Kettles Emerge Again Saturday To Assist Needy

Another tradition of the Christmas season emerges on downtown Twin Falls streets Saturday when the Salvation Army's kettles and bells will be set out.

The Yule kettles are an annual feature here and in other cities throughout the nation. Donations placed in the kettles between Saturday and Dec. 24 will help pay cost of the Christmas baskets. Ninety-six families in Twin Falls. Ninety-six such baskets were given out last year, according to Adjutant Ethel Ellis.

The Salvation Army is now settled in its new home, 217 South Main, after moving there less than a year and a half. The quarters, owned by L. J. Kimberly, are being furnished. The Army leader said.

Although clothing will not be included in the Yule baskets, donations of clothing are acceptable at any time. Mrs. Ellis pointed out a house warming as soon as the new quarters are completed.

A Muffin a Day Keeps Cathartics Away

If you suffer from common constipation here's good news for you. One good-sized muffin every day, made with Kellogg's All-Bran will keep you "REGULAR." Instead of over-stimulating your intestines, it gives them things they need. First, All-Bran absorbs water and softens like a sponge. This water-softened mass aids elimination. Second, vitamin "B"—the amazing vitamin that tones up your intestinal tract.

Kellogg's All-Bran is a crunchy, toasted cereal. Eat it with milk or cream and fruit—or in muffins. But however you eat it, use it REGULARLY. Eat two table-spoons of All-Bran and drink plenty of water. If you do this every day you can avoid common constipation and cathartics. Too! Every grocery sells All-Bran. Made by Kellogg in Battle Creek.

Your Old Age Insurance Card Can List Wages of 40 Years

The individual ledger sheet set up by Uncle Sam on the social security old age insurance provision can be posted up to 40 years of wages earned by each individual, Charles H. Cannon, Pocatello, social security board manager of south central and southeastern Idaho counties, informed the Evening Times today.

Cannon revealed facts about the individual ledger sheets in pointing out major provisions of the old age insurance plan.

6 By 10 Inch Sheet
The sheet for each worker in an employment covered by the social security act is six by 10 inches. Other facts cited by Cannon are: "That this wage record is to be totaled (1) when you reach the age of 65, or (2) if death occurs before age 65."

"That 3 1/2 per cent of this ever-increasing wage total is the amount of your individual credit with the government, and that if you die before age 65, or before Jan. 1, 1942, the credit is paid to your immediate family in a lump sum."

"That, when you reach age 65, after Jan. 1, 1942, the size of the credit will determine the amount of the retirement monthly income which the government will pay to you as long as you live; and that if you die before your wage credit is used up, the balance will be paid to your family."

110 to 355 Monthly
"That, if you have worked in jobs covered by the act on at least one day in each five years after Dec.

31, 1936, and before reaching age 65, and have earned a total sum of from \$2,000 to \$120,000 or more over the entire period, the life income to be provided by the present social security act will be from \$10 to \$85 per month. This income will be yours as a matter of right when you retire after age 65.

"That this monthly income, which begins at age 65 and lasts as long as you live, will soon exceed the total amount you paid in as taxes."

"That this wage credit of 3 1/2 per cent of your earnings is an estate that you are building which cannot become lost, strayed or stolen; but will be there for either your family or for you when it may be most needed."

Now Being Paid
"That claims, based upon 3 1/2 per cent of wages earned since Dec. 31, 1936, are now being paid by the government to social security card owners who have reached age 65 this year, and to the families of such owners who have died this year."

"That if you know of any person entitled to make such a claim, or who would like further information, you should tell him to write to southeastern Idaho field office, Central building, Pocatello."

Cooperation with Employer, Ban on Violence Called Union Goals

PEACEFUL MOVES EMPHASIZED AT GATHERING HERE

Closer Working Together By
Labor and Capital Offered
As One of Needs

Close organization and cooperation with the employer, collective bargaining and no violence today had been termed the "traveled road" of true unionism by labor leaders who last night addressed an open meeting of employers and employees held here at the J. O. P. hall.

Throughout the talk given by four outside speakers, three of them union officials and the other a state official, it was stressed that the workingman and his "boss" should discuss their problems in a peaceable manner rather than resort to violence.

Leaders Talk
Headed by S. V. Lund, president of the Idaho State Federation of Labor, speakers included A. G. Smith, Pocatello, secretary of the clerks' union at that point; Howard Spencer, special organizer of the machinists, also of Pocatello; William Robinson, state federation president and now chairman of the industrial accident board; J. W. Goertzen, Twin Falls, president of the local union.

Speaking of the number of unemployed persons in the United States at the present time, Mr. Lund said either one of two things must be done.

"We must have closer cooperation between capital and labor or we must provide Jones or Smith with a job if they are willing to work."

"It must be realized that this system of capitalism must cooperate with the employer or we are going to see a disorganized United States. We cannot have one group without the other and another group holding that purchasing power from the worker. I hope that no uprising in the United States ever comes but if it will come under the name of our people are given the conditions they deserve."

Defend Present Form
"We unions don't organize to fight for the rights of the laborer and also fight for the preservation of our present form of national government," Lund said.

The state president also discussed the state and national union organizations, pointing out that they were not enemies of the government. He also told workers present that they should know their own organization before they talk to the government.

Base Violence
"Violence has no place in true unionism. Violating a store is an American privilege but breaking into that store and taking possession of it is not and this should not be resorted to," Lund concluded.

The men, Ed Davis, Wesley Eddy, Fred Barnes and Al Kessell, together with Robert Lee Cannon, will die in the state prison if the supreme court denies their automatic appeals.

All five were found guilty of first-degree murder in Larkin's death. Cannon did not enter the additional plea of insanity to which his companions resorted.

PORTLAND, Ore., Dec. 2 (AP)—Prospects for speedy settlement of Portland's jurisdictional labor warfare were strengthened today after a second round-table conference between representatives of the warring American Federation of Labor and Committee for Industrial Organization.

Meeting with David Robinson, local attorney who acted as a neutral chairman, delegates admitted they have something down on paper, but declined to elaborate. Conferences were resumed today with Robinson praising the progress of negotiations but warning against false hopes.

Leading impetus to conferees' efforts to reach an agreement, Gov. Charles H. Martin, in a letter to Robinson, demanded "immediate conclusion" of a settlement and termination of the "appalling conditions" which have resulted from the labor strife.

Meantime, resumption of operations in three local furniture plants, closed by union demands for increased wage scales, eased the labor tension somewhat.

The government seeks to void the contracts allegedly made by the companies with railroad companies, hotels and owners of other strategic facilities for the transmission of telegraphic communications.

OUT OUR WAY

By Williams

IN THE UNITED STATES, ABOUT THIRTEEN MILLION ACRES OF LAND HAVE BEEN RUINED BY WIND AND WATER EROSION.

Scientists suspected that the planet Neptune existed long before it was discovered, due to the peculiar actions of the planet Uranus, which showed that it was being influenced by some unknown body. Curiously, two men, working independently, calculated the location of the new planet, and reached identical conclusions. It was found to be exactly where they predicted it would be.
