SENATE ACCEPTS INTERIOR SUPPLY ACT AFTER FIGHT

WASHINGTON, April 6 (AP)—The senate today approved the \$130,998,000 interior supply bill after rejecting a plea by Sen. Rufus D. Holt, D., W. Va., to refuse a \$300,000 increase for the bituminous coal commission.

Holt, charging that the Cuffey coal act was enacted to pay a campaign debt to John L. Lewis, head of the committee for industrial organization, asserted the \$300,000 would be used to create political jobs.

The senate made a net increase of \$5,911,380 in the house-approved bill.

The house \$27,000,000 appropriation for the coal commission was increased by \$300,000 for "salaries and expense."

Wilson has signed an extradition waiver.

His wife, Penelope, was killed in an automobile accident last December at Berroco, Fla., when her 200-foot boat was driven plowed over a 200-foot embankment and burned, cremating the woman's body, Wilson's attorney charged.

At the time of the accident, officers checked on his past record.

Iron Worker Held in Texas Murders After Attempt to Sell Bag

BOISE, Idaho, April 6 (AP)—District Attorney Roy D. Jackson announced today that expensive feminine finery found in the possession of an iron worker, were "strikingly" similar to the wardrobe of Mrs. Hazel Frome, and her daughter, Nancy, who were murdered in the wastelands nine miles from here last Wednesday.

The iron worker was Jack Ferguson, 30, a blond, powerful man of the laborer type, who was arrested in McCamee, 160 miles east of here, late yesterday afternoon while trying to sell a split leather overlying bag filled with feminine clothes.

"I suppose you're trying to pin that Van Horn job on me," he said. "Anytime anything happens they try to pin it on me. Why?"

Authorities did not have an accurate or complete list of the contents of the three bags taken from Mrs. Frome and her daughter after they had been murdered. For that reason the bag Ferguson had and its contents may have to be sent to Berkeley, Calif., the home of the Fromes, for identification.

Ferguson was silent when questioned by McCamee authorities and refused to account specifically for his movements during the past week. He was not questioned extensively, but he said he was waiting to await the arrival of state police who were due today.

Jackson said that the man's hands, which were found clenched in the dead hand of Miss Frome, was "inflated." He said that some of the clothes found in the bag which Ferguson was trying to sell had been purchased in Los Angeles and the Fromes had been frequently.

Asks Accounting

Sheriff William Fowler of McCamee said he had asked Ferguson to account for having feminine clothes in his possession. Ferguson had replied that he and his wife were hitch-hiking east from California and that his wife had deserted him, leaving her clothes behind. Fowler said that he and his wife on Ferguson indicated that he and his wife had been separated for several years.

ADA GRAND JURY CENSURES CLARK IN LIQUOR AUDIT

BOISE, April 6 (AP)—Governor Barzilla Clark today was accused of misrepresentation concerning an asserted audit of the state liquor control commission and the Ada county grand jury stated its intention of continuing its session until audits of all departments handling public funds have been submitted to it for inspection.

In an interim report which criticized failure to provide audits of many state departments, the grand jury accused both the present and the last administration of evading responsibility in seeing that governmental branches were subjected to proper auditing and investigation as to financial transactions.

The grand jury alleged that Governor Clark:

1. Had placed full responsibility for audits on Harry Parsons, state auditor, but transferred that duty from Parsons to his own office.
2. Told the grand jury that an audit of the state liquor control commission was underway when the grand jury has been unable to find any evidence indicating that an investigation of the commission has been made or is underway.

No Responsibility

3. Would not accept responsibility for lack of audits yet has blamed irregularities in government to delayed audits and no audits at all.

The grand jury charges that over a period of several bienniums few of the required audits of state departments have been made as required by law and alleged that there has been a notable tendency among state officials to shift responsibility for such failures to the legislature.

It was charged that there is insufficient personnel in the state auditor's office.

DWORSHAK EYES GOVERNOR RACE

Henry C. Dworshak, editor and publisher of the Bulletin, will seek the Idaho governorship on the Republican primary ballot, it was reported unofficially here today.

Although Dworshak made no personal announcement, it was reliably reported that Republican leaders have urged him to run for office.

Mr. Dworshak today was "considering strongly" the possibility of entering the race. If he carries out his intention, he would be the first entered by Idaho Republicans in the gubernatorial contest.

Two Democrats

Already announced as candidates for the chief executive post in this state are Lieut.-Gov. Charles Gossett of Nampa, and Gov. Barzilla Clark of Boise. Both are running on the Democratic ticket.

Mr. Dworshak has ranked high in the inner Republican circles and many believe that he has been on the instant urging of top GOP leaders that he enter the race that he be considered for the governorship, the reports here stated.

Tried for Congress

Dworshak sought the post of U. S. congressman from this district in the 1928 election and easily won the Republican nomination in the district. He lost to W. Worth Clark in the fall finale.

At the present time, Mr. Dworshak, aside from handling his Burley newspaper, is interested in the Idaho Commuter, an Idaho Falls weekly. He is district governor of the Rotary club for Idaho and Idaho, and has served as a trustee of the United States at the world convention.

DEFEAT OF BLUM ASKED ON FRENCH INFLATION POLICY

OPPOSITION SAYS U. S. EXPERIMENT PROVES FALLACY

By RALPH HENNEY
 FRIDAY, April 6 (Special)—Asserting President Roosevelt's "experiment" in inflation, the French-American opposition leader attacked the popular front government in the number of deputies today and demanded a procedure in favor of one calculated to restore national confidence.

Franklin, leading off for the opposition against Premier Leon Blum's finance program, including emergency measures to revalorize the franc. The French-American leader, who is a member of the Chamber of Deputies, attacked the popular front government in the number of deputies today and demanded a procedure in favor of one calculated to restore national confidence.

"President Roosevelt's experiment," he said, "proved the danger of a new kind of inflation, the kind of inflation which is being practiced by M. Blum's bill. The bill points toward a totalitarian economic regime which would progressively eliminate the political freedom and result finally in a Christian-American dictatorship."

"At the start of his speech he had said, 'The Blum's proposals are economic and financial with parliamentary traditions. I disagree with his statement that inflation is the only means of saving the popular front from bankruptcy.'"

"Another popular front cabinet, with a new kind of inflation, is being organized. It is inadvisable that workers in national defense factories hold a sit down strike."

"This last was a reference to a new wave of sit down strikes which occurred in the United States and which, in brief, consisted of taxicab drivers. As Paris went to work the taxicab drivers were 50 per cent idle, and a 50 per cent strike was being organized for one day, against the government's policy of inflation."

"The plan was adopted largely in the 1934 campaign, and the administration had made and approved the budget for next year before the war proposition came under discussion."

"President Blum named permanent committees for the next fiscal year. The committees are: Finance, headed by A. W. Hansen; membership, George Harrison, Harry Blomer, Harry Cannon and George Kinkaid; Education, headed by George Kinkaid; Health, headed by George Kinkaid; Labor, headed by George Kinkaid; Commerce, headed by George Kinkaid; Agriculture, headed by George Kinkaid; and Public Works, headed by George Kinkaid."

Masters Sees Necessity of Reformatory

SHOHRONE, April 6 (Special)—While here during the past few days Secretary of State Ira H. Masters urged the need for a reformatory for boys and young men between the ages of 16 and 24, in order to curtail the "bread" for those who generally termed first offenders.

There is further emphasized that there is marked need in connection with the reformatory for hospital for the treatment of social diseases, owing to lack of proper treatment at the present state reformatory. The secretary cited the St. Anthony reformatory in particular, where the afflicted boys and men are seldom accepted. "These young men are sent back to their respective counties, and the chances are that they never receive proper treatment or medical attention."

Masters also believes that the warden of the penitentiary, guards and the prison board also are removed from politics and appointed solely on their fitness for the position. He favored the prisoners be kept occupied with some form of constructive labor and suggested as one item that they make the automobile license plates which cost the state at this time about \$200,000 a year.

A reformatory nursery was another proposal. Enlargement of the pardon board to five or seven was also favored. Masters spoke to the Rotarians.

Snow Average Remains High In Sawtooths

Although spring is here and summer isn't too far off, snow depths in the Sawtooth country are still at substantial levels and declined only slightly in the week which ended Monday.

That was the gist of the figures announced in the weekly report of P. B. Moore, Sawtooth national forest supervisor.

Snow levels at Ketchum as of April 4 were 39 inches, a drop of one inch. Hailley had two inches and showed 20; Galena had 19 inches Monday as against 7 1/2 a week ago; and Old Baldy stations reported from 16 to 20 inches compared with 18 to 26 the week before.

Fairfield lost three inches in the week, going down to 15 inches. Williams ranch in the Salmon river country had 36 inches April 4 and 28 on March 29.

Cumulative snowfall in the Hailley country since Oct. 1 was 120 1/2 inches as of April 4, exactly 19 inches more than one year ago and 17 inches above the average.

"He's a big nuisance at times—just an overgrown boy. Brings guests for dinner on short notice...forgets anniversaries...hides in the morning paper. But I love him. He's good-natured and generous. He loves his home. He has dozens of friends and likes to play host. He's just as pleased as a kid when he finds good things to eat and plenty of cold BUDWEISER in the refrigerator. That's one thing I always remember."

THIS CURIOUS WORLD By William Ferguson

STORKS FASTEN THEIR NESTS TO HOUSE ROOFS WITH GLUE WHEN THE SLOPE IS TOO GREAT! THE GLUTINOUS SALIVA IS MADE BY THE BIRDS THEMSELVES.

SOME PLANTS HAVE JUVENILE LEAVES OF ONE SHAPE, AND ADULT LEAVES OF ANOTHER; THE NORTHERN SPATTER DOCK IS AN EXAMPLE.

THE WORD "BEESTEAK" AS BORROWED BY THE SPANISH, BECOMES "BEESTAY" (SPELLLED "BISTE").

The storks of Baghdad build their nests on the domes and minarets of mosques. Since the roofs are quite sloping, they hang the nests from the three balls on top, and here the glutinous saliva is used to cause the nest to stick to the glazed tiles.

Farmers Must Sign Union Contracts

REFUSAL TERMED AS VIOLATION OF WAGNER RULING

WASHINGTON, April 6 (U.S.)—The national labor relations board ruled today that an employer's refusal to sign a contract with a union constituted a violation of the Wagner act.

Holding that a written agreement between employer and employee is an "integral element" of the collective bargaining process, the board ordered the Inland Steel company, Chicago, to bargain with the steel workers organizing committee and, if agreement is reached on wages, hours and other conditions of employment, to sign a contract with the union.

The decision established a new and far-reaching precedent under the Wagner act and upheld the contentions of John L. Lewis' committee for industrial organization in the bitter "little steel" strike last summer.

The ruling was confined to the Inland company but was believed to be the forerunner of similar decisions against other independent steel companies which have refused to sign contracts with the C. I. O.'s steel union. The issue almost certainly will be decided eventually by the supreme court.

Other independent steel companies which have refused to sign contracts with the C. I. O. include Republic Steel corporation, Bethlehem Steel company, National Steel company, Youngstown Sheet and Tube company, and Watrous Steel company. They produce about 25 per cent of the nation's steel.

The labor board's decision emphasized that employers are not compelled to agree upon any particular terms with the union, but that they are required to accept the procedure of collective bargaining, which, it was held, calls for a written contract.

Great Agricultural Association has held that the decision did not, by implication, make oral agreements unlawful if they are satisfactory to both employers and workers.

All three members of the board—Chairman J. Warren Madden, Donald W. Phillips Smith, and Edwin B. Smith—agreed on the decision. Madden, who presides, in issuing the written agreement, are merely setting up a procedure which is to be followed as a matter of course from those with whom the union is bargaining.

The board held that the Inland company had "unlawfully sponsored and supported" the Steel Workers' Independent Union, Inc., and that it was in violation of the act.

Food is Being Is Essential In Diversion

WASHINGTON, April 6 (Special)—James C. Hays, secretary of the U. S. War Relocation Authority, announced that he has received a letter from the state supervisor at the state of the farm diversion program. This week containing an important reminder to all persons in Japanese society who have been diverted to the camps.

The letter stated: "As the feeding program is rather far advanced it is essential that all persons in the diversion program be notified that the actual feeding of the diverted persons is being paid a diversion payment and that during the war it is essential that the feeding of the diverted persons be continued."

The state supervisor has been authorized to require additional evidence in doubtful cases and in question service has been notified that they should not give or continue to give any food to the diverted persons in cases where they doubt as to the ability of the person who is making the diversion to feed the diverted person or to dispose of them to someone who will actually feed them. This means that where there is doubt as to whether the person who will be actually fed or not they will be graded and measured and reported into this office.

Following this action the investigation will be made and proof of actual feeding may be required before certification of payment.

Farmers and Stockmen Find Weather Favorable

BOZEMAN, April 6 (Special)—The newly started wet and windy weather despite a slight rain Monday, in the grazing areas has been reported as growing as fast as the grass. The weather, and the farmers, many of whom have been able to continue field work, are pleased. The weather is being reported as being favorable.

The Montana and officers of the Red and Green club cite that upland birds were in exceptionally large numbers during the winter. The presence of many beautiful pheasants, quail and other birds in the landscape district indicates that the birds are busy on their nests in the more favorable weather.

The club plans resumption of its activities and a general program that will work out the proper balance between the game and the game laws.

Utahn Hears Idaho Offers Land Galore

SOMEbody in Salt Lake City has an idea that there are a mere 10,000 acres of virgin Idaho land waiting around for settlers.

They're also under the impression that Ketchikan and Sun Valley are in Twin Falls county.

Here's a letter received by Frank J. Smith, county recorder and auditor, from Alice J. Harris, Salt Lake City:

County Seat?

"We were told Twin Falls was the county seat which the place called Ketchikan and Sun Valley were located.

"A few weeks ago we heard over the new radio station K2GT at Pocatello, Idaho had some 15 million acres of virgin land open to the public.

"Can you tell me what you have in your county available on or near a lake and preferably near Ketchikan for we would be near Sun Valley. And if so how can we go about it to see it and procure it, and price of same, terms or cash? Under irrigation project or where irrigation can be had. And what the land is best suited for. We prefer mixed farming.

"Now about Sun Valley. Who owns all the land up in there? There are a number of us interested in having a good sized place up in there. Who can show it to us and of whom do we get this land from, also water?"

Harris Reply

Mr. Smith today had dispatched a reply informing the Utah questioner that Twin Falls is about 120 miles away from Sun Valley, and that many of the land also had heard about was the not-too-hopeful Brunson track, which isn't anywhere near Sun Valley. He advised her to write to Brunson headquarters at Boise.

As for Sun Valley, Mr. Smith replied that the Union Pacific owns it, and that private persons hold the lands around it, and that anyway there isn't any farming up in that neck of the woods.

JEROME, April 6 (Special)—Funeral services were conducted Monday afternoon from the Wiley funeral home, at 2 p. m. for William H. Colant, 64, colorful pioneer and veteran cattleman of the northwest.
