SENATE TURNS DOWN AMENDMENT TO REORGANIZATION BILL

SOLONS REFUSE TO CURB F. D. R. IN BITTER FIGHT

WASHINGTON, March 18 (U.S.)—In the bitterest atmosphere of the session the senate today voted to turn down the Wheeler amendment to the government reorganization bill, refusing to curtail the measure's broad grant of power to President Roosevelt. The vote was 43 to 39.

The vote came shortly after the senate lobby committee launched an inquiry into the amendment by the national committee to uphold constitutional government against the bill. Opponents of the bill, charged the constitution used "strange and projects" to win support of wavering senators.

The Wheeler amendment was designed to give the president approval of any changes in government organization ordered by the President.

Debate Charges
A few hours before the vote the lobby committee, headed by Sen. Sherman Minton, D., Ind., executive secretary of the constitutional committee and charged that he once had been carried under the wagon wheel with the enemy act and that he participated in Indiana Ku Klux Klan affairs.

Wheeler's amendment denied by Munday who called, on advice of counsel, a committee subpoena that he turn over records of his organization.

Yielding for the Wheeler amendment were 14 Republicans and 25 Democrats. Voting against it were 10 Democrats, 10 Republicans, one Independent and one Farmer Laborite.

Granted Full Pardon
"Bridges" has been pardoned under the trading-with-the-enemy act but that his conviction was set aside and that President Coolidge granted him a full pardon. He said Minton's assertion that he is "helped" organize the Ku Klux Klan in Indiana was "totally false."

Wheeler's investigation as a "gangster court," Wheeler demanded the investigation be broadened to include the American farm bureau, the National Education Association of Labor, veterans bureau, "bands of several departments and governors who have called their ministers to urge support of the bill."

Judge Reverses State Board on "Case of Thumb"

Reversing a state industrial board order in "the case of the thumb," Judge Porter today ruled that the application of Herbert A. Neale, filer, be remanded to the board and that the state commission be entered in Neale's favor.

Neale appealed to district court from an order of the state board dated May 14, 1937, refusing him compensation for amputation of his thumb. Defendants were H. J. Weaver, filer-pileator warehouse operator, and the state commission.

Judge Porter's finding of fact in the case showed that Neale injured his thumb when starting his car to return home for lunch Feb. 10, 1936, while employed at Weaver's warehouse. Neale was "choking" his car with a pair of pliers. The pliers slipped and the thumb was lacerated in striking the choke wire.

Infection in the thumb sent the filer worker to the Twin Falls hospital from Feb. 14 to April 4. The thumb was amputated to the distal joint March 11, and further amputation removed one-fourth of the first phalanx of the thumb.

The findings of fact held that Neale's injury was received in the course of employment. He had worked the rest of the day and six hours of the next day before being forced to stop when the thumb became too painful.

CCC QUOTA FOR COUNTY IS SET

Quota for Twin Falls county in the coming year CCC enrollment, set for April 8, was announced here today as being 25. The announcement of the quota was made by R. W. Hampton, supervisor of the department of public assistance.

Eligible applicants should contact the assistance office here at the earliest possible time, Hampton said. Full details can be obtained at the office.

SOLUTION

The mystery of the pigeon message was solved today. W. Hampton, supervisor of the department of public assistance.

The message was written by John M. Towers of Twin Falls, and the pigeon was supposed to carry it home to his owner, Ezra Curtis, Salem, Utah. Mr. Towers informed Sheriff E. F. Prater after yesterday's Evening Times story announced the "mystery."

Mr. and Mrs. Towers had been visiting in Utah and returned home Sunday.

The message found attached to the carrier pigeon's leg said: "Home safely. Lots of storm and blizzard."

But the pigeon evidently disliked the carrier, it alighted at the ranch home of Mr. and Mrs. Charles Dopson, south of Kimberly.

POLAND PREPARES TO BACK ULMATUM WITH FORCE

BORDER INCIDENT GROWS SERIOUS TO LITHUANIANS

WARSAW, Poland, March 18 (Special)—Polish officials, prepared to back with military force an ultimatum to Lithuania, expressed confidence today that Lithuania would meet the Polish demands and the incident would be settled without war.

There was no doubt that Poland meant business. It was emphasized by the arrival at Warsaw of the Lithuanian frontier, of Marshal Edward Rydz-Smigly, Poland's leader and inspector general of the army.

The attitude of the country was reflected in such incidents as the appearance of the newspaper *Wieszczyca* with headlines reading "The frontiers are actually closed; the doors will be opened by force."

Polish Guard Killed

The ultimatum came over a border incident in which a Polish guard was killed. It demanded satisfaction and reopening of the question whether Vilna really is an Lithuanian capital or belongs to Poland.

A meeting of the Polish senate was called for next Wednesday, by which time the government probably expected the incident to be settled.

In London the British government was reported to have urgent representations to Poland and Lithuania to avoid strife. Paris and Berlin did likewise.

Excitement in Vilna was intense. Many houses were decorated with banners carrying such slogans as: "Let us march on Kovno."

Populace Parade

The banners carried dead's heads painted in white.

It seemed that almost the entire population of 200,000 in Vilna was in the streets, marching in columns past the house where Rydz-Smigly was quartered.

They sang the national anthem and chanted:

"Marchal, lead us on to Kovno."

A great mass meeting was called in the main square.

It was understood here that the government expects to reply by the ultimatum which it sent to the Lithuanian government.

(Lithuanian reports were that the ultimatum expires Saturday night. The Polish government refused to say what its time limit was.)

Usually reliable sources said that the government's ultimatum included six points in all: (1) Immediate establishment of normal diplomatic relations; (2) immediate resumption of railroad, postal, telephonic and telegraphic communication; (3) alteration of that part of the Lithuanian constitution which names Vilna as the real Lithuanian capital; (4) a reciprocal arrangement regarding treatment of national minorities; (5) commencement of negotiations for a customs and commerce agreement and (6) satisfaction for the frontier incident of last week in which a Polish border guard was killed.

Public Forum

ANOTHER REPLY FROM LAKEVIEW, ORE.

A friend who lives near Twin Falls recently sent me a clipping from your issue of Feb. 16 which was headed "Public Forum" and commented on a letter by Dean V. Thompson of Lakeview who claims to own land in your state and who has been published enough to print what I have to say as I feel that most of Mr. Thompson's statements were such as to give readers a wrong impression of our valley and I take this opportunity to present a true picture.

My father and I have lived in this valley for 19 years, prior to that having lived in the Twin Falls district. We own and farm about 200 acres and, from experience, know that we can raise nearly all the crops grown around Twin Falls. Our land was practically dry when we came here, having been broken up out of sagebrush only the previous year. Our soil is a black sandy loam and we are practically free from noxious weeds and insect pests.

Our farm land is not marl and very little of the marl is in the valley. We have very good drainage so that problem will never worry us. While the exception of one year, when practically the entire western country was hit by drought, we have always had ample water for irrigation.

The farmers now own the irrigation system and intend to improve it and bring new land under project. Our country has been, and still is, a great stock raising country and we have found these old stockmen are not the practical, modern and successful farmers that Idaho farmers are. In fact the greater share of our farmers are formerly stockmen and now that new lands are being opened up and developed under this project, we would like to see more of them come here.

Mr. Thompson's article said there was four feet of soil here. He probably meant that there was four feet of soil in the mountain and adjacent to the sawmill where he works, as we have never had more than a foot and a half or possibly two feet of soil here in the valley at any one time since we've been here—and then it wouldn't stay.

The financial set-up of our country speaks for itself to refute any argument that Mr. Thompson might offer that the valley is a "money land" and it really makes one wonder, if Mr. Thompson dislikes this country so much, why he stays here—living and working in the level here in the valley at any one time since we've been here—and then it wouldn't stay.

PROSPERITY IF FOREIGN CROPS KEPT OUT

Editor, Evening Times:

The majority of we Americans have witnessed a depression. Are we now facing a future Hoover or Roosevelt?

There would be no depression in America if we had the right kind of protection against foreign products and textiles being shipped in. America's frontiers are now developed to the extent of being a self supporting nation.

We don't need Australia's beef or wool, Argentine's or Canada's wheat, Asia's cheap imitation furs, etc. an absolutely independent America today is patrolling foreign countries, cheap labor and low cost products and letting her own products suffer waste. If we suffered no competition from foreign countries, U. S. A. would be by far the most prosperous country on earth.

It would require all our factories of every kind to supply the demand for manufactured goods and all would be home products.

State our lumber, lumber camps, factories, mills, land projects, etc. would soon open up, thus putting large amounts of money into circulation. We are not consumers, who are now barely existing.

When the public has cash, they spend it freely, thus keeping the ball rolling.

The farmers, if they could, would like to see the lumber and many other things be needed to improve his farm.

Such a spree of buying power, as the public has, is not to be had. The relief victims would be the farmers. If they could, they would like to see the lumber and many other things be needed to improve his farm.

BURLEY, March 17 (Special)—Spring round-up of wild horses began Tuesday in the Black Pine and Sublett divisions of the Mitidoko forest. Riders in the round-up are members of the permanent personnel of forest employes.

The round-up follows a closing order issued last month by Secretary Wallace, which provided that riders or dealers must have removed their livestock from the forest reserve by March 15. All stock remaining on the forest after that date will be disposed of by forest employes.

Concerning the number of wild horses now grazing in trespass on government land near here, no estimate can be made until after the round-up.

A Few Testimonials

September 20, 1937.

TO WHOM IT MAY CONCERN:

I am a local farmer and used to hard labor in the fields. In fact it is necessary to my health. But about four years ago I became subjected to severe attacks of rheumatism which left me almost helpless in my shoulders and upper arms.

The pain which accompanied these attacks was most apparent during the early morning and just before retiring. Sometimes it affected the back of my neck as well as the other parts of my body. These members became stiff and pained so that I could hardly do my work.

After four years of pain I decided to try the Chinese Herbs. Chan and Wing Co. in Idaho Falls. Now after only six weeks' use of their herbs I arise each morning and retire each night without any sign of pain... and my work is a regular part of my daily routine.

Needless to say I am thankful to Chan and Wing for the good they have done me with their carefully prepared herbs. I gladly recommend them to anyone similarly troubled.

Yours truly,
FRANK M. WATSON,
Firth, Idaho.

November 11, 1936.

TO WHOM IT MAY CONCERN:

For eighteen months I was in constant pain from rheumatism. My back, my right arm and right leg seemed to be wired the rheumatism settled as the pain spread and I was so much that I was in continual discomfort.

Several of my friends recommended Chan and Wing Herb Co. to me and finally, I decided to give them a trial. But eighteen months of this wiring pain was all over. I have now no idea of my surprise—and great relief—when I found that all the pain and discomfort completely disappeared after just one week's course of their herbs.

I sincerely recommend that anyone who suffers as I did give these Chinese Herbs a trial. I am sure whoever does will find the same satisfaction and relief that I did.

Respectfully,
FRANK M. WATSON,
R. F. D. No. 1, Idaho Falls, Idaho.

SHOSHONE, March 18 (Special)—Fred H. Knickerbocker, assistant to the president of the Union Pacific, with headquarters at Seattle, was a local visitor between Tuesday and his way home from a brief trip to Sun Valley, the Union Pacific sports resort of wide fame.

Knickerbocker, widely known as former superintendent of the Oregon Short line, at Pocatello, for many years, later with the Southern Pacific and an Alaskan steamship company, was particularly gratified at the setup at Sun Valley, and being a sportsman of import he enjoyed the ski exhibitions and other events, despite the bad weather of Sunday.

In Sun Valley he saw the nucleus for wide centralization of outdoor activities in central Idaho henceforth.

An ardent outdoors man, he voiced game conservation to the utmost.

THIS CURIOUS WORLD By William Ferguson

THE NAME "ROTTEN ROW," GIVEN A FAMOUS STREET IN LONDON, IS A CORRUPTION OF THE ORIGINAL NAME, "ROTTEN DU ROY."

A RAVEN IS KEPT AT MERSEBURG CASTLE, NEAR HALLE, GERMANY, AS A REMINDER OF A GRAVE-YAULTS. MANY YEARS AGO A SERVANT WAS EXECUTED FOR THE THEFT OF A RING, WHICH ACTUALLY HAD BEEN STOLEN BY A RAVEN. WHEN ONE BIRD DIES, ANOTHER IS PLACED IN ITS STEAD IMMEDIATELY.

IN TOPEKA, KANSAS, A LAW LIMITS EACH HOUSEHOLD TO FIVE CATS.

The recent death of one of Merseburg's ravens served to call attention to the strange custom mentioned above. Nevertheless, supposedly, will the castle be without one of these birds of ill omen. The ring which was stolen was a valuable one belonging to the Bishop Thilo of Trotha.

Insurgent Forces Resume Drive to Mediterranean

REBEL TROOPERS BLAST LOYALISTS FROM KEY POSTS

By Harrison Larocoe
 HENDAVE, Franco-Spanish Frontiers, March 18 (UP)—Nationalist forces resumed their march toward the Mediterranean today, driving back huge concentrations of government troops which had halted temporarily their rapid Aragon advance at Caspe.

The insurgents blasted the last loyalist legions from Caspe, key point of communications on the 100-mile Aragon front, and continued three miles to the east where they established a bridgehead on the Ebro river.

Evening Caspe, Alcañiz, Alcañiz, southwest of Alcañiz, also fell to Generalissimo Francisco Franco's forces.

A communique broadcast from Madrid said that the loyalists had been compelled to evacuate both Caspe and Alcañiz because of the intensity of enemy attacks.

Government leaders, undaunted by reverses along the eastern front, pledged themselves at a cabinet meeting in Barcelona to continue the war at all costs.

Decision Reached

Although the announcement of withdrawal and the evacuation of sessions said that "a military and political decision had been reached" no details were revealed.

With the capture of Caspe the Nationalists seized the center command of the whole loyalist Aragon army. Caspe is considered the last line of defense between the forces they enter the province of Castellón, is about 65 miles by road to Turis, a short distance above the point where the Ebro river flows into the Mediterranean.

9000 BOYS GET CITIZEN'S RIGHTS

Nine 000 enrollees, members of the Boy Scouts of America, last night were presented with citizenship certificates at a special banquet held at the camp and addressed by Rev. E. E. Higgins, St. Edwards Catholic church of Twin Falls, and Horace Scheley, Ogden, forest service official.

The nine youths reached their majority during the current enrollment period which started last Oct. 1. All are from New York state. They are James Benton, Wynny Barber, Donald J. Barber, Richard Gordon, Christopher Komoni, Vernon Mumper, Kenner A. Mayo, Ernest Parfitt, and Fred W. Smith. Each was presented with a citizenship certificate signed by Mayor E. E. Herbin, camp commander.

Approximately 150 were present during the dinner and the talks of Rev. Herbin and Mr. Scheley followed the theme of good citizenship. Prior to the presentation, the nine youths had also completed a course in citizenship which is carried on at the camp.

During the season last night Lt. Robert Herbin, camp commander, presided.

DISTRICT AGENTS HEAR PROVISIONS

JEROME, March 18 (Special)—A district meeting for south-western Idaho county extension agents was called in Jerome Tuesday to hear officials explain the provisions of the agricultural conservation program. The meeting was conducted by J. H. Reardon of Moscow, state county agent leader.

Era T. Benson, Boise extension economist, and Hinkle W. Cox, Moscow, field representative, with H. L. Stafford, Moscow, executive secretary of the state AAA committee, presented the information.

Acresage allotments, soil building practices especially adopted to each county and payments for participation in the conservation program based on the wheat and potato acreage of other general crops, and the principal points explained.

Five major practices were given for taking part in the sugar beet program, which were maintaining and perennial grasses or mixtures after July first, seeding of green manure crops, utilization of barnyard manure in specified amounts, applications of commercial fertilizers showing a combination of nitrogen, phosphoric acid, or potash in specified amounts.

At least one acre of the soil-conserving practices must be carried out on the farm, on land adapted to the production of sugar beets for each acre of beets planted for harvest in 1938. However, at least 25 per cent of the soil conserving practices carried out on any farm must consist of the first three practices or a combination of practices. Each acre of the total farming practice requirements in excess of 25 per cent which were not part of the first three practices may be met by practices four or five or combination of such practices.

County agents will have further information on the program at their offices, and at county meetings.
