**AGENT EXPLAINS CROP PROGRAMS**  
SHOSHONE, Jan. 24 (Special)—Under the plan proposed by the agricultural conservation body the farmer of 1938 will be able to figure just about how he stands before the plants his crop, and can estimate the result that will accrue to him by full compliance.

**Points Told**  
Furly farmers of Shoshone and Dietrich heard the points elaborated upon by County Agent Harry Gault, at a meeting presided over by T. B. Brush, chairman of the 1937 program. Crop forecasts indicated there would be a surplus of wheat and potatoes grown during the present season.

**Theory of Program**  
The theory upon which the program is based this year is that certain acreage, in percentages of the United States can be allotted to classes of crops, such as commercial vegetables, potatoes, soil depleting crops and soil conserving crops.

**Payment Opportunity**  
The farm already having a high proportion of soil conserving crops, such as alfalfa, clover and pasture

will have less opportunity to earn payments than one having high proportion of soil depleting crops, such as grains. It was indicated that a soil-depletion goal for the county might be set at about 14,500 acres.

# ONE OF THE MILLIONS WHO PREFER CAMELS

"HEALTHY NERVES ARE A MUST WITH ME!"

FOURTEEN different times the news headlines have flashed: RALPH GREENLEAF WINS WORLD'S CHAMPIONSHIP.

In a special interview during his recent championship play in Philadelphia, Ralph said: "I'd say the most important rule in this game is to have healthy nerves. And on that score, I think, Camels have a lot extra to offer. One of the main reasons why I've stuck to Camel cigarettes for twenty years is—they don't ruffle my nerves."

And America as a nation shows the same preference for finer tobaccos that Ralph Greenleaf does! Camels are the largest-selling cigarette in America.

HE IS COUNTED THE GREATEST POCKET BILLIARD PLAYER OF ALL TIME. Here Greenleaf executes difficult maneuvers, requiring split-second accuracy, lightning strokes, and healthy nerves. And the world's two famous masters of the cue - champion Ralph Greenleaf and the 18 1/2 ballline billiard champion, Willie Hoppe - are both Camel smokers.

DO PEOPLE APPRECIATE THE COSTLIER TOBACCOS IN CAMELS?

CAMELS ARE THE LARGEST-SELLING CIGARETTE IN AMERICA

### TWO TESTIMONIALS

August 25, 1937.

TO WHOM IT MAY CONCERN:

I am an old man over seventy years of age—and for the past fifteen years, I have been troubled with a prostate condition which made my life miserable through my inability to control my bladder elimination.

Frequent elimination during the day and numerous night risings—without adequate results—upset my physical and mental condition. My rest was greatly disturbed by as many as six or seven interruptions during a night.

Needless to say, I was forever seeking relief from this condition, but the only relief I ever got was, while I took some Chinese Herb Treatments while on a visit to Oregon about three years ago.

You may be sure I was glad to learn of the work which another group of Chinese Herb Specialists was doing in this community. The Chan and Wing Herb Specialists.

After a consultation with them at their offices in Idaho Falls, I took a three weeks' course of treatments and today my trouble has disappeared. I get my full night's rest and the discomfort of my former condition is gone. I am able to enjoy myself once more.

My recommendation of Chan & Wing Co. is unlimited for those troubled as I was.

C. P. ZIEMAN, Idaho Falls, Rt. 6, Idaho.

TO WHOM IT MAY CONCERN:

July 20, 1937.

Almost a year ago I accidentally bumped my ankle against some hard object, which caused an open wound in my skin and of course I had it given immediate medical attention. For some reason or another the wound refused to heal over and there was a constant elimination of pus from the opening. And so for almost a year, my ankle has been swollen and constantly sore.

Whether or not my other troubles were a result of the injured ankle I can't say, but for a long time I have been subjected to bad headaches and a good deal of female trouble. No other source seemed able to give me any relief.

One day I saw Chan and Wing Herb Co.'s ad in the paper and like a good many other persons I decided to give them a try. I did—and within six weeks of treatment, I found that my ankle had completely healed; and the soreness and swelling was gone. A slightly different prescribed compound was given just for my other troubles and they too have disappeared. I am indeed grateful to Chan and Wing Herb Co. for the good they have done me and I whole-heartedly recommend them to other persons similarly troubled.

MRS. MARSHALL GROVER, Rt. 1, Thornton, Idaho.

Pioneer Tells Of Long Treks As Sheep Man

SHOSHONE, Jan. 24 (Special)—Shipping lambs from this area a half century ago was a little different from that of today. This was brought out in an address by the Shoshone Rotary club by S. E. Todd, long time resident and pioneer.

It was in the late '80s, after first shearing were herded in a five and one-half month drive to Omaha. Todd lived in Kansas at that time and was requested by sheepmen would come west and take the sheep to market. On one occasion in 1888 he gathered 7,000 wethers in the southwest part of the state and took them to the Caspian prairie to feed. The next spring they were gradually driven toward Omaha.

The route of the sheep trail went north of Arco to the Mud Lake district, then down to Idaho Falls, where it became necessary to cross the old toll bridge of Anderson brothers, a cent a head being paid for the toll; then along part of the Lander trail, across Green river, past Devil's lake, into the Sweetwater country, finally reaching the North and South Platte rivers.

At points in Nebraska the lambs were periodically fed for a period of about eight weeks and fattened, when they were usually shipped by rail from Ogallala to Omaha.

Wethers Bring \$1 Todd stated that the wethers, sometimes abandoned by their owners or used in the neighborhood of \$1 a head, it was estimated the cost of driving the sheep across the country amounted to about 25 cents per head, very much less than they can be transported for today.

The sheep crew on these drives consisted of three or four men, with as many saddle horses, also a cook. The buffalo had largely been killed by this time, stated the speaker, though occasionally sign were observed. Great bands of antelope, however, were frequently seen in the Green river country. In 1892 it was figured that 200,000 sheep were marketed by this route.

For five or six years later, however, the practices were being settled, ranges tied up and progress became slow.

Last Trip Mr. Todd stated that he made eight such trips, and it was in 1897 that he was by the late Fred W. Gooding that that season was the last he would transfer wethers in such manner, but would ship them by rail as fat lambs. That ended one epoch in the industry, and another opened. At this time central Idaho is one the largest shippers in the country.

JEROME Pioneer bridge club met at the home of Mrs. A. E. Gould, Wednesday with three tables in play. Prizes were given by the late Mrs. George Gillespie, and guest prizes to Mrs. Walter White. Quizzes included Mrs. Wallace Johnson, Mrs. Jean Denardis, and Mrs. Walter White.
