EVANS SEES ATTEMPT TO HALT GRAF PROBE HOUSE GROUP APPROVES HUGE WAR SUPPLY MEASURE

Budget for National Defense Hits Total Of Billion Dollars

WASHINGTON, March 23 (U.P.)—The house appropriations committee today favorably reported a \$447,808,550 war department supply bill, bringing proposed army and navy appropriations for national defense to well over \$1,000,000,000.

The war department appropriation, largest since 1931, was presented to a house preoccupied with problems of national defense in a re-arming world. The house has approved a \$653,000,000 appropriation for the navy for the fiscal year beginning July 1, and also has passed a supplementary bill authorizing a 20 per cent expansion of American light fleets at a cost of \$1,121,000,000 to be spread over a period of years.

Heading the request of President Roosevelt for money to strengthen America's defenses against aerial attackers and to eliminate deficiencies in ammunition supplies, the committee recommended appropriation of the full \$1,121,000,000. Mr. Roosevelt asked for these purposes.

Show Huge Increase The \$447,808,550 which the recommended appropriations totaled represents a \$27,542,000 increase over funds available for the 1933 fiscal year. But was \$5,480,280 below the figure requested by the administration for army needs.

Major item in the increase over funds for fiscal 1938 was the heavier provision for strengthening the aerial arm of America's military forces. Of the increase, \$18,000,000 is for aviation to provide for construction of 478 planes, working out a total of 2,200 military fighting ships in service by July 1, 1940.

Of the military budget for 1938, 28 per cent of \$124,000,000 is for the aerial arm of the army's fighting forces.

Department Goals Important increases in the provided: \$2,800,000 for pay of the army; \$2,400,000 for the quartermaster corps; \$200,000 for the national guard, making possible an increase in strength from 200,000 to 205,000 men for peacetime defense; \$200,000 for army travel and \$138,000 for the engineers service.

ROME PAPER WARNS FRANCE AGAINST AIDING LOYALS

IL DUCE STATES HIS COUNTRY IS READY TO FIGHT

ROME, March 23 (Special)—The Fascist party newspaper Tevere today warned France not to intervene openly on the side of the Spanish Loyalists unless she was ready to face a big war.

Coinciding with this warning Premier Benito Mussolini told a cheering crowd of Fascist blackshirts that the country was ready for peace but would fight if necessary, and would win.

"If France decides to play Mussolini's game all the way she will find someone who holds good cards to play a good game," said the Tevere article.

Warns Against Coups

"If France seizes this occasion for a coup let her be ready to face other coups. If France moves a finger over the border there will be a general movement. If France loses her head nobody can say where and when she will find it again."

"We warn France of the moral risk intervention will involve. With this all is set."

As this warning appeared, Mussolini was addressing his blackshirts from a balcony of his Palazzo Venezia.

"Today is one of rejoicing and glory for blackshirts and for the people," he said. "Nineteen years ago the first Italian Fascist combat units were created. The name indicated their program."

"The Italian people know that the world must know that we are the same: ready for peace, but that if necessary we will fight. If we fight we shall win, for the present and future greatness of the Italian people."

Nazi Anniversary

It was the anniversary of the day in 1919 when, under Mussolini's leadership, 122 World War veterans met secretly in the Palazzo San Sepolchro at Milan and formed the first of the "Fascist fighting groups" to combat Communism.

The anniversary today was celebrated throughout the country. Buildings were decorated, there were speeches in all towns, Fascists paraded and the black shirts flag of the Fascist party was ceremoniously raised on the famous balcony of the Palazzo Venezia from which Mussolini spoke today.

NAVAL FORCE BACK AFTER "TAKING" 2 TINY ISLANDS

HONOLULU, T. H., March 23 (Special)—An expeditionary force that raised the United States flag on the tiny south sea islands of Canton and Enderbury, which also are claimed by Great Britain, returned today aboard the coast guard cutter Roger B. Taney with first details of the adventure.

Richard B. Black, field representative of the U. S. department of agriculture, made the report, as a member of the party.

The two islands are important to commercial navigation routes between Honolulu and the Antipodes and amicable negotiations between the United States and British governments already have affected a virtual nation. However, the news two weeks ago that boarding parties led by the Roger B. Taney had taken possession of them in the name of the United States caused the raising of some eyebrows in the state departments at Washington and London.

Black's version of the expedition followed.

"We sighted Enderbury on March 6 and landed a party. Immediately we started unloading water, stores, tents and lumber. At 8:45 a. m. the American flag was raised on a temporary flag pole. The British flag, floating above the island, was not touched.

"The following day we continued our sailing. The British expedition of the British Geographical society at Canton Island. They did not seem surprised to see us. Later we learned that they had heard President Roosevelt's announcement concerning the proposed action in a radio broadcast."

Hawaiian youths, who will make weather and aerial observations, were left behind on the islands.

To Whom It May Concern:

Last year I was operated on for appendicitis. After I had regained my feet and returned to work, my right leg began to swell and two running sores broke out on my ankle. These refused to heal and the swelling in my leg persisted. It was while I spent many hours a day on my feet and the pain, itching and discomfort of my ankle and leg was almost unbearable.

Finally one of my friends suggested I try Chan and Wing's Herbs. I was highly skeptical—but to my surprise, after three weeks of medicine from Chan and Wing, my leg as well as the sores in my ankle are healed. The pain and swelling of my leg have completely disappeared.

I am glad to recommend Chan and Wing's Chinese Herbs.

JEROME COUNTY FARMERS MEET

According to an announcement made here through the office of the Jerome county agent, a county meeting for all county and community committees has been set for Jerome on March 29 at 10 a. m., and at this time it is expected that final information on the 1938 soil conservation and AAA program will be available so that community meetings can follow immediately and commitments may establish goals for individual farms.

District meetings held last week will state and federal representatives in charge indicated that details and other details of the program are still under consideration in Washington, D. C.

New provisions of the bill indicate that the payments which it will be possible to earn will be based on potato and wheat allotment quotas for each farm as well as acres of cropland, commercial orchards, commercial vegetables, and non-crop pastures. While exceeding the wheat allotment acreage quota set up for the farm probably will not penalize the grower in 1938, heavy penalties will be charged for excess potato acreage and for exceeding the total soil depleting acreage goal.

"No community educational meeting will be scheduled until we have more definite information to give farmers," state local officials.

JEROME COUNTY FARMERS MEET

According to an announcement made here through the office of the Jerome county agent, a county meeting for all county and community committees has been set for Jerome on March 29 at 10 a. m., and at this time it is expected that final information on the 1938 soil conservation and AAA program will be available so that community meetings can follow immediately and commitments may establish goals for individual farms.

District meetings held last week will state and federal representatives in charge indicated that details and other details of the program are still under consideration in Washington, D. C.

New provisions of the bill indicate that the payments which it will be possible to earn will be based on potato and wheat allotment quotas for each farm as well as acres of cropland, commercial orchards, commercial vegetables, and non-crop pastures. While exceeding the wheat allotment acreage quota set up for the farm probably will not penalize the grower in 1938, heavy penalties will be charged for excess potato acreage and for exceeding the total soil depleting acreage goal.

"No community educational meeting will be scheduled until we have more definite information to give farmers," state local officials.

More Fuel for a Hot Argument

One of the controversies people can become rather bitter about these days is whether women should hold jobs that otherwise might go to unemployed men.

Mrs. Fern's idea might bring forth a few added cheers if it were not for some facts brought out by two recent surveys on the subject of women who work.

The National Federation of Business and Professional Women's clubs and the Young Women's Christian association conducted the surveys.

The Y. W. C. A. group surveyed young women with smaller incomes. Among that group 66 per cent have other persons wholly or in part dependent on them.

So in light of these surveys it seems that the great majority of working women work because they and their families need the money they earn.

SAFETY AWARDS LOOM IN COUNTY

Majority of insured motorists in Twin Falls and Twin Falls county is expected to earn the safe driver reward of 10 per cent of a year's liability premium, amounting to \$4.35 or more on a standard limits policy, according to a survey made here by the National Bureau of Casualty and Surety Underwriters.

Life drivers of private passenger cars will get a reward of \$4.35 on policies covering lower limit cars while for the policies on medium-priced type cars the reward is \$4.00. Since rates are the same as last year, the rewards will mean an actual reduction in cost of insurance.

If national averages hold in this territory, the survey pointed out, out of 100 insured motorists will make these savings.

M'KECHNIE'S PITCHING OPES ON PITCHING STAFF

Reds' Leader Says He Has Too Many Class AA Players

Willard Hershberger, Star Minor League Catcher, May Get Backstop Berth

(This is the first of a series of articles on big league baseball clubs) by HARRY GRAYSON (Sports Editor, NEA Service)

TAMPA, March 23—The Cincinnati Reds are rumormongering that they're not for the fact that they're managed by the ultra-conservative Bill McKechnie.

Wilkinsburg Will likewise to play 'em close to the vest, but says that there are too many AA players on the Rhineclad roster to play major league baseball as it should be played.

This outfit has to run to get anywhere, unless McKechnie, pointing out that it finished a smacking last season behind the New York Giants—in 1937.

McKechnie was credited with having performed something in the nature of a miracle when he led the stinging Boston Bees to fifth place last season—only one game behind the fourth-place St. Louis Cardinals.

Hopes for Pitching

It is with superlative pitching that it is with the pitching and catch combinations of the cellar.

Baseball clubs seldom have such a pitching nucleus as the Cincinnati Reds, and McKechnie hopes to do something with the assemblage. Along this line, he considers Willard Hershberger the most important individual on his payroll.

Will thought enough of Willard to buy the New York Yankees organization \$25,000 for his contract, and to give him Newark farm first baseman Les Scowfield for the forthcoming season.

How What It Takes

Schmeider Lombardi is a splendid hitter and thrower, but a catcher has to be able to do something besides hit and throw. Lombardi, who emphatically does not like Lombardi's handling of pitchers. He would like to make a deal for the large Lombardi.

The fiery Hershberger was the mascot of the Newark Bears, who began the International rag by buying the rights to the team with a background of eight years of minor league stardom. He was rated the all-time backstop in the minors.

Manager Bill McKechnie of the Cincinnati Reds has been talking to Earl Lombardi, veteran catcher, and install in his place Willard Hershberger, who was the finest backstop in the minors last year.

Pirates Seek Revenge

SAN FRANCISCO, March 23 (UP)—Mace Brown and Ed Brandt will work out the mound for the Pittsburgh Pirates today as they meet the San Francisco Seals in the second of their series of spring exhibition games. Yesterday the hard-hitting Pirates were shut-out, 0 to 0. The National leaguers collected only four hits from Gibson, Koussal and Blair.

A's DRUB GIANTS

BATON ROUGE, La., March 23 (UP)—The St. Louis Cardinals and the Philadelphia Athletics will meet in their fourth and final game of the training season tonight at the Municipal stadium here. The Athletics won a 10-3 victory over the Cardinals in their third game, but the Athletics would even the series.

DODGERS DOWN CARDS

ST. PETERSBURG, Fla., March 23 (UP)—The St. Louis Cardinals returned to their home grounds today thoroughly chastised by Boston's Athletics. The Cards were humiliated 13-9. The Stingers were felled, for two innings by Paul Dean before they routed him with a nine-run burst in the third. It was the sixth defeat in 11 spring games for St. Louis.

If This Isn't a Nightmare—Then McLemore Has Been on a Bender—Or Something

BY HENRY McLEMORE

DAYTONA BEACH, Fla., March 23 (UP)—Baseball's most important coming party in the state is now on in Washington where the President, clutching a bag of peanuts in his left hand, to give the ceremonial fourth throw out of the first ball with his right. This has always been sure-fire front page stuff, even when the presidential succession happened. As a statesman whose throwing form was reminiscent of the captain of a girls' volleyball team.

SPORT CUBS (By H. J. W.)

Short shots: We think that we have large crowds for our football games in this country. But look at this: the soccer match between Germany and England, scheduled for Berlin's Olympic stadium on May 14 has been over-subscribed by 400,000 applicants. There were some sound beatings handed teams at the state tournament in Boise last week-end, but nothing like that in the Indiana state meet. Springfield chalked up a victory over Fairview. Score—50-0.

TAKE IT EASY, BOYS

The baseball season hasn't even opened yet, but the boys already are minding it, as the picture above shows. Mel Almada of the Washington Senators and Mickey Owen of the St. Louis Cardinals decided to settle a little altercation in their own manner during an exhibition game between the two teams at Orlando, Fla., and were at it hot and heavy until Oase Blurge, left foreground, and Al Simmons, right background, both of the Senators, broke it up.

Final rehearsal is being held today by the cast of "The Chimes of Normandy," light opera to be presented by the Idaho Opera Guild at the Falls state in preparation for the performance Thursday at 8:15 p. m. in the L. Nothing short of a meeting of the National association draws as many big shot owners and officials as the early exhibition games in the West. The Western league and its affiliates in 1938 and 1937 is the most sweeping probe in the history of baseball.

Landis called them all individually to the ramshackle old resort hotel at Belleair.

The commissioner is getting everybody's story, but now the news of the investigation has broken ahead of Judge Landis's official decision on the case, there is of course a bit of talk all up and down the Florida today are denying that they know anything about it or have anything to do with it.

While everybody versed with the facts in the St. Louis-Cedar Rapids case, the Cardinals are trying to accomplish something which they could not accomplish within a written agreement, most of them disagree with Landis's firm stand against the farm system.

Landis all along has contended that extensive baseball farming borders too closely upon syndicate baseball. He now has something on which to base his argument since the Cardinals are trying to accomplish something which they could not accomplish within a written agreement, most of them disagree with Landis's firm stand against the farm system.

Today's meetings will be held at 7:30 p. m. on the 21st and at 8 p. m. in the hall at 217 Second avenue south. Rev. Claud Pratt and his daughter, Florence, will provide special music.

LOCAL UNIT PLANS VISIT OF OFFICERS

Major Ronald Eberhart, Captain Helen Smeton and Adjutant Ivy Thirkette, Portland, will be special speakers this evening at the Salvation Army meeting.

The party is on its way to a Pocatello young people's convention which will be attended by 15 local delegates. The Twin Falls group will broadcast over KBEI on Sunday afternoon.

Today's meetings will be held at 7:30 p. m. on the 21st and at 8 p. m. in the hall at 217 Second avenue south. Rev. Claud Pratt and his daughter, Florence, will provide special music.

Belleair, Fla., March 23 (Special)—Judge Kneass M. Landis's investigation of the alleged unjust alliances between the St. Louis Cardinals and the Cedar Rapids club of the Western league and its affiliates in 1938 and 1937 is the most sweeping probe in the history of baseball.

Brouillard Favored In Comeback Bout at New York

Filly Win Pays \$65.80 in San Mateo Race

BAY MEADOWS TRACK, SAN MATEO, Calif., March 23 (Special)—Services for Charles E. Edwards, 49, resident of Buhl who died Monday, will be held Thursday at 2 p. m. in the Methodist church with Rev. Lelloy Walker, pastor, officiating.

Funeral arrangements for services are waiting the arrival of the three daughters. The rites will be conducted by Father J. C. Dolan, pastor of the Catholic church to which she belonged. The body rests at the Evans and Johnson funeral home.

MIX TO PRESENT 1ST TENANT CASH

Ralph W. Olmstead
WASHINGTON, March 23 (Special)—Former Lieutenant Governor G. P. Mix of Missouri, now chairman of the Idaho state advisory committee for the farm security administration, is being invited to present the first farm tenancy check in Idaho to one of the citizens of Jerome county, "Gub" is making the speech by proxy for Senator Pope.

BUREAU
The executive reorganization bill now pending in the senate is the cause of one of the most vigorous lobbying campaigns for many seasons. People in New York, Philadelphia and other cities are sending telegrams to all members of the senate urging them to vote for the Wheeler amendment which would require the farm security administration to make a study of the elimination of bureau as void unless specifically confirmed by Congress. Opponents of the amendment think it would completely defeat the purpose of the reorganization bill because group pressure in specific instances always has prevented Congress from carrying out its intent.

The best argument of the opponents of the reorganization proposal is that there is still a possibility of transferring the farm security to the interior department. The President—indirectly—has assured the senate that the forest service or any part of it will be transferred out of the department of agriculture.

Forest service transfer is the only possibility which aroused noticeable interest in the senate. If it is eliminated, the bill has a good chance of enactment.

FEAS
For some time it has been the intention of the bureau of foreign and domestic commerce to devote considerable effort to the promotion of dried peas. So reports the secretary of commerce to Sen. Pope. Funds have become available under the new farm bill so farmers in the upper Snake and Moscow areas producing peas can expect promotional assistance.
