COURT IN SPOTLIGHT ON CONSTITUTION DAY

IN THE DAY'S PARADE

Loses Race

Running on both the Republican and Democratic tickets, Sen. Royal S. Copeland, strong foe of the Roosevelt administration, was soundly defeated in New York's mayoralty race.

Census Chief

John D. Biggers of Toledo, O., Republican who has served on the business advisory council, has been named as the head of the voluntary census of the unemployed ordered by the last congress. He is pictured at Poughkeepsie, N. Y., after a conference about the census with President Roosevelt.

Scores Leaders

Mr. Arthur Vandenberg, U. S. Sen. from Michigan, today said that the U. S. is the big country to have a central government and accord the Roosevelt administration for central bureau tendencies.

Powers Extend War on "Piracy" in Seas

Nearly All Pretense Of Non-Intervention Dropped by Nations

Any Suspicious Airplane or Surface Ships To Be Attacked by Patrol Boats

GENEVA, Sept. 17 (UP)—The powers extended their war on "piracy" in the Mediterranean today by deciding to include surface warships and airplanes as well as submarines and at the same time dropped almost all pretense of non-intervention in Spain.

Britain, France and seven supporting powers adhering to the Nyon agreement against piracy met here and agreed to protocols including surface ships and aircraft in the accord.

The air and surface accords provide that patrolling ships shall open fire immediately on craft attacking vessels contrary to the London naval accord of 1936. The effect is that any suspicious airplane, surface ship or submarine in the forbidden patrol zone may be liable to attack.

The conference decided that any airplanes, surface vessels or submarines not carrying well-marked identifications or flags would be considered pirates and fired upon.

Spain's air and surface forces, here in London and Paris, constituted a direct snub to Italy. Announcement was made both in London and Paris abandonment of the naval patrol of the Spanish coast to prevent munitions from being shipped.

Britain and France, without awaiting Italy's next move, acted swiftly and in unison. They did not consult Italy. Germany and other non-intervention powers by calling a meeting of the non-intervention powers by calling a meeting of the non-intervention committee, but moved alone.

They thus indicated their solidarity in determining to protect Mediterranean interests by force if necessary.

The Italian action was considered to amount almost to opening the doors to arms traffic into Spain by any power wishing to engage in it. The only restriction placed on the new defunct non-intervention scheme is surveillance of the French coast which, France governs.

FOLSOM TO HEAD LOCAL NYA UNIT

Nampa Leader Moves Here; Salisbury Transferred to Rexburg, Idaho Falls

L. W. CHILF Folsom of Nampa, former National Youth administration field representative at Rexburg, point as well as recreation supervisor, will take over the duties as field supervisor for the Twin Falls NYA district. It was announced that Folsom will succeed Harold A. Salisbury, who has been supervisor since August 1936. Salisbury will be transferred to either Rexburg or Idaho Falls where he will take over a similar position with the NYA in that section.

ITALIAN FLEET IN PATROL WATERS

Fascists Take Position That They Have Not Subscribed To Anti-Sub Pact

ROME, Sept. 17 (UP)—Italy is keeping her fleet in waters covered by the anti-submarine agreement, the new anti-submarine agreement, Italy, said faculty members that instruction at the university should have three aims—to teach students to think, how to make a living, and to build their character. Dalo addressed teachers at a faculty gathering prior to opening of the 1937 fall term.

Canyon's "Mayor" Held on Charge Of Prune Theft

Accused of theft of four sacks of prunes valued at \$8, Luke Francis, self-styled "mayor" of Shantytown, was in Twin Falls county jail this afternoon in lieu of \$150 bonds.

GOV. CLARK HITS BORAH'S SPEECH

Says Justices Unnecessarily Controlled and Colored By Personal Background

BOISE, Idaho, Sept. 17 (UP)—Governor Darrell Clark of Idaho today charged the opinions of the United States supreme court were unnecessarily colored and controlled by personal background and experiences of the justices.

The comment, made on constitution day as comment on Sen. William Borah's plea for continuance of "uncontrolled" justices in the history of American liberty, was interpreted as direct support of President Roosevelt and his court enlargement plan.

Always Central Governor Clark said that American courts would be always controlled by personal color injected into the opinions of the justices. Stability depended to a great extent upon recognition of changes in the national opinion.

Borah said Thursday night that an "independent judiciary" was essential to democracy. Clark, a Democrat, said that the constitution of the supreme court could never be changed.

"But," he continued, "the opinions of the men who sit in these courts are not controlled by their personal background and experiences."

Equally smart Governor Clark remarked that the nine members of our supreme court are equally smart and equally honest.

"We can't escape that sort of control, and that is the reason why political agitation and change play such an important part in American stability."

Dale Gives Atms of University Teaching

MOSEKOW, Sept. 17 (UP)—Harriet Dale, new president of the University of Idaho, said faculty members that instruction at the university should have three aims—to teach students to think, how to make a living, and to build their character. Dale addressed teachers at a faculty gathering prior to opening of the 1937 fall term.

PROBE OF BLACK CASE ASKED BY BOSTON LAWYER

Attorney Suggests Justice Hughes Appoint Group to Determine Rights

WASHINGTON, Sept. 17 (UP)—Patrick Henry Kelly, a Boston lawyer, proposed to Chief Justice Charles Evans Hughes today that the supreme court appoint a committee of lawyers to investigate and determine the right of Justice Hugo L. Black to take his seat on the high tribunal.

Kelly suggested that Black be advised to postpone any attempt to sit on the bench until after the court had determined his status.

Kelly's move was the second investigation proposed within 12 hours.

Sen. Burton K. Wheeler, D. Mont., last night demanded that President Roosevelt appoint an impartial board to investigate Black and the Ku Klux Klan charges. Wheeler said that if Mr. Roosevelt failed to act the senate should authorize its own inquiry.

If the charges made are true, the President should ask for his (Black's) resignation," he said in a statement telegraphed to Washington from Fargo, N. D.

Wheeler said he withheld his vote when the senate confirmed Black's nomination, because there had been no denial of a charge made in the senate that Black was a Ku Klux member.

U.S. SUPPLY SHIP HEADS FOR EAST

Wichita Leaves Coast But Without Guns and Planes For War Countries

SAN PEDRITO, Calif., Sept. 17 (UP)—The government-owned freighter Wichita was bound for Manila today without the cargo of munitions and airplanes with which it started out for Hong Kong.

The two cases of revolvers, two cases of cartridges and 10 flat "mail" planes were ready converted into Chinese bombers, were unloaded here to await the first steamer sailing from President Roosevelt's base on transportation of war supplies in the government boats.

Capt. John Valentine Redmond of the Wichita's skipper, said the cargo was unloaded as a result of fears that it might be used to arm the Japanese in the Philippines and as a result of the President's embargo.

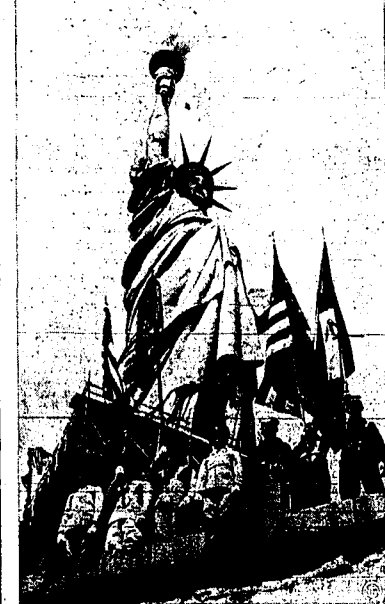

The Wichita already had started her voyage from Baltimore when the order was made, and skipper believed it was exempt from the embargo.

There was a shipment of barbed wire still aboard but the skipper said it was "for fences around the Wichita" and not for barbed wire entanglements.

BULL'S SINKING CANYON REGION STIRS AGAIN IN NEW MOVEMENT

Indicating that the disturbance of the H. A. Robertson ranch, seven miles northwest of Burley in the vicinity of the "sinking canyon" are far from ended, new fault movements were noticed today.

Liberty Fetes Constitution

Have you ever seen the Statue of Liberty's torch ablaze before? There just look how the smoke pours from it above. The occasion was the celebration of the 150th anniversary of the signing of the United States constitution. Army and navy color guards joined to present the colors on the parapet of the statue's pedestal, Bedloe's Island, New York harbor.

Chinese Attack as Rain Holds Back Nippon Craft

Both Sides Claim Possession of City of Lotien and Disclaim Holding Kiangwan

SHANGHAI, Sept. 17 (UP)—Chinese, seizing advantage of heavy rains that immobilized Japanese airplanes and tanks, attacked ferociously all units along the Shanghai front today.

Infantry, "dare to die" units and big sword men smashed at the Japanese lines in the Lotien, Liuhang and Aikuo sectors. Reports from the front told of savage hand to hand fighting, in which the Japanese called for reinforcements.

The Chinese continued their gradual withdrawal to a new defensive line. But it had become evident that their retreat was a planned one, as they asserted, for the movement of the scores of thousands of men involved seemed effected with clockwork precision and rear guards challenged the Japanese at point after point.

Chinese aimed to prevent the Japanese from claiming the town of Lotien and each side insisted that the other hold Kiangwan and the international air base course at Hsiao.

Chinese fortifications for their big defensive stand proceeded on a gigantic scale. Thousands of men were building defenses in the north station sector, north of the international settlement and southern point of the new line which extended northward to the Yangtze river.

In the Nantao native quarter, on the opposite side of the international settlement, and paralleling the French concession, more soldiers and workers started to dig a great trench along the Yangtze river.

The new disturbance extends along the west wall which adds additional thousands of tons of rock down into the river bed.

The new disturbance extends along the west canyon wall for a distance of probably more than 1,500 feet and the slippage at the present time seems to be approximately 50 feet in width.

ODDITIES

BLow ALTURIAN, Calif., Sept. 17 (UP)—A blow was struck for horsepower against its arch-enemy, the automobile industry, today when a horse broke the leg of a motor car dealer, Howard Doyle, Reno, Nev., was struck in the knee with a heavy timber, dislodged when the animal became frightened.

TROUBLES LOS ANGELES, Sept. 17 (UP)—Marital troubles came in pairs today. The Coats twins, Louise May and Lois Maude, filed suit for annulment of their marriage to the twin brothers, Herbert and Hubert Sharp on grounds that they married less than a year after receiving their inter-lucency divorce decrees from another set of twins, Roy and Ray Sebring.

DEPORTMENT CLEVELAND, Sept. 17 (UP)—Sheriff Martin L. O'Donnell today lauded "report cards" for inmates of the Cuyahoga county jail. They will be filed with the judges in charge of cell blocks. Chief Item: Deportment.

Roosevelt Will Speak at Fete in Capital Tonight

Borah Opens Debate by Attack on Judicial Plan

WASHINGTON, Sept. 17 (UP)—President Roosevelt, Secretary of Interior Harold L. Ickes and foes of the administration's defeated judiciary program observed the 150th anniversary of the constitution today with speeches bearing on the possibility of revival of the supreme court issue.

Sen. William E. Borah, R. Idaho, veteran constitutional expert and strategist in the fight against the administration court plan, opened the debate last night with a radio speech in which he said that an independent judiciary was essential to democracy, and flayed dictatorial tendencies at home and abroad.

COPELAND LOSES IN NEW YORK'S MAYORALTY RACE

LaGuardia and Mahoney Both Defeat Senator on Two Tickets

NEW YORK, Sept. 17 (UP)—Jeremiah T. Mahoney, who extolled the New Deal throughout his campaign, defeated Tammany's mayoralty candidate, Sen. Royal S. Copeland, resoundingly in yesterday's primary almost complete returns showed today.

Mayor Fiorello H. LaGuardia also won in the city's second election, but in the Republican ward Copeland ran on both Democratic and Republican tickets and was actively backed by former Gov. Alfred E. Smith. La Guardia got more than 50,000 Democratic votes on a write-in vote.

Incomplete returns shortly before noon (EDT): Republican primary: La Guardia 50,823; Copeland 47,200; 55 districts counting of 3,797.

Democratic primary: Mahoney 412,103; Copeland 241,097; La Guardia 105,500; 63 districts counting of 3,797.

The "write-in" vote for La Guardia seemed to make it evident that he had carried the votes of thousands of Democrats at the general election in November, and his supporters already were declaring that he was assured of another four-year term in city hall.

Speech Changes Seen In the past 48 hours Sen. Borah's speech has changed so much that it is probable that the Bill coproduced has resulted in major revision.

Borah criticized statements from high German sources that Nazi seminars in foreign lands must be prohibited to their activities in behalf of the Hitler regime. As long as they observe the law of this country, he said, they will be protected, but if not they will be "driven in independent courts and not in the puppet courts of their homeland," said, it is convinced, published.

ICKES DEFENDS COURT PROGRAM

Secretary of Interior Laahas Opponents of Plan in Talk At Pittsburgh

PITTSBURGH, Sept. 17 (UP)—Secretary of Interior Harold L. Ickes said today that if the constitution is to be preserved "the people themselves must protect it from further encroachments" by those who would use it selfishly.

Speaking in Forbes field at a sequentennial celebration of the signing of the document, Ickes bitterly assailed opponents of the President's defeated court reorganization plan. He attacked Chief Justice Charles Evans Hughes and accused the court of using "obstructive tactics" against President Roosevelt.

Needs Protection "I give you the Constitution of the United States," Ickes said, "the greatest document ever penned by hand of man, an instrument that, for all its wisdom, the enemies without its gates and the traitors within."

"If it is to continue to live and serve the people, then the people themselves must protect it from further encroachments."

He described the court enlargement plan as a "heinous crime" in the eyes of certain persons, who themselves must protect it from further encroachments.

He described the court enlargement plan as a "heinous crime" in the eyes of certain persons, who themselves must protect it from further encroachments.

15-Year-Old Coast Couple Is Married

SAN FRANCISCO, Sept. 17 (UP)—Manuel Del Llano strummed his guitar and sang love ballads today to his bride while she sat sewing baby clothes.

Both are 15 years old. They were married yesterday at San Francisco by Judge Thomas M. Foley. Juvenile authorities opposed the marriage but Superior Judge George S. Bishop permitted it out of deference to their unborn child.

Black to Sail for U. S. on Sept. 25

LONDON, Sept. 17 (UP)—Justice Hugo L. Black will sail from Trinidad for the United States September 25 with Justice James O. McReynolds, a fellow member of the United States supreme court bench as a fellow passenger, the Manchester Guardian reported today.

FACULTY PICNIC SET FOR OCT. 2

Members of the Junior high school faculty decided yesterday to continue with the annual outing this year and to hold it in the form of an all-day picnic with the tentative date at Oct. 2.

Questionnaires had been distributed this afternoon by which a decision will be reached as to the destination of the teachers on their get-together.

George Sprague headed the committee which made the necessary ballots to decide the question of whether the outing was to be held and whether on an afternoon picnic, all-day picnic or a weekend outing.

Other committee members were: Mrs. Emma Jones, Miss Wilma Howarth, and Chasiney Abbott.

Animal Types Believed on High 'Sky Island'

SCIENTISTS MAY FIND NEW LIFE FORM ON SHAFT

267-Acre Plot With Straight Walls Scaled by Group Of Scientists

GRAND CANYON, Ariz., Sept. 17 (AP)—A party of explorers reported today that it has found "unmistakable evidences" of animal life on an "island in the sky," 4,800 feet high and isolated from other land for 20,000 or more years.

This report, one of the most exciting in the annals of natural research, was made by two members of the party that scaled the sheer sides of the "island" yesterday. They were the first men, in living or written memory, to visit it, and, according to scientific conjecture, may have been the first men ever to have touched its soil.

275-Acre Island

The "island" is the 275-acre top of a shaft that rises from the bottom of grand canyon, whose walls are almost as steeply perpendicular as the sides of a column. This shaft was formed by the cutting, grinding currents of the Colorado river as it dug out, over countless eons, the Grand canyon. It is called Shiva temple.

Four scientists and five packers climbed the walls yesterday. Last night all but two returned for more supplies, and reported that they had found deer runs, horns shed by deer, and traces of other animals. They found no water, which meant, M. R. Hiltson, superintendent of Grand Canyon National park, that "any animals living there have developed permanent characteristics that enable them to exist without moisture from plants and what rainfall occurs."

Set Animal Traps

Dr. Harold D. Anthony, curator of the mammalian department of the American museum of natural history, New York City, and Edwin D. McKee, chief naturalist of the national park, remained on the "island" all night to set traps for animals. Their seven comrades will return today with more food and water and other supplies.

Dr. Anthony himself was as much out of touch with civilization as though he was on an unknown continent, though, from the top of Grand Canyon, his camp fire could be seen clearly.

Established on Island

The scientists believed that for hundreds of years, while the canyon got deeper and deeper, animals were free to back and forth from the island to the mainland; then as the depth gradually increased, with increasing facility, at last the lines arrived when the walls were so high and so sheer that it was no longer possible, and whatever animals had established themselves on the island, were permanently isolated. This occurred, at a minimum, scientists estimate, 20,000 years ago.

This means, in the basic premise of scientific conjecture is proven to be correct—that the island has been completely isolated—that species of animals have developed on the island absolutely independently of the species on the mainland. It means that the island might contain species of all animals entirely unique, but with a common ancestry with the rabbit, the fox, and the wild cat of the mainland.

The appearance of the alligator is similar to that of the lizard, and it was a natural mistake for the early explorers to classify the alligator as a giant lizard.

Actress MacArthur Shirley's Guest

As one actress to another, Shirley Temple, left, was only too glad to accommodate Mary MacArthur, right, with a signed photo when Mary stayed the studio on a recent Hollywood trip. Daughter of actress Helen Hayes, Mary made her stage debut last February with a "walk-out" part in *Victoria Regina*. But seven years ago Mary won even wider fame as the "act of God" baby, when her birth caused Miss Hayes to leave her show and precipitated a court wrangle.

Twin Falls Youth Tells of Three Years in Film Capital

By JEWEL LUNDIN

King Shipman, former local boy and a graduate of the Twin Falls high school class of '24, gave old friends a thrilling story today of his three years of Hollywood life as a successful dancer, actor and composer.

Comfortably seated in his favorite chair in the living room at the home of his parents, Mr. and Mrs. W. G. Shipman, located southeast of the city, he remarked that he enjoys coming home for his vacation, but "Twin Falls seems a bit dull and lonely now after spending three years on the stage. Oh, I don't want you to get the idea that I don't like it here." He grinned in confusion.

"I love this place. It's just that all of my old friends are gone away, or married. It's so different now."

He added, "I guess Twin Falls is changing—like myself, but after all I wouldn't trade it for all the rest of the world."

King says he is happy in Hollywood because there are dozens of thrills right after the others. Something entirely new every minute. But, says he:

"I can assure you this, that every actor or actress I have met is much different from what most people believe. All of this harsh publicity you read about them is absolutely false. Most of the stars have a great personality and are bubbling over with life."

Getting up, he walked to the piano and showed me some of his music.

"You see," he said, "I have composed several musical numbers, most of which are for opera. I am anxious on producing more plays in the future." Seating himself at the piano, he ran over several of his numbers for me.

"I've already produced several numbers," he explained. "I have a large marionette stage entirely complete and with all the scenery which I've been using in my productions. But as I'm going stronger for acting I've given my entire marionette show to the Twin Falls high school."

NO CHANGE SEEN FOR SILVER ACT

Administration's Purchase Program to Be Scanned in Next Few Weeks

WASHINGTON, Sept. 7 (AP)—The administration's silver purchase program is expected to be canvassed during conferences scheduled for the next few weeks, officials indicated today.

There was no intimation, however, that changes were anticipated. Continuation of the existing silver program is expected to be one of the items discussed at next week's meeting of Secretary of Treasury Henry Morgenthau, Jr., and Sir Frederick Phillips, under-secretary of the British treasury.

The London inter-agreement and the presidential proclamation fixing the price of domestic newly-mined silver at 71.57 cents an ounce both expire at the end of this year. Some sort of program must thus be worked out for next year.

Under the 1936 silver purchase act which provides that the silver reserves shall equal one-third of the nation's gold reserves, approximately 1,000,000,000 additional ounces of silver will have to be purchased. There is no time limit set for execution of this act.

Bliss Residents Obtain Peaches In Freak Wreck

BLISS, Sept. 17 (Special)—Three freak accidents involving unknown parties, occurred here lately, causing considerable damage, little injury to persons and a good deal of excitement to the town.

The first occurred Saturday evening of last week when a heavy truck loaded with choice peaches from Spokane and headed for Salt Lake City turned over on a sharp curve half way down the Bliss hill.

The weight seemed to have shifted and the truck bed left the frame work of the truck to fall on its side and spill peaches far and wide. Fully 150 boxes of choice peaches were unceremoniously dumped in a mad scramble along the highway and down the edge of the turn in the sage brush below.

As soon as news of the mishap got to Bliss the town people got out boxes and baskets and jumped in their cars to head for the accident scene. The less battered of the fruit was sold at a nominal sum to the people who drove by. The rest lay in nearly every home in town peaches were being canned.

Second Mishap

The second mishap occurred Saturday evening when two unknown parties in a "bug" took the turn at the foot of the hill leading into town from the east too fast and succeeded in sliding, crazily and finally ended spilled in the middle of the accident scene. The less battered of the fruit was sold at a nominal sum to the people who drove by. The rest lay in nearly every home in town peaches were being canned.

AUGUST CRASHES KILL 23 IN IDAHO

Report Shows Decline of Six For Month; Average For Year Is Up

BOISE, Sept. 17 (AP)—Lives of 23 Idahoans were snuffed out during August by automobile crashes, the state department of vital statistics said today.

This was six under the death toll of 29 in August of last year, and a decrease of five from the 28 persons killed this July.

August's record of deaths brought total persons killed in the state during the first eight months of this year to 125. In 1936, only 99 persons had been killed up to Sept. 1.

The department pointed out, however, that August's record marked the month with largest number of automobile fatalities.

Downings decreased 50 per cent as compared with last year's figures. This August, 13 persons drowned. In August of 1936, 28 persons drowned.

State Officer Feted At Circle's Luncheon

An attractive one o'clock no-hostess luncheon was given today at Wray's cafe by Dan McCook circle, No. 3 of the Ladies of the Grand Army of the Republic to honor Mrs. Elsie Byce, state department president, and other department officers.

Other officers present were Mrs. Carrie Galley, secretary, and Mrs. Margaret Evans, treasurer, both from Hansen. Past department presidents attending were: Mrs. Bertha Clyde, Mrs. Laura Whitney, and Mrs. Hazel Leighton from Dan McCook circle and Mrs. Estella Fuller, Bliss, a member of Sherman circle at Eden.

Patriotic Theme
Twenty guests were seated at the long table which was centered with dahlias on a blue mirror base. Red and white napery in blue holders were placed at each end of the table and every place was marked with a corsage and red, white and blue placards.

The luncheon was entirely a social affair of Dan McCook, Lincoln and Sherman circles, immediately following which the group adjourned to the auxiliary room in the American Legion memorial hall where Mrs. Byce conducted her luncheon. Mrs. Byce is returning to her home in Boise after attending the national convention of the Grand Army of the Republic which was concluded at Madison, Wis., last week. Her visit here was part of the state department program conducted by the state president each year.

Presented Gift
During the afternoon session the members gave an amplification of the ritual and Mrs. Byce was presented with a gift from Dan McCook circle. Mrs. Leighton, as chairman of the auxiliary committee, made the presentation and also a gift to each department officer attending the afternoon meeting.

Homecoming Plans Discussed
At yesterday afternoon's meeting of the Women's Council of the Christian church plans were made by the 50 members for the homecoming celebration to be held on Sunday, Mrs. L. E. Whitel, president, conducted a session which was held in the Idaho Power auditorium. Mrs. Newman Nesby was hostess and departmental leader was Mrs. Arvilla Bayne.

Homecoming Plans Discussed
During the social hour Mrs. Nesby presided and Miss Amy Villa of the Idaho Power company gave a talk on kitchen planning. Mrs. A. J. Buchanan presented two readings and Grace Wagner played a violin solo.

Refreshments were served by Mrs. Nesby's division.

Evening Guild Attends Supper
Twenty-two members of the Evening Guild of Ascension Episcopal church were present at the initial fall session held last evening at the home of Mrs. H. R. Fisher on Addison avenue. Hostesses, Mrs. Fisher, Mrs. E. Butler, Mrs. Laine Neely and Miss Alice Taylor, arranged an al fresco supper in the garden where there is an open fireplace.

Refreshments were served by Mrs. Fisher's division.

Bridge Club Members Meet
Mrs. Wayne Welty entertained members of the bridge club at her home last evening. The girls were at play with high score awards going to Mrs. Welty and Mrs. George Sheld.

Guests were Mrs. William B. Long and Mrs. Helen Russell. Refreshments were served at midnight by the hostess.

Two Wax Frocks Pattern 913

REORGANIZED CHINESE ARMY ATTACKS NIPPON TROOPS

DEFENDERS CUT IN FROM 2 SIDES IN MAJOR FIGHT

Japanese Military Experts Admit 'Unexpected Stiff Opposition'

By ROBERT MCGREGOR
PEIPING, Sept. 17 (UP)—Japanese forces, attempting a major drive to the south from north China, were attacked on two sides near Peiping today by a reorganized Chinese army.

Japanese military authorities here admitted their troops had encountered "unexpectedly stiff Chinese resistance" along a line 10 miles wide and an area about 30 miles south of Peiping.

Two Japanese regiments crossed the Chiuma river at Kuang and were met by a huge force of Chinese that had been held in the hills awaiting the moment for a surprise attack.

Bloody Battle
A bloody battle continued for hours, Japanese planes went aloft and dropped tons of bombs on the defenders. But they failed to split the Chinese lines and the Japanese advance on the Peiping-Hankow railroad, their objective, apparently was halted.

The Japanese found themselves almost between two Chinese forces when another large group attacked them from the north and east in the vicinity of the Peiping-Tientsin railway near Hungtuan, 13 miles directly north of Peiping.

Hand-to-Hand Fight
Refugees from Hungtuan reported that the Chinese forces crossed the Yungting river near Lianghsan and engaged the Japanese in a wild hand-to-hand battle.

The Chinese attacks threatened Japan's communications to Manchukuo over railways which are of vital necessity to them for transportation of food, arms and munitions and reinforcements.

One Japanese report said, however, that the Chinese forces crossed the river near Lialiuo, 30 miles south of Peiping, and that its fall was expected at any moment.

Further to the south, it was noted the Japanese were reported to have assembled one of its largest forces in China for a major offensive against the main body of Chinese troops concentrated there.

Boys Burn to Death In Ice House Blaze

DESERET, Utah, Sept. 17 (UP)—Wells Robinson and Robert Wheeler, both four years old, were burned to death here yesterday when an ice house was destroyed by fire.

The children were believed to have started the blaze by playing with matches.

EDEN

Mrs. Delmar Jones and baby daughter, Peggy Jane, of Silverton and Mrs. L. T. Jones of Durango, Colo., arrived in town today at the home of Mr. and Mrs. Durtis Metcalf. Mrs. Delmar Jones is Mrs. Metcalf's daughter.

Eighteen ladies gathered at the home of Mrs. Charlie Stone, for the regular meeting of the Ladies Aid society. Mrs. Adeline Jordan gave the scripture reading. During the business meeting plans were made to give a reception in the church basement for the teachers this evening. Committees were appointed to complete the arrangements. The remaining part of the evening was spent over to Mrs. Hawley who had charge of the Bible study lesson. Mrs. A. E. Osh, Mrs. Frank Fulton and Mrs. W. Gordon assisted with the program. Refreshments were served by the hostess.

Miss Browning of Missouri arrived the latter part of the week to visit with friends and look for a favorable location, having sold out her farming equipment before coming west.

Members of the Relief society met at the P. H. hall for the work and business meeting of the month. A quilt was quilted that was presented to the society at the last meeting. During the social hour, Miss Wheeler's show was given to Mrs. Nellie Martin and Mrs. Maude Richardson, whose birthday was celebrated with the program. Refreshments were served by the hostess.

Mr. and Mrs. J. L. Reynolds bought the home of Mrs. Adeline Jordan this week. The Reynolds have been living on their farm but due to Mr. Reynolds' health have decided to move into town.

Mr. and Mrs. W. B. Brown, who have been visiting at the home of Mr. and Mrs. Frank Brown for several weeks, returned to their home in Los Angeles last week.

Miss Helen Wick has a niece this week her brother, Oliver Davis, and her uncle, Harold Loomis of Milmore, Utah, who were returning from a trip to Alaska where they visited Mr. Loomis' parents.

The Hildale highway district is granting a part of the road south of town this week.

L. W. Bebout has announced that the organization of a band in the area is to be a plus with well under way with more students enrolling than had been expected. One half dozen will be instructed in the school district building with next Monday. A well balanced band is being formed with the instruments ranging from the drums to the trumpet.

Miss Helen Wick returned to Durango Monday to resume her work in the boys' home. Her husband, who had having been broken, she was unable to work for the past three weeks.

Mrs. W. B. Lewis had the misfortune to fall last week while at the home of her daughter, Mrs. Lee Harris, injuring her ankle.

Here's Oddity for Movie Fan: Screen is Dark Half the Time

When you see a movie, say of 60 minute length, did you know that half the time you're seated in the theater you're looking at a blank screen?

Take the word of Frank Johnson, operator at the Orpheum, who ought to know. He has been in the "game" for 17 years.

The period of darkness on the screen, according to Johnson, is caused with each change of the picture. This is necessary because of the distance between the actual projector and the sound "box." Characters on the film don't move. What you see on the screen is really an optical illusion caused by the speed with which the film travels, that being 24 different pictures each second or one and one-half feet of film.

Accurate Sound
So perfected is sound equipment at the present time that the voices of the stars you hear would sound just the same if you were standing in front of you in real life. Voice reproductions are accurate.

An operator's shift varies from six to eight hours and, in the case at the Orpheum, he is handling \$15,000 worth of equipment situated in a fireproof projection room.

And like the postman who DOESN'T go for a walk on his day off, Johnson hasn't seen a picture he hasn't operated himself for years. And those he operates he likes.

In other words Johnson takes his airplane and gets up in the air for his recreation.

And just as a sidekick, you might be interested to know that whistling and clapping which occurs about the film break doesn't bother the operator. He's used to it. He has to re-thread the film; it takes just so long and so that's that.

Old "Headache Days"
When the "talkies" first came in the voices were carried on a record which was synchronized with the film. In other words the record and the film had to be started at the same time and one little slip threw the whole thing off. These, Johnson remembers, were

Trouble Shooter Takes Over Job of Finding About 'Dummy' Requests

By ALLEN DIBBLE
WASHINGTON, Sept. 17 (UP)—Chairman Frank B. McNinch of the federal power commission will assume his new post as "trouble shooter" head of the federal communications commission Monday with his first task indicated as an inquiry into charges concerning creation of "dummy" broadcast corporations.

Taking temporary leave of his regular duties McNinch will use the full authority given him by the President to investigate charges that have led to threats of a congressional investigation of the communications body. The soft-spoken southerner, begins the work Monday.

The commission has alleged that George S. Smith and Paul M. Segal, Washington attorneys, have represented "dummy" clients in efforts to obtain authorizations. Smith and Segal have entered full denials of the charges.

The charges will be thrashed out in a hearing Oct. 5, over which McNinch will preside. He will investigate at that time charges of illegal procedural practices before the commission.

Charges against Smith and Segal grew out of an investigation conducted by Commissioners George Henry Payne, Thad H. Brown and Paul A. Walker.

Sen. Burton K. Wheeler, D-Mont., chairman of the senate interstate commerce commission, has alleged that the commission has been "a political football" since its establishment.

The Payne investigating committee charged that Segal and Smith established the Payne Broadcasting Syndicate, Inc., Commercial Broadcasters, Inc. and the Great Western Broadcasting Association, Inc., and other corporations in connection with applications for stations at Portland and Lewiston.

Major, Chyenne, Wyo., Moorhead, Minn. and Provo and Logan, Utah.

It further was alleged by the investigating committee that Geraldine Albershagen and Richard M. Cato were "dummy" applicants for stations the two attorneys sought for "another person, or persons."

FIELD SECRETARY ANNOUNCES VISIT

Minora DeMota, National Staff Worker, to Come Here Oct. 19

Miss Minora DeMota, national field secretary of the Camp Fire Girls organization, will be in Twin Falls on Oct. 19. Her third visit to this section, it is announced today by Camp Fire leaders following a meeting of the board of sponsors.

During the two-day visit here a special session will be held to which all guardians and leaders from near-by communities will be invited.

At the meeting the budget recommended by the district association was unanimously adopted. A preliminary financial report of the summer camp season was presented.

OFFICERS EXPECT JEROME INQUEST

Death of Hazelton Transient May Be Probed Today At Inquiry

JEROME, Sept. 17 (Special)—An inquest to inquire into circumstances of the mysterious death of J. Huston Peterson, 27, Los Angeles, a transient from Choteau, Mont., was expected late today, according to Jerome city officials. Peterson's death was alleged to have occurred yesterday at 4 p. m. following an alleged altercation at a Hazelton pool hall.

Peterson was dead when Coroner J. R. Wiley arrived at the scene. Sheriff James W. Davis said today that no arrests or charges had been made today. He stated that X-ray examinations by physicians showed the man had no broken bones or body wounds.

Peterson was found to have come to Hazelton with a young companion from Teton county, Mont., and had been engaged for about two weeks on railroad construction work near Hazelton. Early yesterday Peterson had left Hazelton to go to work on a farm and had returned at noon. Brothers of the man have been notified by Sheriff Davis, who wired to Los Angeles.

Legion Directors Retained by Post

Members of the American Legion unanimously re-elected the board of directors at their meeting last evening at Legion Memorial hall. The program of the board is unfinished.

The organization made plans for the Armistice day celebration and Pat Parry, assisted by Joe Blandford, will serve on the program committee; Wilton Peck, musical program; Herb Smith, banquet; and Carl Nichols, in charge of the program. Other members of the board are: Jones, R. E. Leighton and John Day, dance.

Membership emblems were presented to last year's committee members by Ed Tinker, who was named new chairman of the membership committee. Others appointed were Joe Blandford, community chest; Floyd Campbell, relief; Voy Hudson, bugle and drum corps; Ralph Leighton, general; Joe Blandford, safety first; W. W. Frank, John Day and Harry Taylor, Boy Scouts.

Staff Photographer For Life Magazine Impressed by Idaho

BOISE, Idaho, Sept. 17 (AP)—Hanso Bristol, staff photographer for Life magazine, said today that Idaho was a "tremendous assignment." He said he was astounded by the pictorial possibilities of the primitive area. Bristol, under assignment to give Life a series of Idaho stories, is making his survey from the air. The state board of examiners indicated it would allow \$300 to defray cost of the plane.

Dinner Event Given For Miss Matson

Miss Grayce Matson, who has recently returned from an extended trip to the east, was guest of honor at a dinner party given last evening at the home of Mr. and Mrs. Wendel Glenn, Kimberly, by operators at the Grayce Matson Beauty shop. Games were played during the evening.

SOMETHING NEW UNDER THE SUN—

All too infrequently, someone in business conceives an idea that is new and radically different. American business thrives and grows because of the ingenuity of the American business man. Glen Jenkins, local Chevrolet dealer, has conceived and placed in operation for the balance of this month, an idea which will be the source of much comment in Twin Falls vicinity. He is operating used cars as modified. Everyone knows that a modified, even a good automobile man, but even the best is liable to mistake a 1931 model for a 1932 model car and be the goat because of it. It is expected that many residents of this vicinity will have the opportunity to be benefitted at Glen Jenkins this month. The reason for this unique idea is that Mr. Jenkins intends to display to pass 1937 Chevrolets the balance of this month and knows that many will give his business a try to do this job—Ad.

NEBRASKA SOLON SCORES LEADERS

Burke Oails on Americans to Fight Any Attempt to Enlarge Court

RUSHMORE, S. D., Sept. 17 (AP)—Sen. Edward R. Burke, D., Neb., sitting in the shadow of the great Black Hills memorial to Washington, Jefferson, Lincoln and Roosevelt, called upon Americans today to stand ready to fight any attempt by the administration to revive President Roosevelt's supreme court enlargement plan.

Charging that the administration's tendency toward centralization of government threatens a "one-man" rule, the Nebraska Democrat stoutly defended the independence of the supreme court and lashed at what he termed attempts to undermine the constitution, to stir class hatreds or set "group" against group.

His Farley Democratic national chairman James A. Farley came in for stinging criticism for the "dictatorial" flavor of a statement regarding Mr. Roosevelt.

"There should be instant repudiation of the doctrine recently expressed that the American people are so well satisfied with present leadership, or perhaps helpless to do otherwise, that they are willing to accept anything that the master suggests, no matter what it is, and without bothering to know what it may be," Burke, who bitterly fought the administration court bill, said in reference to Farley's remarks.

Speak at Dedication—If this is not the stuff out of which dictatorships are made it is difficult to see what could be better fitted for the purpose.

Burke was principal speaker at ceremonies at the dedication of the Mount Rushmore memorial—the giant faces of Washington, Jefferson, Lincoln and Theodore Roosevelt carved out of the granite of the mountains by Gutzon Borglum. He referred frequently to the principles of Jefferson and Lincoln in assailing the trend of the Roosevelt administration.

Send The Idaho Evening Times To Them Again!

The Idaho Evening Times offers Special Student Subscription Rates for the Entire School year, from the date your order is received until June 15, 1938...

Within the State of Idaho \$2.50
Outside the State of Idaho 3.00
No extra charge for mailing!

Believe It Or Not!

Here is an inexpensive gift to your daughter or son that will give enjoyment every day of the school year. It will keep them in close touch with happenings in their home town, visit their relatives, neighbors, and friends are doing.

Think It Over!

There's a distinct saving!! How many of you gather together a week's papers, bundle them up, and mail them out once a week. You venture to say a good many of you do and every time you mail a bundle it means all the way from 10c to 15c, multiply that by 32 weeks of school and you have already spent from \$3.20 to \$4.80 in postage, along with all the fuss of mulling papers, some of which will be better than a week old by the time they are received.

Then too, if you are the letter writer, look at the reams of paper you can save not having to give them the local news and briefs, save your letters for the choice bits of gossip that we can't furnish.

Do It Today

Then fill out the blank below and mail in, or just phone 3R and give your order and the paper will be started immediately, we will bill you later.
