## Citizens Prepare for Bond Vote Tuesday

### Administration, Fact Finding Group, Ex-Mayor Join in Reply To Questions on Improvements

### WATER RESERVOIR, STREETS LIBRARY UP FOR APPROVAL

The Citizens' Fact Finding committee, members of the present city administration, and a former mayor today joined hands in answering several last-minute questions pertaining to the proposed improvements to be submitted for approval in the city bond election tomorrow. A new water storage reservoir, a public library building, and street improvements will be voted upon.

Most of these questions were asked in a letter addressed to the editor of the Idaho Evening Times and Twin Falls News, signed by H. L. Cannon, secretary and treasurer of the Tax Relief committee of Twin Falls.

In at least one instance sharp exception was taken to what was described as a false implication. R. E. Bobler, mayor of Twin Falls at the time in question, emphatically denied the latter portion of one question included in Mr. Cannon's letter, reading as follows:

"What guarantee can the fact finding committee or the city administration give the taxpayers that the bonds if voted will be sold to the best advantage and to the lowest bidder and will not be sold or disposed of at the discretion of the city bonds were in 1929 and 1930 without bids?"

"I was mayor of Twin Falls at the time when the refunding bonds were issued for the purpose of the interest rate on the 6 per cent bonds then outstanding," said Mr. Bobler. "The implication contained in this one question is a deliberate misrepresentation of the actual record of the fact finding committee."

"The minutes of the committee show that the city authorized the fact finding committee to bid on general obligation refunding bonds were opened from the following firms: Central Trust company of Salt Lake City; Herworth, Chanute, Loughridge and company of Denver, Colo.; Gray, Emery, Vasconcelos and company of Denver, Colo.; and the bank company of Salt Lake City; Walter, Wood and Heimerdinger of Cincinnati, Ohio; and the National City of California."

Will Follow Law  
To clarify the first part of the same question, Mayor Lem A. Taylor said that the bonds are being sold to the best and lowest bidder. "We will advertise for bids," he said, "and the bids will be awarded to the best and lowest bidder."

In answer to the question: "Can't it be shown that the city has approximately \$100,000 in the bank today?" Paul H. Taber, city finance commissioner, assured the public that such is not inferring that the city has that much money which could be used to help defray the expense of the improvements to be voted on," said Mr. Taber. "In the first place the actual amount of cash on hand is only \$77,888.22; of which \$39,000 is a sinking fund to pay bonds and interest which are due Dec. 1, 1937, and Jan. 1, 1938; \$29,246.10 in principal amount is general fund reserve to take care of current operating expense; \$1,231.11 is in (Continued on Page 2, Column 2)

# EUROPE REGARDS GERMAN-JAPAN-ITALY PACT WITH ANXIETY

## MILITARY CLAUSE FEARED INCLUDED IN NEW ALLIANCE

### Positive Drive For Spreading Of Nazism and Fascism Through World Seen

By RICHARD D. McMILLAN  
LONDON, Nov. 3 (U.P.)—European democracies regarded with growing anxiety today the prospect of a world-wide collaboration among Fascist, German and Japanese. The result of "Party" adherence to the German-Japanese anti-Communist alliance, it is suspected that there might be some military clauses attached to the agreement was intensified when German warships joined Italian warships in the revival of the pact in the Italian port of Brindisi.

Aids from the military clauses, however, belief strengthened that the pact would be made the basis for a positive drive to increase the influence of Nazism and Fascism throughout the world. It is believed that the pact was the result of inviting the United States to adhere to the pact. There is belief that the pact will be considered in the weeks on obtaining the adhesions of European nations, and it is believed that the pact will be made the basis for a positive drive to increase the influence of Nazism and Fascism throughout the world. ## RESERVOIR SEEN UNIFORMITY AID

### Twin Falls Chemist Asserts Plan Would Help Get Safer Supply

(From Page 1)

Two days' grace should be broken down to one week if the plant shut down now we would be without water almost immediately.

At present, occasional water at the plant is not automatically controlled. It cannot be automatically controlled because of the type of equipment installed.

This is no result of the plant, but a natural condition which will not permit it.

Therefore it is necessary to regulate the chlorine and other materials by other means than automatic control.

With the plan being drafted this method is not infeasible, but it would be if the plant was such that it could be run at a steady rate.

"If water is being forced through the filter beds at an above normal rate it cannot be doing a very good job," Starn said.

## GAS THIEVES SLUG DRIVER

One couple, living in Twin Falls, will think twice before they decide to sit in a car on a dark street and talk.

While the couple sat early Sunday morning, two uninvited guests removed the gas tank cap and proceeded, with the aid of a hose, to extract a quantity of the fuel.

The man in the car objected and told the other visitors about his suspicions in so many words after he had waded around to the rear of the car. The visitors also objected to being disturbed and one of the men promptly hit the car owner over the head with the piece of hose. Then they fled and the car owner took the gas tank to the police house.

Outside the fact that the two gas thieves were "very tall," police have little to go on.

**CLASH OF CHARACTERS**

Jill, the "know him" woman, looked at the man sitting next to her. "You know him?" she asked. "Yes," he replied. "He's the fellow who was in the third row at the dance last night." "What was he doing there?" "He was just sitting there, watching the girls dance." "And you were sitting next to him?" "Yes, I was. He was very polite and very charming." "I'm sure he is," Jill said. "I'm sure he is a very nice fellow." "I'm sure he is," Jill said. "I'm sure he is a very nice fellow."

**BEHIND THE SCENES IN WASHINGTON**

By Rodney Duthier

Washington, Nov. 8.—President Roosevelt says he doesn't think the surplus profits and capital gains tax revision will have to become much more drastic than the present program will be aimed at.

This reflects the President's mind fairly accurately, according to many who have been talking with him earnestly. The reflection depresses some of his advisers and elates others.

It is now certain that the tax which has been turned on Roosevelt in the effort to persuade him to ask corporate and capital gains tax revision will have to become much hotter if the President's brand of "revision" is to satisfy the business groups and conservative advisers who have been urging him.

**WE SLEPT IT HOURS ONCE— BUT A FULL WEEK!**

Pot Shots:

Everybody seems to be observing some kind of a national week. It isn't National Art week. It's National Education week or National Navy week or National Dog Catcher week.

Personally—and I know a lot of people who agree with me—I'd be in favor of a NATIONAL SLEEP WEEK... everybody to stay home and snooze.

—Marjorie

**CHAPTER XV**

OUTSIDE the city was changing. It was soft and smothering. A blanket of snow was overlying familiar scenes with white.

In the drawing room which flanked the ballroom, Jill was receiving with William Whitson, standing by her father and mother. And now here was Milo, cold and angry looking, also; his eyes lighting up suddenly as he saw his friend on Jill's left shoulder.

"What dances are you saving for me?" Milo asked, a strange new intensity in his manner. An almost demanding way. The third and the fourth, to begin with," Jill answered sweetly. Nothing could ruffle her now.

**SLEUP NOT ALARMING**

Roosevelt's remark that his intimates interpret him correctly, is convinced that the business slump caused the worst of the stock market drop—no vice versa, and that the two chief causes were:

Industry's stocking heavy inventories at high prices last spring. Industry's distribution of shares on the market would accept such a view obviously minimizes any adverse effect of higher wage rates.

Although the administration has its quota of Cassandras, in general it is not seriously disturbed by the current business situation which itself, it believed in high places.

**WELL, THEY PROBABLY MADE IT EVENTUALLY!**

Pot Shots:

It was an slightly round-about journey, was the launt from Ketchum to Boise made by a certain "Whiz" and his wife, of the Hotel St. George.

They started out for Boise from the St. George at night. Whiz went to the hotel and stayed there. When she woke him up, they were in Filer.

And they're getting plenty kids about it now. Some of the boys tell 'em they should carry a compass to keep directions straight.

—Ellis

**THE FIRST WITH BILL**

The second with the new Englishman, Victor Ainsley, who was leaving the party early, and wanted to meet her according to the plan. The third with Milo, and the fourth—the fourth by that time, Alan would have arrived.

It was while she was dancing with the Englishman that something happened that gave Jill a queer feeling of apprehension.

She was entering the ballroom, trying to look as though she were not doing something that was distinctly irregular. He was making his way to her father, Jill, dancing nearer to the group where her father was standing, saw him look up blankly as Perkins spoke. Then she was positive of it, her face flushed white and she started. He turned and walked from the room.

**NO CONCESSIONS**

As to the corporate surplus profits tax, the President has far sticks to the principle that investors rather than corporate managers should decide whether corporate profits should be distributed, favored by expansion or stowed away. He won't accept the New York view that the tax be reduced to the point where it is no longer a tax. Apparently, however, he does realize that the tax is hard on small business, which has no real access to the capital which is invested.

No hint whatever appears that Roosevelt would be willing to modify the SEC act or his power policy—or abandon any of his congressional program.

**JILL felt suffocated.**

Terrible enmeshment had come. Mr. Montaine, with the fury of a parent who had seen his son cast aside, had decided to come to the party after all, and bring the gay hours down crashing on her head.

It was all clear now. There had been something of it in Milo's eyes. She knew so little about business that she had been misled by her father had counted upon the friendship and financial support of this man to carry the company through its darkest conditions.

That good old west ain't no more. I'm telling ya, we used to leave our shack unlocked all the time and it were a risk some in and "help yourself" but clean up your mess. In other words you were welcome to come in and help yourself. Now you can't clean up your mess, that is if no one were to home, and if there were just hang around till it were time to put him on. Now days a man half to lock the door and throw the key away and then hurry home for fear that some sort-of a son watched where ya opened the key.

Ya know in the good old days every one knew his place and ailed in it, and if he didn't, well, someone was going to put him where he belonged, we didn't have a lot of trials and trying and spending a hull-of-a lot of money and we had good people to help us. Now what ails us is, there was no sir, everyone just went along doing what was right and helped each other out, but now every modern nest just look it away from us. Ya, father, an honest man would starve in this here new west.

The good old west's gone but not forgotten.

**ROOM AT THE TOP**

Jobs may be short these days, in the professions as well as the trades, but there is still an unfilled need for men and women of outstanding ability and training. So says William R. White, New York state superintendent of banks, in an address before Bucknell college students.

"This, of course, is simply another way of phrasing the old saying that 'there's always room at the top'; and the old saying is just as true now as it always was. The really superior person can always make a place for himself.

But only a few of us, unfortunately, are really superior persons. It is the opening for the average person that we're interested in; and unless there is some assurance that an ordinarily intelligent and skillful youth can have an ordinarily good chance of finding a job for himself when he starts out, young collegians—and other youngsters as well—may eye the future with misgiving.

# CALIFORNIA, BAYLOR SPOIL CLEAN SLAT

## Bears Held to Tie by Huskies As Texas Wins

### Alabama Saves Face With Last Quarter Victory Over Tulane

By LESLIE AVERY  
NEW YORK, Nov. 8 (AP)—A fine-tooth comb and a magnifying glass may become necessary to uncover a perfect record football team at season's end—if the astonishing parade of upsets continues.

The despoiler erased California and Baylor from the undefeated, until ranked Saturday. Their downfall, however, was no more surprising than the wallowing absorbed by a dozen other favorites in Alabama, Santa Clara, Colorado, Montana and Lafayette alone remained with clean slates.

California was held to a 0-0 tie by an under-rated University of Washington defense champion of the Pacific coast. Baylor succumbed 9-6 to Texas, beaten four times and tied once.

Alabama saved its face with a field goal in the last few minutes to beat a lightning Tulane team, 9-0. Southern won 29-0 over Wake Forest; Colorado stopped Utah 17-7; Montana blanked Gonzaga 23-0; and Lafayette tied its record in the first time, maintained an unmarred record, 13-0, over Rutgers.

Only one of the undefeated, but tied teams, was beaten. Temple beat Tulane 13-6 by Michigan State. Major upsets, with only ties against their records, won as follows: Yale 19, Brown; Dartmouth 23, Princeton; Fordham 21, Purdue; St. Pittsburgh 19, Notre Dame; Villanova 20, Marquette; Holy Cross 12, Colgate; Duke 6, Wake Forest; Nebraska 14 to a 13-13 standoff with Kansas.

## Jones Issues Call for 1937-38 Hoop Squads

### BEARS, STANFORD TOP CONFERENCE

Two Clubs Expected to Play For Title on Nov. 20 At Palo Alto

By JAMES A. SULLIVAN  
SAN FRANCISCO, Nov. 8 (AP)—Barring upsets in their games with western opponents this Saturday, Stanford and California will be meeting for the Pacific Coast conference championship when they play their annual game at Palo Alto Nov. 20.

University of Washington, the 1936 champions but out of the running this year, made this possible by holding California to a scoreless tie Saturday.

The result halted the Golden Bears' victory march after seven straight wins and left Stanford with an record at four wins and one tie.

Stanford in second place and kept in the running with a 7-6 victory over U. C. C. to make the Cardinal record three wins, one defeat and one tie.

California is expected to beat Oregon, and Stanford should take the measure of Washington State in their regular season game this coming week-end.

This Stanford call the California for first place, while the Bears' annual battle, northern California's biggest football game and one of the great traditional games of the west-end.

There's not much on the records that gives Stanford a chance with the Bears, but this year's Stanford team is expected to be better than last year's.

Idaho vs. Gonzaga  
Ranking next in importance in its own right is the California-Stanford game, the annual St. Mary's-Santa Clara clash on Sunday, Nov. 14, at San Francisco tops the independent football offering for the week-end ahead. St. Mary's showed little in beating University of San Francisco, 20-0, on Sunday, while Santa Clara, Saturday, takes on Gonzaga without defeat or tie in beating San Jose State, 25-2.

Montana sharing with Santa Clara the only perfect record left among major eleven in the west, made Gonzaga its sixth victim, 23-0, Saturday, Saturday, takes on Gonzaga next, while Montana rests for Nov. 20 clash with Idaho.

## A Full House of Fullbacks

Misnomer is noted for fullbacks down through the years. Slats of yesterday lined up on the Gopher practice field with Larry Buehr, one of the current nosebacks, to symbolize their slant away from their age, from left to right: Sheldon Reise, 1931-5; Ollie McCree, 1931-8; Carl Libbert, 1923-4; Bahler; Herb Jessing, 1928-7; and Brock Nagurali, 1927-8. Add such as Walpole Wyrman, 1916-5; Jack Mansfield, 1914-3; and Stan Koska, 1914, to the list and you have a fair idea of Maroon and Gold drive down through the years.

## Whizzer White Has Ingredients That Go To Make Up All-American, Mae Believes

By HENRY McLEMORE  
SALT LAKE CITY, Nov. 8 (AP)—As I get it the recipe for an all-American backfield man, as endorsed by all our leading press box chiefs, reads something like this:  
Take equal parts of speed, power, and savvy. Mix well with ability to kick and pass. And a generous pinch of endurance, and serve on any Kappa, Iota, etc.

If that's right, then this Byron "Whizzer" White of Colorado University deserves the title, with only occasional support from his comrades, he brought his team to a 17 to 7 victory over a big string, and spirited Utah university eleven. He scored all 17 points, and in doing so lived his total for the season to 12, and kept Colorado in the select group of undefeated and untied teams.

Whizzer, who told his election details, just as the team left

Denver last Friday night, accounted for the 17 points with a field goal, touchdown dashes of 37 and 37 yards, and two placement kicks for the point after touchdown.

Amazing Run  
His 37-yard run, which came when his team was trailing 3 to 7 and in rather sad straits, will go down in the books as the most amazing bit of football business in years. None of the 10,000 spectators really knew how miraculous that run was until they looked in the Sunday papers and studied the camera shots. Whizzer started this run by taking a punt on his own 12-yard line. Harassed by six Utah players he retreated to within three yards of his own goal, and then dodged along the last stripe to within a yard of the far side-line.

No Explanation  
"I escape from so many tacklers, who completely surrounded him, because of speed, because he didn't have

room for a straightaway burst. And it couldn't have been done with trickery alone, because any side-steps would have led him into the arms of a tackler. My guess is that mirrors were employed.

At the finish he was the freshest man on the field. And all he had done, for a full 90 minutes, was direct the Colorado team from quarterback, carry the ball nine times out of ten the made all but 30 yards of the Colorado yardage; do all the passing and kicking, and play a football game on defense. While white had pushover opposition, either. The team Utah folded Saturday, more than competent one—a team that had white been on the sidelines, would have defeated Colorado by a brace of touchdowns. ## 8 Lettermen Return To Form Club Base

One more sign of the approach of winter was heralded today as Coach R. V. Jones issued the call for candidates his 1937-38 Bruin basketball squad. Practices had originally been set to start today, but because of the inability to get access to the gymnasium before Friday, these have been postponed until Monday, Nov. 15.

Coming up from his opponent's square hole was a letterman term plenty of fight for the field. L. C. Carney, sophomore wide receiver, also made good on the football square, it expected to be in the line of the battle for a first string job. Herb Larsen, another sophomore, looked good on last year's Club team as did Bob Hampton, still another sophomore, who is going to represent the team from Idaho. Other lettermen who were named were: Dale Wells and Ayres, who are also expected to be in the center of the fight for position.

Bill others coming up include: Ray Wells, George Davidson, Bill Peterson, a freshman from Idaho; Luke Sorenson, a freshman from Utah; Bill Peterson, transfer from Kansas.

Coach R. V. Jones is also vying for the position of development of Richard Stander, a six foot, three and a half inch freshman, who so far has had no experience on the hardwood, and other than junior high school basketball. But these are the ones who are eager to learn.

Largest change in policy this year has been that the Bruin basketball team will now be coached by Coach R. V. Jones. This is a significant change because through the years, the team has been coached by several different coaches.

The Bruin schedule, which has been made up, but Jones has received queries about games in the state in the future. The Bruin schedule is also being made up. The Bruin schedule would be played in the middle of December.

MURKIN LOADERS  
LAWRENCE, Mont., 418—The mudholes, mud, and mire of the state residents had a hard time here in which the contestants crammed shot down the muzzles of their loaded weapons. Competitions in shooting the old Kentucky rifle, the flintlock and percussion types were held.

secured by hunters who go after elk in the Cache forest event, Davis said. "For safety's sake, sportmen had better buy the tags before they go. Some vendors are all out, but others still have tags. There will, however, be some available at the Pocatello game preserve."  
The one-week special hunt will see 100 elk killed at the preserve in Cache forest. But of the hunters who secured permits are in the south central area.  
Regarding duck-hunting, now underway for a full week, six outback is the district warden said. "Everybody is reporting good duck hunting," he declared.

## UISB CLUB EDGES ALBION GRIDDERS

Southern Branch Team Gets Narrow 7-6 Victory Over Holt's Panthers

ALBION, Nov. 8 (Special)—A hard-fighting band of Albion Panthers today held a moral victory over the UISB club of Pocatello, although the Bears won 7-6 Saturday that attracted a near-record breaking crowd.

While the invaders had all the better of 1 in yardage gained, they found the going tough when they played with Holt's Panthers goal. Three times they moved down to the five-yard line, only to be stopped, and when the game ended they were within six inches of the local door from the four-yard line.

The invaders made the first score in the second quarter when line player John Holt, the Panther goal, three times they moved down to the five-yard line, only to be stopped, and when the game ended they were within six inches of the local door from the four-yard line.

Albion's score came in the fourth quarter when Holt's Panthers intercepted and Erickson put the ball over on two line plunges. But the try for extra point that would have tied the score missed by inches close.

The invaders piled up 14 first downs to four for the home club which was sadly outweighed. Erickson, the 20-pounder, was out of the game with a wrench ankle.

The lineup:  
A. Erickson, QB  
J. Erickson, RB

## 45,000 See Chicago Bears Lose 1st Game

Green Bay Packers Score 24-14 Victory

By United Press  
National league football standstill showed no undefeated teams today. The last holdouts, the Chicago Bears, had been tumbled by Green Bay's powerful Packers.

Before a record crowd of nearly 45,000 at Chicago, the Packers ran and passed their way to a 24-14 victory. The Bears were displaced from the western division lead, but their margin over Green Bay was cut to 83 percentage points.

Defensive backline third place among the westerners, defeating Cleveland 27-7 before a crowd of 13,000. The title Chicago's Castaldi dropped to fourth.

New York widened its first-place lead in the eastern division, scoring a 17-0 shutout over the Pittsburgh Pirates at New York before a crowd of 21,447. The second-place Washington Redskins were idle.

Ten thousand fans turned out to see Brooklyn join another, the sixth this year, 14-10, to the Philadelphia Eagles was Philadelphia's second victory of the season, but did not improve its position in league standings.

Angelo Bulldogs shut out the Baltimore Packers, 13-0, in another exhibition.

Sites for AAU Track Meetings to Be Set  
NEW YORK, Nov. 8 (AP)—Sites for national championships will be chosen next Saturday when 31 committees of the Amateur Athletic Union meet here.

The committees, embracing some 200 leaders of amateur sports from all sections of the country, also will issue on records established during 1937 and prepare a report on 88 amendments to the A. A. U. constitution, by-laws and athletic rules.

The recommendations will be acted upon by the board of governors, which meets on Monday.

The son of Benjamin Minn, has a snow-white peltoping.

Elk-hunting permits for the special Pocatello game preserve hunt, Nov. 14 to 20 may be transferred without registering the transfer through the Boise office of the game department, Grover O. Davis, district deputy game warden, informed south central Idaho sportmen today.

"The owner of the permit may transfer it to another person without giving back the permit to Boise," Mr. Davis said this afternoon. "He simply fills out the designated space on the special license, and the hunter to whom it is transferred signs his name at the bottom."  
Regular elk-hunting tag must be

BOARD EXPLAINS DROP IN IMPORTS

WASHINGTON, Nov. 8 (U.P.)—The sharp decline in gold imports in recent weeks was largely a result of repatriation of "hot money"—short-term foreign funds invested or banked in the United States—the federal reserve board reported today. Its monthly analysis of economic conditions, the board said, "played little part" in the capital movement. This was interpreted as meaning that there was no large-scale liquidation of stocks by foreigners seeking to withdraw their funds from this country.

# LEGISLATORS OPEN DRIVE TO AID DAIRY INDUSTRY

## BENEFITS WOULD INCLUDE HIGHER TARIFF CHARGES

**Three-Point Program Urged As Help to Nation's Producers**

WASHINGTON, Nov. 8 (UP)—Dairy state legislators opened a drive today to urge the house agriculture committee to include in the new farm bill a program of benefits for the nation's butter, cheese and milk producers.

Headed by Representative August E. Anderson, Republican, Minn., a bloc of congressmen planned to meet with Charles H. Johnson, Washington representative to the national cooperative milk producers federation to work out details of a proposed three-point program for dairy farmers.

The program includes:

1. Increased tariff on dairy product imports as well as vegetable oils.
2. Regulation of imports so that the increasing production will have to meet the same sanitary requirements as the domestic—a provision that would amount to embargo in some cases, bloc members said.
3. Limitation on the use of cotton and tobacco acreage for dairying purposes.

House Southern Move

Legislators who in the last point Anderson noted that cotton acreage has been reduced considerably in the last five or six years, and will not be subject to government control and stimulating such a situation.

## Public Forum

**BOND QUESTIONS**

Editor, Evening Times:

The Tax Relief Committee of Twin Falls would like to have the city's fact-finding committee answer the following questions in connection with the bond issue.

1. Where did they, the committee, receive the information that water was not available closer than 15 miles?
2. Has the city administration made a thorough investigation as to where water can be secured for domestic use near Twin Falls?
3. Has the city put down test wells in their efforts to find good underground drinking water?
4. In what way does the proposed water works differ from the ones recently proposed at which the government would have paid \$60,000 on water works alone?
5. Why should John Jones or Bill Smith on 10th avenue east or north who have paid for their street improvements, sidewalks and curb be called on to pay for the street and curb improvements in front of DeWetter Bros., on Second avenue north or Peavey-Tabor company on Second avenue south?
6. What guarantee can the fact-finding committee give the city administration that the bond if voted will be sold to the best advantage and to the best advantage will not be sold or disposed of as the recent refinancing of the city bonds were in 1928?
7. Why should a few members of the board or Chamber of Commerce and the city administration want to saddle the taxpayers with the Chamber's shoulders in face of another threatened depression as is indicated by the present market?
8. Isn't it true the city has approximately \$150,000 surplus cash in the bank?
9. If we must have more water let us bond for good pure underground water, not more backyard runoff or surface water from the Snake river and also water engineers that can adequately supply our underground water.

W. L. GANNON, Sec. and Treas.

## NET SPREAD FOR ARSON FUGITIVE

**Intermountain Officers on Watch For Clifford Bramble**

PROVO, Utah, Nov. 8 (UP)—Edmund Cragun, Provo truck driver, told officers today he had given a man, resembling descriptions of Clifford Bramble, arsonist who escaped from the Utah state hospital here Thursday, a ride to Rock Springs, Wyo., on the day the fugitive escaped.

He had not known of the escape, he said.

Local peace officers warned Wyoming sheriffs and police to be on the lookout for Bramble, who set fires in San Lako City and Sacramento, Calif., that did damage estimated at \$2,000,000.

Reports from Sacramento said that officers there were guarding Bramble's former wife, Mrs. Hazel Ward, in an attempt to trap the arsonist should he return to "get even" with her as a result of domestic trouble.

Bramble allegedly told San Lako City officers that quarrels with his wife led him to become an arsonist.

## Asks Probe

**'BOGUS' AGENTS FACING CHARGES**

**Security Board Cautions All Persons to Avoid Payment to Individuals**

Criminal prosecution by the department of justice of "bogus" collectors of funds in connection with the social security act's old-age insurance program has been requested by the social security board, it was announced here this afternoon by Ray Butler, area supervisor for the United States employment service, after his office had received a special communication from Washington, D. C.

Butler was advised that the social security board has asked the department of justice to investigate such collections and institute criminal proceedings. In announcing the action the board writes:

"The social security board has no old-age benefit collectors, old-age insurance collectors, or any other kind of collectors or financial agents. It has authorized no one to collect any fees from participants in the old-age insurance program. We wish to caution everyone against making any payments whatever to persons representing themselves as agents of the board and who guarantee the payment of old-age insurance."

**GIRL, 5, LOST IN MONTANA WILDS**

**AVON, Mont., Nov. 8 (UP)**—Patzy Eckley, 5-year-old girl lost alone yesterday in the rugged Snowshoe creek country, 10 miles from here, was sought today by several hundred men headed by a sheriff's posse from Deer Lodge.

The child disappeared while with her parents, Mr. and Mrs. Fred Eckley of Corbin, who went to the canyon to inspect a mine. Eckley started a steep hike from his automobile with his brother, Earl Eckley, Helena.

When the girl did not return to the car, Eckley made a frantic search and then called the sheriff's office at Deer Lodge for aid. Sheriff Fred Vailton went to the scene immediately with a posse.
