales.

With more than 800 animals "already in sight" for the sale next Wednesday, indications are that it will be the greatest of the year.

Included in yesterday's prices were: feeder hog, \$2.75 to \$3.00 per hundredweight; Hampshire ram, \$1.00 to \$1.25; and \$25 a head with eight head sold; Rambouillet, \$4 to \$5 per head; yearling cows, \$1 a head; steers, \$6.05 to \$8 a hundredweight; heifers, \$5.65 to \$6.35 a hundredweight; cows, \$4.50 to \$5.50 a hundredweight; culling and cutting cows, \$3.20 to \$4.25 a hundredweight.

Britain Will Send Naval Reinforcements to Mediterranean Area

WAR CRAFT WILL GUARD SHIPPING AGAINST ATTACK

Key Members of Cabinet Act After Submarines Fire On Vessels

LONDON, Sept. 2 (Special).—The key members of the cabinet decided today to send naval reinforcements to the Mediterranean to protect British shipping after the British tanker Woodford was torpedoed and sunk by an unidentified submarine.

The ministers decided to reinforce the destroyer strength in the western basin of the Mediterranean as a result of the sinking, the submarine attack Tuesday night on the British destroyer Havock, and other recent attacks on British shipping. The decision was reached after long consultation, during which the Spanish ambassador called at the foreign office. A full cabinet meeting will be called next week.

Woodford Sunk By U-Boat
The Woodford was struck by two torpedoes 50 miles north of where the Havock was attacked. The ship sank immediately, carrying the second engineer with it. Valerita reported nine other members of the crew were landed from life boats on the coast above Valencia.

International Crisis
There was the threat of the gravest international situation since the Ethiopian war. People here and in France suspect that the attackers are Italian submarines aiding the Spanish nationalists.

There was growing belief also that the submarine which attacked the Havock—and missed—was herself sunk by depth bomb charges.

The French view was that immediate, forceful action was necessary to prevent an explosion in the Mediterranean.

SENATORS FIGHT THIRD TERM IDEA

Issue Would Lead to Bitter Congressional Battle; F. D. R. Silent

By JOE ALEX MORRIS
WASHINGTON, Sept. 2 (Special).—Democratic senators today bolstered congressional opposition to suggestion that President Roosevelt seek a third term in the White House.

Mounting speculation on prospects for the 1940 presidential campaign indicated that the third-term issue would lead to a bitter and—to some senators—embarrassing conflict in congress.

Three developments disclosed the interest already being displayed. They were:

1. Sen. Rush D. Holt, D. W. Va., a persistent foe of the administration, announced that he would introduce at the next session a resolution opposing a third term as "unwise and unpatriotic."

2. Sen. Millard Tydings, D. Md., and Sen. Walter F. George, D. Ga., both of whom have opposed various administration experimental proposals, discounted suggestions that the President would seek a third term.

3. Democratic conservatives acquiesced at suggestions that the President would favor Sen. Robert M. La Follette, R. Wis., as his successor despite Mr. Roosevelt's high regard for the Wisconsin progressive.

GHOST

Halley Man-Thinker So After Unknown "Something" Hits Him

HAILEY, Sept. 2 (Special).—There's a ghost in Halley with a powerful wallop. Ask Andrew Knight, the rancher living on the north border of town, if there isn't. He can convincingly prove that he is laid up in bed with a double-sized head, a nasty cut in his face, and only one eye in working order. He swears that something, not someone, hit him.

It happened out in his corral the other evening. There wasn't a horse, a cow, or a person in sight, yet suddenly he got a blow on his head that knocked him flat. Jumping to his feet, he turned to meet his attacker, but it just wasn't there. He could see nothing, nobody, not even the missile which struck him.

That's his story. Accept it or not, and please report any stray ghosts to Halley. Andrew wants revenge.

A Safety Tip FOR YOUR Labor Day Trip

Here's Why FIRESTONE STANDARD TIRES GIVE YOU MORE FOR YOUR MONEY

DON'T take chances on your Labor Day trip. Protect yourself and family by equipping your car with a set of new, first-quality Firestone Standard Tires. Firestone builds extra quality and extra safety into these tires and sells them at lower prices because Firestone controls rubber and cotton supplies at their sources, manufactures with greater efficiency and distributes at lower cost.

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord because every fiber of every cord in every ply is saturated with liquid rubber by the Firestone patented Gum-Dipping Process. This counteracts the internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because there are two extra layers of Gum-Dipped cords under the tread.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE—because of the extra-tough, long-wearing tread.

You need all of these features to make your car tire-safe on your Labor Day trip. Firestone gives them to you at lower cost. Join the Firestone SAVE A LIFE Campaign today by equipping your car with a set of new Firestone Standard Tires—today's top tire value.

Hubbell Tackles Job of Keeping New Yorkers on Top

Carl Seeks To Expand Giant Lead

By GEORGE KIRKSEY
NEW YORK, Sept. 2 (UP)—King Carl Hubbell was trusted today with the job of keeping the New York Giants on top of the National League.

The last two games the Giants went to the front they stayed there only 24 hours each time. Bill Terry, free to devote his entire time to directing the Giants' campaign now that he has wangled a new five-year contract at \$40,000 per year out of President Horace Stoneham, is banking on his meat-ticket Hubbell.

On his last two starts Hubbell was named out of the box by the Cubs and Pirates, although he wasn't charged with a defeat either time. Hubbell's record is 17 won and 8 lost.

Hal Schumacher encouraged New York's pitching outlook when he hurled the Giants to a 7-3 victory over the Cardinals yesterday.

He allowed nine hits, Lou Warren, Cards' starter, had to leave the game in the fourth inning when New York leading 3-2, when he was hit on the left leg by a line drive from Jimmy Rippel's bat. Mike Rubea reared up and the second ball by Terry Mel got was whammed against the upper deck for home runs. No. 29, accounting for three runs.

The Cubs, after one-day in first place, booted themselves right back into the runner-up position, 102 percentage points behind the Giants. With the score deadlocked, 4-4, and two out in the eighth, Lonnie Frey, rubbing third, allowed Gil Brack's easy roller to get through his legs. One run scored. A scratch score.

Pittsburgh dropped its seventh straight, losing to the Phillies, 6-3. Earl Grace's homer with a man on base in the eighth won the game. Cincinnati beat the Reds, 5-1, and doubled the second game of a doubleheader, 4-1.

All three American league leaders lost. Cleveland stopped the Yankees, 4-2, behind a sensational seven-hit pitching by Julius Solters' homer with one on in the fourth gave the Indians a lead they never relinquished.

Detroit fell before Washington, 2-0. Wes Ferrell let the Tigers down with five hits in scoring his 13th victory. The Senators gathered 15 hits off McLaughlin, Wade and Rusk.

The Boston Red Sox trimmed the Chicago White Sox, 2-0, in an exciting game. George Sisson's homer accounted for Boston's winning run in the third.

The Philadelphia Athletics climbed out of the cellar with a 5-2 victory over the St. Louis Browns—a new club earned its first win. Cincinnati won the eighth by two bats aboard in the seventh to clinch the Philadelphia victory.

Repairing Battle-Ravages

Testimony to Courage

A testimonial to Tommy Farr's courage is this excellent camera study of his corner after his surprising 15-round stand against Joe Louis at their heavyweight bout at Yankee stadium here. The camera reveals the full damage wrought on Farr's tanned face by Louis' fists as the champion left-jabbed his way to a knockout victory over the gallant Welshman who had been doomed to an early ring death by the expert. Note the strained anxiety on the face of Tommy's handlers.

HUNT'S HOMERS BOOST SEATTLE

Big, Genial Outfielder Goes on Another Slugging Spree; Indiana Win Fair

By United Press
After two weeks of silence, big, genial Mike Hunt, Seattle outfielder, was off on another home-run hitting spree today and as a result the Seattle Indians are winning more games.

Hunt's homers stood at 23 for two weeks and during the long month of August his big bat produced only two circuit blows. Seattle's menaced in second place and in one series, that against the San Francisco Seals, won only one game.

Hunt started his new momentum by swatting his homer to Seattle, won 7-5 over Portland in the first game of a double-header. The game went by in a matter of minutes, the Padres in the thick of the pennant fight. The Seals used three pitchers, including Manager Lefty O'Doul, in a vain effort to halt the Padres, who registered their second straight win, Williams raised his home total to 30.

Sarrandos remained half a game in front by noting out Oakland, 7-5 in another game in which home runs played a part. Earl Adams hit one for Sacramento city in the game to help the Seals turn up an early lead. Then in the eighth Big Ernie Koe of the Oaks caught one on the nose to push over three runs and by the top of Sacramento scored one in the ninth to win, giving Henry Pippin the victory credit. Olds was the loser.

The Madison Reds homered 20 hits, none of them homers, to beat Los Angeles, 10-5. Chick Outer and Steve Barath led the attack on the Los Angeles team with three hits each. The Angels got 14 hits off Nighthawk, including three each by Collins and Russell.

BRITON WILL TRY FOR SPEED MARK

Capt. Eyston, With Largest Car Ever Built, Plans Utah Attempt

NEW YORK, Sept. 2 (UP)—Capt. George Eyston, British speed driver, will attempt to set the world automobile speed record this fall in the biggest and, he hopes, the last automobile ever built, he said today.

The 20-year-old Englishman arrived today with his automobile which he plans to break the 301,123 miles an hour record set on the salt beds near Daytona, Fla., by Sir Malcolm Campbell two years ago. Capt. Eyston will make his attempt at Bonneville.

He said his machine weighs nearly seven tons, more than Sir Malcolm's Bluebird. The machine has four front wheels, tandem fashion on the rear. It carries two Rolls-Royce engines developing 3,200 horsepower and is a rear-drive motor car.

"It was almost finished when I left," Eyston said. "It should reach me in Utah within a month and if the salt is right I will give it immediate trials."

SPEEDBOAT KING BREAKS RECORD

British Ace Speedster Pilots 'Bluebird' Over Mile-Long Course at 129.6

LOCARNO, Switzerland, Sept. 2 (UP)—Sir Malcolm Campbell, Great Britain's king of speed, set another new world's motorboat speed record today by driving his 100-horsepower 'Bluebird' over a measured mile at an average speed of 129.60 miles an hour.

The 22-year-old Englishman set the record at Locarno, Switzerland, over a 1.2-mile course in 55.14 minutes.

He was confident that his speed runs today would surpass those of yesterday when he broke the former record set by Gar Wood in his Miss America on the Old Clair river, Detroit, on Sept. 20, 1932.

Campbell's new record was the first run of the measured mile in 128.87 miles an hour. Then he drove his Bluebird, powered by a 100-horsepower Rover motor, over the return course in 128.61 miles an hour.

Chance For Pro Ball Contracts Offered Youths

Youthful baseball players of Twin Falls are anxiously awaiting the opportunity this month to show their skill to regular scouts of the Cincinnati Reds who are sponsoring a series of seven try-out camps throughout the district between the Rockies and the Pacific coast.

The camp for this district will be held at the Community ball park in Salt Lake City between Sept. 21 and 25. Boys making the try-outs will have to pay for their own equipment and living expenses but the managers plan to make arrangements for living quarters at a reasonable price.

This plan to give young players a chance to show what they can do has been in effect since 1934 and has shown remarkable results. Information in regard to the camp equipment and living expenses can be obtained from Charles E. Chapman, Inc., 904, Orchard via, Berkeley, Calif.

Cops of Gooding Study Wrestling Under Pro Coach

GOODING, Sept. 2 (Special)—A couple of Gooding cops, Steve Bump, night inspector, and Ralph Patterson, day inspector, are taking a course in wrestling from a professional, local boxer and professional wrestler, working out at the cops' gym on Monday.

The cops are studying wrestling as a means of self-defense. They are also studying it to keep it physically, but knowledge of few new holds, it is maintained, will be added equipment for handling the ordinary run of lawbreakers.

Christie, who has been trained some of the police of Salt Lake City in the many art of offense and defense, has been seen in action by local fans, and through the years has plotted an astounding assortment of "real" holds that border on the Japanese Jiu Jitsu. Gooding cops, after a course with him, will no doubt be able to handle any one when the going gets tough.

Dressing Rooms May Be Placed At School Field

Twin Falls and visiting athletic teams will be given dressing room facilities at the Lincoln field, it appeared tentatively today as a committee of two school board trustees investigated the possibility of moving the two present "portable" buildings of the Lincoln school grounds.

At a meeting last night took no action on deciding that the portables will be placed on Lincoln field, but their office square dressing rooms was indicated as one possible disposal of the buildings. They would be taken from their present location because of forthcoming construction work on the new 11-room unit at Lincoln.

No dressing rooms are now available in the high school field. Teams use Lincoln school basement between halves of football games, and the state track in the high school building.

Committee headed by Chairman George J. Ward to investigate cost of moving the portables consists of Mrs. Ralph B. Smith and G. H. Graves.
