IF YOU OWN WHISKEY BLENDED IN THE OLD DAYS
Compare it with Crowns
Qualified experts have proved that Seagram's 5 and 7 Crown are better tasting than the famous blended whiskies of the old days.
At a cost of \$25 a quart, Seagram recently collected different brands of blended whiskies—famous premium whiskies of the old days... and asked its staff of qualified experts to compare them, side by side, with Crowns.
The result? Crowns were judged far superior to every single brand... smoother, milder, better tasting. Craftsmanship counts! For sure generations the House of Seagram has been famous for the skill of its master blenders. That's why the finer taste of Crowns is so popular today! Actually, over 129 million bottles of Crowns in all sizes have been sold since 1934. Think before you drink... say Seagram's and be sure.

JUDGE CONSIDERS ACCIDENT APPEAL
District court appeal by Victor G. Swanson, seeking to reverse a state industrial accident board decree which refused him compensation for injuries was taken under advisement today by Judge J. W. Porter.

CZECH-NAZI TROUBLE MAY BE SETTLED IN ROME, LONDON

VISIT OF FRENCH, GERMAN LEADERS MAY END BATTLE

By JOE ALEX MORRIS
United Press Staff Correspondent

The immediate trend of European latest crisis arising from Nazi demands upon Czechoslovakia may be decided within the next few days in quiet conference rooms at London and Rome.

French Prime Minister Edouard Daladier will confer with British Prime Minister Neville Chamberlain, starting tomorrow, and German Chancellor Adolf Hitler will journey next week to Rome for a state visit to Premier Benito Mussolini.

The result of those conversations will influence the course of the Nazi struggle for domination of central Europe.

May Test Alliance

The outcome may decide the extent to which France will back up her military alliance with the Czechs, who recently have been given a slight hope of effecting a settlement which would clarify the effect of Britain's new foreign policy on the Balkans, which appear likely to be sacrificed to the Nazi orbit as the price of stabilizing European peace. It may indicate the future of the Rome-Berlin partnership, which Britain has sought to weaken by its friendship with Italy and by extensive rearmament.

At Prague, the Czech cabinet appeared to be delaying official action on the Nazi minority demands for autonomy and for close relationship with Germany until after the London conference. Actual military action by Germany against Czechoslovakia is not generally considered likely except as a last resort. There is little question that the Czechs would fight and probably would fight well for a time against overwhelming odds. But the means for economic strangulation are available to Germany and presumably would be entirely effective.

Prepared to Fight

In Washington, however, Czech Minister Vladimir S. Hurban has notice that his nation is determined to maintain her democratic principles and is "fully prepared to meet economic strangulation as available to Germany and presumably would be entirely effective."

Prepared to Fight

The London conferences formally will consider plans for a French-Czech military pool to coordinate and strengthen their rearmament program and to give force to their diplomatic efforts to offset the Berlin-Rome axis.

In this effort to put strength behind the peaceful policy of the democratic nations—including the United States naval building—an indication was given in Washington and London on the tremendous cost involved. The British budget message

Students See Real Pelican And Find It 'Wondrous Bird'

"A wondrous bird is the pelican. His mouth holds more than his bellican; He takes in his beak enough for a week But I'm d— if I can see how the bellican." (Author Unknown)

And junior high school bird club members were discussing all that and more at close range today as they examined a large pelican brought in to Miss Fannie Amey by John Kinder. The bird was brought in from Salmon dam where the boy found it dead Sunday.

The specimen secured is unusually large and measures 80 inches from tip of its beak to the end of its tail. Each wing is 42 inches long and the beak 17.

Miss Amey is instructing the nature classes on the birds, pointing out that they breed on islands usually in fresh water and live on small fish and the slow fish such as suckers. The birds are not usable for food and do no harm to fishermen as they do not disturb trout. The club advocates the preservation of the pelican for its conspicuousness and peculiarity.

If possible the group will keep the huge white bird and have it mounted for use in future studies.

CLUB ARRANGES BANBURY SWIM

A swimming party on May 6 at Banbury was planned by the French club members as they met in session yesterday afternoon.

Each member will take a lunch and if candy is bought it will be purchased from the Girl Reserve supply at the school.

Announcement was made by Miss Margaret Seethoff, club adviser, that two French films would be shown for the French students next week. Miss Seethoff will translate the captions and French dialogue. "Paris," and "Along the Loire River," will be shown for the group.

SURVEY SHOWS AGE OF PIANOS

The average age of the piano in the American home is 18 years, Paul E. Anderson of the Electric Appliance and Music shop, said today in announcing the results of the first piano census taken in this country. Home owners in 11 cities were visited.

It was found that there are 5,885,298 pianos in the United States, and that 53.4 per cent of all self-dependent families own pianos. Nearly 10 per cent in active use are over 30 years old and one out of every 100 are 50 years old.

Heads of 788,859 families said they were considering the purchase of a piano.

WRITING CLASS PLANS BOOKLET

Writings of the creative writing class at Twin Falls high school will be collected and the best examples, with at least one from each class member, will be incorporated in a booklet. Assembling of the material and printing is being done by the Fourth Estate society of the Quill and Scroll, local chapter of the national honorary.

Bound with a green cover and mimeographed with illustrations done by Carl Dosselt and Jean Jones, the issue will be ready for distribution by May 11. The group plans to print about 100 copies, allowing two copies for each of the faculty members and students of the class.

Members of the class are Armour Anderson, Martha Ashby, Harley Barnhart, Mildred Bragg, Mary Buckmaster, Wanda Eaton, Leonard Fields, Lee Rue Hollman, Roland Hutchinson, Jean Jones, Theron Knight, Jeanne Lynnes, Birdella McClain, Betty McComb, Paul

BRUIN HONORS SENIOR CLASS

The last issue of the Bruin this semester will be a special senior edition and a copy will be printed for each member of the graduating class. It was announced today. The publications will be delivered to the senior members whether they hold a student body ticket or not. Mrs. Mercedes Paul, adviser, announced that this procedure would make it necessary for the staff to print at least 100 extra copies.

This copy of the paper, the tenth this semester, will be distributed on Monday, May 16, which has been set aside as senior class day.

FILES, DIVORCE SUIT
BURLEY, April 27 (Special)—Elsie L. Scott filed suit for divorce against Welding Scott Saturday, giving mental cruelty as grounds for the separation. Mrs. Scott asks for restoration of her maiden name, Elsie L. Mecham.

O'Leary, Beulah Rose, Julia Shepherd, Myrlam Selber, Luke Sonner, Harriet Stansbury, Phil Thornburg, John Waters and Carl Dosselt.

COMMENCEMENT SUBJECTS CHOSEN

Students who will speak at the commencement exercises for graduating class of Twin Falls high school for 1938 at 8 p. m. on May 19 announced their topics today.

The five outstanding students in scholastic achievement were selected for the honor and each will speak five minutes.

Virginia Kerlin has chosen, "Education and Democracy," as her topic. Ed Benoit will speak on "The American System of Government—What Will We Do with It?" Asher W. Wainwright has picked for his talk, "America—Fortunate in 1938." The other girl, Lucille Tinker, will describe, "My Ideal Future America," and Bert Tolbert will conclude with "The Individual and Society."

CONVICTED AT BURLEY
BURLEY, April 27 (Special)—Rusty Robinson was convicted of petty larceny in the probate court here Saturday. He was fined \$107.80, \$32.30 of which was suspended.

Pupils Give Aid to Bird Found Hurt

Bird Club members at the Junior high school are playing fairy godmother to a small horned lark this week. The bird was found with a broken wing and brought in and placed in a cage. It will be released as soon as the broken wing is mended—Miss Fannie Amey, sponsor of the group stated.

The bird, a little smaller than the meadowlark, is often mistaken for it because of the yellow coloring on the throat and around the head. The yellow is of lighter color though and does not extend down onto the breast. The lark takes its name from the black feathers growing on each side of its head. These, viewed from the front, resemble small horns.

The class is also interested in a sharp shinned hawk, which is being mounted by M. R. Throckmorton, junior high instructor. This hawk

is known as a highly destructive bird and is one of the few that is permissible to kill.

LIBRARIAN VISITS BURLEY
BURLEY, April 27 (Special)—Mrs. Julia Olmstead of Boise arrived here during the week-end to assist in reorganizing the public library. Mrs. Olmstead, state traveling library official, will be here two months, being sent by the adult education program of the state. She received her degree in library science from Riverside library school in California and has had 12 years of practical experience.

"Step Down" Rates make ELECTRICITY the Biggest Bargain in Your Home!

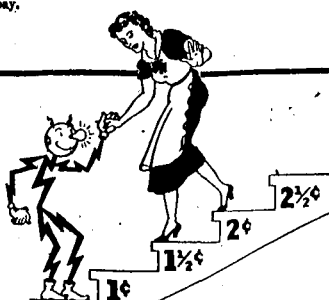

Seldom do the necessities of life grow cheaper as you use more of them.

But that's true of your electric service, under "step down" rates. The more you use, the cheaper the rate becomes. As you add more appliances—save more time and labor—gain more in comfort and convenience—you earn a progressively lower electric rate. And the additional use which you have added last comes at the lowest rate of all.

And, too, if you reduce your use of electric service, the saving comes at the lowest rate. Your average rate paid for all service rises. You lose the best part of your bargain.

Electricity is cheaper in Idaho than almost anywhere else in the nation. That's why our customers have accepted its advantages so fully—and why they use more electric service than most people.

Use electric service freely—secure in the knowledge that the more you use the lower the average rate you pay.

After You've "STEPPED DOWN" Your Electric Rate DON'T STEP BACK

Your electric rate becomes cheaper as you use more electric service.

IDAHO POWER
Electricity Does So MUCH—Costs So LITTLE!

KTFI PROGRAM 1938. 1,000 gratis (Clip for reference This will not be repeated).

WHY ALWAYS—NEVER WASH DISHES! Pot Shots: Speaking of the mishaps that befall young ladies, here you hear about the girl who got washed by a certain local lad who decided to wash plain dishes in Alphonse creek down at Blue Lakes resort.

THE SURVIVORS of the preliminary eliminations in great shape. Alvin Pala and the others running well to the front.

Filler Theatians to Give Little Women. FILMS, April 27 (Special)—An all-school play will present "Little Women" at the school auditorium today.

Movie Scrapbook. By Bill Porter. Caricatures by George Scarbo. Trade Mark Registered U. S. Patent Office.

ON LADIES AND SCALDS. (By Ed. Larkin, in Battle Creek) A woman is one of those strange creatures who weigh themselves on a downtown P. O. scale.

At the regular session of the city council on April 26, the fire limits were slightly changed to conform to the changing conditions. Ordinance No. 98 of the city was revised and the fire limits are as follows:

Before we knew the cause of scarlet fever, there was not available any sort of test by which it could be determined whether or not the exposed person would catch the disease.

Boxing and works OUT WITH THE PUNCHING BAG. RANDOLPH SCOTT. PLAYS MOSTLY WESTERN ROLES AND LIVES THEM.

THE CITY OFFICIALS are fully aware of the seriousness of this condition, but are at a loss as to what can be done, in view of the public's attitude at the polls.

THE GENTLEMAN in the Third Row. THE GENTLEMAN in the Third Row.

You May Not Know That. There are only three more "shopping days" until the deadline on use of 1937 auto license plates.

It's a good habit to talk about himself. Randolph Scott to talk about himself.

FAMOUS LARV LINE. I said she couldn't fix her hair that way — so she did it. THE GENTLEMAN in the Third Row.

MAGIC VALLEY HUB FOR FARMING, SHIPPING, RAIL SHIPMENTS

Rail Shipments Of Farm Goods Reveal Variety

Twin Falls county's wealth is exemplified in the great variety of produce and other articles of merchandise which is shipped to points over the nation.

A barometer of business conditions in this country, the heart of the Magic Valley which includes the finest irrigated land in the United States, is maintained by the Union Pacific railroads through statistics of car shipments compiled by Frank Haasch, local agent.

With rail service available both into Nevada and from there to the southern and central Pacific markets as well as into southern Idaho and from there to eastern and southern markets, the wealth of the section more readily.

Diversified List Complete shipping totals (in car-load lots) are available in Union Pacific records and those of 1937 show a great variety of shipments.

Heading the list, of course, are the products of the soil including wheat, beans, peas, hay, apples, prunes, potatoes, onions, alfalfa and clover seed, sugar and processed agricultural products. Next in importance comes another product of the soil—being the cattle, wool, sheep, hogs and horses.

Of the primary soil products, Idaho's famous potatoes led during 1937 with 789 carloads of them being dispatched to markets over the nation. In the other product of the soil bracket, 468 cars of cattle rolled over the Union Pacific rails to market.

Merchandise, Too Not to be outcasted, local merchandise contributed 1,303 carloads to trains leaving the county. In addition to this there were 170 carloads of miscellaneous commodities such as eggs, machinery, scrap iron, household goods and such items.

A glance at figures compiled for Union Pacific records would convince even the most skeptical that this country, in the heart of the great agricultural region, is a fertile field for industrial enterprise.

Following are the complete car-load shipments out of Twin Falls during the year 1937. These figures, of course, do not include the great quantities of materials and produce shipped by truck, either private or incorporated:

Table with 2 columns: Commodity and Cars. Includes Wheat (146), Flour-Mill Products (208), Beans and Peas (812), Hay (19), Wool (3), Apples (127), Prunes (8), Hides and Tallow (20), Potatoes (789), Onions (377), Cattle (483), Hogs (49), Horses (17), Sheep (201), Processed Agricultural (126), Misc. Commodities (170), Sugar Beets (181), Local Merchandise (1,303), Total (4,981).

Airport Situated in an ideal location, the Twin Falls municipal airport is located on a direct compass course from Salt Lake City to Boise.

Because of its altitude above the pestil valley in which the city is located, it is free of fog and air-ford landings in almost any type of weather.

At the present time two runways are usable but under a long range building program and entire 400-acre airport will soon be in condition for any type of plane.

Drainage is afforded and the field dries quickly after a rain or snow.

A hangar is maintained at the field, located approximately six miles south of the field. It is the home port of the Idaho Pilots' association.

help available, and is used to cut the cost of agricultural production.

Idaho Power company's low electricity rates have been reached by a series of rate reductions which began in 1927.

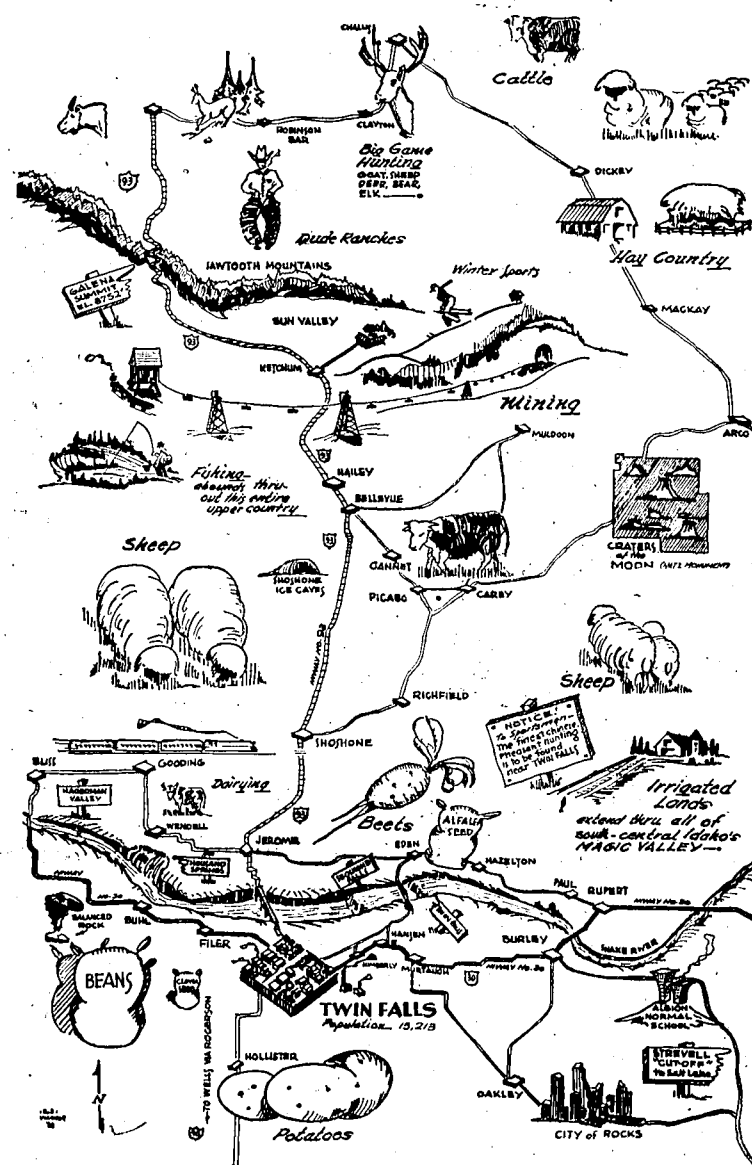

Progress in rural electrification here has been accomplished over a period of years and the rates are uniform between town and country.

Low electricity rates have encouraged farmers to buy and use refrigerators, ranges, water heaters, radios, pumps, milking machines and other kindred appliances to lighten labor.

The average cost of electricity for domestic use in 1937, when it applies to farm homes, was three cents per kilowatt hour. This figure is considerably below the national average.

Electric service is not a luxury to the farmer of southern Idaho, in spite of its advantages for the farm home. It is the cheapest "hired

THE MAGIC VALLEY

RANGE CONDITION BEST SINCE 1931

The condition of Idaho ranges on April 1, as reported by stock men, was the highest for this period of the year since 1921.

Moisture conditions are the best in many years and prospects are excellent for spring ranges soon as the warm weather opens up.

The irrigation water supplies are expected to be better than for several years, especially in areas which have been running short of late water in recent years.

The condition of Idaho sheep and cattle, although still good, was lower on April 1 than a month ago.

Building Totals Soaring Upward

The largest winter wheat crop produced in Idaho since 1920 is indicated by information available to the U. S. D. A. Bureau of agricultural statistics.

The combined conditions have been unusually favorable since last fall, resulting in an indicated high abandonment of fall seedlings and in an unusually good condition of the first of the month.

The Magic City led all Idaho cities in building permits granted during the month of November, construction valued at \$283,620 being approved.

The two new schools are so modernly and beautifully designed that one's mind registers with awe and admiration.

During 1937 \$681,463 worth of buildings were constructed, being divided as follows: new dwellings, \$212,179; all other new structures, \$469,284; repairs and remodeling, \$28,000.

Classified figures for 1938 reveal that 16 permits in January were valued at \$15,225; 12 in February, \$9,075; 17 in March, \$61,200; and 17 to date in April, \$50,675.

New Homes in Twin Falls for 1938 and 1937 totaled 242, 126 other new structures being built. Repair and remodeling jobs for the two years are listed as 281, 16 to April 20 this year, 26 new homes have been started on permits, 12 other new buildings and 23 repair and remodeling jobs.

IDAHO WHEAT AT EIGHT-YEAR HIGH

The largest winter wheat crop produced in Idaho since 1920 is indicated by information available to the U. S. D. A. Bureau of agricultural statistics.

The combined conditions have been unusually favorable since last fall, resulting in an indicated high abandonment of fall seedlings and in an unusually good condition of the first of the month.

The Magic City led all Idaho cities in building permits granted during the month of November, construction valued at \$283,620 being approved.

The two new schools are so modernly and beautifully designed that one's mind registers with awe and admiration.

During 1937 \$681,463 worth of buildings were constructed, being divided as follows: new dwellings, \$212,179; all other new structures, \$469,284; repairs and remodeling, \$28,000.

New Homes in Twin Falls for 1938 and 1937 totaled 242, 126 other new structures being built. Repair and remodeling jobs for the two years are listed as 281, 16 to April 20 this year, 26 new homes have been started on permits, 12 other new buildings and 23 repair and remodeling jobs.

Twin Falls and Southern Idaho Hold High Rank Rich Yields Found Throughout Region

Farming is the backbone of the west—and in farming, the Twin Falls region ranks among the richest in the nation.

Located in the heart of the world's largest irrigated territory, Twin Falls county produces exceptionally large yields of crops by its ranchers. The county, when considered in combination with the exceptionally productive sister-counties surrounding it, forms the hub of Idaho's greatest farming tract.

As a result, the city of Twin Falls is the major trading center for an area of almost 76 miles in radius.

Farming land within Twin Falls county itself consists of 241,000 acres of irrigated land and about 2,000 acres of dry-land farming. The irrigated sector of the county is composed of seven main tracts, one of which is the Twin Falls South Side Irrigation district.

With irrigation removing the worry that furrows the brows of farmers in almost all other parts of America, the Twin Falls tract offers ideal conditions. During the 25 years in which this project has been in operation, there has never been a water shortage.

Water for the Twin Falls South Side, Minner Low Lift and Clover districts, is pumped from the Snake River—nearly Snake River—which, incidentally, is termed the outstanding trout-fishing stream in the nation.

Principal crops grown in Twin Falls county are potatoes, wheat, corn, clover and alfalfa hay, sugar beets, apples, oats, apples, small fruits, peaches, walnuts, etc., forming a major source of income, consists of dairy cattle, sheep, hogs, beef cattle and poultry.

Instances of fertility of the ground was cited by White who pointed to records showing that 20 acres of red clover brought a return of \$160 to the nation's "100 acre plot" of ground on the same farm produced potatoes in the value of \$100 to the acre.

Another size of a farm in Twin Falls county, White's records show, varies from 90 to 140 acres with the largest at 640 acres.

This 640 acre plot, which is one section of land, is not the greatest amount of land owned by any one person in the Magic Valley.

Reports from the county agent show that the average yield of crops in Twin Falls county, the yields were materially added by a very favorable period of 28 days, and another characteristic of this region. Frost free period is often exceptionally long, and the summer months are unusually long.

Building Booms In the City of Twin Falls building operations are continuing apace. Areas are springing up in all sections of the city and areas which were formerly vacant are now populated with permanent families.

Some of inquiries are received pertaining to available lots for building construction, especially those sections of "white homes", the General outlook for real estate lines was termed encouraging by Mr. White who again referred to the fact that the city and the county have "faith in their lands."

Trout fishing on the Snake River, which crosses Twin Falls county on its journey from the mountains to the sea, is one of the year-round attractions unique in the history of Idaho.

And as long as the Snake River, the best trout fishing is to be had in Idaho, because of the abundance of fish and fine fish hatcheries, it is taken for granted.

And of all the available areas for fine trout fishing, not more than one acre and a necessary few more land can be taken; cash payments of \$25 per acre, balance in installments, 6 per cent interest.

Farm Prices At the present time, farm land may be purchased at various prices, ranging generally from \$100 to \$200 per acre, although some go even higher.

Illustrating prices at the start of the tract in this item from the first issue of the first newspaper, the Twin Falls News, of Oct. 25, 1904: "Land sells for 60c an acre, which goes to the state; water rights cost \$25 per acre, and is necessary here."

Upland birds, principally quail, are abundant in the county and neighboring areas. The quail season is open from May 1st to September 30th, and the quail season is open from May 1st to September 30th.

All in all, the Magic Valley is a land of opportunity and abundance, and it is necessary here to secure permanent, for one reason or another. In waters where perch abound, the fisherman can "try his luck" any day in the year—there is no season in the Magic Valley.

AGRICULTURAL INDUSTRIES FLOURISH IN TWIN FALLS

BIG SWIM POOL RECREATION AID
new 30-acre recreation ground on which development is now getting started by Junior Chamber of Commerce. Riding horses rented at reasonable terms. City park system offers picnic and recreation area; two large parks, one smaller park. In addition, Shoshone falls park provides unique region outside city and adjoining one of America's most famous waterfalls.

MANY CLUBS ARE LOCATED IN CITY
Twin Falls is a community in which organization-minded citizens desiring to work in harmony with fellow residents can find full play for their inclinations. The numerous groups offer excellent opportunity for friendships to newcomers. A list of organizations as prepared by the Chamber of Commerce: American Association of University Women, American Legion and auxiliary, Bridge and other social card clubs (more than a score), Boy Scouts (a number of different troops), Business and Professional Women's club, Camp Fire Girls, Dancing clubs (several), Daughters of the American Revolution, Disabled American Veterans of the World War, and the chapter auxiliary.

SAWTOOTH AREA AND SUN VALLEY ARE ATTRACTION
Ideal outdoor recreation—fishing, hunting, winter sports, etc.—is offered by the Sawtooth mountain area and the famed Sun Valley development. Both are within few hours' motor car run from Twin Falls.

Flour, Sugar and Cheese Factories Top City's List
Industries in Twin Falls serve principally consumers in the county and in south central Idaho, but some of the larger mills and factories find markets from coast to coast. The city is the hub of a great irrigation district and farming center, and industries kindred to agriculture have flourished.

AIR TERMINALS GOAL FOR CIVIC, BUSINESS HEADS
Realizing the present and future importance of transportation by air, businessmen and officials of Twin Falls are laying down a long range program for the development of an air terminal planned along modern lines.

Churches
Twin Falls is a church-minded community, and the influence of the churches plays an important part for good. List of churches and similar groups as prepared by the Chamber of Commerce: Ascension Episcopal, St. Edward's Catholic, First Baptist, First Christian, Methodist Episcopal, First Presbyterian, Latter Day Saints tabernacle, Nazarene, United Brethren in Christ, Bethel Temple, Christian Science, Immanuel Lutheran, Mennonite Brethren in Christ, Seventh Day Adventists, First Pentecostal, Church of the Brethren, Salvation Army.

Climatic Data
(Average for past 8 years)
Average temperature — 48.7 degrees F.
Highest temperature — 105 degrees F. (July 20, 1931).
Lowest temperature — 24 degrees F. below zero (Feb. 9, 1933).
Mean precipitation per year—7.38 inches.

MANY OTHERS
For a complete list of all industrial firms—all of which are important but many of which are omitted here because of lack of space—contact the Twin Falls Chamber of Commerce. That office also can furnish a complete list of retail places and full data on all other civic activities.

Farm Implementations
Several concerns manufacture farm implements. Krengett's Hardware and Machine Shop builds the famous Colorado corrugators for alfalfa and sod land, which are used extensively throughout irrigated tracts in all western states.

Trading Area
Retail trading area of Twin Falls, radius in miles—north 110; east 80; west 65; south 60. Most important cities and municipalities, and their estimated populations in this trading area are: Boise (2,000); Teton (1,000); Shoshone (1,500); Burley (8,000); Gooding (2,200); Jerome (3,000); Halsey (1,200); Rupert (3,200).

Newspapers
Two daily papers—Idaho Evening Times, afternoon paper; Twin Falls News, morning paper. The only daily papers in south central Idaho. Both serve the entire eight-county south central area and both carry larger volume of community news for their entire service area than any other dailies in Idaho.

Varied Facts and Figures About Twin Falls and the Magic Valley

Twin Falls City Facts

General Facts
Portinent facts and figures about the City of Twin Falls
Area of the city is 1,266.56 acres

Police and Fire

A police department is maintaining a force of 30 men as well as one chief of police, one police officer, one night sergeant and one dog assistant. Three police cars are available and are available day and night.

Water

Water for domestic consumption in the city is filtered and purified at a public plant located 37 miles south of the city.

Schools

Three public elementary, one parochial elementary, one public high school and one public senior high school. Combined teaching staff reaching 400.

Building Facts

Over one million dollars worth of building construction and repairing has taken place in 1932. The year 1933 was Twin Falls' largest building year—\$1,463,367 was expended.

Industries

Industries kindred to agriculture have flourished. The Amalgamated Sugar company with government subsidies paid out \$2,470,000 in 1932.

City of Rocks (GOODING)

One of the most famous ranches in the area is the Perrine ranch, nestled in the Snake river canyon and including the also-famous Blue lakes.

MAGAZINE TELLS LURE OF IDAHO'S VARIED WONDERS

An international highway exists from Mexico, Mexico, to Roosevelt, Canada. Just over the Montana boundary line, and runs almost due north and south. It is called the Four States highway and cuts a varied cross-section through some of the West's most interesting and scenic country.

Milner Dam

Less impressive than some other dams in the state, Milner dam, nevertheless, marks one of the most important of the reclamation projects of the world. Undertaken by the Twin Falls Land and Water company, it is 22,000 feet long and 125 feet high.

"Rim" Bridge

The Twin Falls-Jerome bridge, the most impressive one in Idaho, has a cantilever span of 1,350 feet, and is completed in 1926. It is 47 feet high and is the third highest bridge in the west.

Thousand Springs

In the fertile Hagerman valley lies another phenomenon of nature—the Thousand Springs. Here a single hill has her famous ranch, which is internationally known for its blooded Guernsey cattle.

Hunting and Fishing

Finest fishing in the United States within easy reach of Twin Falls. Sporty trout streams include Snake river, called the best in the state. Black bass fishing is popular in the Salmon reservoir where planting has now started.

Perrine Ranch

One of the most famous ranches in the area is the Perrine ranch, nestled in the Snake river canyon and including the also-famous Blue lakes. The place is set in a scenic corridor seldom equaled except in literature.

Craters of the Moon

The Craters of the Moon is another exclusive Idaho beauty feature within easy reach of Twin Falls. The strange site is reputed to be the last one on North America.

Land Marvel Draws Thousands to South Idaho

Farmer Harley A. Robertson, of Bohi, gazes into the huge void that formed on his ranch by reason of the naturally occurring "crater" that started in earnest in spring of 1927.

Stores

Mercantile establishments of Twin Falls are ranked among the finest in Idaho. Department stores, specialized apparel shops, hardware stores, implement stores, shoe stores, floral shops, drug stores, refreshment establishments, furniture stores, gift shops and scores of others in every line of retail trade are included among the one-way places of business.

Shoshone Ice Caves

En route to the Sawtooth range of the Rockies are the Shoshone Ice Caves, another scenic wonder. The caves are really a series of craters that cover a quarter section of land and lie against a rampart of volcanic lava that seems to have been quite recent, geologically speaking.

City of Rocks (OAKLEY)

The City of Rocks, located near Oakley which is approximately 80 miles from Twin Falls, is one of the many scenic points of splendor and awe within easy reach of the traveler.

Homestead Lands

The good government land open to homesteaders was taken up years ago, and remaining lands are not suitable for farming because of inaccessibility and lack of irrigation water.

Balanced Rock

Northwest of the city of Castleford is a phenomenon seldom seen anywhere in the world. It is Balanced Rock—so called because that is just what it is. This curiously shaped rock has been seen against the sky from the road, or from a mountain side.

Hospital Facilities

One general hospital; several public health centers. General hospital operated by Twin Falls county with H. O. Jepsen as superintendent. Capacity beds 200. Both day and night patients. Private business steadily increasing with more county patients handled last year than ever before.

Forests

Although Idaho as a state ranks first in the nation in acreage of forests and in per cent of the state covered by forest, Twin Falls county itself offers no forest or timber land for sale and there is no lumbering industry.

Granges

Headed by the Twin Falls County Pomona, the Grange organizations are so numerous and active in this area that the county has recently climbed to the top in Idaho for subordinate Grange membership in the Pomona.

Hotels

Three large ones are Rogers, Perrine and Park hotels. Three others are: Caledonia, Reed, Idaho rooms, Shodair, Strong.

Tourist Parks

DeLuxe Auto court and service station; Fajen Auto court; City tourist park; Crabtree's tourist home; Ellis park; Evergreen lodge; Cloud O. Pratt tourist cabins; Twin Falls tourist park; Wegener's tourist park.

Average Rents

In spite of the fact that housing at a premium, the average of all rents is considered reasonable in Twin Falls. Average rent for a home—\$35 per month. Average rent for a business location—\$150 per month.

Lakes

Twin Falls county boasts of two of the most beautiful lakes in the country. They are not large, or particularly deep, but they do have facilities that make them outstanding. One is Blue lakes, in an alcove at the bottom of Snake river canyon, four miles northwest of Twin Falls.

Livestock Feeding

Thousands of head of sheep are fed on farms each winter, and the climate and feed make such projects profitable. A large amount of cattle is similarly fed during the winter, and shipped to markets at a profit.

Real Estate Bargains

10 A. extra good soil. Fair improvements. Good location, \$2,500, \$1,000 cash will handle. 4 A. with 4-room house, deep well, cistern, only \$2,000. Terms: Good 40 — \$100 per acre. Good 80 — \$135 per acre. 6-room modern house, good location, \$3,180. Terms: —Let Us Show You— F. H. R. L. FRANKLIN or GODDARD 1104 Shoshone St. W.

FARMS, SHIPPING HOLD HIGH RANK

(Continued From Page Five) has been depleted by the wind through past ages. It varies in depth to 30 feet. 2,785 Irrigated Farms - The number of irrigated farms in the county is 2,785. On these farms, agriculture is highly diversified in view of the high productivity of the soil.

40 CABINS

Prices to Suit All Fajen Auto Court West End Twin Falls, Idaho

Telephones

There are approximately 3,228 telephones operating from the Twin Falls exchange. The rate of use is considered highly favorable.

OUT OUR WAY By Williams

WILL POWER IS FAR MORE IMPORTANT THAN BRAINS... IT DON'T TAKE BRAINS TO PUT MONEY IN TH' BANK, BUT LOOK AT TH' WILL POWER IT TAKES TO PUT IT THERE AND LEAVE IT! DO YOU THINK I'D BE IN DEBT AND SLAVIN' LIKE THIS IF I HAD A FAIR WILL POWER?

I'M STILL FOR TH' BRAINS— IF I HAD TH' BRAINS, I'D WRITE A GOOD STORY TH' FIRST TIME AN' NOT HAVE TO SEND IN A THOUSAN' BEFORE ONE WAS ACCEPTED! IT TAKES WILL POWER TO WRITE A THOUSAN', AN' WILL POWER IS ALL I HAVE!

YOU GOT IT— AND HE AN'T— AND GOLDIE'S GOT BOTH— AN' NONE OF 'EM HAD ANY AND I AN'T GOT EITHER, AN' I'M NOT HAPPY— SO WHAT?

THE MOUNTAIN CLIMBERS

BUT SUPPOSIN', MR. SLAUGHTER, I DON'T WANTA GIVE UP MY LEASE AN' GET MY MONEY BACK?

DON'T BE A SAP, KID.

I'LL BE BIG-HEARTED. HERE'S YOUR ORIGINAL \$6,000 PLUS AN EXTRA TWO GRAND FOR YOUR TRAIN, DISHES AND INCIDENTALS. WODDA YA SAY, PAL?

YOU'RE SURE GETTIN' A BREAK, KID.

I'LL SAY!

BUT THIS PLACE IS A GOLD MINE. I'VE CLEAR TH' BANK IN NO TIME.

TAKE IT, OR LEAVE IT, STUPID! WE AN'T THE U.S. MINT.

MAYBE YOU DON'T CATCH ON, SONNY— WE GOT A MONOPOLY ON THE NIGHT CLUB RACKET IN THIS TOWN, AND YOU'RE RUININ' OUR BUSINESS!

EITHER YOU SELL OUT, OR WE'LL PUT YOU OUT!

YOU GOT 12 HOURS TO THINK IT OVER.

BOOTS AND HER BUDDIES

WELL, I'VE HAD ENOUGH TO DO WITH RIFFRAFF FOR ONE DAY.

NO, WAIT! Y'KNOW, I'VE BEEN LOOKIN' FORWARD T' THIS MOMENT FER WEEKS! BUT NOW THAT IT'S HERE, SHUCKS, I AN'T A BIT SORE — BUT I GOTTA IDEA.

LOOK — I TAKE A POKE AT ME, SO I CAN GET IN TH' PROPER MOOD, WILLYA, PAL?

WITH PLEASURE!

ALLEY OOP

SAY, OOP— YEH, DOOTSY. DID JIM SEE YER DINOSAUR BACK THERE ON THAT KNOLL WITH ALL THOSE FOLKS?

NOW I'VE NUTHIN' T' WORRY ABOUT.

MERBE YOU AIN'T, BUT I'D FEEL BETTER IF I KNEW WHERE WE WERE GONNA LAND!

HEY—LOOK! LAND DEAD AHEAD! IF WE CAN HOLD HER AGAINST TH' CURRENT, I THINK WE CAN MAKE IT!

OKAY, WUR— IT'S A CINCH!

AH! ON LAND AGAIN!— WOTTA RELIEF!

BOY, YOU SAID—GOSH!! MY GOSH! LOOK!

WHAT WAS THAT YOU WERE SAYIN' ABOUT LAND?

YEH, WHEN THERE'S LOTS OF IT BETWEEN US AND PLENTY T'BE SAID FOR IT!

YEH, WHEN THERE'S LOTS OF IT BETWEEN US AND PLENTY T'BE SAID FOR IT!

MYRA NORTH, SPECIAL NURSE

COME HERE, MYRA—LIME'S GOT TH' SHAKES—BABBLES ABOUT SOMEBODY WALKIN' OVER HIS GRAVE— IS IT PHONY?

I'LL SAY IT'S NOT—HE'S GOT HYSTERIA! YOU SHOULD FEEL THAT PULSE, HE MUST HAVE A STIMULANT RIGHT AWAY!

I THINK HE'LL BE ALL RIGHT NOW... BUT WED BETTER LEAVE HIM ALONE

OKAY, BUT THERE SEEMS TO BE MORE TO THIS VODOO BUSINESS THAN I THOUGHT!

YES, JACK—WE'LL HAVE TO GET TO THE BOTTOM OF THIS THE HARD WAY!

FRECKLES AND HIS FRIENDS

DID WANGLE IS GETTING IN SOME FINE WORK IN HIS CAMPAIGN TO CUT FRECKLES OUT WITH JUNIE WAYMAN...

THAT MUD IS TRYIN' TO STEAL FRECKLES' GIRL!

I NEVER WANT TO SEE HIM AGAIN! I'VE NEVER BEEN SO HUMILIATED IN MY LIFE! HOW LONG HAS FRECKLES KNOWN HER?

NOT LONG, BUT LONG ENOUGH TO FALL HARD FOR HER!

IF HE EVER COMES HERE AGAIN, I'LL CLOSE THE DOOR IN HIS FACE! HE CAN'T TRIPLE WITH MY AFFECTIONS!

HE HASN'T EVEN ASKED ME TO GO TO THE PROM!

IN THAT CASE, BABY, WHY NOT GO TO THE PROM WITH ME?

SHE AN'T THAT MAD!

Goering to Control Jew Fortunes

4-Year Plan Will be Aided By New Fund

REKLEN, April 27 (Special)—Field Marshal Hermann Goering, economic dictator, today reserved to himself the right to utilize fortunes and properties of Jews, foreign as well as German, to finance his four-year plan of economic self-sufficiency.

In a decree he prescribed that every Jew must report to the authorities the amount of his fortunes and properties, provided that they are in excess of 5,000 marks (\$12,500) in value.

German Jews must register foreign as well as German holdings. Foreign Jews are required to register only their holdings in Germany.

Registration of properties affected must be made before June 30, Goering ordered.

Those Jews whose fortunes and properties are below the 5,000 mark minimum at that time are required to register at whatever time in the future their holdings pass that amount.

Violations or attempted violations of the registration order may be punished by prison terms or by fine, or both—in severe cases by not more than 10 years' penitentiary sentence and confiscation of property.

Former West End Woman Succumbs

Buhl, April 27 (Special)—Friends here have learned of the death of Mrs. Thomas L. Baker, who was well known here. She succumbed April 14 at San Pedro, Calif., after being ill for the past three months. Mrs. Baker was the daughter of Mr. and Mrs. Newton Urbahn, who were early-day residents of Riverside. She had lived in California since 1906 and leaves her husband and an aunt, Mrs. Elizabeth Scherer, Long Beach.

Reclamation Group Will Meet Here

With outstanding speakers being contacted to appear, plans were underway this afternoon for the annual meeting of the Idaho State Reclamation groups, which will be held in Twin Falls on May 20. N. V. Sharp, Filer, president of the organization, said that 180 persons are expected to attend from over Idaho as well as from neighboring states.

Activities now underway will be explained by the speakers and plans will be made for the program next year.

FAIR BOARD BUYS GELDING SHIRES

Two gelding shires, purchased by Tom Parks, Twin Falls county fair manager, on behalf of the fair board, were getting used to their new home at the fair grounds today. The two horses will be used extensively in work on the grounds in anticipation of record crowds when the fair opens in September.

At the same time it was announced by Mr. Parks that all main roads of the grounds had been graded and graded. The roads were formerly of a dirt base.

Nuptials at Gooding Unite Camas Couple

FAIRFIELD, April 27 (Special)—Miss Fern Edwards, Portland, and J. W. Galley were married in Stoshone on Thursday by Judge Howard Adkins. They will live on the Edwards ranch east of here this summer.

Mr. Galley has been a chiropractor with offices here and at Halley and Mrs. Galley has resided east of Fairfield for several years.

ACEQUIA PIONEER PAID LAST HONOR

ACEQUIA, April 27 (Special)—One of the largest crowds to gather in the L. D. S. hall here paid last tribute to J. B. Jolley on Saturday.

The services were in charge of Bishop L. J. Lareau. Mr. and Mrs. C. A. Brewerton, Mr. and Mrs. P. B. Howell, Mrs. Rullen Moncur, Mrs. J. B. Harrison and Ray Summers sang "Sometime We'll Understand," and "Shall We Meet Under the River." Opening prayer was by First Councillor A. D. Fullin.

H. M. Cole, an old friend of Mr. Jolley, paid tribute and Stake President R. C. May spoke on his pioneering spirit and his last of Mr. Jolley's brothers, Loren and Willard Jolley, his brothers-in-law, Heber and Wallace Moncur, and cousins, Ruben Moncur and A. J. Owens, were pallbearers. Members of the Acequia Relief society were flower bearers. Interment was in Rupert cemetery.

A pioneer of the Minidoka tract, Mr. Jolley had charge of building the Paul road grade under the Utah Construction company from Bear Gulch east of Marsyville to West Yellowstone, in 1906 and 1907. He figured in the work of building and developing the project.

A pioneer of the Minidoka tract, Mr. Jolley had charge of building the Paul road grade under the Utah Construction company from Bear Gulch east of Marsyville to West Yellowstone, in 1906 and 1907. He figured in the work of building and developing the project.

UTAH COUPLE MARRIES RUFERT, April 27 (Special)—Marriage license was issued Saturday to Milton D. Alexander of Roosevelt, Utah, and Miss Anton Knight of Burley and the young couple was married the same day by Judge H. A. Boyer at his office in the county court house.

Jerome Farmers Lose on Listing

JEROME, April 27 (Special)—About \$33 was lost to Jerome county hog men in their last hog pool due to the failure of some individuals to list their hogs on time, it is stated by the county agent.

The loss arose when a bid of 48 per hundredweight for a double deck load was refused because the number of hogs listed was sufficient only for a single. A bid of \$7.00 for the single deck was accepted. Later the number of hogs brought in without listing or by late listing brought the number up sufficiently to fill a double deck car.

The Jerome county agent has announced that the final date for listing hogs for the next hog pool is noon, May 2.

WAR OPENING ON POCKET GOPHERS

With operations in the Melon valley district, near Buhl, under way this afternoon, plans were completed for an extensive campaign against pocket gophers in Twin Falls county.

After the work in the Melon section is completed, it was announced by Ben Evans, district supervisor for the Biological survey, the crew of three WPA workers engaged in the work will travel to less infested areas where the work will be continued.

Evans also announced that a campaign of rock chuck poisoning would be carried on May 5 and 6. On those dates a truck carrying a quantity of strychnine paste will visit farms which have previously requested the service.

At the present time, he said, a crew of seven WPA workers is continuing rodent control work in the Roseworth section near Castleford.
