Two New Idaho Records Set at Burley Airmeet

IN THE DAY'S PARADE

Youth Breaks Mark For Parachute Leap

Will Talk Here

Chief Justice William M. Morgan of the Idaho supreme court (above) and Dr. Grayson N. Kefauver (below), dean of the school of education at Stanford university, will be two of the featured speakers at the annual meeting of the South Central Idaho Education association in Twin Falls Friday and Saturday.

Seeks Interview

Mrs. Paul Reeves, wife of the murdered man in New Jersey's "honor slaying," today was being eluded by Margaret Brennan, the killer, as the wife sought an interviewer in an attempt to learn "the truth."

Two new Idaho records had been established today after fliers from four states Sunday night concluded the first annual airmeet sponsored by the Idaho Pilots' association and held at the Burley municipal airport.

Jumping from a height of 4,000 feet Sunday afternoon, Charles "Tommy" Thompson, Pueblo, Colo., youth fell 3,300 feet before he pulled the rip cord of his parachute. The delayed drop set a new record in Idaho.

Twenty-six planes, actively engaged in the show, set another record and caused Ed Bryan, state director of the bureau of aeronautics, to delay the meet to the "greatest ever held in Idaho."

Giant Crowd
An unofficial record in attendance was also established Sunday when 6,302 persons paid to enter the field and an estimated similar number crowded every available parking space on roads and in fields surrounding the port.

Members of the Burley Chamber of Commerce, between 1 p. m. and 3 p. m. Sunday, counted 1,244 cars crowded into the parking area. At 3 p. m. the gates to the field were closed, as no room remained to take care of additional cars. Drivers were then permitted to park automobiles along the highway, which skirts the field, and to walk in.

So great was the crowd in Burley Saturday night that all hotels reported "sold out." Late arrivals who were unable to find accommodations in advance found it necessary to go to surrounding communities to find lodging.

"Bat Wings" Blasted
Inability to find a plane with a large enough door to permit Thompson to "bat wings" caused cancellation of his record attempt. Thompson set the new Idaho record jump Saturday.

Ralph Knapp of Pocatello volunteered to take Thompson 5,000 feet in his open bi-plane and then permit him to jump with his wings while Knapp flew the plane in an inverted position. But in the field, however, ruled against this risk, all being of the opinion the "bat wings" would foul in the tail section of the ship. This, they said, would kill Thompson, wreck the plane and in all probability kill Knapp. The pilots ruled that the attempt not be made. Instead, which Thompson was scheduled to jump, and which was coming to Burley from Prosser, Wash., failed to arrive.

Tacoman Takes Part
Honor of being the pilot the greatest distance from his home port went to Roy Hubert of Tacoma, Wash., flying a Taylor Craft plane.

MOTHER OFFERS MONTAGUE ALIBI

Sister, Neighbors Testify To Reputation of Golfing Star

ELIZABETH TOWN, N. Y., Oct. 25 (UP)—Mrs. Mary Moore, mother of the man whom the world knows as John Montague, came to the witness stand in Essex county court today and swore that her son was at home in Syracuse on the night when he is alleged to have robbed a roadhouse in 1930.

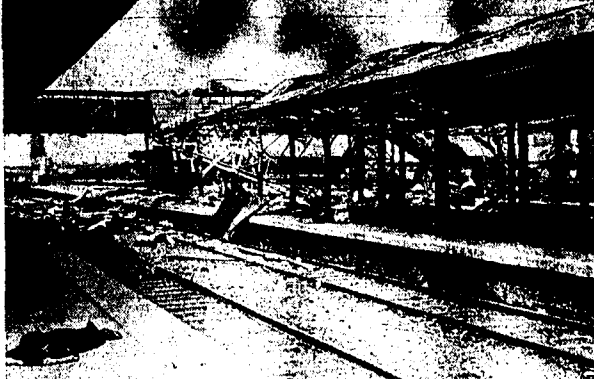

Color crept into Montague's face as his mother, dressed in black with white lace in her throat, walked slowly to the witness stand and swore to the alibi for her son. Then, Mrs. Mary Allen, Montague's sister, testified that she took her to work on Aug. 6, 1930—the morning that the defendant was alleged to have spent robbing Kin Hinna's road house near Jay, N. Y.

The testimony of Mrs. Allen and another sister, Mrs. Madeline McGrath, also was designed to show that Montague was far from Jay, N. Y., at the time of the hold-up. Mrs. McGrath swore that he was in the house on the night of Aug. 4 and that she saw him there the next morning—the same morning that state troopers said Montague was fleeing from the hold-up in a green automobile.

Former friends and neighbors of Montague came from Syracuse and swore that his reputation for honor was "very good" in the days when he was star athlete of the city.

"What is this," asked District Attorney Thomas McDonald, while cross-examining one of them, "a neighborly talk?"

Reviewing of Old Assault Case Refused

Justice Black Fails to Sit On Old Scottsboro Negro Trial in High Court

By RUSSELL TURNER
WASHINGTON, Oct. 25 (UP)—The supreme court, with Justice Hugo L. Black not participating, today refused to review the 75 year prison sentence imposed on Haywood Patterson, one of nine negroes involved in the famed Scottsboro, Ala., assault case.

No indication of why Black failed to participate in consideration of the Patterson case was given by the court, which simply noted in its orders that the tribunal's newest justice did not sit in consideration of the requested appeal.

It is the custom of supreme court justices to disqualify themselves from consideration of cases in which they have some personal connection. Black has had no connection with the Scottsboro cases. The cases have, however, been depicted as a political issue in Alabama.

There were two possible reasons why Black may have disqualified himself in the Patterson case. One was the fact that he is from Alabama and engaged in Alabama politics during the period of controversy over the Scottsboro case.

Another reason might be that his participation might be challenged by attorneys for the defendant. The Scottsboro defense counsel, however, had made no announcement of plans for a possible appeal.

Women Chain Selves To Railings, Protest Against Rent Boost

NEW YORK, Oct. 25 (UP)—Mrs. Helen Pohlenbaum and Mrs. Jennie Gies joined other women in chain to railings outside two Brooklyn apartment houses today, threw away the keys and practically closed the streets to evict any more families from the buildings.

The women, members of the New Payers' association of Brooklyn, said they were protesting in behalf of the tenants against threatened rent increases of \$2 to \$4. They are not residents of the building.

The tenants, Mrs. Pohlenbaum said, have been "on strike" since Oct. 15, refusing to pay rent until the association's demands are met. The demands include reinstatement of evicted families, a 10 percent rent reduction and other provisions of the house committee.

FEDERAL AND STATE AGENTS SEARCH FOR "ELIXIR OF DEATH" AS TOLL REACHES 46

CHICAGO, Oct. 25 (UP)—Federal and state agents searched the shelves of country drug stores and doctors' offices today for 700 bottles of an "elixir of death" which unidentified physicians might at any moment prescribe a fatal dose in mistaken belief that it would save life.

The potent elixir of sulfanilamide and diethylene glycol, was manufactured as a cure for a host of ailments, including meningitis, gonorrhea, and other diseases. Not until they had administered it to some of patients did physicians discover that the compound used a deadly life-saving sulfanilamide was in many instances, deadly.

Forty-six persons who were known to have partaken of it are dead. The American Medical association has received reports of "quite a number" more. Part of the federal and state agents was to inform physicians in included districts of the virulent effects of the solution before they could administer it.

Bullet Strikes Sentry On Duty at Settlement

SHANGHAI, Oct. 25 (UP)—British defense lines on the west fringe of the international area were provided with anti-aircraft machine guns today. Their crews were ordered to fire on any airplane that approached dangerously close, it was said on reliable authority.

This grave move was the direct sequel to a Japanese air-ship attack on a British army outpost yesterday in which a rifleman of the Royal Ulster Rifles was killed.

HAWAIIAN PRINCE HELD FOLLOWING MURDER OF GIRL

Grandson of Last Monarch of Islands, Rich Playboy, Placed in Jail

HONOLULU, Oct. 25 (UP)—The Hawaiian playboy prince, David Kawananakoa, a rich and handsome young man of many escapades, was held in jail for investigation today after a beautiful island girl was slain to death at a midnight party in his apartment beside Waikiki beach.

The prince, a grandson of the last reigning Hawaiian king, said his mistress, a girl named "Arville," did not know "what happened to the girl." She was Arville Kikaha, 22, a part-Hawaiian.

John "Bull" Huggar, who was at the party, said the prince and the girl were in the kitchen and he heard a thud. A moment later, he said Hawaiian prince came into the room carrying the girl in his arms. Her face was badly cut and there was a jagged wound in her neck. The prince placed her upright in his chair and she died to death while the three men in the party wrapped towels around her neck trying to stop the flow of blood.

"Scene Not of Fight"
Jack Bothel, a Honolulu detective who ordered the prince taken to jail, said there was "some sort of a fight" in the apartment, which is just off the famous beach in a section called "Tapper's half acre," where, amid a row of bungalows and apartment houses surrounded by tropical palms and overlooking the ocean, the gayest of the island's night revels occur.

Police officers did not determine whether the girl was murdered or killed accidentally. The wounds seemed to have been made with the jagged edge of a broken vase or plate. The prince was on probation for (Continued on Page 2, Column 4)

Local Youth Shot in Foot

George Carlson Injured in Hunting Accident

Harold Carlson, Twin Falls youth, today had suffered amputation of his right foot as the result of a hunting accident which occurred about five miles north of Castleford today.

The youth, according to Olet Smith, also of Twin Falls and a companion of Carlson's on the hunting trip, was shot as his shot gun was discharged after failing to clear the ground from a leaning position against the automobile in which the party was riding.

Carlson was rushed to Buhl by Smith, Weldon Hawkins and another youth whose name was not learned. At that point he was transferred to an ambulance and taken to the Twin Falls county general hospital where it was determined that amputation of the foot would be necessary.

This afternoon attending physicians said Carlson's condition was satisfactory.

U. S., ENGLAND TO WORK TOGETHER

Two Countries Intend to Cooperate at Nine-Power Meeting

LONDON, Oct. 25 (UP)—Great Britain and the United States intend to work together at the Far Eastern conference at Brussels following international action to end the Japanese-Chinese war by mediation and will resist any excited demands for a special action against Japan, it was reported today.

Statements made as to American policy were supplemented here by strong intimations that both countries oppose any action that would antagonize Japan.

The American declaration, headed by Norman W. Davis, is due at Brussels Wednesday. The British declaration, with Foreign Secretary Anthony Eden in command, is due Friday.

News from Brussels said that a cabinet crisis might break at any hour. But it was hoped here that an emergency arrangement could be made to convene the conference on time even if the crisis lasted all week.

The nations signatory or adherent to the Nine-Power treaty, the United States, Canada, Britain, France, Italy, Portugal, Norway, Denmark, Netherlands, Belgium, China, Mexico, Australia, New Zealand, South Africa and Sweden had accepted invitations to attend. British and Japanese herself were still to be heard from.

Oddities

KEWANEE, Ill., Oct. 25 (UP)—It's too cold to stay in jail without adequate heat so Police Chief Frank Schindwein is operating Kewanee's city jail on the honor system pending completion of a new heating system.

John "Bull" Huggar, who was at the party, said the prince and the girl were in the kitchen and he heard a thud. A moment later, he said Hawaiian prince came into the room carrying the girl in his arms. Her face was badly cut and there was a jagged wound in her neck. The prince placed her upright in his chair and she died to death while the three men in the party wrapped towels around her neck trying to stop the flow of blood.

The manufacturers of the elixir, in Bristol, Tenn., used 376 shipments of the elixir between Sept. 1 and discovery of its dangerousness and now have recalled every shipment.

Food and drug administration officials estimated that 700 bottles of the elixir were unaccounted for—most of them pure.

BATTLE LOOMS OVER CONTROL OF REPUBLICAN PARTY

HOOVER SPEAKS ON TUESDAY AT BOSTON MEETING

Former President Believed In Contest With Landon For Leadership

By LYLE C. WILSON
WASHINGTON, Oct. 25 (AP)—A vital fortnight for the Republican party begins today with its actual leadership in question and a 1938 congressional election strategy to be determined. Powerful force is being exerted toward coalition with conservative Democrats and Independents.

Former President Herbert C. Hoover, engaged now with former Gov. Alf Landon in an unworked contest for party control, will speak tomorrow night before the Massachusetts state Republican club in Boston.

Hoover sponsors meet. Mr. Hoover sponsors a mid-term national convention program to which Landon has not yet publicly assented. The Republican national committee will meet in Chicago next week to consider the Hoover plan and similar proposals from other sources.

Adoption of the Hoover convention program without some change in Landon's close-mouthed position would be widely regarded as establishing Mr. Hoover above the former Kansas governor in the Republican hierarchy.

Three definite proposals for Republican-Democratic coalition in 1938 are ready for Republican national committee men who will meet Tuesday in New York.

The plans are similar in objective but somewhat different in method. David Lawrence, political commentator, sponsored the Hoover plan and similar proposals for reducing New Deal congressional majorities.

Mr. Hoover fired the field last August with a suggestion for a mid-term 1938 Republican national convention to devise a "working Republican Democratic coalition."

Former Sen. Walter E. Edge, of New Jersey, proposed an extension of the Hoover plan to include a bipartisan member representative of "labor, agriculture, industry, the American Legion and practically all the important phases of the young and old." Edge warned that delegates to the suggested convention should not be confined to Republican party members.

Lawrence proposed a non-partisan alliance founded on a single plank consisting of a "pledge to protect the independence of the judiciary and of the legislative branch of the government." He suggested creation of a "committee for constitutional government" composed of a man and a woman from each state. These committee members would raise a \$100,000 campaign fund for the 1938 elections, no contribution to exceed \$500.

PIRACY REPORTED IN EUROPEAN SEA

French Cargo Ship Reported Bombed, Sunk East of Balearic Islands

PERPIGNAN, France, Oct. 25 (AP)—A wave of "piracy" was reported today in the Mediterranean.

The French cargo vessel, Oued Melah, was bombed and sunk by an unidentified airplane 50 miles east of the Balearic islands. The crew was saved by two French destroyers.

The Oued Melah, a 2,415-ton vessel, was en route from the French Moroccan port of Lyauyot to Port Vendres with a cargo of grain when the attack occurred.

The official Italian news agency reported, meanwhile that an unidentified German steamer was torpedoed and sunk off Cartagena, on the eastern Spanish coast. It said that details of the attack were not available but added that the first name of the vessel was "known to have been 'Wilhelm'."

The German war ministry announced that it was without information.

An unidentified submarine was reported to have been bombed by an airplane 50 miles west of Cape Verde. The "attack" was explained by the British admiralty. It was said that the flying boat "Kaiser-Hilf" reported that a British flying boat was dropping practice bombs on "flame floats."

Congress Race? Too Early Yet, Masters Claims

Congressional race for Ira H. Masters?

"It's too early to say either yes or no," Masters told the Evening Times today just before returning to Boise after a week-end of Red Cross conferences here and in Bull.

The Idaho secretary of state is chairman of the 1937 Red Cross roll call.

His name has been mentioned frequently as one of the top candidates for the congressional post now held by D. Wood Clark, who is rumored to have his eye on the senate. But Masters said today that "it's pretty far ahead of time to be making any commitments."

He heads the list of possible candidates discussed in Sunday's article by Cato the Censor in the Idaho Statesman at Boise. Cato said: "First and foremost, of course, is Ira H. Masters, secretary of state, who sought the nomination in 1932 and 1934. Masters, who hails from Twin Falls, Pocatello and Blackfoot, has been putting out feelers, and is widely reported to be at least receptive to a draft Masters' move in case things come right. Who does the drafting is more or less immaterial. At the same time Masters says publicly that his decision rests upon what Clark decides to do."

GIRL FLIER SETS DISTANCE RECORD

New Zealander Makes New Mark for Australia to England Flight

LONDON, Oct. 25 (AP)—Jean Batten, 27-year-old New Zealand girl who gave up a musical career to become a flier, rested today after an adventurous flight from Australia to England that established a new solo record.

She made the flight from Port Darwin, Australia, to Croydon airport in five days, eight hours and 25 minutes. The previous record was six days, eight hours and 25 minutes which Harry F. Broadbent, the Australian distance flier, established May 3.

Broadbent, with whom Miss Batten has engaged in a "reoccur duel" for two years, was attempting to break Miss Batten's England to Australia record of five days, 21 hours and three minutes which she established a year ago.

He was reported to be fighting severe headwinds near Baghdad after having been forced down in a desert. He announced that if the winds become too strong he would abandon the flight.

Unusual Hawaiian Lei Woven From Feathers

HONOLULU (AP)—Honolulu will soon possess at least one lei—the wreaths of flowers that are placed around the necks of tourists in sign of welcome—that will not be given away. It is the work of Patrolman James Markham who has spent eight years on the fabrication to date and expects to put in three years more before it is complete.

This particular lei, instead of being composed of flowers, is being made of the colorful feathers of peacocks. Markham figures that in the eight years he has been working on the lei, he has captured about 100 pheasant cocks and stripped them of their most colorful feathers. Only a narrow fringe of feathers about the bird's neck is suitable for the work.

SOLAR HOLIDAYS

IN 1937, THE SUN WAS NEAREST THE EARTH ON NEW YEAR'S DAY AND FARTHEST AWAY ON THE FOURTH OF JULY.

IN ENGLAND A GOLDFISH FELL FROM A FOURTH FLOOR WINDOW TO THE PAVEMENT BELOW, AND LIVED!

AFTER MANY YEARS OF RESEARCH, A FUZZLESS PENCIL HAS BEEN DEVELOPED.

COPY, 1937 BY NEA SERVICE, INC. 10-27

On last New Year's day, when the northern hemisphere was wrapped in snow and ice, we were only 91,337,700 miles from the sun, while on the fourth of July we basked in a sun that was at a distance of 94,484,200 miles . . . or 3,146,500 miles farther away than the New Year's day sun.

PAP HOOPLE SAID THAT AMOS, WHEN HE WAS TWENTY, HAD SPENT SO MUCH TIME ON THE SPRINGS, THAT THE ONLY EXERCISE HE'D GOTTEN WAS WHEN HE WALKED IN HIS SLEEP!

THE ONLY WAY I COULD GET HIM OUT OF THE CORN CRISKS WAS TO RING THE DINNER GONG! THEN HE BEGAN GOING TO BED WITH A LUNCH BASKET UNDER HIS ARM!

SPOILED TH' DOPE ABOUT STUFF? SURE! DO YOU THINK SHE WAS REALLY IN LOVE WITH HIM, CORA?

I DON'T KNOW! I DOUBT IF SHE KNOWS HERSELF, BUT I'VE GOT TO BE SURE OF ONE THING—SHE'S HURT—DREMO-FULLY.

AND YOU CAN HARDLY BLAME HER.

BUT, GEE—SHE CAN'T GO ON LIKE THIS, WITH A CHIP OF ROMANCE ON HER SHOULDER.

NEW LINES IMPROVED

Increased Beauty and Larger Motor Top Lists of 1938 Advancements

Radical changes in exterior appearance, greatly refined and beautified interiors, larger and more powerful engines of improved design, longer wheelbase, larger hydraulic brakes and a score of mechanical refinements and improvements feature the two new cars coming to the Chrysler line for 1938. These cars again are designated as the Chrysler Royal and Chrysler Imperial respectively, according to W. E. Barnard of the Barnard Auto company, local Chrysler dealer.

Although the Airflow will not be continued in the same form produced last year, the company makes clear that it has not been dropped, since the Airflow engineering features and principles of construction have been incorporated in all Chrysler models. Chief among these are the scientific weight distribution and airflow springing that have produced such remarkable riding qualities in Chrysler cars. The owner who desires seven-passenger capacity in a heavy and luxurious car, an exceptionally long wheelbase will find it in the Custom Imperial models.

The Chrysler Royal, with which Chrysler again will bid for business in the low-price field, has been increased in wheelbase from 118 to 119 inches. Whatever the change in price of this model it will preserve its relative competitive position.

Wheelbase of the Imperial has been raised from 121 to 125 inches. This car, as the company expresses it, gives "remarkable performance at moderate price." It comes in six body styles, namely four-door touring sedan, touring brougham, convertible coupe, convertible sedan, coupe and tumble seat coupe.

The Custom Imperial now has a wheelbase of 144 inches.

CHEVROLET GIVES '38 REFINEMENT

Now Models Shown Here by Jenkins Offer Increased Beauty, Economy

Increased beauty combined with noteworthy improvements in performance, economy, safety and durability in the new 1938 Chevrolet, which is now on display here, according to Glen G. Jenkins, dealer for this area.

The refinements in engineering are further advancements of features which are already thoroughly proved by millions of Chevrolet drivers, Mr. Jenkins said.

Both the newer and standard lines this year present what is said to be a major departure in the auto world. This is the new "tip-toe" clutch. It is declared to combine more positive action with very much greater operating ease, and adds significantly to the safety, comfort and long life of the Chevrolet.

Although the chassis fundamental design remains in its best form, Chevrolet refinements extend both to interiors and exteriors of the body, and to many units of the chassis itself.

Power plant in both series is the sturdy 85-horsepower Chevrolet valve-in-head six cylinder engine. Power, smoothness and economy have been heightened by 1938 refinements, Mr. Jenkins said.
