Shift in Style of Idaho Farming Seen After Freight Rate Boost

Guy Graham Expects Processing in State Will Help Cut Loss

BOISE, March 9 (UP)—Change in Idaho's farm production to insure crops of less shipping bulk was predicted today by Guy Graham, state commissioner of agriculture, as result of a five per cent rail freight increase granted on agricultural produce by the interstate commerce commission.

Graham said that the Idaho farmer, "already flat on his back," would have to go more extensively into reducible goods such as dairy products and sugar beets in order to absorb a part of the shipping rate increase.

Less production of apples for long distance shipment by rail, and more production of goods for canning, processing to eliminate perishability, and further work in by-product development was seen as necessary by the commissioner.

Graham felt that increase in rail rates would have the ultimate effect of driving the long distance shipment out of competition with those farmers located near central markets.

Sees Western Marketing He predicted a shift in western marketing to the Pacific coast, saw general trend of shipping swerve from railroads to truck lines, and said it was his belief that railroads would lose instead of gain by virtue of the freight rate increase.

Freight Rate Boost Opens FDR Inquiry

WASHINGTON, March 9 (UP)—The \$270,000,000 annual freight rate increase authorized by the interstate commerce commission opened the way today for a White House inquiry into problems of the nation's farmers.

Less than an hour after the I. C. C. announced its decision, President Roosevelt said that his projected meeting with leaders of the industry, railway labor, congressional experts and government officials would be held early next week.

He is expected to announce a series of decisions that he did not consider the increase a cure for the railroad ills.

Commissioner Carroll Miller, in a concurring opinion, said that "consolidation of all the railroads into one system would be the best solution of the 'railroad problem' and manifestly would result in reduction of expenses to such an extent that the railroads would be materially reduced."

Other state officials expressed concern over the increase. Gov. Bard Clark said "the increase is ill advised." Lieut. Gov. Charles Gossett said "agriculture cannot stand any increase in freight rates. This will cut the percentage of profit which remain the same, would be much greater than for other states because Idaho farmers must ship such a long distance."

Freight Boost Termed Blow for South Idaho

Agricultural leaders of this section of Idaho this afternoon expressed concern over the increase in freight rates which would result in a freight rate increase which was granted to railroads by the interstate commerce commission at the end of last week.

WHITNEY ACCEPTS RESPONSIBILITY FOR FAILURE OF FIRM

LEADING BROKER IS PREPARED TO SHOULDER BLAME

NEW YORK, March 9 (AP)—Richard Whitney, former president of the New York Stock Exchange, in a state, today accepted full responsibility for the bankruptcy of his brokerage house, admitted that he knew certain of his actions were "wrong," and said he was prepared to meet the consequences.

Whitney's statement followed testimony in a preliminary investigation that he personally withheld securities valued at between \$200,000 and \$400,000 from the accounts of two of his firm's customers. The accounts were those of the New York Yacht club and of an estate.

PROBE STARTS

NEW YORK, March 9 (AP)—Federal state authorities today began the probe of the failure of Richard Whitney & Co., one of the best known brokerage houses in the country.

The inquiry was undertaken by the securities and exchange commission and the office of State Attorney General, Robert H. Jackson, after the firm had been suspended by the New York Stock Exchange.

Three members of the firm who had seats on the exchange—Whitney, Henry D. Mygatt and Edwin D. Morgan, Jr.—must appear before an exchange committee March 17 to answer charges of "conduct unbecomingly contrary to just and equitable principles in trade," the most severe citation within the exchange's disciplinary power.

The Whitney firm and its partners filed collective and individual petitions in bankruptcy in New York court last week. Members of the firm are John J. McManus, F. Kingsley Rogers and Daniel G. Gordon. McManus was the first member of the New York Curb Exchange, which also suspended it.

Although Richard Whitney & Co. was widely known in volumes of business or contracts with the general public were negligible. The firm represented banking houses and other large institutional investors.

CRIMES LIST IS GRANTED PHELAN

(From Page One)

Local police this afternoon issued a warning to motorists to be on the lookout for a man who has been practicing in a car which he has been identified as the grand jury and the information on which this indictment is based is information which he or his assistants presented to the grand jury.

"As such legal representative he is in a position to furnish the information in question."

Two Single Indictments

Witness holds two single indictments against Phelan, an attorney, Koelsch holds four, two of them joint with Ira J. Taylor, former warden also under indictment on the same charges.

Taylor was to have appeared today for arraignment, but his cases were set over until Saturday at 10 a. m. in order to give him time to prepare motions to be made at time of arraignment.

Three indictments on the grand jury, including J. H. Stammer, director of police, and G. E. McKelvey, former commissioner of public works, will appear under indictment on the same charges have been arrested.

No date for trial was set by Judge Wallace in Phelan's case, but he has Judge Koelsch set date of trial.

CROWS KILLED IN BURLEY BOMBING

(From Page One)

The crows, according to Bassett, were killed because they rob the nests of the game birds which the farmers are trying to protect. Bassett also said the assistance of the farmers of the area who were complaining of the crow damage on their fields.

The island is about two miles east of Burley and the rookery there is the only one known in this section of the state.

opinion that the rise was "unfortunate at the present time."

"Any rate in freight rates at this time will, I believe, prove more or less of a catastrophe to the farmers. It might have been possible to 'take it on' at another time but it is bad right now."

Hard Enough Now

"Farmers are receiving no prices for their offerings and the markets are dragging. They are having a hard enough time making ends meet without additional freight rates being put up for them to bear. The granting of higher rates to the roads couldn't hurt us at a worse time," Lauterbach said.

Although H. Chris Reinken, prominent rancher of this section, said he believed the rate increase was "not desirable," he asked an interviewer, "but what can we do?"

"We also have to look at this thing in another light," he said. "We must all remember that we have our noses in the feed bag if we can get them there, so the railroads are now in the same position as we are."

"It is extremely unfortunate but what can we do about it?"

DISPUTE ON LOT GOES TO COURT

Trial of a civil non-jury suit was scheduled for 2:00 p. m. this afternoon before Judge Guy L. Kinney.

The case involves claims brought by James P. Broderick against Jack Dennis, seeking judgment ordering payment of \$40 and \$15 on two contracts. Broderick asserts the defendant is in breach of a contract for purchase of a 15 by 100 foot lot in Gardner subdivision, after the plaintiff had started making payments on the lot.

Price of the lot was to have been \$175. Broderick asks judgment in payment and had erected a canvas-roofed house on the lot.

mit, under existing circumstances, the adequate transportation system contemplated by the law.

"In this proceeding, the carriers are seeking an opportunity to earn their services. Whether they generally can do so at any level of rates may be open to question. But so long as the country requires and utilizes the services they should have that chance. The meagre increases authorized do not afford it."

Dosen Solutions

The group which meets with Mr. Roosevelt probably will propose a dozen solutions—ranging from additional federal loans to "running them through the wringer of reorganization" to wipe out excess capitalization. The railroads are capitalized at approximately \$26,000,000,000 and paid \$670,000,000 in interest last year. Twenty-eight per cent of the total railway mileage now is in bankruptcy.

Other plans include "pooling" of all services so that the strongest roads will aid the weaker ones (now in use in Great Britain), establishment of an "overhaul" holding company to wipe out excess capitalization. Jerome Farm Planning Unit Submits Ranch Suggestions

JEROME, March 9 (Special)—Following study and surveys of the farm and land conditions of the Eden, Hazelton, northeast, northwest and south Jerome sections, the Jerome planning committee submitted recommendations to the office of the county agent this week.

With the field crop and horticultural specialists, Bennett and Hobson, Loughary, Rinehart, and Larsen and Spence, of the University extension suggest that the farmers, and sheep raising men of the localities where surveys were made, prepared the recommendations which will aid the farmer and livestock raiser.

Spud Suggestions

In taking up the potato situation, the committee made a number of helpful suggestions which will aid the grower in Eden-Hazelton section. The committee suggested that to maintain better quality yield, above average, proper crop rotation—preferably four or five years rotation including legumes for two years, and wheat, be used. It was suggested also that use of better seed and planting of soil binding crops be made. Planting of a portion of acreage of certified seed was recommended.

For farm management, the committee of the Eden-Hazelton district suggested more diversified practices to insure greater dividends to the farmer. They especially urged the necessity of better and more livestock on the farm.

Weed Drive

In-taking up crops and soils, it was recommended that better practices be sought in the control and eradication of noxious weeds.

The final survey covered the south section of the Jerome territory and the following recommendations were made:

One-third of one sixth of land in the area should be row crop.

To avoid fusarium wilt, tomatoes should be sown thickly and later thinned and to avoid the fly, Ever farmer whose land is adapted to the raising of potatoes may include them in his rotation.

It was estimated that the stud bull plan for the territory be continued here, and that ways be secured that payment be assured by signed order on the purchases of some other dairy products' satisfactory methods.

It was further approved that the proposed plan of the Idaho State Dairyman's association in strengthening the Bangs test and making accredited free areas where 80 per cent of the cattle owners so desire, be instigated.

The testing program for dairy cattle was recommended; and improvements in housing and equipment suggested.

CHAMBER HEARS TALK ON PLANT

JEROME, March 9 (Special)—At their meeting Monday evening at Wood cafe the Jerome Junior Chamber of Commerce heard a talk to arouse enthusiasm over the Association Meat Packers' Union in southern Idaho.

John Troendly, fieldman for the association, gave a talk on the advantages of having such an organization, and told of the numerous ways it would benefit all farmers who dealt through it. Troendly said that regardless of the location in Idaho, the plant would benefit to a much greater extent all the farmers who would necessarily have to ship their livestock at a lesser saving to them if they were without the association.

Discussion followed and many questions were raised and answered during the evening.

Cassia Grangers Favor Laboratory

BURLEY, March 9 (Special)—A resolution favoring the establishment of an experimental laboratory in Idaho under the soil conservation program was passed at a meeting of Cassia county Pomona Grange held at Claremont Grange hall Saturday and attended by representatives of five subordinate Granges.

The resolution is in line with a proposed government program that provides for the establishment of four of the kind in the United States to test for uses of surplus products. All county Granges in Idaho are uniting to secure such an experimental station for the state, as one of the proposed laboratories will be set up in the west.

W. W. Palmer, county agent, spoke on the soil conservation project and a miscellaneous program followed. Barbara Taylor gave a reading and Mrs. Amanda Peaf a paper on "Solving Flower Garden's Two basic solos were sung by Clovis Fernin and the men of Hunt River Orange gave a style show.

Pomona of Cassia county and Mindoka Pomona will have a joint meeting at Albion June 4.

JEROME TO HEAR '38 SOIL SET-UP

JEROME, March 9 (Special) Complete details of the 1938 soil conservation program will be available within a few days to Jerome county farmers, according to unofficial reports received by the Jerome-agriculture conservation association. The time has been designated as about March 15.

District meetings for this association officials will be held in Moscow; Jerome and Pocatello, and county and community meetings will follow immediately. Farmers are urged to attend one of these community meetings as it will be impossible for committee members to explain the program separately to each individual. Announcements of the community meetings will be made by letter and through the press. Details of the program will not be available until these meetings are held, according to J. H. Handy, president of the local association.

COAST RESIDENTS BOIL WATER AFTER MAIN BREAKS

PRECAUTIONS TO FORESTALL FEVER EPIDEMIC TAKEN

LOS ANGELES, March 9 (AP)—In pools and pans on kitchen stoves, residents this city of 1,800,000 boiled their drinking water today. The sewer system broke under the strain of last week's flood, and the water supply is contaminated, though whether from the sewer, is not known.

Once the cause is discovered, Dr. George Parrish, city health officer, warned all persons to boil their drinking water. Drinking fountains throughout the city were shut off in public parks, buildings and theaters. Cafes and hotels received orders to serve only boiled water.

Boilers paralleling the water mains were found to have burst. Dr. Parrish said it had not been established whether there had been seepage from sewer to water mains, but he warned that there was danger of this.

A mild epidemic of stomach disorders was sweeping the city. The victims suffered several days of nausea, but Dr. Parrish described this as "some sort of flu brought in from the east."

Los Angeles' drinking supply escaped pollution from last week's flood waters. The supply comes from aqueduct more than 100 miles from Orange valley in the Sierras.

Less fortunate were some smaller communities, such as Anaheim, where the seven-day rains fell and water was contaminated. The danger at Anaheim and other Orange county cities was increased when the county courts closed schools and a large force into the Santa Ana river three miles from the ocean where the sewer normally empties half a mile.

Fascism Denunciation Denied In Hitler-Hoover Conversation

BERLIN, March 9 (AP)—It was understood today that intense annoyance had been caused in German official circles and in the party of Herr Hoover by the conversation yesterday with Adolf Hitler as a "denunciation" of Fascism.

His aides denied that the conference even remotely approached such a phase and maintained that the meeting was a formal courtesy visit such as Mr. Hoover has been paying to other government heads on his tour of Europe.

Although the visit lasted 40 minutes, the necessity of reciprocal translations cut the actual time of the conversation down to about 20 minutes.

Remarks on Building Activities It is believed that Mr. Hoover opened the talk with general remarks about building activities he observed along the roads as he drove to Berlin and also that he compared the healthy appearance of German children with the appearance of German children just after the World war.

40 MEN CHOSEN FOR COURT JURY

Forty Twin Falls county residents were informed by court officials today that they have been drawn as veniremen for jury duty in the March session of district court. They will report Monday, Feb. 14, at 10 a. m.

The names drawn yesterday included:

Twin Falls—H. S. Beals, Frank Belleville, Fred Botcher, J. P. Conder, Frank F. Deasey, O. V. Dougherty, R. O. Evans, Ernest Farnham, John O. Harvey, W. B. Hoag, H. F. Hoover, Ray Humphrey, Russell Foltz, J. O. Kasmussen, J. L. Knapp, W. N. Skinner, Lester Slack, Lee Smith, Fred Wagner.

Buhl—J. J. Boyd, J. J. Brennan, A. A. Emery, Earl Grindinger, Neil Larson, H. V. Miller.

Pilel—Frank DeKlotz, L. W. Hawkins, J. M. Jamerson, Joe Smith, Frank Gross, Henry Michaels, Kimberly, Carl Hughes, J. O. Osgood, Hansen, P. J. Fahay, J. D. McFarland, John Savage, Murtugan; W. A. Fouty, Jesse A. Griggs, Orl Jones, Hollister; R. E. Davis, Rogerson.

It's Odd Job, This Climbing As Human Fly

It's an odd job, this "human fly" business. At least, this is the impression gained by an Evening Times reporter who "looked down" on Johnny Woods, Astoria, Ore., as from 3,000 to 4,000 "looked up" at him while he climbed the Perizine hotel here yesterday afternoon.

The "bird's eye" observation of Woods which the reporter found was unique, to say the least. In fact, the ledge which skirts the roof of the hotel is so wide that the reporter had to get at an angle in order to see Woods at all when he neared the most difficult part of his climb, that of "going over the top."

Stuns on Roof Once on the roof the famous climber performed three stunts including the act of balancing himself atop two chairs on the roof peak; striking along the edge of the structure blindfolded while carrying his wife (who was reading the afternoon edition of the Evening Times) and standing on his head at the edge of the structure which faces the intersection of Main avenue and Shoshone street.

But it was his trip over the ledge from the street below which brought cheers from the hundreds watching the climb. From the top of the building the first view of the man who "came over" was sight of his fingers. Then his head and shoulders came into view.

Resting on his elbows and arms, he swung himself back and forth until one leg caught the roof, then he was over and up.

Expressions of Crowd Interesting also was the expressions to be found on the faces of those persons on the street. Some had a half-smile while others looked as though they were deep in thought. Two little girls wanted a third who covered her face with her curbs. One little boy sat on the curb with his back to the climb which faces the top.

But after he gained the roof and turned and waved to the crowd, all cheered for him.

And this afternoon he was scheduled to climb the Palace Hotel in Buhl while Saturday comes the Banrock hotel in Pocatello.

His field of endeavor is not overcrowded.

YOUTH SESSIONS HELD AT BURLEY

BURLEY, March 9 (Special)—More than 85 young people, representing the Christian churches of Burley, Twin Falls, Pocatello, Rupert, Jerome, Gooding, Kimberly and Buhl, attended the mid-winter Youth conference held here Saturday.

High point of the day's activities was the banquet given in the church basement Saturday evening with Rev. Paul Mortimer of Pocatello acting as hostmaster, Rev. Mark O. Cronenberg of Twin Falls was the principal speaker. Using as his subject "Youth Living Courageously." A miscellaneous program was given by representatives of all towns in southern Idaho that sent delegates.

The annual conference will be held at Baxley Hot Springs in July. It was decided at the Youth rally, a mid-winter meeting similar to this one will be held next year also.

Speakers were Rev. J. D. Harden, Buhl; Rev. J. S. Nelson, Burley; Kathrine Coff, Twin Falls, and Bethine Spair, Pocatello.

Growers Asked to Check Expiration

JEROME, March 9 (Special)—It has been announced here by the county agent's office that all local potato growers who are holding authorizations to divert No. 2 potatoes should check up on the date of expiration, according to word received through the office of J. W. Barber, state supervisor of the government potato diversion program.

"For many growers," he said, "who received their authorizations in December the ninety day limit will soon expire and after that time no more authorizations will be renewed or continued." Therefore he urges the growers who have qualified to divert potatoes under the government program of removing surplus quantities of the 1937 crop to check on the date that their authorization was issued.

He further suggested that arrangements be made at the county agent's office to divert before the expiration date of the authorization. He reports that about 80 cars of potatoes are being run every day or up to about one thousand cars month to have the most desirable effect on prices this spring he said, the rate should be increased. This is hoped to be accomplished by speeding up inspections.

Sewers Paralleling the Water Mains

Dr. Parrish said it had not been established whether there had been seepage from sewer to water mains, but he warned that there was danger of this.

The danger at Anaheim and other Orange county cities was increased when the county courts closed schools and a large force into the Santa Ana river three miles from the ocean where the sewer normally empties half a mile.

Fever Precautions Taken

Protections against typhoid fever, a peril in flood times, were taken here in southern California's devastated areas. All citizens of Anaheim and other Orange county cities were urged to boil their drinking water, and to boil their drinking water. A supply of typhoid serum was supplied by Los Angeles to San Bernardino officials and distributed to physicians in surrounding towns.

Discovery of a motorist's body in his automobile buried in the mud of a street in the city led to the death toll to 142. He was Knudson Rivas, 41, who was swept to his death when a bridge was washed out last Wednesday night near Santa Barbara. Hundreds of men searched the steep bottomless gullies and will continue to search for bodies. Some bodies were feared to be buried under five feet of silt, and they may

JUST WHAT IS THIS PROTECTION?

Editor, Evening Times: Will some one be so kind as to tell a very dumb person what is meant by protection. Who, which, how, and to whom? How is it done? Perhaps that is what we have missed in the last 45 years—something like the missing link—that is, the missing protection property just around the corner and the farmer's beans in the warehouse.

I would like to have more light on the story of the "high plane of living." A government survey shows 50,000,000 human beings in the U. S. without viable means of livelihood with little prospect of matters becoming better. Were they protected? We are now enjoying a very high plane of business "protection." The farmer and small business man are worrying and wondering if he can cut his taxes and bills and hold on for another year. If they were on a very high plane of living something must have happened to the foundation of things. How are they protected? Seems as though the undertaker either had no plans or nil protection. Farmers raised wheat not to sell but to burn, and beans to give to buyers for less than the cost of raising. Surely they were well protected.

Presumably by protection is meant the protective tariff—a measure advocated and operated by a now defunct political party. That thing was in operation all the years of our lives except for a breathing spell from 1912 to 1916. Perhaps it is not operated for the following four years but we were too busy fighting some one else's war to notice the difference. It was in operation all during the roaring nineteen-twenties. It was operating efficiently in 1932. So it is a self-perpetuating thing and it cannot be a cure for economic ills or we would not now be enjoying the present (fruits of protection) high plane of living where the government is feeding almost half of the American people.

We think that about 60 of our wheat farmers are well protected—perhaps a little too well. I believe that the other 130,000,000 need protection. The New Deal may have hindered but they have tried to give the 130,000,000 a measure of real protection. We need a real protection in the regular sense of the word. It is the only thing that will give us the right to labor at a profit. We shall be guaranteed to remain being regardless of race, color, or creed. If any other of the 130,000,000 have been taught to

DO YOU SUFFER WITH STOMACH TROUBLE?

Do you suffer from Acute or Chronic Indigestion, Dyspepsia, Catarrh of the Stomach, Belching, Bloating, Bad Breath, Heartburn, Sour Stomach, Sourness, Flatulence, Headache, Dizziness, Nervousness, Constipation or any form of Stomach, Liver, Kidney or Bowel Trouble? Would you like to get relief from these and be able to eat all you want, without your stomach being unable to breathe properly. And in addition to this discomfort, my right hip ached—probably as a result of my stomach disorder.

Twenty-two years ago I was long thin—yet in seven weeks the time in which I used Chan & Wing's herbs—my various disorders were given relief. There is no need to say that today, I feel like a new person.

After my fortunate experience I have recommended these good herbals to several of my neighbors—and they too, bring glowing reports of their successes at the hands of Chan & Wing.

I am happy to recommend Chan & Wing highly. Respectfully,

My Fate is in your Hands

To produce a bottle of BUDWEISER takes months and months—and yet it's a matter of minutes. Every operation requires perfect hour-and-minute timing. Barley must sprout just so long—and no longer. The clock has the final say-so on mashing, cooking, fermenting and pasteurizing. So, wherever you go in the home of BUDWEISER, you're face-to-face with a clock. And, when you open a bottle of BUDWEISER, you're face-to-face with that sort of enjoyment and satisfaction that only precise brewing can produce.

NOTE FOR HOUSEWIVES: A glass of cold BUDWEISER is always a thoughtful compliment to a husband—especially in the evening. Has he ever expected it when there was none in the ice-box? Check up on your supply. Keep a carton on hand—and several bottles or cans of BUDWEISER chilled and ready for instant serving... at unexpected as well as regular occasions.

Marian Martin Pattern

PATTERN 9635
Have you a daughter between two and ten years old? Then surprise her with this adorable frock which you'll find ever so easy to make. For everyday wear, run it up quickly in bright cotton prints and emphasize the bodice and waistline with crisp white ribbon. But if she needs a party frock make up View B in dotted swiss, organdy, or printed lawn. Edge the square neck, short, puffed sleeves and bodice-seams with lace and add pert little bows to the bodice and sleeves. Pattern 9635 allows a choice of short or long, puffed sleeves or dainty little cap sleeves. Panties to match may also be made from this pattern. Complete Marian Martin diagrammed sew chart included.

Pattern 9635 may be ordered only in children's sizes 2, 4, 6, 8 and 10. Size 6 View A, requires 2 1/2 yards 36 inch fabric and 1 1/4 yards ric-rac. Send FIFTEEN CENTS in coins for EACH MARIAN MARTIN pattern. Be sure to write plainly your SIZE, NAME, ADDRESS, and STYLE NUMBER.

GET INTO THE SPIRIT OF SPRING... put your wardrobe in shape without delay. **WRITE TODAY** for Marian Martin's NEW Book of SPRING PATTERNS. JAYCEES LAUNCH SYPHILIS BATTLE

Unanimous vote of approval had placed the Twin Falls Junior Chamber of Commerce on record today as sponsoring a Twin Falls educational campaign to further the national drive against syphilis.

Fifty men of the organization, including a score of new members, voted approval at the general membership meeting held last night at the Park hotel as a welcoming session for the new Jaycees.

President John B. Robertson will appoint a committee this week to chart specific action in the matter. The motion approved at the meeting placed the Junior Chamber on record as endorsing the nationwide move and as taking all possible steps to further it in Twin Falls.

Quiet-draw action to clear up title to the 30-acre tract being purchased by the Jaycees adjoining Harmon park will be filed the first week of next week by J. H. Blandford of Stephen and Blandford, on behalf of the Junior Chamber, the members were told by George Paulson, of the sub-committee which investigated the title phase. The suit will be filed in district court and no opposition is expected.

The action is now being held up pending receipt of necessary further information from Donald Callahan, now of New York City, owner from whom the purchase is being made.

Tom White, chairman of the membership drive, reported that the Jaycee list now shows 91 paid-up members, 40 of whom are new men enrolled during the recent drive.

Four youthful Kimberly boxers provided the entertainment program with a pair of impromptu boxing matches of three rounds each.

SCREEN OFFERINGS

IDAHO
Wed., Thurs. — "Souls at Sea," Gary Cooper.

MOUNTAIN CREEK DAMAGES CABINS

High water has done considerable damage to property owned by Twin Falls residents who have summer cabins on Warm Springs creek in the Sawtooth mountains, according to word reaching here.

Several log structures and hot springs approximately ten miles from Ketchum on Warm Springs creek, stated that due to snow conditions the day was required for him and a friend to travel to the ranch from town. The two young men are believed to be the season's first travelers in this summer playground which is now blanketed by five and a half feet of snow. At the time of their arrival at the ranch fifty-eight inches of snow lay on the ground and ten inches more fell that night. Bitterly cold nights followed unusually warm days, he stated.

Roofs of several cabins, deeply covered with snow, were badly in need of shoveling, young Warfield declared although the log structures were better able to withstand the heavy loads than other buildings not so solidly constructed.

Among the damage caused by the high waters was the loss of a dam built across the creek by young Warfield's grandfather to provide water for irrigation purposes. The dam gave way before the debris-laden water, releasing logs which continued their destructive way downstream.

From now on the Sawtooth snow is expected to melt steadily though the cold nights may retard the runoff, averting further damage to property located on the banks of the creek.

BAPTIST CLASS HEARS PROGRAM
Mrs. H. O. Kuykendall entertained members of the Mary Martin class of the Baptist church yesterday afternoon and presented a program on popular music. She was assisted by Mrs. H. N. Hoag, Mrs. Robert Miller, Mrs. Arthur Gordon and Miss Edna Graham.

A short business session was held and refreshments were served by the hostess.

GET A CAR YOU'LL BE PROUD TO OWN AND DRIVE

THINK WHAT IT MEANS TO SAVE SO MUCH MONEY ON A BETTER LOOKING, SWEETER RUNNING, MORE MODERN CAR

Outside of the actual cash savings which National Used Car Exchange Week offers — the genuine opportunity to buy at rock-bottom prices — what's the outstanding news angle of this great event? Undoubtedly it is the discovery by owners of old cars that cars built in the last few years have improved more than they dreamed!

It's a real thrill to take the wheel of one of the many 1937, '36 or '35 cars included in this sale — and discover how a modern car handles — how much more pleasure it offers. Get ready for spring with a car that brings real pride of ownership — modern style — smooth, powerful performance — roomy bodies and luggage space — safe brakes — quieter operation — better economy — big tires — modern riding comfort... all yours at prices far below those of several months ago!

This is no ordinary sale. Car dealers, stocked with these good used cars, have joined in a great, nation-wide co-operative movement to "get things moving."

You may not even need cash to make the switch. Your present car may cover the down-payment on the car you want. Balance on easy terms. If you have no car to trade, you can still take advantage of the low down-payments and easy terms during this sale.

These bargains are GOING FAST. DON'T DELAY UNTIL THE BEST SELECTIONS ARE SWAPPED UP! National Used Car Exchange Week ends this Saturday night, March 12.

CLASS A CAGE TOURNAMENT OPENS TOMORROW

Initial Game To Start at 10 in Morning

They'll be streaming into Twin Falls tomorrow—hundreds upon hundreds of south central Idaho basketball players, coaches, managers and fans...

The occasion, of course, is the annual cage classic for this district, the Class A basketball tournament...

There is no such thing as a free lunch at the meet, as though Twin Falls and Gooding are generally conceded the edge to enter the final game on Saturday...

At 11 a. m. the rangy Purple Pirates, coached to be the dark horse of the tournament, take on Coach Jimmie's team...

Flint Fast Flier has pretty much the same record as the other, except that O'Brien coached team has finished its regularly scheduled season in a blaze of glory...

Evening of the first day will pit winners of the morning games against each other at 7:30 p. m. and then the losers of the morning tilt will pair off in the following contest...

Two capable clerks in Bill Gross, who worked the games here last year, and Walt Carro, the ex-UTSB star, will referee and umpire all the games for three days...

Clean Sweeps In Bowling

Tumbling further downward after a brief reign at the top, Della's cigar store bowlers dropped three straight titles last night to Schiltz in Commercial bowling league.

Firestone duplicated the Schiltz feat by taking a clean sweep over Log Tavern, last year's city league champions.

Margins in four of the six games of the night were so close that a "snipe" or two might have switched results.

High score for the night went to Fred Stone with 606 total, but Al Kirchner of Bull turned in for best single game. Bob Warner paced City loop with 488 and 179 single.

Times Schedules Amateur Boxing Cards to Back Harmon Project

SPORT SQUIBS

HARMON PARK.—As far as we're concerned, there's nothing we'd rather go into, in the business of backing, than a professional baseball league in this section of the country.

White Gooding and Twin Falls appear to be the stand-outs in the Class A meet here, the doping of the outcome at Shoshone is another matter. Most of the teams in the meet dominated their particular districts quite conclusively during the regular season, and then went ahead to stay on top in the district clashes.

The Glenns Perry club is the defending champion, and with the Cardinals in conjunction with the latter three clubs all came through their tournaments without a defeat.

Perry Can't See Where Amateurism Ends, Professionalism Begins; Made \$20,000 Each Year as a Simon-Pure

formance was recounted to me by Fred Perry as we strolled through the rough of a golf course here yesterday. Perry was United States singles champion at the time and had asked Vinson, a professional, to be his luncheon guest and to use his seat in the Marquee during the matches.

who used to travel around with me to small tournaments on the British tour marched up and said: 'Really, Fred, old fellow, you really shouldn't come in here, you know.'

and \$20,000. And I do quite a bit better than that now. Perry is of the opinion that the U. S. B. T. A. and the British have been playing the same game since then. Else, he asked, how could one explain that a group of other ranking players had been invited to mention three of them—were appearing as a cabaret attraction in Nassau.

Foes Charge Scandal Feared in TVA Ranks

PROBE ASKED IN ADMINISTRATION OF U. S. PROJECT

By JOE ALEX MORRIS
 WASHINGTON, March 9 (Special)—The Tennessee valley authority charged today that the administration, fearing scandal, was trying to avoid a congressional investigation of TVA.

"From present indications, the TVA may make the makings of another Tea Pot Dome," Sen. Styles Ewing, R., asserted. Ewing, Sen. William H. King, D., Utah, announced that President Roosevelt's schedule with TVA directors, would not interfere with their resolution for an inquiry by a senate committee.

Roosevelt will inquire into the charges of jealousy, maladministration, plotting and neglect of duty hanging about the board chairman Arthur E. Morgan directed most of the fire against his two associates. Yesterday Sen. George W. Norris, I., Neb., author of the TVA act, asserted in a senate speech that Morgan was prompted by jealousy.

Climax of Controversy

The President's conference with Chairman Morgan and his co-directors, Harcourt A. Morgan and David E. Lilienthal, appeared likely to be the climax of an inter-directorate controversy that has been going on for two years. Mr. Roosevelt said that he would seek only facts rather than conclusions from the directors. Friends of the TVA said that they had nothing to fear by exposure of all the facts.

President Roosevelt makes public after his conference the text of testimony or statements given him. "I think it might be better to do this without a formal investigation," Norris said after his address.

Wants Facts

"All I want is to have the facts brought to light in an impartial manner. If that is done, there is nothing to fear. In that way, we can get the TVA act amended to protect it by seeking to conceal wrong doing. If it develops that such action is warranted, I will be ready to introduce a resolution of removal of any or all of the directors."

"Sine congress created the TVA," Ewing said, "it should have the right to do the investigating. The only reason they are afraid of an investigation is that they think it will develop into another Tea Pot Dome scandal."

King said that the White House conference could not affect the resolution for an inquiry.

The TVA report calls for a full investigation regardless of the President's conference. He said, "I am unwilling to have the TVA do anything but what it is doing. I am unwilling to have the TVA do anything but what it is doing."

EAGLES ELECTION SET MARCH 18TH

A full program of activities for members of the Twin Falls Fraternity Order of Eagles, during the next 10 days, was announced here this afternoon by Victor Pratt, president, and Ed Linsky, secretary.

Feature of the activities will be an election which will be held at the club rooms on March 18. At that time a vice president, junior vice president and inside guard will be selected.

Other activities, as announced by the two officials, include attendance at the Burley boxing carnival on Thursday evening; social night at the Legion hall on Friday evening and Eagles dance at the Legion hall on Saturday evenings.

Girls Will Edit Bruin

Next regular issue of the Twin Falls high school paper, "The Bruin," will be edited and distributed by a staff of girls. Jean Jones is editor in chief and directing the rest of the girls in Mrs. Mercedes Faul's journalism class.

While preparation on the special edition is going forward the boys in the class are working on material for the next issue.

18 SCOUTS SIGN FOR DRUM CORPS

With 18 players assured at the present time, success of the Twin Falls Scout district drum and bugle corps was assured after a meeting was held at the American Legion hall yesterday afternoon in charge of Frank Warner, director.

The meeting yesterday was the first of the complete unit, which will probably be expanded at succeeding meetings. The next is scheduled for Tuesday at 4 p. m. Assured at the present time are six snare drums, 11 bugles and one bass drum.

Members of the corps are James Larson, Dale Clark, Maillon Hammenstadt, Jack Gordon, Gene Hull, Robert Nelson, Robert Van Engelen, Charles Frazier, Robert Pratt, Clifford Pratt, James Williams, Bruce Shary, Howard Allen, Murray Munyon, Dallas Fey, Ted Bowen, William Merritt, Stephen Gilbert.

Students Hold Pep Assembly

A "rip-roaring" pep assembly was staged this morning by students of the Twin Falls high school in anticipation of the victories they hope to win in the district basketball tournament here.

The rally was opened by the student president and yell leader, Ed Bennett. Coach R. V. Jones introduced all members of the tournament team and each spoke a few minutes.

All yells and songs in the repertoire of the school were rehearsed and a number of class competition events were staged.

Jerome Residents Fined On Charges

JEROME, March 9 (Special)—McMongie, Jerome, arrested Saturday evening for drunkenness, was brought before Police Judge Guy Stanton. He pleaded guilty and was fined \$5 and later Van Engelen, Arthur Brown was brought before Probate Judge Herbert N. Folkman, and was fined \$5 and \$15 costs for issuing checks without proper funds. He made the checks good which he had written here and given to a local grocery store.

FAIRFIELD SLED HURTS CHILDREN

FAIRFIELD, March 9 (Special)—Two children narrowly escaped serious injury or death when they were struck by a tob-sled speeding down a steep slope and bearing six persons at a ski-meet and picnic on Corral creek.

Shirley Love, five-year-old daughter of Mr. and Mrs. Lynn Lowe, who live on the Jones' hot spring ranch, is being treated for a broken leg with other possible injuries sustained. Violet O'Dell, daughter of Mrs. Cinda O'Dell, had to be treated only for shock and bruises.

Fred Harrison, one of the group on the sled, suffered a knee thrown out of place when he tried to stop the speeding sled as it bore down on the children playing near the base of the hill.

Dinner is Arranged

By Jerome Groups

JEROME, March 9 (Special)—The Cleaners girls and M Men, under the leadership of Mr. and Mrs. L. P. Oldham, enjoyed a banquet Friday in the L. D. S. recreation hall.

During the dinner a part of the evening's program toasts and responses were given. Afterwards dancing was enjoyed.

Miss Audrene Darling and L. F. Oldham were toastmasters.

As You STEP UP in Comfort—Your Electric Service STEPS DOWN in Cost

Why do our customers in southern Idaho and eastern Oregon use more electricity than almost any other group in the United States?

Because their electric rates are among the lowest in the nation—and because, being thrifty, they've discovered that the more electricity they use the lower their rates become. Under "STEP DOWN" rates, each quantity of additional use earns a smaller rate.

And that's why it's poor economy to skimp by turning off or reducing the use of electric appliances. The reduction starts at the lowest rate you have earned—eliminates the best part of your bargain—and may actually increase the average rate you pay for all electric service.

It's smart to be economical—but it's doubly smart to save intelligently. Your electric service is one of life's biggest bargains; don't sacrifice the best part of it.

After You've "STEPPED DOWN" Your Electric Rate DON'T STEP BACK

Your electric rate becomes cheaper as you use more electric service.

IDAHO POWER ELECTRICITY DOES SO MUCH COST SO LITTLE!
