League Strikes Blow at Fascist Italy Ambitions

Spanish Loyals Receive Recognition at Meeting

Group Also Refuses to Ban Ethiopia; Plans Consideration of Japan-China Crisis

By STEWART BROWN
GENEVA, Sept. 13 (UP)—The League of Nations struck a blow at Fascist Italy's ambitions today by continuing to recognize the loyalists as the legal government of Spain and by refusing to ban Ethiopia from membership. The assembly, holding its scheduled meeting, also was confronted by a Spanish loyalist effort to force the Mediterranean piracy issue before it, and with an appeal by China under the League covenant against Japan's invasion. In the matter of recognition of the loyalists, the credentials committee received a protest from Gen. Francisco, insurgent leader, but ruled that the letter was a political matter over which the committee lacked jurisdiction. The committee passed over the Ethiopian issue by ignoring it, merely reporting Ethiopia as "absentee member" but not technically a member. The Chinese protest invoked Article 10, 11 and 17 of the covenant, leaving the League no choice but to consider the appeal. It seemed unlikely that the Mediterranean piracy issue would be sidestepped, either. Premier Juan Negrin of loyalist Spain served notice that he would demand action by the League of Nations against Japan's invasion of Manchuria. The assembly, however, was preoccupied with the international protest which is being constituted to protect foreign vessels. Angry because a new Mediterranean piracy agreement does not protect Spanish loyalist merchant ships against attacks by submarines alleged to be Italian, the loyalist delegation announced it would ask the League to demand action.

Case in Last Legal Action

BOISE, Idaho, Sept. 13 (UP)—The case of Douglas Van Vlack, convicted wife-slayer, today entered what is expected to be final legal action in determining whether the prisoner shall be hanged or have his sentence commuted to life imprisonment. Attorneys for the state of Idaho and for Van Vlack presented oral arguments before the supreme court on a bill of exceptions filed in sentencing proceedings at Twin Falls. It was the second time that the case had been heard before the supreme court. The first time, the court upheld the state's appeal, and the case was transmitted to the U. S. supreme court. The high tribunal refused to consider the appeal and the case was remanded to Twin Falls district court for resentencing on June 23. He was again sentenced to hang, but a bill of exceptions, alleging 13 errors in proceedings, stayed execution. Each prisoner entering Robertson's cell is directed to sign a liability waiver. Children under 16 years of age are not admitted. With actual movement of the case, it is expected that the state will have a suspended state, contrary over what is causing the state sinking "sinking canyon" news. From all sides experts and near-experts have expressed themselves on the subject and have even, in some cases, started new or less serious arguments regarding the situation. Curious persons, however, continue to flock to the area, with autos from practically every state in the union being counted among those making the short trip out from Boise. Fences have been constructed to keep visitors at a safe distance from the site, and an observation platform is available at all times.

Autopsy Starts IN GIRL'S DEATH

Officials Book Traces of Poison in Body of Air Stewardess
HOLLYWOOD, Sept. 13 (UP)—The coroner's office ordered an autopsy today to search for traces of poison in the body of Cecilia Gilligan, 28, chief stewardess of Western Air Express, who was found dead Saturday in a fashionable movie town hotel. The body reposed in a natural position on the floor and there was no evidence in her room of suicide, but her strange behavior prompted the investigation. She had been moody several days. Thursday afternoon she served as bridesmaid at a friend's wedding. The wedding party included some scheduled flight. About midnight Thursday she left her room at Burbank, near the airport, in wild disorder, with the radio blaring. She was 3:40 a. m. when she arrived at the Hollywood Plaza hotel, which is the residence of several movie stars. She registered under the name Patricia Maguire. There is a girl by that name at Oak Park, Ill., known as the "sleeping beauty" since she has been in several years from sleeping sickness.

ELIZABETH, N. J., Sept. 13 (UP)—Samuel Miller, 35, looked in a closet for his old overcoat, discovered that brother James, 32, had sold it to a "pay-cash-for-old-clothes" dealer and called the police. They found it in a New York city warehouse. Samuel grabbed and extracted \$100 he had planned in the lining long ago.

First Aid for 'Pirate Plane' Victims

European powers are making efforts to stamp out the "pirate" submarine menace to shipping in the Mediterranean, but less concerted action has been taken to halt air attacks on ships in the waters bordering on the Spanish war zone. The English merchant man African Trader had to be beached off the coast after being badly damaged by air bombs in a surprise raid off Gijon, Spain. Above a diver descends to make temporary repairs so the damaged ship would be able to proceed to drydock.

Sea Divers Work to Release Members of "Pirate" Submarine

Spanish Government Officials Refuse to Confirm or Deny News Agency Report

By IRVING PFLAUM
MADRID, Sept. 13 (UP)—Loyalist deep sea divers were reported working feverishly today to release the crew of a "pirate" submarine trapped at the bottom of the Mediterranean off the Cartagena naval base. Government officials refused to confirm or deny the report, circulated by the Reuters (Spanish) news agency, but it was known that attaché of the Cartagena naval base had been investigating oil pools on the sea surface since Friday. At that time it was believed the oil was from an "unknown submarine" which had been thought disabled by depth bombs from Spanish warships operating off the southern Mediterranean coast of Spain. The Reuters agency reported at least some members of the submarine's crew still were alive, that efforts to raise the vessel had failed and that its supply of oxygen seemed to be running low. It was reported that some officials thought the trapped sub might be the one which attacked the British destroyer Havock off the coast on Sept. 1.

2,416 SEE BUHL SINKING CANYON

First Week of Public 'Open Season' Draws Throngs to Spectacle
One week after the famous "sinking canyon" near Buhl was opened to the general public, a total of 2,416 motorists and their cars, it was revealed this afternoon after a check of records maintained at the ranch house of H. A. Robertson, owner of the property on which the disturbance is taking place. Each person entering Robertson's acre is directed to sign a liability waiver. Children under 16 years of age are not admitted. With actual movement of the case, it is expected that the state will have a suspended state, contrary over what is causing the state sinking "sinking canyon" news. From all sides experts and near-experts have expressed themselves on the subject and have even, in some cases, started new or less serious arguments regarding the situation. Burley Forest Fire Blackens 300 Acres

BURLEY, Sept. 13 (Special)—Three hundred acres of charred wasteland lies 18 miles from Burley south of Springdale on Launch creek with part of the area extending into the Minidoka national forest as the result of a raging brush fire yesterday afternoon and last night. Ten men are still patrolling the area over which 25 fire fighters struggled yesterday to bring the blaze under control. It destroyed roughly, grass and a few aspen trees before it was extinguished. The fire was discovered at about 4:20 p. m. and reported by two unidentified sleep herders. First forest man to reach the site was Charles W. Bashin, fire guard who reported the fire to the fire warden W. F. Averill, forest ranger, and a crew from Albion, and Bert Tucker, game warden, with five men. Twenty-five men fought the flames with conditions made difficult by a 300-foot fire in elevation. The area was valued at \$1 an acre but forest men indicated that the damage was far more extensive than the figures showed as spruce trees and rains are expected to pour down

RESERVE BOARD. TREASURY UNITE TO HELP CREDIT

Release of \$300,000,000 From Gold Account Set At Conferences
WASHINGTON, Sept. 13 (UP)—The Federal Reserve Board and the treasury united today to maintain a steady flow of credit—lifeline of business and industry—through the nation's money arteries. As week-end conferences closed, the open market committee, policy-making body of the reserve board, announced a program designed to continue easy money conditions. It provided: 1. Purchase, by the open market group's executive committee of short-term U. S. government obligations in the open market as occasions demanded, with a total of funds to meet immediate withdrawal of currency from banks and other institutions. 2. Immediate release by the treasury of \$300,000,000 from the inactive account containing gold purchased under the "sterilization" program. By "unfreezing" the gold, the treasury will have it to spend for governmental purposes, at the same time promoting the banks that must more open for credit use. The open market committee met to review the business and credit conditions, a reserve official explained, not because of any appreciable "lightening" of money conditions, but because of the growing feeling that the nation is heading toward credit restriction—that it faces an increasing shortage of funds to meet demands for commercial loans. No suspension. It was made clear that the treasury's part in the program does not involve suspension of the gold sterilization policy initiated last December 24 in an effort to keep gold imports out of the nation's credit structure, then top-heavy with idle bank funds. The treasury will "unfreeze" the \$300,000,000 in gold by transferring it to the government balances with the Federal Reserve banks. That the treasury may draw against this gold credit in making disbursements, reducing the treasury's inactive gold total to approximately \$1,000,000,000.

JAPANESE BOMBS HIT U. S. MISSION

Damage \$3,000 as Planes Dive Low Over Seventh Day Adventists
HONG KONG, Sept. 13 (UP)—Japanese planes dropped six bombs on the compound of the American Seventh Day Adventist mission at Waiho in Kwangtung province, refugees said today. Two Chinese mission staff members were wounded and a man killed caused by the bombs amounting to approximately \$3,000. P. V. Thomas, head of the mission, reported. Thomas, whose home is in Council Bluffs, Ia., arrived here with members of his staff and removed the wounded to a hospital. He said that the planes dived so low that they should have been able to see easily the two large American flags on the mission premises. The bombing, he said, appeared to be deliberate. The nearest military post is miles and a half away, also was bombed, he said. The mission hospital barely escaped the bombing he said. The attack threw the patients into panic. All then, except the worst cases, fled. The Chinese populace was indignant over the attack.

Germany Shoots Works on Ocean Air Route Bid

The catapult ship Schwabenland is the Nazi answer to the uncertainties of the take-off for the flying boats—used in survey flights along the Azores route across the Atlantic.

The gigantic four-motored Nordmeer poles aboard the mother ship at Fort Washington, E. I., for the return flight to Germany. Mounted on a special undercarriage, center, the plane can be launched with a maximum load even when conditions would make a start on water difficult. From a standstill the speed of the plane can be raised to 80 miles an hour in the two-second run along the steel track. Below, the Nordmeer is flying away from the Schwabenland in full flight.

AUTOS IN IDAHO TOTAL 133,000

One Car Noted For Every 4 Residents; 36,624 Miles of Road Maintained

By E. T. SPENCER
BOISE, Sept. 13 (Special)—Idaho has one motor vehicle for every four of the 485,000 who live in communities that cover a small portion of the state's area of 83,84 square miles. These are to be found in the Snake river valley from the northern corner of the state to the Oregon line, and along the north-south highway from the rich agriculture, fruit and livestock districts to the south to the rich timbering sections and wheat belt of the panhandle district of north Idaho.

There are 36,624 miles of road of which 4941 miles constitute the state system. This included 3,681 miles of paved and 1,260 miles of gravel or crushed rock roads up to the first of this year. The road building for the past eight months has added about 100 miles of paved roads.

Exceed Road Increase
The increase in the improved roads of the state has exceeded by the percentage of increase in motor vehicles. Last year there were 133,037 motor vehicles registered in the state, but it is expected this figure will be passed this year. During the first six months of 1937 the registration has been 132,810.

With the increased road mileage and number of automobiles, there has likewise been a greater increase in highway accidents. The growth of facilities in the state for the first seven months of this year has shown a 168 per cent increase over the same period a year ago. The months of July, August and September are the peak months for the year in that September may show the heaviest casualties of any month in the state's history.

Idaho's paved highways have stimulated speeding which has been the cause of almost 70 per cent of the fatal crashes. It has been found from reports that the major part of accidents have occurred on open roads under favorable driving conditions, such as on dry roads and in daylight hours.

INSURANCE CHIEF BACKS LAW TEST

Death Benefit Groups Should Follow Statutes, State Director Says

That actions of death benefit associations should rest entirely on the law as it stands on the statute books is the opinion of State Insurance Director W. H. Bakes who spoke before a meeting of Twin Falls life underwriters here Saturday.

At the present time, Bakes explained, action is being taken through the courts to determine powers of such groups. The action was instigated by Attorney General J. W. Taylor in connection with state associations.

"I believe it is a good thing to determine right now just what power these groups have," Bakes said. "Their actions should rest entirely on the law as it now stands on the statute books."

During the meeting members also heard a brief report of A. T. Watson, local underwriter, regarding the national convention held in Denver in August.

Wife Behind Scenes Continued at Buhl

LONDON (U2)—A woman in the divorce courts in London was allowed to sit behind a screen while her husband, petitioning for a decree of nullity, was examined in the witness box. She was able to hear all the evidence, but was invisible to her husband. This action, believed to be without precedent in England, was taken on medical advice that it was undesirable for the husband and wife to meet.

"IS IT GOOD BUSINESS TO BUY COSTLIER TOBACCO FOR CAMELS?"—A QUESTION ASKED BY MANY PEOPLE

ANSWER: Camels are the Largest-Selling cigarette in America

Think of what this means! The greatest pleasure for the greatest number of smokers ever given by any cigarette

AND this didn't happen by chance. A Camel is the largest-selling cigarette in America—and in the world—because people see and do appreciate costlier tobaccos. Smokers trust those finer tobaccos in Camels to give them more of what they want in smoking. And that makes Camel's policy of spending millions of dollars more for costlier tobaccos "good business."

If you are not a Camel smoker, try them. Millions have given Camels the severest test—smoked them steadily—and have found more pleasure in Camel's costlier tobaccos.

"I have taken my share of big fish—marlin and tuna. I know what a good-and-true contest with these heavy fighters does to a man's energy. Now I've gotten a big fish—myself landed, my next move is to light a Camel. A Camel every quickly gives me an invigorating 'X' BEACH, famous novelist and sportman

"Camels' rich, delicate flavor appeals to a woman's taste. I smoke nothing else. So many of the girls in my crowd feel the way I do about Camels being extra-gentle to the throat." (Signed) JOSELYN LIBBY, private secretary

"No wonder a many-hard champion, myself included, prefer Camels. I've smoked Camels for a long time. I say it was a happy day for me when I turned to Camels. For I found I could smoke a lot and never have 'edge' nerves. I want to compliment Camels on their mildness!" WILLIE HOPPE, famous billiard champ.

Coach's Wailing Reward Boosted

SPOKANE, Wash., Sept. 13 (UP)—The athletic round table, Spokane sports organization which first announced its intention of establishing a reward for the inland Empire college grid coach who walked the loudest over his prospects, today had decided to be expended in the improvement of Idaho's wild life conditions in accordance with a carefully planned program.

The state's portion of the first period's expenditure, under a law passed by the legislature in 1929, Sept. 2, will be \$32,100.25 and that to the state will add \$17,399.41.

Mac Doesn't Like "Cuteness" Of Women's Tennis Champ

By HENRY McLEMORE
NEW YORK, Sept. 13 (UP)—One man's private stroke analysis of the 19th annual national tennis singles champion: Things I didn't like department: The studied (or so I thought) attempt of Georgia Anita Lizana, winner of the women's title... Every time the amateur looked her racket in the air, I thought her dear little hands together, grimaced in exasperation over her faint, dead away, I had the feeling that she was attempting to live up to her European press clippings which said she was the most temperamental and mercurial bit to step on the courts since Lengler.

Things I liked department: Don Budge's boyish modesty in the face of 100 backslaps... Don Budge's running volley drive, one of the loveliest of all tennis shots... The beauty of Betty Water's play for the press... To keep her reporters from getting stomach cramps during their exertions... The club official play of young Donald McNeill of Oklahoma City in his early round match with Tom Crum... He is a good bet to win the title inside of three years... That is, if Budge turns pro... The West side club offers a Tom Collins... The refusal of non-playing Walter Patz to accept any credit for the success of the American Davis cup team... "It was won by my boys, out there on the court, and not by me," said the champion... He tells all those who tender congratulations... (Copyright, 1937, United Press)

Burley's Coach Modestly Sees 'Pretty Fair Team'

By CLAYTON HUTTING
BURLEY, Sept. 13 (Special)—When it comes to modesty among coaches, "Pete" Taylor, Burley high school head mentor, rates four stars... Ordinarily, when a high school coach can look over his ranks and admit to the return of the team to gladden his heart, he feels it his bonded duty to brag and tell the world "the title is in the bag" and to return to the best of him. Blessed as he is with the return of 10 lettermen and a total of 45 men on for grid ball, the Burley coach is modestly bashful and remarks that his club "might be an average outfit" and that "They're pretty fair looking boys."

True, with the exception of Wilber (Soda) Popp, 230 pound tackle, his veteran don't average what the Burley coach is modestly bashful and remarks that his club "might be an average outfit" and that "They're pretty fair looking boys."

HECHTNER NAMED GROUP'S LEADER

Seven-Man Teams Will Be Used in Some of Smaller Schools

Elimination of Class B championship play was the surprising feature of the annual meeting of South Central Idaho Athletic Association, which was attended by representatives of 25 schools. The move to eliminate the "championship" was the result of a pro-posed use of seven-man teams in the smaller schools.

The new plan calls for the Class B schools to use the 11 men where the opposition has three or more, and the seven-man club when the school is smaller. Present at the meeting were the coaches and superintendents from 25 schools. H. D. Hechtner of Twin Falls was unanimously elected president of the organization. Ralph Nyblad, Hansen, 1936 leader, was in charge of the meeting.

Other officers elected by the association were Jack Bucholtz, Glenn Farris, vice president, and Harold Roberts, Jerome, was re-elected secretary.

BEES
DECEIVE THE HONEY-CONSUMING PUBLIC! THEY FILL THE TOP OF EACH HONEY CELL WITH A BUBBLE OF AIR, WHICH REFLECTS LIGHT AND GIVES THE HONEY A WHITE, INVITING APPEARANCE.

MONEY SALE

IN GREAT BRITAIN, DURING THE WORLD WAR, PRIVATE CITIZENS WERE NOT ALLOWED TO KEEP HOVING PIGEONS, FOR FEAR THEY MIGHT BE USED BY SPIES IN SENDING MESSAGES.

Of course, the honey bee does not willfully deceive the public. Little does he care whether or not human honey consumers like his product. Some species of bees omit the air bubbles in their honey cells, and a dead, watery look results, which detracts from the appealing appearance.

SAYS EX-SENATOR SHOULD BE KEPT FROM NEW POST

Life Membership in Klan Claimed For Alabama By Reporter

NEW YORK, Sept. 13 (UP)—Senator Royal B. Copeland, D., N. Y., who opposed confirmation of Sen. Hugo L. Black, D., Ala., as associate justice of the United States supreme court, said today that "the Supreme court and the senate should be kept from confirming the Black as a life-member of the Ku Klux Klan."

Copeland based his renewed opposition to Black on the first of six dispatches copyrighted by the North American Newspaper Alliance, Inc., in which Ray Sprigle, reporter for the Pittsburgh Post-Gazette, said he had found that Black is a life-member of the Ku Klux Klan.

The dispatch asserted that Black joined the Robert E. Lee Klan No. 1 September 11, 1923, resigned July 19, 1935, and was received back into the Klan at Birmingham, Ala., in September, 1936, after his nomination to the United States senate, and made a life member.

Copeland said he felt that "in view of these disclosures the Supreme court and the senate should find some way, despite the senatorial confirmation, to keep this man from wearing the black robe of justice day and night and the hamlet white robe of the Klan in the dark of the night."

Copeland said the United Press that although "these new revelations were shocking" they were "no surprise to me" adding:

"If the Black appointment had not been retroced through the senate there might have been time to develop this proof against Black and the opposition to him might have grown sufficiently strong to prevent confirmation."

"The disclosures prove beyond all reasonable doubt the unfitness of this man to be president of the highest tribunal of the American people."

DEPUTY EXPLAINS TAX ON TICKETS

Any Admission 41 Cents or Over Must Pay; Exemption Process Outlined

Organizations wishing to claim exemption from tax on tickets to functions they present in this area must make application to the U. S. revenue office in Twin Falls. It was pointed out today by Delmar D. Daniels, deputy collector of internal revenue.

Admission tickets at which the charge is less than 41 cents are tax-free. Where the charge is more than 41 cents, the government levies a tax of one cent for each 10 cents or fraction thereof of the total amount paid, Mr. Daniels said.

Exemption applications are accepted from organizations when all of the funds taken in go to educational or charitable purposes. The request is sent from here to John R. Wiley, U. S. collector, at Boise. If approved, the organization then can print a special type of ticket. On this special tax-exempt ticket, Mr. Daniels explained, these two facts must be shown: (1) Established price. (2) Tax free.

Form of tickets for organizations who must pay tax must show: (1) Established price. (2) Tax paid. (3) Total. (4) Name of organization. (5) Plate. (6) Date.

It is the duty of the printer of tickets, the deputy here said today, to give prompt notice to the internal revenue collector's office in the post office building in Twin Falls. The printer must report the name and address of the person or group to whom the tickets were furnished, and the number of tickets, and a sample.

LOW-RENT PLAN URGED IN STATES

\$500,000,000 U. S. Housing Program to Be Given Early Start

WASHINGTON, Sept. 13 (UP)—The interior department today urged 18 states to rush legislation necessary to put the new \$500,000,000 low-rent housing program in operation in every corner of the nation at an early date.

Thirty states already permit establishment of the municipal housing authorities required by the Wagner-Stegall housing act to carry through construction of 100,000 living units in slum-cleared areas.

A fast start was further assured by plans for 62 projects approved by the public works administration's housing division but scrapped by a 1935 presidential economy move. Cities can quickly revive their plans to meet restrictions of the act and become "early applicants" for the new funds, PWA officials said.

President Roosevelt was expected to name a \$10,000-a-year administrator for the new agency within a few days after his return to Hyde Park. The appointment will follow a conference with Secretary of Interior Harold I. Ickes, under whose department the new U. S. housing authority was placed.

The interior department already is campaigning for legislation in the 18 states without laws enabling municipalities to set up housing authorities.

HITLER TELLS OF NAZI PEACE AIM

Fuehrer Says Germany Too Busy at Home to Think of War

NUREMBERG, Germany, Sept. 13 (UP)—Fuehrer Adolf Hitler and his Nazi cabinet today spent a week of speeches and cheers, left for their every day tasks today after an unusual talk by the Fuehrer on German affairs and Germany's desire for peace.

As the Nazi annual rally reached its climax yesterday, Hitler, usually unapproachable to newspapermen, called a group of foreign correspondents and in a 30-minute "informal conversation" spoke frankly of Germany's problems as regards foreign nations.

Hitler smiled and threw out his hands in a gesture of futility when he was asked to give his view of the foreign situation generally.

Says R. A. Reynolds of the Reynolds Motor Co., and he continues, "The New Nash Cars will soon be here, the supremacy line for 1938 and we don't want a used car on our floors. The prices we will put on them will MAKE 'em move. Out that 85 Ford Deluxe Sedan with the Heater and low mileage to \$46.00. That guaranteed '34 Dodge with the new six ply tires, that'll be at \$43.00. That Model A Pick-up, put a big cut price sign on it at \$123.50. Knock the price off proportionally on all the rest of those dependable cars and Pick-Ups. If they want to trade in a car on these prices don't take them unless they're as fair on prices as we are.
