Pershing's Condition Definitely Improves

TUCSON, Ariz., Feb. 23 (AP)—Gen. John J. Pershing, suffering from high blood pressure and a rheumatic condition, was reported "very definitely improved" today. The announcement was made after an examination of the 77-year-old general who commanded the A. E. F. during the World war, by Dr. Roland Davis and Dr. Shilly U. Marietta of the army medical service at Fort Sam Houston base hospital. They issued the following statement: "Dr. Marietta and Dr. Davison J. J. Pershing have just completed an examination of General Pershing and find his condition very definitely improved since the last bulletin last night. His lungs appear perfectly normal. His blood pressure definitely is better and the condition of his heart is entirely satisfactory. He has a much better night's rest entirely free from pain. The general ate a good breakfast and is mentally alert."

Fuehrer Delivers Message in Theatrical Setting

This first photo, radiated directly from Berlin to New York and rushed to Idaho Evening Times, shows Reichsfuehrer Adolf Hitler (standing, in foreground) delivering the speech for which the whole world had been awaiting. In a theatrical setting, with a huge swastika and the German eagle behind him, and Hermann Goering, Germany's No. 2 strong man, on the rostrum above him, Fuehrer delivered a brilliant speech in which he restated Germany's demands for her pre-war colonies, declared the democratic world was in a state of chaos, and asserted the tri-partite bloc of Germany, Italy and Japan would be a powerful factor in the Pacific and pledged Germany to "defend" the political "freedom" of Germans living beyond the borders of the Reich.

Chinese Planes Raid Japanese Formosa Island

SHANGHAI, Feb. 23 (AP)—Twelve Chinese airplanes raided the Japanese island of Formosa today in the first aerial attack on Japanese soil in the history of the empire. The Domei (Japanese) News agency, quoting an official Formosan army communique, said that 12 Chinese war planes, flying so high they could not be seen, appeared above the airbase at Taihoku and dropped 10 bombs, a portion of which fell in fields "while other hit houses at Shoonan, east of the city, and killed several women and children."

CONGRESS GIVEN FEDERAL SCHOOL GRANT PROGRAM

WASHINGTON, Feb. 23 (AP)—The senate moved toward a final vote on the \$250,000,000 relief deficiency bill with a Democratic majority bloc seeking last-minute changes that would put greater responsibility on local governments in cost administration. Congressional committees, meanwhile, reported favorably on two important measures the bill provides for federal aid to state and local government education, and a resolution providing for an increase in prices and profits of principal commodities. President Roosevelt transmitted to the congress the report of his advisory committee on education which recommended new federal school grants to be paid beginning at \$70,000 in 1939 and increasing to \$100,000 by 1944.

LOYAL AIRPLANES WIN SHIP BATTLE

By HARRISON LA ROCHE
 HENDAY, Franco-Spanish Frontier, Feb. 23 (AP)—The Spanish insurgent fleet retreated toward the island of Majorca today after two of its cruisers had been seriously damaged in the biggest battle of the Spanish civil war between aircraft and warships, loyalists asserted. A government communique said that the Almirante Cervantes and another cruiser, believed to be either the Canarias or the Baleares, were struck by bombs from loyalist planes off Sagunto, north of Valencia. The Almirante Cervantes is a 7,500-ton vessel, and the Canarias and Baleares both are of 10,000 tons. "The Almirante Cervantes had attacked Sagunto as the fleet moved northward following an assault on Valencia," the communique said. The Spanish ships had been in the area since the Almirante Cervantes had damaged the interior of the ship and the Almirante Cervantes was unable to attend. A loyalist air squadron on its return from Sagunto, approximately 50 miles off Sagunto, they came upon five ships. The Almirante Cervantes and another cruiser were in the front of the vessel.

DEBATE INCREASING TO \$125,000,000 BY 1944

The house naval affairs committee continued hearings today testimony from Admiral William O. Dobbins, chief of naval construction, in connection with the navy expansion bill. He testified that it would cost the nation \$2,200,000,000 and require 10 years to build a separate fleet to defend the Atlantic coast. Chairman Frank D. Rowan said no consideration is being given by the navy, the administration nor the committee for constructing an Atlantic fleet. The anti-velocity dispute bill sponsored by Sen. Robert M. La Follette, R., Wis., as approved by the senate, provides for the allocation of \$3,000,000 during the next fiscal year, \$2,000,000 during the fiscal year 1941 and \$20,000,000 for each year thereafter.

Oddities

SNOW
 LOS ANGELES, Feb. 23 (AP)—The California Ski association tried out the snow machine today and pronounced it satisfactory. The snow machine is a big gadget that belches a ready-made snow-storm of crushed ice from a wide rubber mouth. It will spray snow over a 60-foot artificial mountain in the coliseum for a ski jumping contest Sunday. The association boys manufactured a few trial flurries and pronounced the "phony" snow much better than the real thing.

BASSBOON
 JEFFERSON CITY, Mo., Feb. 23 (AP)—William H. Kruse, a veteran of the Kansas City philanthropic orchestra, will do his bassoon playing for the next two years with another orchestra. He was welcomed warmly when he started serving a term of two years for bigamy, at the state penitentiary. "We didn't have a bassoon player," the prison band leader said.

BELEIVED
 NEW YORK, Feb. 23 (AP)—Donald R. Welch, 31, spent his last 100 dollars in a store of his own. He called at the home of Fred Hunter, 28, and said that he had been given a check for \$1,000-bills by a girl. Hunter didn't believe him and slammed the door in his face. Welch's last nickel took him by subway to a police station where his story was believed. He was held for the grand jury.

Nazis in Austria Open Campaign Against Jews

Vienna, Feb. 23 (AP)—Austrian Nazis opened a campaign against Jews and "political activities" of priests in the province today with approximately 1,500,000 working people pledged themselves to support Chancellor Kurt Schuschnigg to whatever limits he may deem necessary to preserve Austria's independence. Defying a ban on propaganda, Nazis in Austria and Catholic priests distributed hand bills demanding a ban on "political activities" of priests of all creeds and "radical extinction of all subhuman elements," with specific allusion to Jews, Communists and Socialists. As a result, Austria has 90 per cent Catholic.

Beet Contract Given Approval

With no definite return per ton "pegged" because of the chance in market fluctuations of sugar prices, the 1938 beet contract had been approved today by the Idaho State Beet Growers' association, according to Carl Leonard, Miller, president of the Twin Falls county association. Leonard said that growers were not "assured a total of \$7.40 per ton, as first reports stated, although the 1938 contract will bring that figure at the present price of sugar. If the sugar quotation goes up or down, the return to the grower would vary accordingly under the 50-cent sales agreement between the growers and the new contract to growers. The \$7.40 estimate was based on the contract plus processing tax payment but not soil conservation benefit.

ROBBERS STAGE HOLDUP IN CLUB

HOLLYWOOD, Feb. 23 (AP)—Two robbers staged a panicky finale to a Hollywood night club floor show early today by whipping out guns, pointing on patrons, and shooting the crowd to death because he reached for the money too slowly. Harold A. Thompson, 35, was shot down, a bullet through the heart behind the bar of his nightclub on North Western avenue. The young man posed as a pianist and had several drinks while the floor show was in progress. They appeared intoxicated or under the influence of drugs, it was believed. As a street entered the show with the main show, Ferdinand and the club, the pair whipped out revolvers and a young man, Thompson. The other ordered Thompson to open the cash register and when the club owner did not move fast enough, fired at him point blank. Posing a waiter to hand over approximately \$100 from the till, they ran out of the club warning the patrons to "stay where you are, or we'll beat hell out of you." The patrons were not robbed.

Beet Men Will Convene Friday

Full explanation of the 1938 contract approved by the Idaho Beet Growers' association will be made here Friday at a meeting called Tuesday by officers of the Twin Falls County Beet Growers' unit. It was announced this afternoon. The gathering is scheduled for 7:30 p. m. at the O. P. Hall, Friday, Carl Leonard of Miller said. "Purpose of the meeting is to explain the new contract to growers and to outline the labor situation up to date," he declared. "Speakers will also give all information available so far on government payments to beet growers, both for 1937 and 1938." William Blawie, Lemhi, president of the state association, is expected to be heard. He will lead the officers of the central group who will attend the party. All directors of the state organization are expected to be present. Explanation of the contract will be given by Leonard, by M. E. Williams, president of the Idaho Beet Growers' unit, and Alvin Lindholm, Idaho Falls, secretary-treasurer. Mr. Leonard will preside at the Friday meeting.

ICE BLAMED FOR CAR-TRAIN CRASH

WORTH, Ill., Feb. 23 (AP)—An icy movement was blamed by police today for the head-on collision of a popular company truck and a fast St. Louis-Chicago passenger train of the firm was 30 persons injured. The train—three Pullmans, a coach, diner and baggage car—was forced from the tracks. It tore up 200 feet of roadbed and slipped over at an angle of 45 degrees before it came to a halt. Approximately 100 passengers on the train were 30 persons injured. Frank Oregon, 40, Chicago, driver of the truck, was killed. The train included seven members of the Chicago police on a road block engagement at St. Louis university to resume work at a Chicago hotel. Train officials said most of the injured were being treated at the hospital. About 10 remained, they said.

The latter ruling permitted him to go free after five days unless the prosecutor or some other member of the public should demand a sanity trial by jury to limit.

CANYON ROAD TO OPEN IN SUMMER

Completion of the Rock creek canyon road, which runs from Hansen over the divide to connect with the Engstrom-Caskey road, is scheduled the middle of next summer, the Evening Times learned here this afternoon.

Opening of the road will permit motorists to enter a virgin territory for the first time and will also present one of the most scenic drives in this section of Idaho.

CCC Project
Work on the road is being done by members of the Rock Creek CCC camp with between 100 and 200 engaged in the construction. Present mild winter weather, it was learned, has tended to speed the work with the resultant summer opening.

At the same time picnic grounds and camping sites will be ready for use of the public. Outdoor fireplaces have been or will be completed in many instances and benches and tables will be in place.

Two-Way Travel
Over the entire mountainous country the road will be wide enough for two-way travel. It will be of gravel construction resting on a rock base.

Progress was also reported this afternoon on the telephone line being constructed for the forest ranger station, a distance of approximately 20 miles. Twenty CCC youths are engaged in this work, being housed at a spike camp at Oakley. At the present time a line is in but the new construction will take its place immediately upon completion.

Beaver Started By Notoriety at Public Showings

Three live beaver, en route to new homes in the Malheur national forest, paid Twin Falls a visit today and were slightly startled by their own prominence.

The three animals, all young three-year-olds, were displayed in their cages in front of the high school and the junior high school during the noon hours. They attracted throngs of youthful watchers, 90 per cent of whom hadn't ever seen a beaver before. Nature study pupils were especially absorbed in watching the web-footed, flap-tailed animals.

Previously, the beaver had been shown to members of the Evening Times editorial and business staffs.

Being Transplanted
The animals were brought to Twin Falls by Elmer C. Ross, district forest ranger. They are being transferred as part of the state game department and U. S. biological survey move to transplant beaver into forest areas where they will help rehabilitate fishing streams.

Capture of the three latest was made in the lower Rock creek ranch country just above the Bob Crockett place, Mr. Ross said. They bring the total to 90 beaver taken alive since last October. The three shown here today—as well as most of the others—were taken for the game department and biological survey by Orville Bagley, veteran trapper.

Still in Traps
The beaver were still in the spring traps which snared them. The traps close upward, forming a cage that doesn't hurt the animals. The trio—one pair and one lone beaver—will be placed in the Cottonwood area, the first to be transplanted there. Beaver in that region were "trapped out" years ago.

The animals cause heavy damage in the form of cutting irrigation streams and mill-races, Ross said.

EDEN

Guests of the club were Mrs. C. A. Heinrich, Mrs. Joe Guthridge. The next meeting of the club will be with Mrs. Carlos Knifong.

Mr. and Mrs. Jack Irvin and family moved Saturday into the C. B. Averett home. Mr. Irvin is a high school teacher here.

Leon Maxwell was taken to the Twin Falls hospital last week where he is receiving treatment for pneumonia.

The Ladies Aid society met Thursday at the home of Mrs. Georgia Fulton. Mrs. A. E. Glah had charge of the missionary meeting, which was a discussion on Africa. A number of articles about Africa were read. There were about 30 ladies present. Mrs. Fulton served a delicious lunch.

Last week Mr. and Mrs. Les Juchau brought their year old son, Verne, home from the Twin Falls hospital where he has been ill with pneumonia.

At the high school there have been built temporary seats around the gymnasium, grand stand style and four rows high to furnish seating capacity for the sub-district tournament to be held here March 3, 4 and 5.

The P. T. A. met Thursday evening at the high school. The program was introduced by the fourth grade under the direction of their teacher, Miss Arrington. The program followed the plan of a radio program with Dick Roberts acting as announcer and the members given by the class. Dick Roberts, the rhythm band, Cecile Fitch, Roland Arzulari, Charlotte Lawhorne, Ann Juchau, Cecil Fleck, Vonie Mae Taylor, Jim Hamilton, and Raquelia Carter, the quartet, Ella Mae Henry, Teddy Roman, Charlotte Lawhorne and Anne Juchau, Ella Mae Henry, Martha Lee Bruce, Opal Gooding, Hilda Hines, and the quartet, Teddy Roman and Billy Gelfer. After the program members discussed getting new suits for the members of the band. Lunch was served by Miss Dortha Beeley, Miss Leona Thorsted and Mrs. Willard Lattimer.

POT SHOTS WITH The Gentleman in the Third Row

For Love of Polly. CAPT OF CHARACTERS POLLY CHELSEY. A woman who is a full-time housewife and mother of three children.

Behind the Scenes in Washington. BY RODNEY DUTCHER. WASHINGTON, Feb. 23.—Because in these days one can never be quite sure that the nation is not heading for a disaster...

Nazi Step Backward. Probably as much adverse criticism is directed at the American judicial system, the manner of conducting trials in the United States, as at any one division of the governmental system.

WORRIED MAMAS AND PAPAS have been importing Pot Shots to speed up the lecture on skiing. Anxious folk with relatives about to take up the sport, have been demanding that we hasten the thing so they can ward off destruction for loved ones.

NEXT morning, what appeared to be a tall, black old woman, haggard and uncommunicative, came into the stable yard of the inn to take conveyance on the Deaf coach.

IS ARMAGEDDON NEAR? STRIFE-TORN WORLD? Editor Evening Times: The devastating undeclared war now raging in the Orient, the deplorable internal struggle in Spain; the disgraceful subjugation of Belgium by Hitler's troops...

These star chamber trials in Germany are a step backward into the middle ages and the inquisition. Trials in the United States may fringe on the ridiculous now and then, but it can never be said the defendant doesn't have a chance to tell his side of the story get it judged—by jury and public alike.

THE old wigmaker knew a good deal about disguise. He had some shadow save he had once made up for a theatrical troupe. He experimented on Polly's face with this.

As the coach jolted out of the cobbled stable yard and gained the highway, Polly Cheisey examined the letter which she had just received. It was not a letter from her husband, but a letter from a woman.

He later proclaimed "Peace on Earth and Good Will Toward Men." This is not a new thing. We are taught that His spirit will not always at war with man, and we are left to conclude that the day of reckoning is near at hand.

Personal Liberty. One of these fine days when some of the thousands of state and federal laws in the U. S. statute list hits you in a vulnerable spot and you rebelliously mutter about infringements on personal liberty, consider the case of a gentleman in Germany.

ONE MUST MARK VALENTINE DAY, MUSTN'T ONE? Pot Shots: "No more than a week ago since my merry St. Valentine's day, but I have a bit of reminiscence for the lady and ladies, she's the Hannah.

Administration Charged with Suppressing Ship Vulnerability Tests

MAVERICK SAYS AIRCRAFT COULD DESTROY FLEET

By LYLE C. WILSON
 WASHINGTON, Feb. 23 (UP)—The administration was charged today with suppressing reports of tests showing surface warship vulnerability to airplane attack in an effort to protect the new battleship construction program against adverse criticism.

Rep. Maury Maverick, D. Tex., a New Dealer who opposed President Roosevelt on national defense spending, made the charges. They were submitted by the United Press to the war and navy department and were denied by high ranking officers.

Maverick, a member of the house military affairs committee, said he had been told that he could examine the test reports if he would keep the information confidential.

"The existence of reports of the vulnerability of an attacking fleet to airplane defense is not denied," Maverick said in an interview.

Kept from People

"Obviously the secret is one that is being kept from the American people. President Roosevelt wants a big fleet of whipping battleships and anything that casts doubt on their usefulness is not for the public to know."

Maverick said air units demonstrated in Pacific maneuvers their ability to locate an approaching fleet and that it had been demonstrated that direct hits are not necessary to sink a man-of-war.

A 2,000-pound bomb dropped alongside, he said, would disable a big cruiser by force of concussion. After vessels of the fleet were located in Pacific maneuvers, Maverick said the airman "plastered them with sandbag bombs."

"The same amount of money sought for big battleships, invested

in pursuit planes and bombers, Maverick continued, "would make the United States invulnerable. If that is not true let it be proved untrue. Why keep the public in the dark. Or, if we are to be saddled with a huge navy of super-super ships, let it not be at the expense of neglecting our aerial defenses."

Navy's Demand

"The navy is now demanding that the army airplanes stick to shore. The two services are in a jurisdictional dispute as to the flight between the CIO and the A. F. of L. The answer to that business is to coordinate the military and naval air units under a single head, but that is not the immediate issue. The first question is why in the interests of a huge navy are pertinent facts censored and suppressed? Airplanes can sink battleships and the bigger the battleship the bigger the mark. Japan, England and Italy know it. Why are the American people not allowed to know it?"

War and navy department officers to whom the foregoing questions were put, refused to permit their names to be used but replied in effect, as follows:

1. There is no material conflict between the army and navy but rather closer cooperation than has existed for some years.
2. No one here or abroad can say whether modern vessels under war time conditions would be vulnerable to modern air attack. The only warship ever sunk by airplanes was the Panay, but that was not considered to be a fair test. Navy five-inch guns can hurl high explosive anti-aircraft shells nearly 30,000 feet in the air, higher than bombers can fly.
3. There have been no tests with sandbag bombs against manned vessels although the old battleship Utah, especially fitted for experiments, has been the target of water bombs. Both naval and army fliers have bombed the Utah but officials refused to discuss results.
4. Both navy and war department officials asked why Italy, Japan and England would be proceeding with battleship construction if they had knowledge, as suggested, that airplanes were superior weapons.

MEAT CAMPAIGN BOOST TO IDAHO

MOSCOO, Feb. 23 (Special)—Particularly welcome to sheep, cattle and hog producers in Idaho is the nationwide meat campaign which got underway in February and will continue through March and April. Sponsors of the movement are the various state livestock associations, packers, and the national livestock and meat board.

Stressing the importance of the livestock industry to Idaho, Secretary M. C. Clark of the Idaho Wool Growers association estimates that half of the farm dollar in Idaho comes from livestock.

Cooperating with the livestock program, Miss Marston H. Hepworth, state home demonstration leader with the University of Idaho agricultural extension division, and district home demonstration agents are organizing special demonstrations in Idaho emphasizing the value of meat in the diet and the present economical prices. For many years meat demonstrations have been a prominent part of Miss Hepworth's home demonstration program.

Twin Falls and south central Idaho meat establishments have joined forces in the campaign, and are planning an intensive drive during March. Special meat offerings in retail stores are to be one of the chief features.

APPLE LOAN SET AT \$5,000 TOPS

WASHINGTON, Feb. 23 (UP)—Rep. Walter M. Pierce, D. Oregon, was advised by the farm security administration today that special rehabilitation loans not to exceed \$5,000 would be made to western apple growers who own not more than 20 acres.

Western apple growers estimated this year's crop exceeded that of last year by 80 per cent. Efforts of the Federal Surplus Commodities corporation to relieve the situation by purchases for relief purposes helped but did not remedy the situation, Pierce said.

BRITAIN UNDER NO PRESSURE, CHAMBERLAIN CLAIMS

PRIME MINISTER GIVEN 330 TO 168 CONFIDENCE VOTE

LONDON, Feb. 23 (Special)—Prime Minister Neville Chamberlain assured the house of commons today that the government is not negotiating with Premier Benito Mussolini because of threats or pressure.

"Since last night," he said, "I have consulted my colleagues and they are unanimous in saying that in taking Sunday's decision (to reopen British-Italian talks) they do not feel themselves under 'threat or duress.'"

Chamberlain, who won a vote of confidence in his foreign policy last night by 330 to 168, refused to be drawn into another debate on the resignation of Capt. Anthony Eden as foreign secretary.

He declined to answer a taunting question by David Kirkwood, Liberal, on whether relations with Italy were more friendly than when Eden was foreign secretary.

Chamberlain made no reference to introduction to the resignation of British ambassador to Italy, who is on his way home.

The general British view was that the Eden crisis was a necessary and labor elements insisted that it was not.

"Just the Beginning"

"In the normal sense the Eden crisis is ended," said the News Chronicle, Liberal party organ. "But do not make the mistake of imagining that the air is clear. The clouds are just the beginning. The dictators are jubilant while all friends of democracy are cast down... It is just the beginning of a new epoch, and even the dominions, will finally wash their hands of Europe."

No country is stronger than its reputation in the world.

The Daily Herald, Labor party organ, expressed the same thought as regards the Eden crisis.

"It gives the world's attention to the line between Great Britain and her sister democracy," it said, "and the ending of the Eden administration participation in a real policy of world appeasement. Since the United States recognizes the Chamberlain policy as a policy of power-politics, it is, and is rightly, suspicious of it."

Pooles, and John E. Hober, Extension; E. C. Montgomery, C. L. Day, August Wolters, and James O. Knapp, Eden; and W. H. Nelson, John Stiles, H. Evans returned from a 10-day inspection of the area during which time "war" was also waged against porcupines.

"Inspection disclosed the ground is not frozen," Evans said, "and the streams are open and flowing a good head of water. From the reliable report we were able to gather the salmon river farmers can make their own estimate of the run-off for irrigation."

The New Electric Ranges Save on Food Costs

There's an old saying among cooks that "it takes a good cook to make a good stew." Now the homemaker has a new aid in using the cheaper cuts of meat—a new electric range that retains all the choice flavors; a range with heat controls so accurate that it takes the guessing from cooking. Now you can use cheaper cuts of meat, safe in the knowledge that they'll be delicious when done—and there'll be less shrinkage, too.

Still Coughing?

No matter how many medicines you have tried for your cough, chest cold, or bronchial irritation, you can get relief now with Cromolium. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Cromolium, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel the germ-laden phlegm.

Even if other remedies have failed, don't be discouraged, try Cromolium. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained from the very first bottle. Cromolium is one word—not two, and it has no hyphen in it. Ask for it plainly, see that the name on the bottle is Cromolium, and you'll get the genuine product and the relief you want. (Adv.)

KNITTING

SUN VALLEY, Feb. 23 (Special)—The bus taking skiers to the ski-lifts was jammed. People were standing in the aisle, laughing and talking, adjusting mittens and parkas, as the bus jounced and bumped and swayed along with skis and poles rattling on the sides, stopping here to let off some skiers, and there to take on some more.

In the midst of all this, two more ladies of middle age, apparently single and school teachers, calmly and paying attention to nothing about them, for fear of dropping a stitch. Later, in the cottage atop Proctor mountain, by the stove in the midst of toasts with hot wine, protons with beer, these two ladies sat calmly knitting. Spectators are still wondering if they also knitted on the way up and down the ski-lift.

LOUIS MAKES 2ND TITLE DEFENSE TONIGHT

Betting Odds 4-1 For Champion To Retain Crown

Experts See K. O. Before 10th Round is Ended

By STUART CAMERON United Press Editor NEW YORK, Feb. 23 (AP)—Joe Louis makes his second defense of the world's heavyweight boxing championship tonight, meeting Nathan Mann of New Haven at Madison Square Garden.

No one but Mann and his entourage gives him more than an outside chance of losing the title. Many observers look for a Louis kayo victory in five rounds.

So far there hasn't been any real betting but this afternoon special trains bringing an expected 5,000 Connecticut fight fans, who arrive at Grand Central and from the 14th street station on a Louis may arrive to attract business.

Continued assaults on the box of last night and this morning were expected to make the show a sellout. As early as yesterday it was impossible to buy choice seats.

Joe Louis should achieve the improbable he would have impressed boxing with his greatest upset since Jim Corbett put the slug on John J. Sullivan. The odds on Louis are 4-1.

Actually, the main fight is a "run-up" for Louis' last scrap with Max Baucus on day 14 of his career, ever appearance of a heavyweight champion is a title defense and one lucky punch can upset one of the great ones.

The fight will start at approximately 8:30 p. m. and will be broadcast over NBC's Blue network.

At Murtaugh

One of the outstanding traveling teams of the nation will be on display at Murtaugh tonight when the All-American Red-Heads, composed entirely of girl athletes, takes on the Murtaugh team in a basketball game.

The Murtaugh team is a basketball team from the high school at 1700. One of the star basketball players for the visitors will be Lila Sibley, above, greatest female court performer.

SOMETHING SPECIAL—The annual winter shows of the American Legion open tonight at the Legion hall, and from what we've been told of the prowess of Dr. Gordon MacKenzie, the former football player is something that is a treat for those who like wrestling.

MacKenzie, a chiropractor, performs feats of wonder in the ring that have not only spectators, but his opponent as well, pretty much amazed. We haven't been informed exactly what the feats are, but just leaving it up to imagination, a gent who knows the tricks of a chiropractor, placed on his own in a ring, ought to be able to turn out some remarkable poses. For instance, it should be down-right easy for him to dislocate his opponent's leg, to lift him around his neck and leave the poor fellow there to suffer.

Of course, we don't know that those are the facts involved, but it looks to us like a good bet.

MacKenzie-Britt Bout Tops Legion Card

They'll be cracking them in at the American Legion Memorial hall tonight—for it's the first wrestling show of the winter season. And the headline attraction is none other than Dr. Gordon MacKenzie, former All-American, and generally recognized as one of the top-notch performers of the world today.

MacKenzie will be faced by Floyd Britt, 160, hailing from Spokane, one of the tougher men in the ring today. Britt is known as a "fast" wrestler, will be outweighed by MacKenzie by some 10 to 20 pounds, but the Spokane athlete is used to taking men heavier than himself and will not feel at all strange in the ring with the doctor. The bout is scheduled for a one-hour time limit, two-out-of-three fall match.

Corbett Upsets Apostoli in Coast Battle

SAN FRANCISCO, Feb. 23 (AP)—Young Corbett, a fighter who is expected considered washed up five years ago when Babe Ruth knocked him out in one round to win the welterweight title, today claimed the unofficial world and European middleweight crown.

The fight was on an overweight basis with Corbett coming in at 150 pounds, but that Apostoli did not surrender his European title.

Henry Armstrong Neutral as Manager, Al Jolson Prepare for Legal Battle

CHICAGO, Feb. 23 (AP)—That old success formula never fails: hitch your wagon to a star. The star did the hitting in this case, but still it worked for hurricane Henry Armstrong, boxing's little Joe Louis, who belted his way through everything in sight and became featherweight champion of the world.

Whether it was publicity or skill that did the hitting in this case, strong has had plenty of breaks in a year and a half. The last time he was in Chicago he couldn't land a fight at the nickel club in town. Today, his hoop training quarters were packed for the 13th consecutive day with the familiar type of awed fight fans who used to pay to watch Jack Dempsey do nothing more than limber up with a punching bag.

THE EARTH MOVES FASTER IN ITS ORBIT FROM SEPTEMBER TO MARCH...

THE INTERVAL FROM MARCH TO SEPTEMBER IS A FEW DAYS LONGER.

AVOCADO PEARS BELONG TO THE LAUREL FAMILY.

DURING COURTSHIP, MALE FLIES OF THE FAMILY "EMPIDAE" PRESENT THE FEMALES WITH GIFTS...

I'M WONDERIN' WHETHER THIS PROFESSOR PRATTLE IS DEALIN' 'EM OFF TH' TOP OFF TH' DECK--HE'S A NEW SQUEAK IN TH' OLD DOOR AND I'D LIKE TO KNOW WHICH WAY HE SWINGS!

WAIT TILL THE PROFESSOR REALLY GETS GOIN'!

OUT OUR WAY

HEROES ARE MADE - NOT BORN

THE closer to the sun the earth is, the faster it travels along its orbit, and since it is at its nearest point during the winter months it makes the distance from the autumnal equinox to the vernal equinox in less time.
