**SENATE APPROVES AMENDMENTS TO MARITIME BILL**

**Measure Expected to Boost Employment in Nation's Navy Yards**

WASHINGTON, May 11 (UP)—The senate today adopted amendments to the 1936 merchant marine act designed to stimulate a \$1,250,000,000 construction program and stabilize labor conditions in the maritime industry.  
 The bill now goes to the house.  
 Chairman Royal S. Copeland, D. N. Y., of the senate commerce committee, contending that an adequate merchant marine is essential for national defense and development of commerce, declared that 92 per cent of the American merchant fleet of 1,400 vessels will reach obsolescence by 1942.  
 The senate adopted the amendments after hearing assertions attributed to Rear Admiral William D. Leahy, chief of naval operations, and former Chairman Joseph P. Kennedy of the maritime commission, that the merchant marine requires a building program of approximately 500 ships during the next 10 years.

The bill would:  
 1. Create a maritime labor board to mediate and arbitrate disputes upon the petition of either party.  
 2. Authorize the maritime commission to increase operating differential subsidies to American vessels upon the vote of four commissioners, instead of the entire membership as required in present law.  
 3. Permit ship construction by American lines in foreign shipyards in cases where the cost in American yards would be 50 per cent greater.  
 4. Permit the American shipbuilder to make down payment of 25 per cent of the purchase price of a vessel, in connection with commission-financed vessels.  
 5. Authorize the commission to purchase such American or foreign vessels at its may deem necessary to establish, maintain, improve or effect replacements on any commission-made routes in foreign commerce.  
 6. Establish a training system for licensed and unlicensed maritime personnel.

 SALINAS, Calif., May 11 (UP)—William H. Parsons, wealthy New Yorker whose wife, Mrs. Alice McDonnell Parsons, socially prominent heiress, was kidnaped last June, disclosed today the kidnaper sent him some of Mrs. Parsons' personal belongings to "prove she was kidnaped."  
 "These belongings," he said, "were received after I got the ransom note, and I am convinced Mrs. Parsons is dead."  
 Parsons, living on a lettuce ranch near Salinas, and studying the lettuce hydroponic business, refused to enunciate the "belongings."  
 The disclosure led to a new aspect to the sensational kidnaping which has remained one of the nation's most notorious crimes mysteries since Mrs. Parsons, kin to several wealthy New York families, disappeared from the "Parsons' Long Island estate."  
 Parsons is living quietly in a large house in the middle of a lettuce field with his housekeeper, Mrs. Anna Kupryanov, and her 12-year-old son.

**CITY'S PLANNING BOARD MOVES TO GET AID OF PWA**

Members of the Twin Falls planning commission moved swiftly this afternoon in order that the city might be able to take advantage of the anticipated passage of the \$3,054,425,000 recovery bill which would make it possible to ask new applications for PWA projects.  
 Claude Detweiler, chairman of the commission, said that members of the committee would discuss the situation "before the city council" and then would meet with the city council Monday evening to "thoroughly discuss the setup."

Action regard anticipated new PWA projects being available came after a dispatch from Washington stating that the PWA Administrator Harold L. Ickes had directed regional offices to notify municipalities and other public bodies that they immediately may submit applications for "new projects."  
 It will be the first time since last June that PWA has accepted applications for "new projects." Cities, states and counties were advised to "submit their applications without delay to PWA field offices."  
 PWA officials, in the dispatch, pointed out that under the resolution continuing the PWA now being considered in the house, no applications for loans and grants for non-federal projects shall be received or considered by PWA after next Aug. 31.

**Must Move Fast**  
 Informed of the possibility of securing PWA grants, P. G. Thompson, secretary of the Chamber of Commerce, said that "if we are to take advantage of this contemplated opportunity, we will have to move fast."  
 He pointed out that previous government requirements under the PWA called for the sponsor to put up 25 per cent of the cost with the balance being a direct grant by the federal government. Local agencies were required to vote bonds to cover their share of the cost. In most cases, he said, the federal government was willing to purchase such bonds.

**Lula Library**  
 He listed as "worthy" local projects the library, improvements of city water and street widening. The people recently turned down all three in a bond election. Another election would, in all probability, be necessary to qualify under the new PWA setup and receive the government grants.  
 Twin-Town, city finance commissioner, said people should have the right to express their desires on a ballot at another election. The entire situation and the steps to be taken will be discussed here, at the time the planning committee meets with the council next Monday evening.

**Seattle's Ministers Hit Smith Confession Method**

SEATTLE, May 11 (UP)—The Seattle Methodist Ministers' association today announced that it objected to an officer's posing as a priest to obtain a confession from Mrs. Mary Eleanor Smith for the slaying 10 years ago of Ensign James Eugene Bassett.  
 The confession was made by the 73-year-old woman after the friendship of Mrs. Smith and the priest, "won the friendship of Mrs. Smith and convinced her that she should 'make peace with her maker.'"  
 Mrs. Smith, sent a written statement to state prison authorities accusing her son, DeCastro Earl Mayer, of the murder of Bassett.  
 "Let it be clearly understood we are not sorry the confession was obtained," the statement said, "it is entirely in the way in which it was obtained."  
 "Confidence is one of the pastor's most potent weapons in doing his work and if that confidence is swept away, little can be done. People make statements of grief and misery in the knowledge that the ethics of their profession holds them to absolute confidence. The use of such means to obtain confessions will tend to destroy this recognized practice and remove from the minister one of his most valuable means of ministering to anyone in distress."

# SPANISH FOREIGN MINISTER ATTACKS FRANCE AND ENGLAND

## LASHES ATTITUDE OF NATIONS FOR ITALY FRIENDSHIP

**By WALLACE CARROLL.**  
**GENEVA, May 11 (Special)**—Julio Alvarez del Vayo, Spanish foreign minister, attacked Britain and France today for permitting Germany and Italy to intervene freely in Spain.

As he spoke, Hatis Sciasse, deputy emperor of Ethiopia, was in Geneva from London for a final effort to prevent international recognition of the Italian conquest of his country.

Police took elaborate precautions to guard the Negro against unpleasant incidents, such as the hostile demonstration by Irish soldiers in the assembly hall in July of 1934. Strong forces were posted at the railroad station and at Sciasse's hotel, the Beau Rivage on the waterfront.

In his speech to the council, del Vayo denounced the British and French attitude, deploring "the incomprehensible desertion of certain democrats."

"We have seen them conpire with aggressors without any other reaction than a superficial protest against the bombardment of open cities and the murder of women and children," he said.

"We have seen them finish by concluding with these aggressors pacts legitimizing intervention."

He predicted that the democrats soon would suffer the fate of Spain.

## Gooding Man Sends Unique Airmail List

Most interesting and unique of letters and cards received at the Chamber of Commerce for inclusion on the first airmail flight out of Twin Falls on May 19 are those of W. D. Garlock, Gooding, officials in charge of cachets said this afternoon.

Garlock's 25 letters and cards are unique because of their age. Many bear stamps which were printed long before the airplane became a reality. Others, especially among the cards, have started to turn color because of their age.

Officials in direct charge of the cachet collections say that the 23 letters and cards being set on the first flight by Garlock will be valued at more than \$100 after the flight is completed.

The flight out of here is being made to Boise as a highlight of National Airmail week, May 15 to 21.

These committee members, it was suggested, should come from among the workers themselves. Another committee was named to investigate the dismissal of Emery C. Bundy, Hagerman, from a WPA project.

At the meeting, over which Leiland Cunningham presided, it was decided to launch an investigation of the WPA Gooding supervisor with a view to filing charges with WPA officials "if findings warrant this move."

Announcement was also made that a public dance will be sponsored by the organization at the Legion hall on Thursday evening.

# Pan-American Flying Thrill To Local Man

Flying is a thrill in itself but flying for one of the most widely known and romantic of all ways, the Pan-American, is a thrill of thrills, take it from Lewis Lindsey, Twin Falls youth who is now a Junior pilot on the famous airline.

Mr. Lindsey is a second lieutenant in the U. S. navy.

Lindsey, his wife and son, Lewis, Jr., were to leave Twin Falls today for Baltimore, Md., where he will again report for pilot duty. Today to his present vacation period, young Lindsey was flying out of Port of Spain, Trinidad, to Caracas, Venezuela, for a six months period. After he arrives in Baltimore he will take the great ships of the Pan-American Airways from that city to Bermuda and return, having been transferred from Port of Spain.

South American Run

Prior to his being stationed in Trinidad he was flying for the same company from Miami to Buenos Aires.

Lindsey, who is about 25, is a son of Mr. and Mrs. C. B. Lindsey who live north of Twin Falls. He has been visiting with his parents and also made a quick trip to the Pacific coast where he "looked over" new planes being constructed there. Educated in local public schools, the flier gained necessary training at the naval training base at Pensacola, Fla. Each year, while an employe of Pan-American, he flies 900 hours. In other words out of every year he spends at least 38 full days in a pilot's cabin flying.

# REPUBLICANS CLAIM RECOVERY BILL THREATENS SOLVENCY

## PROGRAM CALLED 'INADEQUATE' BY MINORITY REPORT

By JOHN B. BEAL

WASHINGTON, May 11 (AP)—Republican members of the House appropriations committee charged in a minority report today that President Roosevelt's \$4,512,000,000 recovery program threatens national solvency.

Declaring the program "inadequate to meet the credit needs of the country," the report, filed by Reps. John Taber, N. Y., Robert L. Bacon, N. Y., and Richard H. Wiggin, N. H., says that the administration of relief be returned to the states and recommended a congressional investigation of the work progress administration.

It charged that the program, which the President said would cost about \$4,512,000,000, in reality was "part of a broad program which involves a new draft of \$6,000,000,000 upon the treasury of the United States."

### "Roosevelt Depression"

Describing the business condition as "the Roosevelt depression," the report said:

"By the unanimous verdict of responsible economic opinion, the depression flows directly from the dangerous monetary, fiscal, and administrative policies of the Roosevelt administration."

The minority concluded their report with 12 recommendations and the warning:

"What are not sufficient: Action is imperative now."

The three Republican members of the committee which drafted legislation for the administration's lending-spending program recommended:

1. That relief be administered by a bi-partisan board in Washington, with bi-partisan local administration, on the basis of federal credit grants limited to 80 per cent of each state's needs.
2. Elimination of title II of the pending bill which appropriates \$265,000,000 for the public works administration.
3. An amendment forbidding use of any moneys or PWA funds on projects competing with private business or enterprise if recommendations one and two are not incorporated.
4. Congressional investigation of administration of WPA and expenditure of relief funds—especially in Pennsylvania and other states where charges of political and financial misuse of funds have been made public.
5. Tight legal repeal of the distributed profits law and revision of "antiquated federal tax structure."
6. Elimination of tax exempt securities.
7. Reduction at once of "unnecessary and burdensome" social security taxes.
8. Elimination of "harassing restrictions and administration assaults on business."
9. Restriction of government competition with private enterprise.
10. Revision of the national labor relations act to promote harmony "and not discord, as at present," between employers and employees.
11. Recall at once of the Thomas Greenback law.
12. Elimination of waste and extravagance throughout the entire federal government to reduce expenditures and bring about a balanced budget.

## Public Forum

### PEOPLE BACK FOR ENEMIES HEAD FOR OBLIVION

Editor, Evening Times:

I am sending you a part of an editorial from the Pathfinder, a weekly non-partisan news magazine published in Washington, D. C., the capital of this nation, where congress meets and acts to construct the nation's business.

I am asking you in the interest of fair play to the man in the street, who depends for the information he gets in regard to such things, on such papers as you publish, to print this exact copy of what the Pathfinder says.

I ask this also in the interest of fair play to Gen. James P. Pope, who has steadfastly battled for the Roosevelt program in the senate of the United States, while William E. Borah and D. Worth Clark have just as steadfastly fought to nullify and destroy that program. I ask this also in fair play to the Democratic voters of Twin Falls county and southern Idaho.

Now, Mr. Editor, I want to ask you who rejoiced when this news that reorganization had been decided to us by your paper by radio and telegraph. Who but Hoover?

And renegade Democrats, many of whom rose to office on the coattails of the greatest President this nation has ever had. The man whom the voters of this nation handed a blank check in 1936 by one of the largest confidence votes ever recorded in the history of this nation. And yet we have with Hoover, shedding their coats of loyalty, traitors to Democrats such as King of Utah, Burke of Nebraska, Copeland of New York, Wheeler of Idaho, and trailing in the rear comes D. Worth Clark, with a banner inscribed "Woodrow Wilson Was Wrong. Frankly D. Roosevelt Was Right 70 per cent of the time, and I am right all the time."

Borah and Clark have been talking about what the people want, if the constitution or the supreme court is changed, the people should be heard by their own voice since 1920 has been a vote of confidence in Roosevelt. The latest in Florida was more than the two-to-one vote for Roosevelt. Will these gentlemen still insist on more referendums? Will King and Burke and Copeland and Wheeler of Idaho and Borah and Clark still align with Roosevelt's enemies and meet oblivion as sure as God almighty when he shall blot out Roosevelt, and the greatest humanitarian's spirit of all time, is marching on.

MRS. L. G. LACEY, Buhl, May 10.

From the Pathfinder, Washington, D. C., April 23:

"In many quarters last week there was a great deal of delight over the defeat of the federal reorganization bill. The delight existed not because the bill had been beaten, but because President Roosevelt had been beaten."

"It is beside the point now to ask why the historically good reorganization bill was sacrificed merely for political purposes. It is not beside the point, however, to ask what the country has gained as a result of the defeat."

"According to the more prominent interpretations the defeat of reorganization brought these gains: (1) the country's confidence was re-

## WATER RUN SET AFTER MAY 18TH

First delivery of irrigation water on the Salmon tract this season is scheduled after Wednesday of next week, May 18, according to work detailed here today from W. M. McDaniel, Hollister, Salmon River Canal company manager.

Actual date will hinge on a second canvass of water-users, to be made by ditch-riders this week, the manager said.

More water is now in the Salmon dam reservoir than was used for the entire 1937 season. The reading at the start of this week was 28.00, pointing to approximately 45,000 acre feet of water. The Salmon project used 43,000 acre feet last season. Further gradual rise is taking place at the reservoir, indicating an even more favorable supply, McDaniel said.

Survey made Monday by ditch-riders found that the ranchers' estimate of use at that time was only 91 second feet. Minimum amount which has been fixed at 125 second feet.

"Spring rains on the tract have also been a favorable factor."

## Talker Lauds Jews in Task At Palestine

Description of the plight of the Jews in Vienna and Germany—despite the general belief in pushing community settlement colonies in Palestine—formed two highlights of the informal talk before the Junior Chamber of Commerce membership meeting last night by Dr. Lloyd E. Oaks.

Dr. Oaks also pointed out the significant general belief abroad that Germany and Italy are fostering the trouble in Palestine between Arabs and Jews to harass Great Britain. Means of solving Palestine is held by Britain.

### Clever Italians

Supporting that belief, the speaker pointed out the ingenious plan used by Italy in sale of radios to Arabs.

"The Italian-made radio," he said, "are sold almost for cost in Palestine. The Arab who has been saving his money to buy a radio national, and these Italian-made radios are made so that they can only get Italian wave-lengths. As a result, Italy's propaganda reaches the Arabs."

Dr. Oaks said that his personal reaction, after touring in Europe, Egypt and Palestine, is that "extreme war exists in those regions for the food raised in America."

Difficulties of Jews in leaving Germany and what was formerly Austria are complicated by the decree forbidding them to take more than \$4 in money and more personal goods than they can carry. America is strict in admitting only those who will not become public charges, and Britain is even stricter. Palestine, he said, appears to be the Jews' best haven.

### Girl Camp to Be Staged at Heise Springs

Second annual camp for older girls will be held July 19-22 at Heise hot springs near Idaho Falls. Miss Marion Hepworth, state home demonstration leader, said today.

The older girl gathering, under auspices of the extension division of the University of Idaho, is intended for girls between the 4th and 6th grades. The camp will be set up around the four 4-8 tents and the four-day outdoor program will stress those aims.

Eligible to attend are any former Four-It girls, and girls who did not have the opportunity to share in Four-It work because they lived in cities during the time they were in that age grouping. At the first annual camp, last year, Miss Hepworth said, the attendance ranged from high school girls to young married women.

Further plans and details will be announced through district home demonstration leaders. Miss Margaret Hill is leader for the southern region.

Annual Savings to Our Customers Total \$600,000

There are many reasons why it's a privilege to live in southern Idaho or eastern Oregon - and not the least of them is Cheap Electricity. As the territory we serve has developed and progressed, electric rates have kept pace by going steadily downward. The latest reduction, April 30, saves our customers another \$100,000 a year. Rate reductions since 1927 now save a total of more than \$600,000 annually. We grow only as the territory we serve grows - and we do our part by providing electric rates that are among the lowest in the nation.

COMPARE YOUR NEW LOW RATES WITH ANY IN THE U. S.

With the reduction effective April 30, our top kilowatt hour rate is now only 5c, and all minimum bills are reduced to 90c per month.

YOUR ELECTRIC RATES ARE AMONG THE LOWEST IN THE NATION!

# U. S., BRITISH SHIPS RACE TO PROTECT AMOY RIGHTS

## JAPANESE FIGHT WAY INTO CITY, REPORT CLAIMS

By ROBERT BELLAIRE  
 SHANGHAI, May 11 (UP)—United States and British warships raced toward Amoy today as Japanese navy authorities threatened to ignore foreign rights in their attacks on the island port.

The American gunboat Asheville arrived at Amoy today, after an all night race up the coast, and was prepared to evacuate the 28 American seamen. The cruiser Maryland was known to be on its way, the destroyer Edsall was reported steaming at forced draught down the coast. Reports from Manila indicated that a destroyer flotilla might be ordered from there.

Fierce fighting was reported as Amoy. Japanese troops fought their way into a part of the city today.

## Are the Glamor Gals Slipping?

Some glamor gals of the movies are not so alluring at the box office—that's the sensational charge made by an Independent Theater Owners' association advertisement in the current issue of a Hollywood trade paper. And among those named are such "favorites" as Joan Crawford, Kay Francis, top right; Mae West, lower left; and Greta Garbo, lower right. Headed by Harry Brandt, New York City director, the association declared that many highly-paid and contracted stars are losing box office appeal because they are not the right kind of vehicles. Association officials said the advertisements should not be considered a personal attack on the stars.

**Nippon Destroyer Damaged**  
 Reliable sources at Hong Kong advised the United Press that 12 Japanese planes, in a retaliatory raid, bombarded the Japanese fleet off Sancho Island, near Hong Kong, seriously damaged one destroyer and shot down one Japanese plane.

Japanese navy authorities announced officially, a United Press dispatch reported, that 12 foreign residents of Amoy had been notified that unless strict neutrality was observed foreign rights would not be respected.

The British destroyer Diana was at Amoy, and the destroyer Dianthy was en route up the coast from Swatow, to aid the 189 Britons reported in danger.

Hide in Dugouts  
 Unconfirmed Chinese reports said that Chinese troops hid in dugouts during a bombardment of the city and then, when Japanese bombers had fled and sent a landing party ashore, they emerged and inflicted heavy casualties on a force of 500 Japanese.

Chinese report was that 70 Chinese seamen were captured and 100 wounded.

Many reports to Shanghai indicated, however, that the fighting so far had been indecisive.

Japanese navy men landed yesterday on the eastern part of the island, intending to reduce the strong Chinese fortifications there, establish a new base for themselves and fight between themselves and Hong Kong, and prevent the landing of shipments of war materials from foreign countries.

**Gooding College**

## LIFE INSURANCE ASSETS GAINING

Assets of American life insurance companies during 1937 reached a record peak of \$29,222,000, or a gain of \$1,354,484.055 or 64 per cent over the 1936 total of \$24,877,516.359. It was announced here this afternoon by Kent Tadlock, secretary of the Southern Idaho Life Underwriters' Association.

The increase is being observed throughout the nation at the present time and a general educational campaign is being carried on through various newspapers in the form of advertisements.

Tadlock pointed out that assets of the 316 companies at the close of last year had increased by more than those of other years such as at the end of 1929 when assets aggregated \$17,482,309.077 or in 1927 when they totaled \$14,391,850.883. At the start of the century in 1900 insurance company assets totaled only \$1,743,416.73, Tadlock said.

At the same time a gain was noted in payments made to policyholders. During 1937 payments made totaled \$2,449,592,636 or more than \$20,400,000 over that paid during 1936.

## JOINING HIGH NOTES ON AMENDMENTS

Amendments to the constitution of the junior high school student association were voted on today in the school board room. The amendments were up for consideration, all designed to limit term of service in student offices and to list qualifications.

Those voted on were:

A student may hold but one major office in the student office each year; the holder of a major school office is not eligible for a minor school office; major school offices are defined as membership in the student council, safety patrol, and yell leader, while minor school offices are home room officer, athletic captain, and club officers.

Qualifications for all major school offices shall be: the candidate must have had no unsatisfactory grades in either scholarship or citizenship the preceding semester, and must have been in school 12 weeks of the preceding semester, an unsatisfactory grade during term of office disqualifies the officer; the term of office for a major school office shall be for one semester. The student office shall be for not more than one semester; elections of major offices shall be held at the beginning of each semester.

The six amendments do not vary much from the constitution now in force but include offices added this year such as the safety patrol. Six have not been under its jurisdiction.

The amendments were drawn up by a student council with Garth Reid as adviser.

## Senators Gain Strong Hold On Loop Lead

**By GEORGE KIRKBY**  
**NEW YORK, May 11 (UP)**—The rainmaker and the Washington Senators have conspired, to make today's game between the world champion New York Yankees and the "re-vitalized" Cleveland Indians just another ball game instead of a crucial battle for the American league lead.

With the rainmaker keeping the Yankees two days with Washington was running its winning streak to seven straight, the Senators held undisputed sway today as the Yankees and Indians lost their private feud for second place. New York and Cleveland, now tied a full game behind Washington, opened a two game series.

Allen to Pitch  
 Johnny Allen, Cleveland's three-batter and one-time Yankee, was called to replace Spud Chandler, ex-Georgia football halfback, in the box. Allen has won three and lost one, while Chandler has won one and lost none.

Rain washed out all but four major league games yesterday. The Senators twice came back to beat the St. Louis Browns, 5-4. It was the Browns' eighth straight loss. With two out in the eighth, Washington scored three runs. The Senators knocked out their ex-teammate, Buck Newson, in the sixth, but made their winning upswing against the Yankees in the seventh. Kras, Browns' shortstop, had a perfect day, "4 for 4."

Giants Down Cube  
 Billy Terry's rampaging Giants continued to sweep through the west by knocking the Chicago Cubs with a 5-1 licking. It was the Giants' fifth victory in seven games in the west. Cincinnati pulled up to 500 by defeating the Phillies, 7-3. Dusty Cooke hit four doubles and two singles in four times at bat. Herbel Marlin, Philadelphia outfielder, while attempting to steal second was knocked "tumble" by the Cubs. The Cubs' pitcher, Berger's brother and had to leave the game.

Brooklyn slugged out 15 hits to lead the series against the Cardinals. The defeat dropped the Cards to sixth place as the tide Boston Red Sox moved up a notch.

## Padres Defeat Stars to Retain Lead

**(By United Press)**  
 San Diego maintained its lead in the Pacific Coast baseball league by virtue of a 4 to 2 win over Hollywood yesterday. The three runs that meant victory were scored in the ninth inning against Stu Egan and Los Angeles won from Portland, 9 to 5, with Gene Lillard getting credit for the victory. St. Joseph's, the champion being charged with the defeat.

Dick Barrett beat Ken Sheehan in a pitching duel that Seattle won, 4 to 2, from Oakland. San Francisco gathered 11 hits as it knocked out a 9 to 3 win over Sacramento. Sam Gibson, winning pitcher, held the Golons under control after Joe Orengo knocked out a first inning homer to score Sacramento's first two runs.

## Wightman and Walker Cup Squads Leave

**By HENRY SUPER**  
**NEW YORK, May 11 (UP)**—America's athletic invasion of England was well under way today. The Walker cup tennis team sailed a few minutes after midnight on the S. S. Bremen seeking its fifth consecutive victory over Great Britain in the biennial series.

At noon the remaining members of the Wightman cup women's tennis team sailed on the Queen Mary for their 16th annual battle with England's best, confident of scoring their eighth consecutive victory.

## 'National Pride May Make Schmeling Hard to Beat'—Mac

**By HENRY McLEMORE**  
**NEW YORK, May 11 (UP)**—Max Schmeling, whom the boys insist on calling the "Black Ulihan of the Rhine" despite the fact that he is not black, is not a Ulihan, and lives miles from the Rhine river, seems to be spending most of his time these days telling everybody what he is going to do after he is defeated.

Very interesting, but not half so interesting as if he'd explain what he is going to do if he doesn't like Joe Louis. And it is entirely possible that he won't, because even with my poor memory I can recall a score of fighters who went into the ring confident of beating Louis and who came out first.

Would Rival Horst Wessel  
 A victorious Schmeling is a champion of the World-Schmeling would go back to Berlin to rival Horst Wessel as a Nazi hero. Der Fuehrer Adolf Hitler might be at Kaiserhof station to welcome him. Under Delandien would look like Broadway the day Lindbergh came home. All the Nazis would "dig heels" and "dig heels" until their throats were sore.

Nordic supremacy would have been upheld by a German warrior. But what is worse, the fact that I speak as a friend and admirer of Schmeling is how DER Fuehrer is going to react if DER right hand of DER Black Bomber hits DER Schmeling on DER jaw and knocks him out for DER evening.

Like This  
 Right now Schmeling and Hitler are like I and I am putting my two fingers together to illustrate to you what chums they are. Not long before Max left on this trip Hitler celebrated his 46th birthday and Max was at the party, blowing out candles, eating cake and having lots of good, warm nights in the bright lights of the party came with the showing of the pictures of Max's knockout victory over Steve Dugan.

I have no doubt but what Max Schmeling knows how completely his standing in Germany will be changed by a defeat at Joe Louis's hands. In the first place, the entire German nation expects him to win, no matter who his opponent might be, because he is a German.

## Czechs Protest Davis Cup Jugoslavia Loss

**LONDON, May 11 (UP)**—The last bracket in the second round of European zone Davis Cup tennis play was filled today by England vs Czechoslovakia planned to protest its opening round defeat by Jugoslavia, and Germany named two former Austrian cup players to its team of four.

Great Britain gained the second round yesterday by eliminating Roumania three matches to two. Ronald Shayes scored the deciding victory when he defeated Take Garaulits. In the final match, O. Schmitt of Roumania defeated C. M. Jones of England in scheduled match. Czechoslovakia would protest Jugoslavia's 3-2 victory to the Davis cup committee in London. The country charge that the deciding match had been forfeited to Jugoslavia without justification.

The Czechoslovakian Lawn Tennis association said the captain of both teams had agreed before the match in the event of darkness, matches could be postponed and continued the following day. At 7 p. m., the association said, Czechoslovakia asked for a postponement but, it was said, the referee refused. He gave the match to Jugoslavia.

## Times Favor Seabiscuit in Race with War Admiral

**By HARRY GRAYSON**  
**(Sports Editor, NEA Service)**  
 A majority of handicappers would pay attention to the clock than anything else. This is especially true when the clock is in the hands of Seabiscuit and War Admiral.

But no two racing stars are alike, which is why many experts skip the watch and look to the horses.

However using a speed chart, or handicapping strictly on a time basis, you must pick Seabiscuit to win the War Admiral in the 1000 yard match race at a mile and a quarter at Belmont Park, May 30.

War Admiral never has run as fast as Seabiscuit in mile and a quarter races, the son of Hard Tack has run 2 1-5 seconds faster than the greatest racing son of Man o' War. And 2 1-5 seconds means a few lengths.

Seabiscuit, the tourist, and War Admiral have appeared on the same track at Seabiscuit in mile and a quarter races. Seabiscuit stepped a mile at Laurel in 1:37 2-5, while War Admiral went a mile and a sixteenth in 1:46. On Nov. 3 at Pimlico, War Admiral sped a mile and three-sixteenths in 1:38 4-5. Two days later, on the same course, Seabiscuit traveled the same distance in 1:37 2-5, or 1 1-5 seconds faster. War Admiral carried 128 pounds, two less than Charles B. Howard's flyer.

Here are the ten best races of each horse.

**LOS ANGELES, May 11 (UP)**—Lee Ramage of San Diego, Calif., who once had hope of winning the heavyweight championship, was advised today by his manager to quit the ring today after a severe beating last night by Bob Pastor, New York.

Pastor pounded Ramage almost as well as he could in the first round, tossed in after two minutes and 20 seconds of the ninth. Ramage reeled helplessly before the stocky New Yorker, but Pastor did not knock him down.

Pastor weighed 183, Ramage 177.

**LONDON, May 11 (UP)**—Mrs. Helen Willis Moody scored another easy victory here today when she defeated her husband in a tennis championship today when she eliminated Miss Honor Bullen, 8-1, 8-0 in a third round match.

War Admiral never has run as fast as Seabiscuit in mile and a quarter races, the son of Hard Tack has run 2 1-5 seconds faster than the greatest racing son of Man o' War. And 2 1-5 seconds means a few lengths.

Girl Reserves Magic Valley District

Margorie Clark will head the Blue Triangle club of the Twin Falls high school Girl Reserve organization next year. Miss Slack and the other officers were named at a joint session of the Blue Triangle and J. O. Y. club yesterday.

Miss Ruth McManis, district secretary, gave a talk on the national convention of the Y. W. C. A., which she attended recently.

The program for the meeting consisted of a Snow White play presented by Ethel Richards, Margaret Bacon, Rita Salmon, Dorothy Margaret Smith, Gloria Mae West, Joyce and Jean Pierce, Helen Geo and Ann Pevney.

Barbara Bultiff, president, turned the meeting over to the program chairman, Joyce Kelly, who announced the following program: "Tolerance," an original oration by Doris McComb; two accordion numbers by Doris McComb; two violin numbers by Marilyn Perry.

Harriet Hill then presented Miss McManis with a gift from the club. The program chairman presented Miss Adams a gift. During the tea hour Miss McManis and Miss Bultiff presided at the table.

Janet Coleman was general chairman and was assisted by the cabinet. Freshman club of the Girl Reserves held a social party in the gymnasium on Monday with the room decorated with large bouquets of white flowers.

The membership was greeted at the door by the co-chairman, Gladys Mae Broken and Bernice Adams. A solo dance by Mary Lou Gibb and by Betty Babcock.

The Lemon dance participated in by all present was led by Betty Ruth Lutz, Harriet Perry, and Betty Durling, who had to give a kiss as a forfeit.

Patsy Smith provided the music for the grand march and other numbers on the program. Special prizes were given to Betty Humphrey and Leona Rae Hughes.

Mr. Hale was given the honor for showing the largest production sale in 1937 for the intermountain district, which included Utah, Idaho, Montana, Wyoming, Colorado, Nevada, Arizona and Arizona.

As a prize he gets a trip, with all expenses paid, to the national convention, which is held this year in San Francisco, and where he will be installed in the company's field club.

BUILDING GETS MODERNIZATION... At an estimated cost of \$5,000, extensive remodeling of the Koio building on Main avenue was underway today under the direction of Ernest White, contractor.

IF YOU LIVED AT THE NORTH POLE, MARCH 21ST WOULD BE YOUR SUNRISE, AND SEPTEMBER 23RD WOULD BE YOUR SUNSET!

ILLUSTRATION BY BEA SERVICE, INC.

At the North Pole the sun peeps above the horizon at the time the people of the north temperate region are beginning their spring. Spiraling around the horizon from left to right, the sun mounts higher in the sky until June, when it gradually begins to lose altitude . . . and disappears from sight about Sept. 23.

# Americans in British Court Tonight

## Kennedy, Two Daughters to Be Presented

By JOSEPH W. GRAGO, JR.  
LONDON, May 10.—Joseph Kennedy, his wife and two daughters, and five other American women will attend the first of this season's royal courts at Buckingham Palace tonight, and the United States ambassador will not wear the customary knee breeches.

Mrs. Kennedy will present her daughters, Rosemary, 19, and Kathleen, 18, to King George and Queen Elizabeth for the first time.

The ambassador's wife and the "short pants" problem so far as he was concerned by deciding to wear formal evening dress, tails and coat, while the king and queen, the lord chamberlain's office ruled, however, that all American embassy attaches accompanying Kennedy must wear knee breeches.

### Presentation List

All but one of the American women to be presented are members of the diplomatic corps in London. On the presentation list besides the Kennedy daughters are Mrs. Douglas Jenkins, Charleston, S. C., wife of the American consul general here; Mrs. Leslie Amneron Davis, Fort Jefferson, N. Y., wife of the consul general in Glasgow; Mrs. Harry G. Sedell, Lockwood, Washington, D. C., wife of the assistant trade commissioner at the embassy; Miss Virginia Lee Howard, Washington, daughter of Charles Raymond Howard, assistant treasury attaché at the embassy; and Miss Rosemond Harris Gould, daughter of Harry G. Sedell, vice president of the International Association (petroleum) Ltd.

The Kennedy girls have been practicing artfully for the double curtsy before the king and queen who will be seated on thrones in a flower-banked white and gold ballroom. By the king's directions the curtsies tonight, and tomorrow will be confined almost wholly to unmarried girls whose presentation will be their debut into British society.

### Mrs. Kennedy's Gown

Mrs. Kennedy's gown is white lace gown embroidered with silver and gold, a silver lame train with silver and gold embroidery. She will carry a white fan. Rosemary will wear a white tulle dress, trimmed with white paillettes and a white train trimmed similarly. Kathleen will wear a picture dress of white tulle, trimmed with white tulle roses with silver centers and a train of white tulle. She will carry a bouquet of white flowers.

The ambassador Kennedy announced recently that he intended to stop the custom of presenting American women at royal courts and that he would sponsor the presentation only of women members of the American official colony and American women residents of Great Britain.

## MURPHY NAMED COUNTY'S DOCTOR

Effective June 15, Dr. J. H. Murphy will be Twin Falls county physician, the board of commissioners announced today.

Dr. Murphy, who has been in practice at Gooding, will succeed Dr. C. T. Parkinson, formerly of Buhl. Dr. Parkinson resigned to re-enter private practice in the west end city after having been county physician for 10 months.

Dr. Murphy, who is a resident of Buhl for a considerable period, will make his residence in Twin Falls. Salary for the county physician's post is \$200 per month.

The appointment was made effective June 15 because that is the date on which Dr. Parkinson's resignation goes into effect. Recommendation to employ Dr. Murphy was introduced by Commissioner George R. Hart, Buhl, and was seconded by Commissioner Robert Day, Blendedale. The vote was unanimous, with those two and Chairman James L. Barneq all concurring.

## PARENTS INSPECT SCHOOL EXHIBITS

Featured in the center of the floor was prize work from the shop departments of both the junior and senior high schools and gold home-making exhibits grouped on a platform at the front of the gymnasium. Work of the other departments was grouped around the sides of the room.
