"Cleopatra"

Beauty as dazzling as Cleopatra's will refer again in Egypt when Farida Zulfikar, above, 17-year-old daughter of an Alexandria judge, becomes queen by marriage to young Farouk on January 26, 1938. A love match in which his ministers have had no hand, the betrothal is popular with Farouk's subjects.

Hot in Ring

With his incredibly muscled chest, scraggly hair and dusty, well-worn clothing, William H. "Alfalfa Bill" Murray, self-styled "King of Fishhooking," has emerged from political retirement to announce he will run for governor of Oklahoma in 1938 on a "reform" platform. Bill, shown above in a recent picture, was governor once before, and gained so much fame for his unorthodox ways that he sought the Democratic presidential nomination in 1932.

COMMITTEE REPORT FAVORS FARM ACT

Chinese Defenses Crack; Foreigners Prepare to Flee Nanking

JAPANESE PLAN TAKING OVER OF SHANGHAI BANKS

U. S. Ambassador Johnson Leads in Evacuation of Embassies

By EDWARD W. BEATTIE
SHANGHAI, Nov. 22 (U.P.)—Foreigners who had remained in Nanking made hasty preparations to evacuate the capital today on the strength of reports that Chinese defenses to the south were cracking and that Japanese air raids were impending.

United States Ambassador Nelson T. Johnson was aboard the gunboat Luzon, which will steam up the Yangtze river tomorrow for Hankow, leading the general evacuation of foreign embassies.

For more than an hour today six Japanese bombers dived, bombed and machine gunned troops moving southeast from the city toward the Wush-Kiangin defense line. Unofficial reports said that Wush, principal point of the Nanking defenses, had fallen. This would remove the last big obstacle in the way of the capture of Nanking.

The Japanese bombing squadron drew replies from the Chinese forces. The city was strangely quiet because all anti-aircraft has been removed to Hankow. Remaining residents were apprehensive, believing that the Japanese were aware that Nanking was without air defense.

Johnson said emphatically that the United States government considers that the embassy is operating both on the land and by air. Mr. Johnson said that the Japanese were looking after the interests of 34 other Americans in Nanking. The facilities of the embassy will be available.

Japan threatened to seize all Chinese government institutions and greater Shanghai in defiance of the United States.

PIONEER WOMAN SUCCEUMS AT 95

Mrs. Elizabeth W. Barnes Dies Near Hanson After Lingering Illness

Death removed one of Twin Falls County's earliest residents when Mrs. Elizabeth W. Barnes, wife of the late J. T. Barnes, succumbed to a lingering illness yesterday at 7:30 p. m. at her home near Hanson.

With her death came the passing of a pioneer woman who lived in Twin Falls, and J. L. Barnes, with whom she had made her home, and her daughter, Mrs. Mabel Bradley Newberry, who lived a month of being 90.

Born in Nashville, Tenn., on Dec. 27, 1841, she was married in Pittsburg, O., on March 31, 1860, and moved to Kansas in 1869. She came with her husband to Idaho in 1909. Mrs. Barnes, one of the earliest of pioneers here, died in 1909.

An active church worker all her life, she was identified with the Home Community church. Three children preceded her in death. Besides her sons and daughter, she is survived by 13 grandchildren, 22 great-grandchildren and one great-grandchild.

While funeral arrangements are being completed the body rests at the Drake mortuary.

Wreaths and Yule Lights For Streets

Pine wreaths, electric candles and red holly leaves featured parts of this year's Christmas street decorations. It was announced this afternoon by W. A. Van Engelen, chairman of the merchants' branch of the Twin Falls Chamber of Commerce.

Two wreaths will be placed on each light post along Main avenue, two blocks each way from Shoshone, and on Shoshone street one block each way from Main avenue, as announced. Each wreath will be 20 inches in diameter and will have a red holly spray.

At each of the four intersections, one block each way from Main avenue and Shoshone street, a lighted star will be suspended. At the principal intersection a giant made with boughs and studded with many colored, flashing lights will be erected. It will follow the pattern of the "hol" constructed last Christmas season.

Alde from the wreaths, each lamp post in the business district will also have electrically lit candles around the light proper. They will contain flame colored globes.

Tentative plans, Mr. Van Engelen said, call for the displays to be lighted on Friday evening, Dec. 3. They will be used until after New Year's day.

COLLEGE GIRL, 19, ADMITS SLAYING

New Jersey Student Tells of Hitting 5-Year-Old Child, Hiding Body

MERCANTVILLE, N. J., Nov. 22 (U.P.)—Miss Mary Keenan O'Connor, 19, a biological education student at Rutgers University in Camden, Philadelphia, was held today after confessing that she struck a five-year-old child in a fit of anger and hid the body in a mud hole.

Authorities had thought that the victim, Nancy Glenn, had been killed by degenerative. The body was found in a mud hole covered with thin sheeting near her suburban Philadelphia home.

Miss O'Connor, daughter of a Philadelphia school teacher, was arrested at the home of her wealthy maternal grandfather here in a confession, which police said she had dictated but had not signed, she said that she struck Nancy Glenn with a penny in a fit of anger and hid the body in a mud hole.

"Nancy asked me to take her for a ride on my motor cycle and I did not," police said the confession said, "about three yards from where Nancy's body was found I fell on the body and had 40 steps and 37 got off, some loose change fell out of my pocket. I called to Nancy to help me find the money and I would give her penny if she would help me pick up the money. Then she started to pick up berries and I had an argument with her not to eat the berries. She had 40 steps and 37 struck her on the chin and she fell down and lay still and I thought she was dead. I hit her head on something. Then I felt her pulse and as far as I know it wasn't beating."

The state pardon board is expected to hear Van Vlack's plea for commutation today. Sentence proper will sign upon arrival of the exhibits. But because the exhibits are vital material for two other possible murder charges if Van Vlack escapes hanging Dec. 10 for killing his wife, dispatch of the exhibits to another court officer instead of the attorney was decided on.

Van Vlack Exhibits Sent to Ada Court

Gun, Bullet and Other Material Go to Clerk Instead of Attorneys for Condemned Killer

While Twin Falls officials wondered what emphasis Douglas Van Vlack's attorneys hope to achieve before the state pardon board by showing such items as the gun and the bullet used in slaying Van Vlack's young wife, the exhibits in the case were to be dispatched to the clerk of the Ada county district court this afternoon.

Release of the exhibits is being made by Court Clerk Frank Smith under an order signed by Judge J. W. Porter. But Mr. Smith, under advice from Judge Porter, refused to mail the exhibits to James P. Agathe, Jr., and Robert Altshuler. Instead, they were to go to Stephen Utter, Ada court clerk, who will release them to the attorney only when the latter sign the "receipt therefor" ordered by the court here.

LAST APPEAL IS MADE BY CHINA AT-PEACE MEET

United States Reported to Have Turned Down Plan to Halt War

By WALLACE CARROLL
BRUSSELS, Nov. 22 (U.P.)—China made a final appeal to the 19-nation Far Eastern peace conference today as the United States was reported to have turned down a proposal to join with Great Britain in another diplomatic effort to halt the China-Japan war.

With the conference ready to adjourn after having limited itself to a denunciation of Japan, the Chinese delegation urged the United States and the European powers not to leave Brussels without giving their material aid.

Worse for China
The Chinese delegates argued that if the conference adjourns without some concrete action, the situation would be worse for China than before. They contended that in such event Japan would be encouraged by the "helplessness" of the United States, Britain, France and the other powers, while China's morale would be weakened by the failure of the powers to unite against an aggressor.

Seek War Materials
Now, it appeared to conference delegates, the Chinese would be satisfied if the conference powers merely agreed to supply war materials.

The Chinese emphasized that China would fight to the end in order to have the peace conference materialize. China would be able to prolong the struggle and force Japan into a stalemate because of China's supposedly weak economic position.

Leaders Hope to Get Final Action On Bill in Week

Stabilization of Farm Income Seen in Measure

WASHINGTON, Nov. 22 (U.P.)—The agriculture committee today reported favorably the administration's extensive farm bill to the senate, thus opening the avenue to legislative progress which has been held in check by filibustering tactics during the first week of the special session.

Senate Majority Leader Alben W. Barkley, D., Ky., said today that he hoped to obtain final action on the bill this week.

House Minority Leader Sam Rayburn, D., Texas, said that if the bill is ready for introduction tonight debate probably would begin Wednesday and if it is introduced tomorrow, the house could start work on it Friday.

The farm bill provides for stabilization of farm income and checks against crop scarcities. Barkley estimated that it would cost less than \$100,000,000 on soil conservation funds and \$125,000,000 on customs receipts already available. Other estimates place the cost as high as \$700,000,000.

Follows Conference
The favorable report on the farm bill followed a conference of four senators and house leaders yesterday. Barkley in his bedroom when he is conversing from a slight limp, Barkley, one of the conferees, reported that the measure cleared the whole legislative situation and seemed fairly well satisfied. They promised the President that they would hasten the program.

CCC BOYS BUILD SOUTH CENTRAL RECREATION MECCA

Picnic and Camp Grounds Emerge As New Benefits

By JOHN L. CHRISTIAN
(Education Adviser, Rock Creek CCC Camp)

Residents of Twin Falls and vicinity watch with great interest the progress of the Rock Creek development project being accomplished by CCC Company 1246. When this project is completed Twin Falls and south Idaho will have one of the finest recreational areas in the intermountain country easily accessible within an hour's drive of the city. Active development is being conducted on 700 acres of beautiful picnic and camp grounds.

Two-hundred camp sites, 101 picnic tables, 4,680 feet of water pipe, numerous swings, see-saws, softball courts, horseshoe pits, parking areas, toilet, showers, and other public service facilities have already been completed or are in progress. Finally, a winter sport and skiing development also exists.

Achieved Much
Since the Rock Creek CCC camp was established late in 1935, the boys have built more than 25 miles of fence, 1 1/2 miles of telephone line, two cattle guards, one mile of pipe line, 111 signs and markers, 25 miles of road, twelve public service buildings, fought 17 forest fires, completed road control on 1,650 acres of range and forest land, regular maintenance work on 155 miles of forest service road, and completed tree insect control on 9,860 acres of forest in the land south of Twin Falls.

This is in addition to the park development work mentioned previously. Valuable carpentry training has been given the boys in the construction of three double bridges over Rock creek, construction of a superior's residence and garage in Buhl, a garage at Bostetter, and a ranger station, office, barn, two warehouses, large garage for twelve trucks, and an oil house in Oakley—all completed entirely or partly with CCC labor.

Valued Training
Value of this training for boys is seen in the fact that forty-four former enrollees of the company have secured employment directly through the training they received as members of the civilian conservation corps. Approximately half of these men are now employed in various branches of the road construction and building industries in Idaho and others in the east. In the road construction projects alone more than 3,000 sections of cement and five tons of dynamite were used by enrollees under foreman supervision.

According to Project Superintendent Cleveland H. Ramage, a busy program of work is ahead for the fiscal year ending in June, 1938.

Here's Program
The following items are on the list: Four and one-half miles of the Rock creek road yet remaining to connect with Porcupine springs; seven miles of new road from Porcupine springs to Bostetter; widening to double-track standard eleven miles of road up Rock creek and surfacing twenty-seven miles of road on the circuit from Rock creek to Bostetter.

In addition two crossing plants are being constructed in Rock creek and Oakley in which 6,000 fence posts, 800 telephone poles and 400 "bushes" will be treated. Three forest boundary entrance signs will be built in the main camp and three bridges constructed on the road project.

All this in addition to an extensive program of park development. The Rock Creek canyon, above the camp is one of the most picturesque in Idaho, the unusual feature being that there are many water birches, hawthornes, and other trees which give parts of the canyon the appearance of a New England woodland. Mr. Ramage hopes to have the last link of the road passable by the Fourth of July.

FDR. POSTPONES SOUTHERN TRIP

Physician's Suggestion Urges President to Rest as Recovery Aid

WASHINGTON, Nov. 22 (AP)—President Roosevelt today postponed his trip to Warm Springs, Ga., on the advice of his White House physician who suggested that he rest this week to regain full strength after a short illness.

Mr. Roosevelt had planned to eat his Thanksgiving dinner at Warm Springs.

The president last week suffered from an abscessed tooth and a slight intestinal disorder. He remained in the White House today but had five scheduled callers.

Secretary Stephen T. Early said Mr. Roosevelt would delay his southern trip probably until the latter part of this week or the first part of next week.

Then, instead of going straight to Warm Springs, he will go to Florida for four or five days fishing and rest in the sunshine, returning to Washington by way of Warm Springs and Gainesville, Ga.

Borah Subdues Drunkard With Fists on Bus

WASHINGTON, Nov. 22 (AP)—Sen. William E. Borah, R., Idaho, declined today to make a complaint against an intoxicated man whom he subdued with his fists aboard a bus.

The man annoyed Borah as the senator was en route to his apartment from the Capitol. Borah warned him "to keep your hands off me," but the "drunk" persisted, he said.

"So I hit him," Borah said. "The man, whose name was not learned, got up in the aisle and came toward Borah and the senator swung again. The bus driver ordered the man off the bus."

Local Resident Weds In Ogden Bridal Rite

Of interest to the many friends here of Miss Nell Kinney is the following account of her marriage in Ogden, Utah, last week. She attended school in Ogden and graduated from Twin Falls high school. She is also a graduate of the University of Utah.

The report of the wedding is: "The bride, wearing a tall white candelabra, added a touch of solemnity to the nuptial vows taken at five o'clock Wednesday evening by Miss Nell Kinney, daughter of Mrs. Edward Kinney and the late Edward Kinney, and Karl Hopkins, jr., son of Mr. and Mrs. W. Karl Hopkins, whose wedding took place in St. Joseph's rectory.

The Rev. Patrick Sloan performed the ceremony before the immediate families of the couple. Tall vases, filled with white pom-pom chrysanthemums, completed the rectory decorations.

The bride was dressed in a smart Regency trend in turgundy tones. A corsage of orchids set off the deep wine color of the ensemble. Miss Kinney was given in marriage by her grandfather, William J. Dermody.

Miss Margaret Dermody of Salt Lake City, aunt of the bride, was maid of honor. Her gown was black crepe, lined with royal blue velvet trimming. The bridesmaid's carriage was made of delicate yellow rosebuds. John Hopkins, brother of the bridegroom, was best man.

Supper follows. Twenty-three members of the immediate families were present at a wedding supper, following the ceremony, in the English room of the Hotel Ben Lomond.

Snowy white and silver furnished the dining-room decorations. Tiny button chrysanthemums and roses, in white, were used for a centerpiece and flat heart-shaped bouquets at each place were filled with floating button chrysanthemums. A large white bride's cake was placed before the newly-married couple. Wedding cake in light silver packages was placed at each guest's plate. Silver candelabra, white candles, spaced along the table, and silver and white placecards finished the decorative theme.

Following a wedding trip to California, Mr. and Mrs. Hopkins will be at home to their friends, after Dec. 1, at Twenty-eighth and Jefferson.

LOCAL RESIDENT TO WED IN DENVER
The prospective marriage of Roy C. Miles, Twin Falls, and Miss Lucille Albright, Denver, has been learned by friends here. The ceremony will take place on Friday evening at the home of the bride's parents with 75 guests present.

After the wedding the couple will take a short trip through Colorado and will make their home here.

Over the Ocean from Scotland

This Scotch meat pie made of ground beef, onion and tomato is a tasty dish for a cold night.

A meat pie that's been famed for generations in Scotland should strike a happy note in Twin Falls. Here's how south Idaho housewives can make this famous pie... and there's nothing simpler.

1 lb. ground beef
4 tablespoons of onion, minced
1 can condensed tomato soup
1/2 teaspoon salt

Finch of pepper
1 tablespoon butter
Short pastry
Sauté the onion in the butter. Add the chopped beef, condensed tomato soup, salt and pepper. Let simmer gently until the meat is just barely brown. Line pie plate with pastry, pour the mixture into it, cover with pastry, prick the top with a fork, and brush lightly with melted butter. Bake at 375 degrees for one hour.

ed butter. Bake at 375 degrees for one hour. Or, if you don't feel up to making your own pastry, some of the prepared pastry mixes are a good bet. Good eating is that pie. One word of advice, though... better bake two of them at a time. Young and old men, women and children all love this pie. It's that kind of a pie.

Here's Recipe For Popovers

"All puffed up and full of hot air is not very flattering when spoken of humans but it is sheer perfection in popovers. The trick is to have everything hot. Hot grease, hot oven. And not to peek until the time is up to remove them from the oven. That is important because if you open the oven door to take a look, down pop your popovers."

1 cup flour
3/4 cup milk
2 eggs
1/2 teaspoon salt
1 teaspoon butter, melted
Beat the eggs and add the milk. Slowly add flour and salt which have been sifted together. Beat and beat until smooth. Add melted butter. Pour into hot greased popover or muffin tins, filling each two-thirds full. Bake at 450 degrees for 25 minutes, then at 350 degrees for 15 minutes.

FOR CREAMED VEGETABLES

Allow 1/2 to 2 cups of white sauce to every 2 cups of the vegetables. This amount makes 1 cup of thick cream sauce.
1/2 teaspoon butter
2 tablespoons flour
1 cup milk
Mix cream and salt with dash of pepper.

APPLE OUTLETS SET FOR STUDY

Growers of This County to Meet Tuesday to Ban Sale Methods

Ways and means of disposing of stored apples in this vicinity will be discussed Tuesday evening as members of the Twin Falls Horticulture association meet in an annual fall conference. It had been announced here today by Joe Day, Edm. president of the association.

The meeting will be held at the government inspection offices located on east side of the city. It is the first block past the truck terminal.

Estimates at the present time place at 60 per cent the number of apples being sold on the market while the balance of 40 per cent is being stored. Recent purchases by government agencies in this area have totaled approximately 40 cars.

Mr. Day said, with indications that such purchases will continue in the near future, with market prices varying from 10 to 20 cents a bushel, government purchase rates have been "pegged" at 60 cents, he said.

JUST FOR FUN

Beware Coughs That Hang On

No matter how many medicines you've tried, your cough, cold, or bronchial irritation, you can get relief now with Cromolum.

Series of medicines may be tried and you cannot afford to take a chance with any remedy less potent than Cromolum, which gives you the seat of the trouble and aids nature to soothe and heal the inflamed membrane and to loosen and expel the germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Cromolum. Your druggist is authorized to refund your money if you are not thoroughly relieved by the medicine obtained from the very first bottle. Cromolum is one word—no fuss, and it has no harmful effects. Ask for it plainly, see that the name on the bottle is Cromolum, and you'll get the best product and the relief you want. (Adv.)

SCOUT FINANCIAL CONDITION GOOD

Annual Report by I. E. Joslyn Lists Activities During Past Year

General financial condition of the Twin Falls district, Snake River Area council, Boy Scouts of America, is in "good shape" with all but very small current bills paid, it was revealed here this afternoon after I. E. Joslyn, district chairman, had filed a report of activities in the organization during the past year.

The report was filed with the council office, located in the Twin Falls Bank and Trust building and will be added to forthcoming reports from the other districts, Amby Frederick, executive, said.

Allowment for the 1937 period from the Community Chest, the report shows, came to \$2,200, all of which has been collected. The district has assumed an obligation to underwrite the area activities for the coming year in the amount of \$2,175, the funds coming from the present Community Chest drive and from the Pler community and interested rural groups.

In the report Mr. Joslyn shows 10 troops registered at the present time with 183 boys as members. "However," he comments, "100 few boys are reached since the independent school district number one also lists approximately 1,000 youths of Scout age. Aside from this number, there are also 500 of Cub age. Records show approximately 150 boys each year reach the age of 12 in this community."

An activities report included in Mr. Joslyn's comments shows that Scouts participated in many projects of value to the community. A score of other organizations received Scout assistance during the year and many camping and outdoor trips were taken by the various groups. In closing the report the district chairman recommends planned troop meetings, camps, week and more intimate knowledge and support of the activities of their own units by sponsoring institutions through their troop committees.

Electricity Goes To Jarbidge Mine

Grater Range Property Scene of Much Activity

Preparing for a more active program next summer, workmen today were busy constructing an electric power line from Jarbidge, Nev., to property of the Grater Range Mines, Inc. It was announced here this afternoon by a company representative.

Winter operations of the mine backed by the concern will be somewhat restricted but nevertheless will be continued, the representative said. Work on the property boarding house is nearing completion at the present time.

Winter supplies are being hauled in by E. R. Lund, manager, who is making purchases at both Twin Falls and Salt Lake City. A recent visitor to the property was C. M. M. Grant, Los Angeles, president of the concern.

Operation of this mine is serving to revive mining activity in the Jarbidge section, observers say, with indications Jarbidge will be "headed back" toward its former prominent position in mining work by next summer.
