SPUD PUBLICITY DECISION LOOMS

Judge Koelach Will Give His Verdict Soon in Vital Idaho Law

ago in Ada district court. The Idaho supreme court, with a heavy docket facing it, refused original jurisdiction in the legal test.

Tax Being Collected "The tax is still being collected," Mr. Graham said, "and we are all ready to go ahead with advertising Idaho potatoes, apples and onions if the act is termed constitutional."

Chief point at issue in the argument over constitutionality of the act setting up the fruit and vegetable advertising plan, Commissioner Graham said, is the "poorly-written" form of the law.

Purpose Plain "The measure is admittedly not well written," he said, "but the purpose of levying a tax for the aid of the specific groups which pay the tax is stipulated clearly in the

# Hitler Ponders Mediation Efforts in Far Eastern War Crisis

## POSSIBILITY FOR TRUCE INSIDE 10 DAYS DISCUSSED

### Any Plans of Nazis Would Ignore Current Farley at Brussels

BERLIN, Nov. 5 (Special)—Fuehrer Adolf Hitler has called a conference of leaders to consider the possibility of direct German efforts to mediate in the Chinese-Japanese war, it was said today in well informed quarters.

It was learned that Hitler intended to see this afternoon Baron Konstantin von Neurath, foreign minister; Col.-Gen. Herman Goerring, air minister; Marshal Werner von Blomberg, war minister, and Gen. Admiral Erich Raeder, commander-in-chief of the navy. It was believed that they would discuss the mediation idea.

Blomberg was reported to have talked yesterday to Chinese Gen. Pa Li-Tsang, who was on his way to the Brussels nine-power treaty conference.

The possibility was discussed of a suspension of hostilities in China within a week of 10 days. Any mediation would ignore the current Brussels conference called for the same purpose.

It was denied at both the Chinese and Japanese embassies that Germany had yet made any offer of mediation, and reports that not only had the offer been made but that China and Japan had both replied favorably, were reported in government quarters to be in the nature of a diplomatic trial balloon, intended to sound sentiment abroad.

But it was said that Hitler seemed to Germans to be in a more advantageous situation than any other leading statesman to mediate, particularly because of the German-Japanese alliance against Communism.

### Jerome Measuring Air Survey Regions

JEROME, Nov. 5 (Special)—Ground measurement contacts for aerial survey prints recently received by the local agricultural conservation association in Jerome county are now being made by three crews. Measurements of one-half to a mile in one-fourth of the land sections are made and the contacts are being used to establish scales for the aerial maps.

Sydney Harris, state A. G. A. engineer in assistance with the work here and states that the contacts should be completed about Nov. 5 and the field compliance checking should be underway the last of the month. Approximately two weeks will be required to prepare the maps by district and state offices, he said.

## Burley Irrigation To Stop Dec. 1

BURLEY, Nov. 5 (Special)—Water will be turned out of the canal system of the Burley Irrigation district on Dec. 1, unless freezing conditions make it imperative to close the gates at an earlier date, it was decided at a meeting of the board of directors Tuesday.

Ditchriders are buying crop reports and delivering water. After Nov. 10 E. M. Anderson will take care of deliveries on the first and second lifts and James Tilley on the third lift canal. Farmers desiring late irrigation are urged to take advantage of the water available before Nov. 10 while the full force of riders is employed.

Water used after Nov. 10 will be for stock use and filling ditches, primarily, but an effort will be made to handle any late irrigation also.

The annual election of directors will be held on Dec. 14 when the terms of J. L. Morgan from District 1 and J. W. Boddy of District 4 will expire.

## \$6,781 PAYMENT GRANTED BUILDER

Issuance of a warrant for \$6,781 to H. J. McNeil, contractor who is building the Washington school addition, had been authorized today by the board of school trustees.

The warrant will be the fourth payment to McNeil on his \$23,000 general contract. Other contracts brought the total Washington addition cost to \$28,082.99.

McNeil's latest check, the board stipulated, is to be held back by the architects and the board's attorney pending compliance with bond provisions under Idaho statutes.

## Dairymen Meet at Eden to Hear Agent

JEROME, Nov. 5 (Special)—A group of dairymen from Jerome county were addressed last week by Jean H. Loughray, University of Idaho Extension Dairy Specialist, in Eden.

The meeting was held in the Grange hall and was attended by the chairman of the cooperative creamery, L. W. Sanber, Jerome, and County Agent Eugene W. Whitman. Following Loughray's address a committee consisting of L. E. Pool, Hamilton; S. A. Clark and Emil Ehlers, Eden; Mr. Sanber, and Mr. Whitman, were appointed as an organizing committee. This committee will survey to determine the number of cows available and contact individuals interested in operation of the association.

"High quality bull service at lower cost for small herds are the benefits sought from stud bull associations," said Mr. Loughray. A special guest at the meeting was county agent, C. W. Dalch of Rupert representing the Minidoka county farmers who have indicated interest in the association.

## RECORDS TOPPLE AT BUHL PLANT

### Bago Condensary Far Above Business Total Done in Same 1936 Period

BUHL, Nov. 5 (Special)—Recent records show that the Buhl Bago condensary is one of the most vital Twin Falls county industries, plant officials said today. The business of the Buhl plant in 1937 far exceeds the business done during the same nine months of 1936, according to A. L. Kircher, plant superintendent.

The records show that over 19,000,000 pounds of milk have been purchased from the farmers of Twin Falls county to date this year. This is an increase of about 3,000,000 pounds of milk bought during 1936 over a corresponding time in 1936. This increase represents about \$35,000 more which farmers have received to date.

The local plant is employing 45 men in the condensary. Some 150,000 cases of milk have been packed during 1937, which equals 120,000 cans. Much of this evaporated milk is consumed in the state but large quantities are shipped to all parts of the intermountain territory where the Bago milk has a high rating.

## HANSEN

Mr. and Mrs. R. T. Nyblad entertained the members of the faculty at a Halloween party Saturday at their home. The evening was spent in playing games followed by a buffet supper. The Halloween color scheme and decorations were carried out.

BEHIND THE SCENES IN WASHINGTON

It must be remembered that Deal theory, however vague it may be on some particulars, is in general aimed at keeping the capitalist system functioning on all six, if that is possible. The President, you may be sure, believes that practically all business troubles are brought upon itself by business.

He is convinced that rebellion by industry against the current New Deal plus a certain amount of deliberate sabotage, has been a factor in the current slump. If his business men had not preferred to stay the course, industrial relations act, he believes, industry would not have stockpiled inventories at high prices last spring. If business men were not so greedy in their demand for profit, he feels, they would have refrained from raising prices he what he considers an almost disastrous extent.

DOUBLE-BARRELED HATRED Coupled with this attitude is the fact that the "Bad Roosevelt" attitude of most business men is stirred up an increasing irritation in F. D. R.'s "good hater" himself. It is said that he has long felt that he can depend on about 10 per cent and that the rest of business men selfish as to require the state of the President's mind continues to be a most important factor in the current slump.

FAMOUS LAST LINES A funny—funny last line appeared on the way home again. THE GENTLEMAN IN THE THIRD ROW

with favor of Milo Montana. It was almost too much to hope for. Mrs. Wentworth wanted the party at one of the leading hotels... Mrs. Wentworth spoke coldly. "I'll have to ask you before, but I've been so busy it slipped my mind. You asked Milo to receive me."

They were at the dinner table. Jill, looking at her father, had the impression again that he looked weary and worn. She felt troubled. The next moment her stepfather's eyes met hers, and he smiled. "If Jill has her heart on having a party."

Jill led the room in a depressed mood. It couldn't be true that a grown man—any adult person—could be so much of a thing like that. Of course, Milo had been hurt, even angry, when he learned Jill planned to ask Bill Whitman to receive the party at his home.

Jill scarcely ever came to this room. It's magnificence depressed her. Designed by art and nature, it would look like that, it was yet definitely stamped by the personality of its owner. "What could there be?" Jill asked, perplexed. "Mother, I'm just as sure I'm right."

THE HISTORY of Twin Falls City & County As Gleaned from Files of The Times

15 YEARS AGO Nov. 4, 1922 Yesterday almost to the same extent as on opening day, His Majesty, the pheasant, was distinctly on the defensive, being the toothsome object of unceasing pursuit by the hundreds of Nimrods who thronged the fields with ever-steady guns and speed pointers.

27 YEARS AGO Nov. 5, 1910 The Twin Falls School of Business recently established in the Courcan building on Shoshone, seems to have met well with the public from the very start. The building, owned by B. B. Randall, is highly praised with the result.

THE INFECTION usually begins as a red flat spot which then spreads outward and may get to be as big as an inch or more. Soon it begins to scale away at the points where it is healed. Occasionally there may be a few scales here and there on the margins of the inflammation and sometimes two spots will join together to make one large one.

Health Group Holds Talk on Vaccination JOHNSON, Nov. 5 (Special)—The health group held a meeting in the Lincoln school building today. Mrs. L. M. Messenger, chairman presiding. A business meeting was held and the following officers elected: Mrs. D. B. Johnson, president; Mrs. D. B. Johnson, secretary; Mrs. D. B. Johnson, treasurer.

Honors Announced By Syringa School BUHL, Nov. 5 (Special)—L. W. Fenservy, principal of the Syringa school has released the following honor roll for the month of October: The honor roll of the year: Upper grade high honors, Keith Wood; seventh, Elton Wood; fifth, Barton Brown; sixth, Barton Brown; eighth, Barton Brown; ninth, Barton Brown; tenth, Barton Brown.

Police and Citizens The day of the flat-footed, slow-witted copper is pretty definitely over in the United States. Today's policeman is rather apt to be an intelligent and well-trained peace officer who goes out and gets his man instead of scratching his head and wondering, "Now, who could of done that?"

Authority for this statement is none other than Edgar Hoover, head G-man. He made the statement in a speech before law enforcement officers in Carolina, and he went on to explain why the day of policeman is disappearing. "There never was a place for him," he said, "yet because of the lethargy of the people. But now the public is becoming more and more alert to the necessities of good law enforcement."

# STAR MAJOR GRINN CLUBS SEEN AS WINNER

## Lafayette Predicted As Single Undefeated Team to Spoil Record

### California and Pitt Expected To Down Huskies, Notre Dame

**NEW YORK, Nov. 5 (AP).**—Only one major unbeaten football team—Lafayette—will be removed from the ranks tomorrow, United Press sports writers predicted today.

Lafayette will be beaten by Rutgers, but six other undefeated eleven—Baylor, Colorado, Montana, California, Santa Clara and Alabama—should win. All the undefeated but tied eleven were picked to win.

**PACIFIC COAST.**—California will down coast title. Oregon over Washington State. Oregon's passing does it. Also, U. S. C. over Stanford; St. Mary's over San Francisco on Sunday; Santa Clara over San Jose State; Oregon State over Willamette, and Montana over Gonzaga.

**ROCKY MOUNTAIN.**—Colorado over Utah U. Denver over Utah State; Brigham Young over Wyoming; Colorado College over New Mexico; Greeley State over North Dakota; Montana State over Montana Mines and Colorado Mines over South Dakota Mines.

**EAST.**—Yale over Brown—a close one. Dartmouth over Princeton—big Green can win as it pleases. Harvard over Army—Army had trouble even with the small team. Fordham over Purdue—the Fordham line is very strong.

**MID-WEST.**—Pittsburgh over Notre Dame—Irish die for let alone. Ohio State over Indiana—go Big Ten team has scored against Ohio. Also: Northwestern over Illinois; Minnesota over Iowa; Michigan over Chicago; Nebraska over Kansas; Oklahoma over Iowa State; Missouri over St. Louis and Kansas State over Washburn.

**SOUTH.**—Alabama over Tulane—Alabama is Rose Bowl bound. Tennessee—Plainsmen on a hunch. Baylor over Texas—Bears eyeing conference title. Also: Arkansas over Rice and Texas Aggies over Southern Methodist.

**Football Stars at St. Mary's Benched For 'Girl Trouble'**

**MORAGA, Calif., Nov. 5 (AP).**—Coach Ed (Gip) Madigan said today a shake-up in St. Mary's college football team could be attributed to "girl trouble."

"We've been losing games, and some of the boys, I think, have been losing girls. Their work in the last few games and in practice has lacked everything," the coach said.

**FOUR VARSITY PLAYERS WERE DEMOTED.** Loy Perry, quarterback; Tony Falkenberg, fullback; Ernie Jorga, line; and Gene Webb, center, right end. They were relegated to the second team where they will have more time to sit on the bench and think about their demerit, right end. ### SHEEP SLOW DOWN MAC ON WAY TO SEE SPEED DEMON

**By HENRY McLEMORE.** BONNEVILLE SALT FLATS, Utah, Nov. 5 (AP)—Sheep, which couldn't move faster than two miles per hour, almost prevented me from getting here today.

"I figured that two hours would be ample time for the trip, but my reckoning did not allow for sheep. The sheep, a naturally overcoated member of a race which has never placed a member in Who's Who, or earned so much as one Phi Beta Kappa key, is a privileged thing in Utah. From the attention he receives to the beginning belief that the sheep is the state bird as well as the state flower of Utah."

The highway belongs to him. The state law says so. He has the right of way. Run into one and it is not only your fault, but you must pay the bill.

**Stanford Tackles USO and Washington State Plays University of Oregon**

**By JAMES A. SULLIVAN.** SAN FRANCISCO, Nov. 5 (AP)—The old champion and the team everybody says is going to be the new champion meet on the gridiron today.

La Verne, Calif., will be the top team of a busy Pacific Coast conference football week-end.

The old champion is University of Washington, the waif's entrance into the last Rose Bowl but right now a twice-beaten eleven, out of the running for conference honors.

Its opponent, however, the Husky, is the biggest money winner among the professional golfers for the 1937 season, with a total prize money income of \$137,300.

**Bears Favored.** California was a 2 to 1 favorite to make the final, but they are the eighth victim of the amazingly powerful Golden Bear attack.

The odds even held up at 3 to 1 after it became known Vic Bortari, the main spring of the California steam roller, might not play.

Bortari himself seemed confident he would see into action despite a leg injury.

# Trustees Award \$139,678 Bickel School Contract

(From Page 1)  
 formance bonds by R. P. Parry, attorney for the board.  
 Bids for the general construction contract with seven alterations which the board listed for purposes of economy or of possible improved applications. These were: (1) Price per yard for excavating rock if this is encountered in digging foundations. No such sub-strata, however, is expected. (2) Use of cast stone instead of terra cotta on the exterior. (3) Tin roof instead of composition. (4) Linoleum on the floor. (5) Cork tack board. (6) Frame walls in corridors instead of brick. (7) Steel toilet partitions instead of wood.

**Suggestions Added**  
 The contract to the Epoch Chytraus company, as finally voted by the board, provided that Chytraus receive the job at the base bid of \$110,984, plus the unit price of \$8 per rock excavating. It also provides, Alternates No. 2, 3 and 5 are eliminated and the right is left by the board to select the options to proceed under either alternates 4, 6 or 7 or all of these within 30 days from the date of signing the contract.  
 The motion was drawn by Mr. Parry and introduced by B. H. Gray.

J. J. Tenckinck offered the motion awarding the plumbing and heating contract to the Leasinger company at \$24,257. Ralph Pink presented the resolution awarding the electrical work to the Vance concern for \$24,975.  
 H. S. Cash remarked:  
 With the \$139,678 total for Bickel making the largest single increase on the \$200,000 bond money, the board had taken definite action today to assure retention of sufficient funds for the high school modernization program laid out in the building plans, and scheduled for next summer. On motion of Mr. Parry the trustees voted to hold the original estimate of \$20,960—minus the \$7,400 already spent last summer for increased toilet facilities.

Enmarking of the \$43,950 for the high school changes, combined with funds designated for toilet facilities equipment at the new Bickel school and the 11-room Lincoln unit on the side will be received Nov. 10 and cash to be used for modernizing the old Lincoln building heating system to conform with the new unit, should be received Nov. 10. Bids for construction of the Bickel and Lincoln structures. Today's contracts for the high school amount to \$139,678 of that amount, without architects' fees. Original estimate for the new Lincoln unit was \$10,000.  
 Money designated for equipment to furnish Bickel is \$7,410; Lincoln furnishings, \$2,900; Lincoln heating changes, \$3,200.  
 Date Can Be Altered  
 The Aug. 1 completion date on the Bickel school is to be confirmed or altered in the contract being drawn up today by Attorney Parry. Consensus of board opinion at last night's meeting, however, indicated no change in the completion deadline.

Board discussion concerning the alternate which would provide the \$3,450 saving by use of frame corridor walls instead of terra cotta, however, the question of greater fire protection with brick walls. No decision was made, since the 30-day option clause in the contract permits action later. Architects informed the trustees that the frame construction, with use of fire-resistant plasterboard outer covering, would mean that fire in the building could burn for five hours before endangering occupants. A structure such as the new 21-room building could be emptied of students within ten minutes.  
**Five Days for Bonds**  
 The successful bidders have five days in which to complete bond arrangements. After that time the board will sign contracts, and work is then to be started in a "reasonable time" indication that the "reasonable time" will mean almost immediate start as when George E. Kenning, Salt Lake City representative of the "Fidelity and Deposit" company, who bonded the Chytraus concern, told the board that Chytraus is anxious to begin at once in order to complete concrete work before weather turns so cold that the material must be heated.

Kenning said that the Salt Lake City firm which received the general contract has had 30 years experience through the older Chytraus, co-partner with his son. The company has just finished an 800,000 school for independent district No. 1 at Idaho Falls.  
 Because the winning bid was so much lower than any of the remaining nine, being more than \$12,000 below the next lowest, the board representative and Chytraus carefully re-checked estimates last

## SALE OF ANNUAL STARTS MONDAY

### Subscription Response for 'Coyote' Will Determine Individual Photos

Advance ticket sale for the Twin Falls high school annual, "The Coyote," will get underway on Monday, under supervision of the business staff, the advisor, Mrs. Mercedes Paul, announced today.  
 Initial work on "The Coyote" has been started with students having pictures taken. Mrs. Paul said that "individual pictures of upper classes will be used in the annual but other lower class students will have individual photos depends on the number of books sold. The additional cost for these cannot be handled unless subscriptions are greater than they were last term."

**Essay Contest**  
 To create interest in "The Coyote," an essay contest has been inaugurated in all English classes with the entries to be submitted before Nov. 8. Typical students are to write on "What the Coyote Will Mean to Me Ten Years From Now," while the freshmen and sophomores cope with "Why Freshmen and Sophomores Should Buy the 'Coyote.'"

Prizes will be awarded in each of the four classes with the first one a 50-per cent reduction on the purchase price of the Coyote and the second a 10 per cent one.  
**Sales Staff**  
 Earline Maddy as sales manager will be assisted with this staff of Coyote salesmen:  
 Virginia Allen, Betty Brooks, Dorothy Hafer, Judy Jones, Dick Lawrence, Jean Nicholson, Alton Sepk, Dan Tootson, Mary Lewis Helter, Ruth Chastain, Dahri Green, McClain Johnson, Edna McCarty, Bob Sahberg, Vernon Smith, Margaret Van Engelen, Lewis Helter, Inogene Davis, Gladys McFie, Merla Salmon, Faye Silver, Ray Mills, Maxine Doss, Joan Jones, Paul Hanson, Ernest Carlson, Margaret Gies. The representatives for the classes will also be as seen. They are: Ed Woods, senior; Loretta Belle Lopez, junior; Mary Frances Batis, sophomore; Leona Re Hughes, freshmen.

# BOND LEADERS BACK PROJECTS AND URGE STUDY

## ABSOLUTE NEED CITED ON WATER, LIBRARY ACTION

### Street Program Formed Step to Match City Growth; Vote Next Tuesday

Five local citizens and taxpayers, members of the fact-finding committee for the bond election scheduled in Twin Falls Tuesday, Nov. 9, this afternoon voted separately and agreed with the improvement program.

The five leaders also pointed out the need for various studies on the part of voters before they go to the polls.

Included in the election, each project to be voted separately, will be the water storage and clear well basin and flush line at an estimated cost of \$100,000; a new public library on city-owned property, replacing the present inadequate quarters at a cost of \$20,000; a street curbing, curbing and widening at an estimated cost of \$170,000. In each case a two-thirds majority will be required for the election to carry.

"Absolute Need"

Chairman of the fact finding committee, "The water is the absolute need" for the water reservoir at the present time.

"We have been talking for years about how bad the local water is," Mr. Henderson said, "and now we have the opportunity to improve this by voting bonds which will make a reservoir construction."

"It is a matter of utmost importance at this time and I earnestly urge you to vote for the project which will take care of the best interests of the city which in this case will be voted for by the people," said C. H. Kruger, a member of the committee, "and the need for wider streets and the need for the improved travel."

## Local Woman Calmly Shops As Bombs Rain on Shanghai

Hero "riddling" while Rome burned had nothing on Mrs. Hazel Davis, daughter of O. H. Coleman, who went shopping as China was bombed.

Mrs. Davis, at the present time, is in Manila, Philippine islands, having left China with other "war refugees." Her husband, Phil W. Davis, is stationed on the U. S. S. Black Hawk in China waters. Both are well known in Twin Falls, having attended high school here.

**Guns Roaring**

"Just like a woman," Mrs. Davis said in a letter received here by her father, "I had to go shopping. The guns were roaring, the streets were empty and we went dashing around from store to store, each store having a barricade of sand bags."

The particular instance of which Mrs. Davis wrote happened as the refugees stopped at Shanghai. The ship from which they landed was anchored by the blockade in the Whangpoo river. Chinese made this blockade by sinking some of their own ships as well as those of the Japanese, she writes.

"We stopped at Shanghai (en route from Chfoo, North China to Manila) and went right up the old Whangpoo river, escorted by two destroyers. We anchored off the French district, alongside the Auguste and the Idonno, the latter being the Japanese flagship. Guns were booming all day and night and planes were dropping bombs on the Hangow district, all of which is nearly leveled."

"The landlady saved it for me but she also raised the rent. I can't tick, though, because many people are in the streets without any place to stay, things are so crowded and rents so high."

"The Red Cross is helping a lot. They are attempting to bunch the people all together and are putting them into the Marine barracks," she wrote.

Mrs. Davis made the trip from China to Manila on the "Chaumont." Although she expresses no fear for the safety of her husband, believing the U. S. navy can take care of itself, she writes that she "does not know when I will see Phil again."

His ship was supposed to be in Manila on Nov. 1 for repairs but at the writing she mentioned the "Black Hawk" is in the thick of it.

The letter to Mr. Coleman came to Twin Falls via the famous Pan-American "Clipper" airplanes which span the Pacific.

## HAZELTON

A dinner was given by the congregation of the Presbyterian church Tuesday honoring Dr. E. G. Williams of Los Angeles and the Rev. W. O. Bentin of Parma who are visiting churches in the interest of the synod. Dr. Williams is head of the pension department with offices in Los Angeles, and Rev. Bentin is pastor of the church at Parma. Both gave addresses following the dinner.

The Ladies' Aid society was entertained at the home of Mrs. Elmer Berman Wednesday with a good attendance. Mrs. Emma Longenberger gave the devotional hour, also read the "Dogs of War." The members decided to have a rummage sale and dinner at the Legion hall on Nov. 10.

Mrs. Lyle Wickham has returned home following a serious illness in the Twin Falls hospital.

## CROP OUTPUT AT HIGH SINCE 1928

MOSCOW, Nov. 5 (Special)—This year's crop production, largest since 1928, is only six per cent less than the all-time peak reached in the year 1930.

Although crop production per capita of the population is much less than during the 1920s, it is 5 to 10 per cent above the downturn of production per capita since 1905.

This analysis is made by C. M. Purves of the bureau of agricultural economics in the October issue of "The Agricultural Situation," monthly publication of the bureau.

## Rupert Men Work For Scout Funds

RUPERT, Nov. 5 (Special)—Twenty men met at Fred's Club cafe Thursday for breakfast together. Henry Bergal, Scout commissioner of Minidoka county, and A. K. Friesen explained the reason for the drive for funds.

Afterwards the men went out in teams to raise Rupert's portion of the county's quota of \$278.

"We need purified water for this purpose in order that the lives of our children, babies and young children, and the lives of our livestock, horses and playing animals, will not be endangered. We can't go back to the old method of using the water from the river."

**Library Loan Flooded**

The library loan committee can say this much. We have had a 30 year ago.

"The committee is urging the people to vote for the proposed water storage project," said Mr. Henderson, "and the need for wider streets and the need for the improved travel."

"The water is the absolute need," said Mr. Henderson, "and now we have the opportunity to improve this by voting bonds which will make a reservoir construction."

"It is a matter of utmost importance at this time and I earnestly urge you to vote for the project which will take care of the best interests of the city which in this case will be voted for by the people," said C. H. Kruger, a member of the committee, "and the need for wider streets and the need for the improved travel."

## WOOLEN MILL

Woolen mill in Idaho, will be the first of its kind in the state. It is being constructed today by the Idaho Woolen Co., of Boise.

The mill is headed by R. H. Hays and Peter M. Hays, and they would use the wool shorn locally.

**WATERWORKS PROGRAM**

The waterworks program for the month of November is released through the county agent's office in Twin Falls.

Mr. Margaret Hill, district agent, will visit the mill.

## ANNOUNCING THE 1938

# LINCOLN-ZEPHYR V-12

**The modern "twelve" at medium price**

In the annual, fashionable parade of model after model, improvements, changes, refinements are to be observed on every kind. But how seldom the whole car departs from traditional ways.

The LINCOLN-ZEPHYR V-12 during 1936 and 1937 did—and still does. The car for 1938 does even more. Truly it can be said: It breaks with tradition again!

Gracious streamlines that gave the LINCOLN-ZEPHYR a distinction of its own in two years previous are even more pronounced this year. If the bold front of this new car reminds you of the nose of some great air-liner, it is made that way for the same basic reason. Principles of functional design, rather than mere style, dictate the car's modern form. Thus the low and horizontal radiator grille, aside from its beauty, increases cooling efficiency.

This new car breaks with the usual, too, in its modern power-plant. The V-type 12-cylinder engine, used and approved by more than 45,000 enthusiastic LINCOLN-ZEPHYR owners during 1936 and 1937, has been refined to give an even smoother performance. And new-type valve lifters, with oil cushions, bring even quieter operation. . . . Developing 110 horsepower, the engine gives 14 to 18 miles to the gallon—twelve thrifty cylinders!

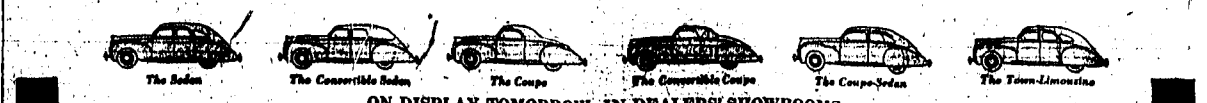

The basic construction of this car is a definite break with tradition. In closed types, body and frame are not two separate units, but one unit, a steel framework; all members welded together. To this rigid framework, steel top, side and floor are welded. You ride surrounded by steel—and view road and landscape through wide windshield and windows of safety glass.

The new LINCOLN-ZEPHYR is bigger inside, bigger outside. The wheelbase is lengthened to 125 inches. Great comfort results from the placing of car weight and passenger weight toward the middle. Prove this on your favorite back road!

This year, a new Convertible Sedan and a new Convertible Coupe bring to six the number of LINCOLN-ZEPHYR body types from which you may choose.

This modern "twelve" is still the only car of its kind at any price! Lincoln Motor Company, builders of Lincoln and Lincoln-Zephyr V-12 motor cars.

Prices begin at \$1295 delivered at Detroit factory. State and Federal taxes extra. The Sedan illustrated is \$1595 delivered at Detroit factory, white side-wall tires included.
