For most of a week Clyde Herrick added to his reputation as New York's most daring thief and kidnaper. He stole a car, time and again he evaded the net. But the end of the chase he led police was lame. A squad of officers captured him at Home, N.Y., and captured him with out firing a shot although Herrick carried three pistols. Manicled and cuffed, Herrick, above, sits dejectedly in the police station, where he was brought by the two patrolmen he kidnaped, then released.

**Madrid Uprising Reported Frustrated by Loyalists**

**RACKETEER HELD UNDER BIG BOND**

**Report Says 3,000 Fascists Involved in Newest Outbreak**  
 BY IRVING B. PFLAUM  
 MADRID, Sept. 25 (U.P.)—A Fascist uprising within Madrid, timed to coincide with a new nationalist assault, was reported today to have been frustrated by the loyalist government.  
 More than 3,000 persons were involved, according to Gen. Jose Miaja, supreme loyalist commander of the central front.  
 The Italian embassy was the center of activities, according to the government, and several other embassies would have given Spanish their votes on condition that the government permit all refugees to leave the city.  
 A formal statement by Miaja said that the "White Falcons," as the organization was called, had members in official circles.  
 Unfolding of the plot especially the one involving the Chilean embassy, was believed by independent observers to be connected with Spain's failure to obtain a permanent seat in the council of the League of Nations.  
 The loyalist government blames the Latin American countries for its failure to obtain a council seat. The South American countries in the League voted against Spain.  
 It was said that the Latin American countries would have given Spanish their votes on condition that the government permit all refugees to leave the city.  
 The government said that it agreed to allow women and children to leave but not men of military age.  
 Miaja handed newspapersmen a 2,500-word statement signed by the chief of the secret service, saying that more than 300 persons have been arrested in connection with the plot. It listed names of army officers and specific acts of espionage which were being carried out by the insurgents. He was formerly chief government telegraph operator in Madrid.  
 Madrid newspapers said that nearly 8,000 persons were involved in the plot, including 5,000 in the government, military organization and 2,500 in civil sections of the government.

**Ketchum-to-New York Bull Riders Decide to Rest Up in Twin Falls**

**Here Today—Long Way to Go!**  
 Riding to heaven on a mule can't be held as much fun as riding to New York City, and now with a bull.  
 Take it from Vic Lusk "Red" Wood and Ted Terry who are doing just that and will stay in Twin Falls for about a week.  
 Three hairy youths out of Ketchum and Sun Valley, arrived in Twin Falls last night and although in little attention, they are to ride their bull and two horses down the street while a mule carries all their camping equipment as well as a musical instrument.  
 Leaving Sun Valley on Sept. 15 the three rugged cowboys rode over since getting to Twin Falls. From here they plan to go east toward New York City, getting there just in time for the world's fair in 1939.  
 Bull Grows Stronger  
 "If anybody gives out on this trip it won't be the bull," Lusk said today. "That animal is getting stronger every day, and with the sleep we had on this, doesn't mind the long walk a bit."  
 The bull, which is ridden by the boys, is not saddled but a blanket is thrown over his back to protect both the rider and the bull.  
 The bull, as well as the three city beards of burden, are being given time to rest up, if they need it, in stockyards located at the rear of the City Fuel company, at the end of Portland street near the Rock creek bridge.  
 Hitting themselves up in the city, dressed in typical cowboy costumes, invited the downtown area this afternoon. Off the record, police officers (Continued on Page 4, column 4)

**96 Craft Take Part In Japanese Maneuver**

**NANKING, Sept. 25 (U.P.)**—Fulfilling their threat to spray China's capital with death from the air, Japanese planes made five raids over the city today, killing 300 and maiming 400.  
 There were 96 planes in the raids and official estimates said 200 bombs were dropped. Five of the invaders and three defending Chinese planes were shot down. The latter fell outside the city limits, not having engaged the enemy over its center.  
 Shock of the explosions was felt at the U. S. embassy, a mile away.  
 Most destructive of the bombs were dropped by a fleet of giant Japanese bombers which circled over the heart of the city.  
 A sixth raid, for which an alarm was sounded at 8 p. m., did not materialize.  
 U. F. Office Damaged  
 Four Japanese bombs which struck across the street late today damaged the United Press offices. Plaster was blown from the walls by four explosions. Wooden partitions were splintered by glass and doors were broken. The Japanese bombs made a direct hit on the offices of the national economic council.  
 A Japanese navy spokesman in Shanghai said:  
 "It is very deplorable that the world thinks the Japanese are bombing Chinese cities indiscriminately. We are not Chinese non-combatant casualties at Nanking are not so great as originally reported. Damage to foreign property has been very small. We repeat that we are not making war on non-combatants." Jack Belden, United Press staff correspondent on his way to the northern front, arrived at the little railway station at Nanking today to find even his hospital destroyed by successive bombings.  
 Chinese authorities announced officially today that 600 persons were killed and 700 seriously wounded in a raid on Hankow, far up the Yangtze river, yesterday.  
 An official announcement said Hankow was re-bombed today. No details were given.  
 On the Pootung waterfront of Shanghai, Chinese machine gunners swept the decks of Japanese warships in the river after a preliminary artillery bombardment. The Japanese cruiser Idzumo, flagship in the Shanghai region, was under specially heavy fire.

**100 Inmates Sulk in Cells Today on 'Sitdown' Strike**  
 SAN FRANCISCO, Sept. 25 (U.P.)—A hundred inmates of Alcatraz Island prison sulked in their cells today on a "sitdown strike."  
 The penal colony seethed with unrest, Warden James B. Johnston was confined to his home from the effects of a beating administered by a life-term prisoner who sprang at him from an inspection line.  
 One 280 prisoners were locked in their quarters this morning. The strike was expected when guards gave the customary work calls. The result: 100 were interviewed at a time yesterday. Each refused to go to his place in the shops and was put in a cell.

**HIX GIVEN NEW EXECUTION STAY**

**Attorney Files For Notice Of Appeal With State Supreme Court**  
 BOISE, Sept. 25 (U.P.)—Execution of William Hix, 24, for the shooting of Frank Miller, elderly merchant, was indefinitely postponed here today when his attorney, C. A. Hurke, filed notice of appeal with the state supreme court.  
 Hix was sentenced to hang Oct. 22 by Judge Charles Koehne who presided over the trial at Mountain Home during the latter part of August.  
 Hix was convicted of shooting Miller and hiding his body near a mile farmhouse near Mountain Home. The crime apparently took place early in January, 1937.  
 The convicted slayer had escaped from Eagle Island prison farm on June 10, 1936, where he was serving term for forgery.  
 Prosecution sought to prove that Hix had fled to Miller's farm, fired there, then killed the merchant, selling his personal goods and farm equipment.  
 Hix's lawyer filed motion for a new trial but this was denied. The date of appeal can stay execution for 60 days, pending the court has not completed action during that time.  
 District court has 40 days to prepare a record, and defense has 90 days thereafter to submit briefs.

SUN VALLEY MAPS EXPANDED WINTER SPORTS PROGRAM

NEW SKI JUMPS WIDEN RANGE OF LODGE FACILITIES

Challenger Ibs Grows Swiftly At Ketchum; Reinder Herd Planned For Sleighting

By JIM KNIFE SUN VALLEY, Sept. 25 (Special)—Winter plans for Sun Valley are all set.

There is a look at these: Ed W. Van Dusen, director, has been right on the job getting things lined up, and he has some fine ideas.

Incidentally, if any of your horse teams, give Bob a call. He is looking for them and needs them for the winter.

Modern Kennels He is also working on an entirely new version of dog kennels—the most modern and up-to-date yet conceived.

Those of you who have not been up to see us for some time, will be amused at all in preparation for the winter season. The new Challenger Inn you know about, but you didn't know, as thousands of others, so rapidly, yet so expertly and completely. They are ahead of schedule so far.

Each day sees an advance in the physical state of the Inn. Already the sleigh is in place, the building is joined over the driveway, and the sleighing area is completed.

One group of workmen look the other. Those that put in the foundation are now the just finished their building on their foundations; the carpenters, plumbers, and electricians follow those; then come the painters, the "finishers-uppers," the painters, etc., until within two months, the Inn will be ready to receive the winter season.

The theater is also taking form; the cottage has just had the roof put on; the several private cottages are also being completed.

Further away, between the Froctor mountain and the Dollar mountain sit little, southeast of Trail creek, are the new buildings for an even more extensive lift. It will be 1,700 feet long, rising almost 900 feet with that distance, which will give you an idea of the size of the project.

These three ski-jumps just about complete what will be acknowledged the world's finest winter sports center. They are now being constructed under F. I. S. official rulings.

An event of special interest is being planned for the early part of January. The famous Manlius school of alpine location from every standpoint, a natural. It faces the north-west away from the sun; it is easily accessible, being only 180 yards in from the road leading to Froctor mountain; there is a wide flat stretch of ground at the bottom of the road, which will permit parking cars; the skill and proficiency in ski drill has already made it an alpine perfect jump.

On the slope of the mountain, the Dartmouth representing the east, and University of Washington upholding honors for the west. Other college entrants for individual honors will be included.

An "All-Idaho" meet will also be held sometime during the season. The annual Sun Valley open meet, originating last March, will have its second anniversary next winter, probably sometime in March, 1938.

The theater being constructed promises to be a point of interest in Sun Valley. Called the "Town Hall," it has a ball in the auditorium, and will be a fine place to assemble for various meetings.

Beginners Care! For beginners in skiing and jumping will be given due attention. The winter with the operation of a small lift on the practice slope. There will also be a little jump for those who had been in the Sun Valley sport. Also, "Nickel hill," the practice slope for neophytes, between Ketchum and the lodge was made necessary by those who had just discovered what a grand sport skiing is. With the facilities being put there now for these beginners, it is expected to be an even more popular sport.

BOARD SUSPENDS TRADING IN CORN

Chicago, Sept. 25 (AP)—The Chicago board of trade suspended trading in September corn, to halt fluctuations said to have resulted from an attempted corner.

Price of September corn was fixed at \$1.01; a bushel, at which yesterday's trading closed. Corn contracts for delivery of September corn, open at close of yesterday's trading, might be filled at that price, board of trade directors decreed.

The action, taken at the end of an 11-hour emergency directors' meeting, was aimed at a speculative "squeeze" which alic prices paid to the board.

Board members said the action was the most drastic ever taken by the board in peace time. Last time such a suspension occurred was in the World war, when it was necessary to halt profiteering. It was necessary, directors suspended trading only after futile efforts to arrange a peace between the "long" and "short" interests battling for control of the market.

That corn is to be delivered next Monday.

Wheat off to 1/2 cent; corn unchanged to 1/4 higher.

MARKETS IN WHEAT TRADE

CHICAGO, Sept. 25 (AP)—Superior of trade in September corn today removed the disturbing element from the grain market on the Chicago board of trade today and focused attention on the other deliveries as the market settled down to adjust itself.

At the close corn was 1/2 to 3/4 cent higher, wheat 1/4 to 1/2 cent lower, and oats 1/2 cent lower to 1/4 cent higher, September 21c.

October corn showed early firmness but December and May were not long in following its lead until a substantial advance was recorded.

It is understood that "shorts" in the September corn situation will demand an investigation by the commodities exchange administration of the elements which resulted in the suspension of trade in this contract and the placing of a settlement price at \$1.10.

Demand for wheat was feeble at the opening but despite some improvement after selling by local houses with eastern connections, prices persisted in extending lower. Liverpool was fractionally lower.

Although we have a fairly accurate estimate of how much gold has been mined in modern times, we have no way of knowing how much of that gold has gone back to Mother Earth. Buried treasure, ship wrecks, lost coins and the simple wearing away process have combined together keeping an ever steady stream of gold going out of circulation.

# MUSSOLINI HAILS HITLER AS CIVILIZATION DEFENDER

## IL DUCE GREETED BY BIG THROGS ON GERMAN VISIT

Italian Chief Bestows Rank Or Corporal on Nazi Leader

By FREDERICH C. OESCHNER  
MUNICH, Sept. 25 (UP)—Premier Benito Mussolini bestowed on Adolf Hitler the most cherished honor he could devise, hailed Hitler today as "the herald and defender of European civilization against subversive activities."

Mussolini, greeted by cheering throngs, arrived on a state visit to witness the German army maneuvers, the first time he had been on foreign soil since the Locarno conference in Switzerland in 1925.

Immediately after his arrival, he made a striking gesture to signify the solidarity of the Fascist and Nazi governments and their ideals.

Honorary Corporal  
Mussolini bestowed on Hitler his own rank of honorary corporal in the Fascist militia—which Mussolini created for himself and Hitler has never held by any other German leader. It was a gesture from one world war corporal to another. Both fought with that rank, in enemy armies.

The insignia is a simple inverted chevron. In presenting the stripes, Mussolini accompanied the ceremony with the following confirmation:

"As leader of the German people, he has given Germany faith and new greatness. He has given Italy in her moments of struggle his very high friendship."

Study Report  
As Mussolini and Hitler met, the chancelleries of Europe were anxiously studying a report that the Ethiopians in Mussolini's African empire had massacred every Italian soldier and civilian in Makale. They believed the dispatch to be untrue. The effect it would have on Italy's bargaining with the European powers.

It was a triumphant arrival for Hitler's brother dictator. The cheers rose to a thunder as the train reached the main station. Hitler, Baron Konstantin von Neurath, foreign minister; Gen. Franz Ritter von Epp, Nazi German leader, and many party officials were waiting, and Hitler stepped forward to greet Mussolini.

U. S. CHILLY AT TREATY URGING  
Washington Cool Toward All European Hints; Await Japanese Reply

WASHINGTON, Sept. 25 (UP)—American diplomatic officials, committed to an independent course in dealing with the Sino-Japanese hostilities, showed no enthusiasm today over suggestions from European capitals that the nine-power treaty be invoked.

Pending Japan's reply to the state department's vigorous note of protest over Japanese bomb attacks, officials were reluctant to commit the government to any specific course of action.

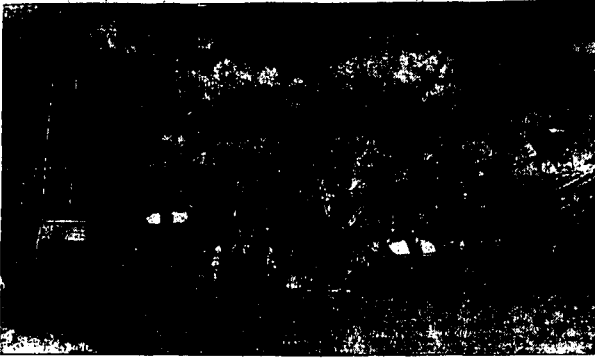

Secretary of State Cordell Hull said this government had not been approached by either France or Great Britain on the question of a conference of world powers to discuss the war in China.

There appeared no doubt, however, that the question had been discussed in diplomatic circles here, with particular attention to possible invocation of the nine power treaty of 1922.

The treaty—signed by the United States, Belgium, Great Britain, China, France, Italy, Japan, the Netherlands and Portugal—provides means of enforcing its provisions.

## JEROME'S LEVY GAINS 31 CENTS

Bulk of Advance Ousted By State Charge; City Rate Up 61 Cents

JEROME, Sept. 25 (Special)—An increase of 31 cents on the state and county levies in Jerome county is noted on the report of Charles Robertson, county auditor, according to the certified account of the Jerome county commissioners. Twenty cents of the increased amount is due to an increase in the state charge.

The state charge for 1938 was \$21,852.27 and for the year 1937, \$20,482.83 or an increase of \$1,369.44. The county had approximately \$8,800 in cash in that account to offset that much increase in levy.

No county bond levy was necessary, there being a cash balance in the county bond fund of approximately \$33,000. To date this year state license fees sold in the county amount to \$4,277.26 of which the county gets 75 per cent for payment of road and bridge bonds, which amounted to \$38,650.66.

Total combined levies for the cities and villages are as follows: Jerome: 7.50, an increase of 61 cents over 1936.  
Hazelton: 7.34, an increase of \$1.41 over 1936.  
Eden: 6.68, an increase of 93c over 1936.

Independent school district territory of the county surrounding the city of Jerome is valued at \$1,000,000 valuation; however, the interest and sinking account of the American Falls reservoir district has low charge under the A. F. L. M. change remains the same. This makes a total reduction of \$4.88, on every 40 acres of land.

Boycott Sought On Nippon Goods  
WASHINGTON, Sept. 25 (UP)—Trades union leaders today sought boycotts on Japanese goods by both the A. F. of L. Federation of Labor and the Committee for Industrial Organization.

It was virtually certain that at least one resolution demanding an embargo in protest against the war in China would be presented at the A. F. of L. convention opening in Denver Oct. 4.

Leaders of several unions affiliated with the A. F. of L. they believed the issue would be raised in the Atlantic City meeting of that organization's leaders Oct. 11.

Home Work Scored LONDON (UP)—Draastic recommendations on the subject of homework for children are made in a report just issued by the British board of education. The report stated that no homework should be assigned to children under the age of 12, and that it should not exceed one hour a night between the ages of 12 and 14.

## LAND SLIDE KILLS EMMETT FARMER

Four-Year-Old Child Points To Place Where Father Was Buried

EMMETT, Ida., Sept. 25 (UP)—A four-year-old child, sobbing in terror at the edge of a sand pit Friday, directed a relative to the spot where his father, Fred Fischer, 33, had been crushed to death by a cave-in.

Fischer had gone to the pit, near Lehigh, for a load of sand, and was caught when tons of earth spilled onto his body. His son, Billy, watched.

An uncle, Henry Bauer, came to the pit and found Billy crouched at the edge, crying, too terror-stricken to explain what had happened. He could only point to the spot where his father had disappeared beneath the sand.
