

EX-CONVICT SOUGHT IN MURDER CASE

CZECHOSLOVAKIA AND GERMANY RENEW WAR CRISIS

'Country Worthy Of Defense,' Says Slovaks' Premier

By JOE ALEX MORRIS
United Press Staff Correspondent

Germany and Czechs firmly stood their ground today in a brilliant revival of Europe's war crisis.

At Prague, President Edouard Benes told 40,000 school children congratulating him on his 54th birthday that "our country is worthy of being defended whole-heartedly."

At Eger, near the Nazi frontier, demonstrators at the funeral of two Sudeten Germans killed by Czech border police cheered Adolf Hitler and heard orators shout that "Germany must live, even if we must die."

At Berlin, the German government decided officially to protest against frontier incidents allegedly created by the Czechs and the maintenance of Czech troops in the tense Sudeten area—the German populated region which is the center of the Nazi-Czech military quarrel.

The trend of developments gravely intensified efforts to solve the conflict by peaceful conferences.

The German press, under control of the Adolf Hitler, proclaimed Czechoslovakia and Great Britain with charges of provocation so bitter in tone that they developed a series of peace talks in the Sudeten area. The whole Nazi attitude was stiffened despite British pleas for cooperation toward a peaceful solution.

Hitler newspapers complained of Czech war preparations and charged that the Prague government was treating border "incidents."

From the Nazi side the crisis of the present war has been reborn and every possibility of Europe again uniting for peace has been destroyed. The peace talks of the Sudeten area have been abandoned. The latest German move through international law is the withdrawal of troops from a quarter-mile strip to recapture Barcelona's power source in the Trump area. This has been a French model of a treaty with great materials, pounded of the French president and claimed to have advanced over the French president's signature within six miles of Trump.

Phalanx of Boats

At the same time, a band of 1,000 Phalanx boats which had been impounded behind the border, became a source of trouble with the Italian side of the transport area. They were partly equipped and tied to positions near the French frontier. The insurgents claimed to have trapped the French freighter, and any Phalanx boats were refused to the border.

From Valencia, dispatches told of the bombing and sinking of the freighter "Phalanx." Reports of Phalanx boats have been reported to the border.

GOES TO FRANCE

PARIS, May 25 (UP)—Slovak Czecho-Slovakian ambassador to Paris today left for London with an urgent French proposal to the Czech government to withdraw its armed reinforcements from the border.

GOV. CLARK MAY REFUSE TO ASK DUNSHIEE RETURN

BOISE, Ida., May 25 (UP)—A source close to the state's executive department said today there was a possibility that Gov. Harold Clark might refuse to request Gov. R. C. Stanford of Arizona for the extradition of Dr. J. D. Dunshiee, former director of Idaho's public health department.

Dr. Dunshiee and his former secretary, Miss Echo Dell Watson, were indicted by the county grand jury on two charges alleging misuse of public funds and the use of state money for a purpose not authorized by law.

Arizona Office

Dr. Dunshiee, who retained his position in Idaho while the legality of his appointment was questioned by a federal grand jury, was indicted by the county grand jury on two charges alleging misuse of public funds and the use of state money for a purpose not authorized by law.

Dr. Dunshiee, who retained his position in Idaho while the legality of his appointment was questioned by a federal grand jury, was indicted by the county grand jury on two charges alleging misuse of public funds and the use of state money for a purpose not authorized by law.

Vancouver Jobless Seize Buildings for 'Sit-Down'

When 1,500 transient jobless men in Vancouver, B. C., went without further government aid, they seized three public buildings and ignored pleas of authorities to end their "sit-down" strike. One group occupied the city art gallery while another "took" the postoffice, as others slept. Both groups demanded work relief and guarantees of food and shelter.

Fire Blamed for Crash Of Airplane, Killing 10

Investigation of the crash of a Douglas twin-engine airplane near Cleveland, Ohio, today revealed that a fire on board the plane caused the crash, killing 10 people.

Plans Complete for Placing Of Game Commission Petitions

Preparation of Twin Falls county this afternoon had completed plans for the circulating of petitions seeking an initiative vote to create a non-political game commission of five boys and the petition will be all handily be available for signing by Monday, it was announced by Sidney Powell, chairman of the movement in this county.

Powell was named chairman at a special meeting held last night at the Idaho Power company auditorium. Twenty or more of interested sportsmen, members of the Southern Idaho Fish and Game association, and the Snake River Rod and Gun club, were present. It was announced that members of the Snake river club would handle the petitions in the east end of the county while the Southern Idaho group would take charge of the work in the balance of the county.

This afternoon Powell said that from 1,000 to 2,000 signatures would be needed from the county. The petitions are to be signed as quickly as possible and then will be collected by Powell who in turn will check the signatures against local lists of eligible voters in the offices of the county auditor.

Powell explained that in order to be eligible to sign the petitions when they are offered, the person must be a registered voter or have voted in the last general election from this county. A person must be registered in the county in which the petition is to be signed.

Under present plans those circulating the petition will volunteer their services. In many cases the petitions will be put in the custody of newspapers, which will accept signatures. There will be room for approximately 20 signatures on each petition.

Solon Hits Hopkins For Election 'Help'

WASHINGTON, May 25 (UP)—Sen. Burton K. Wheeler, D., Mont., bitterly attacked Works Progress Administrator Harry L. Hopkins for "butting into" primary contests today in a speech in the senate in which he supported the plan to earmark funds under the \$5,247,025,000 recovery bill.

The Montana senator made his attack on New Deal official Hopkins' statement that if he "permitted a violation of the constitution of this country, he would resign."

Wheeler said that he was "permitted" to resign if he "permitted" a violation of the constitution of this country, he would resign.

Oddities

CUPID

MARIVILLE, Calif., May 25 (AP)—In the midst of an insurance case, Judge L. J. Mulready happened to see two anxious faces peering through the window of the court room. Instinctively knowing what that meant, he adjourned court and married W. J. McGarr and Adele Walcott, both of whom were to be married by attorneys in the suit as witnesses.

"Perpetually Booked"

"These men shouldn't be permitted to be in the courtroom to help this man find a defect that man," Wheeler said.

The attorney said that he was "permitted" to resign if he "permitted" a violation of the constitution of this country, he would resign.

British Vessel Is Bombed and Sunk

VALPARAISO, May 25 (UP)—A British merchant ship was bombed and sunk by German submarines today in the Pacific Ocean.

ROAD INSPECTOR TESTIFIES DURING EDWARDS' TRIAL

BOISE, Ida., May 25 (UP)—The state today recalled Hunt Potter, Lewiston highway inspector, to the stand as the trial of T. F. Edwards, resident highway engineer, entered its third day.

Edwards is accused of obtaining money under false pretenses through the asserted altering of a 977,000 contract on a road job between Pierce and Weippe in northern Idaho. He was indicted on the charge by the Ada county grand jury along with four other state officials.

Potter testified for the state as an expert on the methods of road construction used in the job for which the contract allegedly was altered in such a manner that the state paid for more than it actually received in highway work.

Type of Cracked Rock

Much of Potter's testimony had to do with the type of cracked rock and gravel used in the construction of the road. The state contended that the rock and gravel used was of inferior type and of a grading too shallow for the contract.

Judge Isaac McDougall, presiding, rebuked the state when attorney testimony of J. W. Taylor, concerning the transaction, strayed from the subject matter of the indictment.

Object to Questioning

Defense attorneys objected to the line of questioning as Taylor tried to have Potter tell whether the gravel used in the construction was of good quality and if the rock was of good quality.

Taylor's charge that the gravel used in the construction was of inferior type and of a grading too shallow for the contract.

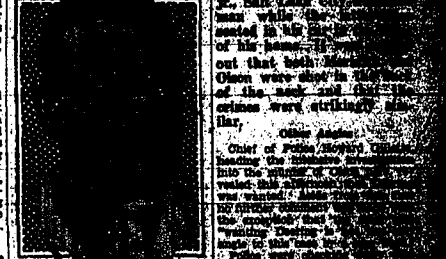

Police Hunt for John W. Deering For Killing Quiz

Local police today were searching for John W. Deering, 38, ex-convict from California, dope addict and known gunman, for questioning in connection with the murder here of George L. Olson, 35, Salt Lake City jewelry salesman, it was learned this afternoon.

Olson's body, badly decomposed, was found stuffed in front of the back seat of his Ford sedan near the side entrance of the Park hotel near noon yesterday. He had been shot to death since sometime Saturday evening or night.

Deering is believed to be the man who on May 19, 1937, shot and killed Olson. Deering was arrested in Salt Lake City and held in custody until he was released on his own recognizance.

Olson was shot in the back of the head and the bullet entered his brain. The bullet was found in the back of the head and the bullet entered his brain.

Gives Support

INQUEST SET FOR DEATH OF CHILD

INQUEST into the death of Billy Don Schreier, 12, first auto-bicycle victim in Twin Falls county this week, will be held at the county general hospital last night, it was announced this afternoon by Dr. George G. Halley, county coroner.

Schreier suffered injuries which proved fatal when he is alleged to have been struck by a truck betwixt driver by Edward Hansen, 20, neighbor.

The fatal accident occurred near the youth's home on the south side of the South Park addition, near the corner of the street and the boy to the hospital but he died within a short time. Time of the accident was placed at 6:30 p. m.

Hansen, the driver, was driving at less than 30 miles an hour as he neared the home and had slowed down to turn into the driveway when he struck the child, who was in front of him. The driver of the car was not held. R. R. Jensen, 11, a friend of the child, but told police he did not see the accident.

The body of the youth was taken to the county mortuary where funeral arrangements are being made.

Billy Don Schreier was born in Pocatello on Aug. 31, 1925, and had resided near Twin Falls for the past 12 years. He is a son of Mr. and Mrs. Allen R. Schreier, aside from his parents he is survived by brothers, Ralph D. Schreier, 14, and a sister, Mrs. Mary White of Phoenix, Ariz.

FILER EDITOR, 27, TAKEN BY DEATH

Death today claimed the life of Kenneth L. Erickson, 27, publisher of the Filer Citizen-Record, Editor of the paper for two days Erickson died of a heart attack. He was taken to the hospital on Monday morning and succumbed at 8 a. m. today.

The body, accompanied by Mr. and Mrs. L. Erickson, his parents, and his wife, Mrs. Bonnie Erickson, left by train this afternoon for Filer. The body was taken to the mortuary where funeral services will be held and interment made. Arrangements were made by the White mortuary.

Erickson had been in the newspaper business for two years and during that time had taken a prominent part in Idaho editorial work. He purchased the Citizen-Record two years ago from E. J. Clark.

He was born in St. Paul, Minn., Sept. 18, 1910. He attended Central high school in St. Paul and graduated from Hamilton university in St. Paul, in 1934. While in college he was a member of the Greek and Latin clubs and a star athlete.

Following the graduation from college he worked as a "beatnik" reporter for the Filer Citizen-Record. He was a member of the Filer and Idaho Presses, being among the first to join the National Presses Association.

Fishermen Plan on Armed Action Against Japanese

SEATTLE, May 25 (UP)—The Alaska fishermen union today sent a message to Alaska today, ready for action against Japanese fishermen in Alaska.

The Americans were full of threats after Capt. J. E. Shinde of the Alaska coast guard today said that the Japanese were full of threats after Capt. J. E. Shinde of the Alaska coast guard today said that the Japanese were full of threats.

The Americans were full of threats after Capt. J. E. Shinde of the Alaska coast guard today said that the Japanese were full of threats.

GRAVE DROPS NEAR AIRPORT IN CLEVELAND

CLEVELAND, May 25 (UP)—Flames streamed from a motor of a transport plane just before it crashed last night, killing 10 persons, witnesses said today. The plane seemed to explode as it struck the ground and was enveloped instantly in flames.

Not until early today, two hours after the United Airlines plane fell out of the sky almost within sight of its destination, the Cleveland airport, had the ruins cooled enough for the bodies of the seven passengers, two pilots, and a stewardess to be removed. All were buried beyond recognition.

The plane, bound for Los Angeles, had left Newman, N. J., airport at 7:30 p. m. (EST) last night and had been due here at 10:15 p. m. It crashed approximately three miles from the airport at 10:17 p. m. near the suburban town of Independence.

The accident was one of the most mysterious of any commercial plane crash because it was without a readily ascertainable cause. The plane was a Douglas twin-engine transport equipped as a "stepper" for the Cleveland airport. The flight conditions were excellent, visibility unlimited, the terrain over which it was flying is flat, and 10 minutes before the crash Pilot James L. Brandon, of La Grange, Ill., a veteran of the command, airways, had reported that all was well.

Something Happened

The airport towman sighted the plane and reported it about to crash. Then something happened. Witnesses on the ground several miles away said they saw flames shooting from one of the motors, and judging from the sound, they thought the engine had exploded.

NAZIS MINISTER LODGES PROTEST

FRANCO, Castellon, May 25 (UP)—Dr. Jose Gual, German minister, lodged a protest today against the German government's policy of supporting the Nationalist forces in Spain.

Court Adjourns As Tribute for Former Bailiff

Paying tribute to Carl Donoos, bailiff since 1894, the district court today adjourned this afternoon to permit Judge J. W. Porter and County clerk to give final honor at funeral services for Mr. Donoos.

Judge Porter praised the late bailiff as a "loyal and faithful servant of the court."

Members of the officials and employees at the county courthouse also attended the service, held at 3:30 p. m. in the Twin Falls mortuary. The service was held in the mortuary and was held in the mortuary.

YOUTH ESCAPES AT COUNCIL

PHOENIX, May 25 (UP)—A youth escaped from a council meeting today in Phoenix, Ariz., after escaping from the custody of two guards.

The youth, who was identified as a member of the Phoenix Youth League, escaped from the council meeting today in Phoenix, Ariz., after escaping from the custody of two guards.

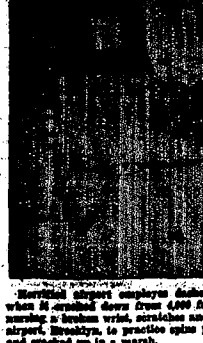

NEWS IN BRIEF

Police this afternoon reported recovery of a bicycle belonging to Robert Frantz. It had been reported as stolen last night according to police records.

JAYCEES WILL GO TO STATE MEET

Twin Falls Junior Chamber organization of at least 10 members was planned today for the state convention at Idaho Falls Saturday and Sunday.

Announcement that the local unit is slated to 10 votes was made at the general membership meeting in the Park hotel last night, and members intending to make the convention trip will contact officers before Saturday.

Brick Pool

Borrowing the idea of the famed ice break-up pools of Alaska, the Junior Chamber voted to sponsor a "Bickel brick pool" as a benefit project to raise funds for the 20-acre Jaycees recreational grounds.

The pool would offer minimum prizes of \$100 with a possible maximum of \$500 per cent of total receipts would go toward the purchase price and development funds of the community recreation area adjacent to Barron street. Estimates would be on the basis of the bricks which will clean out and be usable in the proposed park.

Approval of a committee to investigate feasibility of regular "bingo" games was also voted at the general membership meeting in the Park hotel. The games would be similar to those used in carnivals here, and proceeds would form a basis for the same recreational project.

Reject Expenses

The Jaycees voted down a proposal to pay \$20 per delegate for four delegates to the national Junior Chamber convention at Oakland, Calif., June 18 to 22. The local unit has for votes at the national convention, and the motion had sought payment of \$10 registration fee per delegate and a portion of hotel expenditures.

Playground program for 3,000 Twin Falls youths at the recreation grounds is well underway, Chairman J. Wood reported. With the WPA recreation set-up under Vernie Richards handling the program, the summer plans will include the varied facilities, including softball on a smaller diamond, volleyball, bat tennis and regulation playground amusements.

Pat parade is set for June 6, Wood said.

President John Robertson informed the general membership that the curb and other committee, providing those facilities for home-owners at moderate prices through the use of WPA labor, was revised this year "because of public demand." The project is getting underway "satisfactorily," he said.

Project Approved

Approval of the Bickel school removal project by WPA, as announced in Tuesday's Evening Times, was reported to the group by Robertson. Formal notice is expected to reach Boise in time for start of the job here under John Christensen, WPA district engineer, by June 12—time set in the contract with the school board. Materials will be used for a public gym on the Joyce street site.

The organization went over as approving season tickets, non-transferable, to each member of the musical held in support of the band performance at the opening softball games at Lincoln field June 1.

MURTAUGH

A general meeting was held on Thursday afternoon at the Methodist Episcopal Church by the Murtaugh and Glendale groups of the Ladies Aid society with 20 present. Hostesses were Mrs. Ray Jackson, Mrs. Frank Bradshaw, Mrs. Gilham and Mrs. Claude Lee. Mrs. Claude Lee was in charge of devotional and the program, which included two solos by Mrs. Mildred Cockrum and a reading by Mrs. Claude Lee. Mrs. Vera Neumann had charge of the business meeting at which plans were made for June 2.

A farewell party was held at the home of Mrs. Edith Gilliam on Saturday honoring Mrs. E. M. and her two sons, Floyd and Al. Readings were given by Vera Neumann, Marion Neumann, and Lavilla Neumann, accordion solo by Oella Moorman. Musical duet by Ruth Staley and Vera Commack, a tap dance by Vera Commack and a solo by Ruth Staley. Games were played after the program. The Saturday family was presented with a gift. Sixty people were present. Mrs. E. M. and sons left today to make their home in Canyonville, Ore.

Beis Wright and Charley Brien went to Victor Saturday to get seed potatoes for Edgar Moorman.

Mr. and Mrs. Harry Tolman and family and Miss Beth Adams left for Pocatello Sunday where they will visit Mrs. Tolman's mother, Mrs. A. C. Smith a week with their small daughter, Joan, receives medical care.

Miss Thora Bates, who has been attending school at Weiser, returned to her home here Saturday for the summer.

Mr. A. A. DePaun and Miss Mary Mohr of Kennerly, Wyo., were Thursday to the home of Mrs. Mabel Jeffries, remaining for the graduation exercises and left for Pocatello Sunday.

Miss Doris Clawson left Tuesday for Salt Lake to attend the graduation exercises of her cousin, Miss Margaret Clawson, who has completed her college work at Utah.

School was yet Friday and all the teachers have left their homes.

Frankie Hawley of the Twin Falls has moved his family to the New Lewis farm where he has a new.

Jewel Neumann is making good progress in grubbing her land to plant potatoes. She intends to plant 50 acres.

MINIDOKA STAKE HEARS SPEAKERS

RUPERT, May 25 (Special)—The first meeting of the quarterly conference of the Minidoka stake of the I. D. S. church was conducted here Saturday and Sunday was held Saturday evening in the first ward recreation hall with Mrs. Jennie Campbell of Salt Lake City the main speaker. The theme was "Social Relationships as Taught by the Primary."

On Sunday morning two groups met at the first ward church, with Rosal F. Hyde in charge of the Sunday-school workers and Mrs. Emma Walsh in charge of the Primary workers. Both of these meetings dealt with stake board members, their selection and instruction of the organizations under them. Gerrit DeLong, head of the department of fine arts at Brigham Young university, and head of the general board of Sunday school and George H. Durham of Salt Lake City were the guest speakers at this gathering.

Leader Begins
The general assembly was held in the Wilson theater at 10 a. m. with Rev. W. C. May presiding, and Mrs. Emma Walsh as stake Primary president was accepted and Mrs. Eubank, George Walsh was chosen as her successor. All other officers were retained.

President Davis Green spoke on "The Order of Things." Mrs. Campbell may give a tribute of appreciation of the faithful service of Mrs. Walsh during her 10 years as Primary president. Mrs. Walsh then told her experiences in the Primary work, which began when she was a child, when she became a member of the church. Primary association in Arden, which was organized soon after the Primary movement of the stake came into existence. Mrs. Watson spoke on the interest and hopes for the future of the Primary organization.

Mrs. Jennie Campbell spoke on "The Mission of the Primary," "Sunday School Work and the Welfare of the Individual" was the subject of George H. Durham's talk. A vocal number was given by a male quartet composed of Eugene Humphreys, Arthur Eubank, George Walsh and Egan Garner. The morning session closed with an address by Gerrit DeLong on "The Differences Between Theology and Religion."

Program
The afternoon session, under the direction of President May opened with a vocal number, "The Lord's Prayer" by the high school girls' chorus directed by George Calmer. This was followed by "How Parents and Teachers Can Co-operate in Teaching the Gospel," by DeLong; "Knowing the Heart of the Father," by George H. Durham; "Understanding the Child," Mrs. Jennie Campbell; vocal solo, "The Heart of the Father," by Mrs. Hansen of Eden; a talk, "The Development of the Student," Gerrit DeLong. The meeting, attended by over 400, closed with an address on "Diligence in the Gospel," by President May.

Miss Frieda Becker will go to Idaho Falls Sunday to spend the summer vacation with her aunt, Miss Becker has been instructor in the Buhl intermediate school for several years.

Coach Floyd Howers will leave soon with Mr. Ormond Thomas for Elgin, Nevada, they plan to spend the summer vacation.

Mrs. J. B. Maxwell entertained the members of the Ladies Aid society last week at her home on the highway. Mrs. J. F. Sims was a club guest. A quartet composed of Mrs. Maxwell, Mrs. Lawrence, Mrs. J. B. Maxwell and Mrs. J. F. Sims accompanied by Mrs. Harry Berry, Refractoria and Mrs. J. F. Sims, and the next meeting was announced to be at the home of Mrs. William Vogel June 3, 1936, will be the last regular meeting of the year.

The sewing machine was donated by Miss Hove in 1934.

Bonita Granville, Ex-Vixen, Is Young Woman at Age of 15

By PAUL HARRISON (INKA Service)
HOLLYWOOD—Two years ago Bonita Granville was the half-sister of Hollywood, a maid of honor, a model, a movie star, and a woman who has remained there ever since by dint of more villainy and an occasional venture into sweetness and light.

"But now," wailed Miss Granville, "I'm 15. It's the most unattractive age in the world. Oh, it is, but definitely. Last year I was a little girl, and next year I'll be an ingenue. But what am I today?"

15-Year-Old 'Vix'
Sitting there in her dressing room and watching her reading her makeup and long golden hair for the next year's publicity campaign, she told Miss Granville what she is today—a very attractive if very young woman who has had adult clothes and makeup, and has been, and she could play a college senior.

"No, could you guess her age by listening to her talk. Most movie youngsters are conversationally sure of themselves, but Bonita is a veteran with the confidence of several years of picture-making and three years on the stage. Apparently she is not a 'vixen' in the usual sense of the word, but she is a 'vixen' who is able to progress from juvenile to adult roles without a break."

Was Head Zeke
Under her Warner Brothers contract and frequent loan-outs to other studios, she has been very busy, with a total of 100 weeks of it in eight months. "I don't really," she said, "but I would like a little more swimming."

Was Head Zeke
"Pretty soon I'm going to start a series of pictures," the Nancy Drew stories. "There's about a girl who goes to college and solves a famous lawyer. She gets into adventures and becomes an amateur detective and solves a lot of cases. They're good movie stuff, and are awfully popular these days. And I'll be featured in them, which is something."

"No, there isn't much romance in them. There is a boy, who keeps popping up at the right time and doing nice things. No director or little romance in 'White Banners,' which we finished lately. In a scene with 'The Cowboy,' he is on the forehead. It was the first picture in which I've ever been kissed. That gave the publicity department and the studio a lot of interest. It's off-stage romance between us. I wouldn't stand for it."

Keeping Up Stidies
"No," she replied. "I like to read. 'Of course I go to parties, and some grown-up parties, and I like to dance.' I have two groups of friends and one of them is from my Hollywood high school days and they're not in pictures."

Miss Granville will get a high school diploma next year, but expects to go on studying languages and literature and history under instructors at the studio school.

She already has had five years of French, and incidentally, five years of dancing and five years of piano instruction. Now she wants to study voice and designing. She already designs most of her own clothes and has a good deal to say about her movie wardrobe.

Five feet one-half inch tall, without heels, Bonita is anxious to grow another inch so that she can wear clothes more smartly. For years she has been stretching every day, trying to grow taller.

No Love
"Before Samuel Goldwyn cast her as the sly, lying little polonaise of 'The Sign of the Cross' in 1926, Bonita played a lot of ordinary, little-girl roles and was wondering whether she'd ever have a chance to act. The meanie part provided a chance for an emotional display that seldom comes to youngsters of 15, and for a year thereafter she was in demand for similar roles, some of which were especially written into scripts for her parts.

Lately, though, her parts have been more or less alternately sympathetic and heavy. Her current part in 'Every Woman's Life' isn't much of anything—just a fill-in assignment until the Nancy Drew series is ready for her.

Her favorite actress is Bette Davis, who also has done very well for her parts. "There's nobody, though, that I particularly want to be like," Miss Granville said. "and I don't care much whether I do comedy or drama, so long as the parts are substantial. That's when acting's fun."

One of the more beautiful "child" actresses, Bonita Granville, above, does not care whether she does comedy or drama, so long as the parts are sufficiently substantial.

GRANGE HONORS SENIOR MEMBERS
RUPERT, May 25 (Special)—The high school graduates this year who were members of the Northwest Grange were given a special banquet and entertainment Friday evening at the Grange room. The honored guests were: Lois Owenby, Robert Maxwell, Jr., and Riley Maxwell.

Robert Day, teacher at the school was toastmaster for the occasion. The speaker of the evening was Rev. LeRoy Walker, pastor of the Buhl Methodist church.

The first reading on the program was given by Ralph Hart, "Little Boy," the second, "The House With Nobody In It," by Jimmy Maxwell and as the concluding number Mrs. Maurice Curren gave "The Song of Life."

KIMBERLY

Plans are being made to organize a Bible school beginning June 6 and continuing for two weeks. Miss Cora Baggs will outline an art program. Mrs. W. P. Zilly will be in charge of the primary division and Mrs. E. W. Bowman of the intermediate division. Rev. M. W. Bowman will act as director.

Mr. Savage has returned here from Tennessee to make his home. Mrs. Richard Sparks has gone to Hamilton, O., where she will join her husband. Mrs. Sparks was formerly Miss Ada Brown.

Mrs. Ola Mae Brown, Arden, O., was here to attend the funeral of her father, W. J. Austin.

Miss Helen Turner is visiting here from San Francisco.

Miss Capitola Brown has returned to her home here after spending the past winter teaching in Ketchikan, Margaret Fisher, who has been attending school in Berkeley, has arrived in Kimberly to spend the summer.

Mrs. Harold Broadhead and daughter visited here Friday. Marie Broadhead was among the graduating members although she spent the last semester in Nampa. Mr. Broadhead was formerly the Smith-Rughes instructor here and is now located at Port Arena, Calif.

Handcrafts Studied By Bible Students

Several students at the Presbyterian church vacation Bible school are busy with various handcrafts. Mrs. H. W. Merritt, director, announced today. Additional students are welcome, she stated.

Girls' classes are making baskets and the boys are fashioning airplanes. The young children are also having handcraft instruction.

Elephants in Oastes

COLOMBO, Ceylon (AP)—The Binhalas recognize 10 different "castes" of elephants, according to P. E. Deraniyagala, acting director of the Colombo Museum, who addressed the Royal Asiatic Society here.

It was customary for the emperors of the Holy Roman empire to be crowned at Aachen, the old Frankish capital, and in Rome by the pope.

PARKING SURVEY TO SPAN NATION

WASHINGTON, D. C.—The American Automobile Association will survey the nation's parking problems this year in an effort to discover "some guiding principles" for its solution.

The association's engineering staff will select typical cities in various population classes and in different sections of the country for the study. They will try to gauge the amount of automobile use resulting from traffic strangulation, and to determine the dollar and cent benefits that would accrue to business districts and to the community as a whole from improvements in the situation.

Experiments in off-street parking and other devices will be studied especially, as the AAA regulation of curb parking is not an answer to the problem.

"No matter how curb space is regulated and controlled, there is not enough of it to meet the growing demands," a preliminary report said.

Meeting At Rupert Held By Bee Men

RUPERT, May 25 (Special)—Mr. and Mrs. E. J. Farnsworth were hosts at their home Sunday for a luncheon meeting of 27 members of the Mini-Cassia Honey Producers' association.

Under the meal group sessions were held. The men met under the leadership of Roy Sohn of Butte, who is president of the association, and had a discussion on the general theme, "Questions and Answers About the Bee Industry." The women's auxiliary, under the direction of Mrs. Mary Barlow of Heyburn, heard a program centered around the origin and history of Mother's day and Memorial day.

The next meeting of the association will be held June 26 at Artesian with Mr. and Mrs. Sohn.

Ex-League Delegate Colombia President

Dr. Eduardo Santos, 40-year-old, is the new President of the Ex-League of Nations delegate from Colombia.

DR. Eduardo Santos, 40-year-old, is the new President of the Ex-League of Nations delegate from Colombia. He will be inaugurated Aug. 7.

Dr. Santos, a former foreign minister and League of Nations delegate from Colombia, is the new President of the republic, elected without opposition. He will be inaugurated Aug. 7.

Filer Club Members Plan Picnic in June

FILED, May 25 (Special)—Mrs. Harry Hostetter entertained the Filer Square club at her home recently when it was voted to have a picnic at Banbury's natarium on June 19 for members and their families. The program was conducted by Mrs. L. W. Hawkins.

Refreshments were served by the hostess. Next meeting will be at the home of Mrs. Earl Johnson.

JEROME SENIORS ATTEND SERVICES

JEROME, May 25 (Special)—Ingratious biographical services were conducted Sunday evening at the Jerome high school auditorium for the 1000 seniors when the Rev. Russell V. DeLong, president of the Northwest Nazarene college of Nampa, spoke on the subject, "Carrying the Ball of Life." He stressed four particular attributes needed in life to make life what it should be, ability, talent, cooperation, and training.

The procession was played by the high school orchestra led by Gustav Fichtner followed by the invocation by Rev. Allen F. Roberts, minister of the local Nazarene church. A triple trio under the direction of Miss Anna Mae Cummings sang an old crusader's hymn, "Beautiful Savior," and James Davis sang, "If With All Your Heart, Mind, and Strength You Will Follow the Earth Is the Lord's." Followed by the benediction offered by Rev. W. F. Willis of the Presbyterian church. Recessional was played by the orchestra.

Visitors Fichtner for instrumental and Mrs. F. Willis for vocal solo. Mrs. F. Willis, who is president of the Y. W. C. A., will be at the home of Mrs. Earl Johnson.

DEVELOPING

HANDS CHEER FOR HITLER AT SUDETEN FUNERAL

Down With Small Doorways!

WASHINGTON, May 26 (AP)—The hands of thousands of German workers cheered and waved as they gathered for the funeral of the late Adolf Hitler in Berlin today.

The funeral was held in the presence of thousands of workers who gathered in the streets to pay tribute to the late Führer.

The funeral was held in the presence of thousands of workers who gathered in the streets to pay tribute to the late Führer.

ATTORNEY RAPS YARDS DECISION

WASHINGTON, May 26 (AP)—The attorney general today charged in a brief to the supreme court that the administration is using "the political philosophy of a totalitarian state" in attacking the court's Kansas City stockyards decision.

Wood's assertion was contained in his brief opposing the government's request for a reconsideration of the supreme court decision which held the rate to be invalid because of a defect in the secretary of agriculture's procedure in setting the charge.

"The government's real objection to the court's decision," said Wood, "is not that the court has reversed itself, but that it has refused to accept this argument (the government plea in behalf of the rate order)."

"It is an argument based upon the political philosophy of a totalitarian state and not of a free people. Administrative convenience and dispatch may not be put above the essential requirements of fair play and due process."

AUXILIARY MAPS POPPY DAY HERE

Preparations were under way today for Auxiliary Legion members preparing for the Legion's memorial poppy sale in Twin Falls today.

The auxiliary members will be the Legion auxiliary's call for volunteers to distribute the flowers for Poppy Day was reported this afternoon by Mrs. J. E. Tomlin, poppy chairman for the Twin Falls unit.

Casey, Mrs. Allen

While the majority of workers will be members of the American Legion auxiliary, both adult members and women, the Camp Fire council has volunteered its services.

"The auxiliary is very grateful to all those who have volunteered to help us distribute the poppy flowers," the chairman said. "We know that hard work and sacrifice will be required of them. We are sure the public will recognize their sacrifice when they appear on the streets Saturday, and will respond to them in the same spirit that their service is given."

Unpaid Volunteers

All workers will serve as unpaid volunteers, permitting every penny to go to the poppy fund for the auxiliary's rehabilitation and welfare funds. This money is the principal source of support for the continuous program of aid for disabled veterans and families of the dead and disabled carried out by the auxiliary.

The local poppy corps will be part of an army of 100,000 women who will distribute the little red memorial flowers throughout the country on Poppy day, to honor the war dead and raise funds to aid those living in suffering and need because of the war. More than 10,000,000 poppies have been made for the day's observance by disabled veterans in government hospitals and auxiliary work rooms located in 40 states. Fully \$1,000,000 is expected to be received in contributions for the poppies.

The auxiliary's poppy committee includes Mrs. Tomlin, Mrs. R. E. Joslin, Mrs. Grace Ott and Mrs. C. O. Boose.

Copper Takes Long Tumble

NEW YORK, May 26 (AP)—Price of copper fell 10 cents today when spot copper fell 20 to 26 cents, to \$27.00 a pound and scrap copper here was reduced 1 cent to 7 cents.

Carryover sales of export red metal was reported earlier in the day at \$27.00 a pound, European base price, but with the wire bar price at \$20 cents some quarters looked for later business as low as \$25 cents. The uncertain foreign political scene was chiefly responsible for the nervous market tone.

Customs numbers in reducing the price of numbers one scrap to 15 cents, made their fifth cut in less than a week, bringing the price to its present level from 17 1/2 cents.

Copperite corps held a meeting a pound but fears were expressed that a further cut may be necessary in view of the foreign situation. Buying here was negligible.

PAIR NAMED FOR STOCK MEETING

Stock producers from Kimberly and Rock Creek will form the Twin Falls county delegation representing the Western Stock Growers' association at the annual convention of the Idaho Cattle and Horse Growers' association.

The delegates will be Mrs. Carrie Crockett, Rock Creek, and E. V. McIntyre, Kimberly.

They will represent the association that includes the cattle industry of the western division of Minnesota.

Other stockmen of south central Idaho will also attend the convention, but the list was uncertain today. The sessions will be held Tuesday and Wednesday, May 31 and June 1, at the Hotel Bannock, Pocatello.

Speakers, announced in Monday's Evening Times, include Idaho and out-of-state experts on cattle, horses, meats, animal diseases and other topics important to producers.

Public Forum

RIGHT TO PETITION FOR PENSION BILL

Editor, Evening Times:

Since some of the congressmen are making a desperate effort to get the pension bill H. R. 4199 (owned bill) onto the floor for debate before the coming election, I wish to submit the following to the Record.

Yours truly,
MR. SQUARE DEALER
Twin Falls, May 25

EXTENSION OF REMARKS OF HON. JOHN H. TOLAN Of California

In the House of Representatives Tuesday, May 2, 1938

Mr. TOLAN: Mr. Speaker, millions of our people have petitioned Congress in favor of H. R. 4199 and many congressmen are strongly in favor of this bill. Yet we cannot obtain a hearing before the ways and means committee so that it can be reported out on the floor of the house of representatives.

Under the constitution of the United States our citizens have a right to petition congress. Millions of citizens have so petitioned for the enactment of H. R. 4199 into law. How can the soundness of this proposed legislation be determined until it is fully presented to the committee?

Thousands of intelligent American citizens in all walks of life and in every state in the union believe in H. R. 4199. Surely they cannot all be wrong. They have an un-

deniable right to petition congress to test themselves for national recovery and a pension measure.

The fight toward this end has only begun and the ways and means committee should listen to the voice and petitions of the people and grant an immediate hearing on H. R. 4199.

We have now 118 signatures of congressmen on the petition to discharge the ways and means committee and 131 signatures on the petition to Chairman Doughton, of the ways and means committee, to grant a committee hearing on H. R. 4199.

Many economists and some of our country's brightest minds are in favor of the principles of this proposed legislation, and with millions of our people knocking at the doors of congress for its enactment, or at least brought on the floor for debate, it seems unreasonable that a hearing must and should be given at once by the ways and means committee for the forces of public opinion must and will finally prevail.

HEYBURN

Ernest Carrier, accompanied by two friends, arrived Saturday from Virginia to spend a month with friends. The trio has been attending engineering school in the south.

S. B. Fisher is confined in the B. H. hospital receiving medical treatment.

Mr. and Mrs. Roy Skinner spent several days with E. R. Skinner and family on their way to Nebraska.

J. V. Hopley, Brigham City, Utah, is visiting his brother here. He will return to his home soon.

Mr. and Mrs. Byron Lowry, Cwybe, Nev., spent the week-end in Heyburn. Mr. Lowry is an instructor in Cwybe.

IDAHO GETS WPA AID OF \$89,779

WASHINGTON, May 26 (AP)—Sen. James P. Pope, D. Ida., announced presidential approval of five weeks' progress administration projects for Idaho totaling \$89,779.

The projects included: Kootenai county, improve Otis Orchards Irrigation district system, \$19,418; rehabilitate damage caused by recent floods along Coeur d'Alene river and tributaries, \$19,241; Madison county, construct levee at county roads, \$22,222; Caribou county, improve county roads, \$11,160.

The X-ray was discovered by Roentgen in 1895.

Ball Follows Plan Meeting For Protests

Do you want a "top-dog" party? If you happen to be more than 100 miles from here, here's a tip on a unique party you can attend in the heart of the state.

It's a ball to be held in Magic Valley. At Chicago, in the Hotel Sherman, next Monday, the big "top-dog" party will be held. The party will feature a program of music, dancing, and other amusements. The party is open to all, and the admission is only one dollar.

Rupert Grangers Consider Roads

RUPERT, May 25 (Special)—Eighty members of the Rupert Grange met in regular session at the Christian church annex Friday with Grange master, M. F. Culler, presiding. The business period was largely devoted to a discussion of highways as related to an appropriation bill now before the senate by Luke Williams, member of the high road.

The approaching meeting of the Farmers' Grange to be held in Alpine, June 1, and the grading of the highway to the north of Rupert, will be discussed. A poultry expert who will speak on egg grading is expected at the next meeting.

The lecture hour was devoted to a review of the year's work and included a reading by Luke Williams, a talk by C. E. Soule, a report by the Grange secretary, a humorous skit by Jack Kiers and several musical numbers on the harp and accordion by Jim Bell and Dan Reed.

Utah Faces Cut In Relief Grants

SALT LAKE CITY, May 26 (AP)—The Utah state board of public welfare today filed with the attorney general a petition for relief grants to reduce the relief bill, which is now before the senate.

Decreased sales tax revenues and an increased relief burden are factors responsible for the action.

The average old age relief payment in Utah is \$23.00 a month.

Attorney General Joseph Chesley today advised the board that the board can fix personal and real property limitations.

FARMERS STREAMLINE PLANTS

LONDON (AP)—British farmers are streamlining plants to produce finer fruits and vegetables and more beautiful flowers, the agricultural research council reveals.

Spray Less Spray Wisely with AVON Emulsifine

Spray for codling moth with AVON Emulsifine immediately after peak egg laying. With proper timing you catch the greatest number of eggs—destroy them with AVON Emulsifine. You see, AVON Emulsifine is a positive codling moth ovicide. AVON kills every egg it touches! A thorough coverage means 97% to 100% orchard control in your orchard.

AVON increases lead deposit

AVON's emulsifying agent has a natural affinity for lead arsenate, and spreads the lead smoothly and evenly. It gives many times the coverage and deposit that is possible with an equal dosage of lead arsenate alone. No blotches, no holes, the classic "slim" grows with the fruit! Offspring complete protection for a longer period. Call Associated or an authorized distributor today and ask about AVON Emulsifine.

Also AVON EMULSION FLOWABLE AND PASTE TYPE

AVON Emulsifine is a natural affinity for lead arsenate, and spreads the lead smoothly and evenly. It gives many times the coverage and deposit that is possible with an equal dosage of lead arsenate alone. No blotches, no holes, the classic "slim" grows with the fruit! Offspring complete protection for a longer period. Call Associated or an authorized distributor today and ask about AVON Emulsifine.

HOUSE SENDS BATTLED WAGES-HOURS BILL TO SENATE

REPRESENTATIVES APPROVE ACT BY VOTE OF 314-97

WASHINGTON, May 28 (AP)—The House sent the embattled wages and hours bill to the senate today when it passed a consolidated conference report for the bill...

A powerful administration drive defeated attempts in the House to amend the universal standard for wages and hours about 12 hours of debate. The House voted 314 to 97, last night to pass the bill in virtually the same form as written by Chairman Earl W. Rorer...

But southern opposition in the senate will be stronger. It was headed by the support of Sen. Pat Harrison, D., Miss., who will be one of the leaders in the fight to make the wage provisions more flexible in southern states...

Other amendments adopted would exempt child workers from the child labor provisions and exempt weekly or semi-weekly newspapers with circulation of 1,000 and less. The tally on the final vote for passage showed that the Democrats, 46 Republicans, seven Progressives and five Farmers-Laborites voted for passage...

As passed the bill fixed a minimum wage in interstate industries, including the operation of 25 cents an hour for the first year, 30 cents the second, 35 cents the third and 40 cents for the fourth and succeeding years...

Administration would be lodged with the secretary of labor, authorized to determine priorities, expedite or postpone or to suspend such measures. The administration will make an effort to pass the measure...

At the close of the convention, southern enthusiasts will adjourn to the farm of John E. Egan, Ky. month here. The bill will permit breeders assembled from every state to take home with them "seed stock" of their own choice...

Use Green's Ice Cream for Parties, Luncheons, Birthdays. The success of any party depends upon good refreshments. Our Ice Creams are artistically made of specially selected ingredients...

EDEN

Ben Bodenbender with his brothers, Bob and Russell, has returned from Mountain Home, Ark., where they had spent two weeks on the property of the late Mrs. Bodenbender...

COURT TO HOLD ON BEER

BOISE, Idaho, May 28 (AP)—The court will hear the case of whether a county commission has the right to regulate the sale of beer...

The court will hear the case of whether a county commission has the right to regulate the sale of beer. The case involves a challenge to a county ordinance...

CANADIAN YUKON FACES CHANGES

OTTAWA, May 28 (AP)—A "Big Brother" movement was launched here at the recent sitting of the British Columbia commission, appointed to consider provincial affairs in their relationship to the dominion...

The commission, appointed to consider provincial affairs in their relationship to the dominion. It is expected to report on the proposed changes to the Yukon and Northwest Territories...

The Yukon and Northwest Territories are facing significant changes. The federal government is considering a number of proposals to improve the administration of these territories...

Bit Conscientious. NEBRASKA CITY, Neb. (AP)—Sheriff Cary Ryder is looking for a "conscientious burglar." After robbing the home of Mrs. E. G. Miller, the burglar permed two ones. One read: "Sorry, but we had to have your money."

ROY'S TODAY and TOMORROW! 2-3 FEATURES. No. 1. WAGNET. No. 2. WAGNET. No. 3. WAGNET.

No "Pioneers" Wanted on Tiny U. S. Islands in Mid-Pacific

WASHINGTON, May 28 (AP)—Secretary of the Interior Harold Ickes said today that he has no intention of allowing pioneer settlers on the tiny islands in the mid-Pacific...

The secretary and other officials of the department of the interior have been deluged with letters from enthusiastic citizens who would like to get "away from it all" in the islands. Ickes said that the islands are not suitable for pioneer settlement...

There is no immediate possibility of planting waving fields of grain. The letters come in from all over the country, and many of them are from people who have never seen the islands...

There are a few straggly clumps of palms, oak, and pine trees on one side of the island, but the vegetation scarcely yields sufficient shade to shelter man or beast from the sun. The islands are not suitable for pioneer settlement...

IF YOU ARE THIS TYPE YOU'LL LIKE THIS BOURBON THAT'S "Double Rich!" HAVE YOU EVER HEARD OF... Cream of Kentucky Bourbon. BARNARD AUTO CO.

cellent runway for a landplane however. The United States has colonized the islands, officials point out, with the strong, sturdy youths of the Kamehameha school of Honolulu...

Neither of the two islands has a harbor suitable for anything larger than a medium-sized rowboat. Canton and Enderbury are a pair of scrubland islands, and both are in the middle of the Pacific ocean...

Enderbury Island is even more unsuited for anything larger than a medium-sized rowboat. The islands are not suitable for pioneer settlement. The vegetation scarcely yields sufficient shade to shelter man or beast from the sun...

and here's their report... The new Goodrich tire gave greater skid resistance than any other tire tested. The tire is made of a special rubber compound...

MURRAY, Utah, May 25 (U.S.)—State highway patrolmen today held a 19-year-old Provo youth and sought an asserted companion in connection with two armed holdups and an attempted third last night in Provo.

Jones Hands U. S. Legal Staff a Severe Beating—On Golf Course

By FRED RAILLY
WASHINGTON, May 25 (U.S.)—Attorney General Homer S. Cummings, surrounded by virtually his entire legal staff, recuperated today from a decisive beating at the hands of an Atlanta attorney.

Bounty Paid for 1,100 Magpies at Shoshone Station

SHOSHONE, May 25 (Special)—Up to 1,100 magpies have had their heads and the trophies have been turned in by young hunters to Secretary George B. Handcock of the Shoshone Rod and Gun club at two cents each, and the campaign proceeds. It is a little difficult for the young sports, however, as the water around the lake varies a great deal, with a tendency toward high during the last few days, thus making hunting using the banks something of a job. Crows, chucks, certain varieties of hawks and other predatory birds and animals, including coyotes, are coming under the elimination schedule, in consequence of which the game birds are getting a break, notwithstanding that water washing the good many ducks and pheasant nests along the water ways.

A grand double holiday . . . the first this spring . . . time to have the family bus "tuned up" . . . time to pack up golf clubs, swimming duds, picnic lunches . . . it's time to "get-away-from-it-all." It's time to explore the native grandeur and beauty of our own community. Here's a section devoted to south central Idaho with a wealth of "trip-tips" to spur the "week-ender" on to new discoveries in recreation and scenic treats. Save this section . . . it bears the hall-mark of nature's wonders right here in the most beautiful part of the Gem state . . . send it to your friends! This week-let's travel in Magic Valley!

RUGGED AREAS IN ATLANTA JOURNEY

From the standpoint of being unspoiled, virgin territory, motorists of this section of Idaho will find a "paradise" in the rugged country which surrounds the Coeur d'Alene river, the famous mining town of Atlanta.

This fact was revealed here to-day by W. Carpenter who, with his wife, made the trip last summer, and intends to return again this year.

New and Unspoiled

"Residents of Twin Falls and this section of Idaho should take more advantage of this trip than they will lead them into country which is still as new and untouched as in the days before the white man came west," Carpenter commented.

"The trip can be made in two days, if so desired, but in order to really enjoy it a week's outing should be planned in order that the country around Coeur d'Alene river can be adequately explored and enjoyed."

The entire trip is approximately 350 miles if the return to Twin Falls is made by way of Boise, Carpenter's mileage chart shows.

From Twin Falls the motorist follows the road which leads to the wilderness from the west to the historic placer mining town of Featherline which is on the south fork of the Boise river.

To Rocky bar

From Featherline the road leads north to Rocky bar, another historic mining settlement which this summer will take on some of its former aspects as the quest for gold starts once more. From Rocky bar the traveler "goes over" the steep, narrow summit road to the picturesque town of Atlanta, a "bonnet" of the early days. This trip of miles over the summit is termed a "slow" road but those making the trip, say the scenery is so abundant that many stops will be made before Atlanta is reached.

From Atlanta it is but five miles down the middle fork of the Boise river to Queens river and "turner's end" so far as automobile travel is concerned.

Queens river is termed by those who have fished the area as the "most ideal" trout stream in Idaho. Pack trips can be made into the wilderness from this point and the services of Carl Boppert, pioneer guide, are available.

After Queens river, the motorist turns back and returns to Twin Falls by way of Boise after traveling down the middle fork of the Boise river.

MICHIGAN GIVES CONSUMERS TIPS

By HENRY ALEXANDER

DETROIT, May 28 (UP)—A weekly consumers market report service furnishing Michigan housewives with tips on the best buys in the produce market is functioning here as the first step in a broad program of the consumers' bureau of the state department of agriculture. It is directed by Mrs. S. A. Frazer.

By means of a consumers' market report committee, established in every wholesale center in the state, a weekly market report entitled "Marketing Tips to Housewives," is prepared each Thursday and published in 15 daily newspapers.

The report committee, it was explained, comprised the municipal market master, the food inspector, a wholesale produce man, a wholesale meat man, and a woman consumer prominent in the civic affairs of the area.

The weekly reports, Mrs. Frazer explained, serve the three-fold purpose of: serving as a buying barometer to the housewife to tell her when the peak is reached for various produce; preventing the merchant from buying in a plentiful wholesale market and selling on a scarce price, and keeping perishables moving throughout the state.

This state-sponsored consumers' bureau, an outgrowth of a four-year experimental county consumers' council was organized by Gov. Frank Murphy in January, 1933. The first tax-supported bureau of its kind in the country, the state consumers' bureau is a pioneer in attempting to help the consumer buy intelligently to increase the value of his purchasing dollar.

Information Available

Factual information concerning the fundamental requirements of produce to be purchased will be made available to the consumer through the bureau's information division.

The approach to the consumer's problems is made through these four divisions of the bureau's activities:

1. The service division which operates directly with the consumer and deals with his problems as they are reported.
2. The research division, concerned chiefly with the producer, compares various products in an attempt to set a standard of quality and specifications and to promote suitable trade practices which will produce the best price.
3. Correlation division, which brings together the results of the first two divisions to work out satisfactory factual and practical results.
4. Information division, which disseminates and publishes the findings of the bureau.

The broad general aim of the bureau in its work is to promote co-operation between the buyer and the seller with the end in view of setting up equitable standards of grade and quality. Such an act of recognized standards will foster confidence between the buyer and merchant desirable and beneficial to both, the bureau believes.

Tom Thumb was 91 inches tall and his real name was Charles Stratton.

Travelogue of Trip-Tips

Here's your Evening Times travelogue of "trip-tips," handy guide to the best week-end auto jaunts now and for years to come. Clip this and save it.

All directions are based on a start at Twin Falls. For other south Idaho communities, add the route to Twin Falls.

Craters of the Moon—U. S. 93 to Shoshone; turn off on Richfield road, state route 23; take route 22 from Carey to Craters.

Land of Lakes above Galena Summit—U. S. 93 over summit and into Sawtooth basin and Stanley basin country. Left from 93 at Stanley for Stanley lake. (Specific lake directions below.)

Atlanta country—U. S. 93 to Jerome; state 25 to Wendell, Gooding and on 25 and 48 to Fairfield; thence north to Smoky river; then west to Featherline on south fork of Boise river; then north to Rocky bar; over steep summit 14 miles to Atlanta; then five miles down middle fork of Boise river to Queens river, termed "most ideal" trout stream in Idaho.

Alturas lake—U. S. 93 over Galena summit; five and one-half miles more on 93, then turn left, go three miles.

Pettit lake—U. S. 93 over summit; 11 and one-half miles more on 93; turn left one and one-quarter miles.

Pettit lake ranch—U. S. 93 over summit; approximately 12 miles more on 93 to ranch entrance and general store.

Rocky Mountain club—U. S. 93 about eight miles above Pettit lake turn-off; turn right at club entrance.

Little Redfish lake—U. S. 93 to approximately eight miles further than Rocky Mountain club; turn left one and one-half miles.

Big Redfish lake—U. S. 93 to Little Redfish turn-off road; go one mile past Little Redfish.

Stanley—U. S. 93 to six miles further than Redfish lakes turn-off road.

Stanley lake—Turn left off 93 at Stanley; go about six miles.

Ketchum and Sun Valley—U. S. 93 directly into Ketchum. Turn right one and a half miles at Lane's general store for Sun Valley.

Hailey—U. S. 93.

Hailey-Ketchum camping and fishing—U. S. 93 to Hailey; three miles north of Hailey turn left up Deer creek to Clarendon Hot Springs; leaving Ketchum, turn left up Warm Springs; nine miles north of Ketchum turn right for north fork of Wood river, with fine camping from north fork to foot of Galena summit, including Baker creek, Easley Hot Springs, Prairie creek.

City of Rocks, Oakley—U. S. 30 to Burley; then south on Oakley road to Oakley. Or, route advised by Oakley Valley Chamber of Commerce about July 1 and thereafter, U. S. 30 to Murtaugh, cut-off to Oakley. Oakley to City of Rocks directions available at Oakley for latest information.

City of Rocks, Gooding—U. S. 93 to Jerome; state highway 25 to Gooding; local directions at Gooding.

Sinking canyon—U. S. 30 to Buhl; continue on 30 six miles north and west of Buhl; leave pavement and continue one and one-half miles west to end of road.

Artesian—U. S. 30 to Murtaugh; turn south seven miles.

Shoshone falls—Addison three miles east to Shoshone falls turn-off; turn left, follow county road two miles to canyon road; drive down canyon.

Dierke's lakes—Shoshone falls route to half-way down canyon road; continue straight at Dierke's roadway.

Hot springs—South from Main avenue on Blue Lakes boulevard south; take Salmon tract road past Rayl farm and Allendale school for 4 1/2 miles.

Nat-Soo-Pah—U. S. 93 to Hollister; quarter-mile past Hollister and three miles east.

Thousand springs park—U. S. 30 into Hagerman valley 31 miles.

Banbury—U. S. 30 through Buhl; 11 miles further on 30, then one mile on Banbury turn-off.

Mary Alice park—U. S. 93 two miles north; turn mile east on park and Shoshone falls cut-off.

Lape Horn country—U. S. 93 to Stanley; turn left at Stanley.

Robinson bar region—U. S. 93 to Stanley; continue about 35 miles to Robinson bar turn-off road.

Clear lakes—U. S. 30 to Buhl; turn right at main intersection; pass Snake river bridge and turn left at Clear lakes entrance road.

Blue lakes—U. S. 93 north to turn-off at curve heading for rim-to-rim bridge; drive down Blue lakes grade, cross Snake river near Blue lakes ranch; continue past ranch to lakes.

Shoshone ice caves—U. S. 93 to Shoshone; continue approximately 16 miles on 93 to ice caves turn-off road at left.

Balanced rock—U. S. 30 to Buhl; turn left at main intersection to Castleford; continue on Castleford-Roseworth road to Balanced rock cut-off trail.

Salmon dam—U. S. 93 to Rogerson; turn right on road leading to dam.

Kitty's Hot Hole (Murphy's Hot Springs)—U. S. 93 to Rogerson; turn right to Salmon dam; continue through Cedar creek and Three creek.

Magle reservoir—U. S. 93 to Shoshone; continue on 93 for 26 miles, turning left at railroad tracks past "cottonwoods"; go four and one-half miles to dam itself. Or, for fishermen using boats, turn off on climbing Timmerman hill; turn left, go five and one-half miles to dam headwaters.

Mt. Harrison and Lake Cleveland (atop the mountain)—U. S. 30 to Burley; turn south to Albion. Go approximately 10 or 15 miles south of Albion; hike about half mile on good trails to lake. (Snow makes mountain impassable until July).

Independence lakes—U. S. 30 to Burley; turn south to Albion. Inquire locally for best routes.

Silver creek—U. S. 93 through Shoshone and over Timmerman hill; turn right on dirt-gravel road at foot of Timmerman, drive five and one-half to six miles for best fishing spots.

MOVEMENT PERPETUATES SPIRIT OF PIONEERS

From Idaho Past Comes National Monument Plea

Out of the past that marks the graves of brave pioneers who sacrificed their lives in search of a new life, a group of interested persons this year have joined in a determined effort to have one of Idaho's most historic and scenic sections set aside as a National Monument "free from commercialism and the destructive hand of man."

The historic and unique section of the City of Rocks, located on the Old Oregon Trail near the community of Oakley, is one of the most interesting and scenic spots in Idaho. It is a natural wonder, a place where the elements of nature have worked their magic over the centuries to create a scene of unparalleled beauty and interest.

The City of Rocks is a natural wonder, a place where the elements of nature have worked their magic over the centuries to create a scene of unparalleled beauty and interest. The rocks are of various shapes and sizes, some of them being of a size and shape that are almost unbelievable.

The City of Rocks is a natural wonder, a place where the elements of nature have worked their magic over the centuries to create a scene of unparalleled beauty and interest. The rocks are of various shapes and sizes, some of them being of a size and shape that are almost unbelievable.

ARTESIAN OFFERS SWIM AND DANCE

Artesian, a national hot water swimming pool, located on the hills just seven miles south of Murtaugh and offers a convenient location for south Idaho residents looking for a swim and a picnic spot.

In addition to the pool 50 by 60 feet in size, and filled with water from artesian wells, a small dance floor and concession stand of ice cream and candy are maintained. Around the natural hot springs is a park and trees which may be used for picnics. Lunches and sandwiches are available on Sunday and may be had any time during the week by making previous arrangements.

Wanted: Mud Baths
Originally slated for mud baths, the first excavation was made about 1907 by a pioneer by the name of Charley Stoner. When it was found that the water contained little or no minerals and tested 98 per cent pure, the first pool was erected. The same pool of about 25 by 50 feet is still in existence but is not used as much as the larger facilities.

The present motorist was constructed after purchase of the location in 1918 by J. H. Stoner. It was at this time necessary to install motors to pump the water, which nevertheless had flowed without assistance.

D. Nale Manager
The property is still owned by J. H. and Julia Stoner and is managed by D. Nale, and dressing rooms are available at the pool.

Advantages at Artesian offer an ideal opportunity for a one-day or even an evening outing of swimming and picnicking.

Some pioneers as well as providing for the protection of the area, that the national monument movement has gained such headway.

From this summer the area will be the mecca of the governors of seven western states, their aides and thousands of the descendants of the sturdy pioneers as they gather at the City of Rocks to pay homage to their forefathers.

The gathering will be held on Pioneer day, July 24.

So from this little known section of Idaho, with its wonders unequalled in the United States, may spring the next national monument to be designated by government officials. And then the people of the past will be thrown open and the roads of the pioneers preserved for the future generations.

The roller process of flour production was introduced into the United States from Hungary about 1870.

And yet, for all its wonder, the City of Rocks area is not the only attraction in the vicinity. Immediately adjacent to the proposed national monument are the five Indian sections of the descendants of nearly any place in the United States. So high in the mountains the Indians can see another by their means of escape. Down to the wagon's edge crowd great pipes and mountain trails, blazed by the pioneers, across the area.

They say the sportsmen of Idaho would be one of the most ideal fishing grounds in the nation if it were possible to permit the public in general to reach the section. At the present time the last few miles are made on foot but the reward is well worth the effort. It is more than worth it. Trout abound in the lakes and the hardy climber may find it well worth the opportunity of testing their skill with that of the mountain trout.

Names on Rocks
In the hills near the City of Rocks area which is springing into national prominence. And, as if they knew that someday their names would go down in history and be preserved for posterity, many of the wagon train members who long ago blazed the Oregon Trail westward wrote their names in wagon grease on sheltered rock ledges. The signatures are still plainly visible today and in one instance a rock wall, protected from the weather, forms a register of the names of the pioneers—each with the date. The party journeyed through the then "wild and dangerous" section of what is now Idaho.

So it is with the vivid thought of forming a fitting tribute to these

Nature Sharpens the Appetite

An outing like this in Sawtooth mountain surroundings is the ideal way to spend Memorial day's double holiday—or any other week-end during vacation time. And you'll find such impressive out-of-door spots in dozens of places in Magic Valley's wonderland.

Irrigation was practiced by the ancient Egyptians.

Deco Seniors Hear Address by Pastor
DRELO, May 25 (Special)—Rev. George Roseberry, Rupert, delivered the biocultural sermon Sunday at the recreation hall honoring the senior class. The procession was played by Mrs. Gladys Pickett. Two numbers were sung by the girls' chorus. W. P. Richards gave the invocation and Leonida Pappas and Oscar Peterson sang a duet. Warren Rollister sang and Bishop Hurst gave the benediction.

GOODING ROCKS WEIRD MARVEL

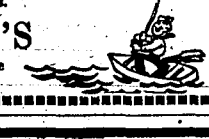

Although the City of Rocks near Oakley has been monopolizing the lion's share of national publicity recently, the City of Rocks has Gooding provides an impressive sight that ought to be placed at least once on every Magic Valley traveler's log-book.

To reach this marvel from Twin Falls, the motorist takes U. S. 93 into Jerome, then branches off on state highway 25 through Wendell and Gooding. From Gooding, the City of Rocks is easily reached.

Huge round stones, colored in unusual brilliance, form the eastern end of the City. Approximately a mile into the area and 600 feet to the right is a canyon offering a fine view. In another deep canyon to the left and south are many amazing formations. To the visitor, the view seems to present a panorama of castles, summits, gorges, old ruins, cones, pyramids and fortresses.

Close exploration reveals the beauties of this area where a brief examination is apt to disappoint the watcher. As a result, those who know the Gooding City of Rocks advise: "Make a day of it."

Blue Lakes Ideal Outing Spot

Gaining favor increasingly as an ideal over-Sunday outing spot for Twin Falls, Jerome and other counties of this area is the Blue lakes ranch—famed pioneer building of L. B. and Hortense Ferriss.

The Blue lakes area is at the bottom of Snake canyon, only a few minutes drive from Twin Falls. Its attractions include the lakes of amazing blue, the beautiful Alpheus creek and its spectacular waterfalls, and scores of ideal picnic spots.

The Blue lakes themselves are on the north side of Snake river, cradled at the bottom of rugged canyon walls. Both are stocked with Rainbow trout, and fishermen flock to the area each week-end. Alpheus, too, is stocked with trout ranging up to four-pounders, and its swift current, numerous rocks and fre-

SCENIC BEAUTY MARKS 187-MILE ROBINSON BAR TRIP

Region Compares with Any Famed U. S. Area

One hundred and eighty-seven miles, most of it filled with scenic beauty comparable to that found in any other section of the United States, is the journey awaiting the motorist who chooses to drive from Twin Falls to Robinson Bar, in the vicinity of the beautiful Snake river mountains.

Both at Robinson Bar and also at Stanley entirely adequate facilities for stays of an indefinite period are available. The traveler should plan to stay at least one night at either of these points or Stanley to enjoy the thrill of being "in the heart of God's country."

At both places horses are available for hire and the trails blazed through the area years ago when the west was young which can still be followed, and thrilled to today. The highway from Stanley to Robinson Bar runs along the banks of the Snake river. Prior to construction of the dam, the old road was a "one-way" affair and it was had to be crossed at every turn and hill. Now the "two-way" road is a pleasure to travel the entire distance.

Scenic Highway Unit Plans Meeting Here

Leaders in boosting the "Four States highway," one of the scenic routes in Idaho, California, Montana and Nevada will convene in Twin Falls next September for the annual convention of the International Four States Highway Association.

The convention will be held under auspices of the Twin Falls Chamber of Commerce, and will chart plans to publicize the attractions along the scenic routes.

Four States highway, desires to assist in publicizing this great new western arterial.

From Boise, through J. H. Stammer, state director of highways, comes announcement of extensive improvements on the highway from Challis to Sun Valley, Idaho, spots in the Sawtooth and Stanley basin areas. Director Stammer has announced a plan of progressive improvement of a great scenic route in that section of the state, said a portion of this route includes a long section of Highway U. S. 83.

Challis park's engineer reports that 124 of the park's 104 miles of forest highways are in the midst of construction and that many miles of new roads have been built in the park the past week.

Except for a gap of a few miles in extreme southern California, and a short temporary detour near Challis, the highway is now being constructed to modern construction standard. Almost 90 per cent of the total mileage is hard surfaced. The recommendations for the traveler all along the route are excellent.

This highway serves some of the most important areas in the western United States, it leads some of the nation's incomparable scenery—the mountains, rivers, lakes, parks and forests of Montana and Idaho for example. It leads to fascinating desert places in Nevada and California in the winter. It serves the Canadian Rockies and Glacier National park, Boulder and Grand Teton national parks in Montana and a great area in between. It is also a most convenient connecting link from and to all the west's incomparable east-west highways of the country.

START YOUR FISHING TRIP HERE

It's hard to get your fishing tackle from us because we have a complete stock and are open early and late.

When you've hooked a big one and the line is taut and seems as though it would break any second, then you'll be thankful for tackle from Dell's—tackle that is tested and approved by leading sportsmen.

Thumbnail Trip-Tips on Nine Ideal Auto Jaunts

You don't have to leave south central Idaho if you want ideal motor trips into scenic spots. That's the advice of J. Matt Johnston, Shoshone, district engineer for the state Bureau of Highways. Johnston and his highway aides know the scenic possibilities of the Magic Valley, and their "trip tips" to readers of the Evening Times offer a guide that every south Idahoan should file away for use this summer and in other summers.

There are no less than nine suggested motor trips that answer your question of "where to go."

Here's the Great Trip No. 1—Twin Falls to Shoshone via U. S. 83, thence to Richfield, Carey, Craters of the Moon and Arco, north through Mackay to Whiskey Springs where you take road to the left for Trail Creek summit. Sun Valley and Ketchum returning to Twin Falls via Halley, Shoshone, Hansen bridge route is used on Trail Creek road from Summit into Ketchum. Fine camp grounds at Cottonwood Grove, 14 miles north of Mackay and at Park Creek near Trail Creek summit. This latter is a public camp ground provided by the forest service. Swimming at Conda, Hot Springs, 4 miles east of Carey, at Bald Mountain Hot Springs at Ketchum and Elavatha plunge at Halley.

No. 2—Twin Falls to Bliss via U. S. 30, state 24 to Gooding, state 48 and 22 into Fairfield, thence north into the Big and Little Snake country. Turn right four miles north of Old Soldier (or six miles north of Fairfield) to Carleton. Turn left at above point for Big Smoky and head of south Boise river, return via same route to Gooding, thence Wendell, Jerome high bridge to Twin Falls.

Camping and Outings No. 3—Twin Falls to Halley via U. S. 83, thence camping and outing at following points: Three miles north of Halley, turn left up Deer creek to Clarence Hot Springs, leaving Ketchum, turn left up Warm Springs creek; nine miles north of Ketchum turn right for north fork Wood river. Pine camping from head of north fork all the way to foot of Galena summit for all those who do not care to go beyond that point, such as Baker creek, Emory Hot Springs, Prairie creek, etc.

No. 4—For outings beyond Galena summit you have choice of Alpenga Canyon, to city of Rocks, Alms, Elms, Redfish, Lake Park lake and Stanley basin country. Turning left from above point of returning over the Alps summit into Oakley or through Albion into Deek and Burley via Malia, Deek and Burley to Twin Falls.

No. 5—Twin Falls, Huhl, over U. S. 83, to a point one-half mile before reaching Orville bridge, turn left over COO gravelled roads into Blue Mountain territory, going to the Chyna's nest, then returning via Balanced Rock, Salmon falls creek, Oakford, Elhai.

No. 6—Twin Falls to Rogersan, turn right to Salmon dam, Cedar Creek, Three creek and Kitty's Hot Hole, now called Murphy's hot spring, on the Jaridge river; return the same way.

COME TO NAT-SOO-PAH! this Summer If you're looking for FUN this summer spend your week-ends at this popular Southern Idaho resort. Never a dull moment for anyone. Drive out and join the crowd. Nat-Soo-Pah is only a half an hour's drive from Twin Falls. Follow Highway 83 to 1/2 mile past Hollister then turn left for about 8 miles.

FAVORITE REGION AT CLEAR LAKES

Clear lakes, historic as the old west yet boasting the best and most picturesque golf course in this entire Magic Valley, is a center of interest "day outing" spots to be found within easy driving distance of Twin Falls.

The Clear lakes are located almost directly north of the city of Huhl in the Snake river canyon. From Twin Falls the motorist goes to the main Huhl intersection, turns right and continues on until the steel bridge over the Snake river is passed. It is but a few hundred feet past the bridge to the entrance of Clear lakes, on the left side of the road.

Pleasure Owners Although the golf course, picnic grounds and the lakes are managed by the Clear Lakes Golf club, all were formerly under one ownership, namely the pioneer Syster family. Mrs. O. E. Syster, daughter of the man who envisioned a beauty spot in the region, still resides with her husband in a home which is modified after the old hotel at Twin Falls.

A Real Trip No. 6—U. S. 83 to Shoshone, state 22 to Arco, state 21 to Challis, U. S. 83 to Salmon City and north 20 miles to north fork, thence down Salmon river to mouth of Panther creek (Big creek); turn up Panther creek to Ferry over Morgan creek summit and down Morgan creek to U. S. 83, nine miles north of Challis and return as above above, or return via U. S. 83, Galena summit, Ketchum, etc. On above trip one may turn up Naples creek at Leopold's ranch and cross to Williams Fork via Forquips Springs, Boswell, Oakley, Burley and return.

No. 7—Twin Falls, Burley, Oakley, up Birch creek through Emory canyon, to city of Rocks, Alms, Elms, Redfish, Lake Park lake and Stanley basin country. Turning left from above point of returning over the Alps summit into Oakley or through Albion into Deek and Burley via Malia, Deek and Burley to Twin Falls.

No. 8—For outings beyond Galena summit you have choice of Alpenga Canyon, to city of Rocks, Alms, Elms, Redfish, Lake Park lake and Stanley basin country. Turning left from above point of returning over the Alps summit into Oakley or through Albion into Deek and Burley via Malia, Deek and Burley to Twin Falls.

KETCHUM PLANS FOR BIG SEASON

With Challenger Inn operating during the hot weather season and the Sun Valley resort scheduled tentatively in August, Ketchum and its surrounding resort regions are preparing for a gala summer round of activities.

The summer season will get underway formally at Ketchum Saturday night, May 25, with an informal dance at the L.O.O.B. hall. Bus Vaughn's Sun Valley orchestra will provide the music.

In Fall Swing
After the grand opening, Ketchum's places of amusement, its pack-trip guides, its cabin camps and hotels, and its resort locations will be in full swing. The Sawtooth club, new resort with an impressive new building, will open this week-end with Cliff Davis as manager. Davis and a south central Idaho resident are owners of the club.

Most of the Ketchum clubs that operated during the winter sports season will be open throughout the summer, and will cater both to other Idaho residents and to "birds" east-ers who come to Idaho for the fishing and outdoors amusement. The Sun Valley golf course and tennis courts will offer added facilities.

The St. George hotel is open, and the Bonin, who has now acquired the complete ownership, is planning a remodeling program.

Weekly dances
Weekly dances scheduled throughout the summer season on Saturday nights.

Opening of Galena summit, expected this weekend, will boost the flow of travel through Ketchum into the Sawtooth lake regions beyond. The crest of the mountain summit stops first at Ketchum, that town's establishments are completing plans to entertain them.

At Hatley, 14 miles below Ketchum, similar busy preparations are being made for a banner season. It is a stopping place for thousands each summer who seek the fishing along Wood river and other smaller streams.

TROUT CONTEST ON OPENING DAY

Opening of the fishing season this year is going to mean more than "just getting out by the streams" to hundreds of thousands of fisherman in the southern Idaho waters.

Reason is that nine local firms have banded together to give the opening of the fishing season a good sendoff by offering prizes for the largest trout (by weight) caught on May 30.

Five Awards
Aside from the main award there will also be four other prizes to those fishermen who catch the next largest trout on the opening day.

Firms participating in the event, probably the first combined effort of its kind to be made for the benefit of fishermen of this section, include the Diamond Hardware, Reed's Ride-Way, Glenn Duerig, Fay-Pak market, Van Engelen, Snowball's Sport shop, Gerrish's Sporting Goods store, Price Hardware and the Town Hardware. The Idaho Evening Times will also offer an award.

All fish entered in the contest must be "undressed" and each must be taken to the Independent Meat company at 236 Main avenue south before Tuesday evening, May 31, so that it can be certified, weighed on accurate, tested scales.

Don't Dress 'Em
Any lawful bait, lure or tackle may be used in catching a fish eligible for the contest but fishermen are reminded again not to "dress" their fish because "every ounce counts."

So, because of the contest, streams in this section of Idaho will have more of a "fun" on opening day, May 30, than for many years past. Prizes announced today in the contest are:

First—\$10.00 Shapleigh fly rod, Snowball's Sport shop; second—\$8 cash, Times and News; third—\$3.50 aluminum fly case and down flies, Fay-Pak; fourth—\$2.75 collapsible landing net, Reed's Ride-Way; fifth—one down hand-lid file, Glenn Duerig.

Although Spanish is the official language of the Republic of Paraguay, Guarani is most used by the majority of the country's million inhabitants.

Taking a Big Toe-Hold

Rock Pinn didn't have anything on the south of Maple valley. During the regular fishing season, Isak Wallesten with \$100 outfits may be found lined up with youngsters with nothing better than a willow pole and a string, both testing their luck in the streams that abound with some of the best trout in the world.

Fishing Spots High Now But May Improve

Most of the fishing streams which will be opened May 29 to Idaho's army of anglers are at present "a little too high" for topmouch trout results, according to ward warden Grover C. Davis, district deputy game warden, from sportsmen in various areas.

"However, we intend to make a complete general survey later this week and after that we will announce specific conditions of all major fishing spots," Davis said.

Davis, Larry Bassett, district deputy, and members of the Southern Idaho Fish and Game association will make the survey.

Possible cheer for the anglers awaiting Memorial day came when Davis intimated that "streams may improve by the opening of the season."

The high water at present was caused by heavy run-off brought on by early warm weather in upper levels.

"At the present time," Davis said, "Murfath lake offers some catches of perch. Perch are also hitting regularly at Salmon dam."

PUT CRATERS ON YOUR MUST LIST

There's no stranger marvel in Magic Valley of the nation than Craters of the Moon.

Every south Idahoan should mark the Craters on his excursion list as "must stop . . ." not once but many times.

Lake Moon's Surface
Near Arco, and within easy running distance of Carey and Mackay, the Craters of the Moon national monument is claimed by scientists to be the nearest approach on this planet to the surface of the moon as we see it through a telescope.

Roads to the monument are good, and the 1933 season officially opened May 23. So the season is now open to the Craters on your "trip-trip" itinerary for this season.

To get there, take U. S. 96 to Rhoades, turn off near Rhoades on the Richfield road, Idaho route 23, drive from Carey on state route 22 to the Craters. As simple as that, and the trip repays you a thousand-fold.

Field of Lava
The national monument consists of a great "field" of hardened lava, remnants of "flow" and ancient volcanic eruptions. The lava has formed into weird and awe-inspiring shapes, and the remaining shapes provide a day of diversion unlike any other.

Scientists estimate that the last eruption occurred between 250 and 1,000 years ago. That makes the Craters "recent" geologically speaking, and places the monument in a class by itself as a fine illustration of modern volcanic activity.

Keynote of the Craters is barren desolation. Dotting this desolation are cinder cones, spatter cones and lava cones. Deep pit craters are interspersed throughout.

These Stand Out
Some of the outstanding sights are Devil's orchard, the field of crags south of Big Cinder cone, the field of cones on the "Great Rift," known as Sunset, Grassy, Silent, Big Cinder, Split and fissure cones.

DIERKE'S LAKE

- Fishing
- Boating
- Dancing
- Picnicing
- Boating
- Hiking

Enjoy a lively time picnicing, fishing, dancing just 5 miles from Twin Falls. Dance hall available for private parties.

POOL AND OTHER OFFERINGS MAKE BANBURY APPEAL WIDE

Aside from a pool known throughout the area, the Blue Springs and Box canyon are Banbury's bid to some fame. The Banbury pool, located 30 miles west of Twin Falls on the Old Oregon Trail, is easily reached by good roads. Twenty-nine of these miles are paved while the remaining mile, east of the trail, is gravelled.

Located on the banks of the broad Snake river, the area affords visitors opportunities for fishing, boating and scenic trips. Blue Springs alone, most people agree, is one of the most beautiful spots on the entire river.

Deep Under Surface
Deep, clear and cold, these springs come from the earth and are so blue in color that they shame the sky. The springs themselves can be easily seen deep under the water, moving sand here and there like a phantom hand skimming the surface of the ground.

Water for the pool, which leaves the ground at a temperature of 137 degrees, is cooled with spring water from across the river. The temperatures in the 60 by 120-foot cement pool is maintained at about 28 degrees.

Then there are North crater, Big craters and the waste of spatter cones.

When you survey Craters of the Moon, you'll ponder two things: Is the moon world above us really like this, and have the fires that produce this month desolation really ended for all time?

a. Full particulars can be had by contacting any employe of the hardware concern.

WHAT! A FIRESTONE TIRE AT 25% LESS?

I'LL TAKE A SET RIGHT NOW!

FIRESTONE Gives You This High Quality Tire at This New Low Price

Because Firestone saves money by controlling and securing rubber and cotton at the sources and by more efficient manufacturing and distributing. These savings make possible extra values at lower prices. You get:

High Quality—First choice rubber and selected cotton that conform to Firestone's high standards and rigid specifications.

Long Mileage—Safe, silent tread design made of tough, slow wearing rubber that assures long mileage. Sturdy bars and rugged notches give protection against skidding.

Blowout Protection—Nine extra pounds of rubber are added to every 100 pounds of cord by the Firestone Patented Gum-Dipping process. Every fiber of every cord in every ply is saturated with liquid rubber which counteracts internal friction and heat that ordinarily cause blowouts.

Puncture Protection—Due to the Firestone patented construction of two extra layers of Gum-Dipped cords under the tread.

New Low Prices—Never before have all these safety features been combined in a tire priced so low.

Don't take chances on your holiday trip. Come in today. Let us put a set of these large size, rugged, long wearing tires on your car—remember, you save 25%.

**BLINDING CANYON
NEWEST WONDER**

Although only an "infant" as compared to Idaho's "Blinding Canyon" which has been known for the longest of time, this new wonder of nature is located in the Snake river canyon between the rim to rim bridge and the Snake river bridge. It is a beautiful sight to see the water of the Snake river in the canyon. The distance is approximately 36 miles from Twin Falls.

It was on Aug. 10, 1897 that the world first heard of "Blinding Canyon" through a story which "broke" in the Evening Times. Less than 48 hours later the story had been carried in every daily paper in the United States and was already spreading to Europe, Canada, Mexico, Alaska and scores of other countries.

Once more than 17 acres of fertile farm- and grazing land, the "Blinding Canyon" now lies more than 200 feet below the surface of the surrounding land. What was formerly the original wall of the Little Salmon river canyon still stands, the area between it and the distance of more than 150 feet toward the ranch house of Harley Robertson having sunk deep into the earth.

Scientists of the national interest in the "Blinding Canyon" have been studying the cause of the phenomenon. It is believed that the canyon was formed by the action of water which has been eroding the land since the time of the last glacial period.

Mineral Properties in Magic Springs

The discovery of such mineral properties in Magic Springs has been a great discovery. The water is rich in radium and other minerals. It is a great health tonic and is used by many people.

At the present time, however, Magic Springs is not formally opened for the current season. For the present it is a very poor condition and I am trying to get official action in improving it.

The report has operated in other parts of the world and it is believed that the water can be gotten into possible places. The water is rich in radium and other minerals. It is a great health tonic and is used by many people.

There are four springs at the resort, and they have been turned into "hot mineral springs" in the "Blinding Canyon." It is a great health tonic and is used by many people.

Mary Alice Park Provides Rugged Beauty for Lure
Rugged scenic beauty probably unsurpassed within such a short distance of any city in the United States is the type found at one of the scenic drives, skirting the south rim of the Snake river canyon between the rim to rim bridge and the Snake river bridge. It is a beautiful sight to see the water of the Snake river in the canyon. The distance is approximately 36 miles from Twin Falls.

Three artificial lakes cover 15 acres of the 600-acre tract. One lake covers an area of 30 acres, another 20 acres and the third eight acres. In these lakes trout abound—and Edwin Damman, owner of the park, has built up a thriving trout business. Many trout now swim in the rivers and lakes over the entire nation "got their start" as eggs in one of the three artificial lakes in Mary Alice park.

And, not only that, but today Mr. Damman revealed that in the not so distant future he may provide that "lured businessman" type of fishing for those not wishing to invade the streams and lakes which abound in this section of Idaho.

To sun or to swim

the answer is Jantzen

WISP-O-WEIGHT

LASTEX AND WOOL
With such airy lightness, such third-down softness—it's almost incredible that a swim suit could be so firm in its girde fit. Truly a wisp of weight with pounds of figure control. Here are suits of sparkling originality, meticulously tailored to achieve the fashionable classic lines. Jantzen Wisp-o-weight suits of soft quick-drying resilient wool have Lastex yarn knitted in by a new and exclusive Jantzen process.
