Sub-Committee Unanimously Favors Selection of Reed

VOTE TAKEN AFTER 2-MINUTE GATHERING OF SENATE GROUP

WASHINGTON, Jan. 20 (AP)—A senate judiciary subcommittee today voted unanimously to report favorably the nomination of Solicitor General Stanley F. Reed to be associate justice of the supreme court.

The vote, after a two-minute voting session, was reported by the committee on Monday. Quick approval by the full committee was anticipated.

The subcommittee, headed by Sen. M. M. Logan, D. Ky., acted here in brief open hearing at which Reed and Attorney General Homer S. Cummings appeared. Reed did not testify and no questions were asked him.

Reed's Background Cummings presented the committee mimeographed data reciting Reed's background in Kentucky and a government official since 1929.

Logan opened the hearing by explaining that Cummings and Reed were invited "because we couldn't have a hearing without somebody as a witness."

"Only one protest has come to me," Logan said. "I have here a letter from a New York man named William W. Higgins, who does not otherwise identify himself."

Cummings Proceeds Without reading the letter, Logan invited Cummings to proceed and the attorney general related to the committee the main points in Reed's career.

The session today was an outgrowth of failure of the judiciary committee to conduct hearings on the nomination of Sen. Hugo L. Black as chief justice last August.

When Ku Klux Klan charges were made against Black, after his confirmation, senators determined that he suffered a "stay" spell and had to be taken to a hospital.

"He was all worked up," the attending physician said.

AIDES TO NAME MEMBERS FROM STACK OF MAIL

WASHINGTON, Jan. 20 (AP)—President Roosevelt plans to summon small business men to conferences in the near future to seek their views in the drive to check economic recession.

The White House said today that Mr. Roosevelt has ordered his aides to select at random from stacks of letters from small businessmen, a number of names. Those selected will be asked to come to Washington for conferences supplementing those already held with the nation's leading industrial executives.

The President conferred yesterday with members of the business advisory conference on business reform in the commerce department. From that conference a plan for creation of a national planning council developed, aimed at guiding the country out of the present economic slump.

Prepares Data Meanwhile the administration is preparing data for Mr. Roosevelt's advisory conference on business reform. It is expected to deal with a limited category of holding companies organized for financial manipulation or speculative purposes in a few hands. The President will propose strengthening of anti-trust legislation to curb monopoly. He was reported to be contemplating revision of patent laws to prevent monopoly based on long-term exclusive control of new devices and methods.

Stephen T. Early, White House secretary, said the letters received at the White House indicate that the small business man feels that he has been hit harder economically than the big fellow, mainly because of the big federal income tax and the capital gains tax. It is likely that the talks would revolve about those two problems.

In the preliminary conference Early said, the conferees have urged remedial action. He said it now is the President's intention to see groups in which there is opposition to the proposals advanced thus far to obtain a real cross-section of opinion.

Auto Heads Tomorrow The President tomorrow will receive heads of automobile manufacturing companies and automobile finance corporations.

Mr. Roosevelt revealed the plans in an automobile strike by the last night with 50 members of his business advisory council and hearing from them frank criticism of administration policies.

After leaving the White House the conferees met privately with Minister S. E. Boone, chairman of the Federal Reserve System, and discussed possibilities of the plan. Their general reaction was that it would be a real cross-section of opinion.

3 INDIANS DIE IN TRAIN-CAR CRASH POGATELLO, Ida., Jan. 20 (AP)—A three-year-old Indian girl was the survivor of a party of four passengers in an automobile struck by a Union Pacific freight train at the Port Hill reservation railroad crossing last night.

Those killed were Ira Ninnawoo, 25, his daughter, Mrs. Esther Queop, 20, and Della Blackhawk, 46, all Indians.

The car, driven by Ninnawoo, who was apparently blinded by the lights of an oncoming car, was struck with such force that the automobile was hurled into the tracks by the fast freight train.

The girl, a daughter of Mrs. Queop, was riding in the open car when it struck the train. She was miraculously escaped unharmed except for a cut over one eye.

HAGERMAN RANGE CONDITIONS GOOD

HAGERMAN, Jan. 20 (Special)—Stockmen using the public domain for spring range will find conditions better this next spring than for many years, it is learned. After leaving the range last spring, sufficient moisture fell to cause a second growth of grass, resulting in a good crop of seed.

During the past fall and early winter, mild weather and plenty of moisture have caused this seed to sprout and now the desert is seeded with a heavy grass crop nearly two inches high.

The ground is now saturated and it is expected that there will be a runoff next spring which will fill the old natural water holes and the new ones made by the division of grazing CCC camp located at Hagerman.

The block of the desert lying south of Glenns Ferry and east of Salmon river has been liberally sprinkled with these newly combined capacity totals more than 1,500 acre feet.

Roads Built
Over 80 miles of road have been constructed by this one camp.

Other valuable projects carried out by the CCC enrollees under their supervisors are the control of destructive rodents and predatory animals. Chief offender of the rodents on the range is the kangaroo rat which harvests and stores in underground warehouses about three pecks of grass seed per family annually. In the predatory animal program 140 coyotes were killed during 1937 by the Hagerman camp. Each of these would probably kill between 10 and 20 lambs per season.

This work has a tangible value to the citizens of Idaho which can be measured in dollars and cents. However, there is an intangible value to the young men doing the work, which is harder to measure, but nevertheless can be judged, officers state.

Taught to Work
As required in all CCC camps, the young men are taught the importance of turning out a day's work. This is a new experience for most of them and it takes some time for some of them to master the lesson. They are taught the principles of construction. In this camp these principles are taught from a contractor's point of view.

Their instruction includes reading plans and blue prints, figuring estimates, drawing contracts, legal procedures, bookkeeping, bookkeeping, motor mechanics, caterpillar operations, truck driving and many other subjects, which will better equip them to earn a living.

The success of this work on the public domain has been indicated. The success of it with regard to the young men doing the work can be measured by the number qualified for private employment. Many construction companies are recognizing the value of this training and are keeping in touch with the camps to get caterpillar operators and other skilled workers when they can qualify.

White-bearded, 59-year-old Amandus Hochmuth is pictured above as he received his \$1,000 share of the \$25,000 Lindbergh kidnaping case reward from Gov. Harold Hoffman of New Jersey. Boise Restaurant Owner Files Suit On Union Pickets

BOISE, Jan. 20 (UP)—Proprietor of a restaurant sought today to prevent picketing of his establishment by representatives of the Culinary Workers' union.

Harmon D. Ryan, charging that because he refused to order his employees to join the union it had picketed his shop, causing loss of business, filed suit against the union and its president.

He obtained a court order from Judge Charles Koelsch of Ada county, commanding the union to stop its employees into the union. He said there was no dispute and that his employees were "free to join any union they might choose."

Vaudeville originated in Boston in 1835.

BUILDING STARTS ON IDAHO CANAL

BOISE, Jan. 20 (UP)—Government engineers today began construction on the main section of the Black canyon irrigation project canal near Emmett as result of a judgment of condemnation handed down in federal district court here.

The court decided that approximately \$14,000 worth of orchard and farm lands near Emmett could be taken over by the government as it is eminent domain on the course of the project.

The money was deposited with court clerks, and landowners notified to claim the estimated value of their land involved.

Way is still open, however, for landholders to contest the price granted, and subsequent court action may see the amounts paid either lowered or raised.

The sum deposited is to be divided among 46 owners.

China's Envoy Leaves Japan

TOKYO, Jan. 20 (UP)—Hsu Shih-Ying, Chinese ambassador to the Japanese imperial government, left for home today with members of his staff as the result of Japan's new policy of non-recognition of the Japanese puppet government.

As he left, to board a train for Yokohama and sail on the liner Empress of Asia, Hsu, ill and depressed, gave a farewell message to the Japanese people.

Cannot Be Repressed
"The sentiment of a race can not be repressed by armed force. Do-forgotten people of Japan see the present situation as foretelling Japan's eternal happiness."

Officially, Hsu leaves only because he is ill and supposedly after repeated requests, he had been granted a furlough by his government. Unofficially, the embassy remains. Before he left, Hsu conferred with Toyotaro Yuki, governor of the bank of Japan.

Idaho Corporation Laws to be Tested

BOISE, Jan. 20 (UP)—Test of the constitutionality of Idaho's foreign corporation laws will be heard here February 4 in federal district court before Judges C. C. Cavanaugh, Boise; Alger Fee, Portland, Ore.; and Circuit Judge William Hely of San Francisco.

The suit arose when the Seattle Trust National bank of Seattle sought to prevent Ira H. Marston, secretary of state, from enforcing the foreign corporations law where certain penalties were applied.

Two Officers Held For Wire-Tapping in Los Angeles Probe

LOS ANGELES, Jan. 20 (UP)—Two high-ranking police officers were booked on felony charges today after it was learned that the police intelligence squad was spying on Harry Raymond, vice investigator and former chief of police of San Diego, at the time he was injured critically last week by the explosion of two bombs.

The officers, Capt. Earl Kynette, 42, and Lt. D. M. Draper, 36, both members of the squad, were held for investigation for "conspiracy to tap a telephone wire."

The district attorney's office claimed there was evidence to show that the intelligence squad had tapped Raymond's telephone for several weeks prior to the explosions that wrecked his automobile and wounded him seriously.

Ordered Held
District Attorney Burton Pitts earlier ordered the pair in technical custody after he questioned them and other members of the squad through most of the night.

Pitts said one of Capt. Kynette's officers admitted after five hours questioning that the squad had rented a house near Raymond's and had been watching the investigator's every move for three months before the bombing.

Confronted with the officer's statement, Kynette was quoted by Pitts as saying he had made the assignment

"somebody's orders," but couldn't remember whose.

Raymond was wounded in more than 100 places by the explosion of two bombs placed under the hood of his sedan. They were set off when he turned the ignition key of the machine. He is still in critical condition.

"Feared Copper"
The wounded detective had been active in investigating vice and gambling conditions in Los Angeles. A former police chief of San Diego, he was once known as "the most feared copper in California."

Pitts paraded the police officers before eight housewives who identified eight of them, he said, as men who rented a bungalow in a court on East Seventh street only 100 yards from Raymond's home, Windows of the bungalow were reported to give a clear view of Raymond's home.

The women were quoted as saying that the officers stretched wires from the bungalow to nearby telephone poles, bored holes in the walls, and climbed on the roof installing various fixtures. They supposedly reported themselves as "radio men."

"The women wires from Raymond's house showed evidence of having been tapped, Pitts said.

The American five-cent piece contains more copper than the American penny.

BEHIND THE SCENES IN WASHINGTON By Rodney Dutzler. Washington, Jan. 19.—It appears that there is likely to be discrimination in favor of a pretty face or a personal favorite in the government service as there is in private business.

Willing to Bet on Future Amid all of this talk of economic depression and financial difficulty, there is always the danger that the nation may lose sight of the brighter side of the picture.

POT SHOTS NOTICED A very peculiar phenomenon in the public press. The management of the Idaho Statesman up at Boise issued a declaration that its paper would not start shipping extra copies into Oregon despite the fact that Portland is missing papers because of the strike.

CHAPTER X SEVERAL weeks had passed, the snow had long since melted, the men were back once more at work on Bret's bridge, and Connie was now an integral part of her surroundings.

There was only one flaw in this happiness, one person who she refused to accept Connie as one of them, make her "at home"; Eloise with her flaming hair, worn in a coronal, and her undergarments, her eyes, her eyes, her eyes, her eyes.

"I haven't anything to tell you." She withdrew her hands from his, her underlip trembled painfully; she would not meet his eyes. "I just know that I wish she'd never come here. And that there is something about her that is secret, something she does not want us to find out."

CONNIE was not sure just when she had fallen in love with Bret Hardesty. It might have been that first moment when he had looked into his dark eyes.

Eloise, cleaning Connie's room one day, came across something else. The dinner ring and the bracelet and the strand of matched pearls.

"I didn't expect to find you here," she said. "I thought you had gone to the city." "I haven't anything to tell you."

POT SHOTS BASKETBALLERS DEFFY THE WORLD: We, the Pot Shots, were recently flattered by the paragraph in your young man's paper up in Portland, Ore., that we were waiting for a basketball team. But we wish to make amends.

She gave a gasp of amazement, examined them more carefully, slipped them back under the fine lace of her undergarments. Where they had been hidden, that night when she had a moment alone with Bret in the big cheerer's kitchen, where they had gathered, suddenly she asked an abrupt question: "Do you know who Katie Blyn really is, Bret?"

"I don't know who she is?" Bret looked up from the store at which he had been poking. "Why of course. At least I know all that's necessary. Why do you ask?"

"How dare you say that?" Connie asked, her face as fiery as her head was flung back, defiant and proud, her teeth contemptuous, her blue eyes cold as an icy blue lake.

Leading from the start in a fast and hard fought game the Snitzers led 10 counters to five for their opponents at the end of the half.

In the last stanza the Cardinals came from behind to knot the score 16 even at the end of the game. A free throw in the three minute overtime period clinched the victory for the Snitzers.

Mattson Couple Viewed Anders, Report Claims

TACOMA, Wash., Jan. 20 (AP)—Dr. William W. Mattson, father of 10-year-old Charles Mattson, who was kidnapped and murdered in December, 1934, admitted by inference today that his two other children had viewed Peter Anders as a possible suspect in the case.

Told that San Francisco police had reported that Manuel, 16, and William Mattson, Jr., 14, and a young companion flew with G-men to San Francisco to attempt to identify Anders, confessed abductor and slayer of Charles Ross, 66 Chicago, Dr. Mattson said:

"I do not think that the police would make any such statement, unless it was true."

Dr. Mattson, however, declined to make any direct confirmation of the report. He said he had referred all previous interviews to the federal bureau of investigation, and that he "gave no releases whatever."

Dr. Mattson intimated, in response to questions that his two children returned to Tacoma some time yesterday.

Unconfirmed reports from San Francisco said that the Mattson children and their companion, Virginia Chaffin, 16, failed to identify Anders as the man who abducted and murdered young Charles.

"Nothing Sacred" Is Orpheum Film

A new type of newspaper reporter comes to the screen in the person of Frederic Marsh, after years in which the journalistic lads have been pitted as open-shirted, sartorially deficient characters surrounded by paste pots and jumbled heaps of paper.

Co-starring with Carel Lombard in the David O. Selznick technicolor production, "Nothing Sacred," coming to the Orpheum theater on Sunday, under the direction of William A. Wellman, Marsh, as the star reporter of "The Morning Star," chases his story in a high silk hat and dress suit. At all other times, save when he is seen in a hot, dusty small town his wardrobe is beyond reproach.

"Midnight Court" On Idaho Screen

"Midnight Court," a melodrama whose characters are introduced to the audience at one of those new type of police tribunals, will be the featured offering Friday at the Idaho Theater, with the popular Ann Dvorak in the starring role.

It is typical of those timely, out-of-the-headlines pictures which Warner Bros. turn out, John Lital, an excellent actor who recently left Broadway for Hollywood, who has featured male role.

Beginning Sunday the Idaho presents Bette Davis and Henry Fonda in "The Certain Woman" with Ian Hunter and Anita Louise.

Mae West Defendant In Suit Asking for \$1,000,000 Damages

HOLLYWOOD, Jan. 20 (AP)—Mae West and Paramount Pictures, Inc., today were named defendants in a \$1,000,000 damage suit filed by Mark Linder, writer, who charged breach of contract, conspiracy and fraud in connection with the production in 1934 of Miss West's hit picture, "She Done Him Wrong."

The complaint said the actress and Linder entered into an agreement in January, 1932, whereby Miss West was to copyright Linder's original play "Cushman Square" under the title "Diamond Lil," and that they were to share equally in the profits.

Linder alleged, Miss West and others conspired to deprive him of his rights, and thereupon he was induced to sell his play to Paramount for what he termed a "nominal" sum of \$25,000.

"Diamond Lil" was filmed under the title "She Done Him Wrong." Yesterday Miss West was sued by Joan Strong for \$10,000. Miss Strong, a writer, charged Miss West's radio play "Adam and Eve" was plagiarized from her play, "Love and Apprehension."

CONGRESS CONTINUES BATTLE ON HOUSING, FARM-AID BILL

ATTACHMENTS TO HOUSE MEASURES HOLD UP ACTION

By ALLEN C. DIBBLE
WASHINGTON, Jan. 20 (UP)—After three weeks of deliberation in conference, the house and senate bills on housing and farm-aid programs remained unrescinded today.

Major Obstacles

The major obstacles in the path of agreement on the bills were: 1. An amendment attached to the housing bill by Sen. Henry Cabot Lodge, Jr., Mass., which provided that "prevailing wages" be paid on projects under the bill.

2. Provisions in the house farm bill for continuation of payments made under the present soil conservation program.

Effectiveness Impaired
Administration leaders believe that the effectiveness of both of the "must" measures on the President's legislative program would be impaired by adoption of the controversial amendments.

The house bill on housing does not contain a similar proposal providing that "prevailing wages" must be on the same scale as those prevailing in the locality.

Biggest Ditch in America—a Block From Bank to Bank

Only two miles of the 80-mile all-American canal, largest irrigation ditch in America, remain to be dug before the waters impounded by Boulder Dam will be sent through it to turn desert lands of the Imperial valley of California into fertile, productive fields. Pictures above is a completed section through desert hills west of Yuma, Ariz., paralleling the Mexican border, which gives an idea of immensity of this engineering project. The canal is 150 feet wide at the bottom, 110 feet deep, and more than a city block from bank to bank. Dwarfed by the gigantic size of the canal are the tiny figures of men, at right. Not half as long as the proposed, but now abandoned, Florida ship canal, the all-American canal is almost four times as deep, and three times as wide. The new irrigation project eliminates the main canal of the Imperial irrigation district which now passes through 80 miles of Mexican territory.

Husky Farmhands Like This Recipe On Bean Delicacy

When husky farmhands like a certain bean dish, you can be sure it's something worth trying.

And that's the case with the recipe sent in to the Evening Times today by Mrs. Claude Hull, route one, Jerome. Mrs. Hull submitted her own recommendation for cheese bean roast. Both the farm hand and her own family relish the dish "a great favorite," she said.

And that's the case with the recipe sent in to the Evening Times readers have written in to praise recipes already printed this week as a feature of the Evening Times observance of National Bean week.

Recipes so far published were planned by Mrs. A. E. Kunkel, Amsterdand, and Mrs. Belle White, Twin Falls.

Here's Mrs. Hull's recipe:
CHEESE BEAN ROAST
Three cups cooked brown (red) beans
Half lb. Idaho cheese. Put through food chopper. Fry 1 onion lightly in a tablespoon fat. Beat 1 egg, add egg to 1 cup bean stock. Mix thoroughly.
Four over 1 cup bread crumbs. Mix all ingredients and pour into a buttered baking dish. Top with part of the crumbs.
Bake in a moderate oven (350 degrees) until nicely browned. Serve with tomato sauce or catsup.

THIS CURIOUS WORLD

By William Ferguson

WE RECEIVE MORE HEAT AND LIGHT FROM THE SUN IN 13 SECONDS THAN WE DO FROM THE MOON IN AN ENTIRE YEAR.

THERE IS NO WHITE PIGMENT IN WHITE ANIMALS! THE WHITE COLOR IS LIKE THAT OF SNOW... SIMPLY THE REFLECTION OF LIGHT FROM MINUTE SURFACES.

THE AVERAGE HUMAN ADULT REQUIRES MORE THAN ONE TON OF WATER IN A YEAR.

Where water is easy to get, we are apt to forget the importance of it in the lives of animals and plants. To produce a bushel of ear corn requires about 12 tons of water, and a ton of alfalfa requires something like 86 tons of water.

BARCELONA, Jan. 20 (Special)—Casualties in a 95-second raid by three nationalist airplanes yesterday were estimated unofficially today to total 1,600—400 killed, 1,200 wounded.

Rescue workers were still searching ruins today for the dead and wounded. The nationalist planes descended to 1,500 feet to drop their bombs. The explosion of the first bombs and the first bursts of anti-aircraft guns were simultaneous.

People in the crowded main streets fled madly trampling each other. Clouds of smoke rose above the house tops in the northwest and northeast sections. Five buildings, of eight or nine stories, in one street were demolished and their occupants killed or gravely wounded.

A big dock warehouse caught fire. Two hundred dead or wounded were removed and it was estimated that 50 remained in the debris piled on lower floors.

Windows Broken
Explosions broke windows and sent people, automobiles and horses racing wildly for shelter through the narrow streets. People fell on sidewalks, trying vainly to crowd into already over-crowded doorways. The planes came away toward the sea.

A few minutes later ambulances were clanging through the streets and Red Cross workers, some wearing gas masks, were pulling bodies from the dock warehouse when the United Press correspondent reached it.

A non-drinker, Marian and her father declared her feelings were damaged a million dollars' worth by laughter, boos and ridicule of the theater audience when she was given the award. Now she's suing sponsors of the contest for the million.
