EXPERTS SEE BIG GAIN IN WINTER WHEAT PRODUCTION

PRIVATE DEALERS SEE JUMP OF 30 MILLION BUSHELS

CHICAGO, March 3 (U.P.)—Winter wheat production for 1938 was estimated today between 650,000,000 and 668,000,000 bushels by two of Chicago's five private crop experts.

H. C. Donovan of Thomson and McKinnon placed the probable 1938 winter yield at 650,000,000 bushels and Nat C. Murray of Clement, Curtis at 659,000,000 bushels.

The average on the two estimates was 659,000,000 bushels, 26,000,000 bushels less than the actual 1937 yield but 30,000,000 bushels higher than the U. S. department of agriculture estimate of Dec. 1.

Two years ago winter wheat production in the U. S. amounted to 519,000,000 bushels and three years ago the winter crop was 465,000,000. The five year average, 1928-32, was 623,000,000 bushels.

MASONS HEAR OF CRISIS IN WORLD

America and the world are witnessing "another of the greatest tragedies in history" as liberty grows restricted before the advance of dictators, Secretary of State Ira H. Masters told the Twin Falls lodge, No. 4, F. and A. M., at its today observation last night of the 150th anniversary of signing of the U. S. constitution.

The observance was held as part of the Masonic group's regular business meeting at the Masonic temple here.

Sees Tragedy

"America was born in a crisis and we are passing another of the greatest tragedies in our history," said Masters. "We have dictators arising and we see the loss of liberty in nations across the seas. Liberty and justice have fallen and Masonry has been banished from Russia, Germany and Italy because it is not compatible with tyranny and intolerance."

"The constitution has stood the test for more than 150 years and has approached the divine law in its functions of government. I ask that we exalt the glorious simplicity of its purpose rather than a century of legalism. May I urge that majorities and minorities subordinate intolerance and power alike to the common good of all."

Urges Confidence

The speaker made a plea for "greater unity and more confidence in our constituted government and our leaders in order to promote stability and integrity in our central government. Fear is a very great barrier to better government."

"Recently we have been reading of the huge sums which are being appropriated for munitions of war and the building of war machinery. Since we are reputed to be the leading Christian nation among the great family of nations, it appears

Harpist Performs Here Tonight

Termed an outstanding artist with the harp, Miss Mildred Dilling will present a concert here this evening with Marcel Hubert, French cellist. The presentation is scheduled for 8:30 p. m. at the Methodist church and is the final offering of the season by the Twin Falls Community Concert association.

ARREST

SALT LAKE CITY, March 3 (U.P.)—The defendant—Eugene Black, 29—told the court: "I have never been arrested before."

Judge B. P. Leverich paused to scrutinize a record that showed 13 arrests in five different states.

"I mean I have never been arrested before under the name of Black," the defendant explained.

He was sentenced to jail for six months.

"to me that we should set a Christian example and not plan to destroy and virtually abolish our brothers and their property by the use of those armaments, which are the most destructive instruments of death that man can conceive."

"This is the first time in this nation's history that we have appropriated a billion dollars for defense and America should set a better Christian example because preparation for war tends toward bloodshed and destruction," the secretary of state said.

WPA Allots 1,500 Extra Idaho Jobs

THIS SATURDAY—OR ANY DAY NEXT WEEK—GO TO ANY DEALER DISPLAYING THIS SIGN

BRING IN YOUR OLD CAR DRIVE OUT A BETTER CAR EASY TERMS

This Saturday morning begins a nationwide event which this country has never seen before. Thousands of used cars—many of them modern cars with the advanced features the industry has developed in the last few years—go on sale at prices far below those of several months ago. Never has there been a national, co-operative movement like this to make better, more modern transportation available to so many people!

This National Used Car Exchange Week comes at just the right time for used car buyers. The season—the prices and the values are all in your favor. This is the week to bring in your old car and drive out a better car.

A great many 1937, '36 and '35 cars are included in this nation-wide sale. Cars have improved greatly in the last few years. If yours is older, you'll find it a real thrill to drive a car with modern style—bigger, roomier body—luggage space—safety brakes—higher tires—smoother, more powerful engine—better gas mileage. Many of the dealers are offering their best cars with the finest kind of guarantees. If you are driving an old, unreliable car—one that nags you with repair bills and threatens your safety every time you take it out—this is your great chance to own a safer, more modern car.

Your present car may cover the down-payment, and you can pay the balance on easy terms. If you have no car to trade you can still take advantage of the low down-payments and easy terms during this sale. Go early!—before the best bargains are snapped up. Don't let National Used Car Exchange Week pass without seizing your great opportunity to DRIVE A BETTER CAR!

Here's another recipe designed to show you why Idaho meat dealers and those in all other states are now conducting a national campaign to show America that meat dishes are delicious and prices are now attractive.

POT ROAST
4 pounds rump or chuck roast
3 tablespoons meat drippings
2 tablespoons onion, chopped
1 tablespoon salt
1 teaspoon pepper
1 tablespoon chopped parsley
1 cup water
2 tablespoons flour
Potatoes and carrots

Wipe the meat with damp cloth, rub with salt and pepper, and dredge in flour. Place the meat in a kettle with the hot drippings and brown on all sides. Brown the chopped onion slightly and add the water and remaining seasonings. Let the mixture simmer for the required length of time, or until the meat is tender. Turn the meat occasionally. Potatoes or carrots may be prepared and added to the meat's half hour before the meat is done. When the meat and vegetables are done, remove from pan. Skim off the excess fat from the stock and measure the remainder. For each cup of gravy desired, measure 2 tablespoons fat and return to kettle, add 1 1/2 tablespoons flour and stir until smooth and brown. Then add one cup of the meat stock and stir, season, and serve with the meat. This recipe makes eight servings.

Hagerman Man Weds

HAGERMAN, March 3 (Special)—Miss Wilma Richardson, daughter of Calvin Richardson of Winona, Wash., and Marjory E. Gribble, sister of Mr. and Mrs. Walter Gribble of Hagerman, were married Feb. 19, at Wenatchee, Wash. Tuesday.

The bride is a graduate of the Cheilan, Wash., high school. The groom is a graduate of the Hagerman high school. He also attended the University of Moscow and McMinnville college, Ore.

Mr. and Mrs. Gribble arrived Tuesday to make their home here.

Is This the Reason You Are Constipated?

If you're wondering why your bowels don't work right—stop and think about what you eat. Bread, meat, eggs and potatoes. All good, nourishing foods—but all constipating, leading in "bulk." And you need "bulk"! Some food that forms a soft, spongy mass in the bowels—helps them move.

If it's this lack of "bulk" that's causing your constipation, Kellogg's All-Bran is just what you need. It soaks up water and softens like a sponge. And this soft mass helps your bowels move.

In addition, All-Bran gives you Nature's great intestinal tonic, Vitamin B. Eat this crisp crunchy cereal every day, drink plenty of water, and enjoy happier days.

All-Bran is made by Kellogg in Battle Creek. Bold by every grocer.

U. S. Navy Keeps 535 Ships, 1,122 Planes In Shape for Defense

WASHINGTON—There is more to the United States navy than meets the eye when you see that fleet of warships and aircraft.

What you see in that picture is merely the cutting edge of an enormous machine that spreads literally around the world.

Models of naval ships old and new, paintings of navy notables and scenes of navy activities fill the corridors.

The purpose of all this elaborate shore establishment is simply to keep ships at sea. They are divided in this way:

First, the United States fleet, which in recent years has been the main striking force of the navy.

Second, the fleet of auxiliary ships, which includes all the ships that support the main fleet.

Third, the fleet of reserve ships, which includes all the ships that are kept in reserve.

Fourth, the fleet of training ships, which includes all the ships that are used for training.

Fifth, the fleet of transport ships, which includes all the ships that are used for transporting troops and supplies.

Sixth, the fleet of auxiliary ships, which includes all the ships that support the main fleet.

Seventh, the fleet of reserve ships, which includes all the ships that are kept in reserve.

Eighth, the fleet of training ships, which includes all the ships that are used for training.

Ninth, the fleet of transport ships, which includes all the ships that are used for transporting troops and supplies.

Tenth, the fleet of auxiliary ships, which includes all the ships that support the main fleet.

Eleventh, the fleet of reserve ships, which includes all the ships that are kept in reserve.

Twelfth, the fleet of training ships, which includes all the ships that are used for training.

Thirteenth, the fleet of transport ships, which includes all the ships that are used for transporting troops and supplies.

TAX COLLECTION HIGH AT JEROME

JEROME, March 3 (Special)—Earl P. Kennedy, county treasurer, has announced that in the final analysis of the first half of the 1937 taxes, he finds there were collected over 84 per cent of the taxes due.

The first half of the taxes charged against the real property of the county amounted to \$212,447.57 and there was actually collected and turned over to the county different taxing units of the county, the sum of \$200,030.85.

Unless some unforeseen emergency should occur, the county auditor will have ample funds to complete the school year and it will be unnecessary to register any warrants to carry on the deficit.

The same also applies to county funds as they have ample funds to carry them through on a cash basis until the next collection.

The units having real difficulty are the highway districts as their revenue is inadequate to construct and maintain roads and bridges to meet the demands of the owners of trucks and autos.

However the highway districts of this county are having unusually fortunate weather this year as we are having an open winter and it has not been at yet necessary to open snow blocked roads.

In other years this item alone has cost approximately one-third of the district's revenue appropriated for road purposes," he said.

The taxes which have become delinquent have had a 2 per cent penalty added to them and will draw interest from Jan. 1, at the rate of 10 per cent per annum until paid.

The interest rate is unusual as the legal rate for delinquent taxes for the years 1931-38 inclusive is 6 per cent. The legal limit which may be charged on notes and contracts is 8 per cent but the law requires a collection of 10 per cent for the years 1934, 35, 36 and 37.

though the idea is being revived again in the present debate over the navy.

This principal fleet is, and has been since 1923, in the Pacific.

There is a small special service squadron based on the Canal zone and operating in the Caribbean.

The Atlantic fleet, normally small and consisting mostly of river gunboats, temporarily augmented during the war in China.

Special services like the sending of Squadron Four to Spain to take away American civilians, detach from the U. S. fleet a few vessels from time to time.

But normally, except for small squadrons or individual ships detached for special service, the whole power of this vast establishment is devoted simply to maintaining, at sea, in maximum efficiency, the United States fleet.

There is the bureau of navigation responsible for the naval academy at Annapolis where 2,228 young men from every part of the country are training for the navy's officers.

This division also supervises the naval war college at Newport, R. I. and the many schools and correspondence courses the navy maintains, together with the hydrographic office and the naval observatory.

There are bureaus of yards and docks, of ordnance, of construction and repair, of engineering, of medicine and surgery, of supplies and accounts, of aeronautics, all of

500,000 WILL BE ADDED ON RELIEF

WASHINGTON, March 3 (AP)—The works progress administration announced today that it had authorized states to begin an immediate increase of relief rolls to add 500,000 persons.

Assistant Works Progress Administrator Aubrey Williams said, after a White House conference, that he expected relief rolls to reach 2,500,000 this month.

Officials said most states would increase their total by 15 to 25 per cent this month under the \$250,000,000 additional relief appropriation just passed by congress.

Relief rolls now contain approximately 2,000,000 names.

MOSCOW TRIAL DEFENDANT ADMITS PLOT TO MURDER STALIN

EX-AGRICULTURE CHIEF TELLS OF SABOTAGE PLOTS

By NORMAN B. DEUEL
MOSCOW, March 3 (U.S.)—A plot to murder Josef Stalin and the highest officials of the Soviet regime was admitted today by one of the 21 defendants at Moscow's spectacular mass trial on charges of treason, sabotage and murder.

Franz Zubarev, an assistant-commissioner of agriculture and an alleged Czarist secret agent, testified that he had organized a terrorist group within the commissariat of agriculture to kill Stalin, Lazar Kaganovich, commissar of communications; Kliment Voroshilov, commissar of defense; and Leonid Brezhnev, president of the Soviet of people's commissars, a function corresponding to that of prime minister.

Zubarev testified he first began to contact one of the chief defendants, Alexi Rykov, who was a member of the first cabinet of the Soviet Union, in 1920 at Sverdlovsk, where Zubarev was a party worker.

Practice Sabotage
Zubarev asserted he and Rykov plotted wrecking the creation of discontent by interference with food supplies and the consolidation of all hostile organizations to overthrow Soviet power.

Vishinsky turned to Rykov.

"We did agree to practice sabotage," Rykov admitted.

Zubarev, during his testimony, asserted he had been instructed by Vladimir I. Ivanov, former commissar for forestry, to give secret information on agriculture, particularly about supplies and storage, on behalf of Germany.

Ivanov testified earlier and gave specific details of charges that the defendants had plotted with Great Britain to overthrow the government.

Admits Charges
Ivanov admitted all charges against himself, he testified, "because I wanted to expose the monstrosity of the crimes and treason against the Soviet people."

When he proceeded to admit to bring Great Britain into the nightmare-like conspiracy which the government alleges, witnesses yesterday testified that the British and Poland was conspiring with "Trotskyist" elements.

Ivanov swore that Nikolai Ivanovich Bukharin, a prominent Communist internationalist, called for years the "right apparent to Lenin," told him that the opposition had an agreement with Britain to overthrow the Soviet regime.

British Concessions
Britain was to get concessions, including security for the interests of British assets, Ivanov said. British industrialists in northern Italy quoted Bukharin as saying that it was necessary to give "advantages" to Britain to keep her support. Hence, he swore, Arkadi P. Rosenberg, as commissar for foreign trade in the cabinet, sold Britain millions of dollars worth of timber at low prices. Thus the immediate hook-up was Ivanov as forestry minister and Rosenzweig as trade minister.

OIL MEET SEES CHEERY OUTLOOK

Voicing a cheery forecast for 1938 business and urging Utah Oil Refining company dealers to take energetic steps to boost their sales volume, A. B. Brown, sales manager for the company, presided one of the featured talks at the regional convention in Idaho Power auditorium Wednesday.

Brown pointed out larger sales for the initial two months of this year. He predicted that the remainder of the year would witness increased sales in virtually all lines of business.

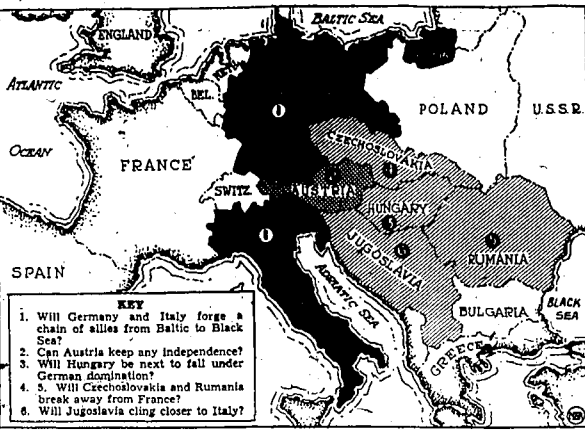

Approximately 60 dealers, managers, salesmen and company officials attended the all-day session.

Other Utah Oil officials who spoke included A. N. Johnson, Salt Lake City, secretary-treasurer, and A. O. Wallace, advertising and assistant sales manager. H. W. Bowers, western manager for Atlas tire sales, and J. E. Partenheimer, Newark, N. J., engineer for Atlas Tire corporation, also spoke. The latter demonstrated tire manufacture.

R. J. Schwendman, manager of the Twin Falls division, presided at the closing banquet, which was held at the Regerson hotel.

Central Europe—The Great Question Mark

Questions which the entire world seeks to answer are represented in the map above, depicting the European uncertainty which has followed in the wake of Nazi Chancellor Hitler's domination of Austria.

Just as before the World War, when the Kaiser looked "westward" to the Atlantic and eastward, Germany and Italy now envisage a chain of alliances which would cut a Fascist-sympathetic swath from the Baltic to the Black Sea, embracing Hungary, Czechoslovakia, Rumania and Yugoslavia.

As shown in shaded portions of the map above, success of the Italo-German plan would result in a bloc more powerful even than the Central Powers of the World War era.

Austria, already under German domination, is only a pitiful remnant of the pre-1914 Austro-Hungarian Empire, shown in shaded portions of the map at right, which included all of what is now Czechoslovakia and parts of Rumania, Poland, Yugoslavia, and Italy.

RAILROAD PASSENGER CHIEF LEADS TOUR TO SUN VALLEY

By J. P. GALLAGHER
SUN VALLEY, March 3 (Special)—W. S. Bassinger, Omaha, head of Union Pacific's passenger traffic department, often mentioned but seldom seen, strolled into this little resort in company with about 12 passenger agents and traffic managers from throughout the country. Must have been a tour of inspection, for he took in every thing he saw. Just not the type.

For several days now, there has been a porcupine stationed under our office window, never moving more than three feet away in any direction. Don't know how he got there or where he came from, but he must have had a tough winter, for he is almost as bald as most of the men who accompanied Mr. Bassinger around Sun Valley. At any rate, the editorial staff of the Valley Sun—Sun Valley's official publication—has decided to adopt him as a mascot. They consider him to be a literary animal because of the supply of quills.

"Westland Case" Detective Film

Combining the best features of the greatest detective novels of the past, Universal's spine-tingling production of the famous Crime Club novel, "The Westland Case," starts Friday at the Idaho theater.

Headed a brilliant all-star cast is Preston Foster, in the role of Detective Crane, miracle working super-sleuth, whose portrayals in this type of role have brought him to a high point of popularity with theater-goers.

Martha Raye Has Top Role in Film

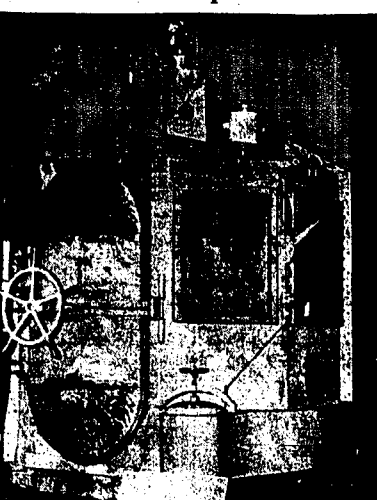

Featured in a part tailor-made for her particularly unique talents, Martha Raye, the human whirlwind, will be seen in the top feminine role in Paramount's "The Big Broadcast of 1938," which opens Sunday at the Orpheum theater, with W. C. Fields starred and Dorothy Lamour, Shirley Ross and Bob Hope singing top supporting honors with Miss Raye.

In "The Big Broadcast of 1938," Miss Raye plays the part of the daughter of W. C. Fields, transatlantic shipping magnate, whose presence on board the S. S. Gigantic, after she is rescued from a raft in midocean is enough to make the crew mutiny and threaten to throw her overboard.

Miss Raye sings a Robin and Rainer song, "Mama, That Moon is Here Again," currently sweeping it to way to top popularity.

Retail Sales Show Gain of Five Per Cent

WASHINGTON, March 3 (U.S.)—Despite the fall ret-back, 1937 retail sales amounted to \$39,830,000, an increase of more than five per cent over 1936, the commerce department reported today.

Retail activity during 1937 was at the highest level since 1929, but was nearly 20 per cent under the 1929 volume of \$49,115,000,000. Although the percentage increase for 1937 over 1936 was considerably less than any year-to-year gain recorded during the recovery period, the general recession in industry was not reflected in retail sales until the final quarter of the year.

Of each dollar spent in retail establishments in 1937, nearly one-fourth went for food and beverages, more than one-fifth for automobiles, auto accessories and gasoline; about one-fifth for general merchandise and apparel; and the remainder for other goods.

PILOTS WILL GO TO BOISE MEET

At least eight members of the Idaho Pilots association will go to Boise Saturday to take part in a general conference of aviation's problems in this state in connection with an invitation issued by the Three-Pilots club of that city.

Members of both organizations will hold sessions at the Boise hotel Saturday evening following a banquet at the same place. The local delegates, including some expected to attend from surrounding communities, will leave here Saturday afternoon.

The meeting will be in the form of a round table discussion, leaders said.

Those who will attend from Twin Falls will include Lionel A. Dean, president; C. G. Wylie, secretary-treasurer; Russell King and LeMone Stierens, members of the board of directors; Grant Kilbourne, L. C. Martyn, Vic Kelley and O. A. Kiker.

At the regular meeting of the association at the Regerson hotel last night Harry H. Harris was accepted as a member.

CAREY

Vincent Olsen was sustained as ward clerk in place of Clive Cooper, who has moved to Pocatello.

A large crowd attended the Carey Ski club Friday dance which featured a comedy skit by Hugh and Don Zulloch.

Mrs. Delmar Olsen has returned from the Hally hospital. Mrs. Leonard Kirkland is reported improving at the hospital but Mrs. Louie Kirkland's condition is serious.

Mr. and Mrs. Orville Looch have moved to Rupert. The two older daughters, Bethah and Marjorie, have remained to finish school.
